OFFICE OF INTERNATIONAL
CORPORATE FINANCE

THE COMPANIES ACT 1985
SECTION 380(2)

Registered Number: 3273685

The following resolution was passed as an Ordinary Resolution by the shareholders of Northern Rock plc at the Company's Annual General Meeting held on 26 April 2005.

Ordinary Resolution

16. THAT, in substitution for all previous authorities conferred upon the Directors to allot relevant securities of the Company but without prejudice to the continuing authority of the Directors to allot relevant securities pursuant to an offer or agreement made by the Company before the revocation of the authority pursuant to which such offer or agreement was made, the authority conferred on the Directors by Article 10.1 of the Company's Articles of Association shall apply for the period commencing on the date of the passing of this Resolution and expiring on 25 April 2010 and for that period the section 80 amount shall be £41,296,625.

The following resolutions were passed as Special Resolutions by the shareholders of Northern Rock plc at the Company's Annual General Meeting held on 26 April 2005.

Special Resolution

17. THAT, subject to the passing of Resolution 16 in the Notice of this Meeting, the power conferred on the Directors by Article 10.2 of the Company's Articles of Association shall apply for the period commencing on the date of passing of this Resolution and expiring on the expiry or termination of the authority conferred on the Directors pursuant to Resolution 16 in the Notice of this Meeting and for that period the section 89 amount shall be £5,265,325.

Special Resolution

18. THAT the regulations in the form produced to the Annual General Meeting and initialled for the purposes of identification by the Chairman of the Meeting, be adopted as the new Articles of Association of the Company, in substitution for and to the exclusion of the existing Articles of Association of the Company, with effect from the conclusion of the Meeting.

Special Resolution

19. THAT, pursuant to Article 53, the Company be and is hereby granted general and unconditional authority for the purposes of section 166 of the Companies Act 1985 to make one or more market purchases (within the meaning of section 163(3) of the Companies Act 1985) of ordinary shares of 25p each in its capital provided that:

    a) the maximum aggregate number of ordinary shares hereby authorised to be purchased is 42,122,600 (representing 10% of the Company's issued ordinary share capital as at 31 December 2004);

    b) the minimum price which may be paid for such shares is 25p per share (exclusive of expenses);

c) the maximum price (exclusive of expenses) which may be paid for an ordinary share is an amount equal to 105% of the average of the middle market quotations for an ordinary share in the Company as derived from the London Stock Exchange's Daily Official List for the five business days immediately preceding the date on which the ordinary share is purchased;

d) unless previously renewed, varied or revoked, the authority hereby conferred shall expire at the conclusion of the Company's next Annual General Meeting or 18 months from the date of passing of this Resolution, whichever is earlier; and

e) the Company may make a contract or contracts to purchase ordinary shares under the authority hereby conferred prior to the expiry of such authority which will or may be executed wholly or partly after the expiry of such authority and may make a purchase of ordinary shares in pursuance of any such contract or contracts.

Special Resolution

20. THAT the contingent share purchase contract between the Company and The Northern Rock Foundation (a draft of which is produced to the Meeting and initialled by the Chairman for the purposes of identification), providing for the purchase by the Company of fully paid Foundation Shares in the share capital of the Company at such times and at such prices and in such numbers and otherwise on the other terms set out in such contract, be and is hereby approved and authorised generally (including, without limitation, for the purposes of sections 164 and 165 of the Companies Act 1985) but so that such approval and authority, unless previously renewed, varied or revoked, shall expire 18 months from the date of passing of this Resolution.

northern rock
NORTHERN ROCK PLC

(Incorporated with limited liability in England and Wales under the Companies Act 1985, registered number 3273685)

U.S.$15,000,000,000
Euro Medium Term Note Programme

This Offering Circular supersedes any previous prospectus or offering circular. Any Notes issued under the U.S.$15,000,000,000 Euro Medium Term Note Programme (the "Programme") are issued subject to the provisions set out herein. Other than as stated herein, this does not affect any Notes issued prior to the date hereof.

Pursuant to the Programme, Northern Rock plc (the "Issuer", "Northern Rock" or the "Company") may from time to time issue in one or more Tranches (as defined herein) of Notes (the "Notes", which expression shall include Senior Notes, Dated Subordinated Notes and Undated Subordinated Notes (each as defined herein)). The maximum aggregate nominal amount of all Notes from time to time outstanding will not exceed U.S.$15,000,000,000 (or its equivalent in other currencies calculated as described herein and subject to increase as provided herein).

Save as further described herein, Notes issued under the Programme may (i) be denominated in such currencies as may be agreed, (ii) be issued at par or at a premium or discount to par, (iii) be issued on a fully-paid or partly-paid basis, (iv) bear interest at a fixed or floating rate or on an index- or formula-linked basis or be issued on a non-interest bearing fully-discounted basis, (v) provide that the amount payable upon redemption is fixed or index- or formula-linked, (vi) provide that they will be redeemed in one amount or instalments or will have no final maturity date and/or (vii) provide that payments of principal and/or interest should be made in a currency or currencies other than the original currency of issue.

The Notes may be issued from time to time to one or more of the Dealers specified on page 5 (each a "Dealer" and together the "Dealers", which expression shall include any additional Dealer appointed under the Programme from time to time and which appointment may be for a specific issue or on an ongoing basis).

Application has been made to the Financial Services Authority in its capacity as competent authority under the Financial Services and Markets Act 2000 (the "UK Listing Authority") for Notes issued within 12 months from the date hereof to be admitted to the official list of the UK Listing Authority (the "Official List") and to the London Stock Exchange plc (the "London Stock Exchange") for such Notes to be admitted to trading on the London Stock Exchange's market for listed securities, which together, under the Listing Rules of the UK Listing Authority, will constitute official listing on the London Stock Exchange. Notice of the aggregate nominal amount of, interest (if any) payable in respect of, the issue price of, the issue date and maturity date (if any) of, and any other terms and conditions not contained herein which are applicable to, each Tranche of Notes will be set forth in a pricing supplement (the "Pricing Supplement") applicable to such Tranche which, with respect to Notes admitted to the Official List and to be admitted to trading by the London Stock Exchange, will be delivered to the UK Listing Authority and to the London Stock Exchange on or before the date of issue of such Tranche. A copy of this Offering Circular, which comprises the listing particulars approved by the UK Listing Authority as required by the Financial Services and Markets Act 2000 (the "FSMA") in relation to Notes admitted to the Official List and admitted to trading on the London Stock Exchange's market for listed securities (the "Listing Particulars") and issued during the period of 12 months from the date of this Offering Circular, has been delivered for registration to the Registrar of Companies in England and Wales as required by section 83 of the FSMA. Copies of each Pricing Supplement (in the case of Notes to be admitted to the Official List only) will be available from FT Business Research Centre operated by FT Interactive Data at Fitzroy House, 13-17 Epworth Street, London EC2A 4DL and will be available for inspection at the specified office set out below of the Trustee (as defined herein) and each of the Paying Agents (as defined herein).

The Programme provides that Notes may be listed on such other or further stock exchange(s) as may be agreed between the Issuer and the relevant Dealer(s). The Issuer may also issue unlisted Senior Notes under the Programme.

The Issuer may agree with any Dealer and the Trustee that Notes may be issued in a form not contemplated by the "Terms and Conditions of the Notes" herein, in which event (in the case of Notes admitted to the Official List only) supplementary listing particulars or further listing particulars, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Notes.

The Notes of each Tranche will be initially represented by a temporary global Note which will be deposited on the issue date with a common depositary on behalf of Euroclear Bank S.A./N.V., as operator of the Euroclear System ("Euroclear") and Clearstream Banking, société anonyme ("Clearstream, Luxembourg") and/or any other agreed clearing system which will be exchangeable, as specified in the applicable Pricing Supplement, either for a permanent global Note or Notes in definitive form, in each case upon certification as to non-U.S. beneficial ownership as required by U.S. Treasury regulations. The applicable Pricing Supplement will specify that a permanent global Note either (i) is exchangeable (in whole but not in part) for definitive Notes upon request or (ii) is only exchangeable (in whole but not in part) for definitive Notes following the occurrence of an Exchange Event (as defined on page 9), all as further described in "Form of the Notes" below.

The Programme has been rated by Standard & Poor's Ratings Services, a Division of the McGraw-Hill Companies Inc. ("Standard & Poor's"), Moody's Investors Service Limited ("Moody's") and by Fitch Ratings Ltd ("Fitch").

Notes issued under the Programme may be rated or unrated. Where an issue of Notes is rated, its rating will not necessarily be the same as the rating applicable to the Programme. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

The Issuer accepts responsibility for the information contained in this Offering Circular. To the best of the knowledge and belief of the Issuer (which has taken all reasonable care to ensure that such is the case) the information contained in this Offering Circular is in accordance with the facts and does not omit anything likely to affect the import of such information.

Any reference in this Offering Circular to Listing Particulars means this Offering Circular excluding all information incorporated by reference. The Issuer has confirmed that any information incorporated by reference including any such information to which readers of this document are expressly referred, has not been and does not need to be included in the Listing Particulars to satisfy the requirements of the FSMA, or the Listing Rules of the UK Listing Authority. The Issuer believes that none of the information incorporated in this Offering Circular by reference conflicts in any material respect with the information included in the Listing Particulars.

This Offering Circular is to be read in conjunction with all documents which are deemed to be incorporated herein by reference (see "Documents Incorporated By Reference" on page 4). This Offering Circular shall, save as specified herein, be read and construed on the basis that such documents are so incorporated and form part of this Offering Circular but not part of the Listing Particulars.

Neither the Dealers nor the Trustee have separately verified the information contained in this Offering Circular. Accordingly, no representation, warranty or undertaking, express or implied, is made, and no responsibility or liability is accepted, by the Dealers or the Trustee as to the accuracy or completeness of the information contained in this Offering Circular, or any other financial statement or any further information supplied in connection with the Programme or the Notes or their distribution. Neither the Dealers nor the Trustee accept any liability in relation to the information contained in this Offering Circular or any other information provided by the Issuer in connection with the Programme.

No person is or has been authorised to give any information or to make any representation in connection with the offering, distribution or sale of the Notes other than as contained in, or consistent with, this Offering Circular and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, the Dealers or the Trustee.

None of this Offering Circular and any financial statements and any further information supplied in connection with the Notes is intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation or constituting an offer or invitation by or on behalf of the Issuer, any of the Dealers or the Trustee that any recipient of this Offering Circular or any financial statements or any further information supplied in connection with the Notes should subscribe for or purchase any of the Notes. Each investor contemplating purchasing Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer.

The delivery of this Offering Circular does not at any time imply that the information contained herein concerning the Issuer is correct at any time subsequent to the date hereof or that any other financial statements or any further information supplied in connection with the Notes is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers and the Trustee expressly do not undertake to review the financial condition or affairs of the Issuer and its subsidiaries during the life of the Programme. Investors should review, *inter alia*, the documents deemed incorporated herein by reference when deciding whether or not to purchase any of the Notes.

The distribution of this Offering Circular and the offer, distribution or sale of Notes may be restricted by law in certain jurisdictions. The Issuer, the Dealers and the Trustee do not represent that this document may be lawfully distributed, or that the Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer, the Dealers or the Trustee (save for the approval of this document as listing particulars by the UK Listing Authority and delivery of a copy of this document to the Registrar of Companies in England and Wales) which would permit a public offering of the Notes or distribution of this document in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and

neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations and the Dealers have represented that all offers and sales by them will be made on the same terms. Persons into whose possession this Offering Circular or any Notes come must inform themselves about, and observe, any such restrictions. In particular, there are restrictions on the distribution of this Offering Circular and the offer or sale of Notes in the United States, the United Kingdom, Japan, Germany, France and The Netherlands (see "Subscription and Sale" on page 48).

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended, (the "Securities Act") and are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered, directly or indirectly, within the United States or to U.S. persons as defined herein (see "Subscription and Sale").

In this Offering Circular, references to "£", "pounds" and "Sterling" are to pounds sterling, references to "U.S.$" and "U.S. Dollars" are to United States dollars, references to "cents" are to United States cents, references to "Yen" and "¥" are to Japanese Yen and references to "euro" and "€" are to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty establishing the European Community as amended.

In connection with the issue and distribution of any Tranche of Notes, the Dealer (if any) disclosed as stabilising manager in the applicable Pricing Supplement or any person acting for him may over-allot or effect transactions with a view to supporting the market price of the Series (as defined herein) of which such Tranche forms part at a level higher than that which might otherwise prevail for a limited period in accordance with applicable laws and regulations. However, there may be no obligation on the stabilising manager or any agent of his to do this. Such stabilising, if commenced, may be discontinued at any time and must be brought to an end after a limited period.

DOCUMENTS INCORPORATED BY REFERENCE

The following documents shall be deemed to be incorporated in, and to form part of, this Offering Circular (provided however that such incorporated documents do not form a part of the Listing Particulars):

(1) the most recently published Annual Report and Accounts of the Issuer from time to time; and

(2) all supplements to this Offering Circular circulated by the Issuer from time to time in accordance with the provisions of the Programme Agreement described below,

provided also that any statement contained herein or in a document all or the relative portion of which is deemed to be incorporated by reference herein shall be deemed to be modified or superseded for the purpose of this Offering Circular (but not the Listing Particulars) to the extent that a statement contained in any subsequent document all or the relative portion of which is deemed to be incorporated by reference herein modifies or supersedes such earlier statement (whether expressly, by implication or otherwise).

The Issuer will provide, without charge, to each person to whom a copy of this Offering Circular has been delivered, upon the written request of any such person, a copy of any or all of the documents deemed to be incorporated herein by reference unless such documents have been modified or superseded as specified above. Written requests for such documents should be directed to the Issuer at its registered office set out at the end of this Offering Circular and marked for the attention of the Group Treasury Administration Manager. In addition such documents will be available from the principal office in England of Merrill Lynch International in its capacity as authorised adviser (the "Authorised Adviser") for Notes admitted to the Official List.

SUPPLEMENTARY LISTING PARTICULARS

The Issuer has undertaken to the Dealers in the Programme Agreement (as defined in "Subscription and Sale" on page 48) to comply with Sections 81 and 83 of the FSMA and the Listing Rules of the UK Listing Authority in that regard.

If the terms of the Programme are modified or amended in a manner which would make this Offering Circular, as supplemented, inaccurate or misleading, a new Offering Circular will be prepared.

DESCRIPTION OF THE PROGRAMME

The Issuer may, from time to time, issue Notes denominated in such currencies as may be agreed with the relevant Dealer(s), subject as set out herein.

The issue price, issue date, maturity date (if any), nominal amount and interest rate (if any) applicable to any Note and any other relevant provisions of such Note will be agreed between the Issuer and the relevant Dealer(s) at the time of agreement to issue and will be specified in the applicable Pricing Supplement, as more fully described under "Form of the Notes" below.

Subject as set out herein, this Offering Circular and any supplement hereto will only be valid for listing Notes on the Official List during the period of 12 months from the date of this Offering Circular in an aggregate nominal amount of up to U.S.$15,000,000,000 (or its equivalent in the other currencies specified herein) outstanding at any one time, calculated on the basis specified in "Form of the Notes" below.

SUMMARY OF THE PROGRAMME AND TERMS AND CONDITIONS OF THE NOTES

The following summary does not purport to be complete and is taken from, and is qualified by, the remainder of this document and, in relation to the terms and conditions of any particular Tranche of Notes, the applicable Pricing Supplement. Words and expressions defined in "Form of the Notes" and "Terms and Conditions of the Notes" below shall have the same meanings in this summary.

Arranger:	Merrill Lynch International
Dealers:	Barclays Bank PLC Deutsche Bank AG London HSBC Bank plc Lehman Brothers International (Europe) Merrill Lynch International J.P. Morgan Securities Ltd. The Royal Bank of Scotland plc UBS Limited
Certain Restrictions:	Each issue of Notes denominated in a currency in respect of which particular laws, guidelines, regulations, restrictions or reporting requirements apply will only be issued in circumstances which comply with such laws, guidelines, regulations, restrictions or reporting requirements from time to time (see "Subscription and Sale" on page 48).
Distribution:	Notes may be distributed by way of private or public placement and in each case on either a syndicated or non-syndicated basis.
Trustee:	The Law Debenture Trust Corporation p.l.c.
Issuing and Principal Paying Agent and Agent Bank:	Citibank, N.A.
Amount:	Up to U.S.$15,000,000,000 nominal amount outstanding at any time or its equivalent in other currencies as described herein. The Issuer may increase the amount of the Programme in accordance with the terms of the Programme Agreement.
Currencies:	Subject to any applicable legal or regulatory restrictions, such currency or currencies as may be agreed from time to time by the Issuer, the relevant Dealer(s), the Agent and the Trustee.
Redenomination:	The applicable Pricing Supplement may provide that certain Notes may be redenominated in euro. If so, the redenomination provisions will be set out in the applicable Pricing Supplement.
Maturities:	Such maturities as may be agreed between the Issuer and the relevant Dealer and as indicated in the applicable Pricing Supplement, subject to such minimum or maximum maturities as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the Issuer or the relevant Specified Currency. At the date of this Offering Circular, the minimum maturity of all Notes is six months, save that (i) Subordinated Notes may be undated, (ii) in the case of Dated Subordinated Notes, the minimum maturity will be five years and one day and (iii) in any case such other minimum or maximum maturity as may be

required from time to time by the relevant monetary authority or any laws or regulations applicable to the relevant Specified Currency.

Issue Price: Notes may be issued at par or at a premium or discount to par and may be issued on a fully-paid or partly-paid basis.

Form: Each Tranche of Notes will be in bearer form and will be initially represented by a temporary global Note which will be deposited on the Issue Date with a common depositary for Euroclear and Clearstream, Luxembourg and/or any other agreed clearing system and which will be exchangeable upon request as described therein for either a permanent global Note or definitive Notes (as indicated in the applicable Pricing Supplement), in each case not earlier than 40 days after the Issue Date upon certification as to non-U.S. beneficial ownership as required by U.S. Treasury regulations. The applicable Pricing Supplement will specify that a permanent global Note either (i) is exchangeable (in whole but not in part) for definitive Notes upon not less than 45 days' written notice or (ii) is only exchangeable (in whole but not in part) for definitive Notes upon the occurrence of an Exchange Event, as described in "Form of the Notes" below. Any interest in a global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear and/or Clearstream, Luxembourg and/or any other agreed clearing system, as appropriate.

Notes to be issued under the Programme will be Senior Notes, Dated Subordinated Notes or Undated Subordinated Notes.

Fixed Rate Notes: Fixed interest will be payable on such date or dates as may be agreed between the Issuer and the relevant Dealer(s) and on redemption, and will be calculated on the basis of such Day Count Fraction as may be agreed between the Issuer and the relevant Dealer(s) and indicated in the applicable Pricing Supplement.

Floating Rate Notes: Floating Rate Notes will bear interest at a rate determined either:

(i) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the 2000 ISDA Definitions (as published by the International Swaps and Derivatives Association, Inc., and as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series); or

(ii) on the basis of a reference rate appearing on an agreed screen page of a commercial quotation service; or

(iii) on such other basis as may be agreed between the Issuer and the relevant Dealer(s),

as indicated in the applicable Pricing Supplement.

The Margin (if any) relating to such floating rate will be agreed between the Issuer and the relevant Dealer(s) for each issue of Floating Rate Notes.

Index Linked Notes: Payments of principal in respect of Index Linked Redemption Notes or of interest in respect of Index Linked Interest Notes will be calculated by reference to such index and/or formula or to changes in the prices of securities or commodities or to such other factors as the Issuer and the relevant Dealer(s) may agree (as indicated in the applicable Pricing Supplement).

Other provisions in relation to Floating Rate Notes and Index Linked Interest Notes: Floating Rate Notes and Index Linked Interest Notes may also have a maximum interest rate, a minimum interest rate or both (as indicated in the applicable Pricing Supplement).

Interest on Floating Rate Notes and Index Linked Interest Notes in respect of each Interest Period, as agreed prior to issue by the Issuer and the relevant Dealer(s), will be payable on such Interest Payment Dates and will be calculated on the basis of such Day Count Fraction as may be agreed between the Issuer and the relevant Dealer(s).

Dual Currency Notes: Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of Dual Currency Notes will be made in such currencies, and based on such rates of exchange, as the Issuer and the relevant Dealer(s) may agree (as indicated in the applicable Pricing Supplement).

Zero Coupon Notes: Zero Coupon Notes will not bear interest and will be offered and sold at a discount to their nominal amount unless otherwise specified in the applicable Pricing Supplement.

Redemption: The applicable Pricing Supplement relating to each Tranche of Notes will indicate either that (except for Undated Subordinated Notes which will not have a stated maturity) the Notes of such Tranche cannot be redeemed prior to their stated maturity (other than in specified instalments (see below), if applicable, or for taxation reasons (subject, in the case of Subordinated Notes only, to having obtained the prior consent of the Financial Services Authority) or following an Event of Default) or that such Notes will be redeemable at the option of the Issuer (subject, in the case of Subordinated Notes only, to having obtained the prior consent of the Financial Services Authority) and/or the Noteholders upon giving not more than 60 nor less than 30 days' irrevocable notice (or such other notice period (if any) as is indicated in the applicable Pricing Supplement) to the Noteholders or the Issuer, as the case may be, on a date or dates specified prior to such stated maturity (if any) and at a price or prices and on such terms as are indicated in the applicable Pricing Supplement.

The applicable Pricing Supplement may provide that Notes may be redeemed in two or more instalments of such amounts and on such dates as are indicated in such Pricing Supplement.

Denomination of Notes: Notes will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer(s) and as indicated in the applicable Pricing Supplement save that the minimum denomination of each Note will be such as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency.

Taxation: All payments in respect of the Notes will be made without deduction for or on account of United Kingdom withholding taxes, subject to certain exceptions as are described in Condition 10.

Status of the Senior Notes: The Senior Notes will constitute direct, unconditional and (subject to the provisions of Condition 4) unsecured obligations of the Issuer ranking pari passu and without any preference among themselves and (subject as aforesaid and to any applicable statutory provisions) at least equally with all other present and future unsecured and unsubordinated obligations of the Issuer from time to time outstanding.

Status of the Subordinated Notes: The Subordinated Notes will be direct, unsecured, subordinated obligations of the Issuer and will rank pari passu and without any preference among themselves.

The rights of holders of Subordinated Notes will be subordinated in right of payment in the manner provided in the Trust Deed and as specified in Condition 3.

Rating:	The Programme has been rated by Standard & Poor's, by Moody's and by Fitch. Notes issued under the Programme may be rated or unrated. Where an issue of Notes is rated, its rating will not necessarily be the same as the rating applicable to the Programme. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.
Cross Default:	The Senior Notes will contain a cross default clause in respect of indebtedness for moneys borrowed (as defined in the Trust Deed) of, or guaranteed by, the Issuer or any Material Subsidiary having an outstanding aggregate principal amount of at least the Specified Amount as more fully described in Condition 11.
Negative Pledge:	The Senior Notes will contain a negative pledge provision as more fully described in Condition 4.
Listing:	Application has been made to admit Notes issued under the Programme to the Official List and to admit them to trading on the London Stock Exchange's market for listed securities. Notes may be unlisted (other than Subordinated Notes) or may be listed on such other or further stock exchange(s) as may be agreed between the Issuer and the relevant Dealer(s) in relation to each issue. The Pricing Supplement relating to each Tranche of Notes will state whether or not the Notes are to be listed.
Governing Law:	The Notes will be governed by, and construed in accordance with, English law.
Selling Restrictions:	There are selling restrictions in relation to the offering and sale of a particular Tranche of Notes. See "Subscription and Sale".

FORM OF THE NOTES

Each Tranche of Notes will be in bearer form and will be initially represented by a temporary global Note without receipts, interest coupons or talons, which will be delivered to a common depositary for Euroclear and Clearstream, Luxembourg and/or any other agreed clearing system. Whilst any Note is represented by a temporary global Note, payments of principal and interest (if any) due prior to the Exchange Date (as defined below) will be made against presentation of the temporary global Note only to the extent that certification as to non-U.S. beneficial ownership as required by U.S. Treasury regulations (as referred to in the temporary global Note) has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certificate (based on the certifications it has received) to the Agent.

On and after the date (the "Exchange Date") which is 40 days after the date on which the temporary global Note is issued, interests in the temporary global Note will be exchangeable, upon request being made by Euroclear and/or Clearstream, Luxembourg acting on the instructions of the holders of interests in the temporary global Note, either for interests in a permanent global Note without receipts, interest coupons or talons or for definitive Notes (as indicated in the applicable Pricing Supplement and subject, in the case of definitive Notes, to such notice period as is specified in the applicable Pricing Supplement) in each case against certification as to non-U.S. beneficial ownership as described in the second sentence of the preceding paragraph unless such certification has already been given. The holder of a temporary global Note will not be entitled to receive any payment of interest or principal due on or after the Exchange Date unless upon due certification exchange of the temporary global Note is improperly withheld or refused. Pursuant to the Agency Agreement (as defined under "Terms and Conditions of the Notes" below), the Agent shall arrange that, where a further Tranche of Notes is issued, the Notes of such Tranche shall be assigned a common code and an International Security Identification Number ("ISIN") by Euroclear and Clearstream, Luxembourg which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series until at least 40 days (as certified by the Agent to the relevant Dealer(s)/lead manager) after the completion of the distribution of the Notes of such first-mentioned Tranche (the date of completion of the distribution of such Notes having been previously notified to the Agent by such Dealer(s)/lead manager).

Payments of principal and interest (if any) on a permanent global Note will be made through Euroclear and/or Clearstream, Luxembourg against presentation or surrender (as the case may be) of the permanent global Note without any requirement for certification. The applicable Pricing Supplement will specify that a permanent global Note will be exchangeable (free of charge), in whole but not in part, for definitive Notes with, where applicable, receipts, interest coupons and talons attached either (i) upon not less than 45 days' written notice (expiring at least 30 days after the Exchange Date) from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such permanent global Note) to the Agent as described therein or (ii) upon not less than 45 days' written notice (expiring at least 30 days after the Exchange Date) to the Agent as described below only upon the occurrence of an Exchange Event as described therein. "Exchange Event" means (i) an Event of Default has occurred and is continuing, (ii) the Issuer has been notified that either Euroclear or Clearstream, Luxembourg has been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or has announced an intention permanently to cease business or has in fact done so and no alternative clearing system satisfactory to the Trustee is available or (iii) the Issuer has been notified that the Trustee is satisfied that the Issuer has or will become obliged to pay additional amounts as provided for or referred to in Condition 10 which would not be required were the Notes represented by the permanent global Note in definitive form. The Issuer will promptly give notice to Noteholders in accordance with Condition 19 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such permanent global Note) may give notice to the Agent requesting exchange and in the event of the occurrence of an Exchange Event as described in (iii) above, the Issuer may also give notice to the Agent requesting exchange. Any such exchange will be made upon presentation of such permanent global Note by the bearer thereof on any day (other than a Saturday or Sunday) on which banks are open for business in London at the specified office of the Agent. Temporary and permanent global Notes and definitive Notes will be authenticated (if applicable) and delivered by the Agent on behalf of the Issuer.

The following legend will appear on all Notes which have an original maturity of more than 365 days and on all receipts and interest coupons relating to such Notes:—

"Any United States person (as defined in the Internal Revenue Code of the United States) who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in sections 165(j) and 1287(a) of the Internal Revenue Code."

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Notes, receipts or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition or payment of principal in respect of Notes, receipts or interest coupons.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Pricing Supplement.

FORM OF PRICING SUPPLEMENT

Set out below is the form of Pricing Supplement which will be completed for each Tranche of Notes issued under the Programme.

[*Date*]

NORTHERN ROCK PLC

Issue of [Aggregate Nominal Amount of Tranche] [Title of Notes]
under the U.S.$15,000,000,000
Euro Medium Term Note Programme

This document constitutes the Pricing Supplement relating to the issue of the Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the Offering Circular dated 9th May, 2005. This Pricing Supplement contains the final terms of the Notes and must be read in conjunction with such Offering Circular.

[*The following alternative language applies if the first tranche of an issue which is being increased was issued under an Offering Circular with an earlier date.*

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the **Conditions**) set forth in the Offering Circular dated [*original date*]. This Pricing Supplement contains the final terms of the Notes and must be read in conjunction with the Offering Circular dated [*current date*], save in respect of the Conditions which are extracted from the Offering Circular dated [*original date*] and are attached hereto.]

[*Include whichever of the following apply or specify as "Not Applicable" (N/A). Note that the numbering should remain as set out below, even if "Not Applicable" is indicated for individual paragraphs or sub-paragraphs.*]

1.	Issuer:	Northern Rock plc
2.	(i) Series Number:	[ ]
	(ii) Tranche Number:	[ ] *(If fungible with an existing Series, details of that Series, including the date on which the Notes become fungible)*
3.	Specified Currency or Currencies:	[ ]

4.	Aggregate Nominal Amount:	
	– Tranche:	[ ]
	– Series:	[ ]
5.	[(i)] Issue Price of Tranche:	[ ] per cent. of the Aggregate Nominal Amount [plus accrued interest from [ ] (in the case of fungible issues only, if applicable)]
	[(ii) Net proceeds (*Required only for listed issues*):	[ ]]
6.	Specified Denominations:	[ ] [ ]
7.	[(i)] Issue Date [and Interest Commencement Date]:	[ ]
	[(ii) Interest Commencement Date (if different from the Issue Date):	[ ]]
8.	Maturity Date:	[*Fixed rate – specify date/Floating rate* – Interest Payment Date falling in or nearest to [*specify month*]]
9.	Interest Basis:	[[ ] per cent. Fixed Rate] [[LIBOR/EURIBOR] +/- [ ] per cent. Floating Rate] [Zero Coupon] [Index Linked Interest] [Dual Currency] [*specify other*] (further particulars specified below)
10.	Redemption/Payment Basis:	[Redemption at par] [Index Linked Redemption] [Dual Currency] [Partly Paid] [Instalment] [*specify other*]
11.	Change of Interest Basis or Redemption/Payment Basis:	[*Specify details of any provision for change of Notes into another Interest Basis or Redemption/Payment Basis*]

13.	Status of the Notes:	[Senior/[Dated/Undated]Subordinated]
14.	Listing:	[London/*specify other*/None]
15.	Method of Distribution:	[Syndicated/Non-syndicated]

PROVISIONS RELATING TO INTEREST (IF ANY) PAYABLE

16.	Fixed Rate Note Provisions	[Applicable/Not Applicable] (*If not applicable, delete the remaining sub-paragraphs of this paragraph*)

(i)	Rate(s) of Interest:	[ ] per cent. per annum [payable [annually/semi-annually/quarterly] in arrear] (*If payable other than annually, consider amending Condition 5*)
(ii)	Interest Payment Date(s):	[[ ] in each year up to and including the Maturity Date]/[*specify other*]] (*NB: This will need to be amended in the case of long or short coupons*)
(iii)	Fixed Coupon Amount(s):	[ ] per [ ] in nominal amount
(iv)	Broken Amount(s):	[*Insert particulars of any initial or final broken interest amounts which do not correspond with the Fixed Coupon Amount*]
(v)	Day Count Fraction:	[Actual/Actual (ISMA) or 30/360 or *specify other*]
(vi)	Determination Date(s):	[ ] in each year [*Insert regular interest payment dates, ignoring issue date or maturity date in the case of a long or short first or last coupon*] (*NB: This will need to be amended in the case of regular interest payment dates which are not of equal duration*) (*NB: Only relevant where Day Count Fraction is Actual/Actual (ISMA)*)
(vii)	Other terms relating to the method of calculating interest for Fixed Rate Notes:	[None/*Give details*]
17.	Floating Rate Note Provisions	[Applicable/Not Applicable] (*If not applicable, delete the remaining sub-paragraphs of this paragraph*)
(i)	Specified Period(s)/Specified Interest Payment Dates:	[ ]
(ii)	Business Day Convention:	[Floating Rate Convention/Following Business Day Convention/Modified Following Business Day Convention/ Preceding Business Day Convention/[*specify other*]]
(iii)	Additional Business Centre(s):	[ ]
(iv)	Manner in which the Rate of Interest and Interest Amount is to be determined:	[ISDA Determination/Screen Rate Determination/*specify other*]
(v)	Party responsible for calculating the Rate of Interest and Interest Amount (if not the Agent):	[ ]
(vi)	Screen Rate Determination:	
	– Reference Rate:	[ ] (*Either LIBOR, EURIBOR or other, although additional information is required if other – including fallback provisions in the Agency Agreement*)

	– Interest Determination Date(s):	[ ] (*Second day on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in London prior to the start of each Interest Period if LIBOR (other than Sterling or euro LIBOR), first day of each Interest Period if Sterling LIBOR and the second day on which the TARGET System is open prior to the start of each Interest Period if EURIBOR or euro LIBOR*)
	– Relevant Screen Page:	[ ] (*In the case of EURIBOR, if not Moneyline Telerate Page 248 ensure it is a page which shows a composite rate or amend the fallback provisions appropriately*)
(vii)	ISDA Determination:	
	– Floating Rate Option:	[ ]
	– Designated Maturity:	[ ]
	– Reset Date:	[ ]
(viii)	Margin(s):	[+/-] [ ] per cent. per annum
(ix)	Minimum Rate of Interest:	[ ] per cent. per annum
(x)	Maximum Rate of Interest:	[ ] per cent. per annum
(xi)	Day Count Fraction:	[Actual/365 Actual/365 (Fixed) Actual/365 (Sterling) Actual/360 Actual/Actual (ISDA) 30/360 30E/360 *Other*] (*See Condition 5 for alternatives*)
(xii)	Fall back provisions, rounding provisions and any other terms relating to the method of calculating interest on Floating Rate Notes, if different from those set out in the Conditions:	[ ]
18.	Zero Coupon Note Provisions	[Applicable/Not Applicable] (*If not applicable, delete the remaining sub-paragraphs of this paragraph*)
(i)	Accrual Yield:	[ ] per cent. per annum
(ii)	Reference Price:	[ ]
(iii)	Any other formula/basis of determining amount payable:	[ ]
(iv)	Day Count Fraction in relation to Early Redemption Amounts and late payment:	[Conditions 6(*f*) and 6(*g*)(iii) *apply/specify other*] (*Consider applicable day count fraction if not U.S. dollar denominated*)

19.	Index Linked Interest Note Provisions		[Applicable/Not Applicable] (*If not applicable, delete the remaining sub-paragraphs of this paragraph*)
	(i)	Index/Formula:	[*give or annex details*]
	(ii)	Calculation Agent responsible for calculating the interest due:	[ ]
	(iii)	Provisions for determining Coupon where calculation by reference to Index and/or Formula is impossible or impracticable:	[ ]
	(iv)	Specified Period(s)/Specified Interest Payment Dates:	[ ]
	(v)	Business Day Convention:	[Floating Rate Convention/Following Business Day Convention/Modified Following Business Day Convention/Preceding Business Day Convention/*specify other*]
	(vi)	Additional Business Centre(s):	[ ]
	(vii)	Minimum Rate of Interest:	[ ] per cent. per annum
	(viii)	Maximum Rate of Interest:	[ ] per cent. per annum
	(ix)	Day Count Fraction:	[ ]
20.	Dual Currency Note Provisions		[Applicable/Not Applicable] (*If not applicable, delete the remaining sub-paragraphs of this paragraph*)
	(i)	Rate of Exchange/method of calculating Rate of Exchange:	[*give details*]
	(ii)	Calculation Agent, if any, responsible for calculating the principal and/or interest payable:	[ ]
	(iii)	Provisions applicable where calculation by reference to Rate of Exchange impossible or impracticable:	[ ]
	(iv)	Person at whose option Specified Currency(ies) is/are payable:	[ ]

PROVISIONS RELATING TO REDEMPTION

21.	Issuer Call:		[Applicable/Not Applicable] (*If not applicable, delete the remaining sub-paragraphs of this paragraph*)
	(i)	Optional Redemption Date(s):	[ ]
	(ii)	Optional Redemption Amount of each Note and method, if any, of calculation of such amount(s):	[ ]
	(iii)	If redeemable in part:	
		– Minimum Redemption Amount:	[ ]
		– Higher Redemption Amount:	[ ]

	(iv) Notice period (if other than as set out in the Conditions):	[ ] (*N.B. If setting notice periods which are different to those provided in the Conditions, the Issuer is advised to consider the practicalities of distribution of information through intermediaries, for example, clearing systems and custodians, as well as any other notice requirements which may apply, for example, as between the Issuer and the Agent or Trustee*)
22.	Investor Put:	[Applicable/Not Applicable] (*If not applicable, delete the remaining sub-paragraphs of this paragraph*)
	(i) Optional Redemption Dates(s):	[ ]
	(ii) Optional Redemption Amount of each Note and method, if any, of calculation of such amount(s):	[ ] per Note of [ ] Specified Denomination
	(iii) Notice period (if other than as set out in the Conditions):	[ ] (*N.B. If setting notice periods which are different to those provided in the Conditions, the Issuer is advised to consider the practicalities of distribution of information through intermediaries, for example, clearing systems and custodians, as well as any other notice requirements which may apply, for example, as between the Issuer and the Agent or Trustee*)
23.	Final Redemption Amount of each Note:	[[ ] per Note of [ ] Specified Denomination/*specify other*/see Appendix]
24.	Early Redemption Amount of each Note payable on redemption for taxation reasons or on event of default and/or the method of calculating the same (if required or if different from that set out in Condition 6(*g*)):	[ ]

GENERAL PROVISIONS APPLICABLE TO THE NOTES

25.	Form of Notes:	Temporary Global Note exchangeable for Permanent Global Note which is exchangeable for Definitive Notes [on 45 days' notice given at any time/only upon an Exchange Event] [Temporary Global Note exchangeable for Definitive Notes on and after the Exchange Date]
26.	Additional Financial Centre(s) or other special provisions relating to Payment Dates:	[Not Applicable/*give details*] (*Note that this item relates to the place of payment and not Interest Period end dates to which items 17(iii) and 19(vi) relate*)
27.	Talons for future Coupons or Receipts to be attached to Definitive Notes (and dates on which such Talons mature):	[Yes/No. *If yes, give details*]

28.	Details relating to Partly Paid Notes: amount of each payment comprising the Issue Price and date on which each payment is to be made and consequences of failure to pay, including any right of the Issuer to forfeit the Notes and interest due on late payment:	[Not Applicable/*give details NB: a new form of Temporary Global Note and/or Permanent Global Note may be required for Partly Paid issues*]
29.	Details relating to Instalment Notes:	
	Instalment Amount(s):	[Not Applicable/*give details*]
	Instalment Date(s):	[Not Applicable/*give details*]

35.	Additional selling restrictions:	[Not Applicable/*give details*]

OPERATIONAL INFORMATION

36.	Any clearing system(s) other than Euroclear and Clearstream, Luxembourg and the relevant identification number(s):	[Not Applicable/*give name(s) and number(s)*]
37.	Delivery:	Delivery [against/free of] payment
38.	Additional Paying Agent(s) (if any):	[ ]

ISIN: [ ]

Common Code: [ ]

[LISTING APPLICATION

This Pricing Supplement comprises the final terms required to list the issue of Notes described herein pursuant to the U.S.$15,000,000,000 Euro Medium Term Note Programme of Northern Rock plc.]

RESPONSIBILITY

The Issuer accepts responsibility for the information contained in this Pricing Supplement.

Signed on behalf of the Issuer:

By:.....

Duly authorised

For the purpose of calculating the U.S. dollar equivalent of the aggregate nominal amount of Notes outstanding under the Programme from time to time, the U.S. dollar equivalent of Notes denominated in another Specified Currency shall be determined, at the discretion of the Issuer, either as of the date of agreement to issue such Notes (the "Agreement Date") or on the preceding day on which commercial banks and foreign exchange markets are open for business in London, in each case on the basis of the spot rate for the sale of the U.S. dollar against the purchase of such Specified Currency in the London foreign exchange market quoted by any leading bank selected by the Issuer on such date.

The U.S. dollar equivalent of any Dual Currency Notes, Index Linked Notes and Partly Paid Notes shall be calculated in the manner specified above by reference to the original nominal amount on issue of such Notes (in the case of Partly Paid Notes regardless of the amount of the subscription price paid). The U.S. dollar equivalent of any Zero Coupon Note and any other Note issued at a discount or a premium shall be calculated in the manner specified above by reference to the net proceeds received by the Issuer for the relevant issue.

If the applicable Pricing Supplement relating to a Tranche of Notes specifies any modifications to the Terms and Conditions of a Tranche of Notes as described below, it is envisaged that, to the extent that such modifications relate only to Conditions 1, 5, 6 (except 6(*b*)), 7, 8, 9, 16, 17 and 19 (insofar as such Notes are not listed or admitted to trading on any stock exchange) they will not necessitate the preparation and issue of supplementary listing particulars. If the Terms and Conditions of the Notes are to be modified in any other respect, supplementary listing particulars or further listing particulars, if appropriate, describing the modifications will be prepared and issued.

TERMS AND CONDITIONS OF THE NOTES

The following are the Terms and Conditions of the Notes which will be incorporated by reference into each Global Note and each definitive Note, in the latter case only if permitted by the relevant stock exchange or other relevant authority (if any) and agreed by the Issuer and the relevant Dealer(s) at the time of issue but if not so permitted and agreed, such definitive Note will have endorsed upon or attached thereto such Terms and Conditions. The applicable Pricing Supplement in relation to any Tranche of Notes may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with such Terms and Conditions, supplement, replace or modify the following Terms and Conditions for the purpose of such Tranche of Notes. The applicable Pricing Supplement (or the relevant provisions thereof) will be endorsed upon, or attached to, each Global Note and definitive Note. Reference should be made to "Form of the Notes" above for the form of the Pricing Supplement which will include the definition of certain terms used in the following Terms and Conditions or specify which of such terms are to apply in relation to the relevant Notes.

This Note is one of a Series of notes (the notes of such Series being hereinafter called the "Notes", which expression shall mean (i) in relation to Notes represented by a Global Note, units equal to the lowest Specified Denomination in the Specified Currency, (ii) definitive Notes issued in exchange for a Global Note and (iii) any Global Note) constituted by a Trust Deed dated 15th March, 1994 (such Trust Deed as modified and/or supplemented and/or restated from time to time, the "Trust Deed").

Payment in respect of the Notes will be made under an amended and restated Agency Agreement (the "Agency Agreement") dated 9th May, 2003 made between the Issuer, Citibank, N.A., as issuing agent, principal paying agent and agent bank (the "Agent", which expression shall include any successor as agent), the other paying agent named therein (together with the Agent, the "Paying Agents", which expression shall include any additional or successor paying agent) and the Trustee.

Interest bearing definitive Notes (unless otherwise indicated in the applicable Pricing Supplement) have interest coupons ("Coupons") and, if indicated in the applicable Pricing Supplement, talons for further Coupons ("Talons") attached on issue. Any reference in these Terms and Conditions to Coupons or coupons shall, unless the context otherwise requires, be deemed to include a reference to Talons or talons. Definitive Notes redeemable in instalments will have instalment receipts ("Receipts") for the payment of the instalments of principal (other than the final instalment) attached on issue.

The Pricing Supplement (or the relevant provisions thereof) for the Notes is endorsed upon or attached to any Global Note and any Note in definitive form. The Pricing Supplement (or such relevant provisions thereof) supplements these Terms and Conditions and may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with these Terms and Conditions, supplement, replace or modify these Terms and Conditions for the purposes of this Note. References herein to "applicable Pricing Supplement" are to the Pricing Supplement attached hereto or to the relevant provisions thereof endorsed hereon.

The Trustee acts for the benefit of the holders of the Notes (the "Noteholders", which expression shall, in relation to any Notes represented by a Global Note, be construed as provided below), the holders of the Receipts (the "Receiptholders") and the holders of the Coupons (the "Couponholders", which expression shall, unless the context otherwise requires, include the holders of the talons), all in accordance with the provisions of the Trust Deed.

As used herein, "Tranche" means Notes which are identical in all respects (including as to listing) and "Series" means a Tranche of Notes together with any further Tranche or Tranches of Notes which (i) are expressed to be consolidated and form a single series and (ii) are identical in all respects (including as to listing) except for their respective Issue Dates, Interest Commencement Dates and/or Issue Prices.

Copies of the Trust Deed, the Agency Agreement and each Pricing Supplement are available for inspection at the registered office of the Trustee, being at 9th May, 2003 at Fifth Floor, 100 Wood Street, London EC2V 7EX and at the specified office of each of the Agent and the other Paying Agents save that, in the case of any Pricing Supplement where the Note or Notes to which such Pricing Supplement relates are not listed on a stock exchange, such Pricing Supplement shall be available for inspection only by the

relevant Dealer or Dealers specified in such Pricing Supplement or, upon proof satisfactory to the Trustee or the relevant Paying Agent as to identity, the holder of any Note to which such Pricing Supplement relates. The Noteholders, the Receiptholders and the Couponholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Trust Deed, the Agency Agreement and the applicable Pricing Supplement which are binding on them. Words and expressions defined in the Trust Deed or the Agency Agreement or used in the applicable Pricing Supplement shall have the same meanings where used in these Terms and Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between the Agency Agreement and the Trust Deed, the Trust Deed will prevail and, in the event of inconsistency between the Agency Agreement or the Trust Deed and the applicable Pricing Supplement, the applicable Pricing Supplement will prevail.

1. Form, Denomination and Transfer

The Notes are in bearer form in the Specified Currency or Currencies and the Specified Denomination(s) and definitive Notes are serially numbered. Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

This Note may be a Fixed Rate Note, a Floating Rate Note, a Zero Coupon Note, an Index Linked Interest Note or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Pricing Supplement.

This Note may be an Index Linked Redemption Note, an Instalment Note, a Dual Currency Redemption Note, a Partly Paid Note or a combination of any of the foregoing, depending on the Redemption/Payment Basis shown in the applicable Pricing Supplement.

This Note may be a Senior Note or a Subordinated Note, as indicated in the applicable Pricing Supplement. If it is a Subordinated Note, it is either a Dated Subordinated Note or an Undated Subordinated Note, as indicated in the applicable Pricing Supplement.

If it is a definitive Note, it is issued with Coupons and, if applicable, Receipts and Talons attached, unless it is a Zero Coupon Note in which case references to interest, Coupons and Couponholders in these Terms and Conditions are not applicable.

Without prejudice to the provisions relating to Global Notes set out below, title to the Notes, the Receipts and the Coupons will pass by delivery. Except as ordered by a court of competent jurisdiction or as required by law, the Issuer, the Trustee, the Agent and any other Paying Agent shall (subject as set out below) be entitled to deem and treat the bearer of any Note, Receipt or Coupon as the absolute owner thereof (whether or not such Note, Receipt or Coupon shall be overdue and notwithstanding any notice to the contrary or any notation of ownership or writing thereon or notice of any previous loss or theft thereof) for the purpose of making payment thereon and for all other purposes. For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear Bank S.A./N.V., as operator of the Euroclear System ("Euroclear") and/or Clearstream Banking, société anonyme ("Clearstream, Luxembourg"), each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Trustee, the Agent and any other Paying Agent as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal and interest on such Notes, the right to which shall be vested, as against the Issuer, solely in the bearer of the Global Note in accordance with and subject to its terms (or the Trustee in accordance with the Trust Deed) (and the expressions "Noteholder", "holder of Notes" and related expressions shall be construed accordingly). Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear and/or Clearstream, Luxembourg, as the case may be.

Any references herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer, the Agent and the Trustee or specified in the applicable Pricing Supplement.

2. Status of Senior Notes

If the Notes are specified as Senior Notes in the applicable Pricing Supplement, the Notes and the relative Receipts and Coupons (if any) are direct, unconditional and (subject to the provisions of Condition 4) unsecured obligations of the Issuer ranking *pari passu* and without any preference among themselves and (subject as aforesaid and to any applicable statutory provisions) at least equally with all other present and future unsecured and unsubordinated obligations of the Issuer.

3. Status and Subordination of Subordinated Notes

(i) If the Notes are specified as Dated Subordinated Notes in the applicable Pricing Supplement, the Notes and the relative Receipts and Coupons (if any) are direct and unsecured obligations of the Issuer and rank without any preference among themselves. The rights of the Noteholders, the Receiptholders and the Couponholders will, in the event of the winding-up of the Issuer, be subordinated in the manner provided in the Trust Deed to the claims of depositors and other unsubordinated creditors of the Issuer in respect of their respective Senior Claims.

In the case of Dated Subordinated Notes, payments of principal and interest in respect of the Notes are, in the event of a winding up of the Issuer, conditional upon the Issuer being solvent at the time of payment by the Issuer, and accordingly in such event no principal or interest shall be payable except to the extent that the Issuer could make such payment and still be solvent immediately thereafter. For the purpose of this Condition 3(i), the Issuer shall be solvent if its Assets exceed its Liabilities (other than its Liabilities which are not Senior Claims). A report as to the solvency of the Issuer by its liquidator shall in the absence of proven error be treated and accepted by the Issuer, the Trustee, the Noteholders, the Receiptholders and the Couponholders as correct and sufficient evidence thereof.

(ii) If the Notes are specified as Undated Subordinated Notes in the applicable Pricing Supplement, the Notes and the relative Coupons (if any) are direct and unsecured obligations of the Issuer and rank without any preference among themselves, and the rights of the Noteholders and the Couponholders are subordinated in right of payment in the manner provided in the Trust Deed to the claims of Senior Creditors.

In the case of Undated Subordinated Notes, payments of principal and interest in respect of the Notes are conditional upon the Issuer being solvent at the time of payment by the Issuer, and no principal or interest shall be payable except to the extent that the Issuer could make such payment and still be solvent immediately thereafter. For the purpose of this Condition 3(ii), the Issuer shall be solvent if (i) to the extent that any determination as to solvency falls to be made prior to the commencement of winding up of the Issuer, it is able to pay its debts owed to Senior Creditors as they fall due and (ii) its Assets exceed its Liabilities (other than its Liabilities to persons who are not Senior Creditors). A report as to the solvency of the Issuer by two directors of the Issuer or, if the Issuer is in winding up, its liquidator, shall in the absence of proven error be treated and accepted by the Issuer, the Trustee, the Noteholders and the Couponholders as correct and sufficient evidence thereof.

In the case of Undated Subordinated Notes, if at any time an order is made or an effective resolution is passed for the winding up in England of the Issuer (except in any such case a solvent winding up solely for the purpose of a reconstruction or amalgamation or the substitution in place of the Issuer of a Successor in Business (as defined in the Trust Deed), the terms of which reconstruction, amalgamation or substitution (i) have previously been approved by the Trustee in writing or by an Extraordinary Resolution (as defined in the Trust Deed) of the Noteholders and (ii) do not provide that the Notes shall thereby become payable), there shall be payable on each Note (in lieu of any other payment, but subject as provided in this Condition), such amount, if any, as would have been payable to the holder thereof if, on the day prior to the commencement of the winding up and thereafter, such Noteholder were the holder of a preference share in

the capital of the Issuer having a preferential right to a return of assets in the winding up over the holders of all issued shares for the time being in the capital of the Issuer on the assumption that such preference share was entitled to receive on a return of assets in such winding up an amount equal to the principal amount of such Note together with Arrears of Interest (as defined in Condition *5(f)*), if any, and any interest (other than Arrears of Interest) which is payable (as provided in the Trust Deed).

(iii) Subject to applicable law, no Noteholder, Receiptholder or Couponholder may exercise, claim or plead any right of set-off, compensation or retention in respect of any amount owed to it by the Issuer arising under or in connection with the Notes, the Receipts or the Coupons and each Noteholder, Receiptholder and Couponholder shall, by virtue of being the holder of any Note, Receipt or Coupon (as the case may be), be deemed to have waived all such rights of set-off, compensation or retention.

(iv) For the purpose of this Condition:—

"Senior Claims" means the aggregate amount of all claims which are not in respect of indebtedness of the Issuer the right to repayment of which by its terms is, or is expressed to be, subordinated to (or otherwise ranks after) the claims of depositors and other unsubordinated creditors of the Issuer;

"Senior Creditors" means creditors of the Issuer (i) who are unsubordinated depositors or other unsubordinated creditors of the Issuer, or (ii) whose claims are, or are expressed to be, subordinated (whether only in the event of the winding up of the Issuer or otherwise) to the claims of unsubordinated depositors and other unsubordinated creditors of the Issuer but not further or otherwise, or (iii) who are subordinated creditors of the Issuer other than those whose claims are, or are expressed to rank, pari passu with, or junior to, the claims of the Noteholders; and

"Assets" means the unconsolidated gross assets of the Issuer and "Liabilities" means the unconsolidated gross liabilities of the Issuer, all as shown in the latest published audited balance sheet of the Issuer, but adjusted for contingent assets and contingent liabilities and for subsequent events, all in such manner as the directors of the Issuer or the liquidator (as the case may be) may determine.

N.B. The obligations of the Issuer in respect of the Undated Subordinated Notes and the related Coupons are conditional upon the Issuer being solvent for the purpose of this Condition 3(ii) immediately before and after payment by the Issuer. If this Condition 3(ii) is not satisfied, any amounts which might otherwise have been allocated in or towards payment of principal and interest in respect of the Undated Subordinated Notes may be used to absorb losses.

4. Negative Pledge (Senior Notes only)

If the Notes are specified as Senior Notes in the applicable Pricing Supplement, so long as any of the Notes remain outstanding (as defined in the Trust Deed) the Issuer will neither create nor have outstanding any mortgage, lien (other than a lien arising by operation of law), pledge or other charge upon the whole or any part of its undertaking or assets, present or future (including any uncalled capital), to secure any Loan Stock of the Issuer or any obligation of the Issuer under any guarantee of or indemnity in respect of any Loan Stock of any subsidiary (as defined in the Trust Deed) of the Issuer without at the same time or prior thereto securing the Notes equally and rateably therewith to the satisfaction of the Trustee or providing such other security for the Notes as the Trustee in its absolute discretion shall deem to be not materially less beneficial to the holders of the Notes or as shall be approved by an Extraordinary Resolution of the holders of the Notes.

For the purposes of these Terms and Conditions "Loan Stock" means indebtedness which is in the form of, or represented or evidenced by, bonds, notes, debentures, loan stock or other securities which for the time being are, or are intended to be, quoted, listed, ordinarily dealt in or traded on any stock exchange, over-the-counter or other established securities market but excluding any such indebtedness which has a stated maturity not exceeding one year.

5. Interest

(a) Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest on its outstanding nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest payable, subject as provided in these Terms and Conditions, in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

Except as provided in the applicable Pricing Supplement, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Pricing Supplement, amount to the Broken Amount so specified.

If interest is required to be calculated for a period ending other than a Fixed Interest Period, such interest shall be calculated by applying the Rate of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

"Day Count Fraction" means in respect of the calculation of an amount of interest in accordance with this Condition 5(*a*):

(i) if "Actual/Actual (ISMA)" is specified in the applicable Pricing Supplement:

(A) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the "Accrual Period") is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Pricing Supplement) that would occur in one calendar year; or

(B) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:

(1) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Pricing Supplement) that would occur in one calendar year; and

(2) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and

(ii) if "30/360" is specified in the applicable Pricing Supplement, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.

In these Terms and Conditions:

"Determination Period" means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the Final Interest Payment Date is not a Determination Date, the period commencing on the First Determination Date prior to, and ending on the First Determination Date falling after, such date;

"Fixed Interest Period" means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date; and

"sub-unit" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

(b) Interest on Floating Rate Notes and Index Linked Interest Notes

(i) Interest Payment Dates

Each Floating Rate Note and Index Linked Interest Note bears interest on its outstanding nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

(A) the Specified Interest Payment Date(s) in each year specified in the applicable Pricing Supplement; or

(B) if no Specified Interest Payment Date(s) is/are specified in the applicable Pricing Supplement, each date (each such date, together with each Specified Interest Payment Date, an "Interest Payment Date") which falls the number of months or other period specified as the Specified Period in the applicable Pricing Supplement after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period (which expression shall, in these Terms and Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date).

If a Business Day Convention is specified in the applicable Pricing Supplement and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

(1) in any case where Specified Periods are specified in accordance with Condition 5(*b*)(*i*)(B) above, the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls in the Specified Period after the preceding applicable Interest Payment Date occurred; or

(2) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or

(3) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or

(4) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In this Condition, "Business Day" means a day which is both:—

(A) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and any Additional Business Centre specified in the applicable Pricing Supplement; and

(B) either (1) in relation to Notes denominated or payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than London or any Additional Business Centre) and which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively or (2) in relation to Notes denominated or payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET) System (the "Target System") is open.

(ii) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Notes and Index Linked Interest Notes will be determined in the manner specified in the applicable Pricing Supplement.

(A) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any).

For the purposes of this sub-paragraph (*A*), "ISDA Rate" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Agent or other person specified in the applicable Pricing Supplement under an interest rate swap transaction if the Agent or that other person were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2000 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the "ISDA Definitions") and under which:—

(1) the Floating Rate Option is as specified in the applicable Pricing Supplement;

(2) the Designated Maturity is the period specified in the applicable Pricing Supplement; and

(3) the relevant Reset Date is either (i) if the applicable Floating Rate Option is based on the London inter-bank offered rate ("LIBOR") or the Euro-zone inter-bank offered rate ("EURIBOR") for a currency, the first day of that Interest Period or (ii) in any other case, as specified in the applicable Pricing Supplement.

For the purpose of this sub-paragraph (*A*), "Floating Rate", "Calculation Agent", "Floating Rate Option", "Designated Maturity" and "Reset Date" have the meanings given to those terms in the ISDA Definitions.

(B) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:—

(1) the offered quotation (if there is only one quotation on the Relevant Screen Page); or

(2) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at 11.00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date in question plus or minus the Margin (if any), all as determined by the Agent. If five or more such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is

more than one such lowest quotation, one only of such quotations) shall be disregarded by the Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest pursuant to this sub-paragraph (*B*) in the event that the Relevant Screen Page is not available or if, in the case of (1) above, no such offered quotation appears or, in the case of (2) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

If the Reference Rate from time to time in respect of the Floating Rate Notes is specified in the applicable Pricing Supplement as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Pricing Supplement.

(iii) Minimum and/or Maximum Rate of Interest

If the applicable Pricing Supplement specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Pricing Supplement specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(iv) Determination of Rate of Interest and calculation of Interest Amounts

The Agent, in the case of Floating Rate Notes, and the Calculation Agent, in the case of Index Linked Interest Notes, will, at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period. In the case of Index Linked Interest Notes, the Calculation Agent will notify the Agent of the Rate of Interest for the relevant Interest Period as soon as practicable after calculating the same.

The Agent will calculate the amount of interest payable on the Floating Rate Notes or Index Linked Interest Notes in respect of each Specified Denomination (each an "Interest Amount") for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

"Day Count Fraction" means, in respect of the calculation of an amount of interest for any Interest Period:

(i) if "Actual/365" or "Actual/Actual ISDA" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);

(ii) if "Actual/365 (Fixed)" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365;

(iii) if "Actual/360" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 360;

(iv) if "30/360", "360/360" or "Bond Basis" is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 30-day months (unless (a) the last day of the Interest

Period is the 31st day of a month but the first day of the Interest Period is a day other than the 30th or 31st day of a month, in which case the month that includes that last day shall not be considered to be shortened to a 30-day month, or (b) the last day of the Interest Period is the last day of the month of February, in which case the month of February shall not be considered to be lengthened to a 30-day month));

(v) if "30E/360" or "Eurobond Basis" is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 30-day months, without regard to the date of the first day or last day of the Interest Period unless, in the case of the final Interest Period, the Maturity Date is the last day of the month of February, in which case the month of February shall not be considered to be lengthened to a 30-day month); and

(vi) if "Actual/365 (Sterling)" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366.

(v) Notification of Rate of Interest and Interest Amounts

The Issuer will cause the Rate of Interest and each Interest Amount for each Interest Period and the relative Interest Payment Date to be notified to the Trustee and to any stock exchange or other relevant authority on which the relevant Floating Rate Notes or Index Linked Interest Notes are for the time being listed or by which they have been admitted to listing and to be published in accordance with Condition 19 as soon as possible after their determination but in no event later than the fourth Business Day (as defined in Condition 5(b)(i) above) thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. Any such amendment or alternative arrangements will be promptly notified to each stock exchange or other relevant authority on which the relevant Floating Rate Notes or Index Linked Interest Notes are for the time being listed or by which they have been admitted to listing and to the Noteholders in accordance with Condition 19.

(vi) Determination or calculation by Trustee

If for any reason at any time after the Issue Date, the Agent or, as the case may be, the Calculation Agent defaults in its obligation to determine the Rate of Interest or the Agent defaults in its obligation to calculate any Interest Amount in accordance with sub-paragraph (ii) or (iv) above, the Trustee shall determine the Rate of Interest at such rate as, in its absolute discretion (having such regard as it shall think fit to the foregoing provisions of this Condition, but subject always to any Minimum or Maximum Rate of Interest specified in the applicable Pricing Supplement), it shall deem fair and reasonable in all the circumstances or, as the case may be, the Trustee shall calculate the Interest Amount(s) in such manner as it shall deem fair and reasonable in all the circumstances and each such determination or calculation shall be deemed to have been made by the Agent or the Calculation Agent, as the case may be.

(vii) Certificates to be final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 5(b), whether by the Agent or the Calculation Agent or the Trustee, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Agent, the Calculation Agent, the Trustee, the other Paying Agents and all Noteholders, Receiptholders and Couponholders and (in the absence as aforesaid) no liability to the Issuer, the Noteholders, the Receiptholders or the Couponholders shall attach to the Agent, the Calculation Agent or the Trustee in connection with the exercise or non-exercise by them of their powers, duties and discretions pursuant to such provisions.

(c) Dual Currency Notes

In the case of Dual Currency Notes, where the rate or amount of interest falls to be determined by reference to an exchange rate, the rate or amount of interest shall be determined in the manner specified in the applicable Pricing Supplement.

(d) Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the applicable Pricing Supplement.

(e) Interest Accrual

Interest (if any) will cease to accrue on each Note (or in the case of the redemption of part only of a Note, that part only of such Note) on the due date for redemption thereof unless, upon due presentation thereof, payment of principal is improperly withheld or refused or (in the case of Subordinated Notes) is not made by reason of Condition 3 in which event interest will continue to accrue as provided in the Trust Deed.

(f) Interest on Undated Subordinated Notes

(i) In the case of Undated Subordinated Notes, interest payments (excluding Arrears of Interest) on the Notes shall (subject to Condition 3) be payable on each Compulsory Interest Payment Date (as defined below) in respect of the Interest Accrual Period (as defined below) ending on the day immediately preceding such date. On any Optional Interest Payment Date (as defined below) there may (subject to Condition 3) be paid (if the Issuer so elects and gives notice of such election to the Noteholders in accordance with sub-paragraph (ii) of this Condition 5(*f*)) the interest payable on such Optional Interest Payment Date accrued in the Interest Accrual Period ending on the day immediately preceding such date, but the Issuer shall not have any obligation to make such payment and any failure to pay shall not constitute a default by the Issuer for any purpose. Any interest not paid on an Interest Date (as defined below) together with any other interest not paid on any other Interest Date shall, so long as the same remains unpaid, constitute "Arrears of Interest". Arrears of Interest may, at the option of the Issuer (subject to Condition 3), be paid in whole or in part at any time upon the expiration of not less than seven days' notice to such effect given to the Trustee and to the Noteholders in accordance with Condition 19, but all Arrears of Interest on all Notes outstanding shall (subject to Condition 3) become due in full on whichever is the earliest of (i) the date upon which a dividend is next paid on any class of share capital of the Issuer, (ii) the date set for any redemption pursuant to Condition 6, or (iii) the commencement of winding up in England of the Issuer.

Notwithstanding the foregoing, if notice is given by the Issuer of its intention to pay the whole or part of Arrears of Interest, the Issuer shall be obliged (subject to Condition 3) to do so upon the expiration of such notice. Where Arrears of Interest are paid in part, each part payment shall be applied in payment of the Arrears of Interest accrued due in respect of the relative Interest Date (or consecutive Interest Dates) furthest from the date of payment. Arrears of Interest shall not themselves bear interest.

(ii) The Issuer shall give not less than 30 days' notice prior to any Interest Date to the Noteholders in accordance with Condition 19:

(i) if such Interest Date will be an Optional Interest Payment Date; and

(ii) whether or not the Issuer elects to pay the interest due on such Optional Interest Payment Date.

(iii) For the purposes of these Terms and Conditions, the following expressions have the following meanings:

"Compulsory Interest Payment Date" means any Interest Date if, in the six calendar months immediately preceding such Interest Date, any dividend has been declared or paid on any class of share capital of the Issuer.

"Interest Accrual Period" means the period from and including the Interest Commencement Date up to but excluding the first Interest Date or, as the case may be, the period from and including one Interest Date up to but excluding the next Interest Date.

"Interest Date" means any date on which interest is, or (but for this paragraph (f)) would be, payable pursuant to this Condition.

"Optional Interest Payment Date" means any Interest Date other than a Compulsory Interest Payment Date.

6. Redemption and Purchase

(a) Final redemption

If this Note is a Senior Note or a Dated Subordinated Note, it will, unless previously redeemed or purchased and cancelled as provided below, be redeemed at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Pricing Supplement in the relevant Specified Currency on the Maturity Date. If this Note is an Undated Subordinated Note, it has no final maturity date and is only redeemable in accordance with the following provisions of this Condition 6 or Condition 12.

(b) Redemption for taxation reasons

If the Issuer satisfies the Trustee immediately prior to the giving of the notice referred to below that either (i) on the occasion of the next date for payment of interest the Issuer is or will be required to pay additional amounts as provided in Condition 10 or (ii) (in the case of Undated Subordinated Notes only) on the next Interest Date the payment of interest in respect of the Notes would be treated as a "distribution" within the meaning of the Taxes Acts for the time being of the United Kingdom, then the Issuer may (subject, if this Note is a Subordinated Note, to obtaining Relevant Supervisory Consent (as defined below) and to Condition 3) having given not less than 30 nor more than 60 days' notice to the Trustee and, in accordance with Condition 19, the Noteholders (which notice shall be irrevocable) redeem at any time (if this Note is neither a Floating Rate Note nor an Index Linked Interest Note) or on the next Interest Payment Date (if this Note is a Floating Rate Note or an Index Linked Interest Note) all, but not some only, of the Notes at their Early Redemption Amount referred to in Condition 6(g) below together, if applicable, with interest accrued to (but excluding) the date fixed for redemption and, in the case of Undated Subordinated Notes, all Arrears of Interest (if any) as provided in Condition 5(f). Upon the expiry of such notice, the Issuer shall be bound to redeem the Notes accordingly.

For the purposes of these Terms and Conditions "Relevant Supervisory Consent" means the consent to the relevant redemption, payment, repayment or purchase, as the case may be, of The Financial Services Authority (so long as the Issuer is required by The Financial Services Authority to obtain such consent).

(c) Redemption at the option of the Issuer (Issuer Call)

If Issuer Call is specified in the applicable Pricing Supplement, the Issuer may, having (unless otherwise specified in the applicable Pricing Supplement) given not less than 30 nor more than 60 days' notice to the Trustee, the Agent and, in accordance with Condition 19, the Noteholders (which notice shall be irrevocable) (subject, if this Note is a Subordinated Note, to obtaining Relevant Supervisory Consent and to Condition 3), redeem all or some only (as specified in the applicable Pricing Supplement) of the Notes then outstanding on the Optional Redemption Date(s) and at the Optional Redemption Amount(s) as specified in, or determined in the manner specified in, the applicable Pricing Supplement, together, if applicable, with interest accrued to (but excluding) the relevant Optional Redemption Date(s) and, in the case of Undated Subordinated Notes, all Arrears of Interest (if any) as provided in Condition 5(f). Upon expiry of such notice the Issuer shall be bound to redeem the Notes accordingly. In the event of a redemption of some only of the Notes, such redemption must be for an amount being the Minimum

Redemption Amount or a Higher Redemption Amount. In the case of a partial redemption of Notes, the Notes to be redeemed ("Redeemed Notes") will be selected individually by lot, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of Euroclear and/or Clearstream, Luxembourg, in the case of Redeemed Notes represented by a global Note, not more than 60 days prior to the date fixed for redemption (such date of selection being hereinafter called the "Selection Date"). In the case of Redeemed Notes represented by definitive Notes, a list of such Redeemed Notes will be published in accordance with Condition 19 not less than 30 days prior to the date fixed for redemption. The aggregate nominal amount of Redeemed Notes represented by definitive Notes shall bear the same proportion to the aggregate nominal amount of all Redeemed Notes as the aggregate nominal amount of definitive Notes outstanding bears to the aggregate nominal amount of all Notes outstanding, in each case on the Selection Date, provided that any such nominal amount shall, if necessary, be rounded downwards to the nearest integral multiple of the lowest Specified Denomination, and the aggregate nominal amount of Redeemed Notes represented by a global Note shall be equal to the balance of the Redeemed Notes. No exchange of the relevant global Note will be permitted during the period from and including the Selection Date to and including the date fixed for redemption pursuant to this Condition 6(c) and notice to that effect shall be given by the Issuer to the Noteholders in accordance with Condition 19 at least 30 days prior to the Selection Date.

(d) Redemption at the option of the Noteholders other than holders of Subordinated Notes (Investor Put)

If this Note is a Senior Note and Investor Put is specified in the applicable Pricing Supplement, then, if and to the extent specified in the applicable Pricing Supplement, upon the holder of this Note giving to the Issuer, in accordance with Condition 19, not less than 30 nor more than 60 days' notice (which notice shall be irrevocable), the Issuer will, upon the expiry of such notice, redeem subject to, and in accordance with, the terms specified in the applicable Pricing Supplement in whole (but not in part) such Note on the Optional Redemption Date and at the relevant Optional Redemption Amount as specified in, or determined in the manner specified in, the applicable Pricing Supplement, together, if applicable, with interest accrued to (but excluding) the relevant Optional Redemption Date.

If this Note is in definitive form, to exercise the right to require redemption of this Note the holder of this Note must deliver such Note, on any Business Day (as defined in Condition 5(*b*)(*i*)) falling within the notice period at the specified office of any Paying Agent, accompanied by a duly signed and completed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent (a "Put Notice") and in which the holder must specify a bank account (or, if payment is by cheque, an address) to which payment is to be made under this Condition.

(e) Purchases

The Issuer or any of its subsidiaries may (subject, in the case of Subordinated Notes, to obtaining prior Relevant Supervisory Consent and to Condition 3), at any time purchase or otherwise acquire Notes (provided that, in the case of definitive Notes, all unmatured Receipts and Coupons appertaining thereto are attached thereto or surrendered therewith) in the open market either by tender or private agreement or otherwise, without restriction as to price. If purchases are made by tender, tenders must be available to all Noteholders alike. Such Notes may be held, reissued, resold or, at the option of the Issuer, surrendered to any Paying Agent for cancellation.

(f) Late Payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to Condition 6(*a*), (*b*), (*c*) or (*d*) above or upon its becoming due and repayable as provided in Condition 11 (if this Note is a Senior Note) or Condition 12 (if this Note is a Subordinated Note) is improperly withheld or refused or (in the case of Subordinated Notes) is not made by reason of Condition 3, the amount due and repayable in respect of such Zero Coupon Note shall [(subject to Condition 3)] be the amount calculated as provided in Condition 6(*g*)(iii) below as though the references therein to the date fixed for redemption or the date upon which such Zero Coupon Note becomes due and repayable were replaced by references to the date which is the earlier of:—

(i) the date on which all amounts due in respect of the Zero Coupon Note have been paid; and

(ii) the date on which the full amount of the moneys payable has been received by the Agent and notice to that effect has been given to the Noteholders either in accordance with Condition 19 or individually.

(g) Early Redemption Amounts

For the purposes of Condition 6(*b*) above and Condition 11 (if this Note is a Senior Note) or Condition 12 (if this Note is a Subordinated Note), the Notes will be redeemed at an amount (the "Early Redemption Amount") determined or calculated as follows:—

(i) in the case of Notes with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof; or

(ii) in the case of Notes (other than Zero Coupon Notes but including Instalment Notes and Partly Paid Notes) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount set out in, or determined in the manner set out in, the applicable Pricing Supplement, or, if no such amount or manner is so set out, at their nominal amount; or

(iii) in the case of Zero Coupon Notes, at an amount (the "Amortised Face Amount") equal to the sum of:—

(A) the Reference Price; and

(B) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable,

or such other amount as is provided in the applicable Pricing Supplement.

Where such calculation is to be made for a period which is not a whole number of years, it shall be made (i) in the case of a Zero Coupon Note payable in a Specified Currency other than euro, on the basis of a 360-day year consisting of 12 months of 30 days each or (ii) in the case of a Zero Coupon Note payable in euro, on the basis of the actual number of days elapsed divided by 365 (or, if any of the days elapsed falls in a leap year, the sum of (x) the number of those days falling in a leap year divided by 366 and (y) the number of those days falling in a non leap year divided by 365) or (iii) on such other calculation basis as may be specified in the applicable Pricing Supplement.

(h) Instalments

Instalment Notes will be repaid in the Instalment Amounts and on the Instalment Dates. In the case of early redemption, the Early Redemption Amount will be determined pursuant to Condition 6(*g*) above.

(i) Cancellation

All Notes which are redeemed in full will forthwith be cancelled (together with, in the case of definitive Notes, all unmatured Receipts and Coupons attached thereto or surrendered therewith) and such Notes may not be re-issued or resold.

(j) Partly Paid Notes

Partly Paid Notes will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition and the applicable Pricing Supplement.

7. Payments

(a) Method of Payment

Subject as provided below:—

(i) payments in a Specified Currency other than euro will be made by transfer to an account in the relevant Specified Currency (which, in the case of a payment in Yen to a non-resident of Japan, shall be a non-resident account) maintained by the payee with, or by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively); and

(ii) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque.

Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 10. References to "Specified Currency" will include any successor currency under applicable law.

(b) Presentation of Notes, Receipts and Coupons

Subject as provided below, payments of principal and interest (if any) in respect of definitive Notes (if issued) will be made against presentation and surrender of definitive Notes or Coupons, as the case may be, at any specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)). Payments of instalments (if any) of principal, other than the final instalment, will (subject as provided below) be made against presentation and surrender of the relevant Receipt. Each Receipt must be presented for payment of the relevant instalment together with the definitive Note to which it appertains. If any definitive Note is redeemed or becomes repayable prior to the stated maturity thereof, principal will be payable only on surrender of such Note together with all unmatured Receipts appertaining thereto. Receipts presented without the definitive Note to which they appertain and unmatured Receipts do not constitute valid obligations of the Issuer.

Payments of principal and interest (if any) in respect of Notes represented by any Global Note will (subject as provided below) be made in the manner specified above in relation to definitive Notes and otherwise in the manner specified in the relevant global Note against presentation or surrender, as the case may be, of such global Note, at the specified office of any Paying Agent. A record of each payment made on such Global Note, distinguishing between any payment of principal and any payment of interest, will be made on such Global Note by such Paying Agent and such record shall be prima facie evidence that the payment in question has been made.

The holder of the relevant Global Note (or, as provided in the Trust Deed, the Trustee) shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note (or the Trustee, as the case may be) in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of the relevant Global Note (or the Trustee, as the case may be). No person other than the holder of the relevant Global Note (or, as provided in the Trust Deed, the Trustee) shall have any claim against the Issuer in respect of any payments due on that Global Note.

Notwithstanding the foregoing, payments of interest in U.S. Dollars will only be made at the specified office of any Paying Agent in the United States if (a) the Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment at such specified offices outside the United States of the full amount of interest on

the Notes in the manner provided above when due, (b) payment of the full amount of such interest at such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions and (c) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

Fixed Rate Notes in definitive form (other than Dual Currency Notes or Index Linked Notes) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall include Coupons falling to be issued on exchange of matured Talons), failing which an amount equal to the face value of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the total amount due) will be deducted from the amount due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relevant missing Coupon at any time before the expiry of twelve years after the relevant date (as defined in Condition 10) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 13) or, if later, six years from the date on which such Coupon would otherwise have become due.

Upon any Fixed Rate Note becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the due date for redemption of any Floating Rate Note, Dual Currency Note or Index Linked Note in definitive form, all unmatured Coupons and Talons (if any), relating to such Note (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof.

In relation to any Undated Subordinated Note in definitive form, if any payment is to be made in respect of interest, the Interest Date for which falls on or after the date on which the winding up in England of the Issuer is deemed to have commenced, such payment shall be made only against presentation of the relevant Note, and the Coupon for any such Interest Date shall be void. In addition, any Undated Subordinated Note in definitive form presented for payment after an order is made or an effective resolution is passed for the winding up in England of the Issuer must be presented together with all Coupons in respect of Arrears of Interest relating to Interest Dates falling prior to such commencement of the winding up of the Issuer, failing which there shall be withheld from any payment otherwise due to the holder of such Undated Subordinated Note such proportion thereof as the Arrears of Interest due in respect of any such missing Coupon bears to the total of the principal amount of the relevant Undated Subordinated Note, all Arrears of Interest in respect thereof and interest (other than Arrears of Interest) accrued on such Undated Subordinated Note in respect of the Interest Accrual Period current at the date of the commencement of the winding up.

(c) Payment Day

If any date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day (as defined below), then the holder thereof shall not be entitled to payment of the relevant amount due until the next following Payment Day and shall not be entitled to any interest or other sum in respect of any such delay. In this Condition (unless otherwise specified in the applicable Pricing Supplement), "Payment Day" means any day which (subject to Condition 13) is:—

(i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in:

(A) the relevant place of presentation;

(B) London;

(C) any Additional Financial Centre specified in the applicable Pricing Supplement; and

(ii) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the place of presentation, London and any Additional Financial Centre and which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland respectively) or (2) in relation to any sum payable in euro, a day on which the TARGET System is open.

If the due date for redemption of any interest bearing Note in definitive form is not a due date for the payment of interest relating thereto, interest accrued in respect of such interest bearing Note from (and including) the last preceding due date for the payment of interest (or from (and including) the Interest Commencement Date, as the case may be) will be paid only against surrender of such interest bearing Note.

(d) Interpretation of Principal and Interest

Any reference in these Terms and Conditions to principal in respect of the Notes shall be deemed to include, as applicable:—

(i) any additional amounts which may be payable with respect to principal under Condition 10 or pursuant to any undertakings given in addition thereto or in substitution therefor pursuant to the Trust Deed;

(ii) the Final Redemption Amount of the Notes;

(iii) the Early Redemption Amount of the Notes;

(iv) the Optional Redemption Amount(s) (if any) of the Notes;

(v) in relation to Notes redeemable in instalments, the Instalment Amounts;

(vi) in relation to Zero Coupon Notes, the Amortised Face Amount;

(vii) any premium and any other amounts which may be payable under or in respect of the Notes; and

(viii) in relation to Dual Currency Notes, the principal payable in any relevant Specified Currency.

Any reference in these Terms and Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 10 or pursuant to any undertakings given in addition thereto or in substitution therefor pursuant to the Trust Deed.

8. Exchange of Talons

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 13.

9. Agent and Paying Agents

The names of the initial Agent and the other initial Paying Agent and their initial specified offices are set out below. In the event of the appointed office of any such bank being unable or unwilling to continue to act as the Agent, or failing duly to determine the Rate of Interest, if applicable, or to calculate the Interest Amounts for any Interest Period, the Issuer shall appoint the London office of such other bank as may be approved by the Trustee to act as such in its place. The Agent may not resign its duties or be removed from office without a successor having been appointed as aforesaid. The Issuer may, with the prior approval of

the Trustee, vary or terminate the appointment of any Paying Agent and/or appoint additional or other Paying Agents and/or approve any change in the specified office through which any Paying Agent acts provided that the Issuer will, (i) so long as any of the Notes is outstanding, maintain a Paying Agent (which may be the Agent) having a specified office in a city approved by the Trustee in continental Europe and, (ii) so long as any of the Notes are listed on any stock exchange or admitted to listing by any other relevant authority, a Paying Agent (which may be the Agent) having a specified office in each location required by the rules and regulations of the relevant stock exchange or , as the case may be, other relevant authority and (iii) in the event that any Directive (as defined in Condition 10 below) or any law implementing or complying with, or introduced in order to conform to, such Directive is introduced, the Issuer will ensure that it maintains a Paying Agent in a Member State of the European Union (the "EU") that will not be obliged to withhold or deduct tax pursuant to the Directive, unless otherwise agreed by the Trustee because it is unduly onerous to the Issuer or not consistent with then market practice.

In addition, the Issuer shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in sub-paragraph (ii) of the fourth paragraph of Condition 7(*b*). Notice of any such variation, termination, appointment or change will be given by the Issuer to the Noteholders in accordance with Condition 19.

10. Taxation

All payments of principal and interest (if any) in respect of the Notes, Receipts and Coupons by the Issuer will be made without withholding of, or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatsoever nature imposed or levied by or on behalf of the United Kingdom or any political sub-division thereof or by any authority therein or thereof having power to tax, unless the withholding or deduction of such taxes, duties, assessments or governmental charges is required by law. In that event, the Issuer will pay such additional amounts as may be necessary in order that the net amounts receivable by the Noteholders, Receiptholders and Couponholders after such withholding or deduction shall equal the respective amounts of principal and interest (if any) which would have been receivable in respect of the Notes, Receipts or Coupons (as the case may be) in the absence of such withholding or deduction, except that no such additional amounts shall be payable with respect to any Note, Receipt or Coupon presented for payment:—

(i) by or on behalf of a holder who (a) is able to avoid such withholding or deduction by satisfying any statutory requirements or by making a declaration of non-residence or other claim for exemption to the relevant taxing authority but fails to do so; or (b) is liable to such taxes, duties, assessments or governmental charges in respect of such Notes, Receipts or Coupons (as the case may be) by reason of his having some connection with the United Kingdom other than merely by reason of the holding of such Note, Receipt or Coupon; or

(ii) more than 30 days after the relevant date save to the extent that the holder thereof would have been entitled to such additional amounts on presenting the same for payment on the last day of such period of 30 days; or

(iii) in the United Kingdom; or

(iv) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to any European Union Directive on the taxation of savings implementing the conclusions of the ECOFIN Council meeting of 26th-27th November, 2000 (the "Directive") or any law implementing or complying with, or introduced in order to conform to, the Directive; or

(v) by or on behalf of a holder who would have been able to avoid such withholding or deduction by presenting the relevant Note, Receipt or Coupon to another Paying Agent in a Member State of the EU.

For this purpose, "the relevant date" means the date on which the payment in respect of the Note, Receipt or Coupon first becomes due and payable but, if the full amount of the moneys payable on such date has not been received by the Agent or the Trustee on or prior to such date, the "relevant date" means

the date on which, such moneys having been so received, notice to that effect shall have been given to the Noteholders in accordance with Condition 19.

11. Events of Default and Enforcement relating only to Senior Notes

(a) This Condition shall apply only to Senior Notes.

(b) The Trustee at its discretion may, and if so requested in writing by the holders of at least one-quarter of the nominal amount of the Notes then outstanding or if so directed by an Extraordinary Resolution of the Noteholders shall, (but, in the case of the happening of any of the events mentioned in subparagraphs (ii) to (vii) below, only if the Trustee shall have certified in writing that such event is, in its opinion, materially prejudicial to the interests of the Noteholders), give notice to the Issuer that the Notes are, and they shall accordingly immediately become, due and repayable at their Early Redemption Amount, together with accrued interest (if any) as provided in the Trust Deed, if any of the following events (each an "Event of Default") shall occur and be continuing:—

(i) if default is made for a period of 7 days or more in the payment of any principal due in respect of the Notes or any of them or 14 days or more in the payment of any interest due in respect of the Notes or any of them; or

(ii) if an order is made or an effective resolution is passed for the winding-up of the Issuer or any Material Subsidiary (except, in any such case, a winding-up or dissolution for the purpose of a reconstruction or amalgamation the terms of which have previously been approved in writing by the Trustee or by an Extraordinary Resolution or a voluntary solvent winding-up or a transfer of all or a material part of the business, undertaking and assets of such Material Subsidiary to the Issuer or any other subsidiary of the Issuer); or

(iii) if the Issuer or any Material Subsidiary stops or threatens to stop payment to its creditors generally or the Issuer or any Material Subsidiary ceases or threatens to cease to carry on its business or substantially the whole of its business (except for the purpose of or in connection with a reconstruction or amalgamation the terms of which have previously been approved in writing by the Trustee or by an Extraordinary Resolution or a voluntary solvent winding-up or a transfer of all or a material part of the business, undertaking and assets of such Material Subsidiary to the Issuer or any other subsidiary of the Issuer); or

(iv) if an encumbrancer takes possession or a receiver, administrator, administrative receiver or other similar officer is appointed of the whole or any material part of the undertaking, property and assets of the Issuer or any Material Subsidiary or if a distress or execution is levied or enforced upon or sued out against the whole or any material part of the chattels or property of the Issuer or any Material Subsidiary and, in the case of any of the foregoing events, is not discharged within 30 days (or such longer period as the Trustee may permit); or

(v) if the Issuer or any Material Subsidiary is unable to pay its debts generally; or

(vi) if any payment in respect of indebtedness for moneys borrowed (as defined in the Trust Deed) (which indebtedness has an outstanding aggregate principal amount of at least the Specified Amount) of the Issuer or any Material Subsidiary is not made on its due date (or by the expiry of any applicable grace period as originally provided) or becomes due and payable prior to its stated maturity by reason of default or if any guarantee or indemnity of any payment in respect of indebtedness for moneys borrowed of any third party given by the Issuer or any Material Subsidiary is not honoured when due and called upon (except where the aggregate liability under any such guarantees or indemnities does not exceed the Specified Amount); or

(vii) if default is made by the Issuer in the performance or observance of any obligation, condition or provision binding on it under the Notes, Receipts or Coupons or the Trust Deed (other than any obligation for the payment of any principal or interest in respect of the Notes) and, except where such default is or the effects of such default are, in the opinion of the Trustee, not capable of remedy when no such continuation and notice as is hereinafter mentioned will be required,

such default continues for 30 days (or such longer period as the Trustee may permit) after written notice thereof has been given by the Trustee to the Issuer requiring the same to be remedied.

"Specified Amount" means the greater of (a) £15,000,000 or its equivalent in any other currency or currencies and (b) such amount in Sterling as is equal to one per cent. of the aggregate of (1) the nominal amount of the share capital of the Issuer for the time being issued and paid up or credited as paid up, (2) the amounts standing to the credit of the reserves (including any share premium account and profit and loss account) of the Issuer and its subsidiaries and (3) any amounts attributable to minority interests in subsidiaries, all as shown in the latest audited consolidated balance sheet of the Issuer and its subsidiaries prepared in accordance with generally accepted accounting principles in the United Kingdom less (4) any amounts, determined in accordance with generally accepted accounting principles in the United Kingdom, representing distribution of cash or tangible assets declared, recommended or made by the Issuer or any of its subsidiaries (other than any distribution attributable to the Issuer or another subsidiary) out of profits accrued prior to the date of, and not provided for in, the latest audited consolidated balance sheet of the Issuer and its subsidiaries and less (5) any amounts shown in such latest audited consolidated balance sheet (y) attributable to intangible assets and (z) of any debit on profit and loss account.

A certificate of two directors of the Issuer as to the Specified Amount shall, in the absence of manifest error, be conclusive and binding on all parties.

"Material Subsidiary" means any subsidiary of the Issuer whose total assets (attributable to the Issuer) represent 10 per cent. or more of the consolidated total assets (attributable to the Issuer) of the Issuer and its subsidiaries, all as more particularly defined in the Trust Deed.

The Trust Deed contains provisions which permit two directors of the Issuer to certify that a subsidiary is a "Material Subsidiary" (i) at the time of issue of every audited consolidated balance sheet of the Issuer and at any other time upon the request of the Trustee, or (ii) as soon as reasonably practicable after the acquisition or disposal of a company which thereby becomes or ceases to be a Material Subsidiary or after any transfer is made to any subsidiary which thereby becomes a Material Subsidiary. Any such certification shall, in the absence of manifest error, be conclusive and binding on all concerned.

The Trustee may at its discretion institute such proceedings as it may think fit to enforce the obligations of the Issuer under the Trust Deed and the Notes, Receipts and Coupons, but it shall not be bound to institute any such proceedings unless (1) it shall have been so directed by an Extraordinary Resolution of the Noteholders or so requested in writing by the holders of at least one-quarter of the nominal amount of the Notes then outstanding and (2) it shall have been indemnified to its satisfaction. No Noteholder, Receiptholder or Couponholder shall be entitled to institute proceedings directly against the Issuer unless the Trustee, having become bound so to proceed, fails to do so within a reasonable time and such failure is continuing.

12. Events of Default and Enforcement relating only to Subordinated Notes

(a) This Condition shall apply only to Subordinated Notes.

(b) In the case of Dated Subordinated Notes, the Trustee at its discretion may, and if so requested in writing by the holders of at least one-quarter of the nominal amount of the Notes then outstanding or if so directed by an Extraordinary Resolution of the Noteholders shall, give notice to the Issuer that the Notes are, and they shall accordingly immediately become, due and repayable at their Early Redemption Amount, together with accrued interest (if any) as provided in the Trust Deed if any of the following events (each an "Event of Default") shall occur and be continuing:—

(i) if default is made for a period of 7 or more days in the payment of any principal due in respect of the Notes or any of them or 14 or more days in the payment of any interest due in respect of the Notes or any of them; or

(ii) if the winding-up of the Issuer is commenced (other than a winding-up which has been approved in writing by the Trustee or by an Extraordinary Resolution of the Noteholders).

If the Notes become immediately due and repayable, the Trustee may at its discretion institute proceedings, but may take no other action in respect of such default, for the winding-up of the Issuer in England (but not elsewhere) to enforce the obligations of the Issuer in respect of the Trust Deed; provided that no payment of interest, repayment of principal or other claim in respect of the Notes may be made by the Issuer pursuant to this Condition, nor will the Trustee accept the same, otherwise than during or after a winding-up or dissolution of the Issuer, save with prior Relevant Supervisory Consent.

For the purposes of this paragraph (*b*), a payment shall be deemed to be due even if the condition set out in Condition 3 is not satisfied.

(c) In the case of Undated Subordinated Notes, if the Issuer shall not make any payment of principal in respect of the Notes for a period of 14 days or more after the due date for the same or shall not make payment of interest for a period of 14 days or more after a Compulsory Interest Payment Date or any other date upon which the payment of interest is compulsory, the Trustee may institute proceedings in England (but not elsewhere) for the winding up of the Issuer and prove in such winding up. For the purposes of this paragraph (*c*), a payment otherwise due (in the case of principal) or compulsory (in the case of interest) shall be deemed so due or compulsory notwithstanding that the condition set out in Condition 3 is not satisfied.

(d) No Noteholder, Receiptholder or Couponholder shall be entitled to proceed directly against the Issuer unless the Trustee, having become bound so to proceed, fails to do so, in which case the Noteholder, Receiptholder or Couponholder shall have only such rights against the Issuer as those which the Trustee is entitled to exercise. No Noteholder, Receiptholder or Couponholder shall be entitled to institute proceedings for the winding-up of the Issuer, or to prove in any winding-up of the Issuer, unless the Trustee, having become bound to proceed against the Issuer as aforesaid, fails to do so, or, being able to prove in any winding-up of the Issuer, fails to do so, in which event any such holder may, on giving an indemnity satisfactory to the Trustee, in the name of the Trustee (but not otherwise), himself institute proceedings for the winding-up in England (but not elsewhere) of the Issuer and/or prove in any winding-up of the Issuer to the same extent (but not further or otherwise) that the Trustee would have been entitled so to do in respect of the Notes, Receipts and Coupons held by him. No remedy against the Issuer, other than the institution of proceedings for the winding-up in England of the Issuer or the proving or claiming in the winding-up of the Issuer, shall be available to the Trustee or the Noteholders, Receiptholders or Couponholders for the recovery of amounts owing in respect of the Notes, Receipts or Coupons or under the Trust Deed.

(e) The Trustee may at its discretion institute proceedings for the winding-up of the Issuer in England to enforce the obligations of the Issuer under the Trust Deed and the Notes, Receipts and Coupons, but it shall not be bound to institute any such proceedings unless (a) it shall have been so directed by an Extraordinary Resolution of the Noteholders or so requested in writing by the holders of at least one-quarter of the nominal amount of the Notes then outstanding and (b) it shall have been indemnified to its satisfaction.

13. Prescription

Notes, Receipts and Coupons shall become void unless presented for payment within 12 years (in the case of Notes and Receipts) and six years (in the case of Coupons), in each case from the relevant date (as defined in Condition 10) therefor, subject to the provisions of Condition 7. There shall not be included in any Coupon sheet issued on exchange of a Talon, any Coupon the claim for payment in respect of which would be void pursuant to this Condition or Condition 7 or any Talon which would be void pursuant to Condition 7.

14. Meetings of Noteholders, Modification and Waiver

The Trust Deed contains provisions for convening meetings of Noteholders to consider any matter affecting their interests, including the modification by Extraordinary Resolution of these Terms and Conditions or the provisions of the Trust Deed. The quorum at any such meeting for passing an Extraordinary Resolution will be one or more persons present holding or representing a clear majority of the nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons present being or representing Noteholders whatever the nominal amount of the Notes for the time being outstanding so held or represented, except that, at any meeting, the business of which includes the

modification of certain of these Terms and Conditions or of certain of the provisions of the Trust Deed, the necessary quorum for passing an Extraordinary Resolution will be one or more persons present holding or representing not less than two-thirds, or at any adjourned such meeting not less than one-third, of the nominal amount of the Notes for the time being outstanding.

An Extraordinary Resolution passed at any meeting of Noteholders will be binding on all Noteholders, whether or not they are present at the meeting, and on all Receiptholders and Couponholders.

The Trust Deed provides that the Trustee may agree, without the consent of the Noteholders, Receiptholders or Couponholders, to any modification (subject as provided above) of, or to any waiver or authorisation of any breach or proposed breach of, any of these Terms and Conditions or any of the provisions of the Trust Deed which, in the opinion of the Trustee, is not materially prejudicial to the interests of the Noteholders or to any modification thereof which is of a formal, minor or technical nature or which is made to correct a manifest error. Any such modification, waiver or authorisation shall be binding on the Noteholders, Receiptholders and Couponholders and, unless the Trustee agrees otherwise, any such modification shall be notified to the Noteholders as soon as practicable thereafter in accordance with Condition 19.

In connection with the exercise by it of any of its trusts, powers or discretions (including, but without limitation, any modification, waiver, authorisation or substitution), the Trustee shall have regard to the interests of the Noteholders as a class and, in particular, but without limitation, shall not have regard to the consequences of such exercise for individual Noteholders, Receiptholders or Couponholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory and the Trustee shall not be entitled to require, nor shall any Noteholder, Receiptholder or Couponholder be entitled to claim, from the Issuer or any other person any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders, Receiptholders or Couponholders except to the extent already provided for in Condition 10 and/or any undertaking given in addition to, or in substitution for, Condition 10 pursuant to the Trust Deed.

15. Substitution

(a) Subject as provided in the Trust Deed, the Trustee, if it is satisfied that so to do would not be materially prejudicial to the interests of the Noteholders, may agree, without the consent of the Noteholders, Receiptholders or Couponholders, to the substitution of any Successor in Business of the Issuer or a holding company of the Issuer or of a subsidiary of the Issuer or of any such Successor in Business or of any such holding company in place of the Issuer as principal debtor under the Trust Deed, the Notes, the Receipts and the Coupons, provided (in the case of the substitution of any company which is a subsidiary of the Issuer or of any such Successor in Business or of any such holding company) that the obligations of the subsidiary in respect of the Trust Deed, the Notes, the Receipts and the Coupons shall be guaranteed by the Issuer or such Successor in Business or such holding company in such form as the Trustee may require and provided further that (in the case of the Subordinated Notes) the obligations of such Successor in Business or of such holding company or subsidiary of the Issuer or of any such Successor in Business or of any such holding company and any such guarantee shall be subordinated on a basis considered by the Trustee to be equivalent to that in respect of the Issuer's obligations in respect of the Notes, Receipts and Coupons.

(b) Any such substitution shall be binding on the Noteholders, the Receiptholders and the Couponholders and, unless the Trustee agrees otherwise, any such substitution shall be notified by the Issuer to the Noteholders as soon as practicable thereafter in accordance with Condition 19.

16. Further Issues

The Issuer is at liberty from time to time without the consent of the Noteholders, Receiptholders or Couponholders to create and issue further notes ranking *pari passu* in all respects (or in all respects save for the date for, and the amount of, the first payment of interest thereon) with the outstanding Notes and so that the same shall be consolidated and form a single series with the outstanding Notes.

17. Replacement of Notes, Receipts, Coupons and Talons

If a Note (including any global Note), Receipt, Coupon or Talon is mutilated, defaced, destroyed, stolen or lost it may be replaced at the specified office of the Agent in London, or any other place approved by the Trustee of which notice shall have been published in accordance with Condition 19, on payment of such costs as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

18. Indemnification

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility in certain circumstances including provisions relieving it from instituting proceedings to enforce repayment unless indemnified to its satisfaction.

19. Notices

All notices regarding the Notes will be valid if published in the *Financial Times* or any other daily newspaper in London approved by the Trustee or, if this is not possible, in one other English language daily newspaper approved by the Trustee with general circulation in Europe. The Issuer shall also ensure that all notices are duly published in a manner which complies with the rules and regulations of any stock exchange or any other relevant authority on which the Notes are for the time being listed. Any such notice shall be deemed to have been given on the date of such publication or, if published more than once, on the date of the first publication or, if required to be published in more than one newspaper, on the date of the first publication in each such newspaper or where published in such newspapers on different dates, the last date of such first publication.

Until such time as any definitive Notes are issued, there may, so long as any global Note is held in its entirety on behalf of Euroclear and/or Clearstream, Luxembourg, be substituted for such publication as aforesaid the delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg for communication by them to the Noteholders and, in addition, for so long as any Notes are listed on a stock exchange or admitted to listing by any other relevant authority and the rules of that stock exchange or, as the case may be, other relevant authority so require, such notice will be published in a daily newspaper of general circulation in the place or places required by that stock exchange or, as the case may be, or any other relevant authority. Any such notice shall be deemed to have been given to the Noteholders on the seventh day after the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg, as appropriate.

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together with the relative Note or Notes, with the Agent. Whilst any of the Notes are represented by a global Note, such notice may be given by any Noteholder to the Agent via Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Agent and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

20. The Contracts (Rights of Third Parties) Act 1999

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of the Notes, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

21. Governing Law

The Trust Deed, the Notes, the Receipts, the Coupons and the Talons are governed by, and will be construed in accordance with, English law.

USE OF PROCEEDS

The net proceeds from each issue of Notes will be used by the Issuer for the general funding purposes of its business.

NORTHERN ROCK PLC

Introduction

Northern Rock plc (the "Issuer") is a public limited company incorporated and registered in England and Wales under the Companies Act 1985. The Issuer is a specialised mortgage lender whose core business is the provision of residential mortgages in the United Kingdom funded in both the retail and wholesale markets. The Issuer, together with its subsidiaries and associated companies, also engages in secured commercial lending, personal unsecured lending and distribution of third party insurance products. At 31st December, 2004, the Northern Rock Group had total assets under management of £64.9 billion (including securitised mortgage loans).

The Issuer is one of the top ten mortgage lenders in the United Kingdom based upon loans outstanding. In the UK mortgage market, the Issuer had an estimated market share of approximately 11.2 per cent. on the basis of net lending during 2004 of £11.4 billion and an estimated market share of approximately 6.8 per cent. on the basis of gross lending during 2004 of £20.1 billion.

The Issuer was originally a building society (a mutual form of organisation existing under English law which engages primarily in residential mortgage lending and deposit taking) prior to its conversion to a public limited company effective 1st October, 1997. The Issuer currently has the following two principal subsidiaries, each of which is wholly-owned by the Issuer: Northern Rock Mortgage Indemnity Company Limited, a Guernsey limited liability company providing mortgage indemnity services to the Issuer, and Northern Rock (Guernsey) Limited, a Guernsey limited liability company engaging in retail deposit taking.

The Issuer's ordinary shares have been admitted to trading on the London Stock Exchange's market for listed securities and have been admitted to the Official List of the UK Listing Authority. The principal executive office of the Issuer is at Northern Rock House, Gosforth, Newcastle upon Tyne NE3 4PL, United Kingdom and its internet address is www.northernrock.co.uk.

References to the Group are to the Issuer and its subsidiaries and associated undertakings.

Overview

The Issuer specialises in lending to individuals with a core business of providing residential mortgage loans, funded in the retail, wholesale, covered bond and securitisation markets. The Issuer has achieved rapid growth with total assets under management, including securitised mortgages, rising from £11.6 billion at the end of 1995 to £64.9 billion at 31st December, 2004. During 2004 total assets under management grew by 25 per cent. Management have set a strategic target of annual growth in assets under management of 15 per cent. to 25 per cent. per annum.

Profit on ordinary activities after tax for the year ended 31st December, 2004 amounted to £306.2 million, like-for-like growth of 13.0 per cent.; a return on equity of 21.3 per cent. The Issuer has continued to achieve strong year-on-year profit growth through a combination of volume growth, improving cost efficiency and growth in other income. These factors more than offset the easing in net interest spreads arising from competition and the increased use of securitisation.

The Issuer is one of the lowest cost providers in its core business. The Issuer's underlying cost to income ratio (defined as recurring administrative expenses divided by total income) was 30.4 per cent. for the year ended 31st December, 2004. The Issuer's cost advantage is derived from a combination of factors: focus on its core business, a cost efficient distribution network and its geographical base in the North East of England.

Developments in the Group's distribution network have focused on cost efficiency, achieving volume growth of lending and supporting the Group's retail funding objectives. Approximately 85 per cent. of residential mortgage lending is generated through intermediaries with the remainder split evenly between branches and direct business (telephone and e-commerce).

Lending

Residential Mortgage Lending

At 31st December, 2004 the Issuer had £49.0 billion of advances secured on residential property, including £22.0 billion of securitised mortgages. Residential lending represents the Issuer's core activity and accounts for 76 per cent. of total assets under management.

During 2004, total net residential lending amounted to £11.4 billion, an estimated market share of 11.2 per cent. compared to a share of outstanding total UK balances of approximately 5.5 per cent. as at 31st December, 2004. A strong year end pipeline of uncompleted lending awards of £4.7 billion will benefit lending in 2005.

The Group's residential mortgage assets are spread geographically throughout the UK. Residential mortgage lending is focused primarily on customers with a credit history and conservative income multiples and loan to value ratios. The quality of the portfolio is good with only 0.37 per cent. of all balances more than three months or more in arrears, approximately half the UK average.

Commercial Lending

The Issuer has a commercial loan portfolio which comprises two elements: commercial loans secured on residential properties (mainly loans to organisations supported by government grants, such as housing associations) and residential investment lending to individuals. Balances on such loans amounted to £696 million and are included in the £49.0 billion of advances secured on residential property for reporting purposes.

Other commercial loans are all secured on non-residential property and mainly represent loans to individuals or corporations to support investment in properties for retail, office or industrial use. At 31st December, 2004 such lending amounted to £1,569 million of which £291 million is securitised.

Commercial loans provide a diversification of assets and enhance interest margin for the Group. The Issuer intends to continue to grow its commercial loan portfolio while maintaining credit quality throughout the portfolio. At 31st December, 2004 only 0.3 per cent. of commercial loans were three months or more in arrears.

Personal Unsecured Lending

The Group also engages in personal unsecured lending, both on a stand-alone basis and via credit bundled products called "together". The "together" range comprises a combined secured residential mortgage and unsecured loan which benefits credit quality and enhances product retention. At 31st December, 2004 unsecured lending balances were £4.7 billion of which almost 40 per cent. were "together" unsecured advances.

At 31st December, 2004 only 1.0 per cent. of personal unsecured loans were three months or more in arrears. The "together" unsecured loans show characteristics similar to secured loans with only 0.8 per cent. three months or more in arrears.

General Insurance and Life Assurance Distribution

The Issuer distributes a limited range of household insurance and payment protection products primarily to residential mortgage and personal unsecured loan customers, via third party providers. Under arrangements with third party providers, the Issuer receives a commission from policies sold and does not take any underwriting risk. Life assurance products are supplied to the Issuer's customers through a relationship with Legal & General where the Issuer introduces the customer to the insurer and receives a commission for doing so. These products provide a valuable source of other income.

Funding

The Issuer has developed a diversified range of funding sources comprising on-shore and off-shore retail funding, wholesale funding, securitisation and, more recently, covered bonds.

Retail funding deposits amounted to £17.2 billion at 31st December, 2004 representing approximately 2.0 per cent. of UK retail deposits and 29 per cent. of the Issuer's total funding. The UK retail funding market has been particularly competitive in recent years as a result of new entrants, and the introduction of internet based accounts, which has affected the flow and price of retail deposits. The Issuer has aimed to maintain its retail franchise and achieved an increase in retail deposits in 2004 of £896 million. The Issuer operates a wide range of retail deposit vehicles including branches, postal, telephone, internet and off-shore.

Wholesale funding has become increasingly important to the Issuer and at 31st December, 2004 amounted to £19.7 billion or 33 per cent. of total funding. During 2004, net new wholesale funds amounted to £2.8 billion. The diversification of sources of funding available to the Group will continue with particular emphasis on Europe and the United States.

Securitisation is the third arm of the Issuer's funding strategy. From 1999 to 31st December, 2004, the Issuer has raised £29.6 billion through the issue of residential mortgage backed securities, of which £11.1 billion was raised in 2004.

At 31st December, 2004, outstanding securitised notes amounted to £22.1 billion representing 37 per cent. of total funding. Securitisation is expected to remain a significant source of funding for the Issuer, supporting incremental volume growth and capital efficiency. Diversification of investors will continue with issuance in Continental Europe and the United States, as well as in the UK. To date in 2005, a further £4.5 billion issue of residential mortgage backed securities has been completed.

During 2004, the Issuer established a €10 billion Global Covered Bond Programme. The inaugural issue of €2 billion covered bonds was followed in April 2005 by a further issue of €1.5 billion covered bonds.

Capital

At 31st December, 2004 total capital amounted to £3.2 billion, resulting in a total capital ratio of 14.0 per cent. Tier 1 capital was £2,015 million and the Tier 1 ratio 8.7 per cent.

£300 million of Reserve Capital Instruments ("RCIs") were issued by the Issuer in 2000 and 2001. The RCIs are eligible for inclusion in Tier 1 capital up to a maximum of 15 per cent. of total Tier 1 capital, with any surplus being eligible for inclusion in Upper Tier 2 capital.

The Issuer also issued £200 million of Tier One Notes in 2002, the full amount of which is eligible for inclusion in Tier 1 capital.

The Northern Rock Foundation

The establishment of The Northern Rock Foundation (the "Foundation") on conversion to a public limited company was intended to express the Issuer's commitment to its mutual history and to the region from which the business has drawn much of its strength. The Foundation has as its primary objective helping to improve the conditions of people disadvantaged by age, infirmity, poverty or other circumstances. It receives 5 per cent. of the annual consolidated profit before tax of the Issuer, paid under deed of covenant. The Foundation has received non-voting and non-dividend-paying Foundation shares which would convert into almost 15 per cent. of the ordinary share capital of the Issuer only in certain circumstances, principally involving a change in control of the Issuer, in which event the deed of covenant would terminate.

CAPITALISATION AND INDEBTEDNESS OF NORTHERN ROCK PLC

The following table sets out, on a consolidated basis, the shareholders' funds and subordinated and unsubordinated liabilities of the Issuer extracted without material adjustment from the financial statements of the Issuer for the year ended 31st December, 2004:—

	As at 31st December, 2004 (Audited) *£millions*
Shareholders' funds	
Equity shareholders' funds[1]:	
Called up share capital[1]	123.9
Share premium account	6.8
Capital redemption reserve	7.3
Profit and loss account	1,403.9
Total shareholders' funds	1,541.9
Tier One Notes[2]	200.0
Reserve capital instruments[3]	300.0
	500.0
Undated subordinated liabilities	
12⅜% Perpetual subordinated notes[4]	19.8
8% Undated subordinated notes[5]	61.5
6.75% Fixed rate step-up undated subordinated notes[6]	200.0
Floating rate undated subordinated notes[7]	69.0

Notes:

(1) Called up share capital:

	Ordinary Shares of 25p each *Number*	Foundation Shares of 25p each *Number*	Total *Number*	Ordinary Shares of 25p each *£million*	Foundation Shares of 25p each *£million*	Total *£million*
Authorised:						
At 31st December, 2004	614.0m	104.5m	718.5m	153.5	26.1	179.6
Issued and fully paid:						
At 31st December, 2004	421.2m	74.4m	495.6m	105.3	18.6	123.9

(2) The tier one notes have a call option in 2027, which is only exercisable with the consent of The Financial Services Authority.

(3) The reserve capital instruments have a call option in 2015, which is only exercisable with the consent of The Financial Services Authority.

(4) The Permanent Interest Bearing Shares ("PIBS") issued by North of England Building Society were replaced by perpetual subordinated notes of Northern Rock plc on conversion. These notes have a principal amount equal to the principal amount of the PIBS they replaced and carry the same rate of interest as those PIBS.

(5) The 8% undated subordinated notes are denominated in US dollars; the proceeds and coupon payments have been swapped into sterling. The notes became redeemable on 15th June, 2004 and may subsequently be redeemed in the ordinary course of business on coupon dates which fall on 15th March, 15th June, 15th September and 15th December (subject to prior regulatory consent).

(6) The 6.75% fixed rate step-up undated subordinated notes are not redeemable in the ordinary course of business before 17th June, 2024 (subject to prior regulatory consent).

(7) The floating rate undated subordinated notes are denominated in US dollars; the proceeds and coupon payments have been swapped into sterling. They are not redeemable in the ordinary course of business before 23rd February, 2011 (subject to prior regulatory consent).

(8) The 5.6% undated subordinated notes are denominated in US dollars; the proceeds and coupon payments have been swapped into sterling. The notes are not redeemable in the ordinary course of business before 30th April, 2014 (subject to prior regulatory consent).

(9) The 11.734% subordinated loan due 2016 is repayable in five equal annual instalments from 2012 to 2016.

(10) The fixed rate step-up subordinated callable notes due 2017 are not redeemable in the ordinary course of business before 28th February, 2012 (subject to prior regulatory consent).

(11) The fixed rate step-up subordinated callable notes due 2015 are not redeemable in the ordinary course of business before 13th January, 2010 (subject to prior regulatory consent).

(12) As indicated in the Capitalisation and Indebtedness table above, as at 31st December, 2004, the Issuer had other borrowings of £38,325.2 million (including deposits by banks of £1,201.6 million and debt securities of £16,781.6 million). Save for £500 million of the Issuer's debt securities in issue which are unguaranteed but secured on advances to customers and certain other assets of the Issuer, none of the borrowings are secured or guaranteed.

The Issuer established a €10,000,000,000 Global Covered Bond Programme (the "Global Covered Bond Programme") on 30th April, 2004 which is unconditionally and irrevocably guaranteed as to payments of interest and principal by Northern Rock Covered Bond LLP (the "LLP"). The obligations of the LLP under such guarantee constitute direct obligations of the LLP secured against the assets from time to time of the LLP and recourse against the LLP is limited to such assets. In 2004, the Issuer issued the Series 1 €2,000,000,000 3.50% Covered Bonds due 2009 pursuant to the Global Covered Bond Programme. This issue (£1,340.8 million equivalent) is included within debt securities in issue.

Since 31st December, 2004, the Issuer has issued the following debt (unsecured and unguaranteed) under its US$15,000,000,000 Euro Medium Term Note Programme:

£25,000,000 Floating Rate Notes due January 2010;
US$32,000,000 Fixed Rate Notes due May 2007;
€100,000,000 Floating Rate Notes due July 2006;
€20,000,000 Fixed Rate Notes due April 2007;
£450,000 Floating Rate Notes due February 2011;
US$7,598,000 Floating Rate Notes due February 2010;
£3,600,000 Floating Rate Notes due May 2011;
€2,200,000 Floating Rate Notes due February 2012;
£625,000 Floating Rate Notes due February 2006;
US$30,000,000 Fixed Rate Notes due February 2008;
US$20,000,000 Fixed Rate Notes due February 2008;
£60,000,000 Floating Rate Notes due March 2007;
£9,230,000 Floating Rate Notes due September 2010;
€20,000,000 Floating Rate Notes due March 2015;
£2,000,000 Floating Rate Notes due September 2007;
€60,000,000 Floating Rate Notes due May 2012;
€100,000,000 Floating Rate Notes due January 2015;
€25,000,000 Fixed Rate Notes due April 2012;
CAN$20,000,000 Floating Rate Notes due April 2008;
CAN$20,000,000 Floating Rate Notes due May 2007; and
£275,000 Floating Rate Notes due April 2011.

Since 31st December, 2004, the Issuer has issued the following debt (unsecured and unguaranteed) under its US$10,000,000,000 US Medium Term Note Programme:

US$1,750,000,000 Extendible Quarterly Securities

Since 31st December, 2004, the Issuer has issued the following covered bonds under its €10,000,000,000 Global Covered Bond Programme:

Series 2 €1,500,000,000 3.625% Covered Bonds due 2015.

(13) As at 31st December 2004, the Issuer had no material contingent liabilities or guarantees.

(14) Except as disclosed above, there has been no material change in the capitalisation and indebtedness of the Issuer since 31st December, 2004.

BOARD OF DIRECTORS

The Directors of the Issuer as of 27th April, 2005 are:

The business address of the directors is Northern Rock House, Gosforth, Newcastle upon Tyne, NE3 4PL.

TAXATION

United Kingdom Taxation

The following is a summary of the Issuer's understanding of current law and practice in the United Kingdom relating to withholding or a deduction of tax from interest payable on the Notes. The comments do not deal with other United Kingdom tax implications of acquiring, holding or disposing of the Notes. The comments relate only to the position of persons who are absolute beneficial owners of the Notes and prospective Noteholders should be aware that the particular terms of issue of any series of Notes as specified in the relevant pricing supplement may affect the tax treatment of that and other series of Notes. The following is a general guide and should be treated with appropriate caution. Noteholders who are in any doubt as to their tax position should consult their professional advisers.

1. Provided the Issuer continues to be a bank within the meaning of section 840A of the Income and Corporation Taxes Act 1988 (the "Tax Act") for the purposes of section 349 of the Tax Act and provided that the interest on the Notes is paid in the ordinary course of its business within the meaning of section 349 of the Tax Act, it is entitled to make payments of interest without withholding or deduction for or on account of United Kingdom income tax. In accordance with the published practice of the United Kingdom Inland Revenue, such payments will be accepted as being made by the Issuer in the ordinary course of its business unless either:

(i) the borrowing in question conforms to any of the definitions of tier 1, 2 or 3 capital adopted by the Financial Services Authority whether or not it actually counts towards tier 1, 2 or 3 capital for regulatory purposes; or

(ii) the characteristics of the transaction giving rise to the interest are primarily attributable to an intention to avoid United Kingdom tax.

2. Where interest is payable on Notes which have a maturity of less than one year (and which are not issued under arrangements the effect of which is to render such Notes part of a borrowing with a total term of a year or more), the interest will not be "yearly interest" for the purposes of the Tax Act and accordingly payments of interest on such Notes may be made without withholding or deduction for or on account of United Kingdom income tax.

3. There is no requirement to withhold or deduct amounts for or on account of United Kingdom income tax from payments of interest made in respect of "quoted Eurobonds". Notes which carry a right to interest will constitute "quoted Eurobonds" provided they are and continue to be listed on a "recognised stock exchange", as defined in section 841 of the Tax Act. The London Stock Exchange is a recognised stock exchange. Under an Inland Revenue published practice, securities will be treated as listed on the London Stock Exchange if they are admitted to the Official List by the United Kingdom Listing Authority and admitted to trading by the London Stock Exchange. Provided, therefore, that any Notes remain so listed, interest on such Notes will be payable without withholding or deduction on account of United Kingdom tax whether or not the Issuer carries on a banking business in the United Kingdom and whether or not the interest is paid in the ordinary course of its business.

4. In other cases, an amount will generally be required to be withheld from payments of interest on the Notes on account of United Kingdom income tax at the lower rate (currently 20 per cent.), subject to any direction to the contrary by the Inland Revenue under an applicable double taxation treaty. Where interest has been paid under deduction of United Kingdom income tax, Noteholders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted if there is an appropriate provision in any applicable double taxation treaty.

5. Noteholders may wish to note that in certain circumstances the Inland Revenue has power to obtain information (including the name and address of the payee or, in certain cases, the beneficial owner of the interest) from any person in the United Kingdom (including the Issuer) who either pays interest to or receives interest for the benefit of a Noteholder, or who, either pays amounts payable on the redemption of Notes which are relevant discounted securities for the purposes of the Finance Act 1996 (now deeply discounted securities for the purposes of the Income Tax (Trading and Other Income) Act 2005) to, or

receives such amounts for the benefit of, a Noteholder who is an individual, although Inland Revenue Published Practice indicates that the Inland Revenue will not exercise its power to require this information where such amounts are paid on or before 5th April, 2006. Information so obtained may, in certain circumstances, be exchanged by the Inland Revenue with the tax authorities of other jurisdictions. The references to "interest" above mean "interest" as understood in United Kingdom tax law. The statements above do not take any account of any different definitions of "interest" or "principal" which may be created by the terms and conditions of the Notes or any related documentation.

EU Savings Directive

On 3rd June, 2003, the European Council of Economics and Finance Ministers adopted a Directive on the taxation of savings income. Under the Directive Member States will (if equivalent measures have been introduced by certain non-EU countries) be required, from 1st July, 2005, to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State. However, for a transitional period, Belgium, Luxembourg and Austria will instead be required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries).

SUBSCRIPTION AND SALE

The Dealers have in an amended and restated Programme Agreement dated 9th May, 2003 (the "Programme Agreement"), which term shall include any further amendment, supplement or restatement from time to time agreed with the Issuer a basis upon which they or any of them may from time to time agree to purchase Notes. Any such agreement for any particular purchase by a Dealer will extend to those matters stated under "Terms and Conditions of the Notes" and "Form of the Notes" above. The Issuer may pay the Dealers commissions from time to time in connection with the sale of any Notes. In the Programme Agreement the Issuer has agreed to reimburse and indemnify the Dealers for certain of their expenses and liabilities in connection with the establishment of the Programme and the issue of the Notes. The Dealers are entitled to be released and discharged from their obligations in relation to any agreement to issue and purchase Notes under the Programme Agreement in certain circumstances prior to payment to the Issuer.

(a) United States

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver any Notes (i) as part of their distribution at any time and (ii) otherwise until 40 days after the completion of the distribution, as determined and certified by the relevant Dealer or, in the case of an issue of Notes on a syndicated basis, the relevant lead manager, of all Notes of the Tranche of which such Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Each issue of Index Linked Notes or Dual Currency Notes shall be subject to such additional U.S. selling restrictions as the Issuer and the relevant Dealer or Dealers may agree as a term of the issuance and purchase of such Notes, which additional selling restrictions shall be set out in the applicable Pricing Supplement.

(b) United Kingdom

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

(i) in relation to Notes which have a maturity of one year or more and which are to be admitted to the Official List, it has not offered or sold and will not offer or sell any Notes to persons in the United Kingdom prior to admission of such Notes to listing in accordance with Part VI of the FSMA except to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or otherwise in circumstances which have not resulted and will not result in an offer to the public

in the United Kingdom within the meaning of the Public Offers of Securities Regulations 1995 (as amended) or the FSMA;

(ii) it has only communicated or caused to be communicated and will only communicate or caused to be communicated any invitation or inducement to engage an investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA would not, if the Issuer was not an authorised person, apply to the Issuer; and

(iii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

(c) Japan

The Notes have not been and will not be registered under the Securities and Exchange Law of Japan (the "Securities and Exchange Law") and each Dealer has agreed, and each further Dealer appointed under the Programme will be required to agree, that it will not offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organised under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

(d) Germany

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that Notes have not been and will not be offered, sold or publicly promoted or advertised by it in Germany other than in compliance with the German Securities Selling Prospectus Act (*Wertpapier-Verkaufsprospektgesetz*) of 13th December, 1990, as amended, or any other laws applicable in Germany governing the issue, offering and sale of securities.

(e) France

Each of the Dealers and the Issuer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that, in connection with their initial distribution, it has not offered or sold, and will not offer or sell, directly or indirectly, Notes to the public in the Republic of France, and that it has not distributed, or caused to be distributed and will not distribute or cause to be distributed to the public in the Republic of France, this Offering Circular or any other offering material relating to the Notes, and that such offers, sales and distributions have been and shall be made in the Republic of France only to qualified investors (*investisseurs qualifiés*) acting for their own account, as defined in, and in accordance with, Articles L.411-1 and L.411-2 of *the Code Monétaire et Financier* and *décret* no. 98-880 dated 1st October, 1998.

(f) The Netherlands

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not, directly or indirectly, offered or sold and will not, directly or indirectly, offer or sell in The Netherlands any Notes with a denomination of less than €50,000 (or its foreign currency equivalent) other than to persons who trade or invest in securities in the conduct of a profession or business (which include banks, stockbrokers, insurance companies, pension funds, other institutional investors and finance companies and treasury departments of large enterprises) unless one of the other exemptions from or an exception to the prohibition contained in article 3 of the Dutch Securities Transactions Supervision Act 1995 (*Wet toezicht effectenverkeer 1995*) is applicable and the conditions attached to such exemption or exception are complied with.

(g) General

Each Dealer has agreed and each further Dealer appointed under the Programme will be required to agree to comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes this Offering Circular and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuer nor any other Dealer shall have responsibility therefor. Neither the Issuer nor any of the Dealers represents that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

With regard to each Tranche, the relevant Dealer(s) will comply with any other additional restrictions as the Issuer and the relevant Dealer(s) shall agree as a term of issue and purchase as indicated in the relevant Pricing Supplement.

GENERAL INFORMATION

1. Upon admission of Notes to the Official List, the listing of such Notes will be expressed as a percentage of their nominal amount (excluding accrued interest). It is expected that each Tranche of Notes which is to be admitted to the Official List and to trading on the London Stock Exchange's market for listed securities will be admitted separately as and when issued, subject only to the issue of a temporary global Note initially representing the Notes of such Tranche. The listing of the Programme in respect of such Notes is expected to be granted on or around 12th May, 2005.

2. The Programme was authorised by a resolution of the Board of Directors of the Issuer passed on 24th March, 1998. The increase in the aggregate nominal amount of Notes which may be outstanding under the Programme to U.S.$15,000,000,000 was authorised by a resolution of the Board of Directors of the Issuer passed on 25th November, 2003.

3. The Notes have been accepted for clearance through Euroclear and Clearstream, Luxembourg. The appropriate common code and ISIN allocated by Euroclear and Clearstream, Luxembourg in respect of each Tranche of Notes will be contained in the relevant Pricing Supplement. If the Notes are to clear through an additional or alternative clearing system the appropriate information will be specified in the relevant Pricing Supplement.

4. The consolidated accounts of the Company for the years ended 31st December, 2002, 31st December, 2003 and 31st December, 2004 have been audited, without qualification, in accordance with Auditing Standards issued by the Auditing Standards Board, by PricewaterhouseCoopers LLP, chartered accountants and registered auditors of 89 Sandyford Road, Newcastle upon Tyne NE99 1PL.

5. There has been no significant change in the financial or trading position of the Group as a whole since 31st December, 2004 and there has been no material adverse change in the financial position or prospects of the Group as a whole since that date.

6. Neither the Issuer nor its consolidated subsidiaries are, nor have been, involved in any legal or arbitration proceedings which may have, or have had during the 12 months prior to the date hereof, a significant effect on the financial position of the Group taken as a whole, nor, so far as the Issuer is aware, are any such proceedings pending or threatened.

7. Throughout the duration of the Programme and from the date hereof, copies of the following documents will, when published, be available for inspection at the registered office of the Issuer and from the specified office in London of the Agent:

(i) the Memorandum and Articles of Association of the Issuer;

(ii) the consolidated audited annual accounts of the Issuer and its subsidiaries for each of the years ended 31st December, 2002, 2003 and 2004;

(iii) the most recently available consolidated audited annual accounts of the Issuer and its subsidiaries;

(iv) the Programme Agreement, the Trust Deed (which contains the forms of the temporary and permanent global Notes, the definitive Notes, the Receipts, the Talons and the Coupons) and the Agency Agreement and all amendments and supplements thereto and restatements thereof;

(v) this Offering Circular;

(vi) any future offering circulars, prospectuses, supplementary listing particulars, information memoranda and supplements (including Pricing Supplements save that a Pricing Supplement relating to an unlisted Note will be available for inspection only by the relevant Dealer or Dealers specified in such Pricing Supplement or, upon proof satisfactory to the Agent as to identity, the holder of any Note to which such Pricing Supplement relates) to this Offering Circular and the documents incorporated herein and therein by reference; and

(vii) the subscription agreement, if any, relating to each issue of Notes listed on a stock exchange or any relevant authority.

8. The Trust Deed provides that the Trustee may rely on reports or other information from professional advisers or other experts in accordance with the provisions of the Trust Deed, whether or not any such report or other information, or engagement letter or other document entered into by the Trustee and the relevant person in connection therewith, contains any monetary or other limit on the liability of the relevant person.

ARTICLES OF ASSOCIATION

of

Northern Rock plc

PRELIMINARY

le A

1. The regulations in Table A as in force at the date of the incorporation of the Company shall not apply to the Company.

Definitions

2. In these Articles, except where the subject or context otherwise requires:

Act means the Companies Act 1985;

address in relation to electronic communications, includes any number or address used for the purposes of electronic communications;

Articles means these articles of association as altered from time to time by special resolution;

auditors means the auditors of the Company;

board means the directors or any of them acting as the board of directors of the Company;

BSA means the Building Societies Act 1986 as amended by the Building Societies Act 1997 (and, where the context requires, subordinate legislation made thereunder);

certificated share means a share in the capital of the Company that is not an uncertificated share and references in these Articles to a share being held in certificated form shall be construed accordingly;

clear days in relation to the sending of a notice means the period excluding the day on which a notice is sent or deemed to be sent and the day for which it is sent or on which it is to take effect;

enactment passed after those Acts which may, by virtue of that or any other such enactment, be cited together with those Acts as the "Companies Acts" (with or without the addition of an indication of the date of any such enactment);

core business means that part of the business of the Company and its subsidiaries which requires authorisation under the Banking Act 1987;

director means a director of the Company;

dividend means dividend or bonus;

electronic signature has the meaning given by section 7(2) of the Electronic Communications Act 2000;

employees' share scheme has the meaning given by section 743 of the Act;

entitled by transmission means, in relation to a share or debenture, entitled as a consequence of the death or bankruptcy of the holder or otherwise by operation of law;

Foundation means The Northern Rock Foundation, a private company limited by guarantee incorporated in England and Wales with registered number 3416658;

FSA means the Financial Services Authority;

holder in relation to a share in the capital of the Company means the member whose name is entered in the register as the holder of that share;

Junior Obligations means in respect of any Relevant Series:

(a) the ordinary shares of the Company;

(b) any other series of Preference Shares issued by the Company ranking junior as to dividends with the Relevant Series; or

(c) any Preference Share issued by a subsidiary undertaking of the Company which benefits from a guarantee or other contractual support undertaking of the Company which guarantee or contractual support undertaking ranks junior as to payments with the Relevant Series; or

(d) any other instrument issued by the Company ranking junior as to dividends with the Relevant Series.

London Stock Exchange means the London Stock Exchange plc;

member means a member of the Company;

Memorandum means the memorandum of association of the Company as amended from time to time;

paid means paid or credited as paid;

Parity Obligations means in respect of any Relevant Series:

(a) any other series of Preference Shares issued by the Company ranking pari passu as to dividends with the Relevant Series; or

(b) any Preference Share issued by a subsidiary undertaking of the Company which benefits from a guarantee or other contractual support undertaking of the Company which guarantee or contractual support undertaking ranks pari passu as to payments with the Relevant Series; or

(c) any other instrument issued by the Company ranking pari passu as to dividends with the Relevant Series.

recognised person means a recognised clearing house or a nominee of a recognised clearing house or of a recognised investment exchange, each of which terms has the meaning given to it by section 185(4) of the Act;

register means either or both of the issuer register of members and the Operator register of members of the Company;

Regulations means the Uncertificated Securities Regulations 2001;

seal means the common seal of the Company and includes any official seal kept by the Company by virtue of section 39 or 40 of the Act;

secretary means the secretary of the Company and includes a joint, assistant, deputy or temporary secretary and any other person appointed to perform the duties of the secretary;

Society means Northern Rock Building Society;

Transfer Agreement means the agreement required by section 97(4)(b) of the BSA pursuant to which the business of the Society is vested in the Company;

Transfer Document means the document dated 17 February 1997 circulated to members of the Society prior to Vesting, including details of the arrangements for the vesting of the business of the Society in the Company;

uncertificated share means (subject to Regulation 42(ii)(a) of the Regulations) a share in the capital of the Company title to which is recorded on the Operator register of members of the Company and which may, by virtue of the Regulations, be transferred by means of a relevant system and references in these Articles to a share being held in uncertificated form shall be construed accordingly;

United Kingdom means Great Britain and Northern Ireland; and

Agreement as the vesting date for the purpose of section 97(6) of the BSA.

Construction

3. References to a ***document*** include, unless the context otherwise requires, references to an electronic communication.

References to an ***electronic communication*** mean, unless the contrary is stated, an electronic communication (as defined in the Act) comprising writing.

References to a document being ***executed*** include references to its being executed under hand or under seal or, in the case of an electronic communication, by electronic signature.

References to an ***instrument*** mean, unless the contrary is stated, a written document having tangible form and not comprised in an electronic communication (as defined in the Act).

References to a notice or other document being ***sent*** to or by a person include references to such notice or other document, or a copy of such notice or other document, being sent, given, delivered, issued or made available to, or served on, that person by any method authorised or contemplated by these Articles, and ***sending*** shall be construed accordingly.

References to ***writing*** mean the representation or reproduction of words, symbols or other information in a visible form by any method or combination of methods, whether comprised in an electronic communication (as defined in the Act) or otherwise, and ***written*** shall be construed accordingly.

Words denoting the singular number include the plural number and vice versa; words denoting the masculine gender include the feminine gender; and words denoting persons include corporations.

Words or expressions contained in these Articles which are not defined in these Articles but are defined in the Act have the same meaning as in the Act (but excluding any modification of the Act not in force at the date of adoption of these Articles) unless inconsistent with the subject or context.

Words or expressions contained in these Articles which are not defined in these Articles but are defined in the Regulations have the same meaning as in the Regulations (but excluding any modification of the Regulations not in force at the date of adoption of these Articles) unless inconsistent with the subject or context.

Subject to the preceding two paragraphs, and save in the case of references to the BSA unless otherwise expressly provided, references to any provision of any enactment or of any subordinate legislation (as defined by section 21(1) of the Interpretation Act 1978) include any modification or re-enactment of that provision for the time being in force.

the construction of these Articles.

In these Articles, (a) powers of delegation shall not be restrictively construed but the widest interpretation shall be given to them; (b) the word ***board*** in the context of the exercise of any power contained in these Articles includes any committee consisting of one or more directors, any director holding executive office and any local or divisional board, manager or agent of the Company to which or, as the case may be, to whom the power in question has been delegated; (c) no power of delegation shall be limited by the existence or, except where expressly provided by the terms of delegation, the exercise of that or any other power of delegation; and (d) except where expressly provided by the terms of delegation, the delegation of a power shall not exclude the concurrent exercise of that power by any other body or person who is for the time being authorised to exercise it under these Articles or under another delegation of the power.

Where, in relation to a share, these Articles refer to a relevant system, the reference is to the relevant system in which that share is a participating security at the relevant time.

PROTECTIVE PROVISIONS

Special quorum and special resolution

4. Notwithstanding any provision in these Articles to the contrary (including, without limitation, the provision relating to the quorum at general meetings), a resolution relating to any of the following matters shall only be effective if it is approved as a special resolution passed at a general meeting of the Company at which the quorum shall be 5 per cent. of the total number of members eligible to vote at a general meeting of the Company present in person or by proxy:

(a) a proposal for the voluntary winding up or dissolution of the Company; or

(b) the amendment, removal or alteration of the effect of this Article; or

(c) a proposal (howsoever described) for the disposal, either in a single transaction or a series of transactions (whether related or not and whether by way of sale, transfer, lease or otherwise), of all or any substantial part of the core business of the Company except for a disposal to a holding company of the Company (as defined in section 736 of the Act) the articles of association of which contain the same restrictions as are contained in this Article and Articles 5 and 6.

This Article shall remain in force until the expiry of the protective period notwithstanding anything to the contrary in these Articles, after which this Article shall be deemed to be of no effect. The validity of anything done under this Article before that date shall not be affected and any action taken under this Article before that date shall not be open to challenge on any grounds whatsoever.

Limitations on shareholders

5.1 Without prejudice to any further restrictions which may be imposed by any addition to or amendment of these Articles (and subject always to the provisions of

shall not, at any time during the protective period:

(a) offer for sale or invite subscription for any shares in the Company, or allot or agree to allot any such shares with a view to their being offered for sale; or

(b) allot or agree to allot any share in the Company; or

(c) register a transfer of shares in the Company,

if the effect of the offer, the invitation, the allotment or the registration of the transfer would be that more shares than the permitted proportion would be held by any one person (other than the Society), or by any two or more persons who are parties to a concert party agreement which relates to shares in the Company.

5.2 Any provision (including any altered provision) of these Articles which is to any extent inconsistent with this Article or section 101(1) of the BSA (as modified or re-enacted from time to time) shall, to that extent, be void and any allotment or registration of a transfer of shares in contravention of this Article or section 101(1) of the BSA (as modified or re-enacted from time to time) shall be void.

5.3 This Article shall cease to apply:

(a) if a financial institution becomes a subsidiary undertaking of the Company, or the Company or such an undertaking acquires the whole, or substantially the whole, of the business of such an institution; or

(b) if a special resolution to the effect that section 101 of the BSA shall cease to apply to the Company is passed by the requisite majority of the members of the Company; or

(c) if the Bank of England, in accordance with section 101(4)(c) of the BSA, directs by notice to the Company that section 101 of the BSA shall cease to apply to the Company.

5.4 For the purposes of this Article 5:

(a) shares held by a person in a fiduciary capacity shall be treated as not held by him;

(b) shares held by a person as a nominee for another shall be treated as held by the other; and

(c) shares shall be regarded as being held by a person as a nominee for another if any voting rights attaching to them are exercisable only on the instructions or with the consent or concurrence of that other person.

5.5 Any reference in this Article 5 to shares includes a reference to:

and

(b) any certificate or other instrument issued by or on behalf of the Company and conferring a right to acquire shares otherwise than by subscription;

and for the purposes of Article 5.1 any shares to which any such instrument relates shall be deemed to be held by the holder of the instrument.

5.6 In Articles 4 and 5 and, in the case of paragraphs (c) and (d), in Articles 4, 5 and 6 the expressions:

(a) ***concert party agreement***;

(b) ***financial institution***;

(c) ***the permitted proportion***;

(d) ***the protective period***;

(e) ***the requisite majority***; and

(f) ***transfer***,

shall have the same meaning as in the BSA.

No person other than a Permitted Person to hold more than 15 per cent. of votes

6.1 The purpose of this Article is to prevent until the expiry of the protective period any person other than a Permitted Person from retaining an Interest in Relevant Share Capital which carries more than 15 per cent. of the total votes attaching to Relevant Share Capital of all classes taken as a whole and capable of being cast on a poll.

This Article shall remain in force until the expiry of the protective period notwithstanding anything to the contrary in these Articles. Thereafter this Article shall be deemed to be of no effect, the separate register required under Article 6.2 shall no longer be maintained and any notice calling for a Required Disposal and the powers of the board under this Article in respect of a Required Disposal shall cease to have effect. The validity of anything done under this Article before the expiry of the protective period shall not be affected and any action taken under this Article before that date shall not be open to challenge on any grounds whatsoever.

For the purposes of this Article:

Nominee means a person who holds shares in the Company within a relevant system or otherwise pursuant to a written agreement with the Company on behalf of a third party or a number of third parties;

Disclosure Notice means a notice served pursuant to Article 6.6(a);

would be taken into account in deciding whether a notification to the Company would be required under Part VI of the Original Act but shall for all purposes include (the ***Included Interests***):

(i) rights to subscribe for or convert into, or entitlements to acquire rights to subscribe for or convert into, shares which would on issue or conversion (as the case may be) be comprised in the Relevant Share Capital;

(ii) the interests referred to in section 209(1)(a), (b), (c), (d), (e), (f), (g) or (h) of the Original Act (except those of a bare trustee under the laws of England and Wales and of a simple trustee under the laws of Scotland) or mentioned in section 208(4)(b) of the Original Act (but on the basis that the entitlement there referred to could arise under an agreement within the meaning of sections 204(5) and (6) of the Original Act); and

(iii) any deemed voting concert party interest consequent upon a resolution of the board pursuant to Article 6.5,

and ***Interested*** shall be construed accordingly;

Original Act means the Companies Act 1985 as in force at the date of adoption of this Article and notwithstanding any repeal, modification or re-enactment thereof after that date (including, for the avoidance of doubt, any amendment, replacement or repeal by regulations made by the Secretary of State pursuant to section 210A of that Act to the definition of relevant share capital in section 198(2) or to the provisions as to what is taken to be an interest in shares in section 208 or as to what interests are to be disregarded in section 209) other than any amendment by regulations made by the Secretary of State pursuant to section 210A thereof to the percentage giving rise to a notifiable interest in section 199(2);

Permitted Person means:

(a) the chairman of a meeting of the Company or of a meeting of the holders of Relevant Share Capital or of any class thereof when exercising the voting rights conferred on him under Article 6.10; or

(b) a trustee (acting in that capacity) of any employees' share scheme of the Company; or

(c) any person who has an Interest but who, if his Interest were governed by the laws of England and Wales, would in the opinion of the board be regarded as a bare trustee of that Interest to the extent of that Interest; or

(d) a Stock Exchange Nominee; or

capacity as such on behalf of third parties and not on his own account; or

(f) a person in respect of, and to the extent only of, Interests which exist only by virtue of an obligation (contingent or otherwise) to take up Shares or shares which would be comprised in the Relevant Share Capital on issue or the acquisition of Shares pursuant to an underwriting agreement or subscription agreement or other similar agreement in each case approved by the board (provided that where any such person disposes of any Shares at any time after acquiring an Interest by virtue of an obligation (contingent or otherwise) pursuant to such an agreement, it shall be deemed to be a Permitted Person in respect of only that number of Shares or shares in which it was Interested pursuant to such agreement less the number of Shares or shares of which it has so disposed); or

(g) the Foundation; or

(h) until the Vesting Date, the Society;

Relevant Person means any person (whether or not identified) who has, or who appears to the board to have, an Interest in Shares (or shares which would be comprised in the Relevant Share Capital on issue or conversion) which carry (or would on issue or conversion carry) more than 15 per cent. of the total votes attaching to Relevant Share Capital of all classes taken as a whole and capable of being cast on a poll (calculated in accordance with Article 6.3). For the purposes of this Article, where (i) the board resolves, pursuant to Article 6.11, that it has made reasonable enquiries and that it is unable to determine whether or not a person has an Interest in any particular Shares or shares comprised (or which would on issue or conversion be comprised) in Relevant Share Capital, or (ii) there is failure to comply with a Disclosure Notice as required by Article 6.6 and the board resolves (as provided in such Article) that such Shares be deemed to be Relevant Shares, then the Shares concerned shall be deemed to be Relevant Shares and all persons Interested in them to be Relevant Persons;

Relevant Share Capital means the relevant share capital of the Company (as that expression is defined in section 198(2) of the Original Act);

Relevant Shares means all Shares in which a Relevant Person has or appears to the board to have or is deemed to have an Interest; and, for the purposes of this Article, where the Interest in question falls within section (i) of the definition of ***Included Interests***, the rights or entitlements referred to in such section (and not the shares which are the subject of the rights or entitlements referred to therein) shall (until such right is exercised) be deemed to be Relevant Shares;

number of Relevant Shares as will cause a Relevant Person to cease to be a Relevant Person, not being a disposal to another Relevant Person (other than a Permitted Person) or a disposal which constitutes any other person (other than a Permitted Person) a Relevant Person;

Share means any share comprised in Relevant Share Capital; and

Stock Exchange Nominee means a person in respect of whom, by virtue of section 185(4) of the Act, the Company is not required to comply with section 185(1) of the Act.

6.2 The provisions of Part VI of the Original Act shall apply as if such provisions extended to the Included Interests, and accordingly the Company, its members and all persons Interested in Shares (or shares which would on issue or conversion be comprised in Relevant Share Capital) shall have the rights and obligations referred to in Part VI of the Original Act (including in relation to Included Interests therein), but so that Included Interests shall, when disclosed to the Company, be entered in a separate register which shall be kept by the Company for that purpose and the provisions of sections 210(3) to (6) (inclusive), 211(10), 213(3) (so far as it relates to section 211(10)), 214(5), 215(8), 216 (other than subsection (5)), 217(7), 218(3), 219, 454, 455, 732 and 733 of the Original Act shall not apply in respect of Included Interests.

6.3(a) In calculating (for the purposes of ascertaining whether a person is a Relevant Person) the total votes attaching to Relevant Share Capital (or to shares which would on issue or conversion be comprised in the Relevant Share Capital) of all classes taken as a whole and capable of being cast on a poll at any meeting, there shall be disregarded any votes which, by virtue of this Article, Article 79 or any court order, are precluded (whether temporarily or not) from being cast on a poll at the meeting.

(b) In calculating (for the purposes of ascertaining whether a person is a Relevant Person) the total votes attaching to Relevant Share Capital (or to shares which would on issue or conversion be comprised in the Relevant Share Capital) and in calculating (for the purposes of determining whether an Interest is notifiable pursuant to Article 6.4) the notifiable percentage, where some or all of the Interest in question falls within section (i) of the definition of ***Included Interests***, there shall only be taken into account the Relevant Share Capital and the shares to which the Included Interest in question relates as if all those shares were in issue or conversion in full had been effected.

6.4 Notwithstanding any amendment by regulations made by the Secretary of State pursuant to section 210A of the Original Act to the percentage giving rise to a notifiable interest in section 199(2) of the Original Act, if the notifiable percentage referred to in section 199 of the Act shall exceed three per cent., the rights and obligations referred to in this Article and the rights and obligations referred to in

213(3) (so far as it relates to section 211(10)), 214(5), 215(8), 216 (other than subsection (5)), 217(7), 218(3), 219, 454, 455, 732 and 733 of the Original Act, shall apply as though such notifiable percentage were three per cent. and as if such provisions extended to Included Interests. If the notifiable percentage referred to in section 199 of the Act shall be less than three per cent., the rights and obligations referred to in this Article shall apply with the substitution of such lesser notifiable percentage for three per cent. and as if such provisions extended to Included Interests. The rights and obligations created by this Article 6 are in addition to and separate from those arising under Part VI of the Original Act or under the Companies Acts.

6.5(a) Without prejudice to the application of section 204 of the Original Act to the definition of ***Interest*** in Article 6.1, where it appears to the board that:

(i) there is an agreement or arrangement between two or more persons with respect to, or to the exercise of, voting rights attaching to Shares; and

(ii) the agreement or arrangement is likely to result in those rights being exercised to a material extent in the same way or for the same purpose with a view to the persons being the parties to the agreement or arrangement being able materially to influence or to control the policy of the Company or the management of its affairs,

the board may at its absolute discretion resolve that a voting concert party exists and if it so resolves each of the persons who is party to such agreement or arrangement shall be deemed (for the purposes of this Article) to be Interested in all the Shares to which the voting rights in question are attached.

(b) In this Article 6.5, references to an arrangement include references to an understanding or mutual expectation, whether formal or informal, and whether or not legally binding.

(c) Where the board resolves that a voting concert party exists pursuant to Article 6.5(a) above, it shall (if it is so able), within 21 days after the date of such resolution, send to each of the persons who is party to such agreement or arrangement notice of the resolution.

6.6(a) The board may by notice in writing require any member, or other person appearing to be Interested or appearing to have been Interested in Shares or in shares which would be comprised in the Relevant Share Capital on conversion or issue, to disclose to the Company in writing such information as the board shall require relating to the ownership of or interests (including, without prejudice to the generality of the foregoing, Interests) in the Shares or shares in question as lies within the knowledge of such member or other person (supported if the board so requires by a statutory declaration and/or by independent evidence) including (without limitation):

section 212 of the Original Act;

(ii) any information which the board shall in its absolute discretion deem necessary or desirable in order to determine whether any Shares or rights to subscribe for, or convert into, Shares are Relevant Shares; and

(iii) any information which the board shall in its absolute discretion deem necessary or desirable in order to determine whether any person is or is deemed to be a Relevant Person or otherwise in relation to the application or potential application of this Article.

(b) The board may give a Disclosure Notice pursuant to Article 6.6(a) at any time and the board may give one or more than one such notice to the same member or other person in respect of the same Shares or shares.

(c) Where the holder of any Shares or rights to subscribe for, or convert into, Shares, or any person appearing to be Interested in such Shares or rights, fails to comply with a Disclosure Notice within 21 days (or such lesser period as the board in its absolute discretion considers appropriate in the circumstances) of service of such Disclosure Notice, the board may (in addition to any other remedy it may have under any provision of these Articles, the Companies Acts or otherwise) resolve that such Shares or rights be deemed to be Relevant Shares and/or that all persons Interested in such Shares or rights be deemed to be Relevant Persons.

6.7 If to the knowledge of the board any person other than a Permitted Person becomes or is deemed to be a Relevant Person, the board shall serve a written notice on the registered holder(s) of the Relevant Shares and on any other person or persons who appears to it to be a Relevant Person in relation to those Shares or the relevant rights or entitlements. Such notice shall set out the restrictions referred to in Article 6.10 and call for a Required Disposal to be made within 21 days (or such lesser period as the board in its absolute discretion considers appropriate in the circumstances) of the service of such notice on the registered holder or other such person. The board may extend the period in which such notice is required to be complied with and may withdraw any such notice (whether before or after the expiration of the period referred to) if it appears to it that there is no Relevant Person in relation to the Shares or rights or entitlements concerned. Upon the giving of such notice, and save for the purpose of a Required Disposal under this Article 6.7 or Article 6.8, no transfer of any of the Relevant Shares may be registered until either such notice is withdrawn or a Required Disposal has been made to the satisfaction of the board and registered.

6.8 If a notice served under Article 6.7 has not been complied with in all respects to the satisfaction of the board and has not been withdrawn, the board shall, so far as it is able, make a Required Disposal and shall, so far as it is able, give written notice of such disposal to those persons on whom such notice was

rights or entitlements disposed of shall be deemed to have irrevocably and unconditionally authorised the board to make such Required Disposal. The manner, timing and terms of any such Required Disposal made or sought to be made by the board (including but not limited to the price or prices at which the same is made and the extent to which assurance is obtained that no transferee (with the exception of a Permitted Person) is or would become a Relevant Person) shall be such as the board determines, based upon advice from such bankers, brokers or other persons consulted by the board for the purpose as the board considers appropriate, to be reasonably practicable having regard to all the circumstances including but not limited to the number of Shares or other rights or entitlements to be disposed of and the requirement that the disposal be made without delay; and the board shall not be liable to any person for any of the consequences of reliance on such advice.

6.9 For the purpose of effecting any Required Disposal in the case of certificated shares or other Interests or rights evidenced by a certificate or other document of title (***certificated securities***), the board may authorise any person to transfer the Shares, Interests or rights in question and may enter the name of the transferee in respect of the transferred Shares, Interests or rights in the appropriate register notwithstanding the absence of any share or other relevant certificate being lodged in respect thereof and may issue a new certificate to the transferee and an instrument of transfer executed by such person shall be as effective as if it had been executed by the registered holder of the Shares, Interests or rights and the title of the transferee shall not be affected by any irregularity or invalidity in the proceedings relating thereto. In the case of uncertificated shares or other Interests or rights which are permitted to be held or transferred in uncertificated form pursuant to the Regulations, the board may do all acts and things it considers necessary or expedient to effect the transfer of the securities to, or in accordance with, the transferee's directions. The net proceeds of such disposal shall be received by the Company whose receipt shall be a good discharge for the purchase money, and shall be paid (together with interest at such rate as the board considers appropriate and after deduction of any expenses incurred by the board in connection with the sale) to the former registered holder (or, in the case of joint holders, the first named joint holder thereof in the register for the purpose), together with, if appropriate, a new certificate in respect of the balance of any certificated securities to which he is entitled, upon surrender by him or on his behalf of any certificates in respect of the Relevant Shares (or Interests or rights, as the case may be) sold and formerly held by him.

6.10 A registered holder of a Relevant Share on whom a notice has been served under Article 6.7 shall not in respect of such Relevant Share be entitled, until such time as such notice has been withdrawn or the notice has been complied with to the satisfaction of the board, to attend or vote at any general meeting of the Company or meeting of the holders of any class of share capital of the Company and the rights to attend (whether in person or by proxy), to speak and to demand and vote on a poll which would have attached to such Relevant Share had it not been a Relevant Share shall vest in the chairman of any such meeting. The manner in

entirely at his discretion. The board shall inform the chairman of any such meeting as aforesaid of any Share or other right or entitlement becoming or being deemed to be a Relevant Share.

6.11 Without prejudice to the provisions of the Original Act and subject to the provisions of this Article, the board may assume without enquiry that a person is not a Relevant Person unless the information contained in the registers kept by the Company under Article 6.2 appears to the board to indicate to the contrary or the board has reason to believe otherwise, in which circumstances the board shall make reasonable enquiries to discover whether, and the extent to which, any person is Interested in Relevant Shares. If the board resolves that it has made reasonable enquiries and is unable to determine whether or not a person is Interested in any particular Shares (or shares which would on issue or conversion be comprised in Relevant Share Capital) then that person shall be deemed to be a Relevant Person and those particular Shares (or, as the case may be, the relevant rights or entitlements) shall be deemed to be Relevant Shares.

6.12 The board shall not be obliged to serve any notice required under this Article to be served upon any person if it does not know either his identity or his address. The absence of service of such a notice in such circumstances as aforesaid and any accidental error in or failure to give any notice to any person upon whom notice is required to be served under this Article shall not prevent the implementation of or invalidate any procedure or act under this Article.

6.13 The provisions of Articles 157 to 162 inclusive shall apply to the service upon a member of any notice required by this Article to be served. Any notice required by this Article to be served upon a person who is not a member or to a person who is a member but whose registered address is not within the United Kingdom and who has not given to the Company an address within the United Kingdom for service of notices shall be deemed validly served if it is sent through the post in a pre-paid cover addressed to that person at the address (or, if more than one, at one of the addresses), if any, at which the board believes him to be resident or carrying on business or to his last known address as shown on the register of members. Service shall in such a case be deemed to be effected in accordance with the provisions of Article 161.

6.14 Any resolution or determination of, or decision or exercise of any discretion or power by, the board or any director or by the chairman of any meeting under or pursuant to the provisions of this Article 6 (including, without limitation, as to what constitutes reasonable enquiries or as to the manner, timing and terms of any Required Disposal made by the board under Article 6.8) shall be final and conclusive and any disposal or transfer made, or other things done, by or on behalf of, or on the authority of, the board or any director pursuant to the foregoing provisions of this Article shall be conclusive and binding on all persons concerned and shall not be open to challenge, whether as to its validity or otherwise on any ground whatsoever. The board shall not be required to give any reasons for any

Article 6.

6.15 The Company shall ensure (and shall, so far as it is able, procure that every other company shall ensure) that any securities which are issued having rights to subscribe for, or convert into, shares which would on issue or conversion (as the case may be) be comprised in Relevant Share Capital shall be so issued on terms that such rights are subject to the provisions of this Article.

SHARE CAPITAL

Share capital

7.1 The share capital of the Company on the adoption of these Articles is £204,625,000 and €25,000,000, divided into 614,000,000 Ordinary Shares of £0.25 each (as consolidated or sub-divided from time to time, ***Ordinary Shares***), 104,469,920 Foundation Shares of £0.25 each (as consolidated or sub-divided from time to time, ***Foundation Shares***), having the rights set out in Article 8 below, and 100,000,000 undesignated sterling preference shares of £0.25 each, and 100,000,000 undesignated euro preference shares of €0.25 euros each (in each case as consolidated or sub-divided from time to time, respectively the ***Sterling Preference Shares***, and the ***Euro Preference Shares*** and together, the ***Preference Shares***), having, subject to the provisions of Articles 7.2 and 7.3 below, the rights set out in Article 8A below.

7.2 The Sterling Preference Shares shall be comprised of two classes of share:

(a) redeemable Sterling Preference Shares (the ***Redeemable Sterling Preference Shares***); and

(b) non-redeemable Sterling Preference Shares (the ***Non-redeemable Sterling Preference Shares***);

In the case of Sterling Preference Shares that are initially created as undesignated Sterling Preference Shares the board shall upon allotment determine whether they are to be allotted as Redeemable Sterling Preference Shares or Non-redeemable Sterling Preference Shares.

7.3 The Euro Preference Shares shall be comprised of two classes of share:

(c) redeemable Euro Preference Shares (the ***Redeemable Euro Preference Shares***); and

(d) non-redeemable Euro Preference Shares (the ***Non-redeemable Euro Preference Shares***);

In the case of Euro Preference Shares that are initially created as undesignated Euro Preference Shares the board shall upon allotment determine whether they are to be allotted as Redeemable Euro Preference Shares or Non-redeemable Euro Preference Shares.

Ownership

8.1 The Foundation Shares may be held only by one or both of the Society and the Foundation and shall not be transferable by the Foundation.

Rights

8.2 The Foundation Shares shall rank pari passu in all respects with the Ordinary Shares save as otherwise provided in these Articles or in the terms of issue of the Foundation Shares.

Right to participate in profits

8.3 Prior to conversion in accordance with Article 8.6, the Foundation Shares shall not, save as set out in Articles 8.4 to 8.25, carry any right to participate in the profits of the Company.

Rights on winding up

8.4 On a return of capital on the winding up of the Company, the Foundation shall be treated for the purposes of any distribution of the assets of the Company as if the Foundation Shares had been converted into Ordinary Shares immediately prior to the date of commencement of the winding up as determined in accordance with section 129 of the Insolvency Act 1986.

Voting rights

8.5 Subject to Article 15.1, prior to conversion in accordance with Article 8.6, the Foundation Shares shall not carry any right to attend or vote at any general meeting of the Company.

Conversion events

8.6.1 Each issued and unissued Foundation Share shall ipso facto be converted into and redesignated as (and references in these Articles to the conversion of the Foundation Shares shall be construed accordingly) one Ordinary Share:

(a) on the date specified by not less than three years' notice in writing given by the Company to the Foundation at any time at least ten years after the Vesting Date; or

(b) if an offer (the ***Offer***) is made to some or all of the ordinary shareholders (other than by way of a Scheme, as defined in Article 8.7) of the Company which is a takeover offer within the meaning of section 428(1) of the Act to acquire the whole or any part of the issued ordinary share capital of the Company and the right to cast more than 50 per cent. of the votes which may ordinarily be cast on a poll at a general meeting of the Company (prior to the conversion of the Foundation Shares) becomes unconditionally vested in the offeror, on the date such right becomes unconditionally vested in the offeror.

8.6.2 Following a conversion in accordance with Article 8.6.1(b), the Foundation shall be bound to accept the Offer in respect of all of the Ordinary Shares into which the Foundation Shares have been converted, provided that the Offer is expressed to extend to such Ordinary Shares.

to shares resulting from conversion

receive all dividends and (unless an adjustment shall have been made in respect thereof) other distributions declared, made or paid on the ordinary share capital of the Company in or in respect of the accounting period in which the conversion occurs (and whether or not they have been paid prior to such conversion), not being dividends in respect of any earlier accounting period, and shall rank pari passu in all other respects and form one class with the Ordinary Shares then in issue and fully paid.

Schemes of Arrangement

8.7 The Company shall not, while any Foundation Shares remain outstanding, without the Foundation's prior written consent approve (either by a board resolution or by an ordinary resolution of the members of the Company in general meeting) any scheme of arrangement under the Companies Acts in relation to the Ordinary Shares unless the scheme of arrangement extends to the Foundation Shares on the same terms as apply in relation to the Ordinary Shares, and such that the Foundation will receive no less favourable consideration than it would have received had the Foundation Shares converted into Ordinary Shares immediately prior to the scheme of arrangement becoming effective in accordance with section 425(3) of the Act (a ***Scheme***). The Foundation shall be bound to consent to such a Scheme.

Consolidation or sub-division

8.8 The Company shall not, while any Foundation Shares remain outstanding, effect any alteration in the nominal value of the Ordinary Shares by means of a consolidation or sub-division, unless the Foundation Shares are at the same time consolidated or sub-divided in like manner and to like extent.

Capitalisation issues

8.9 The Company shall not, while any Foundation Shares remain outstanding, make any issue of Ordinary Shares credited as fully paid to the holders of Ordinary Shares in their capacity as such (not being an issue which results from (a) the exercise by a shareholder of an option to take a share or shares in lieu of a cash dividend in accordance with Article 147 or (b) the application of Article 153.2 (in which case the provisions of Article 8.12.2 shall apply)) by way of capitalisation of profits or reserves (including any share premium account and capital redemption reserve) unless at the same time the Company makes a bonus issue of Foundation Shares to the Foundation in the same proportions as the bonus issue of Ordinary Shares.

Rights issues

8.10.1 The Company shall not, while any Foundation Shares remain outstanding, offer or grant by way of rights to holders of Ordinary Shares (i) any new Ordinary Shares, (ii) any options, rights or warrants to subscribe for or purchase new Ordinary Shares, (iii) any convertible loan stock of the Company or (iv) any convertible loan stock issued by a subsidiary of the Company which carries rights to subscribe or exchange for or convert into Ordinary Shares, unless the Company either (as the board may in its absolute discretion, subject to Article 8.13, determine):

(a) in the case of any such offer or grant, makes a like offer or grant at the same time to the Foundation as if the Foundation Shares had been converted in

acquire the relevant number of new Ordinary Shares, options, rights or warrants, or the relevant nominal amount of convertible loan stock on the same terms as any holder of Ordinary Shares in the Company; or

(b) in the case of any offer of new Ordinary Shares in the Company or of convertible loan stock for which the final conversion date is less than 12 months from the date of the offer (together, the ***Securities***), increases the number of Foundation Shares in the manner specified in Article 8.19 by:

$$\frac{A \times C}{B + C} \text{ Foundation Shares}$$

where:

A equals the number of Securities which would have been offered to the Foundation had the Foundation Shares been converted immediately before the record date of that offer;

B equals:

(i) in the case of an offer of Ordinary Shares, the price per Ordinary Share at which the new Ordinary Shares are being offered to the holders of the Ordinary Shares; or

(ii) in the case of an offer of convertible loan stock, the price per unit of loan stock divided by the number of Ordinary Shares into which a unit of loan stock will convert once fully paid; and

C equals the average of the middle market quotations (derived from the Daily Official List of the London Stock Exchange) for:

(i) in the case of an offer of Ordinary Shares, nil paid rights to an Ordinary Share for all dealing days during the Reference Period; or

(ii) in the case of an offer of convertible loan stock, nil paid rights to a unit of loan stock for all dealing days during the Reference Period divided by the number of Ordinary Shares into which a unit of loan stock will convert once fully paid

where ***Reference Period*** means all the dealing days on which such rights are dealt in on the London Stock Exchange.

8.10.2 Any adjustment made in accordance with Article 8.10.1(b) shall become effective, in the case of an offer of Ordinary Shares, on the date on which the new Ordinary Shares are unconditionally allotted or, in the case of an offer of convertible loan stock, on the date on which such loan stock is converted into Ordinary Shares.

make any offer of new Ordinary Shares to holders of Ordinary Shares in their capacity as such, other than by way of rights, unless either (as the board may in its absolute discretion, subject to Article 8.13, determine):

(a) the Company makes a like offer to the Foundation as if the Foundation Shares had been converted in accordance with Article 8.6, such that the Foundation has the right to acquire the relevant number of new Ordinary Shares on the same terms as any holder of Ordinary Shares in the Company; or

(b) the number of Foundation Shares is increased in the manner specified in Article 8.19 with effect from the date on which the new Ordinary Shares are unconditionally allotted by the number of new Foundation Shares which in the opinion of the board is fair and reasonable (taking into account in particular the dilution of the conversion rights then applicable as a result of the issue of the new Ordinary Shares and the price at which the new Ordinary Shares are offered).

...ting Date

8.12.1 The provisions of Article 8.10.1 and Article 8.11 shall not apply on or before the Vesting Date.

Issue of Free Shares after the Vesting Date

8.12.2 The Company shall not, while any Foundation Shares remain outstanding, allot or issue any Ordinary Shares credited as fully paid to any person in accordance with the provisions of Article 153.2 unless the Company at the same time issues to the Foundation:

$$\frac{A}{85} \times 15 \text{ Foundation Shares}$$

where A equals the number of Ordinary Shares allotted and issued in accordance with Article 153.2.

Offer during final 12 months ...otice period

8.13 If the Company makes any offer or grant of a kind contemplated by Articles 8.10 and 8.11 during the period of twelve months before the date specified in the notice given by the Company to the Foundation pursuant to Article 8.6.1(a), only the provisions of Articles 8.10.1(a) and 8.11(a) respectively shall apply, and no increase in the number of Foundation Shares will be made without the prior written consent of the Foundation.

Special dividends

8.14.1 The Company shall not, while any Foundation Shares remain outstanding, make any special dividend to holders of Ordinary Shares in their capacity as such (whether on a reduction of capital or otherwise, and unless and to the extent that Articles 8.10 and 8.11 apply), unless a corresponding distribution of an amount determined to be appropriate by the board is made to the Foundation at the same time as if the Foundation Shares had been converted at the record date for such special dividend.

8.14.2 For the purposes of this Article 8.14, ***special dividend*** shall mean any cash dividend or distribution of any kind which the board reasonably determines is "special" or is not paid or made in the ordinary course. If any cash dividend or other distribution is declared, paid or made which is "special" or is not paid in the ordinary course, but if paid or made in a lesser amount would not be a special dividend, only the excess shall be a special dividend for the purposes of this Article. If any dispute arises as to whether or the extent to which a cash dividend or distribution is "special" or not paid or made in the ordinary course, the matter will be referred to the auditors, acting as experts and not as arbitrators, whose certificate shall be conclusive and binding on all concerned in the absence of any manifest error.

Demergers and other dividends *in specie*

8.15 On any distribution *in specie* prior to the conversion of the Foundation Shares, the Foundation Shares shall carry the right to be treated, for the purposes of such distribution, as if the Foundation Shares had been converted into Ordinary Shares as at the record date or time for the distribution.

Reduction of share capital

8.16.1 The Company shall not, while any Foundation Shares remain outstanding, make a reduction of any of the following (otherwise than by way of a Scheme to which Article 8.7 applies) which involves the repayment to any shareholder of any amount paid up on any of its shares or the diminution of any liability in respect of unpaid share capital:

(a) its share capital; or

(b) its share premium account; or

(c) its capital redemption reserve,

unless the reduction is a permitted reduction as defined in Article 8.16.2 or the Company makes at the same time a proportionate reduction in the amount paid up on the Foundation Shares.

8.16.2 A ***permitted reduction*** (whether or not it involves the repayment to any shareholder of any amount paid up on any of the shares of the Company or the diminution of any liability in respect of unpaid share capital) means a reduction:

(a) of the Company's share capital on conversion or redemption or purchase of any of its shares; or

(b) of the Company's share capital as authorised by section 146(2) of the Act; or

(c) of the Company's share premium account as authorised by sections 130(2) and 160(2) of the Act; or

(d) of the Company's capital redemption reserve as a result of its application in paying up unissued shares in the capital of the Company to be allotted to

under section 170(4) of the Act.

variations

8.17 If the board determines that any other event (not being an event specified in Articles 8.7 to 8.16) has occurred which has a dilutive, concentrative or other effect on the Foundation Shares which in the opinion of the board is inappropriate, then following each such event the board may determine to make such adjustments to the number of Foundation Shares in issue as, in the opinion of the board, are appropriate to account for the dilutive, concentrative or other effect of the relevant event and which adjustments shall be conclusive and binding on all concerned in the absence of any manifest error and shall be effective as of the date determined by the board.

rtification d notice of justment

8.18 If and whenever any one or more of the events or circumstances specified in Articles 8.7 to 8.17 above shall occur or exist, any adjustment shall be such as shall be determined by the board and notified to the Foundation. In the case of any dispute, the adjustment shall be such as shall be certified by the auditors, acting as experts and not as arbitrators, to be fair and reasonable to take account of the relevant event or circumstances. This determination shall be conclusive and binding on all concerned in the absence of any manifest error.

Issue of additional Foundation Shares

8.19 If, as a result of any of the provisions set out in Articles 8.7 to 8.17, the number of Foundation Shares is to be increased, the Company shall issue, by way of a bonus issue to be paid up out of such reserves as the board may determine, additional Foundation Shares to the Foundation. Fractions of Foundation Shares shall not be allotted, but shall be taken into account in any subsequent adjustment.

Purchase of Foundation Shares

8.20 If, as a result of any of the provisions set out in Articles 8.7 to 8.17 above, the number of Foundation Shares held by the Foundation is to be reduced, the Company shall re-purchase such shares from the Foundation at a price of 1p per Foundation Share, to be paid out of such reserves as the board may determine.

Protective pr ons

8.21 For so long as the provisions of Article 5 (the ***protective provisions***) apply, shares in the Company will not be offered or allotted to the Foundation and the Foundation shall not be invited to subscribe for shares in the Company (whether pursuant to Articles 8.9, 8.10, 8.11, 8.12.2, 8.16, 8.17 and 8.19 or otherwise) if, and to the extent that, such offer or allotment or subscription would give rise to a breach of the protective provisions, but such shares shall be offered or allotted to the Foundation or the Foundation shall be invited to subscribe for the same, as the case may be, as soon as such allotment is possible without breaching the protective provisions unless the Final Date (as determined in accordance with the provisions of the Deed of Covenant to be entered into between the Foundation and the Company on or before the Vesting Date) has passed, in which case no offer, allotment or invitation to subscribe shall be made to the Foundation.

Procedure on conversion

8.22 The directors shall forthwith upon conversion in accordance with Article 8.6 direct that appropriate entries be made in the register and that written notice of such conversion be sent within 14 days after the date of such conversion to the

certificate or certificates for the Foundation Shares held by it on the date of conversion the Company shall deliver to the Foundation free of charge a new certificate for the Ordinary Shares to which the Foundation shall then have become entitled. In the meantime transfers will be certified against the register.

Application to list following conversion

8.23 If the Ordinary Shares in issue on the date of conversion are listed on the London Stock Exchange or any other recognised stock exchange the Company shall forthwith on conversion make application and take such other action as may be required to list on such exchange the Ordinary Shares arising on conversion of the Foundation Shares.

No deemed variation of rights

8.24 Neither the passing of a resolution of the Company to disapply the requirements of section 89 of the Act or to authorise the allotment of any class of shares in or other securities of the Company, nor the allotment or issue of any such shares or securities, shall constitute a deemed variation of the rights of the Foundation Shares.

Authorities to make necessary adjustments

8.25 The board shall not take any action which will give rise to an adjustment to the number of Foundation Shares held by the Foundation unless the requisite shareholder authorities to give effect to such adjustment are already in place or are granted simultaneously with such action, and it is otherwise lawful for such adjustment to be effected.

Preference Shares

8A.1 All of the Preference Shares shall rank pari passu inter se to the extent that they are expressed so to rank and shall confer the rights and be subject to the limitations set out in this Article 8A. They shall also confer such further rights (not being inconsistent with the rights set out in this Article 8A) as may be attached by the board to any Series (as defined below) of such shares prior to allotment of such series and in particular (but without prejudice to the generality of the foregoing) the board may, pursuant to the authority given by the passing of the resolution to adopt this Article, consolidate and divide and/or sub-divide any Preference Shares into shares of larger or smaller amount (and so that the provisions of Articles 50 and 51 shall, where relevant, apply to any such consolidation, division or sub-division). Whenever the board has the power under this article to determine any of the rights to be attached to any Series of the Preference Shares, the rights so determined need not be the same as those attached to the Preference Shares which have then been allotted or issued. The Preference Shares, including any class of Preference Shares, may be issued in one or more separate series (each, a ***Series***) and each Series shall be identified in such manner as the board may determine without any such determination or identification requiring any alteration to these Articles. Each of the Preference Shares shall, subject to the terms and conditions of issue as the board may determine prior to the issue of any relevant Series of Preference Shares, confer the following rights as to participation in the profits and assets of the Company, attendance at meetings, voting and, in the case of Redeemable Preference Shares, redemption:

(a) Preference Shares shall (subject to the further provisions described below) entitle the members holding the same to receive a preferential dividend (hereinafter called the ***Preference Dividend***), payable at such rate or rates (whether fixed or variable) and on such dates (***Preference Dividend Payment Dates***) to be determined by the board before allotment on the amounts from time to time paid up or credited as paid up thereon and on such other terms and conditions as may be determined by the board prior to allotment thereof and in particular (but without prejudice to the foregoing) the board may determine whether the rights of such shares as regards participation in profits are cumulative or non-cumulative. Unless otherwise determined by the directors prior to allotment, any Preference Dividends on Sterling Preference Shares shall be payable in sterling, and any Preference Dividends on Euro Preference Shares shall be payable in euros. Subject to sub-paragraph (f) below, Preference Shares shall carry no further right to participate in the profits and reserves of the Company other than the Preference Dividend;

(b) Unless otherwise determined by the board prior to allotment thereof, Preference Shares shall rank as regards participation in profits pari passu inter se and with any other shares that are expressed to rank pari passu therewith as regards participation in profits and otherwise in priority to any other shares of the Company.

(c) If it shall subsequently appear that any dividend which has been paid to holders of Preference Shares should not have been so paid, then provided the board shall have acted in good faith, the directors shall not incur any liability for any loss which any shareholder may suffer in consequence of such payment having been made.

(d) The following provisions of this paragraph (d) shall apply in relation to any particular Series of Preference Shares (a ***Relevant Series***) if so determined by the board prior to the allotment thereof:

(i) if the board determines prior to the allotment of a Relevant Series that this Article 8.1.1(d)(i) shall apply to that Relevant Series then dividends shall only be payable on the Preference Shares of such series, when, as and if declared by the board, but without prejudice to paragraph (e) below; or

(ii) if the board determines prior to the allotment of a Relevant Series that this Article 8.1.1(d)(ii) shall apply to that Relevant Series then the following provisions shall apply to that Relevant Series:

(A) if, in the opinion of the board, the distributable profits and distributable reserves of the Company are sufficient to cover the Preference Dividend in respect of the Relevant Series (including any arrears or deficiency of dividend that are cumulative in form) and also the payment in full of all other dividends stated to be payable on such date on any other Series (including any arrears or deficiency of dividend on

to rank pari passu as regards participation in profits, then, subject to sub-paragraph (D) below, the Preference Dividend on all such Series shall be declared and paid in full;

(B) if, on any Preference Dividend Payment Date the distributable profits and distributable reserves of the Company are, in the opinion of the board, sufficient only to enable partial payment of the Preference Dividend in respect of the Relevant Series (including any arrears or deficiency of dividend that are cumulative in form) and, if applicable, of any dividends payable on such date on any other Series (including any arrears or deficiency of dividend on any such other Series that are in cumulative form) ranking pari passu with the Relevant Series as regards participation in profits (together, the ***Participating Shares***), then, subject to sub-paragraph (D) below, the directors shall apply such distributable profits and distributable reserves in paying dividends to the holders of the Participating Shares pro rata to the amount of dividend on the Participating Shares accrued and payable (including any arrears or deficiency of dividend that are in cumulative form) on or before the relevant Preference Dividend Payment Date.

(C) if, on any Preference Dividend Payment Date, the distributable profits and distributable reserves of the Company are, in the opinion of the board, insufficient to enable payment to be made of any of the Preference Dividend in respect of the Relevant Series (including any arrears or deficiency of dividend that are cumulative in form) and, if applicable, of any dividends payable on such date on any other Series (including any arrears or deficiency of dividend that are cumulative in form) ranking pari passu with the Relevant Series as regards participation in profits, then the Company shall not pay the Preference Dividend in respect of either Series;

(D) if, pursuant to the provisions of sub-paragraphs (B) and (C) above, on any occasion a Preference Dividend in respect of a Relevant Series which is not expressed to have a cumulative right as regards participation in profits (or any part thereof) is not paid, the holders of shares of the Relevant Series shall have no claim in respect of such shortfall;

(E) if a Preference Dividend due on any Preference Dividend Payment Date in respect of any Relevant Series which is expressed to have a cumulative right as regards participation in profits is not paid in full (a ***Preference Dividend***

payment in full), and no additional preference shares have been allotted pursuant to sub-paragraph (G), the Company may not (without the written consent of three-fourths in nominal value of, or the sanction of an extraordinary resolution passed at a separate general meeting of, the holders of shares of the Relevant Series) thereafter:

(I) redeem, reduce, purchase or otherwise acquire for any consideration any Parity Obligations or Junior Obligations (and may not set aside or establish any sinking fund for any such redemption, reduction, purchase or other acquisition); or

(II) subject to the provisions of sub-paragraph (f) below, pay or declare any dividend on any Parity Obligations or Junior Obligations,

until such time as the Preference Dividend Shortfall has been paid or a sum has been set aside for its payment in full.

(F) if a Preference Dividend due on any Preference Dividend Payment Date in respect of any Relevant Series which is not expressed to have a cumulative right as regards participation in profits is not paid in full (or a sum is not set aside to provide for its payment in full), and no additional preference shares have been allotted pursuant to sub-paragraph (G), the Company may not (without the written consent of three-fourths in nominal value of, or the sanction of an extraordinary resolution passed at a separate general meeting of, the holders of shares of the Relevant Series) thereafter:

(I) redeem, reduce, purchase or otherwise acquire for any consideration any Parity Obligations or Junior Obligations (and may not set aside or establish any sinking fund for any such redemption, reduction, purchase or other acquisition); or

(II) subject to the provisions of sub-paragraph (f) below, pay or declare any dividend on any other Parity Obligations or Junior Obligations,

for such period following the relevant Preference Dividend Payment Date as may be designated by the board prior to issue.

(G) the provisions described in this sub-paragraph shall apply if determined by the board prior to allotment of the Relevant Series and then only where the Preference Dividend

(including any arrears or deficiency of dividend that are in cumulative form) due on any Preference Dividend Payment Date in respect of any Relevant Series is not paid in its entirety pursuant to sub-paragraph (C) (the ***Relevant Dividend***) and the amounts (if any) standing to the credit of the profit and loss account of the Company together with the amount of the reserves of the Company available for the purpose are sufficient to enable the allotments of additional preferences shares referred to in the further provisions of this sub-paragraph to be made in full:

(I) provided that the Company has sufficient authorised but unissued share capital and that the directors are authorised in accordance with section 80 of the Companies Act 1985 to allot the appropriate amount of relevant securities (for which purposes the directors shall, if necessary, call as soon as practicable a general meeting of the Company at which the appropriate resolutions to create such share capital and to obtain such authority are proposed), each holder of shares of the Relevant Series shall, on the date for payment of the Relevant Dividend had such dividend been paid in cash, be allotted such additional nominal amount of preference shares of the same class, denominated in the same currency and carrying identical rights and limitations as the Relevant Series in question, credited as fully paid, as is equal to an amount determined by multiplying the cash amount of the Relevant Dividend (exclusive of any associated tax credit) that would have been payable to him had such dividend been payable in cash by a factor to be determined by the board prior to allotment of the Relevant Series and rounding the resulting sum down to the nearest integral multiple of £1 (in the case of Sterling Preference Shares) and of €1 (in the case of Euro Preference Shares). A holder of Preference Shares receiving an allotment of additional preference shares in accordance with this sub-paragraph shall not be entitled to receive any part of the Relevant Dividend relating to Relevant Series in cash;

(II) subject to the provisos in sub-paragraph (G)(II) above, for the purpose of paying up preference shares to be allotted on any occasion pursuant to this sub-paragraph, the directors shall capitalise out of the sums standing to the credit of the profit and loss account of the Company and/or to the credit of the

Company's reserve accounts (including share premium account) available for the purpose, as the directors may determine, a sum equal to the aggregate nominal amount of the additional preference shares then to be allotted and apply the same in paying up in full the appropriate amount of unissued preference shares of that class or classes in question;

(III) the additional preference shares so allotted shall rank pari passu in all respects with the Relevant Series in respect of which the additional preference shares were so allotted, save only as regards participation in the Relevant Dividend; and

(IV) the board may undertake and do such acts and things as it may consider necessary or expedient for the purpose of giving effect to the provisions described in this sub-paragraph (G).

(e) if, in the opinion of the board, the payment of any Preference Dividend would breach or cause a breach of capital adequacy requirements from time to time applicable to the Company under the UK capital adequacy regime then none of such Preference Dividend shall be declared or paid;

(f) In any calendar year, whether or not any Preference Dividend on any particular Preference Shares has been paid in full and notwithstanding any other provision of these Articles, the board may, if it so resolves, pay (or set aside a sufficient sum for payment of) a special dividend (a ***Special Dividend***) not exceeding (in the case of Sterling Preference Shares) one penny per share or (in the case of Euro Preference Shares) one cent per share on any shares in the capital of the Company in respect of which no dividend has previously been paid in that calendar year. References elsewhere in this article 8A to any dividend payable on any Preference Shares shall not be treated as including a reference to any Special Dividend paid on any particular Preference Shares pursuant to this sub-paragraph (f).

8A.1.2 Capital

(a) On a distribution of assets on a winding-up of the Company or return of capital (other than on a redemption or purchase by the Company of any of its share capital), members holding Preference Shares shall in respect thereof be entitled to receive, out of the surplus assets remaining after payment of the Company's liabilities, an amount equal to the amount paid up or credited as paid up on the Preference Shares together with such premium (if any) as may be determined by the board prior to allotment thereof (and so that the board may determine that such premium is payable only in specified circumstances). Unless otherwise determined by the board prior to allotment, such amount in respect of Sterling Preference

Shares shall be payable in euros.

(b) In addition to the amount repayable on the Preference Shares in accordance with sub-paragraph (a) above there shall be payable a sum equal to the Preference Dividend which would have been payable by the Company in accordance with paragraph (1) above (together, in the case of Preference Shares which are expressed to have a cumulative right as regards participation in profits, with any arrears or deficiency of Preference Dividend), calculated at the annual rate determined by the board before allotment of the Preference Shares in question, in respect of the number of days included in the period commencing with the day following whichever Preference Dividend Payment Date shall most recently have occurred prior to the date of commencement of the winding-up of the Company or return of capital and ending with such date of commencement of winding-up or return of capital, as though such period had been one in relation to which a Preference Dividend would have been payable pursuant to the provisions described in paragraph (1)(a) above and the terms of issue of the Preference Shares in question, but subject always to the provisions described in paragraph (1)(d)(i), (ii) and (iv) above and to the terms on which any particular Preference Shares are issued.

(c) With respect to the amounts payable or repayable under sub-paragraphs (a) and (b) of this paragraph in the event of a winding-up of the Company or return of capital, Preference Shares shall rank pari passu inter se and with any other shares that are expressed to rank pari passu therewith as regards participation in surplus assets and otherwise in priority to any other share capital of the Company. Save as may be determined by the board prior to the issue of any particular series of Preference Shares, the holders of Preference Shares shall not be entitled in respect thereof to any further or other right of participation in the assets of the Company upon a winding-up or return of capital.

8A.1.3 Voting

The holders of any series of Preference Shares will only be entitled to receive notice of and to attend any general meeting of the Company:

(1) if the Preference Dividend on the Preference Shares of such series has not, at the date of the notice of the general meeting, been paid in full in respect of such dividend periods as the board may prior to allotment determine, in which case the holders of the Preference Shares of such series will be entitled to speak and/or vote upon any resolution proposed thereat; or

(2) if a resolution is proposed at the general meeting:

(i) for, or in relation to, the winding-up of the Company; or

(ii) varying, altering or abrogating any of the rights, privileges, limitations or restrictions attached to the Preference Shares of such series,

speak and/or vote only upon such resolution; or

(3) in such other circumstances, and upon and subject to such terms, as the board may determine prior to allotment.

On a show of hands every holder of Preference Shares who is entitled to vote and who (being an individual) is present in person or (being a corporation) is present by representative shall have one vote. On a poll each holder of Preference Shares present in person or by proxy and entitled to vote shall have such number of votes in respect of each Preference Share as the board may determine prior to the allotment of such shares.

8A.1.4 Redemption of Redeemable Preference Shares

(a) The Redeemable Sterling Preference Shares and the Redeemable Euro Preference Shares (together, the ***Redeemable Preference Shares***) shall, subject to the provisions of the Companies Acts and to the other provisions of this paragraph (4), be redeemable at the option of the Company in whole or in part on any day by the Company giving to each of the holders of the Redeemable Preference Shares to be redeemed not less than fourteen days' prior notice in writing (a ***Notice of Redemption***) and by the Company complying with the other requirements of this paragraph (4).

(b) In the case of a partial redemption under sub-paragraph (a) of this paragraph (4) of this article 8A, the Company shall for the purposes of ascertaining the particular Redeemable Preference Shares to be redeemed cause a lot to be drawn at the office (or at such other place as the board may determine) in the presence of the auditors.

(c) A Notice of Redemption shall specify the particular Redeemable Preference Shares to be redeemed, the date fixed for redemption (the ***Redemption Date***), the amount payable in respect of each such Redeemable Preference Share on redemption and the place in the United Kingdom at which documents of title in respect of such Redeemable Preference Shares are to be presented and surrendered for redemption and payment of redemption moneys is to be effected. Upon such presentation and surrender and against the receipt of such holder for the redemption moneys payable in respect of such Redeemable Preference Shares, the Company shall pay to such holder the amount due to him in respect of such redemption and shall cancel the documents of title so delivered. No defect in the Notice of Redemption or in the giving thereof shall affect the validity of the redemption procedure.

(d) There shall be paid on each Redeemable Preference Share so redeemed the amount paid up or credited as paid up thereon, together (to the extent permitted by the Companies Acts) with any premium paid on issue.

(e) The provisions of this sub-paragraph (e) and the following sub-paragraphs (f) and (h) shall have effect in relation to Redeemable Preference Shares for the

and represented by certificates (***Certificates***) and in relation to Redeemable Preference Shares which, in accordance with Article 9, are for the time being issued and represented by a warrant (***Bearer Shares***). Payment by the Company in respect of the amount due on redemption shall be made, in the case of a Redeemable Sterling Preference Share, by a sterling cheque drawn on a bank in London, and, in the case of a Redeemable Euro Preference Share, by a euro cheque drawn on a bank in England or Frankfurt, or, upon the request of the holder or joint holders not later than the date specified for the purpose in the Notice of Redemption, by transfer to in the case of a Redeemable Sterling Preference Share, a sterling account maintained by the payee with a bank in London, or in the case of a Redeemable Euro Preference Share, a euro account maintained by the payee with a bank in London or Frankfurt. Such payment will, in the case of a Registered Share, be against presentation and surrender of the relative Certificate at the place or on one of the places specified in the Notice of Redemption and if any Certificate so surrendered includes Redeemable Preference Shares not to be redeemed on the relevant Redemption Date the Company shall within fourteen days thereafter issue to the holder, free of charge, a fresh Certificate in respect of such Redeemable Preference Shares. Such payments will, in the case of a Bearer Share, be made against presentation and surrender of the Warrant and all unmatured dividend coupons and talons (if any) at the place or places specified in the Notice of Redemption. Upon the relevant Redemption Date all unmatured dividend coupons and any talon for additional dividend coupons appertaining thereto (whether or not returned) shall become void and no payment will be made in respect thereof. If the Warrant so surrendered represents any Redeemable Preference Shares not to be redeemed on the relevant Redemption Date the Company shall issue, free of charge, a fresh Warrant representing such Bearer Shares which are not to be redeemed on such Redemption Date. All payments in respect of redemption monies will in all respects be subject to any applicable fiscal or other laws.

(f) As from the relevant Redemption Date the dividend on the Redeemable Preference Shares due for redemption shall cease to accrue except on any such Redeemable Preference Shares in respect of which, upon the due delivery of the Certificate or, as the case may be, the Warrant and all unmatured dividend coupons and talons (if any) in respect thereof, in accordance with sub-paragraphs (c) and (e) above, payment of the redemption moneys due on such Redemption Date shall be improperly withheld or refused in which case the said dividend, at the rate then applicable, shall be deemed to have continued and shall accordingly continue to accrue from the relevant Redemption Date to the date of payment of such redemption moneys. Such Redeemable Preference Shares shall not be treated as having been redeemed until the redemption moneys in question together with the accrued dividend thereon have been paid whereupon such Redeemable Preference Shares shall be treated as having been redeemed.

(g) If the Redemption Date for any Redeemable Preference Share is not, in the case of a Redeemable Sterling Preference Share, a day on which banks in London are open for business and on which foreign exchange dealings may be conducted in

Preference Share, a day in which banks in London and Frankfurt are open for business and on which foreign exchange dealings may be conducted in such cities (a ***Euro Business Day***), then payment of the amount payable on redemption will be made on the next succeeding Sterling Business Day or Euro Business Day as the case may be, and without any interest or other payment in respect of such delay unless such day shall fall within the next calendar month, whereupon such payment will be made on the preceding Sterling Business Day or Euro Business Day, as the case may be.

(h) The receipt of the holder for the time being of any Registered Share (or, in the case of joint registered holders, the receipt of any one of them) and the receipt of the person delivering any Warrant to the place or one of the places specified pursuant to sub-paragraph (c) above in respect of the monies payable on redemption on such Registered Share or, as the case may be, such Bearer Share, shall constitute an absolute discharge to the Company in respect thereof.

(i) Upon the redemption or purchase of any Redeemable Preference Shares, the directors may (pursuant to the authority given by the passing of the resolution to adopt this article) consolidate and divide and/or sub-divide the authorised, but unissued, Redeemable Preference Share capital existing as a consequence of such redemption or purchase into shares of a larger or smaller amount (and so that the provisions of articles 50 and 51 shall, where relevant, apply to any such consolidation, division or sub-division).

8A.1.5 Further Shares

(a) Save as provided by the terms of issue of any particular Preference Shares, the Company shall not create or issue any further shares ranking as regards participation in the profits and assets of the Company in priority to the Preference Shares.

(b) Any series of Preference Shares or other shares ranking pari passu in some or all respects with the Preference Shares then in issue may (unless otherwise provided by the terms of issue of the Preference Shares then in issue), without their creation or issue being deemed to vary the special rights attached to any Preference Shares then in issue, either carry rights identical in all respects with such Preference Shares or any of them or carry rights differing therefrom in any respect. Unless otherwise provided by the terms of issue, the rights attaching to any Preference Shares shall not be deemed to be varied or abrogated by the purchase, redemption or cancellation by the Company of any of its shares ranking as regards participation in the profits or assets of the Company pari passu with or after such Preference Shares.

SHARE RIGHTS

Shares with special rights

9.1 Subject to the provisions of the Companies Acts and without prejudice to any rights attached to any existing shares or class of shares, any share may be issued with such rights or restrictions as the Company may by ordinary resolution

determine.

Share warrants to bearer

9.2 The board may issue share warrants to bearer in respect of any fully paid up shares under a seal of the Company, or in any other manner authorised by the board. Any share while represented by such a warrant shall be transferable by delivery of the warrant relating to it. In any case in which a warrant is so issued, the board may provide for the payment of dividends or other moneys on the shares represented by the warrant by coupons or otherwise. The board may decide, either generally or in any particular case or cases, that any signature on any such warrant may be applied by mechanical means or printed on it or that the warrant need not be signed by any person.

Conditions of issue of share warrants

9.3 The board may determine, and from time to time vary, the conditions on which share warrants to bearer shall be issued and, in particular, the conditions on which:

(a) a new warrant or coupon shall be issued in place of one worn-out, defaced, lost or destroyed (but no new warrant shall be issued unless the Company is satisfied beyond reasonable doubt that the original has been destroyed); or

(b) the bearer shall be entitled to attend and vote at general meetings; or

(c) a warrant may be surrendered and the name of the bearer entered in the register in respect of the shares specified in the warrant.

The bearer of such a warrant shall be subject to the conditions for the time being in force in relation to the warrant, whether made before or after the issue of the warrant. Subject to those conditions and to the provisions of the Companies Acts, the bearer shall be deemed to be a member of the Company and shall have the same rights and privileges as he would have if his name had been included in the register as the holder of the shares comprised in the warrant.

No right in relation to share

9.4 The Company shall not be bound by or be compelled in any way to recognise any right in respect of the share represented by a share warrant other than the bearer's absolute right to the warrant.

Section 80 authority

10.1 The board has general and unconditional authority to exercise all the powers of the Company to allot relevant securities up to an aggregate nominal amount equal to the section 80 amount, for each prescribed period.

Section 89 disapplication

10.2 The board is empowered for each prescribed period to allot equity securities for cash pursuant to the authority conferred by Article 10.1 as if section 89(1) of the Act did not apply to any such allotment, provided that its power shall be limited to:

(a) the allotment of equity securities in connection with an issue in favour of the holders of relevant shares where the equity securities respectively attributable to the interests of all the holders of relevant shares are

proportionate (as nearly as practicable) to the respective numbers of relevant shares held by them, but subject to such exclusions or other arrangements as the board may deem necessary or expedient in relation to fractional entitlements or any legal, regulatory or practical problems under the laws or regulations of any overseas territory or the requirements of any regulatory body or stock exchange; and

(b) the allotment (otherwise than pursuant to Article 10.2(a)) of equity securities up to an aggregate nominal amount equal to the section 89 amount.

Allotment after expiry

10.3 Before the expiry of a prescribed period the Company may make an offer or agreement which would or might require equity securities or other relevant securities to be allotted after such expiry. The board may allot equity securities or other relevant securities in pursuance of that offer or agreement as if the prescribed period during which that offer or agreement was made had not expired.

Definitions

10.4 In this Article:

prescribed period means any period for which the authority conferred by Article 10.1 is given by ordinary or special resolution stating the section 80 amount and/or the power conferred by Article 10.2 is given by special resolution stating the section 89 amount;

section 80 amount means, for any prescribed period, the amount stated in the relevant ordinary or special resolution; and

section 89 amount means, for any prescribed period, the amount stated in the relevant special resolution.

Residual allotment powers

11. Subject to the provisions of the Companies Acts relating to authority, pre-emption rights or otherwise and of any resolution of the Company in general meeting passed pursuant to those provisions, and, in the case of redeemable shares, the provisions of Article 12:

(a) all unissued shares for the time being in the capital of the Company shall be at the disposal of the board; and

(b) the board may allot (with or without conferring a right of renunciation), grant options over, or otherwise dispose of them to such persons on such terms and conditions and at such times as it thinks fit.

Redeemable shares

12. Subject to the provisions of the Companies Acts, and without prejudice to any rights attached to any existing shares or class of shares, shares may be issued which are to be redeemed or are to be liable to be redeemed at the option of the Company or the holder on such terms and in such manner as may be provided by these Articles.

Commissions

13. The Company may exercise all powers of paying commissions or brokerage conferred or permitted by the Companies Acts. Subject to the provisions of the Companies Acts, any such commission or brokerage may be satisfied by the payment of cash or by the allotment of fully or partly paid shares or partly in one way and partly in the other.

Trusts not recognised

14. Except as required by law and except to the extent expressly provided in Articles 150 and 164 in relation to the trustee to whom shares may be issued in accordance with the terms of the transfer of the business of the Society to the Company, the Company shall recognise no person as holding any share on any trust and (except as otherwise provided by these Articles or by law) the Company shall not be bound by or recognise any interest in any share (or in any fractional part of a share) except the holder's absolute right to the entirety of the share (or fractional part of the share).

VARIATION OF RIGHTS

Method of varying rights

15.1 Subject to the provisions of the Companies Acts, if at any time the capital of the Company is divided into different classes of shares, the rights attached to any class may (unless otherwise provided by the terms of allotment or issue of the shares of that class) be varied or abrogated, whether or not the Company is being wound up, either:

(a) with the consent in writing of the holders of three-quarters in nominal value of the issued shares of the class, which consent shall be by means of one or more instruments or contained in one or more electronic communications sent to such address (if any) for the time being notified by or on behalf of the Company for that purpose or a combination of both; or

(b) with the sanction of an extraordinary resolution passed at a separate general meeting of the holders of the shares of the class,

(but not otherwise).

When rights deemed to be varied

15.2 For the purposes of this Article, unless otherwise expressly provided by the rights attached to any share or class of shares, those rights shall be deemed to be varied by:

(a) the reduction of the capital paid up on that share or class of shares otherwise than by a purchase or redemption by the Company of its own shares; and

(b) the allotment of another share ranking in priority for payment of a dividend or in respect of capital or which confers on its holder voting rights more favourable than those conferred by that share or class of shares,

but shall not be deemed to be varied by:

(c) the creation or issue of another share ranking equally with, or subsequent to, that share or class of shares or by the purchase or redemption by the Company of its own shares; or

(d) the Company permitting, in accordance with the Regulations, the holding and transfer of title to shares of that or any other class in uncertificated form by means of a relevant system.

UNCERTIFICATED SHARES

Uncertificated shares

16.1 Subject to the provisions of the Regulations, the board may permit the holding of shares in any class of shares in uncertificated form and the transfer of title to shares in that class by means of a relevant system and may determine that any class of shares shall cease to be a participating security.

Not separate class of shares

16.2 Shares in the capital of the Company that fall within a certain class shall not form a separate class of shares from other shares in that class because any share in that class:

(a) is held in uncertificated form; or

(b) is permitted in accordance with the Regulations to become a participating security.

Exercise of Company's entitlements in respect of uncertificated shares

16.3 Where any class of shares is a participating security and the Company is entitled under any provision of the Companies Acts, the Regulations or the Articles to sell, transfer or otherwise dispose of, forfeit, re-allot, accept the surrender of or otherwise enforce a lien over a share held in uncertificated form, the Company shall be entitled, subject to the provisions of the Companies Acts, the Regulations, the Articles and the facilities and requirements of the relevant system:

(a) to require the holder of that uncertificated share by notice to change that share into certificated form within the period specified in the notice and to hold that share in certificated form so long as required by the Company;

(b) to require the holder of that uncertificated share by notice to give any instructions necessary to transfer title to that share by means of the relevant system within the period specified in the notice;

(c) to require the holder of that uncertificated share by notice to appoint any person to take any step, including without limitation the giving of any instructions by means of the relevant system, necessary to transfer that share within the period specified in the notice; and

(d) to take any action that the board considers appropriate to achieve the sale, transfer, disposal, forfeiture, re-allotment or surrender of that share or otherwise to enforce a lien in respect of that share.

mbers' rights to certificates

17. Every member, on becoming the holder of any certificated share (except a recognised person in respect of whom the Company is not required by law to complete and have ready for delivery a certificate) shall be entitled, without payment, to one certificate for all the certificated shares of each class held by him (and, on transferring a part of his holding of certificated shares of any class, to a certificate for the balance of his holding of certificated shares). He may elect to receive one or more additional certificates for any of his certificated shares if he pays for every certificate after the first a reasonable sum determined from time to time by the board. Every certificate shall:

(a) be executed under the seal or in accordance with Article 138 or in such other manner as the board may approve; and

(b) specify the number, class and distinguishing numbers (if any) of the shares to which it relates and the amount or respective amounts paid up on the shares.

The Company shall not be bound to issue more than one certificate for certificated shares held jointly by more than one person and delivery of a certificate to one joint holder shall be a sufficient delivery to all of them. Shares of different classes may not be included in the same certificate.

Replacement certificates

18. If a share certificate is defaced, worn out, lost or destroyed, it may be renewed on such terms (if any) as to evidence and indemnity and payment of any exceptional out-of-pocket expenses reasonably incurred by the Company in investigating evidence and preparing the requisite form of indemnity as the board may determine but otherwise free of charge, and (in the case of defacement or wearing out) on delivery up of the old certificate.

LIEN

Company to have lien on ares

19. The Company shall have a first and paramount lien on every share (not being a fully paid share) for all moneys payable to the Company (whether presently or not) in respect of that share. The board may at any time (generally or in particular cases) waive any lien or declare any share to be wholly or in part exempt from the provisions of this Article. The Company's lien on a share shall extend to any amount (including without limitation dividends) payable in respect of it.

Enforcement of lien by sale

20.1 The Company may sell, in such manner as the board determines, any share on which the Company has a lien if a sum in respect of which the lien exists is presently payable and is not paid within 14 clear days after notice has been sent to the holder of the share, or to the person entitled to it by transmission, demanding payment and stating that if the notice is not complied with the share may be sold.

Giving effect to sale

20.2 To give effect to that sale the board may, if the share is a certificated share, authorise any person to execute an instrument of transfer in respect of the share sold to, or in accordance with the directions of, the buyer. If the share is an

uncertificated share, the board may exercise any of the Company's powers under Article 16.3 to effect the transfer of the share to, or in accordance with the directions of, the buyer. The buyer shall not be bound to see to the application of the purchase money and his title to the share shall not be affected by any irregularity in or invalidity of the proceedings in relation to the sale.

Application of proceeds

20.3 The net proceeds of the sale, after payment of the costs, shall be applied in or towards payment or satisfaction of so much of the sum in respect of which the lien exists as is presently payable. Any residue shall (if the share sold is a certificated share, on surrender to the Company for cancellation of the certificate in respect of the share sold and, whether the share sold is a certificated share or uncertificated share, subject to a like lien for any moneys not presently payable as existed on the share before the sale) be paid to the person entitled to the share at the date of the sale.

CALLS ON SHARES

Power to make calls

24. Subject to the terms of allotment, the board may from time to time make calls on the members in respect of any moneys unpaid on their shares (whether in respect of nominal value or premium). Each member shall (subject to receiving at least 14 clear days' notice specifying when and where payment is to be made) pay to the Company the amount called on his shares as required by the notice. A call may be required to be paid by instalments. A call may be revoked in whole or part and the time fixed for payment of a call may be postponed in whole or part as the board may determine. A person on whom a call is made shall remain liable for calls made on him even if the shares in respect of which the call was made are subsequently transferred.

Time when call made

25. A call shall be deemed to have been made at the time when the resolution of the board authorising the call was passed.

Liability of joint holders

26. The joint holders of a share shall be jointly and severally liable to pay all calls in respect of it.

Interest payable

27. If a call or any instalment of a call remains unpaid in whole or in part after it has become due and payable the person from whom it is due and payable shall pay interest on the amount unpaid from the day it became due and payable until it is paid. Interest shall be paid at the rate fixed by the terms of allotment of the share or in the notice of the call or, if no rate is fixed, the rate determined by the board, not exceeding 15 per cent. per annum or, if higher, the appropriate rate (as defined by the Act) but the board may in respect of any individual member waive payment of such interest wholly or in part.

Deemed calls

28. An amount payable in respect of a share on allotment or at any fixed date, whether in respect of nominal value or premium or as an instalment of a call, shall be deemed to be a call duly made and notified and payable on the date so fixed or in accordance with the terms of the allotment. If it is not paid the provisions of these Articles shall apply as if that amount had become due and payable by virtue of a call duly made and notified.

Differentiation on calls

29. Subject to the terms of allotment, the board may make arrangements on the issue of shares for a difference between the allottees or holders in the amounts and times of payment of calls on their shares.

Payment of calls in advance

30. The board may, if it thinks fit, receive from any member all or any part of the moneys uncalled and unpaid on any share held by him. Such payment in advance of calls shall extinguish the liability on the share in respect of which it is made to the extent of the payment. The Company may pay on all or any of the moneys so advanced (until they would but for such advance become presently payable) interest at such rate agreed between the board and the member not exceeding (unless the Company by ordinary resolution otherwise directs) 15 per cent. per annum or, if higher, the appropriate rate (as defined in the Act).

FORFEITURE AND SURRENDER

Notice requiring payment of call

31. If a call or any instalment of a call remains unpaid in whole or in part after it has become due and payable, the board may give to the person from whom it is due not less than 14 clear days' notice requiring payment of the amount unpaid together with any interest which may have accrued and any costs, charges and expenses incurred by the Company by reason of such non-payment. The notice shall name the place where payment is to be made and shall state that if the notice is not complied with the shares in respect of which the call was made will be liable to be forfeited.

Forfeiture for non-compliance

32. If that notice is not complied with, any share in respect of which it was sent may, at any time before the payment required by the notice has been made, be forfeited by a resolution of the board. The forfeiture shall include all dividends or other moneys payable in respect of the forfeited share which have not been paid before the forfeiture. When a share has been forfeited, notice of the forfeiture shall be sent to the person who was the holder of the share before the forfeiture. Where the forfeited share is held in certificated form, an entry shall be made promptly in the register opposite the entry of the share showing that notice has been sent, that the share has been forfeited and the date of forfeiture. No forfeiture shall be invalidated by the omission or neglect to send that notice or to make those entries.

e of forfeited shares

33. Subject to the provisions of the Companies Acts, a forfeited share shall be deemed to belong to the Company and may be sold, re-allotted or otherwise disposed of on such terms and in such manner as the board determines, either to the person who was the holder before the forfeiture or to any other person. At any time before sale, re-allotment or other disposal, the forfeiture may be cancelled on such terms as the board thinks fit. Where, for the purposes of its disposal, a forfeited share held in certificated form is to be transferred to any person, the board may authorise any person to execute an instrument of transfer of the shares to that person. Where, for the purposes of its disposal, a forfeited share held in uncertificated form is to be transferred to any person, the board may exercise any of the Company's powers under Article 16.3 to effect the transfer of the share to that person. The Company may receive the consideration given for the share on its disposal and may register the transferee as holder of the share.

following forfeiture

forfeited and shall, if the share is a certificated share, surrender the certificate for any forfeited share to the Company for cancellation. The person shall remain liable to the Company for all moneys which at the date of forfeiture were presently payable by him to the Company in respect of that share with interest on that amount at the rate at which interest was payable on those moneys before the forfeiture or, if no interest was so payable, at the rate determined by the board, not exceeding 15 per cent. per annum or, if higher, the appropriate rate (as defined in the Act), from the date of forfeiture until payment. The board may waive payment wholly or in part or enforce payment without any allowance for the value of the share at the time of forfeiture or for any consideration received on its disposal.

Surrender

35. The board may accept the surrender of any share which it is in a position to forfeit on such terms and conditions as may be agreed. Subject to those terms and conditions, a surrendered share shall be treated as if it had been forfeited.

Extinction of rights

36. The forfeiture of a share shall involve the extinction at the time of forfeiture of all interest in and all claims and demands against the Company in respect of the share and all other rights and liabilities incidental to the share as between the person whose share is forfeited and the Company, except only those rights and liabilities expressly saved by these Articles, or as are given or imposed in the case of past members by the Companies Acts.

Evidence of forfeiture or surrender

37. A statutory declaration by a director or the secretary that a share has been duly forfeited or surrendered on a specified date shall be conclusive evidence of the facts stated in it as against all persons claiming to be entitled to the share. The declaration shall (subject, if necessary, to the execution of an instrument of transfer or transfer by means of the relevant system, as the case may be) constitute a good title to the share. The person to whom the share is disposed of shall not be bound to see to the application of the purchase money, if any, and his title to the share shall not be affected by any irregularity in, or invalidity of, the proceedings in reference to the forfeiture, surrender, sale, re-allotment or disposal of the share.

TRANSFER OF SHARES

Form and execution of transfer of certificated shares

38. The instrument of transfer of a certificated share may be in any usual form or in any other form which the board may approve. An instrument of transfer shall be signed by or on behalf of the transferor and, unless the share is fully paid, by or on behalf of the transferee. An instrument of transfer need not be under seal.

Transfers of partly paid certificated shares

39. The board may, in its absolute discretion and without giving any reason, refuse to register the transfer of a certificated share which is not fully paid, provided that the refusal does not prevent dealings in shares in the Company from taking place on an open and proper basis.

Invalid transfers

40.1 The board may also refuse to register the transfer of a certificated share unless the instrument of transfer:

appointed by the board accompanied by the certificate for the share to which it relates and such other evidence as the board may reasonably require to show the right of the transferor to make the transfer;

(b) is in respect of only one class of shares; and

(c) is in favour of not more than four transferees.

Transfers by recognised persons

40.2 In the case of a transfer of certificated shares by a recognised person, the lodging of a share certificate will only be necessary if and to the extent that a certificate has been issued in respect of the share in question.

41. The board may refuse to register the transfer of an uncertificated share in any circumstances permitted by the London Stock Exchange, the Regulations and the rules and practices of the Operator of the relevant system. Without prejudice to the generality of the foregoing, the directors shall have the right to refuse to register any transfer which would give rise to a breach of the protective provisions set out in Articles 5 and 6.

Notice of refusal to register

42. If the board refuses to register a transfer of a share in certificated form it shall send to the transferee notice of the refusal within two months after the date on which the transfer was lodged with the Company.

Suspension of registration

43. The registration of transfers of shares or of transfers of any class of shares may be suspended at such times and for such periods (not exceeding 30 days in any year) as the board may determine, except that the board may not suspend the registration of transfers of any participating security without the consent of the Operator of the relevant system.

No fee payable on registration

44. No fee shall be charged for the registration of any transfer or other document relating to or affecting the title to a share.

Retention of transfers

45. The Company shall be entitled to retain an instrument of transfer which is registered, but an instrument of transfer which the board refuses to register shall be returned to the person lodging it when notice of the refusal is sent.

TRANSMISSION OF SHARES

Transmission

46. If a member dies, the survivor, or survivors where he was a joint holder, and his personal representatives, where he was a sole holder or the only survivor of joint holders, shall be the only persons recognised by the Company as having any title to his interest. Nothing in these Articles shall release the estate of a deceased member (whether a sole or joint holder) from any liability in respect of any share held by him.

Elections permitted

47.1 A person becoming entitled by transmission to a share may, on production of any evidence as to his entitlement properly required by the board, elect either to become the holder of the share or to have another person nominated by him

the Company to that effect. If he elects to have another person registered and the share is a certificated share, he shall execute an instrument of transfer of the share to that person. If he elects to become holder or to have another person registered and the share is an uncertificated share, he shall take any action the board may require (including without limitation the execution of any document and the giving of any instruction by means of a relevant system) to enable himself or that person to be registered as the holder of the share. All the provisions of these Articles relating to the transfer of shares apply to that notice or instrument of transfer as if it were an instrument of transfer executed by the member and the death or bankruptcy of the member or other event giving rise to the transmission had not occurred.

Elections required

47.2 The board may at any time send a notice requiring any such person to elect either to be registered himself or to transfer the share. If the notice is not complied with within 60 days, the board may after the expiry of that period withhold payment of all dividends or other moneys payable in respect of the share until the requirements of the notice have been complied with.

Rights of person entitled by transmission

48. A person becoming entitled by transmission to a share shall, on production of any evidence as to his entitlement properly required by the board and subject to the requirements of Article 47, have the same rights in relation to the share as he would have had if he were the holder of the share, subject to Article 148. That person may give a discharge for all dividends and other moneys payable in respect of the share, but he shall not, before being registered as the holder of the share, be entitled in respect of it to receive notice of, or to attend or vote at, any meeting of the Company or to receive notice of or to attend or vote at any separate meeting of the holders of any class of shares in the capital of the Company.

ALTERATION OF SHARE CAPITAL

Alterations by ordinary resolution

49. Subject to the provisions of Article 8, the Company may by ordinary resolution:

(a) increase its share capital by such sum to be divided into shares of such amount as the resolution prescribes;

(b) consolidate and divide all or any of its share capital into shares of larger amount than its existing shares;

(c) subject to the provisions of the Companies Acts, sub-divide its shares, or any of them, into shares of smaller amount than is fixed by the Memorandum and the resolution may determine that, as between the shares resulting from the sub-division, any of them may have any preference or advantage as compared with the others; and

(d) cancel shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of the shares so cancelled.

Subject to these Articles

(a) subject to all the provisions of these Articles including, without limitation, provisions relating to payment of calls, lien, forfeiture, transfer and transmission; and

(b) unclassified, unless otherwise provided by these Articles, by the resolution creating the shares or by the terms of allotment of the shares.

Fractions arising

51. Whenever any fractions arise as a result of a consolidation or sub-division of shares, the board may on behalf of the members deal with the fractions as it thinks fit. In particular, without limitation, the board may sell shares representing fractions to which any members would otherwise become entitled to any person (including, subject to the provisions of the Companies Acts, the Company) and distribute the net proceeds of sale in due proportion among those members. Where the shares to be sold are held in certificated form, the board may authorise some person to execute an instrument of transfer of the shares to, or in accordance with, the buyer's directions. Where the shares to be sold are held in uncertificated form, the board may do all acts and things it considers necessary or expedient to effect the transfer of the shares to, or in accordance with, the buyer's directions. The buyer shall not be bound to see to the application of the purchase moneys and his title to the shares shall not be affected by any irregularity in, or invalidity of, the proceedings in relation to the sale.

Power to reduce capital

52. Subject to the provisions of the Companies Acts, the Company may by special resolution reduce its share capital, capital redemption reserve and share premium account in any way.

PURCHASE OF OWN SHARES

Power to purchase own shares

53. Subject to and in accordance with the provisions of the Companies Acts and without prejudice to any relevant special rights attached to any class of shares, the Company may purchase any of its own shares of any class (including without limitation redeemable shares) in any way and at any price (whether at par or above or below par).

GENERAL MEETINGS

Types of general meeting

54. All general meetings of the Company other than annual general meetings shall be called extraordinary general meetings. The board shall convene and the Company shall hold general meetings as annual general meetings in accordance with the requirements of the Companies Acts.

Class meetings

55. All provisions of these Articles relating to general meetings of the Company shall, mutatis mutandis, apply to every separate general meeting of the holders of any class of shares in the capital of the Company, except that:

(a) the necessary quorum shall be two persons or, in the case of a meeting of the holders of Foundation Shares, one person holding or representing by

at any adjourned meeting of such holders, one holder present in person or by proxy, whatever the amount of his holding, who shall be deemed to constitute a meeting;

(b) any holder of shares of the class present in person or by proxy may demand a poll; and

(c) each holder of shares of the class shall, on a poll, have one vote in respect of every share of the class held by him.

Convening general meetings

56. The board may call general meetings whenever and at such times and places as it shall determine. On the requisition of members pursuant to the provisions of the Companies Acts, the board shall promptly convene an extraordinary general meeting in accordance with the requirements of the Companies Acts. If there are insufficient directors in the United Kingdom to call a general meeting, any director of the Company may call a general meeting, but where no director is willing or able to do so, any two members of the Company may summon a meeting for the purpose of appointing one or more directors.

NOTICE OF GENERAL MEETINGS

Period of notice

57.1 An annual general meeting and an extraordinary general meeting called for the passing of a special resolution shall be called by at least 21 clear days' notice. All other extraordinary general meetings shall be called by at least 14 clear days' notice.

Recipients of notice

57.2 Subject to the provisions of the Companies Acts, to the provisions of these Articles and to any restrictions imposed on any shares, the notice shall be sent to all the members, to each of the directors and to the auditors.

Contents of notice: general

58.1 The notice shall specify the time and place of the meeting (including without limitation any satellite meeting place arranged for the purposes of Article 59.3, which shall be identified as such in the notice) and, in the case of special business, the general nature of that business. All business that is transacted at an extraordinary general meeting shall be deemed special. All business transacted at an annual general meeting shall be deemed special except:

(a) the declaration of dividends;

(b) the consideration and adoption of the accounts and balance sheet and the reports of the directors and auditors and other documents required to be annexed to the accounts;

(c) the appointment and re-appointment of directors;

(d) the appointment of auditors where special notice of the resolution for such appointment is not required by the Companies Acts; and

of the directors or auditors.

Contents of notice: additional requirements

58.2 In the case of an annual general meeting, the notice shall specify the meeting as such. In the case of a meeting to pass a special or extraordinary resolution, the notice shall specify the intention to propose the resolution as a special or extraordinary resolution, as the case may be.

Article 59.3 arrangements

58.3 The notice shall include details of any arrangements made for the purpose of Article 59.3 (making clear that participation in those arrangements will not amount to attendance at the meeting to which the notice relates).

General meetings at more than one place

59.1 The board may resolve to enable persons entitled to attend a general meeting to do so by simultaneous attendance and participation at a satellite meeting place anywhere in the world. The members present in person or by proxy at satellite meeting places shall be counted in the quorum for, and entitled to vote at, the general meeting in question, and that meeting shall be duly constituted and its proceedings valid if the chairman of the general meeting is satisfied that adequate facilities are available throughout the general meeting to ensure that members attending at all the meeting places are able to:

(a) participate in the business for which the meeting has been convened;

(b) hear and see all persons who speak (whether by the use of microphones, loudspeakers, audio-visual communications equipment or otherwise) in the principal meeting place and any satellite meeting place; and

(c) be heard and seen by all other persons so present in the same way.

The chairman of the general meeting shall be present at, and the meeting shall be deemed to take place at, the principal meeting place.

Interruption or adjournment where facilities inadequate

59.2 If it appears to the chairman of the general meeting that the facilities at the principal meeting place or any satellite meeting place have become inadequate for the purposes referred to in Article 59.1, then the chairman may, without the consent of the meeting, interrupt or adjourn the general meeting. All business conducted at that general meeting up to the time of such adjournment shall be valid. The provisions of Article 65.2 shall apply to any such adjournment.

Other arrangements for viewing/hearing proceedings

59.3 The board may make arrangements for persons entitled to attend a general meeting or an adjourned general meeting to be able to view and hear the proceedings of the general or adjourned general meeting and to speak at the meeting (whether by the use of microphones, loudspeakers, audio-visual communications equipment or otherwise), by attending a venue anywhere in the world not being a satellite meeting place. Those attending at any such venue shall not be regarded as present at the general meeting or adjourned general meeting and shall not be entitled to vote at the meeting at or from that venue. The inability for any reason of any member present in person or by proxy at such a venue to view or

not in any way affect the validity of the proceedings of the meeting.

Controlling level of attendance

59.4 The board may from time to time make any arrangements for controlling the level of attendance at any venue for which arrangements have been made pursuant to Article 59.3 (including, without limitation, the issue of tickets or the imposition of some other means of selection) which it in its absolute discretion considers appropriate, and may from time to time change those arrangements. If a member who, pursuant to those arrangements, is not entitled to attend in person or by proxy at any particular venue, he shall be entitled to attend in person or by proxy at any other venue for which arrangements have been made pursuant to Article 59.3. The entitlement of any member to be present at such venue in person or by proxy shall be subject to any such arrangements then in force and stated by the notice of meeting or adjourned meeting to apply to the meeting.

Change in place and/or time of meeting

59.5 If, after the sending of notice of a general meeting but before the meeting is held, or after the adjournment of a general meeting but before the adjourned meeting is held (whether or not notice of the adjourned meeting is required), the board decides that it is impracticable or unreasonable to hold the meeting at the declared place and/or time, it may change the place and/or postpone the time at which the meeting is to be held. If such a decision is made, the board may then change the place and/or postpone the time again if it decides that it is reasonable to do so. In either case:

(a) no new notice of the meeting need be sent, but the board shall, if practicable, advertise the date, time and place of the meeting in at least two newspapers having a national circulation and shall make arrangements for notices of the change of place and/or postponement to appear at the original place and/or at the original time; and

(b) a proxy appointment in relation to the meeting may, if by means of an instrument, be delivered to the office or to such other place within the United Kingdom as may be specified by or on behalf of the Company in accordance with Article 86.1(a) or, if contained in an electronic communication, be received at the address (if any) specified by or on behalf of the Company in accordance with Article 86.1(b) at any time not less than 48 hours before any new time appointed for holding the meeting.

Meaning of participate

59.6 For the purposes of this Article 59, the right of a member to participate in the business of any general meeting shall include, without limitation, the right to speak, vote on a show of hands, vote on a poll, be represented by a proxy and have access to all documents which are required by the Companies Acts and these Articles to be made available at the meeting.

Accidental omission to send notice

60.1 The accidental omission to send a notice of a meeting, or to send any notification where required by the Companies Acts or the Articles in relation to the publication of a notice of meeting on a website, or to send a form of proxy where required by these Articles, to any person entitled to receive it, or the non-receipt for

whether or not the Company is aware of such omission or non-receipt, shall not invalidate the proceedings at that meeting.

Security

60.2 The board and, at any general meeting, the chairman may make any arrangement and impose any requirement or restriction it or he considers appropriate to ensure the security of a general meeting including, without limitation, requirements for evidence of identity to be produced by those attending the meeting, the searching of their personal property and the restriction of items that may be taken into the meeting place. The board and, at any general meeting, the chairman are entitled to refuse entry to a person who refuses to comply with these arrangements, requirements or restrictions.

PROCEEDINGS AT GENERAL MEETINGS

Quorum

61. No business shall be transacted at any general meeting unless a quorum is present, but the absence of a quorum shall not preclude the choice or appointment of a chairman, which shall not be treated as part of the business of the meeting. Save as otherwise provided by these Articles, two persons present in person or by proxy and entitled to vote on the business to be transacted shall be a quorum.

If quorum not present

62. If such a quorum is not present within five minutes (or such longer time not exceeding 30 minutes as the chairman of the meeting may decide to wait) from the time appointed for the meeting, or if during a meeting such a quorum ceases to be present, the meeting, if convened on the requisition of members, shall be dissolved, and in any other case shall stand adjourned to such time and place as the chairman of the meeting may determine. The adjourned meeting shall be dissolved if a quorum is not present within 15 minutes after the time appointed for holding the meeting.

Chairman

63. The chairman, if any, of the board or, in his absence, any deputy chairman of the Company or, in his absence, some other director nominated by the board, shall preside as chairman of the meeting. If neither the chairman nor any deputy chairman nor such other director (if any) is present within five minutes after the time appointed for holding the meeting or is not willing to act as chairman, the directors present shall elect one of their number to be chairman. If there is only one director present and willing to act, he shall be chairman. If no director is willing to act as chairman, or if no director is present within five minutes after the time appointed for holding the meeting, the members present and entitled to vote shall choose one of their number to be chairman.

Directors entitled to speak

64. A director shall, notwithstanding that he is not a member, be entitled to attend and speak at any general meeting and at any separate meeting of the holders of any class of shares in the capital of the Company.

Adjournments: chairman's powers

65.1 The chairman may, with the consent of a meeting at which a quorum is present (and shall if so directed by the meeting), adjourn the meeting from time to time and from place to place. No business shall be transacted at an adjourned meeting other than business which might properly have been transacted at the

the chairman's power to adjourn a meeting conferred by Article 59.2), the chairman may adjourn the meeting to another time and place without such consent if it appears to him that:

(a) it is likely to be impracticable to hold or continue that meeting because of the number of members wishing to attend who are not present; or

(b) the unruly conduct of persons attending the meeting prevents or is likely to prevent the orderly continuation of the business of the meeting; or

(c) an adjournment is otherwise necessary so that the business of the meeting may be properly conducted.

Adjournments: procedures

65.2 Any such adjournment may be for such time and to such other place (or, in the case of a meeting held at a principal meeting place and a satellite meeting place, such other places) as the chairman may, in his absolute discretion, determine, notwithstanding that by reason of such adjournment some members may be unable to be present at the adjourned meeting. Any such member may nevertheless appoint a proxy for the adjourned meeting either in accordance with Article 86 or by means of an instrument which, if delivered by him at the meeting which is adjourned to the chairman or the secretary or any director, shall be valid even though it is given at less notice than would otherwise be required by Article 86. When a meeting is adjourned for 30 days or more or for an indefinite period, notice shall be sent at least seven clear days before the date of the adjourned meeting specifying the time and place (or places, in the case of a meeting to which Article 59.1 applies) of the adjourned meeting and the general nature of the business to be transacted. Otherwise it shall not be necessary to send any notice of an adjournment or of the business to be transacted at an adjourned meeting.

Amendments to resolutions

66. If an amendment is proposed to any resolution under consideration but is in good faith ruled out of order by the chairman, the proceedings on the substantive resolution shall not be invalidated by any error in such ruling. With the consent of the chairman, an amendment may be withdrawn by its proposer before it is voted on. No amendment to a resolution duly proposed as a special or extraordinary resolution may be considered or voted on (other than a mere clerical amendment to correct a patent error). No amendment to a resolution duly proposed as an ordinary resolution may be considered or voted on (other than a mere clerical amendment to correct a patent error) unless either (a) at least 48 hours before the time appointed for holding the meeting or adjourned meeting at which the ordinary resolution is to be considered, notice of the terms of the amendment and the intention to move it has been delivered by means of an instrument to the office, or to such other place as may be specified by or on behalf of the Company for that purpose, or received in an electronic communication at such address (if any) for the time being notified by or on behalf of the Company for that purpose or (b) the chairman in his absolute discretion decides that the amendment may be considered and voted on.

voting

of hands unless, before or on the declaration of the result of a vote on the show of hands or on the withdrawal of any other demand for a poll, a poll is duly demanded. Subject to the provisions of the Companies Acts, a poll may be demanded by:

(a) the chairman of the meeting; or

(b) at least five members (including proxies) who are present and who have the right to vote at the meeting; or

(c) any member or members (including a proxy or proxies) who are present and who represent not less than one-tenth of the total voting rights of all the members (including proxies) having the right to vote at the meeting; or

(d) any member or members (including a proxy or proxies) who are present and who hold shares (or who have been appointed to represent a member or members in respect of shares) conferring a right to vote at the meeting being shares on which an aggregate sum has been paid up equal to not less than one-tenth of the total sum paid up on all the shares conferring that right.

A demand by a person as proxy for a member shall be the same as a demand by the member.

Declaration of result

68. Unless a poll is duly demanded (and the demand is not withdrawn before the poll is taken) a declaration by the chairman that a resolution has been carried or carried unanimously, or by a particular majority, or lost, or not carried by a particular majority shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded in favour of or against the resolution.

Chairman's casting vote

69. In the case of an equality of votes, whether on a show of hands or on a poll, the chairman shall be entitled to a casting vote in addition to any other vote he may have.

Withdrawal of demand for poll

70. The demand for a poll may be withdrawn before the poll is taken, but only with the consent of the chairman. A demand so withdrawn shall not be taken to have invalidated the result of a show of hands declared before the demand was made. If the demand for a poll is withdrawn, the chairman or any other member entitled may demand a poll.

Conduct of poll

71. Subject to Article 72 a poll shall be taken as the chairman directs and he may, and shall if required by the meeting, appoint scrutineers (who need not be members) and fix a time and place for declaring the result of the poll. The result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded.

When poll to be taken

72. A poll demanded on the election of a chairman or on a question of adjournment shall be taken at the meeting at which it is demanded. A poll

and place as the chairman directs not being more than 30 days after the poll is demanded. The demand for a poll shall not prevent the continuance of a meeting for the transaction of any business other than the question on which the poll was demanded. If a poll is demanded before the declaration of the result of a show of hands and the demand is duly withdrawn, the meeting shall continue as if the demand had not been made.

Notice of poll

73. No notice need be sent of a poll not taken at the meeting at which it is demanded if the time and place at which it is to be taken are announced at the meeting. In any other case notice shall be sent at least seven clear days before the taking of the poll specifying the time and place at which the poll is to be taken.

Effectiveness of special and extraordinary resolutions

74. Where for any purpose an ordinary resolution of the Company is required, a special or extraordinary resolution shall also be effective. Where for any purpose an extraordinary resolution is required, a special resolution shall also be effective.

VOTES OF MEMBERS

R[redacted] vote

75. Subject to any rights or restrictions attached to any shares, on a show of hands every member who is present in person shall have one vote. A proxy appointed, in respect of all or part of such shareholding, by a member who holds shares in the Company pursuant to a written agreement with the Company on behalf of a third party or a number of third parties (a ***Nominee Proxy***) shall on a show of hands also have one vote (and, for the avoidance of doubt, any such proxy will, on a show of hands, be entitled to one vote only, even if that proxy is himself a member or is acting as proxy for more than one member). Subject to any rights or restrictions attached to any shares, on a poll every member present in person or by proxy shall have one vote for every share of which he is the holder.

Votes of joint holders

76. In the case of joint holders of a share, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders. For this purpose seniority shall be determined by the order in which the names of the holders stand in the register.

M[redacted] under inc[redacted]ity

77. A member in respect of whom an order has been made by a court or official having jurisdiction (whether in the United Kingdom or elsewhere) in matters concerning mental disorder may vote, whether on a show of hands or on a poll, by his receiver, curator bonis or other person authorised for that purpose appointed by that court or official. That receiver, curator bonis or other person may, on a poll, vote by proxy. The right to vote shall be exercisable only if evidence satisfactory to the board of the authority of the person claiming to exercise the right to vote has been deposited at the office, or at another place specified in accordance with these Articles for the delivery of proxy appointments, not less than 48 hours before the time appointed for holding the meeting or adjourned meeting at which the right to vote is to be exercised.

Calls in arrears

78. No member shall be entitled to vote at a general meeting or at a separate meeting of the holders of any class of shares in the capital of the Company, either

presently payable by him in respect of that share have been paid.

Section 212 of the Act, restrictions if in default

79.1 If at any time the board is satisfied that any member, or any other person appearing to be interested in shares held by such member, has been duly served with a notice under section 212 of the Act (a ***section 212 notice***) and is in default for the prescribed period in supplying to the Company the information thereby required, or, in purported compliance with such a notice, has made a statement which is false or inadequate in a material particular, then the board may, in its absolute discretion at any time thereafter by notice (a ***direction notice***) to such member direct that:

(a) in respect of the shares in relation to which the default occurred (the ***default shares***, which expression includes any shares issued after the date of the section 212 notice in respect of those shares) the member shall not be entitled to attend or vote either personally or by proxy at a general meeting or at a separate meeting of the holders of that class of shares or on a poll; and

(b) where the default shares represent at least ¼ of one per cent. in nominal value of the issued shares of their class, then the direction notice may additionally direct that in respect of the default shares:

(i) no payment shall be made by way of dividend and no share shall be allotted pursuant to Article 147;

(ii) no transfer of any default share shall be registered unless:

(A) the member is not himself in default as regards supplying the information requested and the instrument of transfer when presented for registration is accompanied by a certificate by the member in such form as the board may in its absolute discretion require to the effect that after due and careful enquiry the member is satisfied that no person in default as regards supplying such information is interested in any of the shares the subject of the transfer; or

(B) the transfer is an approved transfer; or

(C) registration of the transfer is required by the Regulations.

Copy of notice to interested persons

79.2 The Company shall send a copy of the direction notice to each other person appearing to be interested in the default shares, but the failure or omission by the Company to do so shall not invalidate such notice.

When restrictions cease to have effect

79.3 Any direction notice shall cease to have effect not more than seven days after the earlier of receipt by the Company of:

transferred; or

(b) all the information required by the relevant section 212 notice, in a form satisfactory to the board.

Board may cancel restrictions

79.4 The board may at any time send a notice cancelling a direction notice.

Conversion of uncertificated shares

79.5 The Company may exercise any of its powers under Article 16.3 in respect of any default share that is held in uncertificated form.

Provisions supplementary to Article 81

80.1 For the purposes of Article 79:

(a) a person shall be treated as appearing to be interested in any shares if the member holding such shares has given to the Company a notification under section 212 of the Act which either (i) names such person as being so interested or (ii) fails to establish the identities of all those interested in the shares and (after taking into account the said notification and any other relevant section 212 notification) the Company knows or has reasonable cause to believe that the person in question is or may be interested in the shares;

(b) the prescribed period is 14 days from the date of service of the section 212 notice; and

(c) a transfer of shares is an approved transfer if:

(i) it is a transfer of shares pursuant to an acceptance of a takeover offer (within the meaning of section 428(1) of the Act); or

(ii) the board is satisfied that the transfer is made pursuant to a sale of the whole of the beneficial ownership of the shares the subject of the transfer to a party unconnected with the member and with any other person appearing to be interested in the shares; or

(iii) the transfer results from a sale made through a recognised investment exchange as defined in the Financial Services and Markets Act 2000 or any other stock exchange outside the United Kingdom on which the Company's shares are normally traded.

Section 216 of the Act

80.2 Nothing contained in Article 79 limits the power of the Company under section 216 of the Act.

Errors in voting

81. If any votes are counted which ought not to have been counted, or might have been rejected, the error shall not vitiate the result of the voting unless it is pointed out at the same meeting, or at any adjournment of the meeting, and, in the opinion of the chairman, it is of sufficient magnitude to vitiate the result of the voting.

meeting or adjourned meeting or poll at which the vote objected to is tendered. Every vote not disallowed at such meeting shall be valid and every vote not counted which ought to have been counted shall be disregarded. Any objection made in due time shall be referred to the chairman whose decision shall be final and conclusive.

Supplementary provisions on voting

83. On a poll, votes may be given either personally or by proxy. A member entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses in the same way.

PROXIES AND CORPORATE REPRESENTATIVES

Appointment of proxy: execution

84. The appointment of a proxy, whether by means of an instrument or contained in an electronic communication, shall be executed in such manner as the board may approve. Subject thereto, the appointment of a proxy shall be executed by the appointor or his attorney or, if the appointor is a corporation, executed by a duly authorised officer, attorney or other authorised person or under its common seal. For the purpose of this Article and Articles 85 and 86, an electronic communication which contains a proxy appointment need not comprise writing if the board so determines and in such a case, if the board so determines, the appointment need not be executed but shall instead be subject to such conditions as the board may approve.

Method of proxy appointment

85. The appointment of a proxy shall be in any usual form or in any other form which the board may approve. Subject thereto, the appointment of a proxy may be:

(a) by means of an instrument; or

(b) contained in an electronic communication sent to such address (if any) for the time being notified by or on behalf of the Company for that purpose, provided that the electronic communication is received in accordance with Article 86 not less than 48 hours before the time appointed for holding the meeting or adjourned meeting (or any postponed time appointed for holding the meeting pursuant to Article 59.5) or, where a poll is taken more than 48 hours after it is demanded, after the poll has been demanded and not less than 24 hours before the time appointed for the taking of the poll.

The board may, if it thinks fit, but subject to the provisions of the Act, at the Company's expense send forms of proxy for use at the meeting and issue invitations contained in electronic communications to appoint a proxy in relation to the meeting in such form as may be approved by the board. The appointment of a proxy shall not preclude a member from attending and voting in person at the meeting or poll concerned. Subject to Article 87.2, a member may appoint more than one proxy to attend on the same occasion, provided that, in any such case, the member must state in the appointment of each such proxy the number of shares in respect of which the appointment of that proxy is made.

of proxy appointment

the appointment of a proxy shall:

(a) in the case of an appointment contained in an instrument, be delivered personally, by post or facsimile transmission to the office or such other place within the United Kingdom as may be specified by or on behalf of the Company for that purpose:

(i) in the notice convening the meeting, or

(ii) in any form of proxy sent by or on behalf of the Company in relation to the meeting,

not less than 48 hours before the time appointed for holding the meeting or adjourned meeting (or any postponed time appointed for holding the meeting pursuant to Article 59.5) at which the person named in the appointment proposes to vote; or

(b) in the case of an appointment contained in an electronic communication, where an address has been specified by or on behalf of the Company for the purpose of receiving electronic communications:

(i) in the notice convening the meeting, or

(ii) in any form of proxy sent by or on behalf of the Company in relation to the meeting, or

(iii) in any invitation contained in an electronic communication to appoint a proxy issued by or on behalf of the Company in relation to the meeting,

be received at that address not less than 48 hours before the time appointed for holding the meeting or adjourned meeting (or any postponed time appointed for holding the meeting pursuant to Article 59.5) at which the person named in the appointment proposes to vote; or

(c) in the case of an appointment contained in an instrument or of an appointment contained in an electronic communication, where a poll is taken more than 48 hours after it is demanded, be delivered or received as aforesaid after the poll has been demanded and not less than 24 hours before the time appointed for the taking of the poll; or

(d) in the case only of an appointment contained in an instrument, where a poll is not taken forthwith but is taken not more than 48 hours after it was demanded, be delivered at the meeting at which the poll was demanded to the chairman or to the secretary or to any director.

Receipt of authority

86.2 Any power of attorney or other written authority under which a proxy appointment is executed or an office or notarially certified copy or a copy certified

authority shall be:

(a) delivered personally, by post or facsimile transmission to the office or to such other place within the United Kingdom as may be specified by or on behalf of the Company in accordance with Article 86.1(a) not less than 48 hours before the time appointed for holding the meeting or adjourned meeting (or any postponed time appointed for holding the meeting pursuant to Article 59.5) at which the person named in the appointment proposes to vote; or

(b) where a poll is taken more than 48 hours after it is demanded, be deposited as aforesaid after the poll has been demanded and not less than 24 hours before the time appointed for the taking of the poll; or

(c) where a poll is not taken forthwith but is taken not more than 48 hours after it was demanded, be delivered at the meeting at which the poll was demanded to the chairman or to the secretary or to any director together with the proxy appointment to which it relates.

86.3 A proxy appointment which is not delivered or received in accordance with Article 86.1, or in respect of which Article 86.2 has not been complied with, shall be invalid. No proxy appointment shall be valid more than twelve months after the date stated in it as the date of its execution. When two or more valid proxy appointments are delivered or received in respect of the same share for use at the same meeting, the one which was executed last shall be treated as replacing and revoking the others as regards that share; if the Company is unable to determine which was executed last, none of them shall be treated as valid in respect of that share.

Validity of proxy appointment

87.1 A proxy appointment shall be deemed to include the right to demand, or join in demanding, a poll and, in the case of a Nominee Proxy only, to confer the right to speak at a meeting. A proxy who is not a Nominee Proxy shall not, except with the permission of the chairman, have any right to speak at a meeting. The proxy appointment shall also be deemed to confer authority to vote on any amendment of a resolution put to the meeting for which it is given as the proxy thinks fit. The proxy appointment shall, unless it provides to the contrary, be valid for any adjournment of the meeting as well as for the meeting to which it relates.

87.2 If a member appoints more than one proxy and the proxy appointments purport, in aggregate, to confer on those proxies the authority to vote at a general meeting more shares than are at the relevant time held by that member, each of those proxy appointments shall be invalid and none of the proxies so appointed by that member shall be entitled to attend, speak (if relevant) or vote at that general meeting.

Corporate representatives

88. Any corporation or corporation sole which is a member of the Company (in this Article the ***grantor***) may (in the case of a corporation, by resolution of its directors or other governing body or by authority to be given under seal or under

act as its representative at any meeting of the Company or at any separate meeting of the holders of any class of shares. A person so authorised shall be entitled to exercise the same power on behalf of the grantor as the grantor could exercise if it were an individual member of the Company, save that a director, the secretary or other person authorised for the purpose by the secretary may require such person to produce a certified copy of the resolution of authorisation or other authority before permitting him to exercise his powers. The grantor shall for the purposes of these Articles be deemed to be present in person at any such meeting if a person so authorised is present at it.

Revocation of authority

89. A vote given or poll demanded by a proxy or by the duly authorised representative of a corporation shall be valid notwithstanding the previous determination of the authority of the person voting or demanding the poll unless notice of the determination was received by the Company as mentioned in the following sentence at least three hours before the start of the meeting or adjourned meeting at which the vote is given or the poll demanded or (in the case of a poll taken otherwise than on the same day as the meeting or adjourned meeting) the time appointed for taking the poll. Such notice of determination shall be either by means of an instrument received by the Company at the office or at such other place within the United Kingdom as may have been specified by or on behalf of the Company for the purpose of receiving proxy appointments in accordance with Article 86.1(a) or contained in an electronic communication received at the address (if any) specified by or on behalf of the Company for the purpose of receiving proxy appointments in accordance with Article 86.1(b), regardless of whether any relevant proxy appointment was effected by means of an instrument or contained in an electronic communication. For the purpose of this Article, an electronic communication which contains such notice of determination need not comprise writing if the board has determined that the electronic communication which contains the relevant proxy appointment need not comprise writing.

NUMBER OF DIRECTORS

Limits on number of directors

90. Unless otherwise determined by ordinary resolution, the number of directors (other than alternate directors) shall be not less than two but shall not be subject to any maximum in number.

APPOINTMENT AND RETIREMENT OF DIRECTORS

Number of directors to retire

91. At every annual general meeting one-third of the directors who are subject to retirement by rotation or, if their number is not three or a multiple of three, the number nearest to one-third shall retire from office; but:

(a) if any director has at the start of the annual general meeting been in office for more than three years since his last appointment or re-appointment, he shall retire; and

(b) if there is only one director who is subject to retirement by rotation, he shall retire.

to retire

directors to retire by rotation shall be those who have been longest in office since their last appointment or re-appointment. As between persons who became or were last re-appointed directors on the same day those to retire shall (unless they otherwise agree among themselves) be determined by lot. The directors to retire on each occasion (both as to number and identity) shall be determined by the composition of the board at the date of the notice convening the annual general meeting. No director shall be required to retire or be relieved from retiring or be retired by reason of any change in the number or identity of the directors after the date of the notice but before the close of the meeting.

When director deemed to be re-appointed

93. If the Company does not fill the vacancy at the meeting at which a director retires by rotation or otherwise, the retiring director shall, if willing to act, be deemed to have been re-appointed unless at the meeting it is resolved not to fill the vacancy or unless a resolution for the re-appointment of the director is put to the meeting and lost.

Eligibility for election

94. No person other than a director retiring by rotation shall be appointed a director at any general meeting unless:

(a) he is recommended by the board; or

(b) not less than seven nor more than 42 days before the date appointed for the meeting, notice executed by a member qualified to vote at the meeting (not being the person to be proposed) has been received by the Company of the intention to propose that person for appointment stating the particulars which would, if he were so appointed, be required to be included in the Company's register of directors, together with notice executed by that person of his willingness to be appointed.

Separate resolutions on appointment

95. Except as otherwise authorised by the Companies Acts, the appointment of any person proposed as a director shall be effected by a separate resolution.

Additional powers of the Company

96. Subject as aforesaid, the Company may by ordinary resolution appoint a person who is willing to act to be a director either to fill a vacancy or as an additional director and may also determine the rotation in which any additional directors are to retire. The appointment of a person to fill a vacancy or as an additional director shall take effect from the end of the meeting.

Appointment by board

97. The board may appoint a person who is willing to act to be a director, either to fill a vacancy or as an additional director and in either case whether or not for a fixed term, provided that the appointment does not cause the number of directors to exceed the number, if any, fixed by or in accordance with these Articles as the maximum number of directors. Irrespective of the terms of his appointment, a director so appointed shall hold office only until the next following general meeting and shall not be taken into account in determining the directors who are to retire by rotation at the meeting. If not re-appointed at such general meeting, he shall vacate office at its conclusion.

retiring directors

be re-appointed. If he is not re-appointed, he shall retain office until the meeting appoints someone in his place, or if it does not do so, until the end of the meeting.

Age limit

99. No person shall be disqualified from being appointed or re-appointed a director, and no director shall be required to vacate that office, by reason only of the fact that he has attained the age of 70 or any other age nor shall it be necessary by reason of his age to give special notice under the Companies Acts of any resolution. Where the board convenes any general meeting of the Company at which (to the knowledge of the board) a director will be proposed for appointment or re-appointment who at the date for which the meeting is convened will have attained the age of 70 or more, the board shall give notice of his age in years in the notice convening the meeting or in any document sent with the notice, but the accidental omission to do so shall not invalidate any proceedings, or any appointment or re-appointment of that director, at that meeting.

No share qualification

100. A director shall not be required to hold any shares in the capital of the Company by way of qualification.

ALTERNATE DIRECTORS

Power to appoint alternates

101. Any director (other than an alternate director) may appoint any other director, or any other person approved by resolution of the board and willing to act, to be an alternate director and may remove from office an alternate director so appointed by him.

Alternates entitled to receive notice

102. An alternate director shall be entitled to receive notice of all meetings of the board and of all meetings of committees of the board of which his appointor is a member, to attend and vote at any such meeting at which his appointor is not personally present, and generally to perform all the functions of his appointor (except as regards power to appoint an alternate) as a director in his absence. It shall not be necessary to send notice of such a meeting to an alternate director who is absent from the United Kingdom.

Alternates [illegible]enting [illegible]than one director

103. A director or any other person may act as alternate director to represent more than one director, and an alternate director shall be entitled at meetings of the board or any committee of the board to one vote for every director whom he represents (and who is not present) in addition to his own vote (if any) as a director, but he shall count as only one for the purpose of determining whether a quorum is present.

Expenses and remuneration of alternates

104. An alternate director may be repaid by the Company such expenses as might properly have been repaid to him if he had been a director but shall not be entitled to receive any remuneration from the Company in respect of his services as an alternate director except such part (if any) of the remuneration otherwise payable to his appointor as such appointor may by notice to the Company from time to time direct. An alternate director shall be entitled to be indemnified by the Company to the same extent as if he were a director.

(a) if his appointor ceases to be a director; but, if a director retires by rotation or otherwise but is re-appointed or deemed to have been re-appointed at the meeting at which he retires, any appointment of an alternate director made by him which was in force immediately prior to his retirement shall continue after his re-appointment; or

(b) on the happening of any event which, if he were a director, would cause him to vacate his office as director; or

(c) if he resigns his office by notice to the Company.

Method of appointment and revocation

106. Any appointment or removal of an alternate director shall be by notice to the Company signed by the director making or revoking the appointment and shall take effect in accordance with the terms of the notice (subject to any approval required by Article 101) on receipt of such notice by the Company at, in the case of a notice contained in an instrument, the office or, in the case of a notice contained in an electronic communication, such address (if any) as may for the time being be notified by or on behalf of the Company for that purpose.

Alternate not an agent of appointor

107. Except as otherwise expressly provided in these Articles, an alternate director shall be deemed for all purposes to be a director. Accordingly, except where the context otherwise requires, a reference to a director shall be deemed to include a reference to an alternate director. An alternate director shall alone be responsible for his own acts and defaults and he shall not be deemed to be the agent of the director appointing him.

POWERS OF THE BOARD

Business to be managed by board

108. Subject to the provisions of the Companies Acts, the Memorandum and these Articles and to any directions given by special resolution, the business of the Company shall be managed by the board which may pay all expenses incurred in forming and registering the Company and may exercise all the powers of the Company whether relating to the management of the business of the Company or not. No alteration of the Memorandum or Articles and no such direction shall invalidate any prior act of the board which would have been valid if that alteration had not been made or that direction had not been given. The powers given by this Article shall not be limited by any special power given to the board by these Articles. A meeting of the board at which a quorum is present may exercise all powers exercisable by the board.

Exercise by Company of voting rights

109. The board may exercise the voting power conferred by the shares in any body corporate held or owned by the Company in such manner in all respects as it thinks fit (including without limitation the exercise of that power in favour of any resolution appointing its members or any of them directors of such body corporate, or voting or providing for the payment of remuneration to the directors of such body corporate).

Committees of the Board

110. The board may delegate any of its powers to any committee consisting of one or more directors. The board may also delegate to any director holding any executive office such of its powers as the board considers desirable to be exercised by him. Any such delegation shall, in the absence of express provision to the contrary in the terms of delegation, be deemed to include authority to sub-delegate to one or more directors (whether or not acting as a committee) or to any employee or agent of the Company all or any of the powers delegated and may be made subject to such conditions as the board may specify, and may be revoked or altered. The board may co-opt on to any such committee persons other than directors, who may enjoy voting rights in the committee. The co-opted members shall be less than one-half of the total membership of the committee and a resolution of any committee shall be effective only if a majority of the members present are directors. Subject to any conditions imposed by the board, the proceedings of a committee with two or more members shall be governed by these Articles regulating the proceedings of directors so far as they are capable of applying.

Local boards, etc

111. The board may establish local or divisional boards or agencies for managing any of the affairs of the Company, either in the United Kingdom or elsewhere, and may appoint any persons to be members of the local or divisional boards, or any managers or agents, and may fix their remuneration. The board may delegate to any local or divisional board, manager or agent any of the powers, authorities and discretions vested in or exercisable by the board, with power to sub-delegate, and may authorise the members of any local or divisional board, or any of them, to fill any vacancies and to act notwithstanding vacancies. Any appointment or delegation made pursuant to this Article may be made on such terms and subject to such conditions as the board may decide. The board may remove any person so appointed and may revoke or vary the delegation but no person dealing in good faith and without notice of the revocation or variation shall be affected by it.

Agents

112. The board may, by power of attorney or otherwise, appoint any person to be the agent of the Company for such purposes, with such powers, authorities and discretions (not exceeding those vested in the board) and on such conditions as the board determines, including without limitation authority for the agent to delegate all or any of his powers, authorities and discretions, and may revoke or vary such delegation.

Offices including the title "director"

113. The board may appoint any person to any office or employment having a designation or title including the word "director" or attach to any existing office or employment with the Company such a designation or title and may terminate any such appointment or the use of any such designation or title. The inclusion of the word "director" in the designation or title of any such office or employment shall not imply that the holder is a director of the Company, and the holder shall not thereby be empowered in any respect to act as, or be deemed to be, a director of the Company for any of the purposes of these Articles.

Power to borrow

114. The board may exercise all the powers of the Company to borrow money, to guarantee, to indemnify, to mortgage or charge its undertaking, property, assets (present and future) and uncalled capital, and to issue debentures and other securities whether outright or as collateral security for any debt, liability or obligation of the Company or of any third party.

DISQUALIFICATION AND REMOVAL OF DIRECTORS

Disqualification as a director

115. The office of a director shall be vacated if:

(a) he ceases to be a director by virtue of any provisions of the Companies Acts or these Articles or he becomes prohibited by law from being a director; or

(b) he becomes bankrupt or makes any arrangement or composition with his creditors generally or shall apply to the court for an interim order under section 253 of the Insolvency Act 1986 in connection with a voluntary arrangement under that Act; or

(c) he is, or may be, suffering from mental disorder and either:

(i) he is admitted to hospital in pursuance of an application for admission for treatment under the Mental Health Act 1983 or, in Scotland, an application for admission under the Mental Health (Scotland) Act 1984; or

(ii) an order is made by a court having jurisdiction (whether in the United Kingdom or elsewhere) in matters concerning mental disorder for his detention or for the appointment of a receiver, curator bonis or other person to exercise powers with respect to his property or affairs; or

(d) he resigns his office by notice to the Company or, having been appointed for a fixed term, the term expires or his office as a director is vacated pursuant to Article 97; or

(e) he has been absent for more than six consecutive months without permission of the board from meetings of the board held during that period and his alternate director (if any) has not attended in his place during that period and the board resolves that his office be vacated; or

(f) he is requested to resign in writing by not less than three-quarters of the other directors. In calculating the number of directors who are required to make such a request to the director, (i) an alternate director appointed by him acting in his capacity as such shall be excluded; and (ii) a director and any alternate director appointed by that director and acting in his capacity as such shall constitute a single director for this purpose, so that the signature of either shall be sufficient.

Company to remove director

Acts, by ordinary resolution remove any director from office (notwithstanding any provision of these Articles or of any agreement between the Company and such director, but without prejudice to any claim he may have for damages for breach of any such agreement). No special notice need be given of any resolution to remove a director in accordance with this Article and no director proposed to be removed in accordance with this Article has any special right to protest against his removal. The Company may, by ordinary resolution, appoint another person in place of a director removed from office in accordance with this Article. Any person so appointed shall, for the purpose of determining the time at which he or any other director is to retire by rotation, be treated as if he had become a director on the day on which the director in whose place he is appointed was last elected a director. In default of such appointment the vacancy arising on the removal of a director from office may be filled as a casual vacancy.

REMUNERATION OF NON-EXECUTIVE DIRECTORS

Ordinary remuneration

117. The ordinary remuneration of the directors who do not hold executive office for their services (excluding amounts payable under any other provision of these Articles) shall not exceed in aggregate £1,000,000 per annum or such higher amount as the Company may from time to time by ordinary resolution determine. Subject thereto, each such director shall be paid a fee (which shall be deemed to accrue from day to day) at such rate as may from time to time be determined by the board.

117A. Subject to the provisions of the Companies Acts, the board may enter into, vary and terminate an agreement or arrangement with any director who does not hold executive office for the provision of his services to the Company. Subject to Article 117 and 118, any such agreement or arrangement may be made on such terms as the board determines.

Additional remuneration for special services

118. Any director who does not hold executive office and who serves on any committee of the board, and by the request of the board goes or resides abroad for any purpose of the Company or otherwise performs special services which in the opinion of the board are outside the scope of the ordinary duties of a director, may (without prejudice to the provisions of Article 117) be paid such extra remuneration by way of salary, commission or otherwise as the board may determine.

DIRECTORS' EXPENSES

Directors may be paid expenses

119. The directors may be paid all travelling, hotel, and other expenses properly incurred by them in connection with their attendance at meetings of the board or committees of the board, general meetings or separate meetings of the holders of any class of shares or of debentures of the Company or otherwise in connection with the discharge of their duties.

Appointment to executive office

120. Subject to the provisions of the Companies Acts, the board may appoint one or more of its body to be the holder of any executive office (except that of auditor) in the Company and may enter into an agreement or arrangement with any director for his employment by the Company or for the provision by him of any services outside the scope of the ordinary duties of a director. Any such appointment, agreement or arrangement may be made on such terms, including without limitation terms as to remuneration, as the board determines. The board may revoke or vary any such appointment but without prejudice to any rights or claims which the person whose appointment is revoked or varied may have against the Company because of the revocation or variation.

Termination of appointment to executive office

121. Any appointment of a director to an executive office shall terminate if he ceases to be a director but without prejudice to any rights or claims which he may have against the Company by reason of such cessation. A director appointed to an executive office shall not cease to be a director merely because his appointment to such executive office terminates.

Emoluments to be determined by the board

122. The emoluments of any director holding executive office for his services as such shall be determined by the board, and may be of any description, including without limitation admission to, or continuance of, membership of any scheme (including any share acquisition scheme) or fund instituted or established or financed or contributed to by the Company for the provision of pensions, life assurance or other benefits for employees or their dependants, or the payment of a pension or other benefits to him or his dependants on or after retirement or death, apart from membership of any such scheme or fund.

DIRECTORS' INTERESTS

Directors may contract with the Company

123.1 Subject to the provisions of the Companies Acts, and provided that he has disclosed to the board the nature and extent of any material interest of his, a director notwithstanding his office:

(a) may be a party to, or otherwise interested in, any transaction or arrangement with the Company or in which the Company is otherwise interested;

(b) may act by himself or his firm in a professional capacity for the Company (otherwise than as auditor) and he or his firm shall be entitled to remuneration for professional services as if he were not a director;

(c) may be a director or other officer of, or employed by, or a party to any transaction or arrangement with, or otherwise interested in, any body corporate promoted by the Company or in which the Company is otherwise interested; and

(d) shall not, by reason of his office, be accountable to the Company for any benefit which he derives from any such office or employment or from any such transaction or arrangement or from any interest in any such body

avoided on the ground of any such interest or benefit.

Notification of interests

123.2 For the purposes of this Article:

(a) a general notice given to the board that a director is to be regarded as having an interest of the nature and extent specified in the notice in any transaction or arrangement in which a specified person or class of persons is interested shall be deemed to be a disclosure that the director has an interest in any such transaction of the nature and extent so specified; and

(b) an interest of which a director has no knowledge and of which it is unreasonable to expect him to have knowledge shall not be treated as an interest of his.

GRATUITIES, PENSIONS AND INSURANCE

Gratuities and pensions

124.1 The board may (by establishment of, or maintenance of, schemes or otherwise) provide benefits, whether by the payment of gratuities or pensions or by insurance or otherwise, for any past or present director or employee of the Company or any of its subsidiary undertakings or any body corporate associated with, or any business acquired by, any of them, and for any member of his family (including a spouse and a former spouse) or any person who is or was dependent on him, and may (as well before as after he ceases to hold such office or employment) contribute to any fund and pay premiums for the purchase or provision of any such benefit.

Insurance

124.2 Without prejudice to the provisions of Article 166, the board may exercise all the powers of the Company to purchase and maintain insurance for or for the benefit of any person who is or was:

(a) a director, officer or employee of the Company, or any body which is or was the holding company or subsidiary undertaking of the Company, or in which the Company or such holding company or subsidiary undertaking has or had any interest (whether direct or indirect) or with which the Company or such holding company or subsidiary undertaking is or was in any way allied or associated; or

(b) a trustee of any pension fund in which employees of the Company or any other body referred to in Article 124.2(a) is or has been interested,

including without limitation insurance against any liability incurred by such person in respect of any act or omission in the actual or purported execution or discharge of his duties or in the exercise or purported exercise of his powers or otherwise in relation to his duties, powers or offices in relation to the relevant body or fund.

Directors not liable to account

124.3 No director or former director shall be accountable to the Company or the members for any benefit provided pursuant to this Article. The receipt of any such

Company.

tion 719 of the Act

125. Pursuant to section 719 of the Act, the board is hereby authorised to make such provision as may seem appropriate for the benefit of any persons employed or formerly employed by the Company or any of its subsidiary undertakings in connection with the cessation or the transfer of the whole or part of the undertaking of the Company or any subsidiary undertaking. Any such provision shall be made by a resolution of the board in accordance with section 719.

PROCEEDINGS OF THE BOARD

Convening meetings

126. Subject to the provisions of these Articles, the board may regulate its proceedings as it thinks fit. A director may, and the secretary at the request of a director shall, call a meeting of the board. Notice of a board meeting shall be deemed to be properly sent to a director if it is given to him personally or by word of mouth or sent by instrument to him at his last known address or such other address (if any) for the time being notified by him or on his behalf to the Company for that purpose or sent using electronic communication to such address (if any) for the time being notified by him or on his behalf to the Company for that purpose. A director absent or intending to be absent from the United Kingdom may request the board that notices of board meetings shall during his absence be sent by instrument to him at such address (if any) for the time being notified by him or on his behalf to the Company for that purpose, or sent using electronic communication to such address (if any) for the time being notified by him or on his behalf to the Company for that purpose, but such notices need not be given any earlier than notices given to directors not so absent and, if no such request is made to the board, it shall not be necessary to send notice of a board meeting to any director who is for the time being absent from the United Kingdom. No account is to be taken of directors absent from the United Kingdom when considering the adequacy of the period of notice of the meeting. Questions arising at a meeting shall be decided by a majority of votes. In the case of an equality of votes, the chairman shall have a second or casting vote. Any director may waive notice of a meeting and any such waiver may be retrospective. Any electronic communication pursuant to this Article need not comprise writing if the board so determines.

Quorum

127. The quorum for the transaction of the business of the board may be fixed by the board and unless so fixed at any other number shall be two. A person who holds office only as an alternate director shall, if his appointor is not present, be counted in the quorum. Any director who ceases to be a director at a board meeting may continue to be present and to act as a director and be counted in the quorum until the termination of the board meeting if no director objects.

Powers of directors if number falls below minimum

128. The continuing directors or a sole continuing director may act notwithstanding any vacancies in their number, but, if the number of directors is less than the number fixed as the quorum, the continuing directors or director may act only for the purpose of filling vacancies or of calling a general meeting.

deputy chairmen

two of their number to be deputy chairmen, of the board and may at any time remove any of them from such office. Unless he is unwilling to do so, the director appointed as chairman, or in his stead any director appointed as deputy chairman, shall preside at every meeting of the board at which he is present. If there is no director holding either of those offices, or if neither the chairman nor any deputy chairman is willing to preside or none of them is present within five minutes after the time appointed for the meeting, the directors present may appoint one of their number to be chairman of the meeting.

Validity of acts of the board

130. All acts done by a meeting of the board, or of a committee of the board, or by a person acting as a director or alternate director, shall, notwithstanding that it be afterwards discovered that there was a defect in the appointment of any director or any member of the committee or alternate director or that any of them were disqualified from holding office, or had vacated office, or were not entitled to vote, be as valid as if every such person had been duly appointed and was qualified and had continued to be a director or, as the case may be, an alternate director and had been entitled to vote.

Resolutions in writing

131. A resolution in writing signed by all the directors entitled to receive notice of a meeting of the board or of a committee of the board (not being less than the number of directors required to form a quorum of the board) shall be as valid and effectual as if it had been passed at a meeting of the board or (as the case may be) a committee of the board duly convened and held. For this purpose:

(a) a resolution may be by means of an instrument or contained in an electronic communication sent to such address (if any) for the time being notified by the Company for that purpose;

(b) a resolution may consist of several instruments or several electronic communications each executed by one or more directors, or a combination of both;

(c) a resolution executed by an alternate director need not also be signed by his appointor; and

(d) a resolution executed by a director who has appointed an alternate director need not also be signed by the alternate director in that capacity.

Meetings by telephone, etc.

132. Without prejudice to the first sentence of Article 126, a person entitled to be present at a meeting of the board or of a committee of the board shall be deemed to be present for all purposes if he is able (directly or by telephonic communication) to speak and be heard by all those present or deemed to be present simultaneously. A director so deemed to be present shall be entitled to vote and be counted in a quorum accordingly. Such a meeting shall be deemed to take place where it is convened to be held or (if no director is present in that place) where the largest group of those participating is assembled, or, if there is no such group, where the chairman of the meeting is. The word ***meeting*** in these Articles shall be construed accordingly.

power to vote on contracts in which they are interested

meeting of the board or a committee of the board on any resolution of the board concerning a matter in which he has an interest (other than by virtue of his interests in shares or debentures or other securities of, or otherwise in or through, the Company) which (together with any interest of any person connected with him) is to his knowledge material unless his interest arises only because the resolution concerns one or more of the following matters:

(a) the giving of a guarantee, security or indemnity in respect of money lent or obligations incurred by him or any other person at the request of, or for the benefit of, the Company or any of its subsidiary undertakings;

(b) the giving of a guarantee, security or indemnity in respect of a debt or obligation of the Company or any of its subsidiary undertakings for which the director has assumed responsibility (in whole or part and whether alone or jointly with others) under a guarantee or indemnity or by the giving of security;

(c) a contract, arrangement, transaction or proposal concerning an offer of shares, debentures or other securities of the Company or any of its subsidiary undertakings for subscription or purchase, in which offer he is or may be entitled to participate as a holder of securities or in the underwriting or sub-underwriting of which he is to participate;

(d) a contract, arrangement, transaction or proposal concerning any other body corporate in which he or any person connected with him is interested, directly or indirectly, and whether as an officer, shareholder, creditor or otherwise, if he and any persons connected with him do not to his knowledge hold an interest (as that term is used in sections 198 to 211 of the Act) representing one per cent. or more of either any class of the equity share capital of such body corporate (or any other body corporate through which his interest is derived) or of the voting rights available to members of the relevant body corporate (any such interest being deemed for the purpose of this Article to be a material interest in all circumstances);

(e) a contract, arrangement, transaction or proposal for the benefit of employees of the Company or of any of its subsidiary undertakings which does not award him any privilege or benefit not generally accorded to the employees to whom the arrangement relates; and

(f) a contract, arrangement, transaction or proposal concerning any insurance which the Company is empowered to purchase or maintain for, or for the benefit of, any directors of the Company or for persons who include directors of the Company.

person and alternate di

purpose of the Companies Acts (excluding any statutory modification of the Companies Acts not in force when this Article is adopted), connected with a director shall be treated as an interest of the director and, in relation to an alternate director, an interest of his appointor shall be treated as an interest of the alternate director without prejudice to any interest which the alternate director has otherwise.

133.3 The Company may by ordinary resolution suspend or relax to any extent, either generally or in respect of any particular matter, any provision of the Articles prohibiting a director from voting at a meeting of directors or of a committee of directors.

Division of proposals

134. Where proposals are under consideration concerning the appointment (including without limitation fixing or varying the terms of appointment) of two or more directors to offices or employments with the Company or any body corporate in which the Company is interested, the proposals may be divided and considered in relation to each director separately. In such cases each of the directors concerned shall be entitled to vote in respect of each resolution except that concerning his own appointment.

Decision of chairman final and conclusive

135. If a question arises at a meeting of the board or of a committee of the board as to the entitlement of a director to vote, the question may, before the conclusion of the meeting, be referred to the chairman of the meeting and his ruling in relation to any director other than himself shall be final and conclusive except in a case where the nature or extent of the interests of the director concerned have not been fairly disclosed. If any such question arises in respect of the chairman of the meeting, it shall be decided by resolution of the board (on which the chairman shall not vote) and such resolution will be final and conclusive except in a case where the nature and extent of the interests of the chairman have not been fairly disclosed.

SECRETARY

Appointment and removal of secretary

136. Subject to the provisions of the Companies Acts, the secretary shall be appointed by the board for such term, at such remuneration and on such conditions as it may think fit. Any secretary so appointed may be removed by the board, but without prejudice to any claim for damages for breach of any contract of service between him and the Company.

MINUTES

Minutes required to be kept

137.1 The board shall cause minutes to be made in books kept for the purpose of:

(a) all appointments of officers made by the board; and

(b) all proceedings at meetings of the Company, the holders of any class of shares in the capital of the Company, the board, and committees of the board, including the names of the directors present at each such meeting.

meeting to which they relate or of the meeting at which they are read, shall be sufficient evidence of the proceedings of the meeting without any further proof of the facts stated in them.

THE SEAL

Authority required for use of seal

138. The seal shall only be used by the authority of a resolution of the board or of a committee of the board. The board may determine who shall sign any instrument executed under the seal. If they do not, it shall be signed by at least one director and the secretary or by at least two directors. Any instrument may be executed under the seal by impressing the seal by mechanical means or by printing the seal or a facsimile of it on the instrument or by applying the seal or a facsimile of it by any other means to the instrument. An instrument executed with the authority of a resolution of the board, by a director and the secretary or by two directors and expressed (in whatever form of words) to be executed by the Company, has the same effect as if executed under the seal. For the purpose of the preceding sentence only, ***secretary*** shall have the same meaning as in the Act and not the meaning given to it by Article 2.

Certificates for shares and debentures

139. The board may by resolution determine either generally or in any particular case that any certificate for shares or debentures or representing any other form of security may have any signature affixed to it by some mechanical or electronic means, or printed on it or, in the case of a certificate executed under the seal, need not bear any signature.

Official seal for use abroad

140. The Company may exercise the powers conferred by section 39 of the Act with regard to having an official seal for use abroad.

REGISTERS

Overseas and local registers

141. Subject to the provisions of the Companies Acts and the Regulations, the Company may keep an overseas or local or other register in any place, and the board may make, amend and revoke any regulations it thinks fit about the keeping of that register.

Authentication and certification of copies and extracts

142. Any director or the secretary or any other person appointed by the board for the purpose shall have power to authenticate, and certify as true, copies of and extracts from:

(a) any document comprising or affecting the constitution of the Company, whether in physical form or electronic form;

(b) any resolution passed by the Company, the holders of any class of shares in the capital of the Company, the board or any committee of the board whether in physical form or electronic form; and

whether in physical form or electronic form (including without limitation the accounts).

If certified in this way, a document purporting to be a copy of a resolution, or the minutes, or an extract from the minutes, of a meeting of the Company, the holders of any class of shares in the capital of the Company, the board or a committee of the board, whether in physical form or electronic form, shall be conclusive evidence in favour of all persons dealing with the Company in reliance on it or them that the resolution was duly passed or that the minutes are, or the extract from the minutes is, a true and accurate record of proceedings at a duly constituted meeting.

DIVIDENDS

Declaration of dividends

143. Subject to the provisions of the Companies Acts and of these Articles, the Company may by ordinary resolution declare dividends in accordance with the respective rights of the members, but no dividend shall exceed the amount recommended by the board.

Interim dividends

144. Subject to the provisions of the Companies Acts, the board may pay interim dividends if it appears to the board that they are justified by the profits of the Company available for distribution. If the share capital is divided into different classes, the board may pay interim dividends on shares which confer deferred or non-preferred rights with regard to dividend as well as on shares which confer preferential rights with regard to dividend, but no interim dividend shall be paid on shares carrying deferred or non-preferred rights if, at the time of payment, any preferential dividend is in arrears. The board may also pay at intervals settled by it any dividend payable at a fixed rate if it appears to the board that the profits available for distribution justify the payment. If the board acts in good faith it shall not incur any liability to the holders of shares conferring preferred rights for any loss they may suffer by the lawful payment of an interim dividend on any shares having deferred or non-preferred rights.

Apportionment of dividends

145. Except as otherwise provided by the rights attached to shares, all dividends shall be declared and paid according to the amounts paid up on the shares on which the dividend is paid; but no amount paid on a share in advance of the date on which a call is payable shall be treated for the purpose of this Article as paid on the share. All dividends shall be apportioned and paid proportionately to the amounts paid up on the shares during any portion or portions of the period in respect of which the dividend is paid; but, if any share is allotted or issued on terms providing that it shall rank for dividend as from a particular date, that share shall rank for dividend accordingly.

Dividends in specie

146. A general meeting declaring a dividend may, on the recommendation of the board, by ordinary resolution direct that it shall be satisfied wholly or partly by the distribution of assets, including without limitation paid up shares or debentures of another body corporate. The board may make any arrangements it thinks fit to

limitation (a) the fixing of the value for distribution of any assets, (b) the payment of cash to any member on the basis of that value in order to adjust the rights of members, and (c) the vesting of any asset in a trustee.

Scrip dividends: authorising resolution

147.1 The board may, if authorised by an ordinary resolution of the Company (the ***Resolution***), offer any holder of shares the right to elect to receive shares, credited as fully paid, instead of cash in respect of the whole (or some part, to be determined by the board) of all or any dividend specified by the Resolution. The offer shall be on the terms and conditions and be made in the manner specified in Article 147.2 or, subject to those provisions, specified in the Resolution.

Scrip dividends: procedures

147.2 The following provisions shall apply to the Resolution and any offer made pursuant to it and Article 147.1.

(a) The Resolution may specify a particular dividend, or may specify all or any dividends declared within a specified period.

(b) Each holder of shares shall be entitled to that number of new shares as are together as nearly as possible equal in value to (but not greater than) the cash amount (disregarding any tax credit) of the dividend that such holder elects to forego (each a ***new share***). For this purpose, the value of each new share shall be:

(i) equal to the *average quotation* for the Company's ordinary shares, that is, the average of the middle market quotations for those shares on the London Stock Exchange, as derived from the Daily Official List, on the day on which such shares are first quoted *ex* the relevant dividend and the four subsequent dealing days; or

(ii) calculated in any other manner specified by the Resolution,

but shall never be less than the par value of the new share.

A certificate or report by the auditors as to the value of a new share in respect of any dividend shall be conclusive evidence of that value.

(c) On or as soon as practicable after announcing that any dividend is to be declared or recommended, the board, if it intends to offer an election in respect of that dividend, shall also announce that intention. If, after determining the basis of allotment, the board decides to proceed with the offer, it shall give notice to the holders of shares of the terms and conditions of the right of election offered to them, specifying the procedure to be followed and place at which, and the latest time by which, elections or notices amending or terminating existing elections must be lodged in order to be effective.

(d) The board shall not proceed with any election unless the Company has sufficient unissued shares authorised for issue and sufficient reserves or

allotment is determined.

(e) The board may exclude from any offer any holders of shares where the board believes the making of the offer to them would or might involve the contravention of the laws of any territory or that for any other reason the offer should not be made to them.

(f) The dividend (or that part of the dividend in respect of which a right of election has been offered) shall not be payable in cash on shares in respect of which an election has been made (the ***elected shares***) and instead such number of new shares shall be allotted to each holder of elected shares as is arrived at on the basis stated in Article 147.2(b). For that purpose the board shall appropriate out of any amount for the time being standing to the credit of any reserve or fund (including without limitation the profit and loss account), whether or not it is available for distribution, a sum equal to the aggregate nominal amount of the new shares to be allotted and apply it in paying up in full the appropriate number of new shares for allotment and distribution to each such holder of elected shares as is arrived at on the basis stated in Article 147.2(b).

(g) The new shares when allotted shall rank equally in all respects with the fully paid shares of the same class then in issue except that they shall not be entitled to participate in the relevant dividend.

(h) No fraction of a share shall be allotted. The board may make such provision as it thinks fit for any fractional entitlements including without limitation payment in cash to holders in respect of their fractional entitlements, provision for the accrual, retention or accumulation of all or part of the benefit of fractional entitlements to or by the Company or to or by or on behalf of any holder or the application of any accrual, retention or accumulation to the allotment of fully paid shares to any holder.

(i) The board may do all acts and things it considers necessary or expedient to give effect to the allotment and issue of any share pursuant to this Article or otherwise in connection with any offer made pursuant to this Article and may authorise any person, acting on behalf of the holders concerned, to enter into an agreement with the Company providing for such allotment or issue and incidental matters. Any agreement made under such authority shall be effective and binding on all concerned.

(j) The board may, at its discretion, amend, suspend or terminate any offer pursuant to this Article.

Permitted deductions and retentions

148. The board may deduct from any dividend or other moneys payable to any member in respect of a share any moneys presently payable by him to the Company in respect of that share. Where a person is entitled by transmission to a share, the board may retain any dividend payable in respect of that share until that person (or that person's transferee) becomes the holder of that share.

payable

interest against the Company unless otherwise provided by the rights attached to the share.

Payment procedures

150.1 Any dividend or other sum payable by the Company in respect of a share may be paid by crediting any account which the holder, or in the case of joint holders, the holder whose name stands first in the register, has with the Company, whether in the sole name of such holder or the joint names of such holder and another person or persons, unless the Company has received not less than one month's notice in writing from such holder or joint holders directing that payment be made in another manner permitted by this Article. Any such dividend or other sum which has been paid by crediting such an account shall be treated as having been paid upon such account having been credited with the amount of such dividend or other sum. Any such dividend or other sum may also be paid by cheque or warrant sent by post addressed to the holder at his registered address or, in the case of joint holders, addressed to the holder whose name stands first in the register in respect of the shares at his address as appearing in the register or addressed to such person and at such address as the holder or joint holders may in writing direct. Every cheque or warrant shall, unless the holder or joint holders otherwise direct, be payable to the order of the holder, or in the case of joint holders, to the order of the holder whose name stands first in the register in respect of the shares, and shall be sent at his or their risk and payment of the cheque or warrant by the bank on which it is drawn shall constitute a good discharge to the Company. In addition, any such dividend or other sum may be paid by any bank or other funds transfer system or, if agreed by the Company, such other means and to or through such person as the holder or joint holders may in writing direct, and the Company shall have no responsibility for any sums lost or delayed in the course of any such transfer or where it has acted on any such directions. Any one of two or more joint holders may give effectual receipts for any dividends or other moneys payable or property distributable in respect of the shares held by them. Where a person is entitled by transmission to a share, any dividend or other sum payable by the Company in respect of the share may be paid as if he was a holder of the share and his address noted in the register was his registered address. In respect of an uncertificated share, the making of payment in accordance with the facilities and requirements of the relevant system (which, if the relevant system is CREST, shall be the creation of an assured payment obligation in respect of the dividend or other moneys payable in favour of the settlement bank of the member or other person concerned) shall be a good discharge to the Company.

150.2 Dividends payable in respect of shares transferred by the Society to holders as a consequence of the transfer of the business of the Society to the Company in respect of which satisfactory registration details have not been received by the Company from such holders or any persons entitled by transmission to such shares, and dividends payable in respect of shares transferred by the Society to a trustee in accordance with the terms of the transfer of the business of the Society to the Company, shall be paid into a separate account in the name of the Company and shall not be paid to such holders, or persons entitled by transmission to such shares, unless and until the Company has received such details from them or, in the case of

entitled to such shares under the terms of the trust. Pending the receipt of satisfactory registration details as aforesaid, each dividend paid into such separate account in the name of the Company shall be treated as unclaimed and unsatisfied for the purposes of these Articles. No trust shall be created in relation to the amount from time to time standing to the credit of this account and no interest shall be payable in respect of it and the Company shall not be required to account for any moneys earned therefrom, which may be employed in the business of the Company or as it thinks fit.

Forfeiture of unclaimed dividends

151. Any dividend unclaimed after a period of twelve years from the date when it became due for payment shall be forfeited and shall revert to the Company and the payment by the board of any unclaimed dividend or other sum payable on or in respect of a share into a separate account shall not constitute the Company a trustee in respect of it.

Cessation of payment of dividends

152. The Company may cease to send any cheque or warrant through the post or employ any other means of payment for any dividend payable on any shares in the Company which is normally paid in that manner on those shares if either (a) in respect of at least two consecutive dividends payable on those shares the cheques or warrants have been returned undelivered or remain uncashed or that means of payment has failed, or (b) following one such occasion reasonable enquiries have failed to establish any new address of the registered holder. Subject to the provisions of these Articles, the Company may recommence sending cheques or warrants or employing such means in respect of dividends payable on those shares if the holder or person entitled by transmission requests such recommencement by notice to the Company and provides such new or corrected information as the Company shall reasonably require.

CAPITALISATION OF PROFITS AND RESERVES

General power to capitalise

153.1 Subject to the provisions of Article 8 and without prejudice to the authority contained in Article 8.19, the board may with the authority of an ordinary resolution of the Company:

(a) subject to the provisions of this Article 153.1, resolve to capitalise any undistributed profits of the Company not required for paying any preferential dividend (whether or not they are available for distribution) or any sum standing to the credit of any reserve or other fund, including without limitation the Company's share premium account and capital redemption reserve, if any;

(b) appropriate the sum resolved to be capitalised to the members or any class of members on the record date specified in the relevant resolution who would have been entitled to it if it were distributed by way of dividend and in the same proportions;

(c) apply that sum on their behalf either in or towards paying up the amounts, if any, for the time being unpaid on any shares held by them respectively, or

Company of a nominal amount equal to that sum but the share premium account, the capital redemption reserve, and any profits which are not available for distribution may, for the purposes of this Article, only be applied in paying up unissued shares to be allotted to members credited as fully paid;

(d) allot the shares, debentures or other obligations credited as fully paid to those members, or as they may direct, in those proportions, or partly in one way and partly in the other;

(e) where shares or debentures become, or would otherwise become, distributable under this Article in fractions, make such provision as the board thinks fit for any fractional entitlements including without limitation authorising their sale and transfer to any person, resolving that the distribution be made as nearly as practicable in the correct proportion but not exactly so, ignoring fractions altogether or resolving that cash payments be made to any members in order to adjust the rights of all parties;

(f) authorise any person to enter into an agreement with the Company on behalf of all the members concerned providing for either:

(i) the allotment to the members respectively, credited as fully paid, of any shares, debentures or other obligations to which they are entitled on the capitalisation; or

(ii) the payment up by the Company on behalf of the members of the amounts, or any part of the amounts, remaining unpaid on their existing shares by the application of their respective proportions of the sum resolved to be capitalised,

and any agreement made under that authority shall be binding on all such members; and

(g) generally do all acts and things required to give effect to the ordinary resolution.

Vesting claims

153.2 Subject to the provisions of Article 8 and without prejudice to the authority contained in Article 8.19, and notwithstanding the provisions of Article 153.1 (which shall not apply to any capitalisation pursuant to this Article 153.2), and subject to compliance with Article 8.12.2, the board may:

(a) subject to Article 10.1, allot and issue Ordinary Shares credited as fully paid at any time in order to satisfy a claim for shares by a person whom the board considers to be entitled thereto under the terms of the Transfer Agreement or, if that person has died, to such person to whom the board considers the right to such shares has been transmitted by operation of law; and

undistributed profits of the Company (whether or not they are available for distribution) or any sum standing to the credit of any reserve or other fund, including without limitation the Company's share premium account and capital redemption reserve, if any, and apply that sum in paying up in full the requisite number of unissued Ordinary Shares of a nominal amount equal thereto.

RECORD DATES

Record dates for dividends, etc.

154. Notwithstanding any other provision of these Articles, the Company or the board may fix any date as the record date for any dividend, distribution, allotment or issue, which may be on or at any time before or after any date on which the dividend, distribution, allotment or issue is declared, paid or made.

ACCOUNTS

Rights to inspect records

155. No member shall (as such) have any right to inspect any accounting records or other book or document of the Company except as conferred by statute or authorised by the board or by ordinary resolution of the Company or order of a court of competent jurisdiction.

Sending of annual accounts

156.1 Subject to the Companies Acts, a copy of the Company's annual accounts, together with a copy of the directors' report for that financial year and the auditors' report on those accounts shall, at least 21 clear days before the date of the meeting at which copies of those documents are to be laid in accordance with the provisions of the Companies Acts, be sent to every member and to every holder of the Company's debentures of whose address the Company is aware, and to every other person who is entitled to receive notice of meetings from the Company under the provisions of the Companies Acts or of these Articles or, in the case of joint holders of any share or debenture, to one of the joint holders.

Summary financial statements

156.2 Subject to the Companies Acts, the requirements of Article 156.1 shall be deemed satisfied in relation to any person by sending to the person, instead of such copies, a summary financial statement derived from the Company's annual accounts and the directors' report, which shall be in the form and containing the information prescribed by the Companies Acts and any regulations made under the Companies Acts.

NOTICES

When notice required to be in writing; use of electronic communications

157. Any notice to be sent or given to or by any person pursuant to these Articles (other than a notice calling a meeting of the board) shall be in writing. Any such notice may be sent using electronic communication to such address (if any) for the time being notified for that purpose to the person sending the notice by or on behalf of the person to whom the notice is sent.

Articles to a member by whichever of the following methods it may in its absolute discretion determine:

(a) personally; or

(b) by posting the notice or other document in a prepaid envelope and addressed to his registered address; or

(c) by leaving the notice or other document at that address; or

(d) by sending the notice or other document using electronic communication to such address (if any) for the time being notified to the Company by or on behalf of the member for that purpose; or

(e) in accordance with Article 158.2; or

(f) by any other method approved by the board.

bsite lications by ompany

158.2 Subject to the Companies Acts, the Company may send any notice or other document pursuant to these Articles to a member by publishing that notice or other document on a website where:

(a) the Company and the member have agreed to him having access to the notice or document on a website (instead of it being sent to him);

(b) the notice or document is one to which that agreement applies;

(c) the member is notified, in a manner for the time being agreed between him and the Company for this purpose, of:

(i) the publication of the notice or document on a website;

(ii) the address of that website; and

(iii) the place on that website where the notice or document may be accessed, and how it may be accessed; and

(d) the notice or document is published on that website throughout the publication period, provided that, if the notice or document is published on that website for a part, but not all of, the publication period, the notice or document shall be treated as being published throughout that period if the failure to publish that notice or document throughout the publication period is wholly attributable to circumstances which it would not be reasonable to have expected the Company to prevent or avoid.

In this Article 158.2, ***publication period*** means:

(i) in the case of a notice of an adjourned meeting pursuant to Article 65.2, a period of not less than seven clear days before the date of the adjourned

referred to in sub-paragraph (c) above is sent or (if later) is deemed sent;

(ii) in the case of a notice of a poll pursuant to Article 73, a period of not less than seven clear days before the taking of the poll, beginning on the day following that on which the notification referred to in sub-paragraph (c) above is sent or (if later) is deemed sent; and

(iii) in any other case, a period of not less than 21 days, beginning on the day following that on which the notification referred to in sub-paragraph (c) above is sent or (if later) is deemed sent.

Methods of member etc. sending notice

158.3 Unless otherwise provided by these Articles, a member or a person entitled by transmission to a share shall send any notice or other document pursuant to these Articles to the Company by whichever of the following methods he may in his absolute discretion determine:

(a) by posting the notice or other document in a prepaid envelope addressed to the office; or

(b) by leaving the notice or other document at the office; or

(c) by sending the notice or other document using electronic communication to such address (if any) for the time being notified by or on behalf of the Company for that purpose and referring to this Article 158.3.

Notice to joint holders

158.4 In the case of joint holders of a share, all notices or other documents shall be sent to the joint holder whose name stands first in the register in respect of the joint holding. Any notice or other document so sent shall be deemed for all purposes to have been sent to all the joint holders.

Registered address outside UK

158.5 A member whose registered address is not within the United Kingdom and who gives to the Company an address within the United Kingdom at which a notice or other document may be sent to him by instrument or an address to which a notice or other document may be sent to him using electronic communication shall (provided that, in the case of electronic communication, the Company so agrees) be entitled to have notices or other documents sent to him at that address, but otherwise:

(a) no such members shall be entitled to receive any notice or other document from the Company; and

(b) without prejudice to the generality of the foregoing, any notice of a general meeting of the Company which is in fact sent or purports to be sent to such members shall be ignored for the purpose of determining the validity of the proceedings at such general meeting.

Deemed receipt of notice

158.6 A member present, either in person or by proxy, at any meeting of the Company or of the holders of any class of shares in the capital of the Company

purposes for which it was called.

Terms and conditions for electronic communications

158.7 The board may from time to time issue, endorse or adopt terms and conditions relating to the use of electronic communications for the sending of notices, other documents and proxy appointments by the Company to members or persons entitled by transmission and by members or persons entitled by transmission to the Company.

Notice includes website notification

158.8 In this Article (except for Article 158.2) and in Articles 159, 160, 161 and 162, references to a notice include without limitation references to any notification required by the Companies Acts or these Articles in relation to the publication of any notices or other documents on a website.

Notice to persons entitled by transmission

159. A notice or other document may be sent by the Company to the person or persons entitled by transmission to a share by sending it in any manner authorised or contemplated by these Articles for the sending of a notice or other document to a member, addressed to them by name, or by the title of representatives of the deceased, or trustee of the bankrupt or by any similar description at the address, if any, in the United Kingdom supplied for that purpose by or on behalf of the person or persons claiming to be so entitled. Until such an address has been supplied, a notice or other document may be sent in any manner in which it might have been sent if the death or bankruptcy or other event giving rise to the transmission had not occurred.

Transferees etc. bound by prior notice

160. Every person who becomes entitled to a share shall be bound by any notice in respect of that share which, before his name is entered in the register, has been sent to a person from whom he derives his title, provided that no person who becomes entitled by transmission to a share shall be bound by any direction notice sent under Article 79.1 to a person from whom he derives his title.

Proof of sending/when notices etc. deemed given by post

161. Proof that an envelope containing a notice or other document was properly addressed, prepaid and posted shall be conclusive evidence that the notice was given. A notice or other document sent by post shall be deemed to be given to the member on the day following that on which the envelope containing it was posted. Proof that a notice or other document contained in an electronic communication was sent in accordance with guidance issued by the Institute of Chartered Secretaries and Administrators current at the date of adoption of these Articles, or, if the board so resolves, any subsequent guidance so issued, shall be conclusive evidence that the notice or document was given.

When notices etc. deemed given by electronic communication

162. A notice or other document sent by the Company to a member contained in an electronic communication shall be deemed given to the member on the day following that on which the electronic communication was sent to the member. Such a notice or other document shall be deemed given by the Company to the member on that day notwithstanding that the Company becomes aware that the member has failed to receive the relevant notice or other document for any reason

other document by post to the member.

N[illegible]during disruption of postal services

163. If at any time the Company is unable effectively to convene a general meeting by notices sent through the post in the United Kingdom as a result of the suspension or curtailment of postal services, notice of such general meeting may be sufficiently given by advertisement in the United Kingdom. Any notice given by advertisement for the purpose of this Article shall be advertised in at least one newspaper having a national circulation. If advertised in more than one newspaper, the advertisements shall appear on the same date. Such notice shall be deemed to have been served on all persons who are entitled to have notice of meetings sent to them at noon on the day when the advertisement appears. In any such case the Company shall send confirmatory copies of the notice by post if at least seven days before the meeting the posting of notices to addresses throughout the United Kingdom again becomes practicable.

DESTRUCTION OF DOCUMENTS

Power of Co[illegible]y to de[illegible] documents

164.1 The Company shall be entitled to destroy:

(a) all instruments of transfer of shares which have been registered, and all other documents on the basis of which any entry is made in the register, at any time after the expiration of six years from the date of registration;

(b) all dividend mandates, variations or cancellations of dividend mandates, and notifications of change of address at any time after the expiration of two years from the date of recording;

(c) all share certificates which have been cancelled at any time after the expiration of one year from the date of the cancellation;

(d) all paid dividend warrants and cheques at any time after the expiration of one year from the date of actual payment;

(e) all proxy appointments which have been used for the purpose of a poll at any time after the expiration of one year from the date of use; and

(f) all proxy appointments which have not been used for the purpose of a poll at any time after one month from the end of the meeting to which the proxy appointment relates and at which no poll was demanded.

Presumption in relation to destroyed documents

164.2 It shall conclusively be presumed in favour of the Company that:

(a) every entry in the register purporting to have been made on the basis of an instrument of transfer or other document destroyed in accordance with Article 164.1 was duly and properly made;

(b) every instrument of transfer destroyed in accordance with Article 164.1 was a valid and effective instrument duly and properly registered;

valid and effective certificate duly and properly cancelled; and

(d) every other document destroyed in accordance with Article 164.1 was a valid and effective document in accordance with its recorded particulars in the books or records of the Company,

but:

(e) the provisions of this Article apply only to the destruction of a document in good faith and without notice of any claim (regardless of the parties) to which the document might be relevant;

(f) nothing in this Article shall be construed as imposing on the Company any liability in respect of the destruction of any document earlier than the time specified in Article 164.1 or in any other circumstances which would not attach to the Company in the absence of this Article; and

(g) any reference in this Article 164 to the destruction of any document includes a reference to its disposal in any manner.

UNTRACED SHAREHOLDERS

Power to dispose of shares

165.1 The Company may sell any shares in the Company on behalf of the holder of, or person entitled by transmission to, the shares if:

(a) the shares have been in issue throughout the qualifying period and at least three cash dividends have become payable on the shares during the qualifying period; and

(b) no cash dividend payable on the shares has either been claimed by presentation to the paying bank of the relative cheque or warrant or been satisfied by the crediting of any account which the holder of such shares has with the Company, whether in the sole name of such holder or jointly with another person or persons at any time during the relevant period; and

(c) the Company has not at any time during the relevant period received:

(i) in the case of holders of shares transferred by the Society as a consequence of the transfer of the business of the Society to the Company, satisfactory registration details from the holder of, or person entitled by transmission to, the shares or, in the case of such shares transferred by the Society to a trustee in accordance with the terms of the transfer of the business of the Society to the Company, from the person entitled to such shares under the terms of the trust; or

(ii) in the case of holders of shares to whom sub-paragraph (i) above does not apply, so far as the Company at the end of the relevant

person entitled by transmission to, the shares; and

(d) the Company has caused advertisements giving notice of its intention to sell the shares to be published (i) (in the case of shares transferred by the Society as a consequence of the transfer of the business of the Society to the Company other than shares in respect of which satisfactory registration details have been received by the Company) in two daily newspapers with a national circulation, and (ii) (in any other case) one in a daily newspaper with a national circulation and another in a newspaper circulating in the area of the address shown in the register of the holder of, or person entitled by transmission to, the shares, and (in either such case) a period of three months has elapsed from the date of publication of the advertisements or of the last of the two advertisements to be published if they are published on different dates; and

(e) the Company has given notice to the London Stock Exchange of its intention to make the sale,

and any shares which are proposed to be sold under this Article may be selected by the Company at its discretion and any advertisements published by the Company need not refer to the individual names of the holders or individually identify the shares in question.

For the purposes of this Article:

the qualifying period means the period of twelve years immediately preceding the date of publication of the relevant advertisements referred to in sub-paragraph (d) above or of the first of the two advertisements to be published if they are published on different dates except that, in relation to shares transferred by the Society as a consequence of the transfer of the business of the Society to the Company (other than shares in respect of which satisfactory registration details have been received by the Company), such phrase shall have the foregoing meaning but with the substitution of the period of three years for that of twelve years; and

the relevant period means the period beginning at the commencement of the qualifying period and ending on the date when all the requirements of sub-paragraphs (a) to (e) above have been satisfied.

For the purpose of (i) sub-paragraph (c)(i) above, a statutory declaration that the declarant is a director of the Company or the secretary and that the Company had not, at any time during the relevant period, received satisfactory registration details in respect of the shares from the holder of, or person entitled by transmission to, the shares or, in the case of any such shares transferred by the Society to a trustee in accordance with the terms of the transfer of the business of the Society to the Company, from the person entitled to such shares under the terms of the trust, shall be conclusive evidence of the facts stated in that declaration as against all persons claiming to be entitled to the shares, and (ii) sub-paragraph (c)(ii) above, a statutory declaration that the declarant is a director of the Company or the secretary and that

during the relevant period received any communication from the holder of, or person entitled by transmission to, the shares shall be conclusive evidence of the facts stated in that declaration as against all persons claiming to be entitled to the shares.

If, after the publication of either or both of the advertisements referred to in sub-paragraph (d) above but before the Company has become entitled to sell the shares pursuant to this Article, the requirements of sub-paragraph (b) or (c) above cease to be satisfied, the Company may nevertheless sell those shares after the requirements of sub-paragraphs (a) to (e) above have been satisfied afresh in relation to them.

If during any relevant period further shares have been issued in right of those held at the beginning of that relevant period or of any previously so issued during that relevant period and all the requirements of sub-paragraphs (b) to (e) above have been satisfied in regard to the further shares, the Company may also sell the further shares.

165.2 The manner, timing and terms of any sale of shares pursuant to Article 165.1 (including but not limited to the price or prices at which the same is made) shall be such as the board determines (and may, without limitation, include a term that the price is payable in instalments), based upon advice from such bankers, brokers or other persons as the board considers appropriate which are consulted by it for the purposes, to be reasonably practicable having regard to all the circumstances including the number of shares to be disposed of and the requirement that the disposal be made without delay; and the board shall not be liable to any person for any of the consequences of reliance on such advice. Provided that a sale is made in accordance with this Article, the validity of the sale shall not, for any purpose, be affected by the fact that the method of sale may confer a benefit on the Company or any of its subsidiary undertakings.

Transfer on sale

165.3 To give effect to any sale of shares pursuant to Article 165.1 the board may:

(a) when the shares are held in certificated form, authorise any person to execute an instrument of transfer of the shares to, or in accordance with the directions of, the buyer; or

(b) when the shares are held in uncertificated form, exercise any of the Company's powers under Article 16.3 to effect the transfer of the shares to, or in accordance with the directions of, the buyer.

An instrument of transfer executed by that person in accordance with paragraph (a) above shall be as effective as if it had been executed by the holder of, or person entitled by transmission to, the shares. An exercise by the Company of its powers in accordance with paragraph (b) above shall be as effective as if exercised by the registered holder of, or person entitled by transmission to, the shares. The transferee shall not be bound to see to the application of the purchase moneys nor

proceedings relating to the sale.

Proceeds of sale

165.4 The net proceeds of sale shall belong to the Company and, upon their receipt, the Company shall become indebted (the debt being payable not earlier than the date or dates on which the proceeds of sale are received by the Company) to the former holder of, or person entitled by transmission to, the shares or, in the case of shares transferred by the Society to a trustee in accordance with the terms of the transfer of the business of the Society to the Company, to the person entitled to such shares under the terms of the trust for an amount equal to the net proceeds. No trust shall be created in respect of the debt and no interest shall be payable in respect of it and the Company shall not be required to account for any moneys earned from the net proceeds which may be employed in the business of the Company or as it thinks fit. For the purposes of calculating the ***net proceeds***, the Company shall be entitled (i) to deduct any costs or expenses incurred by it in connection with the sale and to charge for any services (including, without limitation, the provisions of any guarantee, indemnity, other assurance or support) provided by the Company or any of its subsidiary undertakings in connection with the sale; (ii) to make provision for any taxation which may arise in relation to the sale; and (iii) to deduct any other amounts to which the trustee referred to above may be entitled or for which it may be required to account under the terms of the trust.

WINDING UP

Liquidator may distribute in specie

166.1 If the Company is wound up, the liquidator may, with the sanction of an extraordinary resolution of the Company and any other sanction required by the Insolvency Act 1986:

(a) divide among the members in specie the whole or any part of the assets of the Company and may, for that purpose, value any assets and determine how the division shall be carried out as between the members or different classes of members;

(b) vest the whole or any part of the assets in trustees for the benefit of the members; and

(c) determine the scope and terms of those trusts,

but no member shall be compelled to accept any asset on which there is a liability.

Disposal of assets by liquidator

166.2 The power of sale of a liquidator shall include a power to sell wholly or partially for shares or debentures or other obligations of another body corporate, either then already constituted or about to be constituted for the purpose of carrying out the sale.

Indemnity to directors and officers

167. Subject to the provisions of the Companies Acts but without prejudice to any indemnity to which a director may otherwise be entitled, every director or other officer of the Company shall be indemnified out of the assets of the Company against any liability incurred by him in:

(a) defending any proceedings, whether civil or criminal, in which judgment is given in his favour (or the proceedings are otherwise disposed of without any finding or admission of any material breach of duty on his part) or in which he is acquitted; or

(b) in connection with any application in which relief is granted to him by the court from liability for negligence, default, breach of duty or breach of trust in relation to the affairs of the Company.

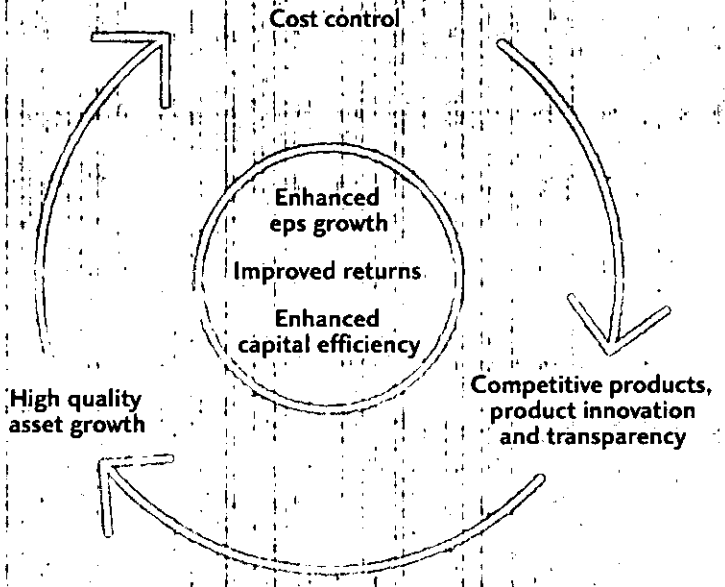
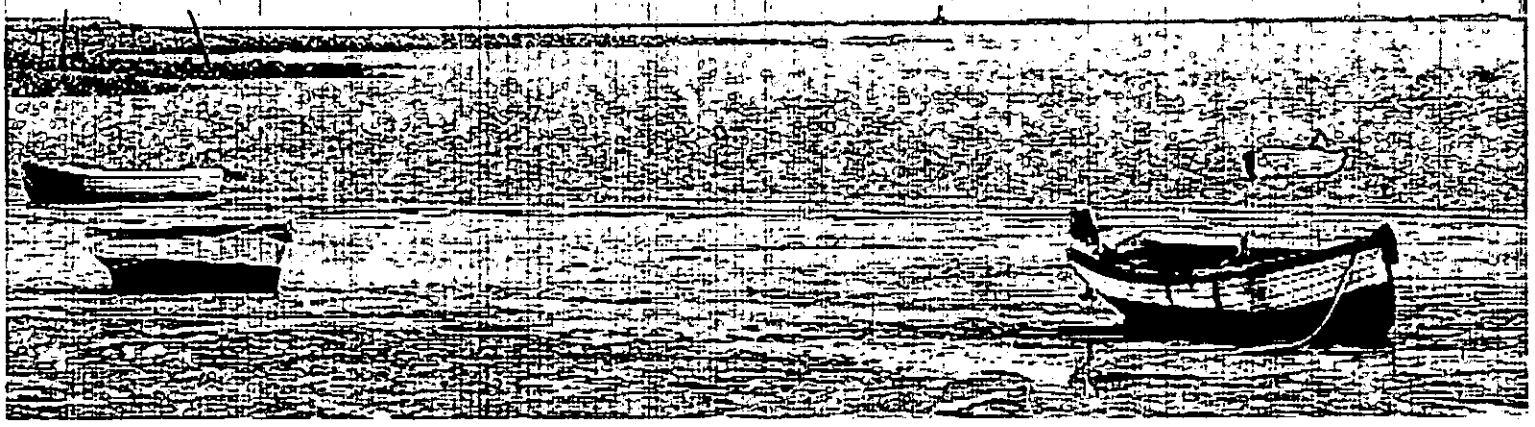
MISSION STATEMENT

Northern Rock is a specialised lending and savings bank which aims to deliver superior value to customers and shareholders through excellent products, efficiency and growth.

COMPANY STRATEGY



Northern Rock is a specialised lender providing funds for residential mortgages, secured commercial lending and personal finance. We obtain funds from both on-shore and off-shore personal savings, wholesale money markets and from the securitisation of mortgage assets.

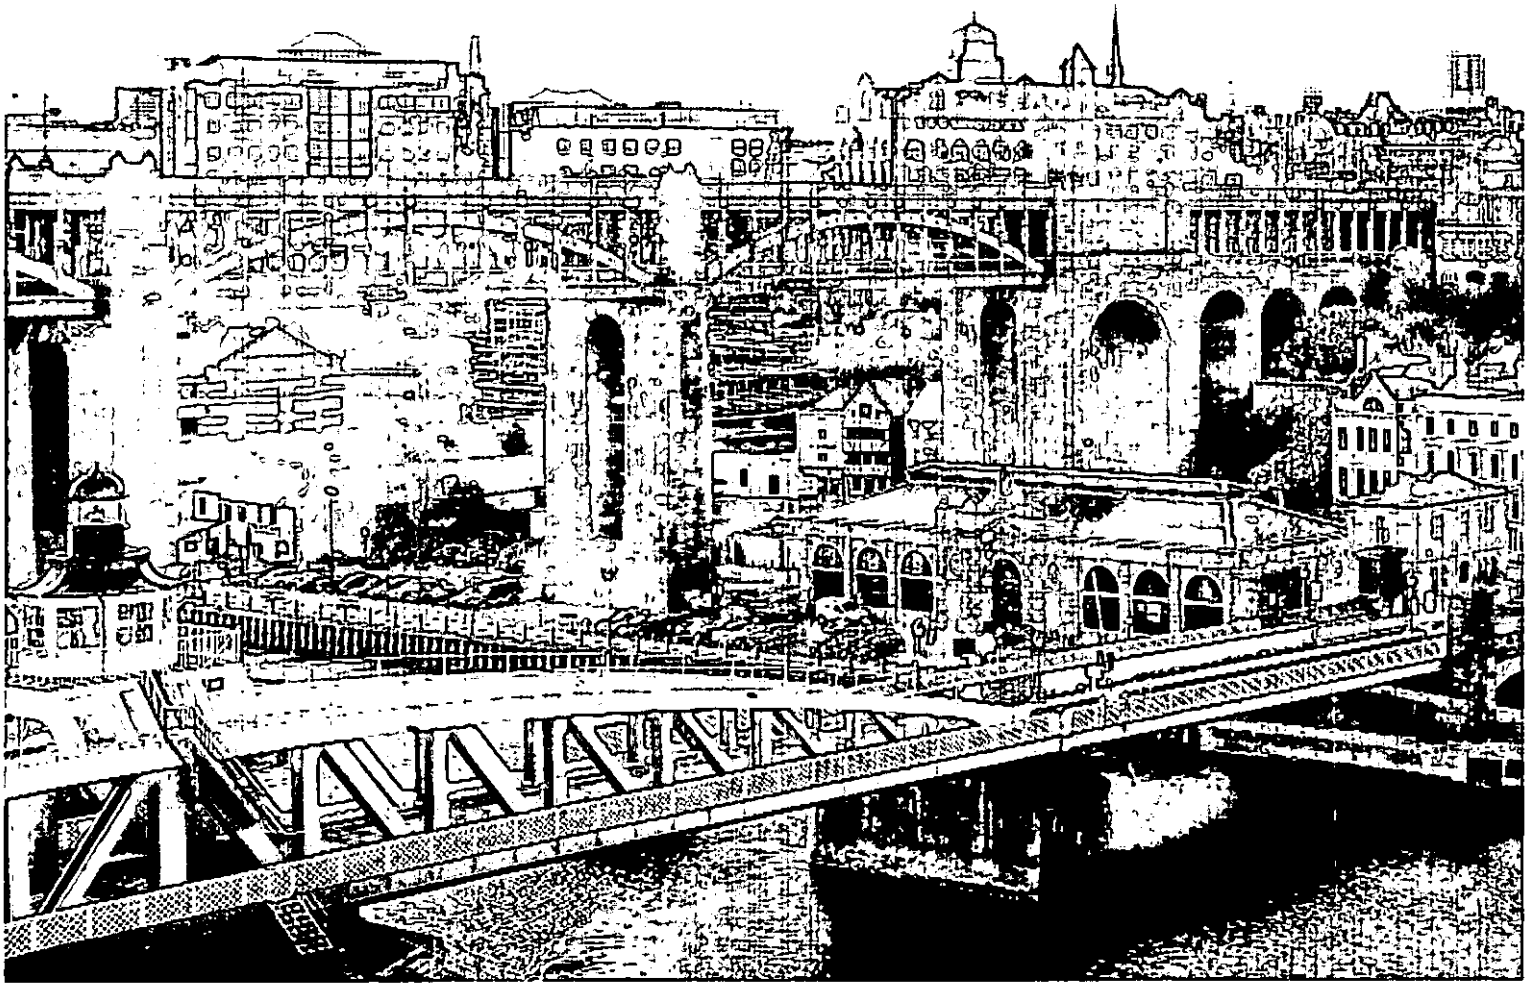


The Northern Rock strategy encompasses efficiency, growth and value for both customers and shareholders.

Efficiency is paramount to the Northern Rock business strategy. Cost efficiency is enhanced by low cost, effective distribution and enables competitive pricing. Capital efficiency is achieved by optimising the use of debt and equity capital.

By growing lending and improving the mix of higher margin products, Northern Rock aims to grow earnings and improve returns to shareholders, at the same time as providing innovative and consumer friendly products to our customers.

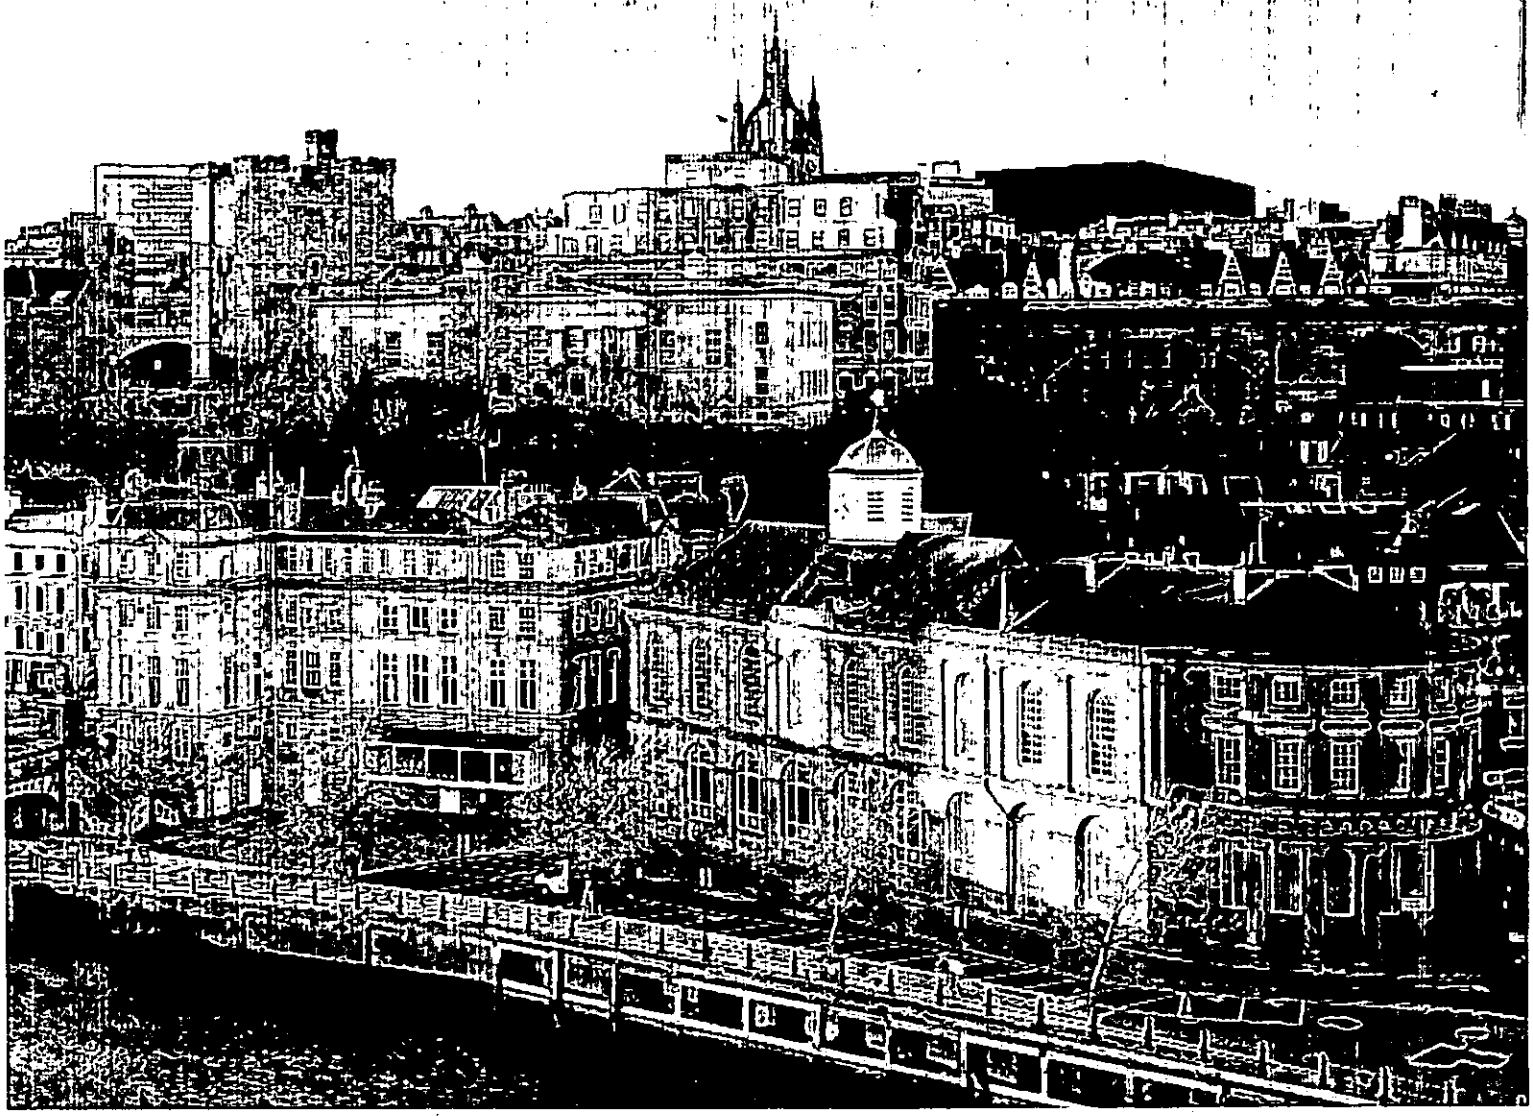
THE VIRTUOUS CIRCLE



Dr M W Ridley

CHAIRMAN'S STATEMENT

I took on the chair of Northern Rock in April 2004 from Sir John Riddell, whose four years as Chairman saw not only significant growth in assets under management, but also a near doubling of the share price. That record speaks for itself, and I pay tribute to the skill and good humour with which he ran the Board of Northern Rock. He will be a hard act to follow.



Northern Rock once again hit its strategic targets in 2004 despite intense competition, expensive regulation and a sharply slowing market. We grew both assets and profits to record levels. We achieved this by sticking to the markets we know best, maintaining our position as the most cost-effective mortgage lender in the UK and continually adjusting our products to attract profitable business.

This performance has not come at the expense of service to customers, where Northern Rock remains committed to continually improving efficiency, transparency and fairness. Our customers benefit from our "Open Book" policy of making our new mortgage products available to existing borrowers as well as new customers.

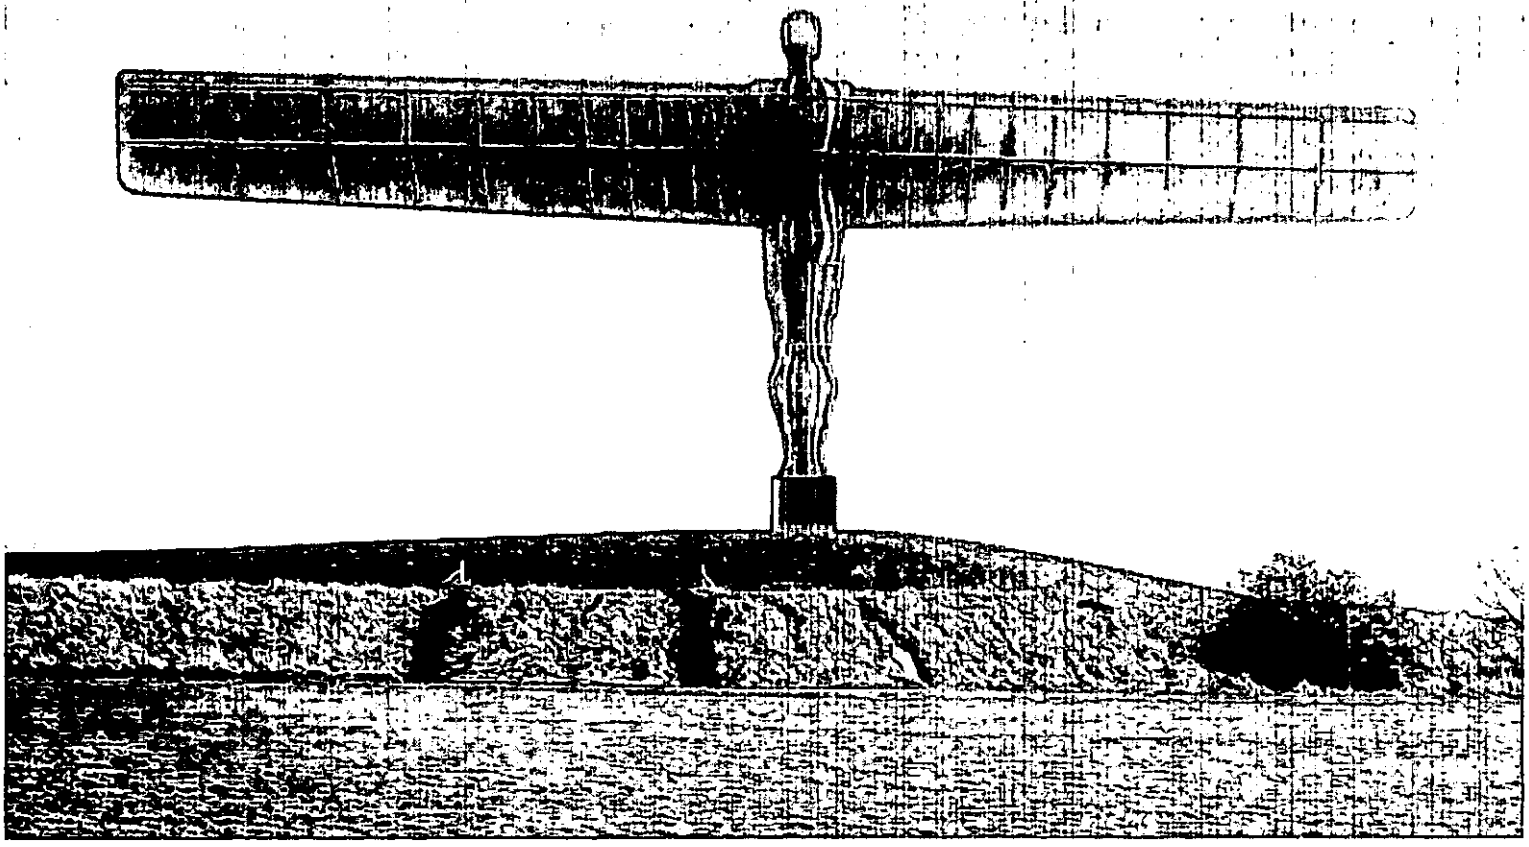
Statutory mortgage regulation became effective on 31 October 2004. Extra regulation has plainly added to costs and erected barriers to entry. This may in the long run hamper competition, which has been the most powerful force in getting customers value for money in the mortgage market. None the less, we were compliant with the new regime from the first day.

Northern Rock is a global company in terms of where it raises funds, a national company in terms of where it lends and a regional company in terms of where it employs people: most of our employees are in the North-East of England. During 2004 we created over 1,000 new jobs based in the North-East. The latest stage of our Head Office expansion, which neared completion in 2004, will add capacity for a further 1,000 jobs. We also have plans to redevelop part of our Head Office accommodation to provide facilities for another 1,400 staff.

CHAIRMAN'S STATEMENT (continued)

ECONOMIC AND MARKET BACKGROUND

The British economy remains in reasonable shape in 2005. With the Bank of England Base Rate still low by historical standards, continued low unemployment, well controlled inflation and stable economic growth, the UK continues to offer an attractive environment for home ownership, especially given the limited supply of rented accommodation.



House price inflation has eased, and we expect it to be in line with earnings growth for the next few years. Barring surprises, we see little prospect of a crash, given that mortgages are still comparatively affordable and that credit quality remains good.

We fund our lending from retail deposits, wholesale funding, securitisation and covered bonds. All four funding arms are important to us, and give us access to large international markets where we work to ensure that the supply of affordable funding does not constrain the growth of profitable lending.

SOCIAL RESPONSIBILITY

Northern Rock's primary social responsibility is to prosper. By offering competitive rates to both savers and borrowers, we benefit them. In growing, we benefit our employees by providing new jobs and better working conditions. By meeting our targets, we benefit our shareholders and other key stakeholders.

Likewise, in order to do well it pays us to be a socially responsible business. By that I mean that Northern Rock will prosper if we recruit from all sections of the community, if we find flexible employment practices that suit those who want to work appropriate hours to balance life and work, if we provide good facilities for staff and if we minimise harmful impacts on the environment from our activities. There is, in other words, no conflict between creating shareholder value and being socially responsible. To ensure that we set the highest possible standards of personal and corporate ethics, provide good customer service and give employees a good working environment, we encourage assessments by Ethical Investments

Research Services, support the Work-Life Balance Initiative and maintain a high position in the Business in The Environment Index. But we do not mistake such commitments for action.

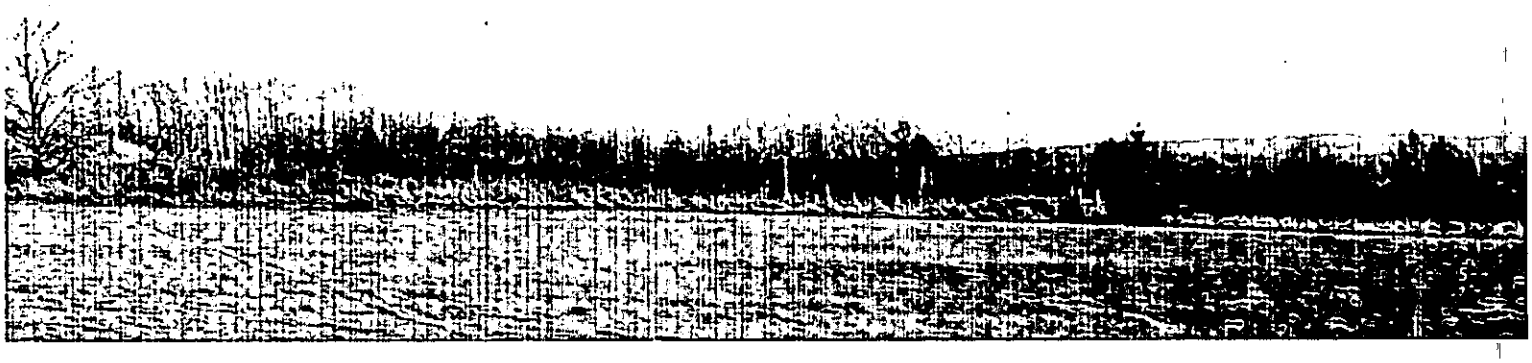
On top of the good we can do by doing well, we also remember those not benefiting directly from our prosperity. Northern Rock is consistently one of the top UK companies for corporate giving, because of its donation of 5% of pre-tax profits to The Northern Rock Foundation. In 2004 this amounted to £21.6m. The Foundation supports local charities and community causes mainly in the North-East of England, a region that is comparatively under-served by charities. I am particularly pleased that our staff continue to take part in voluntary initiatives, fund-raising, mentoring and secondment programmes.

CORPORATE GOVERNANCE

This year has seen substantial changes to the Combined Code on Corporate Governance, with which the Board is obliged to comply or explain. We are in a position to comply with the code in full. The Board's procedures and practices ensure that it identifies and controls risks to the business in a transparent and accountable way. The results of our Board evaluation and appraisal process are summarised in the Corporate Governance statement.

I am pleased that since the year-end, we have strengthened the Board with four new appointments. Two senior executives, Keith Currie, our treasurer, and Andy Kuipers, our sales and marketing director, both joined the Board from 5 January 2005. Michael Queen, an executive director of 3i Group plc, joined the board as a Non-Executive Director on the same date. Furthermore, Rosemary Radcliffe, former complaints commissioner of the FSA and former chief economist of PricewaterhouseCoopers, will also join the Board as a Non-Executive Director, with effect from 1 March 2005.

DIVIDEND



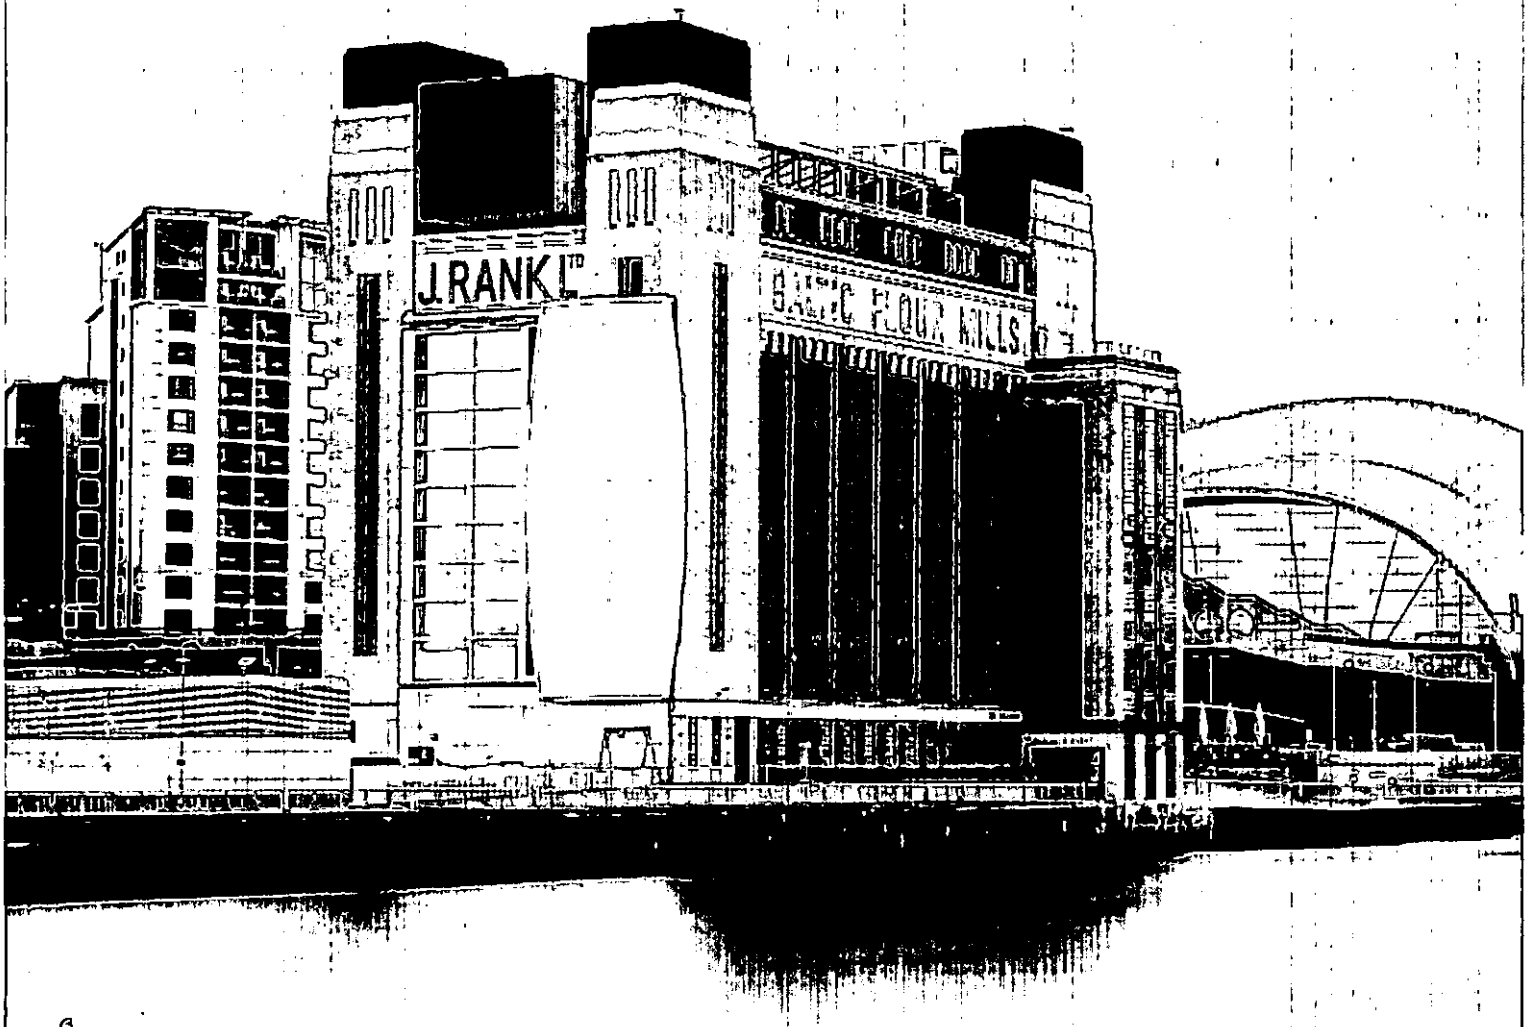
Your board is recommending a final dividend of 18 pence per share making a total for the year 26.5 pence – an increase of 13.7 % on 2003.

CONCLUSION

In highly competitive markets we have once again risen to the challenge and hit strategic targets in 2004. Our business model remains robust: we keep costs low, invest in product and process innovation, give our customers transparency and so add low-risk assets to our balance sheet to provide attractive returns to our shareholders. We fund this growth through retail, wholesale and securitised channels.

We have always told shareholders that we can perform well in a weak housing market as well as a strong one. Our results differentiate us from our competitors and if, as expected, the housing market slows further in the coming year it will remain sufficiently large to enable us to achieve our targets without compromising on credit quality.

I am grateful to my Board colleagues, to management and all Northern Rock staff for their ingenuity, hard work and success in 2004.



CHIEF EXECUTIVE'S REPORT

Adam J Applegarth

In 2004 Northern Rock delivered excellent results including:

- RECORD PRE TAX PROFITS OF £431.2 MILLION - A LIKE-FOR-LIKE INCREASE OF 13.0%
- ASSETS UNDER MANAGEMENT OF £64.9 BILLION - AN INCREASE OF 24.9%
- RECORD NET LENDING OF £12.9 BILLION - AN INCREASE OF 51.9% AND A MARKET SHARE OF 11.2%
- RATIO OF COSTS TO ASSETS UNDER MANAGEMENT IMPROVED TO 0.38% (2003 UNDERLYING - 0.41%)
- RETURN ON EQUITY OF 21.3%
- TOTAL DIVIDEND PER SHARE 26.5P - AN INCREASE OF 13.7%
- THE NORTHERN ROCK FOUNDATION - SUPPORTING CHARITABLE CAUSES - TO RECEIVE £21.6 MILLION

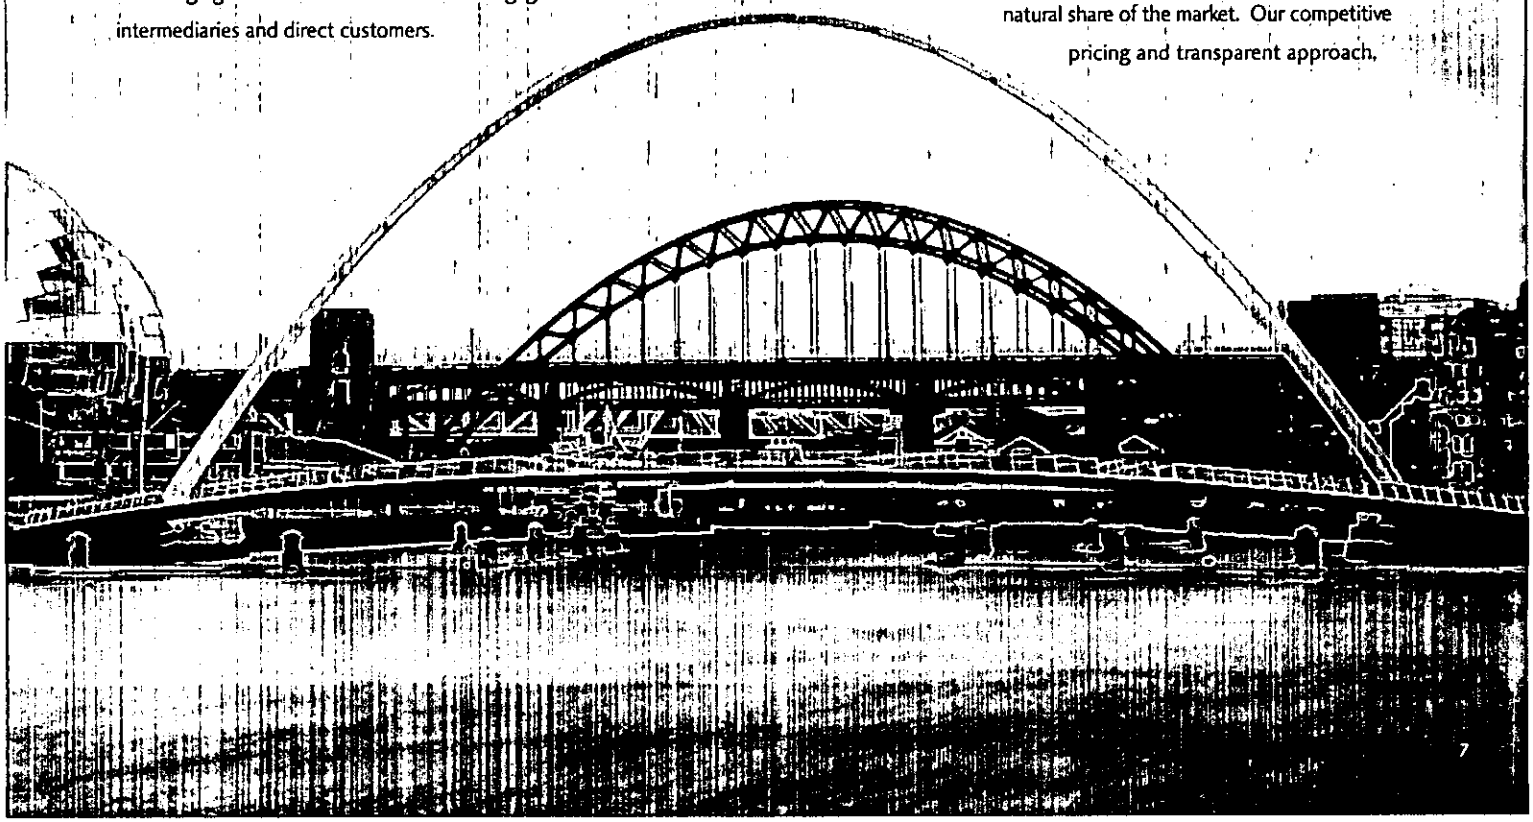
2004 has been a very challenging year and so I am delighted to announce results that show record growth, record profits and further improvement in earnings per share.

High quality asset growth and cost efficiency form the essence of our strategy. Through a combination of being a small stock player, having a unit cost advantage and retaining customers, whilst attracting new borrowers and savers, we are able to grow our assets under management strongly, leveraging our equity capital to enhance shareholder returns. Cost efficiency is key to our strategy, as this allows profitable growth of the business and the manufacture of competitive products for our customers.

Our core products of mortgages, savings and personal loans all performed well in 2004. They were complemented by general insurance and protection products offered in conjunction with our partners, providing our customers with both choice and peace of mind.

During 2004 we invested significantly in our infrastructure, both in terms of technology and commencement of the latest phase of planned building expansion at our Head Office site. The demands of regulation show no signs of abating and our cost base also absorbed an extra £3.6 million from increased regulatory requirements. However, growth in operating expenses was well contained.

We continue to pursue a multi-channel distribution strategy and have opened several specialist mortgage branches in key areas around the country. These additions further strengthen our franchise and provide a logical extension to complement our existing network. In addition to this important investment, we continue to invest in other channels, encouraging e-business links with both mortgage intermediaries and direct customers.



LENDING

During 2004 we once again delivered record levels of low risk lending. Gross lending was £23,342 million, an increase of 34.8% over the previous year, with net lending of £12,932 million, an increase of 51.9%. We achieved gross residential lending of £20,051 million, an increase of 31.8% over 2003 and net residential lending of £11,383 million, an increase of 44.8%, which represented 11.2% of the UK market.

Our mix of new residential lending during the first half of 2004 reflected the shift in customer preferences towards discounted products. In the second half, as interest rates moved closer to their cyclical peak and the price of fixed rate products reduced, short term fixed rate lending was more prevalent. Our lifestyle range of products, including our credit bundling product, "together", residential Buy to Let and Lifetime Home Equity Release Mortgages (HERM), which allow older borrowers to withdraw equity from their home to aid retirement income, continued to be popular. We remain at the forefront of providing a competitive choice of products for homeowners and homebuyers, whether they are new or existing customers.

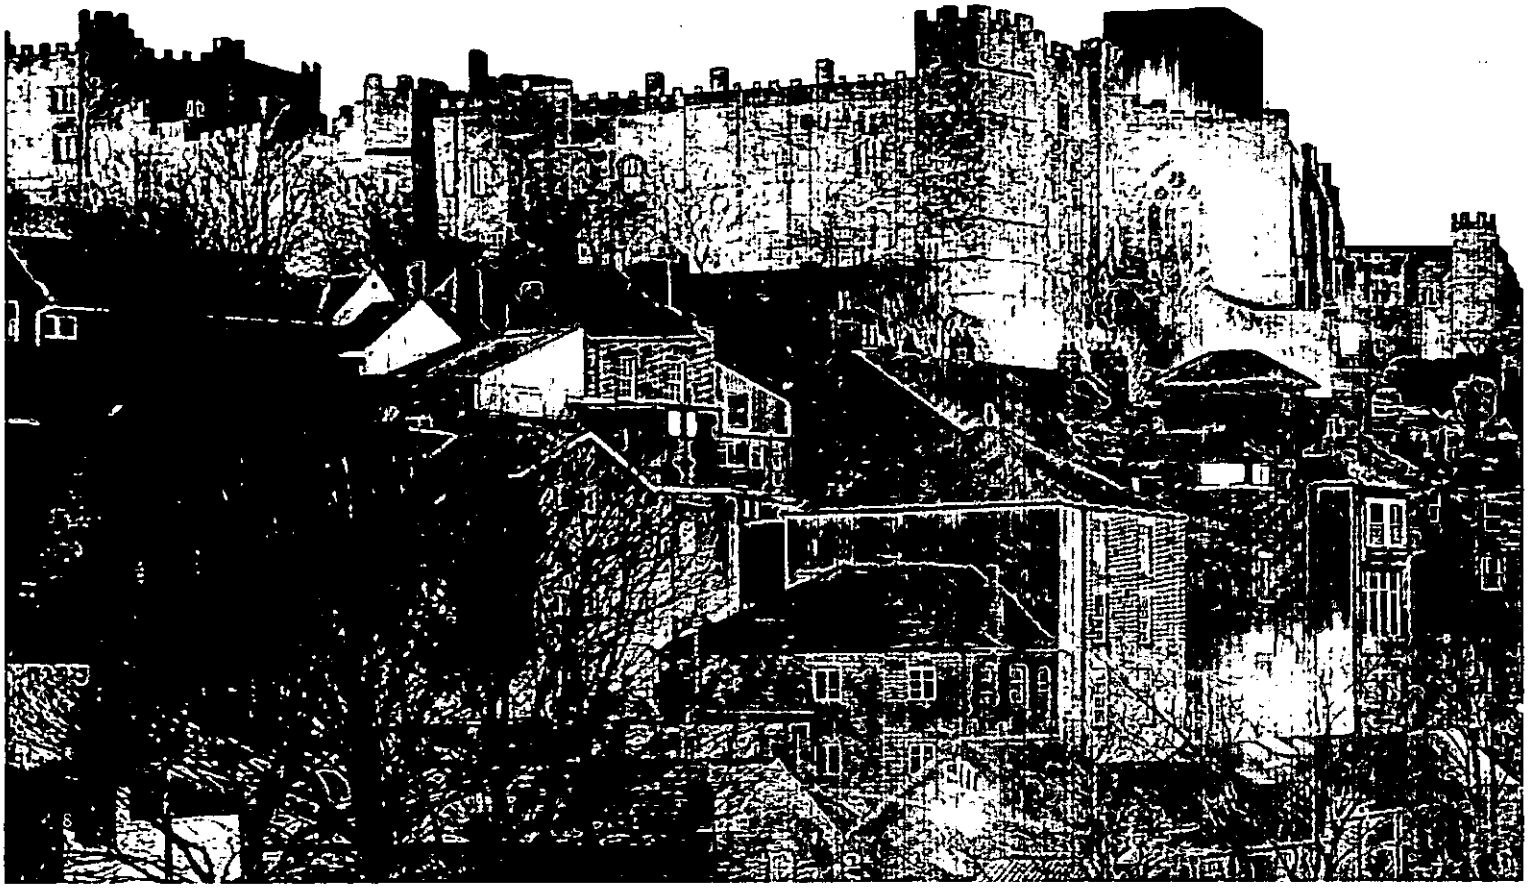
With the Bank Base Rate remaining low by historical standards, continued low unemployment, inflation well controlled and stable UK economic growth rates, fundamentals will remain supportive to home ownership. The remortgage market, which accounted for around 40% of UK gross lending in 2004, will also remain strong, particularly as interest rates appear close to their cyclical peak and the incidence of overhanging redemption charges has diminished.

Due to our relative size and focus on the retention of existing customers our net lending figures are higher than our natural share of the market. Our competitive pricing and transparent approach,

combined with our Mortgage Review Service support our retention performance and limit the impact of redemptions from our portfolios. Consequently our net lending is very strong with volume growth of gross lending being leveraged further by low redemptions.

As borrowers seek to refinance to obtain better deals, Northern Rock, with its unit cost advantage and transparent policy, remains well placed to deliver its growth objectives. As a result Northern Rock should not be considered as a proxy for either the housing market or the industry's net lending figures. We are a major player in the wider mortgage market, which importantly includes remortgaging and remains a key part of our growth plans.

We have grown our commercial lending and personal unsecured lending portfolios steadily, maintaining our emphasis on quality. We maintain an appropriate balance in these books relative to our overall assets under management.



FUNDING

Funding remained strong during 2004. All three traditional funding arms – retail funding, wholesale funding and securitisation – continued to perform well. We added a fourth stream by completing an inaugural covered bond issue in April 2004. Our funding platform is flexible, diverse and robust.

Our retail funding franchise remains an important part of our funding strategy. Retail funding inflows were restrained during the first half of the year following successful non-retail activities. During the second half, however, we funded strongly attracting over £1 billion of new funds, representing our strongest ever half-year performance. The overall increase in retail balances during 2004 was £896 million resulting in total retail balances under management of £17.2 billion at the year-end.

We have a broad distribution platform of branch, postal, telephone and on-line accounts, as well as off-shore and Ireland operations, which we will continue to develop. In particular we have seen strong inflows in our Silver Savings account, for over 50's, which attracted balances of over £1.25 billion, following its launch in September 2004. We also funded strongly in fixed rate bonds where contractual guarantees provided customers with added confidence.

Our Treasury operation continues to raise wholesale funds, manage interest rate and currency risks, and manage a portfolio of investments primarily for liquidity purposes. It is not a separate profit centre and does not operate trading portfolios. We have continued to develop our non-retail funding in international markets with further funding diversification in Continental Europe, North America and Asia. By diversifying our funding geographically and by mixing the term of funding appropriately over short, medium and long term horizons we are able to underpin our growth aspirations, whilst reducing the risk to our platform. During the year net new wholesale funding totalled £2.77 billion, increasing balances to £19.7 billion.

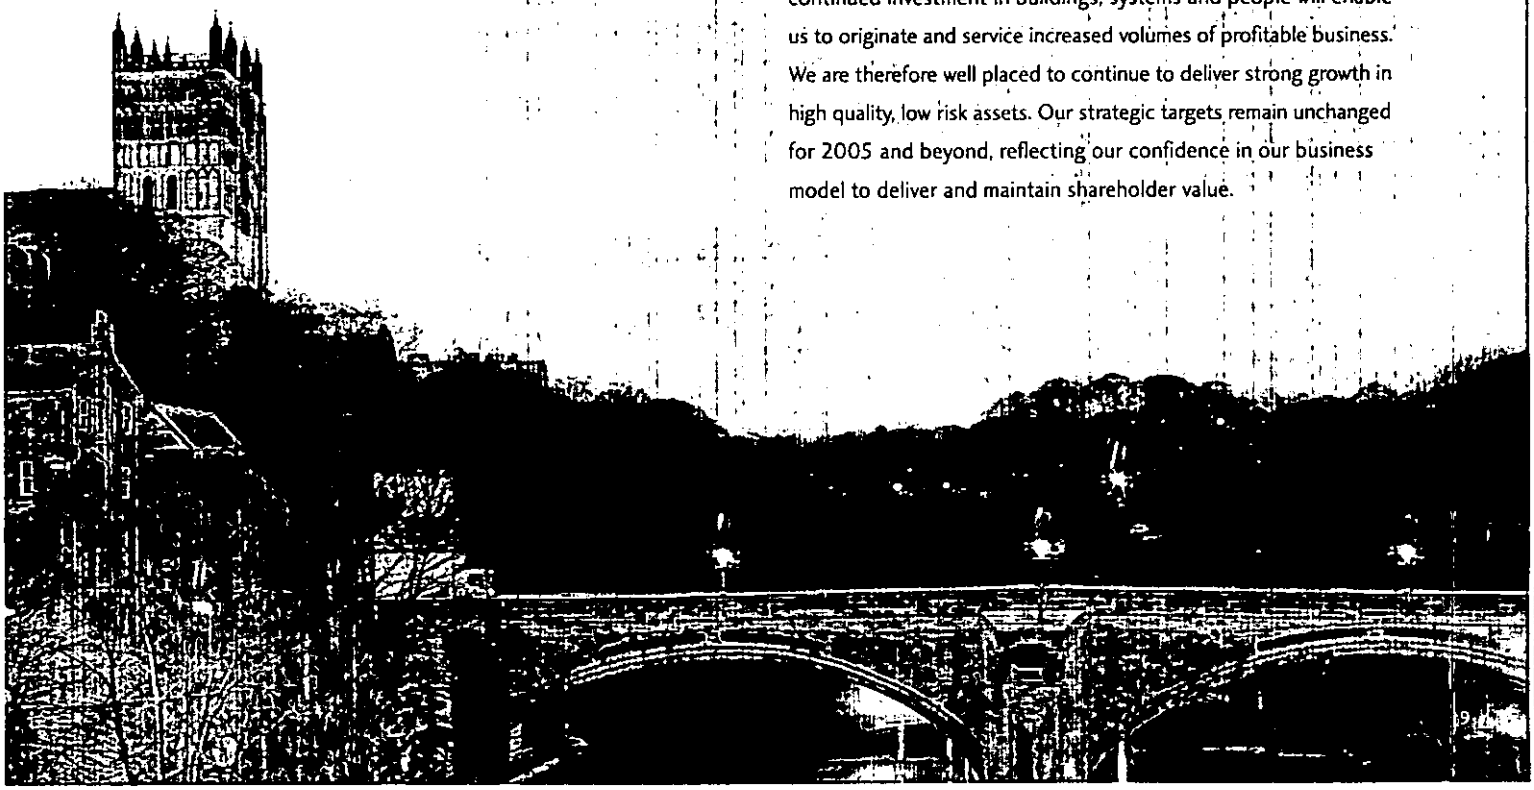
Our residential securitisation programme is firmly established as a reliable source of funding, a reflection of the high credit quality of Northern Rock's loan book and the huge investor appetite for this type of financial instrument. During 2004, we issued £11.1 billion of securitised notes. Assets under management subject to securitisation now amount to £22.3 billion, representing 40% of our lending portfolios. Securitisation, with increasing diversification, will continue to play an important role in funding our future growth plans as well as contributing to capital efficiency.

Already in 2005 we have raised a further US$1.75 billion under our US Medium Term Note programme and £4.5 billion from our fourteenth residential securitisation transaction further strengthening the split between short term and medium term funding.

CREDIT QUALITY

The credit quality of our assets remains very strong. We do not attract volume growth at the expense of quality. The credit quality of our lending is excellent and continues to be tightly monitored and controlled. We operate rigorous underwriting processes that include credit checking and affordability tests. Our monthly behavioural scoring system confirmed during 2004 that there were no early warning signs of significant credit deterioration. Even though mortgage balances have grown significantly, we have not increased our appetite for risk.

The arrears performance of our residential lending book improved further during 2004 with only 0.37% of accounts three months or more in arrears compared with 0.45% the year before. Once again, despite significant growth in mortgages under management we have been able to reduce the percentage of loans in arrears. Overall our residential arrears remain below half the industry average.



Commercial loan arrears and standalone personal unsecured loan arrears are also significantly better than industry average, reflecting our policy of attracting high quality lending. Our provisioning policies remain prudent and we have no loan exposure outside the UK, nor exposure to unsecured commercial lending or leasing.

OUTLOOK

Our strategy of combining competitive products, effective distribution and efficient customer service, driven off a low unit cost base works well. We will continue to develop our business so that it is highly focussed, resilient and scalable to meet our growth aspirations. By continuing to deliver our strategic targets and maintaining our responsible approach to lending we will continue to enhance value for our customers and our shareholders in the future.

We expect the housing market to slow but activity will be underpinned by relatively low interest rates, continuing low levels of unemployment and a restricted supply of new housing stock. The attractive pricing for new customers and the further erosion of overhanging redemption charges should ensure that levels of remortgaging will more than offset the level of slowdown in the housing market. Our small market share allows us significant room for growth regardless of overall market performance. This should enable us to achieve our strategic growth range of 20% +/– 5% in high quality, low risk, assets under management.

We are relatively small, have a unit cost advantage, retain existing customers well and are increasingly good at attracting new loans. Our broad funding platform, efficient distribution network and continued investment in buildings, systems and people will enable us to originate and service increased volumes of profitable business. We are therefore well placed to continue to deliver strong growth in high quality, low risk assets. Our strategic targets remain unchanged for 2005 and beyond, reflecting our confidence in our business model to deliver and maintain shareholder value.

THE BOARD

During 2004, the number of meetings attended by each Director was as follows:

	Board	Audit	Nominations	Remuneration	Chairman's	Risk
Number of meetings held in 2004	11	6	3	2	1	4

EXECUTIVE DIRECTORS

THE BOARD

Dr M W Ridley, BA, D.Phil

Matt Ridley (aged 47), was appointed Chairman of the Company on 27 April 2004. He was appointed as a Non-Executive Director of Northern Rock plc in November 1996 having previously joined the Board of Northern Rock Building Society on 1 June 1994.
Dr Ridley is an author and businessman who also holds other Non-Executive Directorships which include Northern Investors Company PLC, Northern 2 VCT plc and P A Holdings Limited. He is Chairman of both the Nominations and Chairman's Committees.

A J Applegarth, BA

Adam Applegarth (aged 42) has worked for Northern Rock for 21 years. He became an Executive Director of Northern Rock Building Society in January 1996, was appointed as an Executive Director of Northern Rock plc in October 1996 and subsequently became the Company's Chief Executive in March 2001. Mr Applegarth is a governor of the Royal Grammar School, Newcastle upon Tyne. Mr Applegarth is a Member of both the Chairman's and Risk Committees.

D F Baker, BSc, FCIB

David Baker (aged 51) was appointed as the Company's Chief Operating Officer in January 2001. He became an Executive Director of Northern Rock Building Society in January 1996 and was appointed as an Executive Director of Northern Rock plc in October 1996. He is a Fellow of the Chartered Institute of Bankers. In his present role he is responsible for the direction and management of the Company's operations and in particular, Retail Savings, Credit, Customer Services, Personnel, Premises and Legal and Compliance. Mr Baker is Chairman of The Newcastle Employment Bond Limited and a Trustee of the University of Newcastle upon Tyne Development Trust. Mr Baker is a Member of both the Chairman's and Risk Committees.

R F Bennett, FCA, ACMA, IPFA

The Group Finance Director, Bob Bennett (aged 57), is a Chartered Accountant. He became an Executive Director of Northern Rock Building Society in November 1993 and was appointed as an Executive Director of Northern Rock plc in November 1996. In his present role, he is responsible for Finance, Treasury, Securitisation, Internal Audit, Risk Management and Institutional Relations. Mr Bennett is also a Trustee of the Northern Rock Pension Scheme and a Non-Executive Director of Greggs plc. Mr Bennett is a Member of both the Chairman's and Risk Committees.

K M Currie

Keith Currie, (aged 48) was appointed to the Board as an Executive Director in January 2005. Mr Currie is responsible for the management of the Company's Group Treasury function including liquidity, wholesale funding, derivative portfolios and the management of the Company's securitisation funding and covered bond programmes. Mr Currie is a Member of the Chairman's Committee.

N A H Fenwick, MA

Adam Fenwick (aged 44), was appointed to the Board as a Non-Executive Director in November 2003. He is an Executive Director of Fenwick Limited and a Non-Executive Director of John Swire and Sons Limited. He is also a Trustee of Newcastle Theatre Royal Trust Limited. Mr Fenwick is a Member of both the Audit and Remuneration Committees.

Sir Ian Gibson, CBE

Sir Ian Gibson (aged 58), was appointed to the Board as a Non-Executive Director in September 2002. He is Chairman of BPB plc and a Non-Executive Director of GKN plc and Chelys Limited. He was also a member of the Court of the Bank of England from 1999 to 2004. Sir Ian is a Member of the Audit, Nominations, Risk, and Remuneration Committees.

A M Kuipers

Andy Kuipers (aged 47), was appointed to the Board as an Executive Director in January 2005. He is responsible for the co-ordination and direction of the Group's sales, marketing, products and new mortgage loans processing activities. Mr Kuipers is a Member of the Chairman's Committee.

N Pease, BA

Nichola Pease (aged 43), is Chief Executive of J O Hambro Capital Management Limited and a Non-Executive Director of Grainger Trust PLC. She was appointed as a Non-Executive Director of Northern Rock plc in February 1999. Ms Pease is Chairman of the Remuneration Committee and is a Member of the Audit Committee.

M J Queen, BA, FCA

Michael Queen (aged 43) is the Finance Director of 3i Group PLC. He was appointed to the Board as a Non-Executive Director in January 2005. Mr Queen is a Member of both the Audit and Remuneration Committees.

Sir George Russell, CBE, D.Eng., BA

The Senior Independent Director, Sir George Russell (aged 69), was appointed a Non-Executive Director of Northern Rock plc in November 1996 having previously joined the Board of Northern Rock Building Society as a Non-Executive Director in 1985. He is also Deputy Chairman of ITV plc. Sir George is a Member of both the Remuneration and Risk Committees.

Sir Derek Wanless, MA, FCIB, MIS

Sir Derek Wanless (aged 57), joined the Board as a Non-Executive Director in March 2000. He was previously Group Chief Executive of National Westminster Bank plc from 1992-1999. He is also a Non-Executive Director of Northumbrian Water Group plc. Sir Derek is Vice Chairman of the Statistics Commission and a Trustee of the National Endowment for Science, Technology and the Arts. Sir Derek is Chairman of both the Audit and Risk Committees and a Member of the Nominations and Remuneration Committees.

Note: On 27 April 2004 Sir John Riddell and Sir David Chapman retired from the Board of Directors.

CORPORATE GOVERNANCE

Northern Rock plc (the Company) regards adherence to the principles of good corporate governance to be of the utmost importance. The Board is accountable to the Company's shareholders for corporate governance, and the following describes how the Company applies the principles and provisions contained in the Combined Code of Corporate Governance published in July 2003 (the Combined Code). The Listing Rules of the United Kingdom Listing Authority require listed companies to disclose how they comply with the Combined Code and, where they do not do so, to provide a clear explanation of why they do not comply. For the period 1 January 2004 to 31 December 2004, the Company complied with all aspects of the Combined Code.

THE BOARD OF DIRECTORS

The Board of Directors meets regularly throughout the year, retains full and effective control over the Company and its subsidiaries (the Group), is collectively responsible for the success of the Group and determines its strategy and policies whilst monitoring performance. The Board met eleven times during 2004 and, after the retirement of Sir John Riddell and Sir David Chapman on 27 April 2004, comprised the Chairman, the Senior Independent Director, four other Non-Executive Directors, the Chief Executive and two other Executive Directors.

The Board has a formal written schedule of matters reserved for its review and approval and has adopted a detailed procedures manual which covers the responsibilities and procedures of the Board, its Committees and its officers. This includes setting policies for Balance Sheet structural risk management, the raising of Non Retail Funds, Liquidity and Credit Risk, the setting of capital expenditure budgets, the declaration of dividends and the approval of the Annual Report and Accounts.

Authority for the execution of approved policies has been delegated by the Board to the Company's Executive Committee and the Chief Executive. The Executive Committee comprises the Chief Executive, the other Executive Directors and the Company Secretary.

Within the parameters set out in the Committee's terms of reference, the Executive Committee has responsibility for facilitating the Company's effective operation to ensure that it meets its objectives through the implementation of the Strategic and Operational Plans. The Committee also monitors developments in the Company's core markets, and examines, appraises and reviews defence initiatives, potential acquisitions and corporate finance initiatives. It also establishes processes to control, appraise and review the implementation of any new procedures that are agreed upon.

The Management Board Asset and Liability Committee is responsible for overseeing the management and review of the Company's balance sheet risk profile and processes together with the Company's balance sheet, profit and loss and liquidity profiles. In addition, the Committee has authority to authorise use by the Company of structured financial products and private equity investments in accordance with the polices and procedures set down in the Corporate Finance and Structured Financial Policy statement approved by the Board.

A clear division of responsibility exists between the Chairman, who is responsible for running the Board, and the Chief Executive who has responsibility for running the business. This division is clearly set out in the Chairman's letter of appointment and the Chief Executive's job description.

APPOINTMENTS TO THE BOARD

The Company's Articles of Association require that each Director stands for re-election at least every three years and that Directors appointed by the Board should be subject to election by shareholders at the first opportunity after their appointment. The Directors to retire by rotation will be those in office longest since their previous re-election. Non-Executive Directors are appointed for a specified term subject to re-election.

The Company's policy is that Non-Executive Directors will stand down from office at the conclusion of the next Annual General Meeting following their seventieth birthday.

DIRECTORS

More than half of the Board comprises Non-Executive Directors all of whom have experience in a wide range of commercial and banking activities. The Board considers all of the Non-Executive Directors to be independent for the purposes of the definition in the Combined Code. This requires the Board to determine whether each Director is independent in character and judgement and whether there are relationships or circumstances which are likely to affect, or could appear to affect, the Director's judgement.

Sir George Russell, who was appointed Senior Independent Director of the Company on 27 April 2004, was first elected to the Board as a Non-Executive Director in September 1997 immediately prior to demutualisation, having served as a Director of Northern Rock Building Society between 1985 and 1997. The Board has no hesitation in confirming Sir George's independence for Combined Code purposes, and is satisfied that his period of service as a Director of Northern Rock Building Society should not be aggregated with his period of service as a Director of the Company in view of the different legal structure and business objectives of the two entities. The Board is also satisfied that Sir George's deferred membership of a Northern Rock Building Society pension scheme does not affect his independence. Sir George ceased to accrue pension benefits after 30 June 1997 and will become eligible to receive a pension on 25 October 2005 or on his earlier retirement from the Company. In accordance with the Company's policy Sir George Russell will retire from office at the conclusion of the 2006 AGM.

As a highly experienced company director, Sir George's sound judgement and challenging approach ensure that he makes a significant contribution to the work of the Board and its Committees. He and the other Non-Executive Directors also provide close scrutiny of the performance of management and the reporting of its performance.

It is the Company's policy that every Director should receive appropriate training on the first occasion that he or she is

appointed to the Board, and subsequently as necessary. A detailed induction process exists for new Directors and, to ensure that Directors are able to discharge their responsibilities effectively, this is supported by an ongoing training programme. As part of the annual appraisal process, Directors are asked to identify areas where additional training is required.

To enable the Board to function effectively, all Directors have full and timely access to all information which may be relevant to the discharge of their duties and obligations. The Company arranges additional, specific training or support for any Director who requests it.

The Chairman ensures that all Directors are properly briefed on issues to be discussed at Board meetings. All Directors are able to obtain further advice or seek clarity on issues raised at Board meetings from within the Company or from external professional sources. All Directors have access to the advice and services of the Company Secretary who is responsible for ensuring that Board procedures and applicable rules and regulations are observed. Additionally, the Company Secretary provides regular reports to the Board to ensure that it remains up to date on the latest regulatory, legal and governance developments relevant to the Company and its officers. Where necessary, the Directors are able to take independent professional advice at the Company's expense.

CHAIRMAN'S APPOINTMENT

As announced on 17 July 2003 Dr M W Ridley succeeded Sir John Riddell as Chairman of the Company on 27 April 2004. The selection process to identify Sir John's successor commenced in 2002 and was conducted by the Nominations Committee in accordance with governance standards and best practice in force prior to the publication of the revised Combined Code.

The Nominations Committee concluded that Dr Ridley was the best person for appointment as Chairman because of his exceptional leadership skills and business acumen. Additionally, the Committee concluded that Dr Ridley satisfied the important requirements of demonstrating experience of the way in which the Company operated and an understanding of how it developed so that he was best equipped to lead its continued evolution.

Dr Ridley was first elected to the Board in September 1997. In the opinion of the Board, Dr Ridley was independent (for the purposes of the revised Combined Code) on his appointment as Chairman. Dr Ridley's letter of appointment sets out his role and responsibilities and the time commitment expected of him. A copy of his letter of appointment will be available for inspection at the Annual General Meeting.

BOARD APPRAISAL

The Combined Code requires that Non-Executive Directors, the Board and its Committees should be subject to annual appraisal. Where a Non-Executive Director is proposed for re-election beyond six years, the proposal should be subject to a particularly rigorous review, and should take into account the need for progressive refreshing of the Board.

All Executive Directors, Non-Executive Directors and the Chairman were subject to an appraisal during the financial year under review to ensure that their contribution continued to be of the highest standard. The Chief Executive and all of the Non-Executive Directors were appraised by the Chairman whilst the appraisal of the Group Finance Director and Chief Operating Officer was completed by the Chief Executive. The Senior Independent Director conducted the appraisal of the Chairman, after meeting with the Non-Executive Directors in absence of the Chairman and having also canvassed the opinions of the Executive Directors.

For the year under review, the conclusion of the appraisal exercise was that each Non-Executive Director, Executive Director and the Chairman demonstrated a continued commitment and effective contribution to their position. The terms of appointment of each Non-Executive Director have been renewed for a further year with effect from 1 January 2005, subject to re-election where appropriate at the Annual General Meeting to be held in April 2005.

As part of the appraisal exercise, each individual also completed an evaluation of the Board and its Committees to enable the Secretary to report to the Board on how effective each was in discharging its responsibilities. The appraisal exercise was completed by the Board considering and debating the Secretary's report and reviewing the respective strengths and weaknesses of the Board, its members and its Committees. The Secretary reported to the Board that the evaluation of the Board and its Committees showed that they were discharging their responsibilities effectively and confirmed the process also provided useful feedback that would be used to improve current practice and procedures.

BOARD COMMITTEES

In accordance with the Combined Code and the best principles of corporate governance, the Board has established a number of Committees to assist it in the way that it deals with matters that are reserved for its consideration. The Chairman and membership of each Committee are set out on page 17.

Each Committee has detailed terms of reference clearly setting out its remit and authority. In accordance with the Combined Code, the terms of reference of the Audit, Nominations, Remuneration and Risk Committees are available on the Company's website and on request in writing from the Company Secretary.

In addition to the meetings of the Board and the Committees which took place throughout the year, the Chairman also held meetings with Non-Executive Directors in absence of the Executive Directors and Sir George Russell met with the Non-Executive Directors in absence of the Chairman and the Executives.

The following paragraphs set out details of the Committees and the particular work that they undertake.

AUDIT COMMITTEE

The Audit Committee comprises five independent Non-Executive Directors and met six times during 2004. It considers and, where appropriate, advises the Board on all matters relating to regulatory, prudential and accounting requirements

that may affect the Group. It also reports to the Board on both financial and non-financial controls. An important aspect of its role is to ensure that an objective and professional relationship is maintained with the external auditors.

The Audit Committee has responsibility for recommending the appointment, re-appointment and removal of the external auditors. In February 2004 the Audit Committee reviewed the effectiveness of the external auditors and made a recommendation that they be re-appointed for a further 12 months. The Board accepted this recommendation and an appropriate resolution was passed at the 2004 Annual General Meeting.

The Audit Committee reviews the scope and results of the annual external audit, its cost effectiveness, and the independence and objectivity of the external auditors. It also reviews the nature and extent of any non-audit services provided by the external auditors. The external auditors may attend all meetings and have direct access to the Audit Committee and its Chairman at all times. The Chief Internal Auditor provides further assurance that the significant risks identified by the business are properly managed. The Chief Internal Auditor has direct access to the Audit Committee and its Chairman. The Executive Directors are not members of the Audit Committee but attend meetings by invitation of the Audit Committee, as necessary, to facilitate its business.

The Audit Committee reviews the internal control system on behalf of the Board and is also responsible for reviewing the effectiveness of the Internal Audit function. At each meeting the Committee receives reports of reviews conducted throughout the Company by the Internal Audit and (periodically) Compliance functions.

The Combined Code requires the Board to be satisfied that at least one member of the Audit Committee has recent and relevant financial experience. The Board is satisfied in this regard and, in addition, in the opinion of the Board the qualifications of each of the Audit Committee members gives the Audit Committee the breadth of financial experience to discharge its responsibilities.

CHAIRMAN'S COMMITTEE

The principal function of the Chairman's Committee is to review the Company's strategy and to consider any major operational issues or proposals for significant new initiatives that may arise. The Committee only meets as a formal Committee in exceptional circumstances and its activities are reported to the Board. The Committee is made up of the Chairman, the Executive Directors and the Company Secretary.

NOMINATIONS COMMITTEE

The Nominations Committee is made up of the Chairman and two independent Non-Executive Directors. The Committee met three times during 2004. It monitors and reviews the membership of, and succession to, the Board of Directors and the Committee makes recommendations to the Board in this regard. One of its functions is to identify potential Executive and Non-Executive Directors taking into account the requirement for the members of the Board to have an appropriate range of skills and experience to understand the activities of Northern Rock and its subsidiary undertakings.

During 2004, the Nominations Committee assessed the size of the Board, the attributes of the Board members, the continued growth of the Company and its strategic aims. The Committee concluded that, whilst the Company placed an appropriate level of demand on its Directors, the performance of the Board and its Committees would be enhanced by the appointment of two further Non-Executive Directors and two further Executive Directors.

Spencer Stuart Recruitment Limited was retained by the Company to assist in the identification and recruitment of Non-Executive Directors who would add value to the Board and its Committees. An extensive search by Spencer Stuart Recruitment Limited led to Mr Queen and Miss Radcliffe being considered and recommended to the Board by the Nominations Committee. The Committee also recommended Mr Kuipers and Mr Currie as appropriate candidates for the position of Executive Director.

The Company announced on 5 January 2005 that with immediate effect Mr Queen would be joining the Board as a Non-Executive Director and that Mr Kuipers and Mr Currie would be joining the Board as Executive Directors. Brief biographies of the new appointees are detailed at page 12 of the Annual Report. Mr Queen will augment the Board's financial expertise and has joined the Board's Audit and Remuneration Committees, whilst the promotions of Mr Kuipers and Mr Currie reflect the importance of the Marketing and Treasury functions to the Company's strategy. In addition to these appointments the Company also announced on 5 January 2005 that Miss Radcliffe would join the Board as a Non-Executive Director with effect from 1 March 2005. As a former Independent Complaints Commissioner for the Financial Services Authority, Miss Radcliffe will increase the Board's regulatory expertise and will join the Board's Remuneration and Risk Committees.

The Company believes that the appointment of all four individuals is in the best interests of its shareholders. It should be noted that Spencer Stuart Recruitment Limited has no other connection with the Company.

REMUNERATION COMMITTEE

The Remuneration Committee comprises six independent Non-Executive Directors and met twice in 2004. It is responsible for considering and advising the Board on the remuneration policy for Executive Directors and the Chairman, and for determining their remuneration packages. In discharging its responsibilities the Remuneration Committee takes professional advice from within and outside the Company. It is the Board's responsibility to determine the remuneration policy for Non-Executive Directors within the limits set in the Articles of Association. The Remuneration Committee also determines the level of remuneration for the Company's Management Board Directors (comprising management at the level immediately below the Board).

In accordance with the requirements of the Directors' Remuneration Report Regulations 2002 further information may be found in the Company's Directors' Remuneration Report.

RISK COMMITTEE

The Risk Committee comprises three independent Non-Executive Directors plus Mr Applegarth, Mr Baker and Mr Bennett. The Risk Committee met four times during 2004. The main role of the Risk Committee is to review, on behalf of the Board, the key risks inherent in the business, the system of control necessary to manage such risks, and to present their findings to the Board.

This responsibility requires the Risk Committee to keep under review the effectiveness of the Group's system of internal controls, which includes financial, operational, compliance and risk management controls and to foster a culture that emphasises and demonstrates the benefits of a risk-based approach to internal control and management of the Group. The Risk Committee fulfils this remit by reinforcing management's control consciousness and making appropriate recommendations to the Board on all significant matters relating to the Group's risk strategy and policies.

Other responsibilities of the Risk Committee include keeping under review the effectiveness of the Group's risk management infrastructure. This involves an assessment of risk management procedures (for the identification, measurement and control of key risk exposures) in accordance with changes in the operating environment. It is also primarily responsible for considering the major findings of any of the Financial Services Authority or internal/external audit's risk management review and management's response.

To assist the Board in discharging its responsibilities for the setting of Risk policy, the Risk Committee periodically reviews the Group's credit risk, interest rate risk, liquidity risk and operational risk exposures in relation to the Board's risk appetite and the Group's capital adequacy. The Risk Committee also ensures that the public disclosure of information regarding the Group's risk management policies and key risk exposures is in accordance with the statutory requirements and financial reporting standards.

INTERNAL CONTROL

The Board of Directors is responsible for the Group's system of internal control and for annually reviewing its effectiveness. The system of internal control is designed to manage risk rather than eliminate it and in this regard, the Board considers that Northern Rock is a well-controlled, risk-averse business that continues to adopt a prudent stance in the management of risk. The Board has reviewed the effectiveness of the system of internal control and is satisfied that there is a sound system of internal control that safeguards shareholders' investments and the Company's assets.

In accordance with the guidance set out in the Turnbull Guidance on Internal Control, the Company has an ongoing process for identifying, evaluating and managing the significant risks faced by it. This process was in place for the period 1 January 2004 to 31 December 2004 and remained in place on the date that the 2004 Annual Report and Accounts was approved by the Board. As part of the Company's continuing evaluation of Internal Control, the Board has reviewed and (where necessary) updated the process for identifying and evaluating significant risks affecting the business and the policies and procedures by which these risks are managed.

The Company is committed to developing and maintaining a control-conscious culture in all areas. This is achieved through a well-defined organisational structure with clear reporting lines and a commitment to recruiting and training staff governed by appropriate codes of conduct. In addition, the Group maintains procedure manuals that detail the procedures to control physical and logical access, segregation of duties and credit, expenditure and other authorisation limits. There are well-established budgetary and strategic planning cycles, and the Board reviews the results monthly against budgets, forecasts and prior year actual results, together with other key business measures.

The Chief Executive reports to the Board on behalf of the Executive Committee on significant changes in the business and the external environment which affect significant risks. The Board also receives monthly financial information, which includes key performance and risk indicators. Where areas for improvement in the system are identified, the Board considers the recommendations made by the Executive Committee, the Risk Committee and the Audit Committee.

A detailed description of the Group's approach to financial risk management and the related use of derivatives is set out in note 37 to the accounts. Material risk exposures are subject to Board policy statements that set out the exposure limits of the risks and the hedges and control techniques to be utilised. In addition, regular reporting of all risk exposures is monitored throughout the Company by the Operational Risk Committee whose membership is drawn from each of the Company's departments within which operational risk may arise.

The Company's Internal Audit function provides a degree of assurance as to the operation and validity of the system of internal control and planned corrective actions are independently monitored for timely completion.

COMMUNICATIONS

A Summary Financial Statement is issued to all shareholders and a copy of the Annual Report and Accounts and The Northern Rock Foundation's report is available by written request to the Company Secretary or from the Northern Rock website: www.northernrock.co.uk. The Company communicates regularly with its shareholders who are given the opportunity to raise matters for discussion at the Annual General Meeting. The Company also deals with a number of written enquiries from shareholders throughout the year.

The Company regards communication with institutional shareholders as important. To ensure that concerns of major shareholders are addressed, the Company has incorporated a number of initiatives into its procedures during 2004. In October 2004 the Company held a governance day, to which the Company's major institutional investors were invited. The day was hosted by the Chairman and attended by the Chief Executive and the

Senior Independent Director. In addition, all of the other Non-Executive Directors were offered the opportunity to attend the presentation. The Company was pleased with the attendance of a number of its investors and found that the day provided an excellent opportunity to engage with shareholders on the Company's governance arrangements.

In addition to the governance day, the Company Secretary reports to the Board on feedback received from shareholders. Additionally, the Chief Executive and Group Finance Director have extensive ongoing contact with shareholders and feedback arising from this is also reported to the Board. Coupled with presentations from analysts and brokers throughout the year, these arrangements ensure that all Directors, both Executive and Non-Executive, remain up to date on the views of major shareholders.

As Senior Independent Director, Sir George Russell is available to shareholders if they have concerns which contact through the normal channels of Chairman, Chief Executive or Group Finance Director has failed to resolve or for which such contact is inappropriate.

To ensure that opportunities are offered to major shareholders to meet with members of the Board, a number of more informal lunches are also held throughout the year where investor feedback on strategy and governance is encouraged.

GOING CONCERN

The Directors are satisfied that the Group has adequate resources to continue in business for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the accounts.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The Companies Act 1985 requires the Directors to prepare financial statements for each financial year that give a true and fair view of the state of affairs of the Company and Group as at the end of the year and of the profit or loss of the Group for the year.

The Directors consider that in preparing the financial statements on pages 46 to 77 appropriate accounting policies, consistently applied and supported by reasonable and prudent judgements and estimates, have been used and that applicable accounting standards have been followed.

The Directors are responsible for ensuring that the Company and Group keeps accounting records that disclose with reasonable accuracy at any time the Company and Group's financial position and that enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the Company and Group and hence for taking reasonable steps to prevent and detect fraud and other irregularities.

The maintenance and integrity of the Northern Rock plc website is the responsibility of the Directors; the work carried out by the auditors does not involve consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the website.

Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

COMMITTEES

Membership of the Board's Committees is set out below.

AUDIT COMMITTEE

+ Sir Derek Wanless (Chairman) (appointed Chairman 27 April 2004)
+ N A H Fenwick
+ Sir Ian Gibson
+ N Pease
+ M J Queen (appointed 5 January 2005)
+ Dr M W Ridley (resigned from Committee 27 April 2004)
+ Sir George Russell (resigned from Committee 31 December 2004)
+ Sir David Chapman, Bt. (retired 27 April 2004)

CHAIRMAN'S COMMITTEE

+ Dr M W Ridley (appointed Chairman 27 April 2004)
* A J Applegarth
* D F Baker
* R F Bennett
* A M Kuipers (appointed 5 January 2005)
* K M Currie (appointed 5 January 2005)
* C Taylor
+ Sir John Riddell, Bt. (retired 27 April 2004)

NOMINATIONS COMMITTEE

+ Dr M W Ridley (appointed Chairman 27 April 2004)
+ Sir Ian Gibson
+ Sir Derek Wanless
+ Sir John Riddell, Bt. (retired 27 April 2004)

REMUNERATION COMMITTEE

+ N Pease (Chairman) (appointed Chairman 27 April 2004)
+ Sir George Russell (retired as Chairman of the Committee on 27 April 2004)
+ N A H Fenwick
+ Sir Ian Gibson
+ M J Queen (appointed 5 January 2005)
+ Sir Derek Wanless
+ Dr M W Ridley (resigned from Committee on 27 April 2004)
+ Sir David Chapman, Bt. (retired 27 April 2004)

DIRECTORS' REMUNERATION REPORT

SUMMARY

The Directors' Remuneration Report is presented to shareholders by the Board and contains the following information:

- A description of the role of the Remuneration Committee;
- A summary of the Group's Remuneration Policy including a statement of the Company's policy on Directors' remuneration;
- Graphs illustrating the performance of the Company relative to the FTSE 100 Index and the FTSE 350 Index for the last five years;
- Details of the terms of the service contracts and the remuneration of each Director for the preceding financial year;
- Details of the share options and awards under long-term incentive schemes held by the Directors; and
- Details of each Director's interest in Ordinary Shares in the Company.

This Report complies with the Directors' Remuneration Report Regulations 2002 ("the Regulations"). This Report also sets out how the principles of the Combined Code relating to Executive Director remuneration are applied by the Group.

A resolution will be put to Shareholders at the Annual General Meeting on 26 April 2005 inviting them to consider and approve this Report.

THE REMUNERATION COMMITTEE

The Remuneration Committee consists entirely of independent Non-Executive Directors and comprises Ms N Pease (appointed Chairman on 27 April 2004), Sir George Russell, Mr N A H Fenwick, Sir Ian Gibson, Mr M J Queen (appointed 5 January 2005) and Sir Derek Wanless. Dr M W Ridley resigned from, and Sir David Chapman retired from, the Committee on 27 April 2004. Where appropriate, the Chairman and Chief Executive attend meetings of the Remuneration Committee by invitation of the Committee, save that they are absent when their own remuneration is under consideration. The Remuneration Committee operates within agreed terms of reference and has responsibility for making recommendations to the Board on the Group's general policy relating to executive remuneration. It also determines, on behalf of the Board, specific remuneration packages for the Chairman, the Executive Directors and the Management Board Directors, being the level of management immediately below the Board.

The Remuneration Committee meets regularly and takes advice from both inside and outside the Group on a range of matters, including the scale and composition of the total remuneration package payable in comparable financial institutions to people with similar qualifications, skills and experience.

The following persons provided advice or services that materially assisted the Remuneration Committee in its consideration of Directors' remuneration matters during the year:

- The Committee consulted the Chief Executive on matters relating to the remuneration of the other Executive Directors who report to him. The Chairman was also consulted in relation to the remuneration of all Executive Directors;
- Internal support was provided to the Remuneration Committee by the Company Secretary;
- Watson Wyatt LLP advised the Remuneration Committee on a range of issues including the benchmarking of Executive Directors' salaries and the Chairman's fee. In addition to providing this advice to the Remuneration Committee, Watson Wyatt LLP are consulting actuaries to the Company and advised on various pension issues;
- Inbucon Administration Ltd were responsible for preparing Total Shareholder Return calculations for the purposes of the Company's Long Term Incentive Plan and this Remuneration Report. Inbucon Administration Ltd did not provide other advice or services to the Company; and
- Freshfields Bruckhaus Deringer advised the Company on various share plan matters and compliance with the Directors' Remuneration Report Regulations. They are the Company's main legal advisor.

COMPLIANCE

The Group has complied with the Combined Code's provisions relating to Directors' remuneration throughout the year.

REMUNERATION POLICY FOR EXECUTIVE DIRECTORS

The Remuneration Committee believes that the continuing improvement in performance of Northern Rock depends on individual contributions made by the Executive Directors. For this reason, the remuneration policy is designed to provide competitive packages to motivate, reward and retain Executive Directors of high quality and to align their interests with those of shareholders.

The Board has adopted, on the recommendation of the Remuneration Committee, a remuneration policy with the objectives set out below. It is intended that this policy should continue to apply for 2005 and subsequent years:

(i) the remuneration packages for Executive Directors are designed to be competitive in terms of market practice;

(ii) performance-related remuneration should seek to align the interests of Executive Directors with those of the shareholders through the imposition of stretching corporate performance targets and the satisfaction of most short and longer term incentives in the form of shares; and

(iii) to motivate for future achievement, a significant proportion of remuneration should be based on operational and financial performance both in the short and long term together with the individual contribution made by the Executive Directors.

The Remuneration Committee regularly reviews all aspects of remuneration to ensure these remain appropriate. This report sets out the Company's policy on Executive Directors' remuneration for 2005 and, so far as practicable, for subsequent years. The inclusion in the report of remuneration policy in respect of years after 2005 is required by the Regulations. The Remuneration Committee is able to state its remuneration policy for 2005 with reasonable certainty, and this policy will continue in subsequent years unless changed by the Remuneration Committee. The Remuneration Committee considers that a successful remuneration policy needs to be sufficiently flexible to take account of future changes in the Company's business environment and in remuneration practice. Any changes in policy for years after 2005 will be described in future Directors' Remuneration Reports; such reports will continue to be subject to shareholder approval. All statements in this report in relation to remuneration policy for years after 2005 should be read in light of this paragraph.

ELEMENTS OF REMUNERATION

Remuneration comprises: basic salary, annual bonus, pension benefits and benefits in kind. In addition, Executive Directors and senior executives participate in certain share based incentive schemes, comprising the bonus matching plan, deferred share scheme and long term incentive plan. These share-based incentive schemes, and the annual bonus, are performance-related, and the Remuneration Committee regards them as a key element in the Executive Directors' remuneration package.

As a result of changes to the performance-related elements of remuneration in recent years (including, from 2005, the proposed imposition of a corporate performance condition on awards vesting under the bonus matching plan and deferred share scheme, and the increase in annual bonus potential as described below), the performance-related element of total potential remuneration has materially increased in recent years.

BASIC SALARY

The Committee's objective is that Executive Directors' basic salaries should be paid at an appropriate level to take account of both personal performance and of salaries within a comparator group of financial institutions. The Committee considers that exceptional performance, whether corporate or individual, should be rewarded through bonus and incentive schemes rather than basic salary.

Salaries are reviewed annually for each Executive Director, and revised salaries took effect from 1 January 2005 as follows:

A J Applegarth
£625,000 (2004 - £565,000)

D F Baker
£390,000 (2004 - £375,000)

R F Bennett
£390,000 (2004 - £375,000)

Mr A M Kuipers and Mr K M Currie were appointed to the Board on 5 January 2005, and their initial salaries were £270,000 each.

The revised salaries of the Executive Directors have been benchmarked against salaries paid for similar positions in banks in the FTSE 100 Index and for companies in positions 51 – 75 in the FTSE 100 Index.

During 2004 the Company's 13 Management Board Directors were paid salaries ranging from £90,000 to £215,000.

SHORT TERM BONUS SCHEME

Northern Rock operates a short term cash bonus scheme under which payments are made on an annual basis at the discretion of the Remuneration Committee. All of the Executive Directors and certain senior executives participate in this scheme.

This cash bonus scheme relates to year-on-year increases in the Group's pre-tax profit on ordinary activities, with increases in pre-tax profits generating a bonus payment equal to a percentage of salary. Only where there is an increase in adjusted like-for-like pre-tax profits will Executive Directors be eligible for a short term bonus. Every 1% increase in pre-tax profits generates a bonus payment equal to 5% of salary with a maximum of 75% of salary by way of bonus for 15% increase in profits (with a sliding scale between these points). Payment of one-third of the bonus will be subject to the Remuneration Committee's view of the participant's personal performance, and the remaining two-thirds relates to the performance of the business. The bonus payable is reduced by the value of shares appropriated under the all-employee Inland Revenue Approved Share Incentive Plan for the year, to the extent needed to ensure that the relevant bonus cap is not exceeded.

On this basis, the bonus earned in respect of 2004 was 65.15% of salary.

For 2005 the Remuneration Committee will continue to operate the cash bonus scheme on the basis described above however, following a careful review of bonus arrangements (and consideration of a review by Watson Wyatt LLP of comparator companies), whilst every 1% increase in pre-tax profits will continue to generate a bonus equal to 5% of salary, the bonus cap has been increased to 100% of salary for a 20% increase in profits.

BONUS MATCHING PLAN

Participants are also encouraged to identify with the interests of shareholders by investing some of their own funds in Northern Rock. Executive Directors (and other senior executives invited by the Remuneration Committee to participate) are entitled to elect for all or part of the after tax amount of their annual cash bonus to be used to acquire shares which will be held for a period of three years; alternatively they may elect to deposit their own shares with an aggregate value not exceeding the cash amount of the after tax bonus. The shares acquired or deposited will be eligible for additional "matched" shares at the end of the three-year period, provided the participant has remained an employee of the Group. The plan is designed to achieve one-for-one matching on an after tax basis. As the participant's shares are invested in the plan on an after-tax basis, but the matched shares only attract income tax and national insurance contributions if and when they are released from the plan, the number of matched shares is increased (by reference to tax rates at the time the matching shares are initially awarded) to reflect the fact that they will attract income tax and national insurance contributions if and when they are released. Entitlement to the matched shares will normally be lost if the participant leaves employment except in certain "good leaver" circumstances. For awards made in 2005 and in future years, the release of matched share awards will be dependent on the Group achieving average real EPS growth of 3% per annum over the three financial years pending their release. The imposition of this target is subject to shareholder approval at the Annual General Meeting on 26 April 2005.

For 2004 and previous years, the release of matched share awards was not dependent on satisfaction of a further performance condition because the value of matched share awards was derived from the annual bonus criteria and was therefore dependent on corporate performance.

The bonus matching plan was operated in respect of 2004, resulting in the share awards described on page 26. The Remuneration Committee will continue to operate it in respect of 2005 and future years.

The beneficial ownership of the matched shares transfers to the participant on the grant of an award. The matched shares will be forfeited if the participant ceases to be entitled to them except in certain "good leaver" circumstances. The participant will be entitled to any dividends paid on his matched shares during the restricted period.

DEFERRED SHARE SCHEME

Under a separate element of the short term bonus scheme, the Remuneration Committee may grant to Executive Directors and other executives who receive a cash bonus under that scheme an award of shares with a pre-tax value equal to the pre-tax value of his cash bonus. A participant who is granted an award must normally continue to hold these shares and remain an employee of the Group for a period of three years from the date of the award in order to retain the full number of shares so granted to him, although shares will be released earlier in certain "good leaver" circumstances. For awards made in 2005 and in future years, the release of any deferred share awards will be dependent on the Company achieving average real EPS growth of 3% per annum over the three financial years that the shares are held. The imposition of this target is subject to shareholder approval at the Annual General Meeting on 26 April 2005.

For 2004 and previous years, the release of deferred share awards was not dependent on satisfaction of a further performance condition because the value of deferred share awards was derived from annual bonus criteria and was therefore dependent on corporate performance.

This deferred share scheme was operated in respect of 2004 resulting in the share awards described on page 27. The Remuneration Committee will continue to operate the deferred share scheme in respect of 2005 and future years.

LONG TERM INCENTIVE PLAN

All Executive Directors and certain senior executives participate in a long term incentive plan ("LTIP"), which was approved by shareholders in 1998. Awards have been made in 1998 and each subsequent year thereafter. The plan involves the grant of share awards, which can only be released if demanding performance targets are achieved and if the participant remains in employment, except in certain "good leaver" circumstances. The number of shares comprised in an award is calculated by reference to a percentage of salary, with the maximum award of shares being 100% of salary.

Performance is measured over a three year period on the basis of total shareholder return ("TSR"), comparing the Company's performance to that of the companies in an appropriate index at the date of an award. The Remuneration Committee has decided that, for awards in 2005 and future years, the FTSE 100 Index will be used. For previous awards, the FTSE 350 Index was used because at the time the LTIP was approved in 1998, the Company's market capitalisation placed it around the mid-point of the constituents of that index. The Company joined the FTSE 100 Index in September 2001. The extent to which an award is realisable depends on the Company's ranking in this comparison. Awards are released on a sliding scale between median and top quartile performance with 25 per cent of an award being released for median performance and 100 per cent of the award being released for a ranking within the top quartile. If the Group's performance is below the median, none of the shares in an award will vest. There is no re-testing of targets.

There is also an earnings per share threshold, which requires that the Group's earnings per share growth over the three year period must exceed the growth in the UK Retail Prices Index by an average of at least 3% per annum. This performance condition is designed to ensure that the vesting level of LTIP awards is dependent on satisfactory year-on-year financial performance as well as above-median TSR ranking.

The LTIP was operated in 2004, resulting in the share awards set out in the table on page 28. The Remuneration Committee will continue to operate it for Executive Directors in 2005 and future years. A separate share scheme, in substantially the same terms as the LTIP, has been adopted by the Remuneration Committee and is extended to 33 executives. This is also now subject to the FTSE 100 performance target. Executive Directors are not eligible to participate in this scheme, and awards under it will be satisfied with existing shares only.

ALL-EMPLOYEE SHARE SCHEMES

Executive Directors are eligible to participate in the Company's all-employee share schemes on the same terms as other employees. These schemes comprise:

(i) the Sharesave Scheme, a savings-related share option scheme available to all employees. This scheme operates within specific tax legislation (including a requirement to finance exercise of the option using the proceeds of a monthly savings contract), and exercise of the option is not subject to satisfaction of a performance target;

(ii) the Employee Share Option Scheme, an Inland Revenue approved share option scheme under which options have been granted to substantially all employees. Under this scheme the aggregate exercise value of unexercised options may not exceed £30,000. Options under this scheme may not be exercised unless real earnings per share of the Company has grown by more than 2% over the life of the option. This performance condition is designed to ensure that the exercisability of options is dependent on satisfactory year-on-year financial performance on a sustained basis; and

(iii) the Share Incentive Plan ("SIP"), under which the maximum value of free shares awarded to employees cannot exceed £3,000. The value of share awards under this scheme is dependent on the Group's profits. The SIP operates within specific tax legislation. Any payment made under the SIP together with any amount payable under the short term cash bonus scheme may not exceed the overall bonus cap from time to time.

The Remuneration Committee is satisfied that these schemes constitute a well considered overall plan for Executive Directors' and senior executives' long-term remuneration. These schemes are kept under regular review, to take account of changing circumstances. Bonus and share incentive scheme payments are not taken into account for pension purposes. It should be noted that the Executive Directors elected not to participate in the last two grants made under the Employee Share Option Scheme, namely those made in 2002 and 2005.

PENSION BENEFITS

The following section describes the pension arrangements currently in force for the Executive Directors. These arrangements will be affected by changes to the tax treatment of the current UK pension regime contained in the Finance Act 2004. The Remuneration Committee is currently reviewing appropriate actions to take in response to these changes and will report on the outcome next year.

It is the intention of the Committee that changes in pensions legislation expected to commence in 2006 will not increase the Directors' actuarial pension cost.

Each of the Executive Directors currently participates in the Northern Rock Pension Scheme, a contributory pension scheme which provides a pension of up to two-thirds of pensionable salary on retirement, dependent upon service. On death in service the scheme also provides for a dependent's pension and a lump sum of four times basic salary. This pension and life assurance is provided from the scheme (to the extent permitted by legislation) and otherwise from separate arrangements.

The normal retirement age under the pension scheme is 60 which enables members to achieve the maximum pension of 2/3rds of their salary at normal retirement age after 40 years service.

For death before retirement whilst in service, a capital sum equal to four times the annual rate of basic earnings, excluding Director's fees, is payable, plus a return of member's contributions. In addition, a pension of 50% of the member's prospective pension at the age of 60, based on pensionable earnings at death, is payable to a surviving spouse providing the couple were married before retirement. On death before retirement after leaving the scheme, a benefit of 50% of the member's deferred pension, re-valued to the date of death, is payable to a surviving spouse. For death in retirement, a spouse's pension of 50% of the member's pre-commutation pension is payable. In certain circumstances a children's allowance is payable, usually up to the age of 18 (or up to the age of 21 if they are in full-time education).

Subject to the Trustees' approval, early retirement may be granted from the age of 50, or at any age due to ill-health. The pension is calculated at the date of retirement based on accrued pensionable service and final pensionable earnings at that date. The pension will then be actuarially reduced to take account of early payment by an amount of 0.25% for each complete month before normal retirement date. The Company and the Trustees have agreed that if Mr A J Applegarth or Mr D F Baker (having attained age 55) retire with the consent of the Company they will receive immediate payment of their accrued pension without the application of an actuarial reduction. If Mr Applegarth or Mr Baker elect to retire after attaining the age of 55 without the consent of the Company they will receive an immediate pension being the accrued deferred pension reduced by 3% for each year or proportionate part thereof by which retirement precedes age 60.

Post retirement increases to pensions arising from membership of the defined benefit scheme are guaranteed each year at the rate of 3% per annum compound, subject to any guaranteed minimum pension. Pension benefits accrued after 5 April 1997 are guaranteed to increase in line with inflation, to a maximum of 5% per annum.

In addition to the normal scheme increases, and subject to the defined benefit scheme fund having adequate resources, the Trustees may award further discretionary increases each April.

Members of the scheme have the option to pay additional voluntary contributions to secure additional benefits within regulatory limits, to which the Company does not contribute.

The Company also operates an unapproved unfunded arrangement for Mr Bennett (which is provided for in the Company's accounts and maintains pension entitlement from previous employment) to provide additional benefits to the main scheme. The unfunded arrangement is designed to ensure that the individual (or his spouse) will receive the level of pension benefit in respect of his eligible earnings in excess of the pensions "earnings cap", currently £102,000 (2003/04 - £99,000) per annum, which are not pensioned by the Northern Rock Pension Scheme. Mr Bennett contributes 5% of his basic salary including those earnings in excess of the earnings cap. Mr Bennett's pension will accrue at the rate of 1/36th of pensionable earnings for each year (and pro rata for each part year) of pensionable service from 1 November 1993 (date joined pension scheme). In addition, all pension calculations shall include pensionable service brought forward from previous employers of 19 years 5 months at a rate of accrual of 1/60th per annum and 5 years 1 month at a rate of accrual of 1/36th per annum.

The total of the pension provided for Mr Bennett at normal retirement date or at any age after his 55th birthday, where the retirement is by mutual consent or at the Company's request, shall be the maximum of two thirds of his uncapped final pensionable earnings. If retirement occurs prior to age 60 without the consent of the Company, he may elect to receive an immediate pension being the accrued deferred pension with a maximum of two thirds of his uncapped final pensionable earnings reduced by 3% for each year (and proportionate for each part thereof) by which retirement precedes age 60. The aggregate of pension increases to be provided whether in deferment or in payment shall be the greater of 5% per annum or RPI, subject to any guaranteed minimum pension and the increases as granted by the Trustees of the scheme inclusive of any discretionary increases.

Should Mr Bennett die in service or in receipt of benefits under the Company's Permanent Health Insurance Scheme prior to age 60, a lump sum shall be paid of four times his earnings at death plus a return of his contributions. In addition, if he leaves a surviving spouse she shall receive a pension of four ninths of his uncapped final pensionable earnings. Any child or children under the age of 25 receiving full-time education would receive an allowance of one half of the entitlement of the surviving spouse. Should Mr Bennett die whilst in receipt of a pension prior to age 60, a lump sum of four times his earnings at retirement shall be payable. On death in receipt of a pension, any surviving spouse would receive a pension of two thirds of the pension Mr Bennett would have been receiving at death, ignoring any pension commuted for a tax free cash sum.

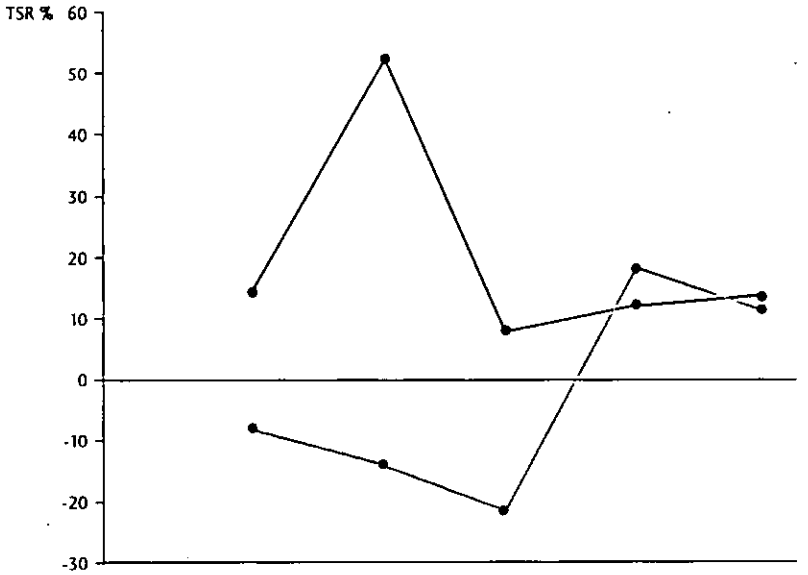
Any income tax or other related tax due on the Company's contribution to the unfunded arrangement which, under an uncapped arrangement, would not have been paid by Mr Bennett, will be borne by the Company up to two thirds of the contribution amount. In addition, any income tax or related tax due on the cash sum commutation will be borne by the Company up to two thirds of the commutation amount.

BENEFITS IN KIND

Each Executive Director is provided with company car and medical insurance benefits. The Executive Directors had as employees of Northern Rock Building Society (or in the case of Mr K M Currie and Mr A M Kuipers as employees of the Company prior to their appointment as Directors), entitlement to participate in a concessionary mortgage scheme at the discretion of the Board. No further new loans may be made under the scheme following conversion to plc status, but existing loans are not affected.

POLICY ON EXECUTIVE DIRECTORS' SERVICE CONTRACTS

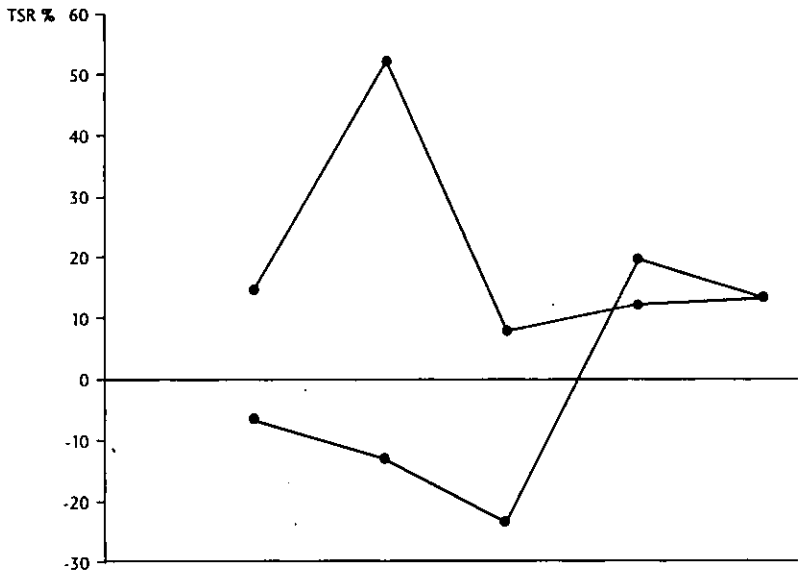
It is the policy of the Company that Executive Directors' service contracts can be terminated by 12 months' notice given to an Executive Director at any time. Each Executive Director can terminate his employment by giving 6 months' notice. All of the Executive Directors' contracts may be terminated immediately by Northern Rock either with (for Mr D F Baker and Mr R F Bennett) the payment of liquidated damages equal to 12 months' salary and the value of annual bonus and benefits or (for Mr A J Applegarth, Mr A M Kuipers and Mr K M Currie) a payment in lieu of notice equal to such amount. Mr Applegarth, Mr Baker and Mr Bennett would, in the event of a change of control of Northern Rock, be entitled to terminate employment and receive a liquidated damages payment calculated on the same basis. The terms of reference of the Remuneration Committee make it clear that the Remuneration Committee seeks, in appropriate circumstances to mitigate the amount of termination payments made to Executive Directors.



POLICY ON EXTERNAL NON-EXECUTIVE DIRECTORSHIPS HELD BY EXECUTIVE DIRECTORS

Executive Directors are permitted to hold one external non-executive directorship unrelated to the Company's business, provided that the time commitment is not material. Executive Directors are permitted to retain any fees arising from such a non-executive directorship. On this basis, Mr R F Bennett is a Non-Executive Director of Greggs plc, and Mr Bennett was entitled to fees of £28,000 from that company in respect of 2004.

PERFORMANCE GRAPHS



The performance graphs set out below illustrate the Group's Total Shareholder Return ("TSR") performance over the preceding five years, 2000 to 2004, compared with that of the FTSE 100 Index of which Northern Rock has been a constituent since September 2001, and that of the FTSE 350 Index of which Northern Rock was a constituent prior to September 2001. The FTSE 350 Index has been included because members of this index comprise the comparator group for long term incentive plan purposes for 2004 and prior. The performance graphs have been prepared in accordance with the Regulations.

FTSE 100

	2000 (%)	2001 (%)	2002 (%)	2003 (%)	2004 (%)
Northern Rock	+14	+51	+8	+12	+13
FTSE 100	-8	-14	-22	+18	+11

FTSE 350

	2000 (%)	2001 (%)	2002 (%)	2003 (%)	2004 (%)
Northern Rock	+14	+51	+8	+12	+13
FTSE 350	-6	-13	-23	+20	+13

SERVICE CONTRACTS

Mr A J Applegarth is employed under a service contract with the Company dated 1 March 2001. Mr Applegarth's current annual salary is £625,000, and he is entitled under the contract to participation in the Company's bonus scheme, a company car (or allowance in lieu), membership of the Company's pension scheme, life assurance cover equal to four times salary, permanent health insurance, private medical insurance cover and the continuation of a mortgage at a concessionary rate (which was granted before the Company's conversion to plc status). Mr Applegarth's contract is for an indefinite term ending automatically on his retirement date (age 60), but may be terminated by 12 months notice given by the Company and 6 months notice given by Mr Applegarth. The Company may at its discretion elect to terminate the contract by making a payment in lieu of notice equal to:

(i) 100 per cent of basic annual salary;

(ii) the amount of annual bonus paid in respect of the preceding financial year; and

(iii) the annual cost to the Company of providing pension and all other benefits to which Mr Applegarth is entitled under his contract.

In addition, Mr Applegarth may elect to terminate the contract on one month's notice given within six months following a change of control of the Company. In these circumstances, Mr Applegarth would become entitled to a lump sum payment equal to the aggregate of:

(i) 100 per cent of basic annual salary;

(ii) the amount of annual bonus paid in respect of the preceding financial year; and

(iii) the annual cost to the Company of providing pension and all other benefits specified in his service contract.

Mr R F Bennett is employed under a service contract with the Company dated 26 August 1997, which was amended by a

supplemental agreement dated 12 March 1998. Mr Bennett's current annual salary is £390,000. He is entitled to the same benefits as those specified above in relation to Mr Applegarth, save that Mr Bennett is entitled to special pension arrangements which are described on page 22.
Mr Bennett's contract is for an indefinite term ending automatically on his retirement date (age 60), but may be terminated by 12 months' notice given by the Company and 6 months' notice given by Mr Bennett. The Company may at its discretion elect to terminate the contract early by making a payment of liquidated damages calculated in the manner set out above in relation to Mr Applegarth's post-change of control liquidated damages entitlement.

In the event of a change of control of the Company, Mr Bennett may elect to terminate the contract and receive a lump sum payment calculated in the manner set out above in relation to Mr Applegarth.

Mr D F Baker is employed under a service contract with the Company dated 26 August 1997, which was amended by supplemental agreements dated 12 March 1998 and 1 July 1999. Mr Baker's current annual salary is £390,000. He is entitled to the same benefits as those specified above in relation to Mr Applegarth (save that Mr Baker has repaid the mortgage awarded to him before the Company's conversion to plc status, and is not entitled to a further mortgage on concessionary terms).
Mr Baker's contract is for an indefinite term ending automatically on his retirement date (age 60), but may be terminated by 12 months' notice given by the Company and 6 months' notice given by Mr Baker.
The Company may elect to terminate the contract by making a payment of liquidated damages calculated in the manner set out above in relation to Mr Bennett. In the event of a change of control of the Company, Mr Baker may elect to terminate the contract and receive a lump sum payment calculated in the manner set out above in relation to Mr Applegarth.

Mr K M Currie and Mr A M Kuipers are each employed under service contracts with the Company, dated 5 January 2005. Their current annual salaries are £270,000, and they are entitled under the terms of their contracts to participate in the Company's bonus scheme, to receive a company car and expenses (or a monthly car allowance), membership of the Company's pension scheme, life assurance cover equal to four times basic salary and the continuation of a concessionary mortgage (which was granted to them before they became directors of the Company). Their contracts are for an indefinite term ending automatically on their retirement (age 60). The contracts may however be terminated by 12 months' notice given by the Company and six months' notice given by the Directors.

The Company may at its discretion elect to terminate Mr Currie's and Mr Kuipers' contracts by making a payment in lieu of notice equal to:

(i) 100 per cent of basic salary;

(ii) the amount of annual bonus paid in respect of the preceding financial year; and

(iii) the annual cost to the Company of providing pension and all other benefits to which they are entitled under their contracts.

The payment in lieu of notice payments may be made in phased instalments at the Company's discretion.

REMUNERATION OF THE CHAIRMAN AND NON-EXECUTIVE DIRECTORS

The remuneration of the Chairman is determined by the Remuneration Committee and that of the other Non-Executive Directors is determined by the Board as a whole, on the basis of external independent advice.

The Chairman's annual fee is £150,000. The Senior Independent Non-Executive Director's annual fee is £49,500. Non-Executive Directors receive an annual fee of £28,500. The fee payable for membership of each of the Audit, Nomination, Risk and Remuneration Committees is £2,500 or, where a Non-Executive Director is chairman of a Board Committee, the additional annual fee payable to them is £12,500.

Subject to shareholder approval at the Annual General Meeting of an increase in the aggregate cap on fees payable to Non-Executive Directors, with effect from 26 April 2005:

(a) the Chairman's annual fee will be increased to £250,000;

(b) the Senior Independent Non-Executive Director's annual fee will be increased to £55,000;

(c) the Non-Executive Directors' annual fee will be increased to £40,000;

(d) the annual fee payable for membership of each of the Audit, Nomination, Risk and Remuneration Committees will be increased to £3,500; and

(e) where a Non-Executive Director is chairman of a Board Committee, the additional annual fee payable will be increased to £13,000.

These proposed revised fees for the Chairman and Non-Executive Directors were determined after consideration of a report by Watson Wyatt LLP on the fees paid for similar roles at banks in the FTSE 100 Index, and for Companies positioned 51-75 in the FTSE 100 Index.

The Chairman and Non-Executive Directors serve the Company under letters of appointment, which are terminable by the Company at any time without liability for compensation; they do not have service contracts. The Chairman and Non-Executive Directors are entitled to fees from the Group and it is the Group's policy that they do not participate in bonus, incentive or pension schemes. However, Sir George Russell, who also served on the Board of Northern Rock Building Society, (see page 25) is a deferred member of a non-contributory pension scheme established by Northern Rock Building Society under which pension entitlement accrued for each complete year of qualifying service subject to a maximum of 60% of qualifying fees. This scheme ceased to accrue benefits after 30 June 1997.

DIRECTORS' REMUNERATION REPORT (continued)

INFORMATION SUBJECT TO AUDIT

The information set out below in the remainder of the Directors' Remuneration Report has been subject to audit as required by Part 3 of Schedule 7A of the Companies Act 1985.

DIRECTORS' INDIVIDUAL REMUNERATION

Details of Directors' individual remuneration is set out below:

Non-Executive Directors	**2004**	2003
	£000	£000
Dr M W Ridley (Chairman)	**127**	77
N A H Fenwick	**36**	5
Sir Ian Gibson	**38**	36
N Pease	**43**	36
Sir George Russell*	**53**	46
Sir Derek Wanless	**51**	36
Sir John Riddell, Bt.(retired 27 April 2004)	**50**	150
Sir David Chapman, Bt. (retired 27 April 2004)	**12**	36
	410	422

*Sir George Russell is a deferred member of the Northern Rock Building Society non-contributory pension scheme, which ceased to accrue benefits after 30 June 1997. This deferred pension commences on retirement as a Non-Executive Director or 25 October 2005, whichever is earlier and for 2004 was valued at £11,470 (2003 £10,771). In line with the scheme rules this will increase to £12,229 per annum in October 2005.

Executive Directors	**Chief Executive**	**Chief Operating Officer**	**Group Finance Director**

Non cash benefits	13	10	17	40
Total emoluments	932	623	630	2,185

There were no payments by the Company during the financial year for compensation for loss of office or payments in connection with the termination of qualifying services.

There were no amounts paid to the Executive Directors in respect of their qualifying services by way of expenses allowance that was chargeable to UK income tax.

The nature of the non-cash benefits is set out on page 22.

BONUS MATCHING PLAN

Details of the Ordinary Shares over which the Directors have conditional rights under the bonus matching plan by year of grant are as follows:

Rights under bonus matching plan

	Date granted	Rights held under plan at 31 Dec 03	Rights granted during 2004	Market price of each share on date of grant £	Rights released during 2004	Rights held under plan at 31 Dec 04	Date of end of qualifying period
A J Applegarth	Feb 01	18,663	-	4.65	(18,663)	-	-
	Jan 02	23,723	-	6.66	-	23,723	Jan 05

	Jan 04	-	35,472	7.40	-	35,472	Jan 07
R F Bennett	Feb 01	22,273	-	4.65	(22,273)	-	-
	Jan 02	21,621	-	6.66	-	21,621	Jan 05
	Jan 03	38,728	-	6.10	-	38,728	Jan 06
	Jan 04	-	35,472	7.40	-	35,472	Jan 07
L P Finn (former Director)	Feb 01	35,433	-	4.65	(35,433)	-	-

The value of these awards is being charged to the profit and loss account over the three year period to which they relate. In 2004 £718,646 was charged to the profit and loss account (2003 £561,246).

Further awards were granted on 28 January 2005 at £7.73 per share as follows:

A J Applegarth	47,618
D F Baker	31,605
R F Bennett	31,605
K M Currie (appointed 5 January 2005)	18,120
A M Kuipers (appointed 5 January 2005)	18,120

Rights vested under bonus matching plan during 2004

	Number of ordinary shares	Date on which rights awarded	Market price of each share at award date £	Vesting date	Market price of each share at vesting date £
A J Applegarth	18,663	Feb 01	4.65	Feb 04	7.40
D F Baker	19,658	Feb 01	4.65	Feb 04	7.40
R F Bennett	22,273	Feb 01	4.65	Feb 04	7.40
L P Finn (former Director)	35,433	Feb 01	4.65	Feb 04	7.40

Rights were released in January 2005 at £7.73 per share as follows:

A J Applegarth	23,723
D F Baker	21,621
R F Bennett	21,621
K M Currie (appointed 5 January 2005)	9,383
A M Kuipers (appointed 5 January 2005)	9,383

There were no variations made in the terms and conditions of the Scheme interests during 2004.

The value of the bonus matching award is derived from the annual bonus criteria (relating to the year on year increases in the Group's pre-tax profits on like-for-like ordinary activities) and is therefore dependent on corporate performance. The release of bonus matching share awards at the end of the three year restricted period is not dependent on satisfaction of a further performance condition. For awards in 2005 and subsequent years, subject to shareholder approval at the 2005 AGM, the value of any bonus matching share awards will be dependent on the Group achieving real EPS growth of 3% per annum over the three years prior to their release.

DEFERRED SHARE SCHEME

Details of the Ordinary Shares over which the Directors have conditional rights under the deferred share scheme by year of grant are as follows:

	Date of grant	Rights held under the plan at 31 Dec 03	Rights granted during 2004	Market price of each share on date of grant £	Rights released during 2004	Rights held under the plan at 31 Dec 04	Date of end of qualifying period
A J Applegarth	Feb 01	19,658	-	4.65	(19,658)	-	-

	Jan 04	-	50,676	7.40	-	50,676	Jan 07
L P Finn (former Director)	Feb 01	26,746	-	4.65	(26,746)	-	-

Rights vested during 2004

	Number of ordinary shares	Date on which rights awarded	Market price of each share at award date £	Vesting date	Market price of each share at vesting date £
A J Applegarth	44,516	Feb 01	4.65	Feb 04	7.40
D F Baker	44,516	Feb 01	4.65	Feb 04	7.40
R F Bennett	50,436	Feb 01	4.65	Feb 04	7.40
L P Finn (former Director)	26,746	Feb 01	4.65	Feb 04	7.40

The value of conditional awards is charged to the profit and loss account over the three year performance period to which they relate after taking account of the probability of performance criteria being met. In 2004 £879,251 was charged to the profit and loss account (2003 £874,716).

The gross awards granted in 2002 shown above, matured in January 2005 and led to the release at £7.73 per share of 72.7% of shares originally awarded. Subject to the performance criteria being met, other awards may be exercised during the three month period commencing on the third anniversary of the award dates. The awards will lapse if they are not exercised during these times.

Further awards were granted on 28 January 2005 at £7.73 per share as follows:

A J Applegarth	80,854
D F Baker	50,453
R F Bennett	50,453
K M Currie (appointed 5 January 2005)	34,929
A M Kuipers (appointed 5 January 2005)	34,929

There were no variations made in the terms and conditions of the plan interests during 2004. The number of shares comprised in an award is calculated by reference to a percentage of salary, up to a maximum of 100% of salary. Shares may only be released if demanding performance targets are achieved and if the participant remains in employment, except in certain "good leaver" circumstances. In relation to awards granted in 2004 and previous years, performance is measured over a three year period on the basis of Total Shareholder Return, comparing the Company's performance to that of the other companies in the FTSE 350 Index at the date of the award. For awards in 2005 and subsequent years, the Company's Total Shareholder Return will be compared to that of other companies in the FTSE 100 Index at the date of the award. See page 20 for further details.

PENSIONS

Set out below are details of the pension benefits to which each of the Executive Directors is entitled.

	Age at 31 Dec 04	Years & months of service at 31 Dec 04	Accrued pension entitlement at 31 Dec 04 (Per Annum) £	Accrued pensiom entitlement at 31 Dec 03 (Per Annum) £	Additional pension entitlement earned in year £	Additional pension entitlement earned in year (in excess of inflation) £
A J Applegarth	42	21 years 2 months	199,319	176,458	22,861	17,920
D F Baker	51	27 years 7 months	195,833	176,458	19,375	14,434
R F Bennett	57	11 years 2 months	250,000	233,333	16,667	10,133

	Transfer value of accrued pension entitlement at 31 Dec 04 £	Transfer value of accrued pension entitlement at 31 Dec 03 £	Increase in transfer value less Directors' contributions £	Transfer value of increase in accrued pension entitlement in excess of inflation (less Directors' contributions) £
A J Applegarth	1,471,285	1,216,374	226,661	103,438
D F Baker	2,368,096	1,979,205	370,141	155,450
R F Bennett	4,415,009	3,789,807	606,452	160,582

The accrued pension entitlement is the amount that the Director would receive if he retired at the end of the year. The increase in the accrued pension entitlement is the difference between the accrued pension entitlement at the year end and that at the previous year end. The Listing Rules also require this to be disclosed excluding inflation.

All transfer values have been calculated on the basis of actuarial advice in accordance with Actuarial Guidance Note GN11. The transfer values of the accrued pension entitlement represent the value of assets that the pension scheme would need to transfer to another pension provider on transferring the scheme's liability in respect of the Directors' pension benefits. They do not represent the sums payable to individual Directors and, therefore, cannot be added meaningfully to annual remuneration.

The increase in the transfer value less Directors' contributions is the increase in the transfer value of the accrued pension entitlement during the year after deducting the Director's personal contributions to the scheme.

The transfer value of the increase in accrued pension entitlement, required by the Listing Rules, discloses the current value of the increase in accrued pension entitlement (excluding inflation) that the Director has earned in the period, whereas the change in his transfer value, required by the Companies Act, discloses the absolute increase or decrease in transfer values and thus includes the change in value of the accrued pension entitlement that results from market volatility affecting the transfer value over the year, as well as the value of the additional accrued pension entitlement earned in the year.

Including Mr R F Bennett's unfunded arrangement he has an estimated accrued annual pension entitlement at 31 December 2004 of £250,000. This is based on his total pensionable service of 11 years 2 months and his pensionable service of 19 years 5 months at the rate of accrual of 1/60th per annum and 5 years 1 month at the rate of accrual of 1/36th and his pensionable earnings above the earnings cap. The contributions cost during the year in respect of this unfunded arrangement amounted to £84,862 for the Company and £13,688 for Mr Bennett.

Contingent interests represent Ordinary Shares over which the Directors have conditional rights under the bonus matching plan, the deferred share scheme and the long term incentive plan which is subject to stringent performance criteria being met as described above. Contingent interests on 22 February 2005 includes awards made since 31 December 2004 under the bonus matching plan, the deferred share scheme and the long term incentive plan for periods commencing on or after 1 January 2004.

DIRECTORS' SHARE OPTIONS

Movements in options to subscribe for Ordinary Shares in the Company in which the Directors have an interest during the period 1 January 2004 to 31 December 2004 are as follows:

	Option type	At 31 Dec 03	Exercised in 2004	Exercise price £	At 31 Dec 04 (or date of appointment)	Date from which first exercisable	Expiry date
A J Applegarth	Sharesave 2	7,848	-	2.15	7,848	1 May 05	1 Nov 05
	Share Option Scheme	4,854	(4,854)	6.18	-	-	-
D F Baker	Sharesave 2	7,848	-	2.15	7,848	1 May 05	1 Nov 05
	Share Option Scheme	4,854	(4,854)	6.18	-	-	-
R F Bennett	Sharesave 3	1,580	-	5.98	1,580	1 May 06	1 Nov 06
K M Currie (appointed 5 January 2005)	Sharesave 2			2.15	7,848	1 May 05	1 Nov 05
	Share Option Scheme			6.18	4,854	1 Jun 01	1 Jun 08
A M Kuipers (appointed 5 January 2005)	Sharesave 2			2.15	8,546	1 May 07	1 Nov 07

For each unexercised option at the end of the year, the market price of each share at 31 December 2004 was £7.815, the highest market price during the year was £7.94 (20 December 2004) and the lowest market price during the year was £6.865 (11 August 2004).

On 30 January 2004 A J Applegarth and D F Baker each exercised and sold 4,854 Share Option Scheme shares at a price of £7.40.

The specific individual interests of Executive Directors are shown in the tables above. In addition the Directors are deemed to have an interest in shares held by Trusts for various executive and other employee share schemes at 31 December 2004 as follows:

(i) Northern Rock Employee Trust holds 5,779,139 shares (31 December 2003 – 6,433,225 shares);

(ii) Northern Rock Qualifying Employee Share Ownership Trust holds 2,054,261 shares (31 December 2003 – 2,056,063 shares); and

(iii) Northern Rock Trustees Limited holds 511,241 shares (31 December 2003 – 749,729 shares).

No Executive Director option terms were varied during 2004 and no price was paid for any of the options in the table, other than the all employee Sharesave Scheme, where each Director paid £250 per month.

Options listed in the table above are Inland Revenue approved schemes. The Employee Share Option Scheme was subject to an EPS target which was met in 2004. Options under the Sharesave Scheme do not have any performance conditions.

Nichola Pease
Chairman, Remuneration Committee
22 February 2005

COMMUNITY AND ENVIRONMENTAL REPORT

REPORTING

The Company's website contains detailed information on corporate, social and environmental activities and is our main reporting medium. Updated quarterly, the website contains reports from current and previous years. A hard copy summary of significant events and achievements during 2004 has been produced and is available on request from the Company Secretary. Northern Rock's approach to managing Corporate Social Responsibility (CSR) issues and some notable aspects of 2004 performance are outlined here.

MANAGEMENT OF CSR

The Chief Operating Officer provides Board level representation and leadership of CSR.

Development and implementation of our CSR Policy is now carried out by six working groups made up of senior staff from across the Company. A launch event was held on formation of the groups, led by the Chief Operating Officer, setting out the corporate approach and aims for CSR.

A CSR Department co-ordinates and monitors operational activities and reporting on CSR.

ENGAGEMENT

We continued our engagement with stakeholders and research organisations although this is an area where we need to be selective to ensure effective use of resources.

Contractor evaluation systems were developed further to ensure that our working partners operate to acceptable standards.

GOVERNANCE AND ACCOUNTABILITY

Northern Rock's approach to compliance with the Combined Code was delivered in a presentation to shareholders by the Chairman which was broadcast on our website.

CSR risks were reviewed as part of the formal corporate risk management process and are included in our operational risk monitoring and reporting systems.

BUSINESS ETHICS AND HUMAN RIGHTS

Our Code of Conduct was reviewed and the revised version published on the Company's website.

Existing training on awareness and prevention of money laundering was supplemented by refresher training for senior management.

The Company reviewed its obligations under public interest disclosure, strengthening the policy to protect staff in the event of 'whistle blowing'.

WORKPLACE

We continued to demonstrate pro-active and sustained commitment to equality in employment, working with various organisations to provide opportunities for individuals from diverse groups and ensure our workforce is representative of the community. Specific initiatives included increasing the numbers of disabled staff, assisting the long-term unemployed to find work, support for refugee programmes, ensuring best practice in diversity and racial equality and support for the Age Positive Campaign.

Worklife Balance activities were geared towards improved flexibility and the move away from core hours. Lifestyle working extends to all graded staff, including managers.

Training and education remain key features of staff development and in 2004 we carried out the largest training exercise we have ever undertaken, delivering a Customer Service training programme to all staff, led by the Chief Executive and Chief Operating Officer.

We supported the Government sponsored National Learning Day by holding our own Learning Week, with activities available to all staff. Personal development was further encouraged through wider availability of e-learning materials.

In Health and Safety, we implemented a new management system, focusing on key risk areas. Progress was tested by participation in the Corporate Health and Safety Performance Index (CHASPI) pilot exercise, where we recorded sector-leading results.

MARKETPLACE

Affordability of loans for customers is a key aspect of responsible lending. Enhanced procedures for the certification of affordability were introduced and are followed by our sales force and intermediaries.

A programme of work continued to ensure that we comply with all relevant aspects of the Disability Discrimination Act.

Surveys of customers who transferred to Northern Rock on our acquisition of Legal & General Bank in 2002, continued in 2004, with positive results recorded.

More detailed information on our Marketplace activities is set out in the Operating and Financial Review.

COMMUNITY

The annual donation of 5% of pre-tax profits to The Northern Rock Foundation is the biggest single contribution we make to the communities in which we operate. In 2004, this amounted to £21.6 million.

Northern Rock staff contribute to many charitable causes and community activities, notably the corporate charity which is chosen by staff on an annual basis. In 2004, the Children's Wish Foundation was selected and staff raised over £100,000, matched by The Northern Rock Foundation.

ENVIRONMENT

Positive recognition for our well-developed environmental management systems included retention of our Premier League status in the Business in The Environment Index.

Our largest sites operated on renewable energy until contracts ended in October. When renewing our energy contracts, we were unable to obtain renewable energy but secured energy exempt from climate change levy for the whole portfolio.

A review of secure paper recycling methods yielded significant cost savings whilst maintaining data protection compliance.

A transport survey of all staff working at our Gosforth Head Office showed that use of alternative forms of transport had increased in recent years, whilst driver-only car journeys had reduced. Further development and promotion of travel plans for Head Office were carried out using feedback from the survey.

THE NORTHERN ROCK FOUNDATION

Since 1997 Northern Rock plc has donated nearly £120 million to The Northern Rock Foundation, which was established following Northern Rock Building Society's conversion to a public limited company. The Company covenants 5% of its pre-tax profit each year to the Foundation. By percentage of profits Northern Rock is the UK's 3rd biggest corporate donor (as reported in 'The Giving List', the Guardian, November 2004).

The Foundation is an independent grant-making trust supporting charitable causes in Cumbria, Northumberland, Tyne and Wear, Durham and the Tees Valley. Its primary aim is to help improve the conditions of those disadvantaged in society. 2004 was the Foundation's seventh year of operation. During the year its Trustees awarded 329 grants worth £17.3 million and invested a further £8.2 million in two special initiatives: tackling domestic violence and reducing re-offending. Since 1997 the Foundation has awarded grants worth more than £92.6 million.

In 2004 the Foundation's Trustees continued the grant programmes introduced in the previous year, and maintained their policy of funding activities exclusively in the North East and Cumbria. The majority of the Foundation's grants targeted social and economic disadvantage. The Prevention, Regeneration and Basics programmes dealt with a broad range of issues, including prejudice and discrimination, the decline of decent community facilities, youth disaffection, tackling economic inactivity, development of social enterprises, mental ill-health and welfare advice.

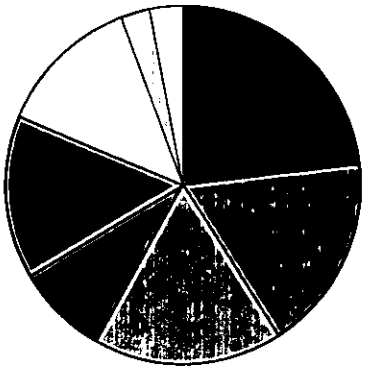
During the year the Foundation maintained its role as a major funder of cultural activity in the region. Through its Aspiration and Capital programmes it made grants worth £4.8 million for high profile arts, heritage, environment and sport organisations. The Foundation also became a key partner in the Culture 10 initiative, a ten-year programme of high profile cultural activity focused on Newcastle Gateshead, but including other parts of the North East. The Foundation has committed £2 million from its existing Aspiration programme to projects brought forward under the Culture 10 banner up to 2006.

In 2004 the Foundation made its third Writer's Award, one of the largest literary prizes in the UK, which it runs in partnership with New Writing North. The 2004 winner was Newcastle-based poet Tony Harrison. Tony said:

"The Northern Rock Foundation Writer's Award could not have come at a better time in my career. I need to look back on my poetic ventures, make sense of them as a whole and move forward... and to experiment without external demands. The award makes all this finally possible and I am extremely grateful to The Northern Rock Foundation."

The Foundation continued to play a key role in regional and national developments in the grant-making world. It was a founder member of a campaign to raise awareness of, and seek solutions to the problems arising from the decline and disappearance of a number of national funding streams that have supported social and economic regeneration in the region. Under its loan scheme, introduced in 2003, the Foundation invested £968,000 in organisations to provide working capital, and to purchase assets. The Foundation also played a lead role in the consortium running the Government's £125 million Futurebuilders fund, designed to strengthen the capacity of voluntary organisations to deliver public services. The Foundation's Director is Vice-Chair of the Futurebuilders' Board, a Trustee sits on its investment committee and a member of staff is seconded to manage its investment team.

The Foundation also runs a scheme to match every pound donated to charities by Northern Rock employees. Some of the money comes from the Give as You Earn (GAYE) scheme through which employees donate a regular monthly sum from their salary, also attracting a small government subsidy. But by far the majority of the donations come from the fundraising efforts of staff members. In 2004 the seven-year total raised by staff when matched by the Foundation reached £2 million. The total raised and matched in 2004 was £264,000.



The Trustees expect to maintain the current grant programmes in 2005, although particular priorities within them may change.

OPERATING AND FINANCIAL REVIEW

OVERVIEW

Profit before tax for the year increased by 11.5% to £431.2 million and profit after tax increased by 11.6% to £306.2 million. The 2003 results have been restated to reflect a change in accounting policy following the adoption of UITF 38 – Accounting for ESOP Trusts, resulting in an increase in staff costs and a decrease in profit of £0.2 million. On a like-for-like basis (excluding from the 2003 restated results, the £5.6 million non-recurring costs associated with the closure of certain branches, the £7.3 million surplus on the disposal of the credit card portfolio together with a £3.6 million contribution prior to its sale, and the effect on the covenant to The Northern Rock Foundation), both profit before tax and profit after tax increased by 13.0%. Return on equity in 2004 was 21.3% compared with a restated 21.9% in 2003. Reported earnings per share grew to 74.1p in 2004 (2003 - restated 66.6p), an increase of 11.3%.

		2003		
	2004	Reported (Restated)	Adjustments	Like-for-Like (Restated)
	£m	£m	£m	£m

Profit on ordinary activities before tax	431.2	386.6	(5.0)	381.6
Tax on profit on ordinary activities	(125.0)	(112.2)	1.5	(110.7)
Profit on ordinary activities after tax	306.2	274.4	(3.5)	270.9
Dividends	(110.0)	(96.3)	-	(96.3)
Profit retained for the period	196.2	178.1	(3.5)	174.6

Assets under management, including loans and advances subject to securitisation, at 31 December 2004 amounted to £64.9 billion, an increase of 24.9% (2003 – restated £51.9 billion). Net assets, including the securitised bonds (shown as a deduction from assets) grew by 15.3% to £42.8 billion (2003 - restated £37.1 billion).

TOTAL INCOME

	2004	2003
	£m	£m
Net interest income	466.9	450.7
Other income	264.0	201.7
Total underlying income	730.9	652.4
Surplus on sale of credit card portfolio	-	7.3
Total income	730.9	659.7
Total income : mean total assets (underlying)	1.83%	1.87%
Total income : mean total assets	1.83%	1.89%
Total income : mean assets under management (underlying)	1.25%	1.39%
Total income : mean assets under management	1.25%	1.41%

Total reported income in 2004 amounted to £730.9 million (2003 - £659.7 million), an increase of 10.8%. Underlying total income amounted to £730.9 million an increase of 12.0%. On the same basis, total income as a proportion of mean total assets at 1.83% shows only a slight reduction from 1.87% for 2003. The ratio of underlying total income to mean total assets under management at 1.25% remained unchanged compared with the first half of 2004, having eased from an underlying 1.39% in 2003.

INTEREST SPREAD AND MARGINS

	2004 £m	2003 £m
Interest receivable	2,989.4	2,153.8
Interest payable	(2,522.5)	(1,703.1)
	466.9	450.7
Average balances		
Interest bearing assets	57,071.3	46,435.1
Interest bearing liabilities	55,957.2	45,570.6
Interest margin	0.82%	0.97%
Interest spread	0.73%	0.90%

Interest receivable and payable represent amounts reported in the Profit and Loss account, adjusted to transfer securitisation interest payable to interest payable, and include income from equity shares and other variable yield securities in interest receivable. Interest bearing assets and liabilities have been adjusted for securitised assets and non-recourse finance and interest bearing assets include equity shares and other variable yield securities.

Interest margin has been calculated by reference to average interest earning assets. Interest spread represents the difference between interest receivable as a % of average interest earning assets and interest payable as a % of average interest bearing liabilities. Average balances have been calculated on a monthly basis.

In 2004 interest margin and spread were 0.82% and 0.73% respectively compared with 0.85% and 0.77% in the first half of the year (2003 full year - 0.97% and 0.90%). During the second half of 2004 spreads on lending were stable compared with the first half, consistent with the mix of lending volumes. Throughout 2004, liability spreads were, however, adversely affected by money market rates anticipating increases in bank base rate, resulting in a net increase in our cost of funding. The differential in rates is expected to return to more normal levels in 2005 as evidenced by the reduction in money market rates towards the end of 2004.

OPERATING EXPENSES

(excluding the covenant to The Northern Rock Foundation and amortisation of goodwill)

	2004 £m	2003 (Restated) £m
Staff costs	119.3	101.0
Other expenses	84.2	77.0
Depreciation	19.0	16.5
Total underlying expenses	222.5	194.5
Non-recurring costs	-	5.6
Total operating expenses	222.5	200.1

Non-recurring costs in 2003 represent costs incurred in relation to the closure of certain branches.

Total operating expenses amounted to £222.5 million representing an increase of 14.4% over 2003 underlying operating expenses of £194.5 million (excluding one off costs of £5.6 million relating to the closure of certain branches). The increase of 14.4% compares with an increase in assets under management of 24.9% and total income of 12.0% on an underlying basis, resulting in a cost to assets under management ratio of 0.38% (2003 underlying - 0.41%) and cost to income ratio of 30.4% (2003 underlying - 29.8%).

Included in 2004 operating expenses are £3.6 million incremental costs in relation to increased regulatory requirements. Excluding these additional costs, the cost to assets under management ratio would have been 0.37% and the cost to income ratio 29.9%.

The full impact of additional regulatory costs, which will affect all UK banks, will amount to around £10.0 million for Northern Rock in 2005. Our competitive advantage of cost efficiency remains in place as do our targets of improving our cost ratios by growing costs at less than the rate of growth of income and between one half and two thirds the growth in assets under management.

SOCIAL RESPONSIBILITY - THE NORTHERN ROCK FOUNDATION

Northern Rock donates 5% of pre-tax profit to The Northern Rock Foundation under a deed of covenant. Such donations are used to support community and charitable causes mainly in the North East of England and Cumbria. In addition, a £0.5 million donation is to be made by the Foundation to support the Asian tsunami aid relief. The donation from 2004 profits amounts to £21.6 million (2003 - £19.3 million), resulting in almost £120 million having been distributed since its inception in 1997 as an integral part of Northern Rock's conversion to a plc.

PROVISIONS FOR BAD AND DOUBTFUL DEBTS

The arrears position of our residential mortgage book has further improved despite the growth in mortgages under management. At 31 December 2004 there were 2,135 (2003 - 2,414) accounts three months or more in arrears representing only 0.37% (2003 - 0.45%) of all mortgage accounts, less than half the UK average at 31 December 2004 of 0.80%. The "together" secured advances default performance has also remained consistent, with three months plus arrears at 0.77% at 31 December 2004 (2003 - 0.77%). At 31 December 2004 181 properties, representing only 0.03% of all accounts were in possession compared with 179 (0.03%) at the end of 2003.

Standalone personal unsecured loan arrears are also significantly better than industry average, reflecting our policy of attracting high quality lending via our risk reward pricing. At 31 December 2004 only 1.04% of our standalone personal unsecured loans were three months or more in arrears (2003 - 0.98%) compared with an historic industry average of around 3%. Unsecured loans within the "together" brand continued to perform in line with the "together" secured advances and better than traditional personal unsecured loans with only 0.78% three months or more in arrears (2003 - 0.80%).

Our commercial loan portfolio also continued to perform well with only 0.31% of our commercial loans three months or more in arrears (2003 - 0.53%).

The charge for provisions for bad and doubtful debts amounted to £56.5 million for the year (2003 - £48.7 million) representing 0.18% of mean advances to customers (2003 - 0.19%). The combination of high quality lending, low interest rates, low arrears and strong house price inflation have continued to contain the levels of specific provisions required for residential mortgages. Provisions for the other secured lending portfolio have been maintained consistent with performance and expected economic conditions for this sector.

The growth in provision balances against our personal credit portfolios reflects growth in balances, the maturing nature of the portfolios and our continued prudent provisioning policy. As a result, general provisions are 47% (2003 - 51%) of total provision balances for these portfolios with total provision cover of 1.68% (2003 - 1.70%). Total provisions against our personal credit portfolios are considered appropriate given the quality and performance of our loans.

TAXATION

The tax charge for the year as a percentage of profit before tax was 29.0% (2003 - 29.0%). We anticipate, with a corporation tax rate of 30%, that the ongoing effective tax rate will be 29.0% to 30.0% in the medium term.

	%
Standard corporation tax rate for 2003	30.00
Effect of net non-taxable items	(0.33)
Adjustment to prior year tax provisions	(0.67)
Effective tax rate	29.00

LENDING

During 2004 Northern Rock has again achieved record levels of total lending. Total gross lending was £23,342 million, an increase of 34.8% (2003 - £17,315 million), with total net lending of £12,932 million, an increase of 51.9% (2003 - £8,514 million). Prospects for 2005 are good, with an opening pipeline of £5.1 billion, an increase of 31.8% (2004 opening - £3.9 billion). The opening residential lending pipeline at £4.7 billion represents an increase of 36.6% (2004 opening - £3.4 billion).

The UK residential lending market was particularly buoyant during the first half of 2004 with levels of both gross and net lending exceeding the equivalent period in 2003. Since then both gross and net lending and net awards have slowed, following the effect of 5 one quarter per cent increases in bank base rate since November 2003. By the end of 2004 annual house price inflation was at similar levels to that seen in 2003 although the second half of the year showed limited growth, providing clear evidence that house price inflation is slowing. With the level of housing transactions at the lower end of long term trends and house price inflation likely to be over for the time being, new residential lending is likely to show some contraction in 2005. Gross lending will, however, be supported by sustained levels of remortgage activity as customers seek to refinance to obtain better deals and to protect their personal budgets. Economic conditions remain supportive to the market with low inflation, low unemployment, low interest rates and consequently good affordability.

Against this background we achieved gross residential lending of £20,051 million (2003 - £15,212 million) and net residential lending of £11,383 million (2003 - £7,861 million), representing increases of 31.8% and 44.8% respectively. Our share of gross residential lending for the year was 6.8% and our market share of net residential lending was 11.2%. This compares with 5.8% and 8.2% respectively for the first half of 2004. Our share of redemptions was only 4.5%, again significantly lower than our closing share of mortgage stock of 5.5%. This was due to our pro-active customer retention process and our fair and transparent policy of allowing existing customers, subject to contractual terms, to transfer their loan to any product available to new borrowers.

The low risk profile of our new lending has continued despite strong growth in volumes. The proportion of lending to first time buyers reduced to 21% (2003 - 23%) with 79% of new customers having a proven payment track record. The average Loan to Value ratio ("LTV") of new lending in 2004 remained similar to 2003 at around 75% and new lending below 90% LTV was 75% (2003 - 71%) of completions. The average indexed LTV of our mortgage book is now 53% (2003 - 55%) providing strong cover in the event of default. We have minimal exposure to large loans with only around 3.5% of new loans over £500,000 and we maintained an excellent geographic spread of lending.

We offer customers a wide range of innovative and attractive products including lifestyle products and traditional price-led products. Our lifestyle products comprise our "together" family of products, Lifetime Home Equity Release Mortgages ("HERM") and residential Buy to Let mortgages. The "together" products combine a secured and unsecured loan at one interest rate and one monthly payment. Gross lending of "together" products amounted to £4.5 billion of which £3.8 billion were advances secured on residential property representing 20.7% of new residential lending, excluding further advances. Outstanding balances of "together" mortgages remained around one fifth of our mortgage portfolio throughout 2004.

Our HERM range is aimed at homeowners aged over 60 who wish to utilise equity in their homes to enhance their lifestyle. Such lending accounted for 1.8% of gross new residential lending (2003 - 3.4%), with outstanding HERM balances representing 3.1% (2003 - 3.0%) of our year end mortgage balances.

Residential Buy to Let lending is focussed on lending to private investors secured on good quality residential properties with low LTVs. Such lending accounted for 4.0% (2003 - 2.4%) of our year end mortgage portfolio and for 6.4% (2003 - 1.7%) of gross new residential lending. This type of lending is likely to remain a niche part of our overall portfolio of lending and will be supported by demand following changes in pension legislation allowing rental properties to be included within investors' pension plans.

In total, our lifestyle products, which are margin enhancing, represented 28.9% (2003 - 30.1%) of our gross new residential lending and 25.3% (2003 - 25.4%) of year end mortgage balances.

Of our traditional price-led mortgage products, fixed-rate mortgages remained the most popular with 46.4% (2003 - 45.5%) of total new lending accounted for by short term fixed products up to two years, and 7.5% (2003 - 10.1%) by longer term fixes normally up to a maximum of seven years. This demand reflected customers' preferences to obtain certainty of monthly repayments during a period of rising interest rates.

Our personal unsecured credit portfolios comprise the unsecured element of "together" lending and standalone unsecured loans not linked to a residential mortgage. During 2004 gross unsecured lending amounted to £2,792 million (2003 - £1,694 million) with net lending of £1,367 million (2003 - £569 million). Gross standalone unsecured lending amounted to £2,068 million (2003 - £1,130 million) with net lending of £1,104 million (2003 - £417 million). The increase in standalone unsecured lending over 2003 reflects the deliberate containment of such lending in the first half of 2003 with a return to the market in the second half of that year. At 31 December 2004 our unsecured lending balances were £4,669 million (2003 - £3,293 million) of which 40.3% (2003 - 48.7%) represented "together" unsecured advances.

We have continued to grow our commercial lending portfolio gradually, maintaining our emphasis on quality rather than volume of lending. Gross lending in the year amounted to £499 million (2003 - £409 million) with net lending of £182 million (2003 - £84 million).

The composition of our lending portfolios has continued to be low risk. At the year end 88.7% of our loans under management were residential (2003 - 89.1%), 2.9% commercial secured loans (2003 - 3.3%) and only 8.4% (2003 - 7.6%) within our personal unsecured portfolios. This mix is not expected to significantly change going forward.

RETAIL FUNDING

Total retail deposit balances for the year increased by £896 million to £17,239 million (2003 - £16,343 million), an increase of 5.5%. This increase comprised a net inflow of retail funds for the year of £489 million plus interest credited of £407 million. In the second half of the year we achieved a net inflow of over £1.0 billion of retail funds, following a net outflow of £163 million in the first half, representing our best ever half year performance and clearly demonstrating the strength and diversity of our retail franchise.

The funding during the year was largely into our Silver Savings account launched in September 2004 for the over 50s which had attracted balances of over £1,250 million by the year end. Fixed rate bonds also remained popular. Balances in our Ireland based operation rose by 18.3% to £628 million, with £1,871 million (2003 - £1,875 million) in our Guernsey based off-shore vehicle.

NON-RETAIL FUNDING

Total net non-retail funding for the year amounted to £2,770 million with balances at 31 December 2004 amounting to £19,746 million (2003 - £16,976 million). Our non-retail funding provides a balanced mixture of short and medium term funding with increasing diversification of our global investor base.

During 2004 we raised £3.4 billion medium term, wholesale funds from a variety of sources located globally, with specific emphasis on the US and Europe. A major feature was the increased utilisation of our US Medium Term Note programme from which we raised US$3.7 billion in both senior and subordinated form. Already in 2005 we have raised a further US$1.75 billion under this programme and in the remainder of the year plan to raise further non-retail funds, including possible issuances in Asia.

With regards to short term funding, key developments include the establishment of a €2.0 billion French Certificate of Deposit programme which provides access to domestic French investors. This programme had outstanding balances of €1.1 billion at the year end. Further diversification will be achieved in the current year with the intended establishment of a Canadian Commercial Paper programme.

SECURITISATION

Funding through securitisation has remained an integral part of Northern Rock's funding strategy. During 2004 three issues were completed raising £11.1 billion. Diversification of our investor base continued with over 70% of the securitised bonds in 2004 being issued in US dollars or euros. The characteristics of the mortgages securitised, in terms of product type, LTV and geographic distribution remain similar to those of our on-balance sheet mortgages, ensuring that we are maintaining the quality of our balance sheet.

At 31 December 2004 assets under management subject to securitisation amounted to £22.3 billion (2003 - £15.7 billion), representing 40% (2003 - 36%) of our total lending portfolios.

In 2005 we have already raised a very well received £4.5 billion securitisation of residential mortgages. Our programmes will continue to be developed with further issues during 2005.

COVERED BOND

In the first half of 2004 we raised €2.0 billion from an inaugural covered bond issue from a newly established €10 billion programme. The covered bond is secured by a pool of ring-fenced residential mortgages which remain on-balance sheet as Northern Rock retains substantially all the risks and rewards associated with the loans.

DIVIDENDS

The interim dividend paid in October 2004 was 8.5p per share. The proposed final dividend of 18.0p per share is payable on 27 May 2005 to shareholders on the register on 29 April 2005. This results in a total dividend payable for the year of 26.5p per share (2003 - 23.3p), an increase of 13.7%.

CAPITAL

At 31 December 2004 total capital amounted to £3,239 million resulting in a total capital ratio of 14.0%, comfortably above regulatory and internal requirements. Tier 1 capital was £2,015 million and the Tier 1 ratio 8.7%. The comparable ratios at 31 December 2003 were 14.3% and 9.0% respectively.

In the first half of 2004 we raised $700 million (£396 million equivalent) of Upper Tier 2 capital via our US Medium Term Note programme delivering an excellent diversification of capital from the US domestic market.

During 2004 we continued to embed our Basel II credit risk systems within our normal operational activities and remain on target to adopt the Retail Internal Ratings Based approach currently anticipated to commence on 1 January 2007. Significant investment is also being made in our Operational Risk management systems and in line with the FSA's expectations for the sector we intend to initially adopt the Standardised Approach to Operational Risk. We will closely examine the consultation paper from the FSA, issued at the end of January 2005, with a view to seeking approval for our proposed approaches as early as possible.

Our low risk balance sheet means that we expect to achieve significant reductions to the levels of our total regulatory risk weighted assets for credit exposures compared to current levels. This should result in future capital efficiencies subject to consultation with the FSA and credit rating agencies.

The table below analyses Northern Rock's capital resources at 31 December 2004 and 2003:

	2004	2003 (Restated)
	£m	£m
Tier 1		
Share capital	123.9	123.9
Share premium account	6.8	6.8
Capital redemption reserve	7.3	7.3
Profit and loss account	1,403.9	1,201.9
Reserve capital instruments	300.0	266.3
Tier one notes	200.0	200.0
Goodwill	(27.1)	(30.7)
Total Tier 1 capital	2,014.8	1,775.5
Upper Tier 2		
Perpetual subordinated debt	746.4	350.3
Reserve capital instruments	-	33.7
General provisions	83.1	75.4
Total Upper Tier 2 capital	829.5	459.4
Lower Tier 2 capital		
Term subordinated debt	769.3	769.2
Total Tier 2 capital	1,598.8	1,228.6
Deductions	(374.7)	(190.5)
Total capital	3,238.9	2,813.6
Risk weighted assets	23,099.2	19,690.5
Tier 1 ratio (%)	8.7%	9.0%
Total capital (%)	14.0%	14.3%

POTENTIAL IMPACT OF INTERNATIONAL FINANCIAL REPORTING STANDARDS

Northern Rock, along with all European Union listed companies will be required to prepare its financial statements under International Financial Reporting Standards ("IFRS") (sometimes referred to as International Accounting Standards) from 1 January 2005. In certain areas these standards represent a significant change from UK GAAP. A number of uncertainties currently exist concerning the adoption of the new standards and their impact on Northern Rock. In particular, the approach of the Financial Services Authority towards IFRS was outlined in Consultation Paper 04/17. The discussion period for this Consultation Paper ended on 31 January 2005. In addition, the tax treatment of certain aspects of IFRS has not yet been fully determined by the Inland Revenue and the effect of these uncertainties is under review. The combination may affect both the tax charge and our accounting and regulatory equity ratios.

IFRS includes a number of areas, principally financial instruments, where fair values are required to a far greater extent than under UK GAAP. This will create greater volatility in reported results and have an associated impact on other financial measures. However, the change to IFRS does not alter the cash flows of the business, but spreads the profitability throughout the life of the loan. The change to IFRS will not change the way Northern Rock does business.

The key changes and their anticipated effect on Northern Rock are set out below.

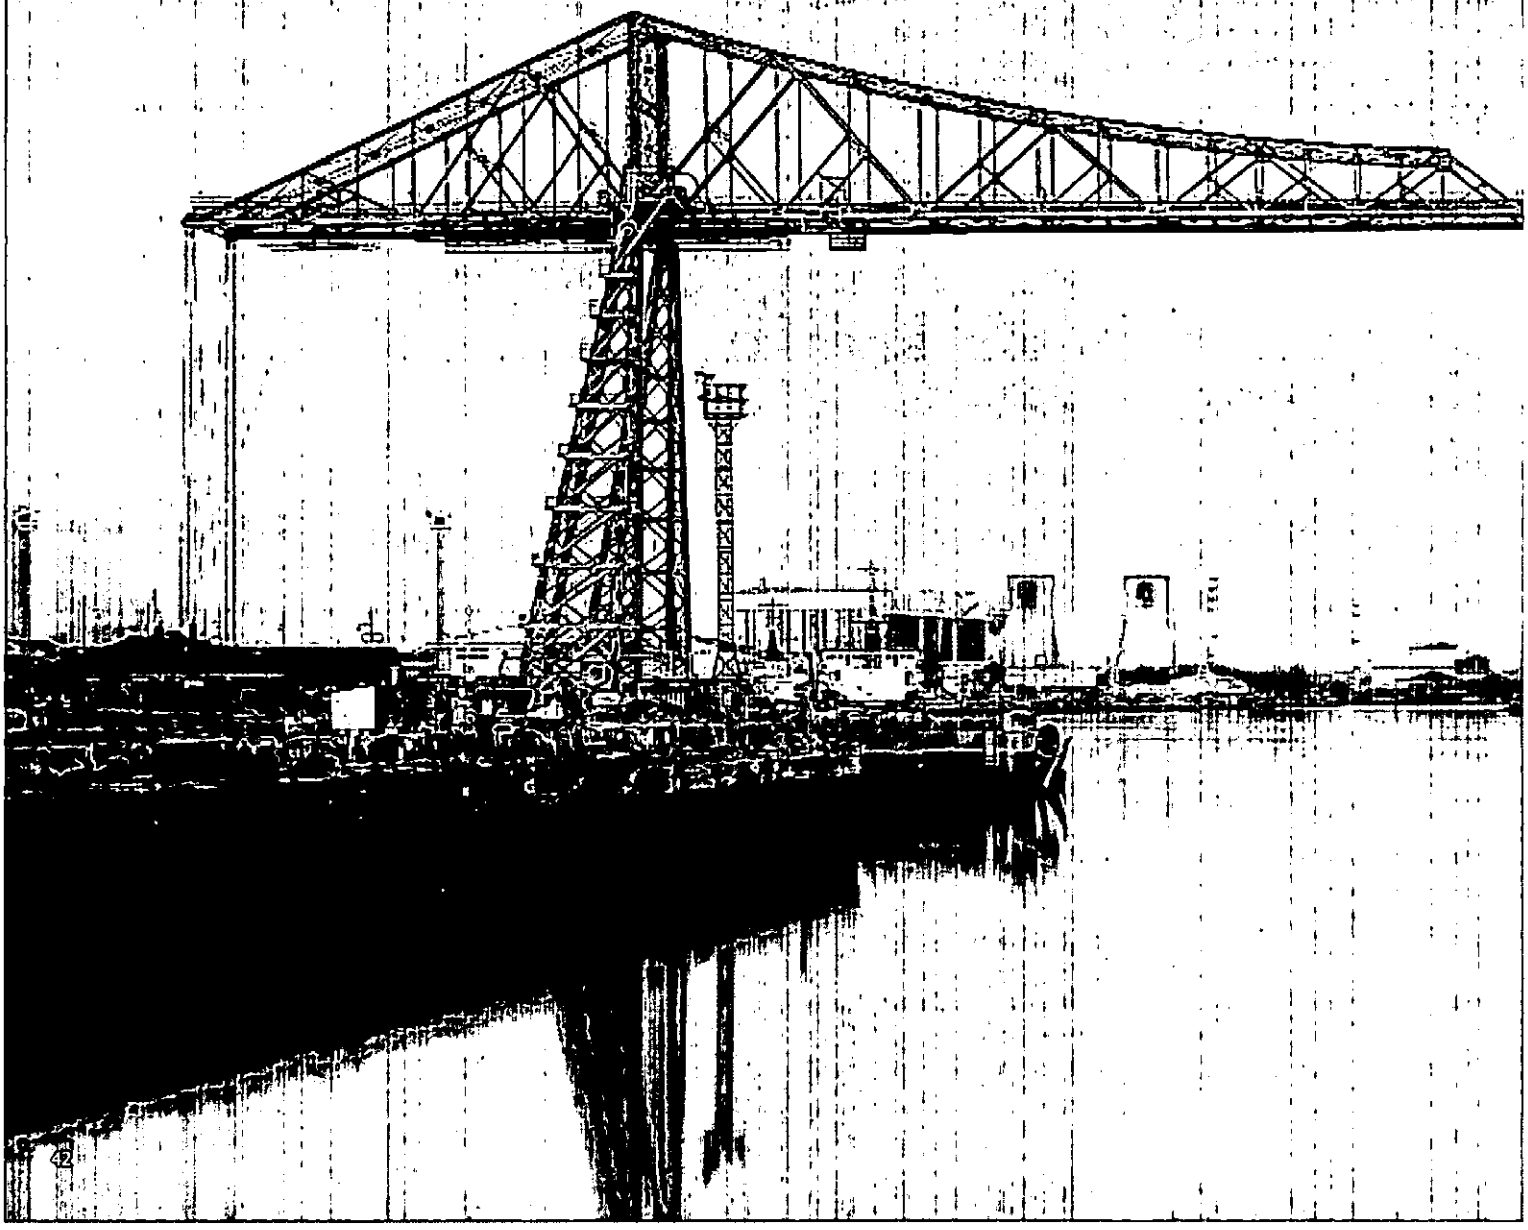
Issue	Effect on financial statements
Hedge accounting Northern Rock manages the financial risks arising from its business using a number of derivatives instruments such as interest rate swaps, interest rate options, forward rate agreements, interest rate and bond futures, currency swaps and forward exchange contracts. IAS 39 requires derivatives to be recognised at fair value, with changes in valuation impacting the profit and loss account, potentially resulting in significant earnings volatility. Hedge accounting permissibility is much more restricted under IAS 39 than at present under UK GAAP. Northern Rock has reviewed its underlying processes to ensure it maximises the natural offsets between assets and liabilities and designs compliant hedging strategies wherever possible for the remainder. However, the overriding objective continues to be to provide an economic hedge for the market risks arising from its underlying business.	To the extent that hedge effectiveness is not achieved for derivatives, the movements in fair value of the derivatives would impact on the profit and loss account increasing volatility in earnings.
Effective interest rate IAS 39 requires the inclusion of all origination fees, including prepayment penalties in the calculation of the effective interest rate. Only direct costs of origination may be included within the calculation of effective interest rate.	Income earned and introducer fees paid will be spread throughout the life of the loan, reducing the amount of income earned in early years and increasing the amount of income earned in later years.
Provisions IAS 39 will remove the split between specific and general provisions, and, in common with current UK GAAP, will only allow impairment allowances to be established where the loss has already been incurred based on whether objective evidence exists that the asset or group of assets is impaired. The impairment allowance must be calculated using the present value of future cash flows, using the financial asset's original effective interest rate.	Slight increase in volatility as provisions reflect the economic climate at the reporting date.
Pensions IAS 19 is broadly consistent with the existing UK standard on pensions, (FRS 17), with the fund valuation depending on market conditions at the year end. However, actuarial gains and losses may be recognised in full as they arise outside the profit and loss account in a statement of recognised income and expense.	As with FRS 17 the pension charge is likely to be higher than the present SSAP 24 charge. The equity impact will depend on market conditions.
Taxation IAS 12 (Income Taxes) is conceptually different to the previous accounting standard (FRS 19), however, little difference is expected in practice between the two standards.	The Group's effective tax rate is not expected to be materially different although there may be greater volatility in the current charge. It is expected that this would be broadly offset by compensating movements in deferred tax.

Issue	Effect on financial statements
Classification of debt versus equity Under IAS 32 certain financial instruments which are currently classified as debt instruments may be classified as equity instruments.	The coupon payable on such instruments would be classified as an equity distribution. This would increase profit before tax, but become a distribution of profit to investors.
Employee share schemes IFRS 2 requires that for all equity settled transactions with employees the fair value of the employee services should be measured by reference to the fair value of the instrument at the date of grant. This charge is spread over the vesting period. The standard applies to all share schemes and has no exemption for SAYE schemes.	The impact on Northern Rock will result in a small increase in employee costs.
Securitised assets A significant source of funding to Northern Rock is through the securitisation of residential and commercial mortgage assets. The structure of these funding vehicles results in the disclosure of these mortgage assets, and the related funding, through linked presentation in accordance with FRS 5. Under IFRS no such presentation exists, so all assets and liabilities will remain within their normal line items.	Both mortgage assets and liabilities will remain within their original line items. All profit and loss items will also remain within their usual captions.

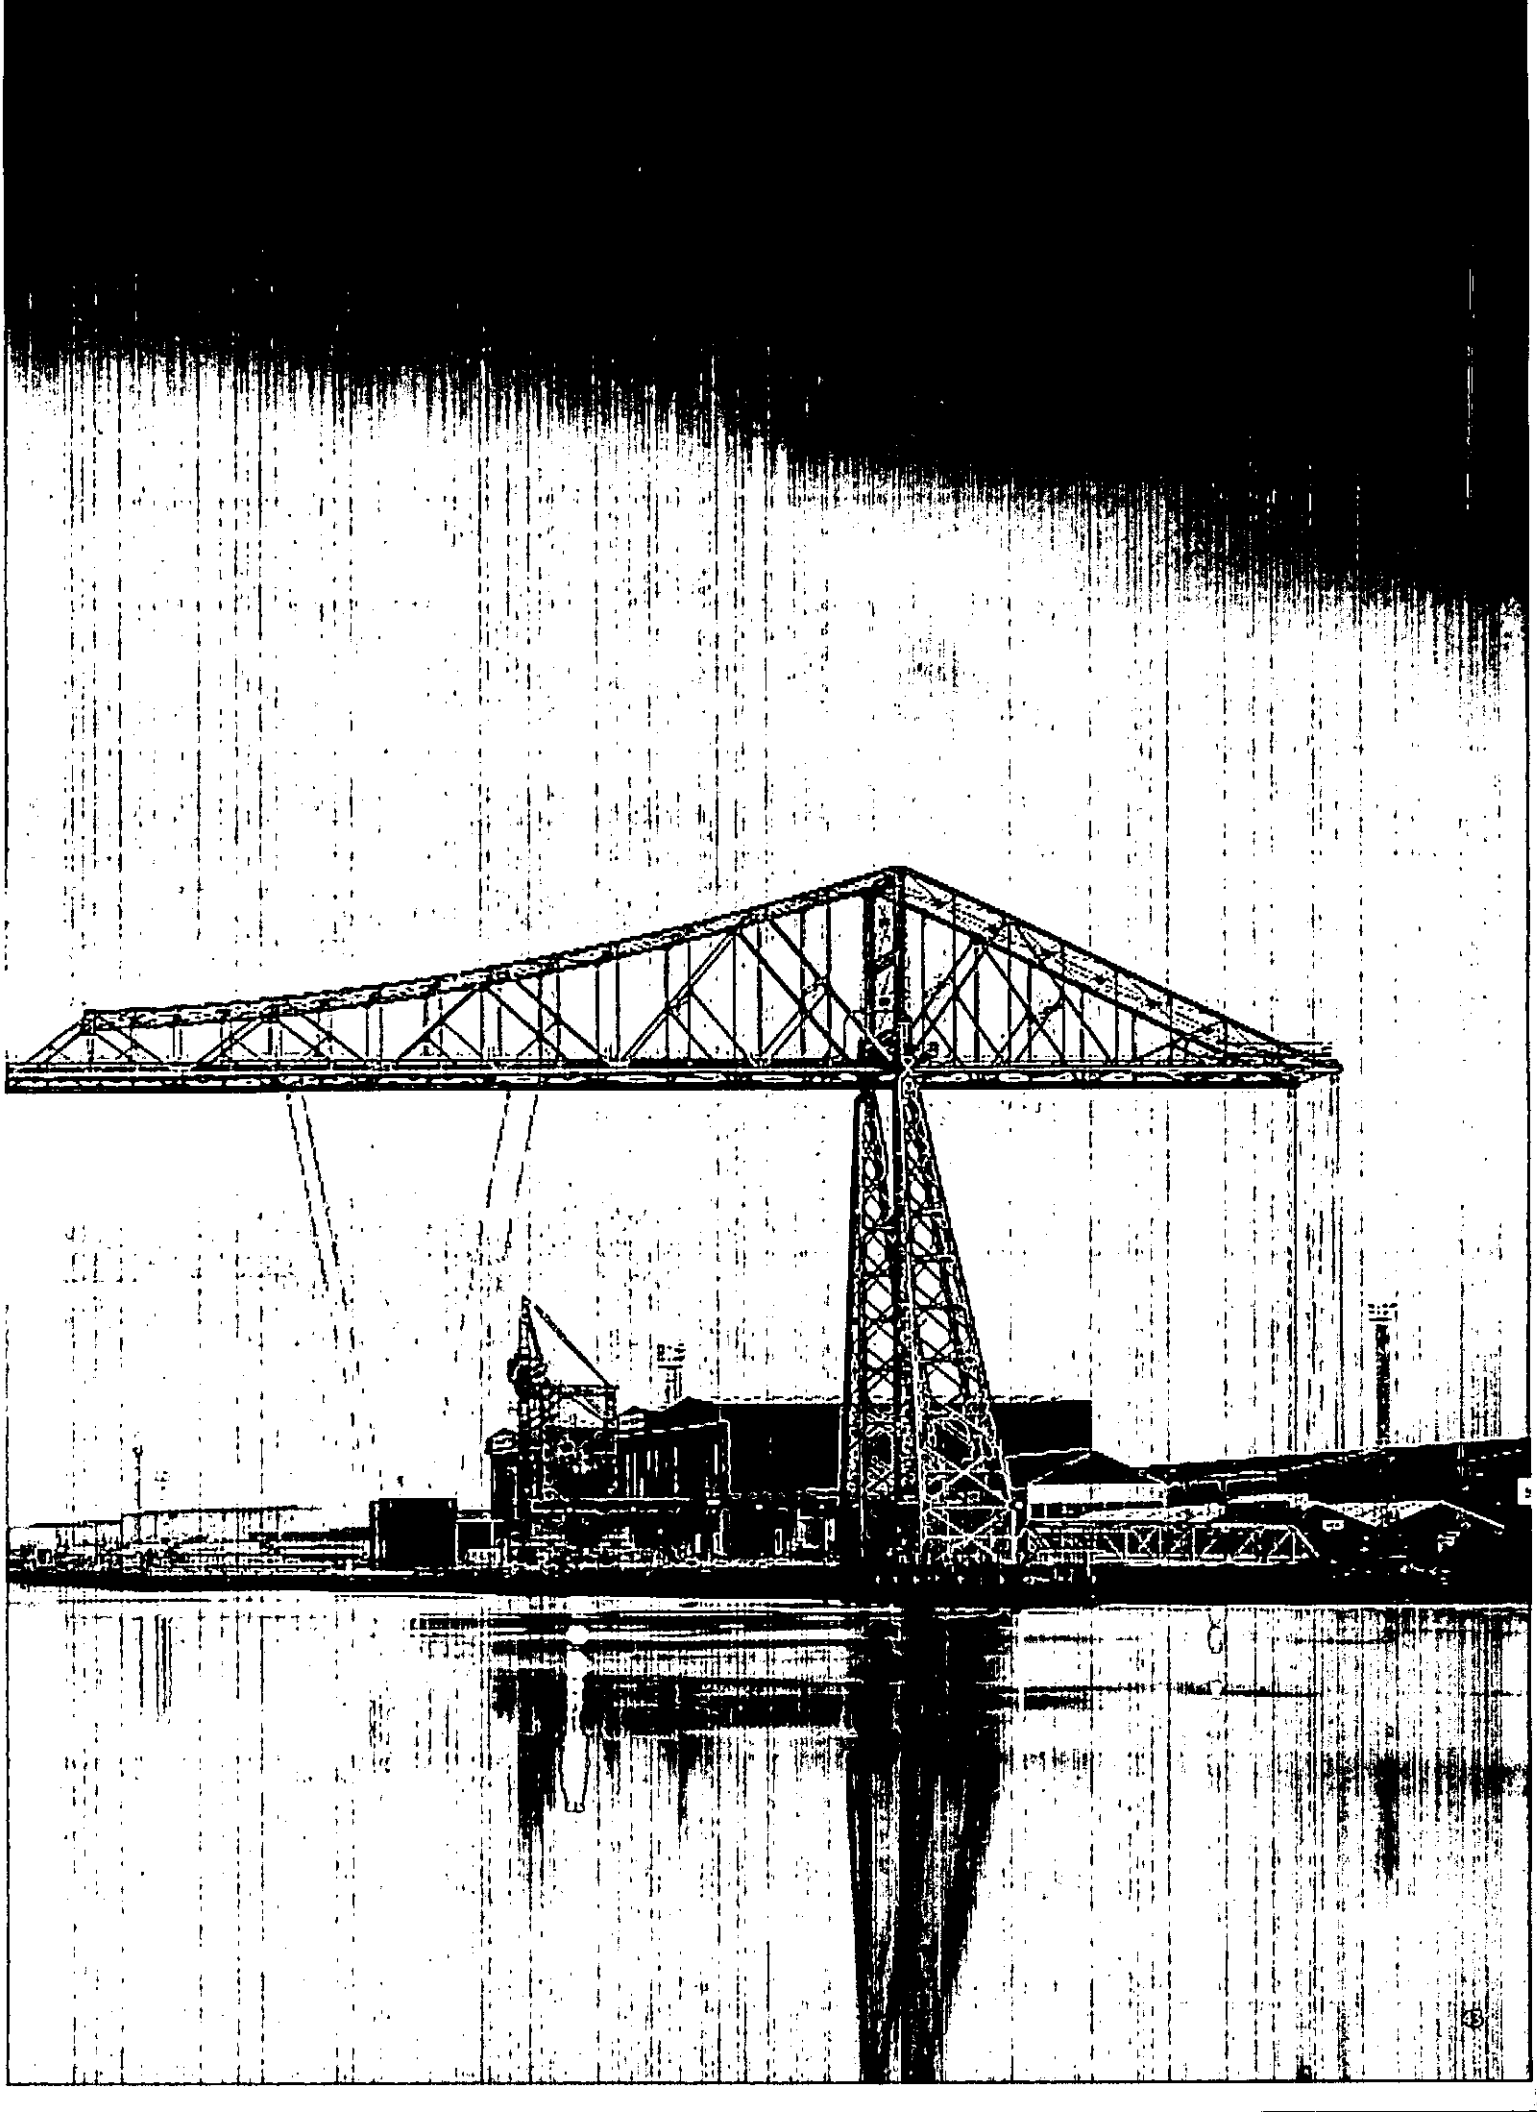
OUTLOOK

The home moving market is expected to continue to remain at similar levels to 2004, at the lower end of longer term trends, for at least the next two years. Many first time buyers will continue to be excluded from the market as a result of higher house prices, the competition with Buy to Let investors for traditional first time buyer properties, especially in urban areas, and higher levels of indebtedness linked to the funding of higher education. In conjunction with subdued levels of house moving transactions we expect to see muted house price inflation with some price falls in areas that have seen excessive growth. We expect, however, given low unemployment, low interest rates and good affordability, house prices to be growing in line with average earnings by the end of 2005.

The UK's gross residential mortgage market, supported by remortgage activity, is anticipated to be £265 billion to £270 billion in 2005 and 2006 compared with over £290 billion in 2004. Such levels of gross lending remain conducive to Northern Rock achieving its lending targets for 2005.



A slower housing market, reduced inflationary pressures and a dampening in retail sales mean that the prospects for rising interest rates are significantly lower than in mid 2004, as a consequence the difference between LIBOR and Bank Base Rate is expected to return to more normal levels in 2005. Unemployment, the key driver of credit loss on home loans, looks set to remain benign giving a stable outlook for future provisioning levels.



These conditions, together with our continued focus on customer service, cost and capital efficiency and the strength of our opening pipeline enable us to view 2005 with confidence. We reaffirm our strategic targets of assets under management growth of 20% +/ – 5%, profit growth of 15% +/ – 5% and return on equity of 19% to 22%.

Our growth will continue to be supported by our four funding arms; retail, non-retail, securitisation and covered bonds. We intend to develop further each franchise in terms of flexibility and diversification to enhance our overall funding platform and investor base.

We remain confident of the continued success of the Northern Rock business model.

DIRECTORS' REPORT AND ACCOUNTS
FOR THE YEAR ENDED 31 DECEMBER 2004

DIRECTORS' REPORT FOR THE YEAR ENDED 31 DECEMBER 2004

The Directors are pleased to present their report and the audited financial statements for the year ended 31 December 2004.

PRINCIPAL ACTIVITIES

The principal purpose of the Group is the provision of housing finance, savings and a range of related personal financial and banking services.

REVIEW OF BUSINESS AND FUTURE DEVELOPMENTS

A review of the business and future developments is given in the Chairman's Statement, the Chief Executive's Report and the Operating and Financial Review.

DIVIDENDS

An interim dividend of 8.5p per share (2003 - 7.5p per share) was paid on 29 October 2004. The Directors propose a final dividend of 18.0p per share (2003 - 15.8p per share) to be paid on 27 May 2005 to shareholders on the register at the close of business on 29 April 2005.

TANGIBLE FIXED ASSETS

Land and buildings, which are included in the balance sheet at cost less accumulated depreciation, amounted to £87 million at 31 December 2004. In the Directors' opinion, based on valuations carried out by the Group's qualified Chartered Surveyors, the total market value of these assets was not significantly different.

Details of changes to tangible fixed assets are provided in note 21 to the accounts.

POST BALANCE SHEET EVENTS

The Directors are of the opinion that there have been no significant events which have occurred since 1 January 2005 to the date of this report that are likely to have a material effect on the Group's financial position as disclosed in the accounts.

DIRECTORS

The current composition of the Board of Directors together with brief biographical details of each Director is shown on page 12. With the exception of the Directors noted below, all Directors have served on the Board throughout the year ended 31 December 2004.

On 27 April 2004 Sir John Riddell, Bt., and Sir David Chapman, Bt. retired from the Board. On 5 January 2005, Mr K M Currie, Mr A M Kuipers and Mr M J Queen were appointed to the Board. On 1 March 2005 Miss R Radcliffe will join the Board.

Mr K M Currie, Mr A M Kuipers, Mr M J Queen and Miss R A Radcliffe, having been appointed since the last Annual General Meeting, retire at the Annual General Meeting and offer themselves for re-election. Mr D F Baker, Mr R F Bennett and Dr M W Ridley retire by rotation at the Annual General Meeting and, being eligible, offer themselves for re-election. There are no service contracts in respect of the other Non-Executive Directors seeking re-election.

The interests of Directors in the shares of the Company at 31 December 2004 and 22 February 2005 are set out on page 30.

SHARES

The authorised and issued share capital of the Company are set out in note 32 to the accounts.

At the Annual General Meeting on 27 April 2004, a resolution was passed giving the Company the authority to make market purchases of Ordinary Shares up to a maximum of 10% of the issued share capital. A further resolution was passed providing for the Company to enter into a contingent share purchase contract with The Northern Rock Foundation to repurchase Foundation Shares in the same proportion and at the same price as the Ordinary Shares repurchased. These authorities expire at the Annual General Meeting in 2005 when a resolution will be proposed for their renewal.

SUBSTANTIAL SHAREHOLDINGS

At 22 February 2005, the following notifiable interest in the Company's Ordinary Shares had been reported to the Company:

Fidelity International Limited	4.95%
Legal & General Investment Management Limited	3.88%
Lloyds TSB Group plc	3.54%
Morgan Stanley Securities Ltd	4.09%

CREDITOR PAYMENT POLICY

The Company's policy with regard to the payment of suppliers is to negotiate and agree terms and conditions with all its suppliers, which include the giving of an undertaking to pay suppliers within an agreed payment period.

The average creditor payment period at 31 December 2004 was 21 days (2003 24 days).

EMPLOYEES

Northern Rock's desire to involve employees as financial stakeholders in the Company continued in 2004. Under the All Employee Share Ownership Plan, shares with a market value at the date of award of £1.8 million were given to employees during the year. In February 2005 a further grant of options under the Employee Share Option Scheme was made. A total of 4,477,000 options were granted at an exercise price of £7.73 per share.

Employee communications are vital to the success of the Company, and good staff relations are a key part of managerial responsibility at all levels. Employee consultation takes place with the national committee of UNIFI. The Company also issues a bi-monthly staff magazine and weekly news bulletins.

The Company is committed to equal employment opportunities for everyone, and treats applicants for work solely on their ability to do the job. In line with this policy, the Company will, wherever possible, retain employees who become disabled, either in the same job or, with the aid of retraining and provision for special needs, in a suitable alternative position.

CHARITABLE CONTRIBUTIONS

The Company is committed to a total contribution to The Northern Rock Foundation under a deed of covenant of £21.6 million based on its profits in 2004. Of this amount, it has already made a contribution of £10.0 million in October 2004 with a further contribution of £11.6 million to be paid in May 2005.

AUDITORS

The auditors, PricewaterhouseCoopers LLP, have indicated their willingness to continue in office and a resolution to re-appoint them will be proposed at the Annual General Meeting.

By order of the Board
C Taylor, Company Secretary
22 February 2005

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF NORTHERN ROCK PLC

We have audited the financial statements, which comprise the consolidated profit and loss account, the consolidated balance sheet, the company balance sheet, the consolidated cash flow statement, the statement of total recognised gains and losses and the related notes. We have also audited the disclosures required by Part 3 of Schedule 7A to the Companies Act 1985 contained in the Directors' Remuneration Report ("the auditable part").

RESPECTIVE RESPONSIBILITIES OF DIRECTORS AND AUDITORS

The Directors' responsibilities for preparing the Annual Report and the financial statements in accordance with applicable United Kingdom law and accounting standards are set out in the statement of Directors' responsibilities. The Directors are also responsible for preparing the Directors' Remuneration Report.

Our responsibility is to audit the financial statements and the auditable part of the Directors' Remuneration Report in accordance with relevant legal and regulatory requirements and United Kingdom Auditing Standards issued by the Auditing Practices Board. This report, including the opinion, has been prepared for and only for the Company's members as a body in accordance with Section 235 of the Companies Act 1985 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

We report to you our opinion as to whether the financial statements give a true and fair view and whether the financial statements and the auditable part of the Directors' Remuneration Report have been properly prepared in accordance with the Companies Act 1985. We also report to you if, in our opinion, the Directors' Report is not consistent with the financial statements, if the Company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and transactions is not disclosed.

We read the other information contained in the Annual Report and consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements. The other information comprises only the Chairman's Statement, the Chief Executive's Report, the Corporate Governance statement, the Community and Environmental Report, the Northern Rock Foundation report, the unaudited part of the Directors' Remuneration Report, the Operating and Financial Review and the Directors' Report.

We review whether the Corporate Governance statement reflects the Company's compliance with the nine provisions of the 2003 FRC Combined Code specified for our review by the Listing Rules of the Financial Services Authority, and we report if it does not. We are not required to consider whether the Board's statements on internal control cover all risks and controls, or form an opinion on the effectiveness of the Company's or Group's corporate governance procedures or its risk and control procedures.

BASIS OF AUDIT OPINION

We conducted our audit in accordance with auditing standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements and the auditable part of the Directors' Remuneration Report. It also includes an assessment of the significant estimates and judgements made by the Directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements and the auditable part of the Directors' Remuneration Report are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

OPINION

In our opinion:

- the financial statements give a true and fair view of the state of affairs of the Company and the Group at 31 December 2004 and of the profit and cash flows of the Group for the year then ended;
- the financial statements have been properly prepared in accordance with the Companies Act 1985; and
- those parts of the Directors' Remuneration Report required by Part 3 of Schedule 7A to the Companies Act 1985 have been properly prepared in accordance with the Companies Act 1985.

STATEMENT OF TOTAL RECOGNISED GAINS AND LOSSES

For the year ended 31 December 2004

	2004	2003 (as restated)
	£m	£m
Profit retained	**196.2**	178.1
Total recognised gains and losses for the period	**196.2**	178.1
Prior year adjustment – UITF 38 (note 2)	**0.3**	
Total gains and losses recognised since the last annual accounts	**196.5**	

1. Principal accounting policies

Accounting convention

The accounts have been prepared under the historical cost convention and in accordance with the special provisions of Part VII of the Companies Act 1985 relating to banking companies and banking groups, applicable UK accounting standards and the Statements of Recommended Practice issued by the British Bankers' Association.

Accounting policies are unchanged from 2003, except that the Group has implemented the requirements of UITF 38 "Accounting for ESOP trusts". The impacts of this change are detailed in note 2 to the accounts.

Basis of consolidation

The consolidated accounts include the results of the Company and its subsidiary undertakings all of which have accounting periods ending 31 December. Unless otherwise stated, the acquisition method of accounting has been adopted.

Taxation

Corporation tax is charged in the accounts based on the profit for the year as adjusted for taxation purposes.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Deferred tax is provided on a non-discounted basis.

Tangible fixed assets and depreciation

Depreciation is provided in order to write down fixed assets, which are included at cost, to their estimated residual value over their anticipated useful lives as follows:

Freehold land and buildings	100 years
Long leasehold land and buildings	Over the period of the lease up to 100 years
Short leasehold land and buildings	Unexpired period of the lease
Plant, equipment, fixtures and fittings	
- plant	30 years
- furniture	10 years
- other	5 years
Computer equipment	
- PCs	3 years
- other	5 years
Motor vehicles	4 years

Where the cost of freehold land can be identified separately from buildings on acquisition, the land value is not depreciated. Provision is made for diminution in value of any fixed asset where an impairment is identified. Annual impairment reviews are carried out for fixed assets with an expected remaining life over 50 years. The resulting net book value is then written off over its remaining anticipated useful life.

Assets in the course of construction are not depreciated until they have been completed and transferred to the appropriate category of tangible fixed assets. The costs of financing assets in the course of construction are not included in the costs of the assets.

Goodwill

Goodwill arises on the acquisition of subsidiary and associated undertakings. It represents the excess of cost over fair value of the Group's share of net assets acquired. It is capitalised as an intangible fixed asset and is amortised through the profit and loss account on a straight line basis over its expected useful economic life. The expected useful economic life is determined at the time of acquisition by considering the nature of the business acquired and the period of time over which the value of the business is expected to exceed the value of its net assets. This period is ten years for recent acquisitions.

Goodwill is subject to impairment reviews in accordance with FRS 11 "Impairment of fixed assets and goodwill". The carrying value is written down by the amount of any impairment, and the loss is recognised in the profit and loss account in the period in which this occurs.

Leased assets

Rentals payable under operating leases are charged to administrative expenses as incurred over the lease term.

Securities

Debt securities and equity shares ("securities") are held with the intention of use on a continuing basis and are stated at cost, adjusted to exclude accrued interest at the date of purchase, less provision for any permanent diminution in value. A similar adjustment for accrued interest is made on realisation. Where the adjusted purchase price differs from the nominal value, the premium or discount is amortised or released on an effective yield basis over the period to maturity.

Securities sold subject to repurchase agreements are retained on the balance sheet where the Group retains the risks and rewards of ownership. Funds received under such agreements are included within deposits by banks or customer accounts. Securities purchased under a commitment to resell are treated as collateralised lending transactions where the Group does not acquire the risks and rewards of ownership, and the purchase price is included within either loans and advances to banks or loans and advances to customers. The difference between sale and repurchase prices for such transactions is reflected in the profit and loss account over the lives of the transactions, within interest receivable or interest payable as appropriate.

Pension costs

Northern Rock operates a Defined Benefit Scheme and a Defined Contribution Scheme. Contributions to the Northern Rock Defined Benefit Pension Scheme are charged to the profit and loss account with the objective of spreading the cost over the employees' working lives within the Scheme. Costs are based upon actuarial advice following the most recent valuation of the Scheme. The costs of the Defined Contribution Scheme are charged to the profit and loss account for the period in which they are incurred. The disclosure requirements of FRS17 "Retirement Benefits" are being adopted under transitional arrangements.

Further information on pension arrangements is set out in note 7 to the accounts.

Provisions for bad and doubtful debts

Provisions against loans and advances are based upon assessments of the losses that are anticipated on outstanding balances at the year-end. The amount charged to the profit and loss account comprises amounts written off during the year plus the net change in the amounts provided. Bad debts are written off in part or in whole when a loss has been confirmed. The loss provisioning methodology is as follows:

Advances secured on owner-occupied residential property

Specific provision

Where the collection of interest and/or principal on an individual loan is in doubt a specific provision is recorded. Specific provisions are calculated using a model which is used to evaluate losses based on historical default experience and other appropriate risk factors related to the delinquent loan portfolio at a given point in time. All loans which are three or more payments overdue are evaluated using the model to identify the need for a specific provision. Loans six or more payments overdue and properties in possession are evaluated on an individual basis to measure potential loss. Various factors are considered in this evaluation including, but not limited to, collateral valuations, expected recoveries from mortgage indemnity guarantees and estimated recovery costs.

1. Principal accounting policies (continued)

Provisions for bad and doubtful debts (continued)

General provision

A general provision is maintained to cover inherent losses in the loan portfolio related to loans that have not yet been specifically identified as impaired. A statistically based model is used to calculate the appropriate general provision for each completion year. The model considers appropriate risk factors specific to the loan portfolio and historical default experience. Other factors, including economic conditions, are also considered by management in determining the appropriate level of reserves required at a given point in time.

Interest in respect of all loans is credited to the profit and loss account as it becomes receivable. Once a property is taken into possession interest charges are suspended. If a property is sold at sufficient value, interest previously suspended is added back to the loan and released to the profit and loss account.

Other secured advances

Specific provision is made as appropriate in respect of loans and advances that are identified as impaired at the balance sheet date, based on payment history, loan balance and net realisable value. Interest is suspended on loans identified as impaired if its recovery is deemed unlikely. General provisions are recorded to cover losses inherent in the portfolio which have not yet been specifically identified.

Unsecured lending

Specific provision is made against all loans where three or more payments are overdue. In calculating the required provision an appropriate factor is applied based on the number of overdue payments, which is subject to periodic review to ensure its continuing applicability based on current experience, to reflect the probability that not all such loans will result in eventual losses. General provisions are recorded to cover losses inherent in the portfolio which have not yet been specifically identified.

Repairs and renewals

Repairs, renewals and refurbishments of a non-capital nature are charged to administrative expenses in the year in which the expenditure is incurred.

Deferred income

The Company has entered into insurance arrangements with Northern Rock Mortgage Indemnity Company Limited, a wholly owned subsidiary, to cover a proportion of future losses on certain residential secured loans with high loan to value ratios. In the Group accounts, income from risk charges paid by customers in relation to such loans is deferred and is included in the balance sheet under the heading "accruals and deferred income". The deferred income is released to the profit and loss account on a level yield basis over the life of the loan.

Derivatives

Derivatives comprise, mainly, currency and interest rate swaps, forward rate agreements, foreign exchange forwards and financial futures and options. All transactions are undertaken for hedging purposes.

Transactions are initially recorded at cost and are accounted for on an accruals basis in accordance with the item or items being hedged. Consequently, profits and losses on the hedges are recognised on a similar accounting basis as the profits or losses on the underlying item or items being hedged. They are therefore recognised in the financial statements as adjustments to the profit or loss of the item or items being hedged. To the extent necessary to achieve a consistent timing of income recognition on the item or items being hedged, deferred gains or losses are included in the balance sheet under the headings "accruals and deferred income" and "prepayments and accrued income". Profits and losses on early termination of contracts that modify the characteristics of designated items are deferred and amortised over the remaining lives of the hedged items. Income and expenses on hedges are recognised as adjustments to interest receivable and interest payable.

When a derivative no longer represents a hedge, because either the underlying asset, liability or position has been extinguished or derecognised, it is restated to market value. Any profit or loss is accounted for in interest income or expense. It is then either redesignated as a hedge of a different asset, liability or position, is disposed of, or the position is otherwise closed, and accounted for accordingly. Where a derivative is no longer a hedge because it ceases to be effective, it is restated to market value and any profit or loss arising is deferred and amortised into interest income or expense over the remaining life of the item previously being hedged.

Foreign currency transactions

Interest income and expense denominated in foreign currency is translated into sterling at the rate of exchange current on the date of the receipt or payment, unless it is hedged, in which case it is translated at the underlying rate of exchange inherent in the associated hedge contract. Assets and liabilities denominated in foreign currency that are hedged by means of matching foreign currency contracts are included in the balance sheet at the exchange rate inherent in those contracts.

Other assets and liabilities denominated in foreign currency are included at the rate of exchange current at the balance sheet date.

Exchange differences arising on currency conversion are dealt with in the profit and loss account.

Mortgage incentives

Incentive costs of discounts, fixed rate and other similar mortgage products are expensed in equal annual amounts over the effective incentive clawback period for early redemption of these products. Early repayment charges, designed to recover incentive costs, are normally charged to customers on prepayment of loans within contractually agreed periods of time, ie the clawback period. Other forms of incentives, such as valuation fees which are not directly linked to the interest rate on the mortgage, are expensed through the profit and loss account as they are incurred.

All incentives which are not subject to incentive clawback periods and any excess cost of an incentive over and above the cost recoverable by the clawback are written off as incurred. The costs of mortgage incentives are charged against interest receivable.

Securitisation

Securitisation transactions are reported in accordance with FRS 5 "Reporting the Substance of Transactions". Where assets are sold under securitisation, if there is no significant change to the Group's rights and benefits to those assets and its exposure is limited to a fixed monetary ceiling, linked presentation is used. Under linked presentation, only the net amount of the Group's interests in the assets is consolidated, and the related gross amounts are shown on the face of the balance sheet. The interest attributable to the Northern Rock Group is included in the profit and loss account under the heading "interest receivable". The other income and expenses are included within "other operating income". Where the conditions for linked presentation are not met, the transactions are accounted for by separate presentation of the gross assets and the related funding, and all profit and loss transactions are included within the appropriate captions in the profit and loss account. The special purpose vehicles used for these transactions are accounted for as quasi subsidiaries (see note 16).

Revenue recognition

Interest income is recognised in the profit and loss account on an accruals basis, except for income on loans taken into possession which is taken to income when it is received.

Fees receivable from customers to reimburse the Group for costs incurred are taken to the profit and loss account when due. Fees and commissions receivable relating to ongoing services are taken to income when the related service is performed, and fees in lieu of interest are taken to income on a level yield basis over the life of the loan.

2. Prior year adjustment

The Group has implemented the requirements of Urgent Issues Task Force ("UITF") Abstract 38 – "Accounting for ESOP Trusts" with effect from 1 January 2004. As a result, holdings of Ordinary Shares in Northern Rock plc owned by the Group's employee share ownership trusts are now shown as a deduction from shareholders' funds. Previously they were shown as part of other assets in the balance sheet. Purchases and sales of Northern Rock plc Ordinary Shares are now accounted for as movements in shareholders' funds and no gains and losses are reflected in the profit and loss account. UITF Abstract 38 also amends UITF Abstract 17 – "Employee Share Schemes" to reflect the consequences for the profit and loss account of the changes in the presentation of an entity's own shares held by an ESOP trust. The charge to the profit and loss account in respect of shares and share options granted to employees that are expected to be met from shares held by employee share trusts is now based on the difference between the value on the date of grant and the exercise price. Previously, where shares were purchased to meet these obligations, the charge was based on the carrying value of the shares.

The effect of this change in accounting policy, which has been accounted for as a prior year adjustment, is to increase staff costs and decrease profit for the year ended 31 December 2004 by £0.1m (year to 31 December 2003 – £0.2m). The effect on other assets, other liabilities, staff costs and shareholders' funds at the balance sheet dates is as follows:

	Group		Company	
	2004	2003	**2004**	2003
	£m	£m	**£m**	£m
Reduction in shareholders' funds – beginning of year (note 33)	**(48.0)**	(44.5)	**(47.3)**	(44.0)
Movement in relation to own shares (note 34)	**5.8**	(3.3)	**5.8**	(3.3)
Increase in staff costs during year	**(0.1)**	(0.2)	**(0.1)**	–
Reduction in shareholders' funds – end of year	**(42.3)**	(48.0)	**(41.6)**	(47.3)
The reduction in shareholders' funds comprises:				
Reduction in other assets	**(42.3)**	(48.8)	**(42.3)**	(48.8)
Reduction in other liabilities	**–**	0.8	**0.7**	1.5
	(42.3)	(48.0)	**(41.6)**	(47.3)

The cumulative difference in the amount credited through the Group profit and loss account in the period up to 31 December 2003 amounted to £0.3m.

3. Other interest receivable and similar income

	2004	2003
	£m	£m
On secured advances	**1,348.2**	983.3
On other lending	**412.1**	296.6
	1,760.3	1,279.9

4. Interest payable

	2004	2003
	£m	£m
On retail customer accounts	**689.7**	559.5
On other deposits and loans	**760.6**	514.6
On subordinated liabilities	**85.5**	62.0
On reserve capital instruments	**19.8**	17.3
On tier one notes	**13.0**	11.4
Total interest payable on subordinated liabilities	**118.3**	90.7
	1,568.6	1,164.8

5. Sale of credit card portfolio

On 30 May 2003, the Group sold its credit card portfolio to The Co-operative Bank. The surplus on sale amounted to £7.3m and is recorded in other income. The credit card portfolio comprised approximately 90,000 accounts with outstanding balances of £217m. As part of the agreement Northern Rock offers credit cards, issued by The Co-operative Bank, to Northern Rock customers under the Northern Rock brand.

6. Administrative expenses

	2004	2003 (as restated)
	£m	£m
Wages and salaries	**101.4**	85.3

	Full time	Part time	Full time	Part time
Average number of staff (including Executive Directors) employed by the Group	3,916	1,064	3,448	952

7. Pension commitments

The Company operates the Northern Rock Pension Scheme (the "Scheme") to provide retirement benefits for staff. Staff who joined the Scheme before 1 July 1999 participate in the funded, contracted-out, defined benefit section of the Scheme unless they opt out. Other staff, including those employed at 1 July 1999 but not members of the defined benefit section of the Scheme at that date, together with staff employed from 1 July 1999, participate in the contracted-in defined contribution section of the Scheme unless they opt out. The assets of both sections of the Scheme are held in a trustee-administered fund separate from the assets of Northern Rock plc.

The Company has continued to account for pensions in accordance with SSAP 24. FRS 17 "Retirement Benefits" was issued in November 2000 but requires only phased transitional disclosures for the Company until the year ending 31 December 2005. These disclosures, to the extent not given in (a), are set out in (b) below.

(a) The most recent triennial valuation of the Scheme was performed as at 5 April 2003 by Watson Wyatt LLP, consulting actuaries, using the projected unit method. The principal actuarial assumptions adopted in that valuation were that, over the long term, the rate of return on existing and future investments will exceed pension increases by 3.50% per annum and increases in pensionable earnings by 2.25% per annum. At 5 April 2003, the market value of the fund was £158.6m which represented 97.3% of the market value of the benefits that had accrued to the valuation date. The next full actuarial valuation is due to be carried out as at 5 April 2006.

During 2004, the Company paid employer's contributions of 15.9% of basic pensionable earnings throughout the year (2003 14.8% until 5 April 2003 and 15.9% thereafter) in respect of the defined benefit section of the Scheme. In addition, members of the defined benefit section of the Scheme paid employee contributions of 5% (2003 5%). During 2004, the Company paid employer's contributions in respect of the defined contribution section of the Scheme at an average rate of 6.0% (2003 6.0%). Additional National Insurance costs were also incurred as a result of the defined contribution section of the Scheme being contracted-in to SERPS. In addition, members of the defined contribution section of the Scheme paid contributions at an average rate of 4.3% (2003 4.3%).

The total pensions charge to the Group profit and loss account for 2004, as calculated by Watson Wyatt LLP, independent qualified actuaries, in respect of employer's contributions to the Northern Rock Pension Scheme, was £8.9m (2003 £8.6m), of which £7.1m was in respect of the defined benefit scheme (2003 £7.0m) and £1.8m in respect of the defined contribution scheme (2003 £1.6m). The charge for the defined benefit scheme in 2004 includes £3.7m arising from the underfunding of the Scheme adjusted for the level of prepayment (2003 £3.6m). In accordance with SSAP 24, surpluses and deficiencies, adjusted for the level of prepayment, are being amortised over the average remaining service lives of the employees in the defined benefit scheme, estimated at 13 years.

The prepayment in relation to the Scheme at 31 December 2004 was £28.9m (2003 £30.6m).

(b) The valuation used for FRS 17 disclosures has been based on the most recent triennial actuarial valuation at 5 April 2003 and updated by Watson Wyatt LLP to take account of the requirements of FRS 17 in order to assess the liabilities of the Scheme at 31 December 2004. Scheme assets are stated at their market value at 31 December 2004.

The financial assumptions used to calculate Scheme liabilities under FRS 17 are:

	2004	2003	2002
Discount rate	5.30%	5.40%	5.60%
Inflation rate	2.75%	2.65%	2.30%
Pensions in payment increases	3.10%	3.00%	3.00%
Deferred pensions increases	2.75%	2.65%	2.30%
Salary increases	4.50%	4.40%	4.05%

7. Pension commitments (continued)

The assets in the Scheme and the expected rate of return were:

	Long-term rate of return expected at 31 Dec 2004	Market value at 31 Dec 2004 £m	Long-term rate of return expected at 31 Dec 2003	Market value at 31 Dec 2003 £m	Long-term rate of return expected at 31 Dec 2002	Market value at 31 Dec 2002 £m
Equities	**8.1%**	**106.2**	8.1%	96.0	8.6%	79.6
Bonds	**5.0%**	**80.4**	5.1%	74.9	4.5%	66.6
Property	**6.7%**	**12.0**	6.8%	7.4	6.5%	7.6
Cash	**4.8%**	**1.1**	3.8%	1.2	4.0%	0.4
Total	**6.7%**	**199.7**	6.8%	179.5	6.7%	154.2

	31 Dec 2004 £m	31 Dec 2003 £m
Scheme deficit:		
Total market value of assets	**199.7**	179.5
Present value of Scheme liabilities	**(251.4)**	(226.1)
Deficit in the Scheme	**(51.7)**	(46.6)
Related deferred tax asset	**15.5**	14.0
Net pension liability	**(36.2)**	(32.6)

Proforma reserves:	31 Dec 2004 £m	31 Dec 2003 (as restated) £m
Profit and loss reserve	**1,403.9**	1,201.9
Pension liability	**(36.2)**	(32.6)
Less SSAP24 pension fund prepayment net of related deferred tax asset of £8.7m (2003 £9.2m)	**(20.2)**	(21.4)
Proforma profit and loss reserve if FRS 17 adopted	**1,347.5**	1,147.9

The position shown represents the funded status of the Scheme based on market conditions at 31 December 2004. Market related calculations such as these are subject to daily variations. The deficit disclosed does not represent a debt on the employer. Contributions to the Scheme will continue to be determined in accordance with the Trustees' funding valuation, the next one being due in April 2006, or any interim valuations undertaken by the Trustees or the Company. The rules of the Northern Rock Pension Scheme (final salary section) permit both employer and employee pensions contributions to be increased to meet part of any deficit.

The following disclosures show the amounts that would have been chargeable to the profit and loss account and to the statement of total recognised gains and losses in respect of the non-money purchase benefits provided by the Scheme if FRS 17 had been fully implemented in 2004.

Analysis of the amount chargeable to administrative expenses

General provision	1.4	2.5	8.3	12.2
Adjustment to provisions resulting from recoveries:				
Specific provision	(0.9)	(0.1)	(1.9)	(2.9)
	5.5	2.7	48.3	56.5
Transfers				
General provision	(0.2)	–	0.2	–
Amounts written off during the year:				
Specific provision	(3.8)	(1.1)	(26.0)	(30.9)
At 31 December 2004:				
Specific provision	3.4	1.0	41.4	45.8
General provision	32.9	11.2	37.0	81.1
	36.3	12.2	78.4	126.9
Company				
At 1 January 2004:				
Specific provision	3.1	1.9	31.5	36.5
General provision	31.7	8.7	28.5	68.9
	34.8	10.6	60.0	105.4
At 31 December 2004:				
Specific provision	3.4	1.0	45.5	49.9
General provision	32.9	11.2	37.0	81.1
	36.3	12.2	82.5	131.0

9. Provisions for bad and doubtful debts (continued)

Interest has been suspended on impaired loans as follows:	Group and Company		
	On advances secured on residential property £m	On other secured advances £m	Total £m
Interest suspended at 1 January 2004	1.9	3.9	5.8
Movement in suspended interest during the year:			
Interest suspended	1.3	0.6	1.9
Receipts of interest previously suspended	(0.6)	–	(0.6)
Amounts written off	(0.2)	(0.5)	(0.7)
Interest suspended at 31 December 2004	2.4	4.0	6.4

	Group and Company	
	2004 £m	2003 £m
Advances on which interest has been suspended totalled:		
Before provisions	**18.3**	17.8
After provisions	**15.4**	15.3

10. Tax on profit on ordinary activities

	2004 £m	2003 £m
The tax charge for the year comprises:		
UK corporation tax		
Current tax on profits for the year	**115.5**	102.4
Adjustments in respect of prior years	**(3.3)**	(5.8)
Total current tax	**112.2**	96.6
Increase in deferred taxation	**12.8**	15.6
	125.0	112.2

A reconciliation of current tax on profit on ordinary activities at the standard UK corporation tax rate to the Group's actual current tax charge for the years ended 31 December 2004 and 2003 is shown as follows:

	2004 £m	2003 £m
Profit on ordinary activities before tax multiplied by the standard rate of corporation tax in the UK of 30% (2003 30%)	**129.4**	116.0
Effects of:		
Net (non taxable income)/non deductible expenses for tax purposes	**(1.5)**	0.5
Current tax effect of timing differences	**(12.4)**	(14.1)
Adjustments to tax charge in respect of previous periods	**(3.3)**	(5.8)
Current tax charge for period	**112.2**	96.6

Note 38 discloses the book and fair values for some of the Group's financial instruments. The net deficit which would arise from recording these financial instruments at their fair value instead of their book value of £174.8m (2003 £65.4m) has not been recognised in the accounts. Accordingly no provision for the corresponding deferred tax asset of £52.4m (2003 £19.6m) has been made.

11. Profit on ordinary activities after taxation

Of the profit on ordinary activities after taxation attributable to ordinary shareholders, £262.7m (2003 £227.3m) has been dealt with in the accounts of the Company. As permitted by section 230 of the Companies Act 1985, the Company's profit and loss account has not been presented separately.

12. Dividends

	2004 pence per share	2003 pence per share	2004 £m	2003 £m
Ordinary Shares:				
Interim (paid)	**8.5**	7.5	**35.2**	31.6
Final (proposed)	**18.0**	15.8	**74.8**	66.2
less paid and payable to ESOP trusts (see note 34)			**-**	(1.5)
	26.5	23.3	**110.0**	96.3

13. Earnings per ordinary share

Earnings per Ordinary Share have been calculated by dividing the profit attributable to the holders of Ordinary Shares in Northern Rock plc of £306.2m (2003 (as restated) £274.4m) by the weighted average number of Ordinary Shares in issue of 413.0m (2003 412.3m).

The weighted average number of Ordinary Shares in issue has been determined after excluding shares held in trust for employee share schemes.

Fully diluted earnings per Ordinary Share have been calculated using the weighted average number of shares in issue together with 3.6m (2003 3.6m) potentially dilutive shares resulting from options granted under employee share schemes.

14. Loans and advances to banks

	Group		Company	
	2004 £m	2003 £m	**2004 £m**	2003 £m
Repayable:				
On demand	**268.9**	973.3	**255.8**	964.1
In not more than three months	**3,017.0**	2,469.9	**2,952.1**	2,366.7
In more than three months but not more than one year	**19.5**	7.0	**14.5**	7.0
	3,305.4	3,450.2	**3,222.4**	3,337.8

The Company is required to maintain balances with the Bank of England, which at 31 December 2004 amounted to £44.0m (2003 £36.3m).

15. Loans and advances to customers

	Group		Company	
	2004 £m	2003 £m	**2004 £m**	2003 £m

In more than one year but not more than five years	**4,831.5**	4,241.9	**4,831.5**	4,241.9
In more than five years	**27,258.4**	22,361.9	**27,258.0**	22,361.3
Less provisions (note 9)	**(126.9)**	(101.3)	**(131.0)**	(105.4)
	32,869.3	27,355.8	**32,900.9**	27,392.6

16. Securitisation

Loans and advances to customers include portfolios of residential and commercial mortgage loans which are subject to non-recourse financing arrangements. The loans have been purchased by special purpose vehicles, which have primarily issued mortgage backed fixed and floating rate notes to finance the purchases.

The Group is not obliged to support any losses in respect of these mortgages, except as described below, nor does it intend to do so. This is clearly stated in the agreements with noteholders.

Northern Rock plc has made interest bearing subordinated loans to the special purpose vehicles, the repayments of which are subordinated to the claims of the noteholders. In addition, mortgage indemnity guarantee (MIG) insurance is provided on certain loans to the vehicles purchasing residential mortgage loans by a subsidiary of Northern Rock plc. Since 1 January 2003, Northern Rock plc has not taken out MIG insurance in respect of new loans. Existing cover remains in force. Northern Rock plc does not guarantee the liabilities of this subsidiary. In the Group accounts, a separate presentation of assets and liabilities has been adopted to the extent of the insurance cover provided by the subsidiary.

16. Securitisation (continued)

Northern Rock plc has an option to sell further mortgage loans to the special purpose vehicles where at the end of any interest period the rate of repayment of principal in the vehicle exceeds the level agreed at the date of sale of the loans. Northern Rock plc has no right or obligation to repurchase the benefit of any securitised loan except to the extent that the loan breaches representations and warranties given at the date of sale. It does, however, have the option to repurchase loans from the vehicles, on being offered the opportunity to do so by the vehicles, where the borrower requests a further advance or a change in product type.

Northern Rock plc has entered into a number of interest rate swaps with the vehicles. These convert interest flows from the mortgage loans into LIBOR based interest flows to match the interest flows payable on the floating rate notes.

During the year, Northern Rock plc assigned portfolios of residential mortgage loans with a book value of £16.7 billion to Granite Finance Trustees Limited. Granite Finance Funding Limited acquired, at book value, an interest in the trust property vested in Granite Finance Trustees Limited. This beneficial interest was acquired in three separate transactions, the first on 28 January 2004 for £3.5 billion, the second on 26 May 2004 for £3.6 billion and the third on 22 September 2004 for £4.0 billion. Granite Finance Funding Limited funded its acquisitions through borrowings from its subsidiary companies, Granite Mortgages 04-1 plc, Granite Mortgages 04-2 plc and Granite Mortgages 04-3 plc. These companies principally funded their loans to Granite Finance Funding Limited through the issue of mortgage backed fixed and floating rate notes.

The balances of assets subject to securitisation and the associated non-recourse finance at 31 December 2004 are set out below.

Securitisation company	Date of securitisation	Gross assets securitised	Non-recourse finance	Subordinated loans made by the Group
Residential:		£m	£m	£m
Granite Mortgages 99-1 plc	1 October 1999	105.0	95.3	-
Granite Mortgages 00-1 plc	1 March 2000	280.1	267.0	-
Granite Mortgages 00-2 plc	25 September 2000	576.4	512.2	4.4

Retained interest in Dolerite Trustees Limited		52.3	-	-
Total commercial		290.8	216.4	19.1
Maximum extent of insurance cover provided by subsidiary			(125.0)	
Total		22,339.2	22,103.7	327.2

[1] Represents the interest in the trust property at book value held by Granite Finance Funding Limited relating to the debt issued by these companies.

No subordinated debt was issued by Granite Mortgages 01-1 plc to Northern Rock plc in relation to the funding of a first loss reserve fund. However, Granite Mortgages 01-1 plc's parent company, Granite Finance Funding Limited, retained £20 million from the proceeds of debt issuance to fund this reserve. This amount is repayable only after full repayment of the notes.

Interest income earned by Northern Rock plc in respect of the retained interest in Granite Trustees Limited and Dolerite Trustees Limited is recorded in the profit and loss account within "other interest receivable and similar income".

Northern Rock plc does not own directly or indirectly any of the share capital of these companies or of their parent. The Group receives administration fees for servicing the mortgage portfolios together with any residual income arising after the claims of the bondholders and other creditors are met.

At 31 December 2004 the special purpose companies had cash deposits with Northern Rock plc amounting to £1,396.0m. At 31 December 2003 such deposits were held by other third party banks. As such the total gross assets securitised available to meet non-recourse finance amount to £23,735.2m (2003 £15,678.7m).

An aggregated summary of the results for the years ended 31 December 2004 and 2003, and summarised balance sheets as at 31 December 2004 and 2003 for the above companies are set out below.

16. Securitisation (continued)

	2004 £m	2003 £m
Interest receivable	**998.5**	696.0
Interest payable	**(953.9)**	(538.3)
Interest receivable on cash deposits with Northern Rock	**46.9**	–
Fixed rate swaps payable to Northern Rock	**(1.7)**	(65.4)
Other swaps and net interest payable to Northern Rock	**31.4**	(34.7)
Net interest receivable	**121.2**	57.6
Other income net of administrative and other expenses payable to third parties	**19.8**	9.0
Administrative expenses payable to Northern Rock	**(141.0)**	(66.6)
Profit for the financial period	**–**	–
Loans and advances to banks	**423.9**	1,200.4
Cash deposits held with Northern Rock	**1,396.0**	–
Loans and advances to customers	**21,021.1**	14,130.3
Amounts owed by Group companies	**18.6**	4.2
Other assets	**16.1**	–
Total assets	**22,875.7**	15,334.9
Debt securities in issue	**22,228.7**	14,983.3
Amounts owed to Group companies	**645.9**	338.3
Other liabilities	**1.1**	13.3
Total liabilities	**22,875.7**	15,334.9

The interest attributable to the Northern Rock Group is included in the Group profit and loss account under the heading, "Interest receivable". The other income and expenses are included within "Other operating income". The securitisation companies are accounted for as quasi subsidiaries (see note 1).

The balance sheets above reconcile to the linked presentation in the Group balance sheet as follows:

	2004 £m	2003 £m
Loans and advances to banks	**423.9**	1,200.4
Loans and advances to customers	**21,021.1**	14,130.3
Other assets	**16.1**	–
Other liabilities	**(1.1)**	(13.3)
Retained interest in Granite Trustees Limited and Dolerite Trustees Limited	**879.2**	361.3
	22,339.2	15,678.7
Debt securities in issue	**22,228.7**	14,983.3
Maximum extent of insurance cover provided by subsidiary (included in other creditors – note 27)	**(125.0)**	(150.9)
	22,103.7	14,832.4

In addition to the transactions above which are accounted for under linked presentation, Northern Rock assigned a portfolio of unsecured loans amounting to £749.7m to Flint Receivables Trustees Limited on 8 December 2003. Flint Consumer Loans No. 1 Limited purchased an interest amounting to £595.0m in the trust property on the same date, funded by the issue of asset backed notes. The noteholders have a proportionate interest in each balance in the portfolio, and at 31 December 2004 this interest amounted to £595.0m (2003 £595.0m). This securitisation does not qualify for linked presentation and therefore the total portfolio is included within unsecured loans as part of loans and advances to customers not subject to securitisation. The funding giving rise to the noteholders' interests is included within debt securities in issue.

Included within loans and advances to customers not subject to securitisation are £1,977.6m of mortgage advances assigned to a bankruptcy remote special purpose vehicle. These loans provide security to an issue of covered bonds of €2.0 billion (£1,340.8m equivalent) made by Northern Rock on 4 May 2004, which are included within debt securities in issue. Northern Rock retains substantially all the risks and rewards associated with these loans and therefore this transaction does not qualify for linked presentation or sale treatment.

17. Debt securities

Group	2004 Book value £m	2004 Market value £m	2003 Book value £m	2003 Market value £m

Net book amount:		
At 31 December 2004	575.6	458.1
At 31 December 2003	410.8	319.9

All equity shares and other variable yield securities are held with the intention of use on a continuing basis in the Group's activities and are classified as financial fixed assets.

19. Shares in group undertakings

	Company £m
Cost:	
At 1 January 2004	217.2
Distribution from subsidiary	(92.4)
At 31 December 2004	124.8
Provisions:	
At 1 January 2004 and 31 December 2004	4.3
Net book amount:	
At 31 December 2004	120.5
At 31 December 2003	212.9

The Company's interest in subsidiary undertakings are analysed as follows:

	2004 £m	2003 £m
Credit institutions	**50.0**	50.0
Other	**70.5**	162.9
	120.5	212.9

The principal subsidiaries of Northern Rock plc at 31 December 2004 are listed below, all of which are directly held and wholly owned by the Company, and all of which operate in their country of incorporation or registration.

	Nature of business	Country of incorporation or registration
Northern Rock Mortgage Indemnity Company Limited	Provision of mortgage indemnity insurance	Guernsey
Northern Rock (Guernsey) Limited	Retail deposit taker	Guernsey

In addition, Granite Mortgages 99-1 plc, Granite Mortgages 00-1 plc, Granite Mortgages 00-2 plc, Granite Mortgages 01-1 plc , Granite Mortgages 01-2 plc, Granite Mortgages 02-1 plc, Granite Mortgages 02-2 plc, Granite Mortgages 03-1 plc, Granite Mortgages 03-2 plc, Granite Mortgages 03-3 plc, Granite Mortgages 04-1 plc, Granite Mortgages 04-2 plc, Granite Mortgages 04-3 plc and Dolerite Funding No. 1 plc, all companies incorporated in England and Wales, and Granite Finance Funding Limited, Granite Finance Trustees Limited and Dolerite Mortgages Trustee Limited, all companies incorporated in Jersey, have been accounted for as quasi-subsidiaries (see note 1).

Northern Rock acquired all the issued share capital of Legal & General Bank Limited (renamed Northern Rock Holdings No. 1 Limited) and Legal & General Mortgage Services Limited (renamed Northern Rock Holdings No. 2 Limited) on 1 August 2002. On 9 November 2002 the assets and undertakings of each of these companies were transferred to Northern Rock plc, and neither have any continuing operations. During 2003, Northern Rock Holdings No. 1 Limited surrendered its permission under Part IV, Financial Services and Markets Act 2000 to accept deposits and is therefore no longer regarded as a credit institution. During 2004 Northern Rock Holdings No. 1 Limited paid a capital distribution to Northern Rock plc of £92.4m.

At 31 December 2003	35.8	45.5	0.7	70.6	3.9	156.5

Net book amount of land and buildings occupied for own use: 2004 £83.0m (2003 £80.0m).

22. Other assets

	Group 2004 £m	Group 2003 (as restated) £m	Company 2004 £m	Company 2003 (as restated) £m
Deferred taxation	–	–	**18.4**	16.6
Dividends receivable	–	–	**6.9**	7.2
Other assets	**69.6**	76.6	**61.0**	61.5
	69.6	76.6	**86.3**	85.3

22. Other assets (continued)

The full movement on deferred taxation (payable)/recoverable was as follows:	Group		Company	
	2004	2003	**2004**	2003
	£m	£m	**£m**	£m
At 1 January	**(19.0)**	(3.4)	**16.6**	13.3
(Charge)/credit for year	**(12.8)**	(15.6)	**1.8**	3.3
At 31 December	**(31.8)**	(19.0)	**18.4**	16.6

The amounts (payable)/recoverable in respect of deferred taxation relate to:	Group		Company	
	2004	2003	**2004**	2003
	£m	£m	**£m**	£m
Excess of capital allowances over depreciation	**(9.3)**	(8.8)	**(8.9)**	(8.5)
Other timing differences	**(22.5)**	(10.2)	**27.3**	25.1
	(31.8)	(19.0)	**18.4**	16.6

23. Prepayments and accrued income

	Group		Company	
	2004	2003	**2004**	2003
	£m	£m	**£m**	£m
Deferred mortgage incentives	**279.3**	236.9	**279.3**	236.9
Accruals on derivatives	**163.1**	111.5	**163.1**	111.5
Accrued interest	**79.7**	65.5	**77.2**	63.2
Pension fund prepayment	**28.9**	30.6	**28.9**	30.6
Other	**195.9**	120.3	**291.0**	255.9
	746.9	564.8	**839.5**	698.1
Included above:				
Deferred mortgage incentives chargeable to the profit and loss account in more than one year	**114.3**	99.9	**114.3**	99.9

The movements on deferred mortgage incentives were as follows:

	Group and Company	
	2004	2003
	£m	£m
At 1 January	**236.9**	257.5
Additions	**482.5**	327.1
Amortisation	**(440.1)**	(347.7)
At 31 December	**279.3**	236.9

Additions to deferred mortgage incentives in the year is the amount that would have been charged to the profit and loss account for the year if incentives were not being amortised.

Other accruals	**22.5**	29.4	**19.8**	24.4
	539.8	475.3	**544.9**	464.2

29. Subordinated liabilities

	Group and Company	
	2004 £m	2003 £m
Dated		
5.625% Subordinated bonds due 2015	**300.0**	300.0
11.734% Subordinated loan 2016	**20.0**	20.0
5.75% Subordinated bonds due 2017	**250.0**	250.0
10 3/8% Subordinated bonds due 2018	**50.0**	50.0
9 3/8% Subordinated bonds due 2021	**149.3**	149.2
Undated		
12 5/8% Perpetual subordinated notes	**19.8**	19.8
8% Undated subordinated notes	**61.5**	61.5
6.75% Fixed rate step-up undated subordinated notes	**200.0**	200.0
Floating rate undated subordinated notes	**69.0**	69.0
5.6% Undated subordinated notes	**396.1**	-
	1,515.7	1,119.5

The 5.625% subordinated bonds due 2015 are not redeemable in the ordinary course of business before 13 January 2010.

The 11.734% subordinated loan 2016 is repayable in five equal annual instalments from 2012 to 2016.

The 5.75% subordinated bonds due 2017 are not redeemable in the ordinary course of business before 28 February 2012.

The 10 3/8% subordinated bonds due 2018 are not redeemable in the ordinary course of business before 25 March 2018.

The 9 3/8% subordinated bonds due 2021 are not redeemable in the ordinary course of business before 17 October 2021.

The 12 5/8% perpetual subordinated notes were created on the transfer of business from Northern Rock Building Society and were issued to holders of Permanent Interest Bearing Shares of the Society.

The 8% undated subordinated notes are denominated in US dollars; the proceeds and coupon payments have been swapped into sterling. The notes became redeemable on 15 June 2004 and may subsequently be redeemed in the ordinary course of business on coupon dates which fall on 15 March, 15 June, 15 September and 15 December.

The 6.75% fixed rate step-up undated subordinated notes are not redeemable in the ordinary course of business before 17 June 2024.

The floating rate undated subordinated notes are denominated in US dollars; the proceeds and coupon payments have been swapped into sterling. They are not redeemable in the ordinary course of business before 23 February 2011. Interest is payable at 1% above 3 month US$ LIBOR.

The 5.6% undated subordinated notes are denominated in US dollars; the proceeds and coupon payments have been swapped into sterling. The notes are not redeemable in the ordinary course of business before 30 April 2014.

All subordinated liabilities, other than the 8% undated subordinated notes, the floating rate undated subordinated notes and the 5.6% undated subordinated notes are denominated in sterling. All are ranked equally between and within issues.

Redemptions of any dated subordinated notes prior to their final maturity date and any undated subordinated notes are subject to obtaining prior consent of the Financial Services Authority.

The rights of repayment of holders of subordinated liabilities are subordinated to the claims of other creditors.

The dated subordinated liabilities are repayable as follows:

	Group and Company	
	2004 £m	2003 £m
In more than five years	**769.3**	769.2

30. Reserve capital instruments

The reserve capital instruments were issued for a value of £200m on 21 September 2000 and are undated. A further £100m was issued in May 2001. They carry a coupon of 8.399% payable annually in arrears on 21 September each year. At each payment date Northern Rock will decide whether to declare or defer the coupon. If Northern Rock decides to declare the coupon, the holder will receive a cash payment equivalent to the coupon which, at Northern Rock's option, will be achieved either by the payment of cash directly, or by the issue of Ordinary Shares in Northern Rock which, when sold by a trustee in the market, will produce an amount equal to the cash payment. If Northern Rock elects to defer the coupon, it may not declare or pay a dividend on any share until the deferred coupons are satisfied. Deferred coupons and any interest accruing thereon can only be satisfied through the issue of shares. The coupon has been swapped into a variable rate payment.

Northern Rock has a call option after 15 years, which it can only exercise with the consent of the Financial Services Authority. If the issue is not called, the coupon resets to yield 4.725% above the prevailing 5-year benchmark Gilt rate.

The maximum amount of reserve capital instruments permitted to be included in Tier 1 for regulatory capital purposes is 15% of overall Tier 1 capital, as defined by the Financial Services Authority. Any excess is allocated to Upper Tier 2 capital

31. Tier one notes

The tier one notes were issued for a value of £200m on 21 August 2002 and are undated. They carry a coupon of 7.053% payable annually in arrears on 21 September each year. At each payment date Northern Rock will decide whether to declare or defer the coupon. If Northern Rock decides to defer the coupon, this can then only be satisfied upon the date on which the issue is redeemed. No interest will accrue on any deferred coupon. If Northern Rock defers the coupon, it may not pay a dividend on any share or pay any coupon on the reserve capital instruments, nor redeem or repurchase any of its share capital or reserve capital instruments until it next makes a coupon payment for the tier one notes. Deferred coupons can only be satisfied through the issue of Ordinary Shares.

The coupon has been swapped into a variable rate payment.

Northern Rock has a call option after 25 years, which it can only exercise with the consent of the Financial Services Authority. If the issue is not called, the coupon resets to yield 1.835% above 6-month LIBOR.

The full amount of tier one notes is permitted for inclusion within Tier 1 for regulatory capital purposes.

32. Called up share capital

	Ordinary Shares of 25p each Number	Foundation Shares of 25p each Number	Total Number	Ordinary Shares of 25p each £m	Foundation Shares of 25p each £m	Total £m
Authorised:						
At 31 December 2004 and 31 December 2003	614.0m	104.5m	718.5m	153.5	26.1	179.6
Issued and fully paid:						
At 31 December 2004 and 31 December 2003	421.2m	74.4m	495.6m	105.3	18.6	123.9

The Foundation Shares are held by The Northern Rock Foundation. These shares carry no rights to dividends but rank pari passu with the Ordinary Shares in respect of other distributions and in the event of a winding up. Because they carry no rights to dividends, they have been omitted in the calculation of earnings per share (see note 13). These shares do not confer any rights in relation to attendance or voting at any general meeting of the Company.

The following options to acquire Ordinary Shares were outstanding at 31 December 2004 under savings related share option schemes:

- 30,921 (31 December 2003 36,444) at an option price of 381p per share exercisable during 2005
- 1,345,521 (31 December 2003 1,394,391) at an option price of 215p per share exercisable on various dates up to 2007
- 825,588 (31 December 2003 912,660) at an option price of 598p per share exercisable on various dates up to 2010

At 31 December 2004, options to acquire 569,770 Ordinary Shares (31 December 2003 945,565) were outstanding under the Northern Rock Employee Share Option Scheme at an option price of 618p per share. These options became exercisable on 1 June 2001 and may be exercised until 2008.

At 31 December 2004, options to acquire 2,985,000 Ordinary Shares (31 December 2003 3,369,000) were outstanding under the Northern Rock Employee Share Option Scheme at an option price of 641p per share. These options are exercisable between 2005 and 2012.

33. Reserves

Company			
At 1 January 2004			
As previously reported	6.8	7.3	1,143.4
Prior year adjustment re own shares	–	–	(47.3)
As restated	6.8	7.3	1,096.1
Movements in relation to own shares (see note 34)	–	–	5.8
Retained profit	–	–	152.7
At 31 December 2004	6.8	7.3	1,254.6

34. Own shares

The amounts deducted from the profit and loss reserve in respect of own shares, which are held at cost, are as follows:

	Group and Company	
	2004	2003
	£m	£m
Own shares in relation to employee share schemes	**55.3**	58.2

Movements in the amount deducted from reserves in respect of own shares have been as follows:

At 1 January	**58.2**	53.9
Purchase of shares	**6.0**	15.5
Use of shares on exercise of employee options and for other employee share plans	**(8.9)**	(11.2)
	(2.9)	4.3
Closing shareholders' funds	**55.3**	58.2
The credit/(charge) to the profit and loss account reserve has been as follows:		
Surplus on transactions in own shares	**2.9**	1.0
Net decrease/(increase) in cost of own shares	**2.9**	(4.3)
	5.8	(3.3)

Northern Rock plc sponsors The Northern Rock Employee Trust, The Northern Rock Employee Profit Sharing Scheme and The Northern Rock Qualifying Employee Share Ownership Trust which are discretionary trusts for the benefit of employees and former employees of Northern Rock plc. The Company has provided funds to the trustees to enable them to purchase Northern Rock plc Ordinary Shares, which are used to satisfy options granted by the Company or to meet commitments arising under other employee share schemes. The cost of providing these shares is charged to the profit and loss account on a systematic basis over the period that the employees are expected to benefit. In accordance with the rules of The Northern Rock Qualifying Employee Share Ownership Trust, dividends on shares held by that trust are waived. At 31 December 2004 this trust held 2,054,261 shares (2003 2,056,063). With effect from the 2004 interim payment, dividends on shares held by The Northern Rock Employee Trust are waived. At 31 December 2004 this trust held 5,779,139 shares.

At 31 December 2004, a total of 8,344,641 shares were held by the trustees (2003 9,239,017) with a market value of £65.2m (2003 £66.1m). These shares are excluded from the weighted average number of Ordinary Shares when calculating earnings per Ordinary Share (see note 13).

35. Reconciliation of movements in shareholders' funds

	Group		Company

Closing shareholders' funds	**1,541.9**	1,339.9	**1,392.6**	1,234.1

36. Guarantees and other financial commitments

(i) The Company has an obligation under the Building Societies Act 1986, as successor company to Northern Rock Building Society, to honour the financial commitments of its subsidiaries and associated bodies linked by resolution, incurred prior to 11 June 1996 insofar as those bodies are unable to discharge them out of their own assets. The Company has agreed to continue this obligation in respect of liabilities of Northern Rock (Guernsey) Limited.

(ii) The Company has given indemnities to the National House Building Council in respect of certain of its house building operations.

(iii) Capital commitments at 31 December in respect of authorised expenditure were as follows:

	Group		Company	
	2004	2003	**2004**	2003

37. Derivatives and other financial instruments

The Group's approach to risk management and the related use of derivative instruments is described below.

Risk management

Management of risk is fundamental to the business of banking and is an integral part of the Group's strategic focus. The Group's risk management governance structure begins with oversight responsibility by the Board of Directors. Assisting the Board, the Audit Committee of Non-Executive Directors advises the Board on all matters relating to regulatory, prudential and accounting requirements that may affect the Group and reports to the Board on both financial and non-financial controls. The Risk Committee comprising three Non-Executive and the Executive Directors reviews the key risks inherent in the business and the system of control necessary to manage such risks.

In addition, the Management Board Asset and Liability Committee, which comprises the Executive Directors, the Company Secretary and ten other senior executives, has been delegated the responsibility to oversee the management and review of the balance sheet risk and liquidity profiles. The Management Board Asset and Liability Committee is supported by the director of Risk.

The director of Risk reports on and monitors risks throughout the Group and assists operational business areas in the formulation and implementation of appropriate risk management policies, methodologies and infrastructure. Each business area is responsible for the identification and quantification of their particular operational and credit risk exposures and implementing risk management policies and procedures agreed by the Board.

Credit risk

Credit risk is the potential risk of financial loss arising from the failure of a customer or counterparty to settle its financial and contractual obligations.

The overall day-to-day management of credit risk is delegated to individual business areas. Each business area utilises various qualitative and quantitative techniques to measure and manage their respective credit risk exposures. This includes the use of various credit risk mitigation techniques such as netting.

The customer loan risk management process incorporates sophisticated credit scoring systems to differentiate the credit risk associated with residential mortgage loans and unsecured loans, both at individual transaction and portfolio levels.

Credit exposure limits for corporates and financial institutions are primarily based on the credit ratings assigned by the rating agencies. Credit limits are monitored by the Management Board Asset and Liability Committee to ensure they remain within authorised counterparty credit limits as detailed in the Credit Risk Policy Statement approved by the Board of Directors.

Liquidity risk

Liquidity risk arises from the mismatch in the cash flows generated from on balance sheet assets and liabilities, and the interest flows of off balance sheet instruments.

The Board of Directors has approved a Liquidity Policy statement which is compliant with the supervisory framework set by the Financial Services Authority ("FSA"). These policies ensure that the Group is able to meet retail deposit withdrawals – either on demand or at contractual maturity – to repay wholesale borrowings as they mature and to meet current lending objectives. This is achieved by managing a diversified portfolio of high quality liquid assets, and a balanced maturity profile of wholesale and retail funds. Regular reports are made to the FSA detailing the Group's sterling stock liquidity.

Operational risk

Operational risk is the potential risk of financial loss or impairment to reputation arising from failures in operational processes or the systems that support them. To minimise operational risk, the Group maintains a system of control commensurate with the characteristics of the business and markets in which the Group operates, best practice principles and regulatory considerations. Where necessary, the Management Board Asset and Liability Committee will establish a project team, comprising senior business line managers, to devise and implement a suitable action plan to mitigate specific operational risk exposures.

Market risk

Market risk is the risk to earnings arising from changes in interest rates, foreign exchange rates and the price of financial securities.

(i) Interest rate risk

As a UK based mortgage institution, Northern Rock offers numerous banking, mortgage and savings products with varying interest rate features and maturities which create potential interest rate exposures.

The Board of Directors has approved a Balance Sheet Structural Risk Management and Hedging Policy Statement that details the policies, procedures and controls for managing risk, including interest rate risk and the use of derivatives. This policy is reviewed regularly by the Management Board Asset and Liability Committee which is responsible for ensuring that balance sheet exposures are managed within the Group's policies and operational limits.

All structural interest rate risk positions and interest rate sensitivity tests are reported to the Management Board Asset and Liability Committee on a regular basis.

(ii) Currency risk

In addition to raising funds through the sterling money markets, capital markets and domestic retail savings market, the Group raises funds through issuing Euro Commercial Paper, US Dollar Commercial Paper, non-sterling denominated medium-term debt securities (including covered bonds) and non-sterling denominated retail funds. The Group's policy is to fully hedge any exchange rate exposures by using cross-currency swaps and forward foreign exchange contracts, or to match exposures with assets denominated in the same currency. Any non-sterling denominated assets are also fully hedged in this manner or matched with non-sterling denominated liabilities.

Derivatives

The Board of Directors has authorised the use of derivative instruments for the purpose of supporting the strategic and operational business activities of the Group and reducing the risk of loss arising from changes in interest rates and exchange rates. All use of derivative instruments within Northern Rock is to hedge risk exposure, and the Group takes no trading positions in derivatives.

For the purpose of reducing interest rate risk and currency risk, the Group uses a number of derivative instruments. These comprise interest rate swaps, interest rate options, forward rate agreements, interest rate and bond futures, currency swaps and forward foreign exchange contracts. The objective, when using any derivative instrument, is to ensure that the risk to reward profile of any transaction is optimised. Where either an off balance sheet derivative instrument or an on balance sheet asset or liability could be used for a specific purpose, or where more than one derivative instrument could be used, the Group will select the instrument which optimises the following conditions:

- Minimise capital utilisation;
- Maximise income or minimise cost;
- Maximise liquidity;
- Minimise administrative and accounting complexity; and
- Minimise the Group's tax liability.

The benefits of using off balance sheet derivative instruments are measured by examining the anticipated consequences of not hedging the perceived risk in terms of revenue or capital loss.

37. Derivatives and other financial instruments (continued)

The following table summarises activities undertaken by Northern Rock, the related risks associated with such activities and the types of derivatives used in managing such risks. Such risks may also be managed using on balance sheet instruments as part of an integrated approach to risk management.

Activity	Risk	Type of hedge
Management of the return on variable rate assets	Reduced profitability due to falls in short-term interest rates	Receive fixed interest rate swaps Purchase interest rate options Sell forward rate agreements Purchase interest rate futures
Fixed-rate lending	Sensitivity to increases in interest rates Sensitivity to decreases in medium/long term interest rates, resulting in prepayment	Pay fixed interest rate swaps Purchase interest rate caps Impose early repayment penalty charges
Fixed-rate retail and wholesale funding	Sensitivity to falls in short-term interest rates	Receive fixed interest rate swaps
Fixed-rate asset investments	Sensitivity to increase in interest rates	Pay fixed interest rate swaps
Re-financing of wholesale funding	Sensitivity to increase in interest rates	Sell bond futures Purchase forward rate agreements Sell interest rate futures
Investment in foreign currency assets	Sensitivity to strengthening of sterling against other currencies	Cross-currency swaps Foreign currency funding
Issuance of bonds in foreign currencies	Sensitivity to weakening of sterling against other currencies	Cross-currency swaps
Interest earned on foreign currency denominated debt securities	Sensitivity to strengthening of sterling against other currencies	Forward foreign exchange contracts Purchase currency options

Derivatives which are combinations of more basic transactions (such as swaps with embedded option features), or which have leverage features, may be used in circumstances where the underlying position being hedged contains the same risk features, for example medium-term note issues based on equity indices or a multiple of an underlying floating market rate. In such cases the derivative used will be structured to match the risks of the underlying asset or liability. Exposure to market risk on such contracts is therefore fully hedged. Credit risk on these contracts is monitored within tightly defined risk limits on the basis of the contractual terms of the instruments, rather than the face or contract amount.

The vast majority of the Group's derivatives activity is contracted with banks and other financial institutions.

The table below shows the underlying principal amount and positive and negative book and fair values of derivatives by type of contract.

Group and Company 2004	Underlying principal amount £m	Positive book values £m	Negative book values £m	Positive fair values £m	Negative fair values £m
Interest rate contracts:

1-5 years	3,446.8	124.7	112.5	121.0	148.8
over 5 years	285.5	20.3	18.5	19.7	19.4
Forward foreign exchange					
1 year or less	2,471.1	2.6	126.4	1.9	112.1
1-5 years	–	–	–	–	–
over 5 years	–	–	–	–	–
	7,791.7	174.3	448.3	167.8	435.9

The positive fair values above represent the gross replacement cost of the Group's derivatives and hence equate to the maximum gross loss it would incur if any party to the derivatives contract failed to perform to its terms. At 31 December 2004 the potential credit exposure after allowing for collateral received was £269.1m (2003 £194.0m).

In addition to the derivatives disclosed above, there are a number of derivatives that have been entered into by the securitisation companies (see note 16). These consist of interest rate swaps and cross currency swaps all with a term of over 5 years. The underlying principal amounts at 31 December 2004 were £1,636.1m and £14,810.2m (2003 £1,257.1m and £10,365.4m). Positive book values amounted to £nil and £270.6m (2003 £nil and £192.5m) and negative book values amounted to £nil and £1,368.5m (2003 £nil and £1,057.8m). Positive fair values were £42.7m and £275.4m (2003 £19.6m and £192.1m) and negative fair values were £0.3m and £1,367.1m (2003 £0.1m and £1,042.6m).

37. Derivatives and other financial instruments (continued)

The following table gives an analysis of the re-pricing periods of assets and liabilities on the Group balance sheet at 31 December.

Items are allocated to time bands in the table below by reference to the earlier of the next contractual interest rate re-pricing date and the residual maturity date.

2004	Within 3 months £m	After 3 months but within 6 months £m	After 6 months but within 1 year £m	After 1 year but within 5 years £m	After 5 years £m	Non-interest bearing funds £m	Total £m

Cumulative interest rate sensitivity gap	324.0	(1,285.7)	(69.0)	1,038.4	1,273.9	–	–

The above table has been restated to reflect the prior year adjustment arising from the introduction of UITF 38 (see note 2).

37. Derivatives and other financial instruments (continued)

Gains and losses on hedging derivatives

	2004			2003		
	Gains £m	Losses £m	Net £m	Gains £m	Losses £m	Net £m
Unrecognised gains and losses on hedges						
At 1 January	**225.2**	**(130.0)**	**95.2**	219.4	(292.6)	(73.2)
Arising in previous years recognised in 2004 (2003)	**(63.9)**	**50.4**	**(13.5)**	(42.5)	137.8	95.3
Brought forward gains and losses not recognised in 2004 (2003)	**161.3**	**(79.6)**	**81.7**	176.9	(154.8)	22.1
Arising in 2004 (2003) not recognised in 2004 (2003)	**86.7**	**(49.9)**	**36.8**	48.3	24.8	73.1
At 31 December	**248.0**	**(129.5)**	**118.5**	225.2	(130.0)	95.2
Of which:						
gains and losses expected to be recognised in 2005 (2004)	**96.3**	**(36.7)**	**59.6**	63.9	(50.4)	13.5
gains and losses expected to be recognised in 2006 (2005) or later	**151.7**	**(92.8)**	**58.9**	161.3	(79.6)	81.7

	2004			2003		
	Gains £m	Losses £m	Net £m	Gains £m	Losses £m	Net £m
Realised gains and losses held in the balance sheet						
At 1 January	**6.1**	**(14.5)**	**(8.4)**	16.0	–	16.0
Realised gains and losses brought forward recognised in income in 2004 (2003)	**(6.1)**	**7.7**	**1.6**	(16.0)	–	(16.0)
Brought forward realised gains and losses not recognised in income in 2004 (2003)	**–**	**(6.8)**	**(6.8)**	–	–	–
Realised gains and losses in 2004 (2003) not recognised in income in 2004 (2003)	**2.0**	**(9.6)**	**(7.6)**	6.1	(14.5)	(8.4)
At 31 December	**2.0**	**(16.4)**	**(14.4)**	6.1	(14.5)	(8.4)
Of which:						
gains and losses expected to be recognised in 2005 (2004)	**2.0**	**(16.4)**	**(14.4)**	6.1	(14.5)	(8.4)
gains and losses expected to be recognised in 2006 (2005) or later	**–**	**–**	**–**	–	–	–

The above tables show the gains and losses on off balance sheet derivative instruments used for hedging by the Group. The gains and losses do not therefore represent absolute gains or losses expected by the Group as they will be substantially offset by corresponding losses or gains from on balance sheet instruments.

Currency risk

No analysis has been provided of the Group's structural currency exposures on the grounds of materiality. Where the Group has transactional currency exposures, it uses a variety of derivative products to eliminate this risk and therefore has no material transactional currency risk.

38. Fair values of financial instruments

The table set out below details the book and fair values for some of the Group's financial instruments. This analysis excludes those financial assets which are not listed or publicly traded, and for which no liquid and active market exists. It therefore excludes loans and advances to customers, retail deposits and certain other balance sheet items.

	2004		2003	
	Book value £m	**Fair value £m**	Book value £m	Fair value £m
Assets				
Cash and balances at central banks	**10.2**	**10.2**	11.6	11.6
Loans and advances to banks	**3,305.4**	**3,305.4**	3,450.2	3,450.2
Debt securities	**4,743.5**	**4,777.6**	4,186.7	4,218.9
Equity shares and other variable yield securities	**575.6**	**591.1**	410.8	418.5
Liabilities				
Deposits by banks	**1,218.3**	**1,219.5**	1,480.6	1,480.4
Customer accounts – other customer accounts	**3,103.5**	**3,104.0**	2,454.5	2,454.5
Debt securities in issue	**16,557.1**	**16,633.4**	12,785.9	12,769.4
Subordinated liabilities	**1,955.0**	**2,219.9**	1,601.0	1,818.2
Other				
Derivatives receivable	**254.6**	**459.1**	174.3	372.5
Derivatives payable	**(515.3)**	**(601.3)**	(448.3)	(551.3)

Fair value is the amount at which a financial instrument could be exchanged in an arm's length transaction between informed and willing parties, other than in a forced or liquidation sale and excludes accrued interest. Where available, clean market prices have been used to determine fair values for securities converted at the spot rate of exchange where appropriate. For short term and floating rate borrowings the book value approximates to fair value because of short maturities and reset periods. For longer dated fixed rate borrowings where a market price is unavailable, the fair value has been estimated by adjusting the book value to reflect the effect of related hedging derivatives. The fair values of derivatives have been estimated by calculating the present value of estimated future cash flows.

In addition to the financial instruments above, there are a number of financial instruments within the securitisation companies (see note 16) for which the above disclosures are appropriate, which are currently contained within the linked presentation. These are debt securities in issue with a book value of £21,023.6m (2003 £14,023.9m) and a fair value of £21,123.2m (2003 £14,043.1m), derivatives receivable with a book value of £270.6m (2003 £192.5m) and a fair value of £318.1m (2003 £211.7m) and derivatives payable with a book value of £1,368.5m (2003 £1,057.8m) and a fair value of £1,367.4m (2003 £1,042.7m).

39. Non-sterling assets and liabilities

The aggregate amount of all assets and liabilities included in the balance sheet denominated in a currency other than sterling was as follows:

	Group		Company	
	2004 £m	2003 £m	**2004 £m**	2003 £m
Assets	**2,966.5**	2,362.3	**2,955.0**	2,351.0
Liabilities	**13,496.2**	9,463.9	**13,495.3**	9,463.7

The above assets and liabilities denominated in currencies other than sterling do not indicate the Group's exposure to foreign exchange risk. The Group has no material net currency exposures as all borrowings in foreign currencies are either hedged with cross currency swaps or forward foreign exchange agreements, or are matched by assets denominated in the same currency.

40. Related party transactions

(i) At the end of the year the aggregate amounts outstanding from Directors, their connected persons and Officers, in relation to loans from and other credit transactions with the Company, and the number of persons concerned, were as follows:

	Directors		Officers	
	2004	2003	**2004**	2003
Number of persons	**5**	6	**15**	13
Aggregate amount	**£2.0m**	£2.7m	**£2.4m**	£1.9m

(ii) The Company's total contribution payable under deed of covenant to The Northern Rock Foundation for the year ended 31 December 2004 amounted to £21.6m (2003 £19.3m). At 31 December 2004 the commitment in respect of amounts not yet paid was £11.6m (2003 £10.0m).

(iii) Except for the contribution to The Northern Rock Foundation, the Company has made no promotional and benevolent donations to organisations in which certain Directors and their connected persons hold positions of influence such as Directors, Trustees and Governors (2003 £nil).

(iv) The Company has mortgage loans receivable from its related companies. Movements in these loans and provisions in respect of them during the year were as follows:

	£m
Cost:	
At 1 January 2004 and 31 December 2004	0.1
Provisions:	
At 1 January 2004 and 31 December 2004	0.1
Net book amount:	
At 31 December 2004 and 31 December 2003	-

(v) Northern Rock plc is a listed company and its shares are held by a large number of investors. No investor acting individually has the ability to control the activities of the Company. Consequently it is considered that there is no ultimate controlling party as defined in FRS 8 "Related Party Transactions".

41. Reconciliation of operating profit to net operating cash inflows

	2004	2003 (as restated)
	£m	£m
Profit on ordinary activities before tax	**431.2**	386.6
(Increase)/decrease in prepayments and accrued income	**(182.1)**	37.9
Increase in accruals and deferred income	**57.2**	28.1
Provisions for bad and doubtful debts	**56.5**	48.7
Loans and advances written off	**(30.9)**	(30.3)
Depreciation and amortisation	**22.6**	20.1
Interest on subordinated liabilities	**85.5**	62.0
Interest on reserve capital instruments	**19.8**	17.3
Interest on tier one notes	**13.0**	11.4
Other non-cash movements	**9.6**	14.7
Net cash inflow from trading activities	**482.4**	596.5
Net increase in loans and advances to banks and customers	**(12,813.8)**	(9,631.9)
Net increase in deposits by banks and customer accounts	**1,369.1**	1,147.7
Net increase in debt securities in issue	**11,007.3**	8,794.5
Net decrease in other assets	**7.0**	2.6
Net decrease in other liabilities	**(18.8)**	(63.6)
Net cash inflow from operating activities	**33.2**	845.8

42. Gross cash flows

		2004 £m	2003 £m
(i)	Returns on investments and servicing of finance		
	Interest paid on subordinated liabilities	**78.7**	58.2
	Interest paid on reserve capital instruments	**19.7**	17.2
	Interest paid on tier one notes	**12.6**	11.5
		111.0	86.9
(ii)	Capital expenditure and financial investment		
	Purchase of investment securities	**9,670.3**	4,633.4
	Sales and maturities of investment securities	**(8,900.9)**	(4,256.8)
	Purchase of tangible fixed assets	**60.4**	43.6
	Sale of tangible fixed assets	**(12.3)**	(0.7)
		817.5	419.5
(iii)	Financing		
	Issue of subordinated liabilities	**396.1**	–

Introduction

Statutory Results

The 2005 Interim Results have been prepared using International Financial Reporting Standards ("IFRS") as approved by the International Accounting Standards Board that are effective or available for early adoption at the Group's first reporting date, 31 December 2005. Certain of these IFRS are only effective from 1 January 2005, and therefore the revised 2004 statutory based results ("statutory") only include certain of the IFRS used in the preparation of the 2005 results. The results included on pages 18 to 74 represent the statutory results of the Group for the six months ended 30 June 2005 and include the statutory comparatives reflecting only those standards which permit or require retrospective adoption, reflecting the voluntary exemptions of IFRS1.

Proforma Results

In order to aid comparability of the 2005 results with those of 2004, 2004 results have also been prepared on a proforma basis, incorporating the impact of IFRS where it is possible to determine what the impact would have been if the accounting changes had been effective in 2004. The proforma results include the impacts of changes to accounting rules relating to effective interest rate and the reclassification of certain financial instruments from debt to equity.

Underlying Results

The 2005 statutory results include the full effects of the introduction of fair value and hedge accounting following the adoption of IAS 32 and 39 with effect from 1 January 2005. Where appropriate, certain aspects of the results for 2005 are presented to reflect management's view of the underlying results for 2005 excluding the effects of fair value volatility and hedge ineffectiveness to provide a clearer representation of the underlying performance of the Group.

NORTHERN ROCK GROUP INTERIM RESULTS

28 July 2005

Northern Rock plc today issued its Interim Results for the six months ended 30 June 2005.

HIGHLIGHTS

Operating Performance

- Total assets of £72.5 billion - an increase of 26.9% from June 2004 assets of £57.1 billion
- Record H1 gross lending of £11.5 billion - an increase of 14.8%, with record H1 net lending of £6.0 billion - an increase of 17.2%
- Share of UK net mortgage lending of 14.2% - up from 11.2% in the 2004 full year
- 1 July 2005 total lending pipeline of £6.5 billion - up 26% from 1 January 2005
- 0.35% (31 December 2004 - 0.37%) of mortgage accounts 3 months or more in arrears - under half of industry average
- Record retail savings intake of £1.7 billion - nearly twice the total for all of 2004

Profits

- Pre tax profits up by 45.4% to £294.0 million from June 2004, an increase of 39.2% compared with June 2004 proforma pre tax profits
- Underlying pre tax profits of £239.2 million, up by 13.3% compared with 2004 proforma
- Underlying attributable profits of £149.4 million, up by 10.6% compared with 2004 proforma

Costs

- Cost to asset ratio improved to 0.35% (from 0.37% in 2004)
- Cost to income ratio improved to 28.3%. On an underlying basis it is 30.1%, compared with a proforma ratio of 29.9% for all of 2004

Shareholder Value

- Return on equity of 24.6%, being 25.9% on a proforma basis and 20.6% on an underlying basis
- EPS of 45.5p - an increase of 30.7%. On a proforma basis the increase is 39.1% and on an underlying basis EPS of 36.1p represents an increase of 10.4%
- Interim dividend per share of 9.4p - an increase of 10.6%

Social Responsibility

- The Northern Rock Foundation - supporting charitable causes - to receive £14.7 million

Note

The basis of preparation of statutory, proforma and underlying figures is detailed on page 3

Adam J Applegarth, Chief Executive, said:

"Northern Rock has again demonstrated in the first half of 2005 its ability to grow through strong volumes of high quality residential mortgage lending, despite a slow down in the UK housing market. Total balance sheet assets have grown to £72.5 billion, an increase of 27% compared with 30 June 2004.

Although the introduction of IFRS defers income for a growth company like Northern Rock the volatility from fair value adjustments and hedge accounting has been introduced and so, reported profit before tax is up 45%, with underlying attributable profit up 10.6%. In future years, as our asset growth trends to the mid-point of our strategic targets, I expect to see the gap between underlying attributable profit growth and asset growth narrow noticeably.

With the introduction of IFRS there have been some additional costs - mainly to do with pension funding and employee share benefits. We've incorporated these and have still seen an improvement in our cost to asset ratio and our cost to income ratio remains broadly stable on an underlying basis. Therefore, once comparable figures are available, I expect our relative cost advantage to have improved."

Note

The basis of preparation of statutory, proforma and underlying figures is detailed on page 3

OPERATIONAL REVIEW

Introduction

The 2005 Interim Results have been prepared using International Financial Reporting Standards ("IFRS") which differ significantly to UK GAAP used in the preparation of previously reported financial statements.

Analysis of the results is complicated as a result of certain IFRS only being effective from 1 January 2005. This means that the revised 2004 statutory results only include certain of the IFRS used in the preparation of the 2005 results. As a consequence we have included, on pages 76 to 112, 2004 results prepared on a proforma basis, incorporating the impact of IFRS where it can be determined what the impact would have been if the accounting changes had been effective in 2004. This particularly relates to the treatment of interest income and fees and the reclassification of certain funding instruments from debt to non shareholders' equity but excludes the effects of hedge accounting under IFRS which differs from that applied under UK GAAP.

Full reconciliations of the effect of the introduction of IFRS are included in the statutory and proforma sections of the Interim Results together with full details of the accounting policies for 2005.

As a consequence of the introduction of IFRS the balance sheet and income statement are subject to a certain amount of volatility particularly from the accounting for hedges deemed under IFRS rules to be ineffective, plus volatility arising from fair value movements on derivatives taken out in respect of certain financial liabilities and instruments included in non shareholders' equity which themselves are not subject to fair value treatment. Where appropriate, such volatility is separately identified in the review of financial and operating results to enable underlying performance to be separately identified.

Overview

Strong lending volumes continued in the first half of 2005 resulting in total assets of £72.5 billion, an increase of 26.9% compared with 30 June 2004. Residential net lending market share at 14.2% to the end of May 2005, exceeded the 11.2% share achieved in 2004, further demonstrating Northern Rock's ability to achieve growth targets even in a slowing and competitive mortgage market. Asset quality also remained robust across all loan portfolios.

Underlying profit before tax growth compared with the proforma results for 2004 was 13.3%, with growth in underlying earnings per share on an equivalent basis of 10.4%, in line with expectations. Underlying return on equity at 20.6% remained within the top half of our strategic target range.

The strong performance of our retail funding seen in 2004 continued in the first half of 2005 with net inflows of £1,716 million. Two successful securitisation issues raised £8,558 million and contributed further to our capital management.

Lending

During the first half of 2005 Northern Rock has again achieved record levels of total lending. Total gross lending was £11,543 million, an increase of 14.8% (30 June 2004 - £10,055 million), with total net lending of £5,965 million, an increase of 17.2% (30 June 2004 - £5,091 million). Prospects for the remainder of 2005 are good, with a pipeline of £6,453 million some 26% higher than at the beginning of the year (1 January 2005 - £5,105 million). The residential lending pipeline at £5,987 million is also 26% higher than at the beginning of the year (1 January 2005 - £4,755 million).

Note

The basis of preparation of statutory, proforma and underlying figures is detailed on page 3

Lending (continued)

The composition of our lending portfolios has continued to be low risk. At 30 June 2005 89% of our loans to customers were residential (30 June 2004 - 89%), 3% commercial secured loans (30 June 2004 - 3%) and 8% (30 June 2004 - 8%) within our personal unsecured portfolios. This mix is not expected to change significantly going forward.

An analysis of lending by portfolio is set out in the following table:

£ millions	Residential	Commercial	Unsecured	Total
2005 First Half				
Gross	10,224	218	1,101	11,543
Net	5,610	31	324	5,965
2004 First Half				
Gross	8,512	212	1,331	10,055
Net	4,367	63	661	5,091
2004 Full Year				
Gross	20,051	499	2,792	23,342
Net	11,383	182	1,367	12,932

Residential

The UK residential lending market was weaker in the first half of 2005 compared with the equivalent period in 2004, as a result of falling consumer confidence and a slow down in the housing transaction market, with gross lending down by 14% and net lending down 25% in the first 5 months of the year. Estimated gross lending, however, remains on track to reach around £260 billion for the full year, compared with £291 billion last year. Net lending is forecast to be around £80 billion for the year which would represent a 21% reduction from the £101 billion seen in 2004. UK house prices remained static in the first half of the year, but there remains little evidence of widespread house price reductions, a situation we expect to continue. With the level of housing transactions at the lower end of long term trends and house price inflation likely to be limited for the time being, gross lending continues to be underpinned by sustained levels of remortgage activity which accounted for approximately 46% of gross lending so far this year. The gross market remains key to Northern Rock achieving its growth targets, and economic conditions remain supportive with low inflation, relatively low unemployment, low interest rates and consequently good affordability.

Against this background we achieved gross residential lending of £10,224 million (30 June 2004 - £8,512 million) and net residential lending of £5,610 million (30 June 2004 - £4,367 million), representing increases of 20.1% and 28.5% respectively. Our share of UK gross residential lending for the first five months of 2005 was 8.1% and our market share of net residential lending for the same period was 14.2%. This compares with 5.8% and 8.2% respectively for the first half of 2004, and 6.8% and 11.2% for 2004 in total. Our share of redemptions in the first five months of the year was 5.2%, again lower than our closing share of mortgage stock of around 6.0%. This reflects the continued success of our pro-active customer retention process and our fair and transparent policy of allowing existing customers, subject to contractual terms, to transfer their loan to any product available to new borrowers.

Note

The basis of preparation of statutory, proforma and underlying figures is detailed on page 3

Lending (continued)

The low risk profile of our new lending has continued despite strong growth in volumes. The proportion of lending to first time buyers remains low at 21% (2004 - 21%) with 79% of new customers having a proven payment track record. The average Loan to Value ratio ("LTV") of new lending in 2005 so far remained similar to 2004 at around 75% and new lending below 90% LTV was 71% (2004 - 75%) of completions. The average indexed LTV of our mortgage book is now 57% (31 December 2004 - 53%) providing strong cover in the event of default. The slight increase in indexed LTV reflects the slow down in house price inflation. We have minimal exposure to large loans with only around 3.5% of new loans over £500,000 (2004 - 3.5%) and we maintained an excellent geographic spread of lending.

We offer customers a wide range of innovative and attractive products including lifestyle products and traditional price-led products. Our lifestyle products comprise our "together" family of products, Lifetime and residential Buy to Let mortgages. The "together" products combine a secured and unsecured loan at one interest rate and one monthly payment. Gross lending of "together" products amounted to £2.5 billion of which £2.2 billion were advances secured on residential property representing 23.5% of new residential lending, excluding further advances. Outstanding balances of "together" mortgages remained around one fifth of our mortgage portfolio.

Our Lifetime range is aimed at homeowners aged over 60 who wish to utilise equity in their homes to enhance their lifestyle. Such lending accounted for 1.4% of gross new residential lending (2004 - 1.8%), with outstanding Lifetime balances representing 3.0% (31 December 2004 - 3.1%) of our mortgage balances.

Residential Buy to Let lending is focussed on lending to private investors secured on good quality residential properties with low LTVs. Such lending accounted for 4.8% of our mortgage portfolio at 30 June 2005 (31 December 2004 - 4.0%) and for 8.6% (H2 2004 - 7.3%) of gross new residential lending. This type of lending is likely to remain a niche part of our overall portfolio of lending and the professional part of the market is likely to be supported by demand following changes in pension legislation allowing rental properties to be included within investors' pension plans.

In total our lifestyle products, which are margin enhancing, represented 33.5% (2004 - 28.9%) of our gross new residential lending and 26.4% of mortgage balances at 30 June 2005 (31 December 2004 - 25.3%).

Of our traditional price-led mortgage products, fixed rate mortgages remained the most popular with 30.2% (2004 - 46.4%) of total new lending accounted for by short term fixed products up to two years, and 25.6% (2004 - 7.5%) by longer term fixes normally up to a maximum of seven years. The increased demand for longer term fixed rate products reflected attractive pricing as longer term swap rates have fallen.

Unsecured

Our personal unsecured credit portfolios comprise the unsecured element of "together" lending and standalone unsecured loans not linked to a residential mortgage. An analysis of lending volumes on the separate elements of our unsecured portfolios is shown in the following table:

Note

The basis of preparation of statutory, proforma and underlying figures is detailed on page 3

Lending (continued)

£ millions	Standalone Unsecured	Together Unsecured	Total
2005 First Half			
Gross	761	340	1,101
Net	174	150	324
2004 First Half			
Gross	950	381	1,331
Net	505	156	661
2004 Full Year			
Gross	2,068	724	2,792
Net	1,104	263	1,367

Standalone gross lending has slowed in line with consumer spending and our risk appetite. Net lending has shown further reduction as the portfolio matures and redemptions and repayments increase.

Volumes of "together" unsecured lending remained similar to levels seen in each of the previous half year periods. At 30 June 2005 our unsecured lending balances were £4,997 million (31 December 2004 - £4,660 million) of which 40.6% (31 December 2004 - 40.3%) represented "together" unsecured advances.

Commercial

Competition in the commercial secured lending market has remained strong in the first half of 2005 with certain lenders being particularly aggressive on price and LTV levels at which they are prepared to lend. We have continued to grow our commercial lending portfolio gradually, maintaining our emphasis on quality rather than volume of lending. Gross lending in the first half amounted to £218 million (30 June 2004 - £212 million) with net lending of £31 million (30 June 2004 - £63 million).

Arrears and Possessions

The arrears position of each of our personal lending portfolios based upon accounts three months or more in arrears is set out in the following table:

	Residential	Standalone Unsecured	"Together" Unsecured
30 June 2005	0.35%	1.02%	0.82%
31 December 2004	0.37%	1.04%	0.78%
30 June 2004	0.39%	0.94%	0.80%

The absolute increase in number of residential accounts three months or more in arrears was only 20 cases, less than a 1% movement, compared with a 5% increase in number of accounts. The 0.35% remains well below half the industry average of 0.87% at 30 June 2005 (31 December 2004 - 0.80%). The "together" secured advances performance remained consistent, with three months plus arrears stable at 0.79% at 30 June 2005 (31 December 2004 - 0.77%). At 30 June 2005, 310 properties, representing only 0.05% of all accounts, were in possession compared with 181 (0.03%) at the end of 2004.

Note

The basis of preparation of statutory, proforma and underlying figures is detailed on page 3

Arrears and Possessions (continued)

Standalone personal unsecured loan arrears remain significantly better than industry average, reflecting our policy of attracting high quality lending and use of our bespoke scorecard to avoid lower quality lending. Unsecured loans within the "together" brand continued to perform in line with the "together" secured advances and better than traditional personal unsecured loans.

At 30 June 2005 only 14 of our commercial loans (0.58% of accounts) with balances outstanding of £5.0 million were three months or more in arrears compared with 8 accounts (0.31%) with outstanding balances of £6.3 million at 31 December 2004.

Funding

Northern Rock has established 4 distinct funding arms enabling it to attract funds from a wide range of customers and counterparties on a global basis. Flows of new funding and closing balances are shown in the following table:

£ millions	Retail	Non-Retail	Securitisation	Covered Bonds
2005 First Half				
Net flow	1,716	(2,245)	6,138	1,025
Closing balances	19,008	17,520	27,706	2,430
2004 First Half				
Net flow	(163)	(1,916)	5,425	1,341
Closing balances	16,232	15,060	20,283	1,339
2004 Full Year				
Net flow	896	2,770	7,234	1,341
Closing balances	17,290	19,740	22,090	1,339

Note: Closing balances at 30 June 2005 are stated including IAS39 fair value adjustments. Net flows in 2005 represent net cashflows excluding fair value adjustments.

Retail

Retail funding comprised a net inflow of funds of £1,457 million plus interest credited of £259 million and builds on the successful funding in the second half of 2004 of over £1.0 billion, again demonstrating the strength and diversity of our retail franchise.

Funding during the six months was largely into our Silver Savings account launched in September 2004 for the over 50s. Fixed rate bonds also remained popular. Balances in our Ireland based operation rose to £804 million (31 December 2004 - £628 million), with £1,812 million (31 December 2004 - £1,871 million) in our Guernsey based off-shore vehicle.

Non-Retail

Our non-retail funding provides a balanced mixture of short and medium term funding with increasing diversification of our global investor base. During the first half we were able to repay £2.2 billion, mainly short term funds, following the successful securitisation issues.

Note

The basis of preparation of statutory, proforma and underlying figures is detailed on page 3

Non-Retail (continued)

During the first half we raised £1.4 billion medium term wholesale funds, from a variety of sources located globally, with specific emphasis on the US and Europe. This included a US$1.75 billion Extendible Quarterly Securities issue sold to domestic US investors.

With regards to short term funding, key developments included the establishment of a CAD$2 billion Canadian Commercial Paper programme which provides access to domestic Canadian investors. This programme had outstanding balances of CAD$1.0 billion at 30 June 2005.

Securitisation

Funding through securitisation has remained an integral part of Northern Rock's funding strategy. During the first half of 2005 two residential mortgage issues were completed raising £8.6 billion through our Granite vehicles. Diversification of our investor base continued with over 75% of the securitised bonds being issued in US dollars or euros. Further issuance is planned in the second half of 2005, with a second commercial mortgage securitisation raising £600 million already having completed since the half year. The characteristics of the mortgages securitised, in terms of product type, LTV and geographic distribution remain similar to those of our non-securitised mortgages.

The two Granite issues in 2005 were at the lowest spread we have ever achieved and noticeably (around 8 bps) cheaper than the maturing issues they are in part replacing.

At 30 June 2005 advances to customers subject to securitisation amounted to £29.2 billion (31 December 2004 - £21.9 billion), representing 48% (31 December 2004 - 40%) of our total lending portfolios.

Covered Bond

In the first half of 2005 we raised €1.5 billion (£1.03 billion) from a second issue from our €10 billion programme established in 2004. This provided further diversification of the investor base as around 40% of the participants were new to Northern Rock. The covered bond is secured by a pool of ring-fenced residential mortgages which remain on-balance sheet as Northern Rock retains substantially all the risks and rewards associated with the loans.

Assets

Total assets on a statutory and underlying basis (excluding fair value adjustments) are set out in the following table:

£ millions	**30 June 2005**	**30 June 2004**	**31 December 2004**
Statutory	72,460	57,092	64,881
Underlying	71,198	57,092	64,881

On a statutory basis total assets are 11.7% higher than at the previous year end and 26.9% higher than 12 months ago. On an underlying basis growth in total assets was 9.7% and 24.7% respectively.

Treasury

Our Treasury operation continues to raise wholesale funds, manage interest rate and currency risks, and manage a portfolio of investments primarily for liquidity purposes. It is not a separate profit centre and does not operate trading portfolios. At 30 June 2005, 97% (31 December 2004 - 96%) of our Treasury investment portfolios comprised assets which are rated single A or better. We continue to have no exposure to emerging markets or non-investment grade debt.

Note

The basis of preparation of statutory, proforma and underlying figures is detailed on page 3

Total Income and Margins

The introduction of IFRS in 2005 results in significant changes in the presentation and reporting of interest and non-interest income. Upfront lending fees are now spread over the expected life of a loan and included in interest income resulting in a deferral of reported income. Introducer fees are also now recognised within interest income and spread over the expected life of a loan, rather than the life of the customer relationship, resulting in an acceleration of the recognition of the cost. Mortgage incentives continue to be offset against interest income but are now spread over the expected life of a loan rather than over the early repayment charge period. In addition, following the re-classification of certain instruments from debt to equity, the coupon payable on these instruments is now excluded from interest expense. As these accounting changes were introduced on a statutory basis with effect from 1 January 2005 we have prepared proforma 2004 figures on a comparable basis as well as on the statutory basis.

The following tables show net interest income and total income on a statutory and proforma basis for 2004 and on a statutory and underlying basis (see notes 3 and 4) for 2005.

Statutory basis	**6 months ended**		**Year ended**
£ millions	**30 June 2005**	**30 June 2004**	**31 December 2004**
Net interest income	369.3	227.0	466.9
Other income	50.5	113.9	252.3
Total income	**419.8**	**340.9**	**719.2**

Underlying / Proforma basis	**6 months ended**		**Year ended**
£ millions	**30 June 2005**	**30 June 2004**	**31 December 2004**
Net interest income	345.0	299.3	612.7
Other income	50.5	50.4	111.8
Total income	**395.5**	**349.7**	**724.5**

On a statutory basis total income in the first half of 2005 amounted to £419.8 million representing an increase of 23.1% over total income in the first half of 2004. On this basis the ratio of total income to mean total assets at 1.22% in the first half compares with the 2004 full year and half year ratios of 1.23% and 1.25%. Total income as a proportion of mean risk weighted assets at 3.59% compares with the 2004 full year and half year ratios of 3.37% and 3.43%.

On an underlying basis total income in the first half of 2005 amounted to £395.5 million representing an increase of 13.1% over proforma total income in the first half of 2004. On this basis the ratio of total income to underlying mean total assets at 1.16% in the first half compares with the 2004 full year and half year ratios of 1.24% and 1.29%. Total income as a proportion of mean risk weighted assets at 3.41% compares with the 2004 full year and half year ratios of 3.43% and 3.56%.

Underlying interest margin at 1.00% in the first half compares with the 2004 full year and half year ratios of 0.82% and 0.85% on a statutory basis and 1.07% and 1.12% on a proforma basis. The proforma basis is considered to be a more appropriate comparator as it is calculated on the same basis as the 2005 figures, including the impact of effective interest rate changes under IFRS. On this basis, interest margin is 7bps lower than the full year in 2004 but only 3bps lower than in the second half last year. During the first half of 2005, 3 month Libor has remained on average 15bps higher than Bank Base Rate compared with 20bps in the second half of 2004 and so has continued to adversely affect the price of our securitisation and non-retail funding. Towards the end of the first half, 3 month Libor, together with swap rates, started to fall such that a positive differential between Bank Base Rate and

Note
The basis of preparation of statutory, proforma and underlying figures is detailed on page 3

Total Income and Margins (continued)

funding rates currently exists. If this continues in the second half of 2005 this will support spreads as and when the relevant funding re-prices.

At 30 June 2005 the net value of fees deferred to future periods amounts to £268.7 million, compared with £238.2 million at 31 December 2004 and £203.0 million at 30 June 2004 on a proforma basis.

Other income primarily comprises insurance commission generated on sales of building and contents and payment protection insurance together with administration fees not included within interest margin.

Expenses

Total operating expenses amounted to £118.9 million representing an increase of 17.1% over statutory operating expenses of £101.5 million and 18.0% over proforma operating expenses of £100.8 million for the first half of 2004. The increase of 18.0% compares with an increase in underlying assets of 24.7% over the twelve months and a rise in underlying total income of 13.1% on a proforma basis, resulting in a cost to asset ratio of 0.35% (30 June 2004 statutory - 0.37%, proforma - 0.37%) and cost to underlying income ratio of 30.1% (30 June 2004 statutory - 29.8%, proforma - 28.8%). Our performance is in line with achieving around the mid point of our strategic target of cost growth being 1/2 to 2/3rds the rate of growth of assets by the year end.

Included in the 2005 operating expenses are £4.9 million recurring incremental costs in relation to increased regulatory requirements out of an anticipated £10 million for the full year. The first half results also include additional pension scheme and share based costs of £2.3 million arising from the introduction of IFRS.

Social Responsibility - The Northern Rock Foundation

Northern Rock donates 5% of pre tax profit to The Northern Rock Foundation under a deed of covenant. Such donations are used to support community and charitable causes mainly in the North East of England and Cumbria. The covenant from 2005 first half profits amounts to £14.7 million (30 June 2004 - £10.0 million), resulting in over £130 million having been donated since its inception in 1997 as an integral part of Northern Rock's conversion to a plc.

Loan Loss Impairment

Although there are similarities between the bases for making loan loss impairment under UK GAAP and IFRS, the latter is more prescriptive. During the first half of 2005 we have enhanced our loan loss impairment methodologies incorporating risk and performance data captured in and generated by our Basel II capital systems. Following the introduction of the improved methodologies a reassessment of loan loss impairment provisions has been made to closer match the risk profile of our loan portfolios. Following this one-off reassessment, loan loss impairment provisions were reduced by £10.3 million for the residential portfolio and by £9.8 million in our commercial lending portfolio and increased by £20.1 million in respect of our unsecured loans.

Note

The basis of preparation of statutory, proforma and underlying figures is detailed on page 3

Loan Loss Impairment (continued)

The charge for loan loss impairment amounted to £25.5 million for the first half (30 June 2004 - £26.5 million) representing 0.09% of mean advances to customers (30 June 2004 - 0.12%). The combination of high quality lending, low interest rates, low arrears and continued strong average LTV of the portfolio have continued to contain the levels of loan loss impairment provisions required for residential mortgages. Provisions for the commercial secured lending portfolio have been rebased to levels consistent with portfolio performance and expected economic conditions for this sector.

The growth in loan loss impairment provision balances against our personal credit portfolios reflects growth in balances and the maturing nature of the portfolios. As a result, total loan loss impairment provision balances for these portfolios have increased to £92.7 million with total cover of 1.86% (31 December 2004 - 1.68%).

Hedge Ineffectiveness

Following the introduction of IFRS all derivatives entered into by Northern Rock, which under UK GAAP were held off balance sheet, are now recorded on the balance sheet with any fair value movements being taken to the income statement. Where effective hedge relationships can be established, the movement in the fair value of the derivative instrument is offset in full or in part by opposite movements in fair value of the underlying instrument being hedged. Any ineffectiveness arising from different movements in fair value will trend to zero over time and so any recorded ineffectiveness in any accounting period is excluded from underlying results in that accounting period.

In addition, Northern Rock enters into certain derivative contracts, which although efficient economically, cannot be included in effective hedge accounting relationships. Consequently, although the implicit interest cost of the underlying instrument and associated derivative are included in net interest income in the income statement, future fair value movements on such derivatives are recorded in "Net hedge ineffectiveness and other fair value gains and losses" on the face of the income statement and are excluded from underlying results as these fair value movements will not be realised in cash terms. The same treatment also applies to the revaluation at each balance sheet date of economically hedged foreign currency liabilities.

The over-riding objective of the presentation of underlying results is to show the true interest income / cost of hedged instruments and to exclude future fair value adjustments from current performance measurement.

In the first half of 2005 the income statement shows "Net hedge ineffectiveness and other fair value gains and losses" as a positive figure of £33.3 million. This increases to £57.6 million positive after the cost of interest implicit in forward exchange contracts is transferred to underlying net interest income.

Having taken powers at the Annual General Meeting to issue preference shares, we are considering the issue of a nominal amount of such shares. This would enable the Upper Tier 2 instruments currently included in equity to be re-classified as liabilities. This would then enable the economic hedges we hold in respect of these instruments to be included in hedge accounting relationships thereby eliminating a significant amount of the hedge volatility recorded in the income statement.

Taxation

The effective tax rate for the first half was 29.3% (30 June 2004 - 28.9%). We continue to anticipate, with a corporation tax rate of 30%, the ongoing effective tax rate will trend towards 30.0% in the medium term.

Note

The basis of preparation of statutory, proforma and underlying figures is detailed on page 3

Profits and EPS

To aid comparison of the 2005 results with those of 2004 we have prepared 2004 comparatives on a statutory basis and on a proforma basis. In addition, the underlying 2005 results are determined after excluding the effect of hedge accounting ineffectiveness. Details of profit before tax, profit attributable to shareholders and earnings per share on these bases are set out in the following tables:

Statutory basis	**6 months ended**		**Year ended**
	30 June 2005	**30 June 2004**	**31 December 2004**
PBT £m	294.0	202.2	435.3
Attributable profit £m	188.2	143.7	309.5
EPS p/share	45.5	34.8	74.9

Proforma basis	**6 months ended**		**Year ended**
	30 June 2005	**30 June 2004**	**31 December 2004**
PBT £m	294.0	211.2	441.5
Attributable profit £m	188.2	135.1	271.2
EPS p/share	45.5	32.7	65.7

Underlying basis	**6 months ended**		**Year ended**
	30 June 2005	**30 June 2004**	**31 December 2004**
PBT £m	239.2	211.2	441.5
Attributable profit £m	149.4	135.1	271.2
EPS p/share	36.1	32.7	65.7

The reconciliation of 2005 underlying results is set out in note 2 of the Interim Results (page 28 statutory results, page 85 proforma results).

Statutory profit before tax of £294.0 million for the six months ended 30 June 2005 represents an increase of 45.4% over the equivalent statutory figure for 2004 and an increase of 39.2% over the equivalent proforma figure. Statutory profit attributable to shareholders for the first half of 2005 was £188.2 million, an increase of 31.0% over the 2004 statutory result for the same period and 39.3% over the proforma result. Compared with the 2004 first half proforma results, the underlying 2005 profit before tax of £239.2 million represents an increase of 13.3%, with underlying attributable profit rising by 10.6% to £149.4 million.

Return on equity for the first half of 2005 was 24.6% on a statutory basis and 20.6% on an underlying basis compared with 21.1% in the first half of 2004 on a statutory basis and 21.6% on a proforma basis.

Dividends

The proposed interim dividend is 9.4p per share payable on 27 October 2005 to shareholders on the register on 29 September 2005, a 10.6% increase over the 2004 interim dividend of 8.5p.

Note
The basis of preparation of statutory, proforma and underlying figures is detailed on page 3

Capital

At 30 June 2005 total capital amounted to £3,033 million resulting in a total capital ratio of 12.8%, comfortably above regulatory and internal requirements. Tier 1 capital was £1,953 million and the Tier 1 ratio 8.2%. The restated equivalent ratios at 31 December 2004 on a statutory basis were 14.0% and 8.7% and on a proforma basis were 13.5% and 8.0% respectively.

We intend to be among the first wave of applicants seeking waiver from the FSA enabling us to adopt the Retail Internal Ratings Based approach to Basel II currently anticipated to commence on 1 January 2007. We intend to initially adopt the Standardised Approach to Operational Risk.

Our low risk balance sheet means that we expect to achieve significant reductions to the levels of our total regulatory risk weighted assets for credit exposures compared to current levels. This should result in future capital efficiencies subject to consultation with the FSA and credit rating agencies. We recognise, however, that delays to the approval of relevant European Union legislation could result in delays to the introduction of Basel II.

Within securitisation, whilst there has been transference of risk on a non-recourse basis, we have continued to hold a first loss position. After consultation, we intend this autumn, subject to market conditions, to substantially sell-on (on a non-recourse and on-going basis) the majority of the first loss position. This will substantially further strengthen our capital position.

Outlook

The strong performance in the first half of 2005 together with prospects for the remainder of the year mean that we remain on track to achieve our strategic targets in 2005. Asset growth will be at the top end of our 20% + / - 5% target and underlying attributable profit growth will be at the lower end of our targeted 15% + / - 5% range due to the impacts of IFRS. In the medium term we expect asset and profit growth to trend to the mid points of our strategic targets.

Lending will continue to be focussed on low risk residential lending supplemented by commercial secured and personal credit where returns and risk are appropriate. All our funding portfolios will be further developed helping to ensure we have a secure and diversified funding platform.

The range of attributable profit expectations for 2005, excluding any fair value and hedge accounting gains or losses, as provided by 17 of the major bank research analysts, is £290 million to £312 million, with a mean of £298 million, growth of 10% compared to the 2004 proforma figure. Northern Rock remains comfortable with this consensus mean.

Note

NOTES TO THE STATUTORY RESULTS

1. Basis of Preparation

These interim financial statements have been prepared on a basis consistent with International Financial Reporting Standards ("IFRS") in issue that are effective or available for early adoption at the Group's first annual reporting date, 31 December 2005, but do not include all the disclosures in IAS34 on interim reporting, that does not become mandatory until 2007. Based on these IFRS, the Board of Directors have made assumptions about the accounting policies expected to be adopted when the first IFRS annual financial statements are prepared for the year ending 31 December 2005. The interim financial statements require management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses.

The IFRS that will be effective or available for voluntary early adoption in the annual financial statements for the year ending 31 December 2005 are subject to change and to the issue of additional interpretation and therefore cannot be determined with certainty. Accordingly, the accounting policies are consistent with those that the directors intend to use in the next annual financial statements. The significant accounting policies are included in Note 22.

2. Underlying Results

Underlying results are reconciled to the IFRS statutory results in the following table.

	Six months to 30 June 2005		
	Profit before taxation	Profit for the period	Profit attributable to equity shareholders
	£m	£m	£m
IFRS statutory results	294.0	207.9	188.2
Underlying net hedge ineffectiveness and other unrealised fair value gains and losses (note 5)	(57.6)	(57.6)	(57.6)
Impact of covenant to The Northern Rock Foundation	2.8	2.8	2.8
Associated taxation	-	16.0	16.0
Underlying results	239.2	169.1	149.4

Underlying results include the interest related fair value movements on forward exchange contracts and exclude the hedge accounting ineffectiveness on derivatives where fair value hedge accounting has been obtained, together with gains and losses on non-hedging derivatives excluding interest flows to the extent that these are not offset by translation gains and losses on underlying instruments in economic hedging relationships.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

3. Total Income

	Six months to 30 June 2005 £m	Six months to 30 June 2004 £m	Full Year 2004 £m
Statutory total income	419.8	340.9	719.2
Adjustment:			
Interest implicit in forward exchange contracts	(24.3)	-	-
Underlying total income	395.5	340.9	719.2
Mean total assets	68,670.3	54,520.1	58,414.7
Mean total assets (underlying)	68,040.7	54,520.1	58,414.7
Mean risk weighted assets	23,355.5	19,868.4	21,336.7
Underlying total income : mean total assets (underlying)	1.16%	1.25%	1.23%
Underlying total income : mean risk weighted assets	3.39%	3.43%	3.37%
Reported total income : mean total assets	1.22%	1.25%	1.23%
Reported total income : mean risk weighted assets	3.59%	3.43%	3.37%

Interest implicit in forward exchange contracts represents the difference between the sterling cost implicit from the exchange contract and the currency coupon on the foreign currency liability translated at spot exchange rates. This is regarded as the interest element of the forward exchange contract. The remainder of the contract is the difference between the full fair value of the contract and the interest element of the contract and represents the currency fair value element of the contract.

The full fair value of foreign exchange contracts, including both the interest and currency elements, is included in "Net hedge ineffectiveness and other unrealised fair value gains and losses" in the statutory results (see note 5).

NOTES TO THE STATUTORY RESULTS (CONTINUED)

4. Net Interest Income

	Six months to 30 June 2005 £m	Six months to 30 June 2004 £m	Full Year 2004 £m
Interest income			
Secured advances	1,524.4	995.9	2,303.4
Other lending	160.0	156.2	323.5
Investment securities and deposits	254.8	155.8	362.5
	1,939.2	1,307.9	2,989.4
Interest expense			
Retail customer accounts	409.5	311.5	689.7
Other deposits and loans	1,126.1	717.3	1,714.5
Subordinated liabilities	27.1	36.7	85.5
Reserve capital instruments	-	9.3	19.8
Tier one notes	7.2	6.1	13.0
Interest expense as reported	1,569.9	1,080.9	2,522.5
Interest implicit in forward foreign exchange contracts	24.3	-	-
Underlying interest expense	1,594.2	1,080.9	2,522.5
Net interest income as reported	369.3	227.0	466.9
Underlying net interest income	345.0	227.0	466.9
Average interest earning assets excluding fair value adjustments	68,723.6	53,238.4	57,071.3
Average interest bearing liabilities excluding fair value adjustments	66,235.6	52,198.9	56,008.9
Interest margin as reported	1.07%	0.85%	0.82%
Interest spread as reported	0.90%	0.77%	0.73%
Underlying interest margin	1.00%	0.85%	0.82%
Underlying interest spread	0.83%	0.77%	0.73%

Interest margin has been calculated by reference to average interest earning assets excluding fair value adjustments. For assets denominated in foreign currencies, where these have been economically hedged, average balances are based on the contract rate implicit in the associated hedging instrument. Average balances have been calculated on a monthly basis.

Interest spread represents the difference between interest receivable as a % of average interest earning assets, excluding fair value adjustments, and interest payable as a % of average interest bearing liabilities, excluding fair value adjustments. For assets and liabilities denominated in foreign currencies, where these have been economically hedged, average balances are based on the contract rate implicit in the associated hedging instrument.

Included within interest income is an adjustment of £1.7m with respect to the unwind of the discount included in the impairment allowance under IFRS.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

5. Net Hedge Ineffectiveness and Other Unrealised Fair Value Gains and Losses

	Six months to 30 June 2005 £m	Six months to 30 June 2004 £m	Full Year 2004 £m
Future fair value movements excluding interest flows on non-hedging derivatives	734.1	-	-
Translation gains and losses on underlying instruments	(732.3)	-	-
	1.8	-	-
Net hedge ineffectiveness excluding interest flows on fair value hedges	31.5	-	-
Net hedge ineffectiveness and other unrealised fair value gains and losses	33.3	-	-
Interest implicit in forward exchange contracts (note 3)	24.3	-	-
Underlying net hedge ineffectiveness and other unrealised fair value gains and losses	57.6	-	-

The Group enters into certain derivative financial instruments which although highly effective as economic hedges are not included in hedge accounting relationships. These derivatives include hedges on certain foreign currency assets and wholesale funding recorded at amortised cost and instruments included within non shareholders' funds, forward currency contracts and previously effective hedges which have been de-designated.

The future fair value movements excluding interest flows on such derivatives are separately identified within "Net hedge effectiveness and other unrealised fair value gains and losses", together with the translation gains and losses on underlying instruments arising from the revaluation from foreign currency into sterling. The deemed interest flows on such derivatives are included within interest income or expense, as appropriate.

Net hedge ineffectiveness excluding interest flows on fair value hedges represents the difference between changes in the future fair value excluding interest flows of the hedging derivatives and the changes in the future fair value excluding interest flows of the underlying hedged items.

6. Operating Expenses

Operating expenses excluding the covenant to The Northern Rock Foundation are as follows:

	Six months to 30 June 2005 £m	Six months to 30 June 2004 £m	Full Year 2004 £m
Staff costs	66.9	56.0	119.6
Other expenses	37.7	37.7	80.5
Depreciation and amortisation	14.3	7.8	18.2
Total operating expenses	118.9	101.5	218.3

The average number of persons employed by the Group was as follows:

	Six months to 30 June 2005	Six months to 30 June 2004	Full Year 2004
Full time	4,429	3,674	3,916
Part time	1,272	1,000	1,064

NOTES TO THE STATUTORY RESULTS (CONTINUED)

7. Interest Incentives and Fees

Included within the consolidated balance sheet are the following:

	Mortgage incentives £m	Fees receivable £m	Fees payable £m	Total £m
Balance at 1 January 2004	236.9	(13.2)	108.4	332.1
Amounts charged / paid	165.5	-	46.8	212.3
Released in the period	(182.8)	2.6	(14.7)	(194.9)
Balance at 30 June 2004	219.6	(10.6)	140.5	349.5

	Mortgage incentives £m	Fees receivable £m	Fees payable £m	Total £m
Balance at 1 January 2004	236.9	(13.2)	108.4	332.1
Amounts charged / paid	482.5	-	112.5	595.0
Released in the period	(440.1)	5.3	(37.1)	(471.9)
Balance at 31 December 2004	279.3	(7.9)	183.8	455.2

	Mortgage incentives £m	Fees receivable £m	Fees payable £m	Total £m
Balance at 31 December 2004	279.3	(7.9)	183.8	455.2
Adoption of IAS 39	33.5	(230.3)	(29.5)	(226.3)
Balance at 1 January 2005	312.8	(238.2)	154.3	228.9
Amounts charged / paid	268.3	(107.3)	55.4	216.4
Released in the period	(225.5)	76.8	(44.9)	(193.6)
Balance at 30 June 2005	355.6	(268.7)	164.8	251.7

The adoption of IAS 39 adjustment comprises:

	1 January 2005 £m
Reclassified from prepayments and accrued income (note 26a)	(234.2)
Reclassified from accruals and deferred income (note 26l)	7.9
	(226.3)

NOTES TO THE STATUTORY RESULTS (CONTINUED)

8. Impairment Losses on Loans and Advances to Customers

	Six months to 30 June 2005 £m	Six months to 30 June 2004 £m	Full Year 2004 £m
Impairment charge:			
Secured on residential property	(5.2)	3.1	(0.5)
Secured commercial	(6.2)	0.7	0.7
Unsecured	36.9	22.7	48.3
Total impairment charge	25.5	26.5	48.5
% of mean advances to customers	0.09%	0.12%	0.10%

	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
Impairment allowance:			
Individual			
Secured on residential property	9.9	2.5	3.4
Secured commercial	0.4	2.8	1.0
Unsecured	41.5	32.2	41.4
Total	51.8	37.5	45.8
Collective			
Secured on residential property	16.6	39.9	32.9
Secured commercial	5.4	11.0	11.2
Unsecured	51.2	34.0	37.0
Total	73.2	84.9	81.1
Total impairment allowance	125.0	122.4	126.9
% of period end advances to customers	0.20%	0.26%	0.23%

NOTES TO THE STATUTORY RESULTS (CONTINUED)

9. Residential Mortgage Arrears

	30 June 2005		30 June 2004		31 December 2004	
	Cases	%	Cases	%	Cases	%
3 – 6 months	1,685	0.27	1,591	0.29	1,695	0.29
Over 6 – 12 months	460	0.07	501	0.09	422	0.07
Over 12 months	10	0.01	49	0.01	18	0.01
Total	2,155	0.35	2,141	0.39	2,135	0.37

10. Dividends

The following tables analyse dividends when paid and the period to which they relate.

	30 June 2005 pence per share	30 June 2004 pence per share	31 December 2004 pence per share
2003 final dividend	-	15.8	15.8
2004 interim dividend	-	-	8.5
2004 final dividend	18.0	-	-
	18.0	15.8	24.3

The proposed interim dividend in respect of 2005 amounts to 9.4 pence per share (£39.2 million). These Interim Results do not reflect this dividend payable.

	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
2003 final dividend	-	66.2	66.2
2004 interim dividend	-	-	35.2
2004 final dividend	74.7	-	-
Less paid to ESOP trusts	-	(0.9)	(0.8)
	74.7	65.3	100.6

NOTES TO THE STATUTORY RESULTS (CONTINUED)

11. Earnings per Share

Earnings per share figures based upon reported (basic) and underlying profit on ordinary activities attributable to equity shareholders (see note 2) are as follows:

	Six months to 30 June		Full Year
	2005	2004	2004
Weighted average number of shares in issue	413.8m	412.8m	413.0m
Basic EPS	45.5p	34.8p	74.9p
Underlying EPS	36.1p	34.8p	74.9p

The weighted average number of Ordinary shares in issue has been determined after deducting shares held in trust for employee share schemes.

Diluted weighted average number of shares in issue	416.9m	415.8m	416.6m
Diluted EPS	45.1p	34.6p	74.3p
Underlying diluted EPS	35.8p	34.6p	74.3p

The fully diluted EPS figures are calculated using the weighted average number of Ordinary shares in issue together with 3.1 million (30 June 2004: 3.0 million, 31 December 2004: 3.6 million) potentially dilutive Ordinary shares resulting from options granted under employee share schemes.

Foundation shares held by The Northern Rock Foundation have been excluded from the EPS calculations as they carry no rights to dividends. The Foundation shares can convert into Ordinary shares only under specified circumstances which are considered to be remote. If conversion were to take place the shares would rank for dividend but the covenant to the Foundation would cease.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

12. Mortgage Lending

The following analysis of mortgage lending is based on total gross lending in each period.

	Six months to 30 June 2005 %	Six months to 30 June 2004 %	Full Year 2004 %
Type of lending			
Fixed rate (long term – over 2 years)	26	5	8
Fixed rate (short term – up to and including 2 years)	30	37	46
Discount	10	22	16
Cashback	1	1	1
Together	23	28	21
Lifetime	1	2	2
Buy to Let	9	5	6
Type of customer			
First time buyer	21	22	21
Next time buyer	34	38	38
Remortgage	36	35	35
Buy to Let	9	5	6
Geographic spread			
North	15	15	15
Scotland	10	10	10
Midlands	25	24	24
South	50	51	51

13. Loans and Advances to Customers

	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
Advances secured on residential property not subject to securitisation	25,788.8	21,463.0	27,000.7
Advances secured on residential property subject to securitisation	28,979.7	20,176.0	21,661.1
Advances secured on residential property	54,768.5	41,639.0	48,661.8
Commercial secured advances not subject to securitisation	1,347.5	1,082.1	1,278.1
Commercial secured advances subject to securitisation	200.0	315.3	238.4
Total other secured advances	1,547.5	1,397.4	1,516.5
Unsecured loans not subject to securitisation	4,904.1	3,887.1	4,581.4
Unsecured investment loans	440.3	43.4	9.1
	61,660.4	46,966.9	54,768.8

NOTES TO THE STATUTORY RESULTS (CONTINUED)

14. Securitisation

The Group's results include the results and assets and liabilities of securitisation Special Purpose Entities ("SPEs") on a line by line basis. Under UK GAAP the SPEs were incorporated into the financial statements using linked presentation. Following the introduction of IFRS and a change in UK companies legislation, these SPEs are now treated as legal subsidiaries and consolidated on a line by line basis.

Securitised advances are subject to non-recourse finance arrangements. These loans have been purchased at par by SPEs from Northern Rock plc, and have been funded through the issue of mortgage-backed bonds. The balances of assets subject to securitisation and non-recourse finance at 30 June 2005 are as follows:

Securitisation company	Date of securitisation	Gross assets securitised £m	Non-recourse finance £m	Subordinated loans made by the Group £m
Residential:				
Granite Mortgages 99-1 plc	1 October 1999	89.1	79.8	-
Granite Mortgages 00-1 plc	1 March 2000	252.0	238.6	-
Granite Mortgages 00-2 plc	25 September 2000	482.6	411.3	2.9
Granite Mortgages 01-1 plc	26 March 2001	747.1	697.3	5.5
Granite Mortgages 01-2 plc	28 September 2001	827.6	778.3	10.2
Granite Mortgages 02-1 plc	20 March 2002	1,500.2	1,434.0	28.8
Granite Mortgages 02-2 plc	23 September 2002	1,861.9	1,785.1	26.7
Granite Mortgages 03-1 plc	27 January 2003	2,130.7	2,059.6	30.3
Granite Mortgages 03-2 plc	21 May 2003	1,670.5	1,590.6	25.2
Granite Mortgages 03-3 plc	24 September 2003	1,584.8	1,492.0	18.0
Granite Mortgages 04-1 plc	28 January 2004	2,695.7	2,563.4	51.1
Granite Mortgages 04-2 plc	26 May 2004	2,992.0	2,850.5	66.4
Granite Mortgages 04-3 plc	22 September 2004	3,564.7	3,428.1	50.8
Granite Master Issuer plc	26 January 2005	4,353.9	4,227.5	71.3
Granite Master Issuer plc	25 May 2005	4,206.9	4,052.6	74.4
		28,959.7	27,688.7	461.6
Retained interest in Granite Trustees Limited		2,196.5		
Less cash deposits held with Northern Rock plc		(1,859.3)		
Total residential		29,296.9	27,688.7	461.6
Commercial:				
Dolerite Funding No 1 plc	24 June 2002	181.9	162.5	14.5
Retained interest in Dolerite Trustees Limited		51.6		
Total commercial		233.5	162.5	14.5
Total		29,530.4	27,851.2	476.1

No subordinated debt was issued by Granite Mortgages 01-1 plc to Northern Rock plc in relation to the funding of a first loss reserve fund. However, Granite Mortgages 01-1 plc's parent company retained £20 million from the proceeds of debt issuance to fund this reserve, which is only repayable after full repayment of the notes.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

14. Securitisation (continued)

Included within the Interim Results are the following items relating to the SPEs:

Balance sheet	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
Advances secured on residential property	26,783.2	18,970.6	20,835.0
Other secured loans	148.4	251.8	186.1
Cash deposits with third parties	350.7	1,052.7	423.9
Debt securities in issue	27,705.5	20,282.5	22,089.9

At 30 June 2005 the SPEs had cash deposits with Northern Rock amounting to £1,859.3m (30 June 2004 - £612.0m, 31 December 2004 - £1,396.0m). This balance is restricted in use to the repayment of the debt securities issued by the SPEs and other legal obligations.

15. Covered Bonds

Included within loans and advances to customers not subject to securitisation are £3,344 million of mortgage advances assigned to a bankruptcy remote special purpose vehicle. These loans provide security to issues of covered bonds made by Northern Rock of £1,341 million on 4 May 2004 and £1,025 million on 20 April 2005, which are included within debt securities in issue. Northern Rock retains substantially all the risks and rewards associated with these loans and therefore these transactions do not qualify for derecognition under IAS 39.

16. Analysis of Customer Accounts

	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
Branch accounts	4,303.8	2,437.4	3,084.4
Postal accounts	8,546.1	6,848.2	7,554.5
Internet accounts	2,182.7	2,693.0	2,503.4
Offshore accounts	2,611.8	2,321.4	2,499.4
Telephone accounts	747.4	1,087.7	896.3
Legal & General branded accounts	616.3	844.3	752.2

17. Own Shares

The amounts deducted from the retained earnings in respect of own shares, which are held at cost, are as follows:

	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
Own shares in relation to employee share schemes	48.0	52.6	55.3

Movements in the amount deducted from retained earnings in respect of own shares are as follows:

	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
At 1 January	55.3	58.2	58.2
Purchases of shares	1.2	2.1	6.0
Use of shares on exercise of employee options and for other employee share plans	(8.5)	(7.7)	(8.9)
	(7.3)	(5.6)	(2.9)
	48.0	52.6	55.3

The credit to retained earnings is as follows:

	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
Value of employee services	5.9	4.6	7.9
Cash received on exercise of employee options and for other employee share plans	2.7	2.9	3.4
Tax impact of share based payments	-	1.1	3.6
Purchase of shares	(1.2)	(2.1)	(6.0)
	7.4	6.5	8.9

Record date	29 September 2005
Payment date	27 October 2005

21. Other Information

The information in this announcement is unaudited and does not constitute statutory accounts within the meaning of section 240 of the Companies Act 1985. The statutory accounts of Northern Rock plc for the year ended 31 December 2004 have been filed with the Registrar of Companies in England and Wales. The auditors' report on these accounts was unqualified and did not include a statement under section 237(2) or (3) of the Act.

A summary of this report will appear as an advertisement in the Financial Times, The Times, The Daily Telegraph, The Scotsman and The Newcastle Journal on 29 July 2005. The report will also be available on the Northern Rock website www.northernrock.co.uk from 8.30am on 28 July 2005.

A presentation of the results will be given by directors on the morning of the results announcement. A web cast of the presentation will be available on the Northern Rock website from 3.00pm on 28 July 2005.

22. Significant Accounting Policies

Set out below are the Group's key accounting policies under IFRS which differ from UK GAAP. As a result of the Group's decision to adopt the IFRS 1 exemption and not restate comparatives for IAS 32 and IAS 39, certain accounting policies will only apply from 1 January 2005 and not to the 2004 comparatives. These policies have been denoted with an asterisk. Accounting policies for these items used in the preparation of the 2004 comparatives are as set out in the 2004 Annual Report and Accounts.

a) Accounting convention *

The Group prepares its accounts under the historical cost convention, except for the revaluation of available-for-sale financial assets, financial assets and liabilities held at fair value through profit and loss and all derivative contracts.

b) Basis of consolidation

The financial information of the Group incorporates the assets, liabilities, and results of Northern Rock plc and its subsidiary undertakings (including Special Purpose Entities). Entities are regarded as subsidiaries where the Group has the power to govern financial and operating policies so as to obtain benefits from their activities. Inter-company transactions and balances are eliminated upon consolidation.

The acquisition method of accounting is used to account for the purchase of subsidiaries.

c) Interest income and expense *

Interest income and expense are recognised in the income statement for all instruments measured at amortised cost using the effective interest method.

The effective interest method calculates the amortised cost of a financial asset or a financial liability, and allocates the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Group estimates cash flows considering all contractual terms of the financial instrument (for example prepayment options) but does not consider future credit losses. The calculation includes all amounts received or paid by the Group that are an integral part of the overall return, direct incremental transaction costs related to the acquisition or issue of a financial instrument and all other premiums and discounts.

Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

d) Fees and commissions *

Where they are not included in the effective interest calculation, fees and commissions are generally recognised on an accruals basis when the service has been provided. Loan commitment fees for loans that are likely to be drawn down are deferred (together with related incremental direct costs) and recognised as an adjustment to the effective interest rate on the loan. Insurance commissions are recognised in the period in which they are earned.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

22. Significant Accounting Policies (continued)

e) Financial instruments *

Financial assets can be classified in the following categories: loans and receivables, available-for-sale, held to maturity or financial assets at fair value through profit and loss. Management determines the classification of its investments at initial recognition. The Group measures all of its financial liabilities at amortised cost, other than those instruments which have been designated as part of a hedging relationship (see below).

i) Loans and receivables and financial liabilities at amortised cost

The Group's loans and advances to customers are classified as loans and receivables. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, whose recoverability is based solely on the credit risk of the customer and where the Group has no intention of trading the loan. Both loans and receivables and financial liabilities are initially recognised at fair value including direct and incremental transaction costs. Subsequent recognition is at amortised cost using the effective interest method.

ii) Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets, principally but not exclusively investment securities intended to be held for an indefinite period of time which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices. They are initially measured at fair value including direct and incremental transaction costs. Subsequent measurement is at fair value, with changes in fair value being recognised in equity except for impairment losses and translation differences, which are recognised in the income statement. Upon derecognition of the asset, or where there is objective evidence that the investment security is impaired, the cumulative gains and losses recognised in equity are removed from equity and recycled to the income statement.

iii) Held to maturity financial assets

Held to maturity financial assets are non-derivative financial assets with fixed or determinable payments that the Group has the ability and intention to hold to maturity. They are initially measured at fair value including direct and incremental transaction costs. Subsequent measurement is at amortised cost using the effective interest method.

iv) Financial assets at fair value through profit or loss

A financial asset is classified in this category if it is so designated by management on initial recognition. Derivatives are held at fair value through profit or loss unless they are designated as cash flow hedges. The assets are initially measured at fair value, with transaction costs taken directly to the income statement. Subsequent measurement is at fair value, with changes in fair value included directly in the income statement.

The fair values of quoted investments in active markets are based on current bid prices. If the market for a financial asset is not active (and for unlisted securities), the Group establishes fair value using valuation techniques. These include the use of recent arm's length transactions, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants.

22. Significant Accounting Policies (continued)

f) Offsetting financial instruments *

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

g) Sale and repurchase agreements

Securities sold subject to repurchase agreements ('repos') are reclassified in the financial statements as assets pledged when the transferee has the right by contract or custom to sell or repledge the collateral; the counterparty liability is included in amounts due to other banks, deposits from banks, other deposits or deposits due to customers, as appropriate. Securities purchased under agreements to resell, ('reverse repos'), are recorded as loans and advances to banks or customers as appropriate. The difference between sale and repurchase price is treated as interest and accrued over the life of the agreements using the effective interest method. Securities lent to counterparties are also retained in the financial statements.

Securities borrowed are not recognised in the financial statements, unless these are sold to third parties, in which case the obligation to return them is recorded at fair value as a trading liability.

h) Impairment losses on loans and advances to customers *

The Group assesses its financial assets or groups of financial assets for objective evidence of impairment at each balance sheet date. An impairment loss is recognised if, and only if, there is a loss event (or events) that has occurred after initial recognition and before the balance sheet date and has a reliably measurable impact on the estimated future cash flows of the financial assets or groups of financial assets.

i) Assets held at amortised cost

The Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. Objective evidence that a financial asset is impaired includes observable data that comes to the attention of the Group about the following loss events:

a) significant financial difficulty of the issuer or obligor;
b) a breach of contract, such as a default or delinquency in interest or principal repayments;
c) the lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;
d) it becomes probable that the borrower will enter bankruptcy or other financial reorganisation;
e) the disappearance of an active market for that financial asset because of financial difficulties; or
f) observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:
    i. adverse changes in the payment status of borrowers in the portfolio;
    ii. national or local economic conditions that correlate with defaults on the assets in the portfolio.

If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

22. Significant Accounting Policies (continued)

If there is objective evidence that an impairment loss on loans and receivables has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an impairment allowance and the amount of the loss is recognised in the income statement. In future periods the unwind of the discount is recognised within interest income.

When a loan is uncollectable, it is written off against the related provision for loan impairment. Such loans are written off after all the necessary procedures have been completed and the amount of the loss has been determined. Subsequent recoveries of amounts previously written off decrease the amount of the provision for loan impairment in the income statement.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the customer's credit rating), the previously recognised impairment loss is reversed by adjusting the impairment allowance. The amount of the reversal is recognised in the income statement.

ii) Available-for-sale financial assets

For available-for-sale financial assets, the Group assesses at each balance sheet date whether there is objective evidence that a financial asset, or group of financial assets are impaired. The amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated cash flows. The rate used to discount the cash flows is the original effective rate on the available-for-sale financial asset. The amount of the impairment loss is recognised in the income statement. This includes cumulative gains and losses previously recognised in equity which are recycled from equity to the income statement.

i) Derivative financial instruments and hedge accounting *

The Group undertakes transactions in derivative financial instruments, which include currency swaps, interest rate swaps, interest rate caps, forward rate agreements, options, foreign exchange contracts and similar instruments, for non-trading purposes.

The Group's derivative activities are entered into for the purpose of matching or eliminating risk from potential movements in interest and foreign exchange rates inherent in the Group's assets, liabilities and positions. All derivative transactions are for economic hedging purposes and so it is therefore decided at the outset which position the derivative will be hedging. Derivatives are reviewed regularly for their effectiveness as hedges and corrective action taken, if appropriate. Derivatives are measured initially at fair value and subsequently remeasured to fair value. Fair values are obtained from quoted market prices in active markets and where these are not available from valuation techniques including discounted cash flow models and option pricing models. Where derivatives are not designated as part of a hedging relationship, changes in fair value are recorded in the income statement. Where derivatives are designated within hedging relationships, the treatment of the fair value changes depends on the nature of the hedging relationship.

i) Cash flow hedges

A cash flow hedge is used to hedge exposures to variability in cash flows, such as variable rate financial assets and liabilities. The effective portion of changes in the derivative fair value is recognised in equity, and recycled to the income statement in the periods when the hedged item will affect profit and loss. The fair value gain or loss relating to the ineffective portion is recognised immediately in the income statement.

22. Significant Accounting Policies (continued)

ii) Fair value hedges

A fair value hedge is used to hedge exposures to variability in the fair value of financial assets and liabilities, such as fixed rate loans. Changes in fair value of derivatives that are designated and qualify as fair value hedges are recorded in the income statement, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk. If the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of the hedged item is amortised to the income statement over the period to maturity.

If derivatives are not designated as hedges then changes in fair values are recognised immediately in the income statement.

iii) Embedded derivatives

Certain derivatives are embedded within other non-derivative host instruments to create a hybrid instrument. Where the economic characteristics and risks of the embedded derivatives are not closely related to the economic characteristics and risk of the host instrument, and where the hybrid instrument is not measured at fair value, the Group separates the embedded derivative from the host instrument and measures it at fair value with the changes in fair value recognised in the income statement.

j) Derecognition of financial assets and liabilities

The Group's policy is to derecognise financial assets only when the contractual right to the cash flows from the financial asset expire. The Group also derecognises financial assets that it transfers to another party provided the transfer of the asset also transfers the right to receive the cash flows of the financial asset. Where the transfer does not result in the Group transferring the right to receive the cash flows of the financial assets, but it does result in the Group assuming a corresponding obligation to pay the cash flows to another recipient, the financial assets are also accordingly derecognised.

The Group derecognises financial liabilities only when the obligation specified in the contract is discharged, cancelled or has expired.

k) Securitisation transactions

Certain Group companies have issued debt securities in order to finance specific loans and advances to customers. Both the debt securities in issue and the loans and advances to customers remain on the Group balance sheet within the appropriate balance sheet headings unless:

i) a fully proportional share of all or of specifically identified cash flows have been transferred to the holders of the debt securities, in which case that proportion of the assets are derecognised;
ii) substantially all the risks and rewards associated with the assets have been transferred, in which case the assets are fully derecognised; or
iii) if a significant proportion of the risks and rewards have been transferred, the assets are recognised only to the extent of the Group's continuing involvement.

All transactions previously recognised under UK GAAP on the basis of linked presentation have been recognised by the separate presentation of the gross assets and the related funding.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

22. Significant Accounting Policies (continued)

l) Debt and equity securities in issue

Issued securities are classified as liabilities where the contractual arrangements result in the Group having an obligation to deliver either cash or another financial asset to the security holder, or to exchange financial instruments under conditions that are potentially unfavourable to the Group. Issued securities are classified as equity where they meet the definition of equity and confer a residual interest in the Group's assets on the holder of the securities.

Financial liabilities are carried at amortised cost using the effective interest rate (see "interest income and expense"). Equity instruments are initially recognised at net proceeds, after deducting transaction costs and any related income tax. Appropriations to holders of equity securities are deducted from equity, net of any related income tax, as they become irrevocably due to the holders of the securities.

m) Foreign currency translation

The Group's financial statements are presented in sterling, which is the functional currency of the parent company. Items included in the financial statements of each of the Group's entities are measured using their functional currency, which is the currency of the primary economic environment in which they operate.

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the dates of the transactions. Monetary items denominated in foreign currencies are translated at the rate prevailing at the balance sheet date. Foreign exchange gains and losses resulting from the restatement and settlement of such transactions are recognised in the income statement, except when deferred in equity as qualifying cash flow hedges. Non-monetary items measured at amortised cost and denominated in foreign currencies are translated at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are translated at the exchange rate at the date of valuation. Where these are held at fair value through profit and loss, exchange differences are reported as part of the fair value gain or loss. Where they are held as available for sale, exchange differences are reported directly in equity.

n) Share-based payments

Share-based payments are accounted for on a fair value basis. The Group measures the fair value of the Long Term Incentive Plan ("LTIP") using a Monte Carlo simulation model and the fair value of the Save-As-You-Earn scheme and all other share based payment schemes using a Black-Scholes option pricing model. The fair value is recognised in the income statement over the relevant vesting period and adjusted for forfeitures, with the number of shares expected to be forfeited estimated at each balance sheet date prior to the vesting date. The impact of any revisions to estimates is reflected in the income statement, with the corresponding adjustment recognised in equity. The only exception is where the share-based payment has vesting outcomes attached to market based performance conditions such as in the case of the LTIPs. Under these circumstances, the Monte Carlo simulation model takes into account these market based performance conditions which effectively estimate the number of shares expected to vest. No subsequent adjustment is then made to the fair value charge for shares that do not vest in the event that these performance conditions are not met.

In accordance with the transitional provisions of IFRS 2 'Share-based Payments', the Group has only applied the requirements of the standard to equity settled share-based payments granted after 7 November 2002.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

22. Significant Accounting Policies (continued)

o) Intangible assets

i) Goodwill

Goodwill arising on the acquisition of subsidiary companies, which is represented by the excess of fair value of the purchase consideration over the fair value of the assets acquired, is capitalised and shown as an asset in the balance sheet. It is reviewed for impairment annually. Any impairment is recognised immediately in the income statement and is not subsequently reversed.

Goodwill arising on acquisitions before the date of transition to IFRS has been retained at the previous UK GAAP amount, having been tested for impairment at 31 December 2003. Goodwill written off to reserves under UK GAAP prior to the introduction of FRS 10 "Goodwill and Intangible Assets" in 1998 has not been reinstated and is not included in determining any subsequent profit or loss on disposal.

ii) Computer software

Costs incurred in acquiring and developing computer software for internal use are capitalised as intangible assets where the software leads to the creation of an identifiable non-monetary asset and it is probable that the expected future economic benefits that are attributable to the asset will flow to the Group from its use for a period of over one year. The software is classified as an intangible asset where it is not an integral part of the related hardware and amortised over its estimated useful life which is generally 3 to 5 years.

Costs associated with maintaining software are expensed as they are incurred.

p) Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents comprise balances with less than three months' maturity from the date of acquisition, including cash and non-restricted balances with central banks.

q) Taxation

Income tax payable on taxable profits ('current tax') is recognised as an expense in the period in which the profits arise. Income tax recoverable on tax allowances is recognised as an asset only to the extent that it is regarded as recoverable by offset against current or future taxable profits.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred tax is determined using tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the deferred tax asset is realised or the deferred tax liability is settled.

Deferred and current assets and liabilities are only offset when they arise in the same reporting tax group and where there is both a legal right of offset and the intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

22. Significant Accounting Policies (continued)

r) Pensions and employee benefits

The Company operates the Northern Rock Pension Scheme (the "Scheme") to provide retirement benefits for staff. Staff who joined the Scheme before 1 July 1999 participate in the funded, contracted out, defined benefit section of the scheme unless they opt out. Other staff, including those employed at 1 July 1999 but not members of the defined benefit section of the Scheme at that date, together with staff employed from 1 July 1999, participate in the defined contribution section of the scheme unless they opt out. The assets of both sections of the Scheme are held in a trustee-administered fund separate from the assets of Northern Rock plc.

A full actuarial valuation of the Group's defined benefit section of the scheme is undertaken every three years with interim reviews in the intervening years; these valuations are updated to 31 December each year by qualified independent actuaries. For the purpose of these annual updates, scheme assets are included at their fair value and scheme liabilities are measured on an actuarial basis using the projected unit credit method. Liabilities in the defined benefit section of the scheme are discounted using rates equivalent to the market yields at the balance sheet date on high quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability. The resulting net surplus or deficit is included in the Group's balance sheet. Surpluses are only recognised to the extent that they are recoverable through reduced contributions in the future or through refunds from the scheme.

The Group's income statement includes the current service cost of providing pension benefits, the expected return on the scheme's assets, net of administration costs, and the interest cost on the scheme's liabilities. Cumulative actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised immediately through the Statement of Changes in Shareholders' Equity.

Past service costs are recognised immediately in the income statement, unless the changes to the Scheme are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past-service costs are amortised on a straight line basis over the average vesting period.

For defined contribution plans, the Company has no further payment obligations once the contributions have been paid. The contributions are recognised as an employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

s) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and provision for impairment, as appropriate. Additions and subsequent expenditure are included in the asset's carrying value or are recognised as a separate asset only when they improve the expected future economic benefits to be derived from the asset. All other repairs and maintenance are charged to the income statement in the period in which they are incurred.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

22. Significant Accounting Policies (continued)

s) Property, plant and equipment (continued)

Depreciation is provided using the straight line method to allocate costs less residual values over estimated useful lives, as follows;

Freehold property	100 years
Leasehold property	Unexpired period of the lease
Plant, equipment, fixtures and fittings	
- plant	30 years
- furniture	10 years
- other	5 years
Computer equipment	
- PCs	3 years
- other	5 years
Motor vehicles	4 years

Assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

Where the cost of freehold land can be identified separately from buildings, the land value is not depreciated. Fixed assets are subject to impairment testing, if deemed appropriate.

Assets in the course of construction are not depreciated until they have been completed and transferred to the appropriate category of property, plant and equipment. The costs of financing assets in the course of construction are not included in the costs of the assets.

t) Leases

Operating lease payments are charged to the income statement on a straight line basis unless a different systematic basis is more appropriate. Where an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor in compensation is charged to the income statement in the period in which termination is made.

u) Share capital

i) Share issue costs

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

ii) Dividends on ordinary shares

Dividends on ordinary shares are recognised in equity in the period in which they are approved by the Company's shareholders or paid.

iii) Treasury shares

Where any Group company purchases the Company's equity share capital, the consideration paid is deducted from total shareholders' equity as treasury shares until they are cancelled. Where such shares are subsequently sold or reissued, any consideration received is included in shareholders' equity.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

22. Significant Accounting Policies (continued)

v) Transition to IFRS

The Group's financial statements for the year ending 31 December 2005 will be the first annual financial statements that comply with IFRS. The Group has applied IFRS 1 in preparing these consolidated interim financial statements.

Northern Rock plc's transition date is 1 January 2004. The Group prepared its opening IFRS balance sheet at that date. The reporting date of these interim consolidated financial statements is 30 June 2005. The Group's IFRS adoption date is 1 January 2005.

In preparing these interim consolidated financial statements in accordance with IFRS 1, the Group has applied the following optional exemptions and mandatory exceptions from full retrospective application of IFRS.

Applicable optional exemptions from full retrospective application elected by the Group

Business combinations

Northern Rock has applied the business combinations exemption in IFRS 1. It has not restated business combinations that took place prior to the 1 January 2004 transition date.

Fair value as deemed cost

Northern Rock has elected to measure certain items of property, plant and equipment at fair values as at 1 January 2004. The application of this exemption is detailed in note 24h.

Employee benefits

Northern Rock has elected to recognise all cumulative actuarial gains and losses on its final salary pension scheme at 1 January 2004.

Exemption from restatement of comparatives for IAS 32 and IAS 39

Northern Rock has elected to apply this exemption, with the exception in regards to the recognition of previously derecognised assets and liabilities of securitisation vehicles and inactive retail accounts in accordance with IFRS 1 paragraph 27A. It has applied previous UK GAAP rules to derivatives, financial assets and financial liabilities and to hedging relationships for the 2004 comparative information. The adjustments required for differences between UK GAAP and IAS 32 and IAS 39 are determined and recognised at 1 January 2005. The adjustments are detailed in note 26.

Designation of financial instruments

Northern Rock reclassified various securities as available for sale investments. The adjustments relating to IAS 32 and IAS 39 at the opening balance sheet date of 1 January 2005, the IAS 32/39 transition date, are detailed in note 26.

Share based transactions

Northern Rock has elected to apply the share based payment exemption. It applies IFRS 2 from 1 January 2004 to those share based payment schemes that were granted after 7 November 2002 but that have not vested by 1 January 2005.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

22. Significant Accounting Policies (continued)

v) Transition to IFRS (continued)

Recognition of financial assets and liabilities

Northern Rock has applied the exemption in IFRS 1 paragraph 27A to financial assets and liabilities of securitisation vehicles and to inactive retail accounts previously derecognised. All such balances previously derecognised under UK GAAP are recognised on the balance sheet at transition date.

Applicable mandatory exceptions from full retrospective application followed by the Group

Hedge accounting

Management has applied the hedge accounting exception from 1 January 2005 only if the hedge relationship meets all the hedge accounting criteria under IAS 39. The application of this exception at the opening balance sheet date of 1 January 2005 is detailed in note 26.

23. Reconciliations Between IFRS and UK GAAP

The following reconciliations provide a quantification of the effect of transition to IFRS.

Summary of Equity

	Note	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Total equity as reported under UK GAAP		1,339.9	1,451.9	1,541.9
Restatement of goodwill	24g	-	1.8	3.6
Reversal of pension prepayment under UK GAAP	24k	(30.6)	(29.8)	(29.0)
Restatement of retirement benefits under IAS 19	24p	(47.3)	(48.5)	(52.5)

NOTES TO THE STATUTORY RESULTS (CONTINUED)

24. Balance Sheet Reconciliations (continued)

Explanation of the effect of the transition to IFRS

The following explains the material balance sheet adjustments.

a) Cash and balances at central banks

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Reclassification of Cash Ratio Deposit held with Bank of England and Central Bank of Ireland	47.2	49.2	55.1

The Group has reclassified the Cash Ratio Deposit held with the Bank of England and Central Bank of Ireland from loans and advances to banks to cash and balances at central banks.

b) Loans and advances to banks

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Reclassification of Cash Ratio Deposit held with Bank of England and Central Bank of Ireland	(47.2)	(49.2)	(55.1)
Reclassification of securitisation vehicle balance sheets	1,200.4	1,052.7	423.9
Total impact – increase in loans and advances to banks	1,153.2	1,003.5	368.8

The Group has reclassified the cash ratio deposit held with the Bank of England and Central Bank of Ireland from loans and advances to banks to cash and balances at central banks. In addition, cash held by the securitisation vehicles has been reclassified as loans and advances to banks.

c) Loans and advances not subject to securitisation

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Reclassification of loans and advances not subject to securitisation	(27,355.8)	(26,475.6)	(32,869.3)

The Group has reclassified loans and advances to customers not subject to securitisation as loans and advances to customers.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

24. Balance Sheet Reconciliations (continued)

Explanation of the effect of the transition to IFRS (continued)

d) Loans and advances subject to securitisation

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Reclassification of securitisation vehicle balance sheets	(15,678.7)	(21,535.2)	(22,339.2)

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used. This results in the reclassification of loans and advances subject to securitisation.

e) Non-recourse finance

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Reclassification of securitisation vehicle balance sheets	14,832.4	20,267.5	22,103.7

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used. Non-recourse finance, shown as a deduction from loans and advances to customers under UK GAAP is included in debt securities in issue under IFRS.

f) Loans and advances to customers

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Reclassification of loans and advances not subject to securitisation	27,355.8	26,475.6	32,869.3
Reclassification of loans and advances subject to securitisation	14,491.6	20,491.3	21,899.5
Total impact – increase in loans and advances to customers	41,847.4	46,966.9	54,768.8

g) Intangible assets

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Reclassification of computer software as intangible asset	30.4	36.9	42.4
Reversal of goodwill amortisation	-	1.8	3.6
Total impact – increase in intangible assets	30.4	38.7	46.0

In accordance with IAS 38, computer software has been reclassified from property, plant and equipment to intangible fixed assets. Under IFRS goodwill is not amortised, but is subject to annual impairment reviews.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

24. Balance Sheet Reconciliations (continued)

Explanation of the effect of the transition to IFRS (continued)

h) Property, plant and equipment

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Reclassification of computer software as intangible asset	(30.4)	(36.9)	(42.4)
Restatement of properties to fair value	3.9	4.7	4.7
Total impact – decrease in property, plant and equipment	(26.5)	(32.2)	(37.7)

In accordance with IAS 38, computer software has been reclassified from Property, Plant and Equipment to intangible fixed assets.

Management has applied the fair value as deemed cost exemption in respect of various properties.

i) Deferred income tax asset

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Impact of recognising deferred tax in accordance with IAS 12	23.3	17.7	14.1

The Group has recalculated deferred tax in accordance with IAS 12. IAS 12 allows a net presentation of deferred tax assets and liabilities only when certain criteria are met. This adjustment recognises the gross presentation required by IAS 12.

j) Other assets

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Reclassification of securitisation vehicle balance sheets	(5.2)	(0.8)	8.6

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

24. Balance Sheet Reconciliations (continued)

Explanation of the effect of the transition to IFRS (continued)

k) Prepayments and accrued income

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Reversal of pension prepayment under UK GAAP	(30.6)	(29.8)	(29.0)
Reclassification of securitisation vehicle balance sheets	-	4.5	1.0
Total impact – decrease in prepayments and accrued income	(30.6)	(25.3)	(28.0)

Under UK GAAP there is a SSAP 24 prepayment in relation to the defined benefit section of the pension scheme. Under IAS 19 the basis of accounting for pension schemes is fundamentally different and the prepayment is no longer applicable.

l) Customer accounts

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Restatement of derecognised liabilities	51.7	51.7	51.7

Previously derecognised liabilities have been restated on the balance sheet to the extent that the liability has not been contractually discharged.

m) Debt securities in issue

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Reclassification of debt securities issued by securitisation vehicles	14,868.3	20,282.5	22,089.9
Reclassification of issue costs	(3.6)	(1.6)	(7.3)
Total impact – increase in debt securities in issue	14,864.7	20,280.9	22,082.6

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used. Non-recourse finance, shown as a deduction from loans and advances to customers under UK GAAP is included in debt securities in issue under IFRS.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

24. Balance Sheet Reconciliations (continued)

Explanation of the effect of the transition to IFRS (continued)

n) Other liabilities

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Restatement of dividends in accordance with IAS 10	(65.3)	(35.3)	(74.7)
Reclassification of securitisation vehicle balance sheets	(138.0)	(141.1)	(124.8)
Total impact – decrease in other liabilities	(203.3)	(176.4)	(199.5)

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used. IAS 10 requires that dividends are not accrued until they are approved.

o) Accruals and deferred income

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Reclassification of securitisation vehicle balance sheets	113.8	140.2	139.7

IFRS requires the consolidation of securitisation vehicles, compared with linked presentation under UK GAAP.

p) Provisions for liabilities and charges

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Reversal of deferred tax recognised under UK GAAP	(19.0)	(25.3)	(31.8)
Restatement of retirement benefits obligations under IAS 19	47.3	48.5	52.5
Total impact – increase in provisions for liabilities and charges	28.3	23.2	20.7

IAS 19 requires that retirement benefit obligations in the defined benefit section of the pension scheme are included in the Group balance sheet.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

24. Balance Sheet Reconciliations (continued)

Explanation of the effect of the transition to IFRS (continued)

q) Other reserves

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Treatment of actuarial gains and losses on pension scheme	-	-	(2.8)
Tax effect of above	-	-	0.8
Total impact – decrease in other reserves	-	-	(2.0)

Under IAS 19 actuarial gains and losses on the pension scheme are recorded in equity.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

25. Reconciliation of Profit (continued)

Explanation of the effect of the transition to IFRS

The following explains the material adjustments to the income statement.

a) Interest and similar income and interest expense and similar charges

	6 months ended 30 June 2004 £m	Year ended 31 December 2004 £m
Consolidation of Special Purpose Entities on a line by line basis	395.9	953.9

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used.

b) Fee and commission income and expense

	6 months ended 30 June 2004 £m	Year ended 31 December 2004 £m
Reallocation of fees and commissions (25d)	(2.1)	(4.4)
Consolidation of Special Purpose Entities on a line by line basis	5.9	12.5
Total impact – increase in fee and commission income and expense	3.8	8.1

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used.

c) Other operating income

	6 months ended 30 June 2004 £m	Year ended 31 December 2004 £m
Consolidation of Special Purpose Entities on a line by line basis	(3.3)	(19.8)

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

25. Reconciliation of Profit (continued)

Explanation of the effect of the transition to IFRS (continued)

d) Operating expenses

	6 months ended 30 June 2004 £m	Year ended 31 December 2004 £m
Calculation of pension cost in accordance with IAS 19	(0.4)	(0.8)
Calculation of share based payments in accordance with IFRS 2	(0.3)	0.5
Consolidation of Special Purpose Entities on a line by line basis	(0.4)	(0.7)
Reallocation of fees and commissions (25b)	2.1	4.4
Reversal of property impairment provision	0.8	0.8
Reversal of goodwill amortisation charge	1.8	3.6
Total impact – decrease in operating expenses	3.6	7.8

e) Impairment losses on loans and advances

	6 months ended 30 June 2004 £m	Year ended 31 December 2004 £m
Consolidation of Special Purpose Entities on a line by line basis	(2.2)	8.0

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used.

f) Tax on profit on ordinary activities

	6 months ended 30 June 2004 £m	Year ended 31 December 2004 £m
Tax effect of IFRS adjustments	(0.4)	(0.8)

NOTES TO THE STATUTORY RESULTS (CONTINUED)

26. Balance Sheet Reconciliation as at 1 January 2005 (continued)

Explanation of the effect of adoption of IAS 32 and IAS39 with effect from 1 January 2005

The following explains the material balance sheet adjustments.

a) Loans and advances to customers

	1 January 2005 £m
Impact of effective interest rate adjustment	(234.2)
Reclassification from prepayments and accrued income in relation to effective interest rate adjustment	433.0
Reclassification of financial instruments on introduction of IAS 39 and impact of fair valuing derivatives	460.5
Impact of discounting on impairment allowance	3.3
Total impact – increase in loans and advances to customers	662.6

In accordance with IAS 39 the interest rate is adjusted to reflect the rate that exactly discounts expected future cash payments or receipts through the expected life of the financial instrument to its net carrying amount. This adjustment includes all fees and interest paid or received that are an integral part of the effective interest rate, transaction costs and all other premiums and discounts.

In accordance with IAS 39, impairment allowances represent the difference between the carrying value of an asset and discounted expected cash flows.

b) Investment securities

	1 January 2005 £m
Reclassification of financial instruments on introduction of IAS 39	4,966.1

c) Debt securities

	1 January 2005 £m
Reclassification of financial instruments on introduction of IAS 39	(4,742.2)

d) Equity shares and other variable yield securities

	1 January 2005 £m
Reclassification of financial instruments on introduction of IAS 39	(575.6)

NOTES TO THE STATUTORY RESULTS (CONTINUED)

26. Balance Sheet Reconciliation as at 1 January 2005 (continued)

e) Derivative financial instruments

	1 January 2005 £m
Valuation of derivative financial instruments	892.6

f) Deferred income tax

	1 January 2005 £m
Deferred tax effect of IAS 32 and IAS 39 adjustments	62.1

g) Other assets

	1 January 2005 £m
Impact of fair valuing derivatives	(15.8)

h) Prepayments and accrued income

	1 January 2005 £m
Reclassification of opening balances to loans and advances to customers in relation to effective interest rate adjustment	(463.2)
Impact of effective interest rate adjustment reclassified to loans and advances to customers	30.2
Impact of fair valuing derivatives	(43.5)
Total impact – decrease in prepayments and accrued income	(476.5)

i) Customer accounts

	1 January 2005 £m
Impact of fair valuing derivatives	(13.5)

j) Debt securities in issue

	1 January 2005 £m
Impact of fair valuing derivatives	(1,231.3)

NOTES TO THE STATUTORY RESULTS (CONTINUED)

26. Balance Sheet Reconciliation as at 1 January 2005 (continued)

k) Derivative financial instruments

	1 January 2005 £m
Valuation of derivative financial instruments	2,050.7

l) Accruals and deferred income

	1 January 2005 £m
Impact of effective interest rate adjustment	(7.9)
Reversal of reserve capital instruments and subordinated liabilities coupon payment accrual in accordance with IAS 32 and IAS 10	(14.3)
Impact of fair valuing derivatives	128.6
Total impact – increase in accruals and deferred income	106.4

m) Subordinated liabilities

	1 January 2005 £m
Transfer to non shareholders' equity	(746.4)
Impact of fair valuing derivatives	7.9
Total impact – decrease in subordinated liabilities	(738.5)

In accordance with the requirements of IAS 32 certain subordinated liabilities are classified as non shareholders' equity, as there is no contractual obligation to pay the interest coupon.

n) Reserve capital instruments

	1 January 2005 £m
Transfer to non shareholders' funds	(300.0)

In accordance with the requirements of IAS 32 reserve capital instruments are classified as non shareholders' equity, as there is no contractual obligation to pay the interest coupon.

26. Balance Sheet Reconciliation as at 1 January 2005 (continued)

o) Other reserves

	1 January 2005 £m
Available for sale reserve	38.4
Cash flow hedge reserve	12.5
Tax impact of items credited directly to equity	(15.1)
Total impact – increase in other reserves	35.8

p) Non shareholders' equity

	1 January 2005 £m
Transfer from subordinated liabilities	736.5
Transfer from reserve capital instruments	299.3
Total impact – increase in non shareholders' equity	1,035.8

q) Tier one notes

	1 January 2005 £m
Impact of fair valuing derivatives	7.6

Independent review report to Northern Rock plc

Introduction

We have been instructed by Northern Rock plc to review the financial information for the six months ended 30 June 2005 which comprises the consolidated interim balance sheet as at 30 June 2005, the related consolidated interim statements of income, cash flows and changes in equity for the six months then ended, and the related notes to the financial information including the reconciliations between IFRS and UK GAAP and the accounting policies. The proforma financial information given in the proforma section and referred to in the statutory highlights, operational review and statutory financial highlights sections does not form part of this review and in producing this report, we do not accept or assume any review responsibility for the proforma financial information.

We have read the other information contained in the statutory highlights, operational review, statutory financial highlights and the proforma section of the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

Directors' responsibilities

The interim report, including the financial information contained therein, is the responsibility of, and has been approved by the Directors. The Directors are responsible for preparing the interim report in accordance with the Listing Rules of the Financial Services Authority.

As disclosed in note 1, the next annual financial statements of the group will be prepared in accordance with International Financial Reporting Standards. This interim report has been prepared in accordance with the basis set out in note 1.

The accounting policies are consistent with those that the Directors intend to use in the next annual financial statements. As explained in note 1, there is, however, a possibility that the Directors may determine that some changes are necessary when preparing the full annual financial statements for the first time in accordance with International Financial Reporting Standards. The IFRS standards and IFRIC interpretations that will be applicable and adopted for use at 31 December 2005 are not known with certainty at the time of preparing this interim financial information.

Review work performed

We conducted our review in accordance with guidance contained in Bulletin 1999/4 issued by the Auditing Practices Board for use in the United Kingdom. A review consists principally of making enquiries of management and applying analytical procedures to the financial information and underlying financial data and, based thereon, assessing whether the disclosed accounting policies have been applied. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit and therefore provides a lower level of assurance. Accordingly we do not express an audit opinion on the financial information. This report, including the conclusion, has been prepared for and only for the company for the purpose of the Listing Rules of the Financial Services Authority and for no other purpose. We do not, in producing this report, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the six months ended 30 June 2005.

Notes:

a) The maintenance and integrity of the Northern Rock plc website is the responsibility of the Directors; the work carried out by the auditors does not involve consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred to the interim report since it was initially presented on the website.

b) Legislation in the United Kingdom governing the preparation and dissemination of financial information may differ from legislation in other jurisdictions.

INTERIM RESULTS

6 MONTHS ENDED 30 JUNE 2005

PROFORMA INFORMATION

In order to aid comparability of the 2005 results with those of 2004, the following pages show the 2004 results on a proforma basis, incorporating to the extent described in detail on page 85, the impact of IFRS. The proforma results include the impacts of changes to accounting rules relating to effective interest rate and the reclassification of certain financial instruments from debt to equity.

The 2005 statutory results include the full effects of the introduction of fair value and hedge accounting following the introduction of IAS 32 and IAS 39 with effect from 1 January 2005. Certain elements of the results for 2005 are also presented excluding the effects of fair value volatility and hedge ineffectiveness to provide a clearer representation of the underlying performance of the Group.

Notes

1. 2005 underlying ratios are based upon underlying results (note 2), underlying total income (note 3) and underlying net interest income (note 4).

2. 2004 ratios have been restated to reflect the impact of IFRS. Profit growth ratios for 2004 have not been calculated as 2003 results have not been restated under IFRS.

3. Balance sheet growth in 2005 represents the growth in balance sheet assets between 31 December 2004 and 30 June 2005. Underlying balance sheet growth excludes the impact of fair value adjustments.

4. Post tax returns are calculated by reference to profit attributable to equity shareholders.

NOTES TO THE PROFORMA RESULTS

1. Basis of Preparation

To enable a more meaningful presentation of results, in addition to the statutory comparatives for the interim and full year 2004 accounts, proforma comparatives have been prepared and are set out on pages 76 to 112. These show how the 2004 results would have looked, assuming the full application of IAS 32, and the application of IAS 39 excluding the fair value accounting volatility. The Group has not shown the full impacts from all the IAS 39 accounting rules as hedges and financial assets to be fair valued were only designated and documented from 1 January 2005.

2. Underlying Results

Underlying results are reconciled to the reported results in the following table.

	Six months to 30 June 2005		
	Profit before taxation	Profit for the period	Profit attributable to equity shareholders
	£m	£m	£m
Reported results	294.0	207.9	188.2
Underlying net hedge ineffectiveness and other unrealised fair value gains and losses (note 5)	(57.6)	(57.6)	(57.6)
Impact of covenant to The Northern Rock Foundation	2.8	2.8	2.8
Associated taxation	-	16.0	16.0
Underlying results	239.2	169.1	149.4

Underlying results include the interest related fair value movements on forward exchange contracts and exclude the hedge accounting ineffectiveness on derivatives where fair value hedge accounting has been obtained, together with gains and losses on non-hedging derivatives excluding interest flows to the extent that these are not offset by translation gains and losses on underlying instruments in economic hedging relationships.

NOTES TO THE PROFORMA RESULTS (CONTINUED)

3. Total Income

	Six months to 30 June 2005 £m	Six months to 30 June 2004 £m	Full Year 2004 £m
Reported total income	419.8	349.7	724.5
Adjustment:			
Interest implicit in forward exchange contracts	(24.3)	-	-
Underlying total income	395.5	349.7	724.5
Mean total assets	68,585.1	54,373.2	58,260.6
Mean total assets (underlying)	67,955.5	54,373.2	58,260.6
Mean risk weighted assets	23,222.4	19,654.1	21,100.1
Underlying total income : mean total assets (underlying)	1.16%	1.29%	1.24%
Underlying total income : mean risk weighted assets	3.41%	3.56%	3.43%
Reported total income : mean total assets	1.22%	1.29%	1.24%
Reported total income : mean risk weighted assets	3.62%	3.56%	3.43%

Interest implicit in forward exchange contracts represents the difference between the sterling cost implicit from the exchange contract and the currency coupon on the foreign currency liability translated at spot exchange rates. This is regarded as the interest element of the forward exchange contract. The remainder of the contract is the difference between the full fair value of the contract and the interest element of the contract and represents the currency fair value element of the contract.

The full fair value of foreign exchange contracts including both the interest and currency elements is included in "Net hedge ineffectiveness and other unrealised fair value gains and losses" in the reported results (see note 5).

NOTES TO THE PROFORMA RESULTS (CONTINUED)

4. Net Interest Income

	Six months to 30 June 2005 £m	Six months to 30 June 2004 £m	Full Year 2004 £m
Interest income			
Secured advances	1,524.4	1,038.2	2,397.5
Other lending	160.0	153.6	317.1
Investment securities and deposits	254.8	154.6	359.7
	1,939.2	1,346.4	3,074.3
Interest expense			
Retail customer accounts	409.5	311.5	689.7
Other deposits and loans	1,126.1	717.3	1,714.5
Subordinated liabilities	27.1	15.5	49.8
Reserve capital instruments	-	(3.3)	(5.4)
Tier one notes	7.2	6.1	13.0
	1,569.9	1,047.1	2,461.6
Interest implicit in forward foreign exchange contracts	24.3	-	-
Underlying interest expense	1,594.2	1,047.1	2,461.6
Net interest income as reported	369.3	299.3	612.7
Underlying net interest income	345.0	299.3	612.7
Average interest earning assets excluding fair value adjustments	68,723.6	53,354.7	57,222.3
Average interest bearing liabilities excluding fair value adjustments	66,235.6	51,431.6	55,111.8
Interest margin as reported	1.07%	1.12%	1.07%
Interest spread as reported	0.90%	0.98%	0.91%
Underlying interest margin	1.00%	1.12%	1.07%
Underlying interest spread	0.83%	0.98%	0.91%

Interest margin has been calculated by reference to average interest earning assets excluding fair value adjustments. For assets denominated in foreign currencies, where these have been economically hedged, average balances are based on the contract rate implicit in the associated hedging instrument. Average balances have been calculated on a monthly basis.

Interest spread represents the difference between interest receivable as a % of average interest earning assets, excluding fair value adjustments, and interest payable as a % of average interest bearing liabilities, excluding fair value adjustments. For assets and liabilities denominated in foreign currencies, where these have been economically hedged, average balances are based on the contract rate implicit in the associated hedging instrument.

Included within interest income is an adjustment of £1.7m with respect to the unwind of the discount included in the impairment allowance under IFRS.

NOTES TO THE PROFORMA RESULTS (CONTINUED)

5. Net Hedge Ineffectiveness and Other Unrealised Fair Value Gains and Losses

	Six months to 30 June 2005 £m	2004 £m	Full Year 2004 £m
Future fair value movements excluding interest flows on non-hedging derivatives	734.1	-	-
Translation gains and losses on underlying instruments	(732.3)	-	-
	1.8	-	-
Net hedge ineffectiveness excluding interest flows on fair value hedges	31.5	-	-
Net hedge ineffectiveness and other unrealised fair value gains and losses	33.3	-	-
Interest implicit in forward exchange contracts (note 3)	24.3	-	-
Underlying net hedge ineffectiveness and other unrealised fair value gains and losses	57.6	-	-

The Group enters into certain derivative financial instruments which although highly effective as economic hedges are not included in hedge accounting relationships. These derivatives include hedges on certain foreign currency assets and wholesale funding recorded at amortised cost and instruments included within non shareholders' funds, forward currency contracts and previously effective hedges which have been de-designated.

The future fair value movements excluding interest flows on such derivatives are separately identified within "Net hedge effectiveness and other unrealised fair value gains and losses", together with the translation gains and losses on underlying instruments arising from the revaluation from foreign currency into sterling. The deemed interest flows on such derivatives are included within interest income or expense, as appropriate.

Net hedge ineffectiveness excluding interest flows on fair value hedges represents the difference between changes in the future fair value excluding interest flows of the hedging derivatives and the changes in the future fair value excluding interest flows of the underlying hedged items.

6. Operating Expenses

Operating expenses excluding the covenant to The Northern Rock Foundation are as follows:

	Six months to 30 June 2005 £m	2004 £m	Full Year 2004 £m
Staff costs	66.9	56.0	119.6
Other expenses	37.7	37.0	79.1
Depreciation and amortisation	14.3	7.8	18.2
Total operating expenses	118.9	100.8	216.9

The average number of persons employed by the Group was as follows:

	Six months to 30 June 2005	2004	Full Year 2004
Full time	4,429	3,674	3,916
Part time	1,272	1,000	1,064

NOTES TO THE PROFORMA RESULTS (CONTINUED)

7. Interest Incentives and Fees

Included within the consolidated balance sheet are the following:

	Mortgage incentives £m	Fees receivable £m	Fees payable £m	Total £m
Balance at 1 January 2004	236.9	(13.2)	108.4	332.1
Adoption of IAS 39	2.9	(168.9)	(6.1)	(172.1)
	239.8	(182.1)	102.3	160.0
Amounts charged / paid	157.1	(80.6)	50.6	127.1
Released in the period	(163.4)	59.7	(30.2)	(133.9)
Balance at 30 June 2004	233.5	(203.0)	122.7	153.2

	Mortgage incentives £m	Fees receivable £m	Fees payable £m	Total £m
Balance at 1 January 2004	236.9	(13.2)	108.4	332.1
Adoption of IAS 39	2.9	(168.9)	(6.1)	(172.1)
	239.8	(182.1)	102.3	160.0
Amounts charged / paid	466.2	(184.5)	121.5	403.2
Released in the period	(393.2)	128.4	(69.5)	(334.3)
Balance at 31 December 2004	312.8	(238.2)	154.3	228.9

	Mortgage incentives £m	Fees receivable £m	Fees payable £m	Total £m
Balance at 31 December 2004	312.8	(238.2)	154.3	228.9
Amounts charged / paid	268.3	(107.3)	55.4	216.4
Released in the period	(225.5)	76.8	(44.9)	(193.6)
Balance at 30 June 2005	355.6	(268.7)	164.8	251.7

The adoption of IAS 39 adjustment comprises:

	1 January 2004 £m
Reclassified from prepayments and accrued income (note 21a)	(185.3)
Reclassified from accruals and deferred income (note 21d)	13.2
	(172.1)

NOTES TO THE PROFORMA RESULTS (CONTINUED)

8. Impairment Losses on Loans and Advances to Customers

	Six months to 30 June 2005 £m	Six months to 30 June 2004 £m	Full Year 2004 £m
Impairment charge:			
Secured on residential property	(5.2)	3.1	(0.5)
Secured commercial	(6.2)	0.7	0.7
Unsecured	36.9	22.7	48.3
Total impairment charge	25.5	26.5	48.5
% of mean advances to customers	0.09%	0.12%	0.10%

	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
Impairment allowance:			
Individual			
Secured on residential property	9.9	2.5	3.4
Secured commercial	0.4	2.8	1.0
Unsecured	41.5	32.2	41.4
Total	51.8	37.5	45.8
Collective			
Secured on residential property	16.6	39.9	32.9
Secured commercial	5.4	11.0	11.2
Unsecured	51.2	34.0	37.0
Total	73.2	84.9	81.1
Total impairment allowance	125.0	122.4	126.9
% of period end advances to customers	0.20%	0.26%	0.23%

NOTES TO THE PROFORMA RESULTS (CONTINUED)

9. Residential Mortgage Arrears

	30 June 2005		30 June 2004		31 December 2004	
	Cases	%	Cases	%	Cases	%
3 – 6 months	1,685	0.27	1,591	0.29	1,695	0.29
Over 6 – 12 months	460	0.07	501	0.09	422	0.07
Over 12 months	10	0.01	49	0.01	18	0.01
Total	2,155	0.35	2,141	0.39	2,135	0.37

10. Dividends

The following tables analyse dividends when paid and the period to which they relate.

	30 June 2005 pence per share	30 June 2004 pence per share	31 December 2004 pence per share
2003 final dividend	-	15.8	15.8
2004 interim dividend	-	-	8.5
2004 final dividend	18.0	-	-
	18.0	15.8	24.3

The proposed interim dividend in respect of 2005 amounts to 9.4 pence per share (£39.2 million). These Interim Results do not reflect this dividend payable.

	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
2003 final dividend	-	66.2	66.2
2004 interim dividend	-	-	35.2
2004 final dividend	74.7	-	-
Less paid to ESOP trusts	-	(0.9)	(0.8)
	74.7	65.3	100.6

NOTES TO THE PROFORMA RESULTS (CONTINUED)

11. Earnings per Share

Earnings per share figures based upon reported (basic) and underlying profit on ordinary activities attributable to equity shareholders are as follows:

	Six months to 30 June		Full Year
	2005	2004	2004
Weighted average number of shares in issue	413.8m	412.8m	413.0m
Basic EPS	45.5p	32.7p	65.7p
Underlying EPS	36.1p	32.7p	65.7p

The weighted average number of Ordinary shares in issue has been determined after deducting shares held in trust for employee share schemes.

Diluted weighted average number of shares in issue	416.9m	415.8m	416.6m
Diluted EPS	45.1p	32.5p	65.1p
Underlying fully diluted EPS	35.8p	32.5p	65.1p

The fully diluted EPS figures are calculated using the weighted average number of Ordinary shares in issue together with 3.1 million (30 June 2004: 3.0 million, 31 December 2004: 3.6 million) potentially dilutive Ordinary shares resulting from options granted under employee share schemes.

Foundation shares held by The Northern Rock Foundation have been excluded from the EPS calculations as they carry no rights to dividends. The Foundation shares can convert into Ordinary shares only under specified circumstances which are considered to be remote. If conversion were to take place the shares would rank for dividend but the covenant to the Foundation would cease.

NOTES TO THE PROFORMA RESULTS (CONTINUED)

12. Mortgage Lending

The following analysis of mortgage lending is based on total gross lending in each period.

	Six months to 30 June 2005 %	Six months to 30 June 2004 %	Full Year 2004 %
Type of lending			
Fixed rate (long term – over 2 years)	26	5	8
Fixed rate (short term – up to and including 2 years)	30	37	46
Discount	10	22	16
Cashback	1	1	1
Together	23	28	21
Lifetime	1	2	2
Buy to Let	9	5	6

North	15	15	15
Scotland	10	10	10
Midlands	25	24	24
South	50	51	51

13. Loans and Advances to Customers

	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
Advances secured on residential property not subject to securitisation	25,788.8	21,594.2	27,192.3
Advances secured on residential property subject to securitisation	28,979.7	20,176.0	21,661.1
Advances secured on residential property	54,768.5	41,770.2	48,853.4
Commercial secured advances not subject to securitisation	1,347.5	1,074.9	1,270.6
Commercial secured advances subject to securitisation	200.0	315.3	238.4
Total other secured advances	1,547.5	1,390.2	1,509.0
Unsecured loans not subject to securitisation	4,904.1	3,896.6	4,596.1
Unsecured investment loans	440.3	43.4	9.1
	61,660.4	47,100.4	54,967.6

NOTES TO THE PROFORMA RESULTS (CONTINUED)

14. Securitisation

The Group's results include the results and assets and liabilities of securitisation Special Purpose Entities ("SPEs") on a line by line basis. Under UK GAAP the SPEs were incorporated into the financial statements using linked presentation. Following the introduction of IFRS and a change in UK companies legislation, these SPEs are now treated as legal subsidiaries and consolidated on a line by line basis.

Securitised advances are subject to non-recourse finance arrangements. These loans have been purchased at par by SPEs from Northern Rock plc, and have been funded through the issue of mortgage-backed bonds. The balances of assets subject to securitisation and non-recourse finance at 30 June 2005 are as follows:

Securitisation company	Date of securitisation	Gross assets securitised £m	Non-recourse finance £m	Subordinated loans made by the Group £m
Residential:				
Granite Mortgages 99-1 plc	1 October 1999	89.1	79.8	-
Granite Mortgages 00-1 plc	1 March 2000	252.0	238.6	-
Granite Mortgages 00-2 plc	25 September 2000	482.6	411.3	2.9
Granite Mortgages 01-1 plc	26 March 2001	747.1	697.3	5.5
Granite Mortgages 01-2 plc	28 September 2001	827.6	778.3	10.2
Granite Mortgages 02-1 plc	20 March 2002	1,500.2	1,434.0	28.8
Granite Mortgages 02-2 plc	23 September 2002	1,861.9	1,785.1	26.7
Granite Mortgages 03-1 plc	27 January 2003	2,130.7	2,059.6	30.3
Granite Mortgages 03-2 plc	21 May 2003	1,670.5	1,590.6	25.2
Granite Mortgages 03-3 plc	24 September 2003	1,584.8	1,492.0	18.0
Granite Mortgages 04-1 plc	28 January 2004	2,695.7	2,563.4	51.1
Granite Mortgages 04-2 plc	26 May 2004	2,992.0	2,850.5	66.4
Granite Mortgages 04-3 plc	22 September 2004	3,564.7	3,428.1	50.8
Granite Master Issuer 05-1 plc	26 January 2005	4,353.9	4,227.5	71.3
Granite Master Issuer 05-2 plc	25 May 2005	4,206.9	4,052.6	74.4
		28,959.7	27,688.7	461.6
Retained interest in Granite Trustees Limited		2,196.5		
Less cash deposits held with Northern Rock plc		(1,859.3)		
Total residential		29,296.9	27,688.7	461.6
Commercial:				
Dolerite Funding No 1 plc	24 June 2002	181.9	162.5	14.5
Retained interest in Dolerite Trustees Limited		51.6		
Total commercial		233.5	162.5	14.5
Total		29,530.4	27,851.2	476.1

No subordinated debt was issued by Granite Mortgages 01-1 plc to Northern Rock plc in relation to the funding of a first loss reserve fund. However, Granite Mortgages 01-1 plc's parent company retained £20 million from the proceeds of debt issuance to fund this reserve, which is only repayable after full repayment of the notes.

NOTES TO THE PROFORMA RESULTS (CONTINUED)

14. Securitisation (continued)

Included within the Interim Results are the following items relating to the SPEs:

Balance sheet	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
Advances secured on residential property	26,783.2	18,970.6	20,835.0
Other secured loans	148.4	251.8	186.1
Cash deposits with third parties	350.7	1,052.7	423.9
Debt securities in issue	27,705.5	20,282.5	22,089.9

At 30 June 2005 the SPEs had cash deposits with Northern Rock amounting to £1,859.3m (30 June 2004 - £612.0m, 31 December 2004 - £1,396.0m). This balance is restricted in use to the repayment of the debt securities issued by the SPEs and other legal obligations.

15. Covered Bonds

Included within loans and advances to customers not subject to securitisation are £3,344 million of mortgage advances assigned to a bankruptcy remote special purpose vehicle. These loans provide security to issues of covered bonds made by Northern Rock of £1,341 million on 4 May 2004 and £1,025 million on 20 April 2005, which are included within debt securities in issue. Northern Rock retains substantially all the risks and rewards associated with these loans and therefore these transactions do not qualify for derecognition under IAS 39.

16. Analysis of Customer Accounts

	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
Branch accounts	4,303.8	2,437.4	3,084.4
Postal accounts	8,546.1	6,848.2	7,554.5
Internet accounts	2,182.7	2,693.0	2,503.4
Offshore accounts	2,611.8	2,321.4	2,499.4
Telephone accounts	747.4	1,087.7	896.3
Legal & General branded accounts	616.3	844.3	752.2
Total retail balances	19,008.1	16,232.0	17,290.2
Other customer accounts	2,489.7	2,538.1	3,103.5
	21,497.8	18,770.1	20,393.7

NOTES TO THE PROFORMA RESULTS (CONTINUED)

17. Own Shares

The amounts deducted from retained earnings in respect of own shares, which are held at cost, are as follows:

	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
Own shares in relation to employee share schemes	48.0	52.6	55.3

Movements in the amount deducted from retained earnings in respect of own shares are as follows:

	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
At 1 January	55.3	58.2	58.2
Purchases of shares	1.2	2.1	6.0
Use of shares on exercise of employee options and for other employee share plans	(8.5)	(7.7)	(8.9)
	(7.3)	(5.6)	(2.9)
	48.0	52.6	55.3

The credit to retained earnings is as follows:

	30 June 2005 £m	30 June 2004 £m	31 December 2004 £m
Value of employee services	5.9	4.6	7.9
Cash received on exercise of employee options and for other employee share plans	2.7	2.9	3.4
Tax impact of share based payments	-	1.1	3.6
Purchase of shares	(1.2)	(2.1)	(6.0)
	7.4	6.5	8.9

NOTES TO THE PROFORMA RESULTS (CONTINUED)

21. Reconciliation of Proforma Balance Sheets (continued)

Explanation of the effect of the transition to IFRS

The following explains the material proforma adjustments to the balance sheet.

a) Loans and advances to customers

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Impact of effective interest rate adjustment	(185.3)	(206.9)	(234.2)
Reclassification from prepayments and accrued income in relation to effective interest rate adjustment	323.1	340.4	433.0
Impact of effective interest rate adjustment	137.8	133.5	198.8

In accordance with IAS 39 the interest rate is adjusted to reflect the rate that exactly discounts expected future cash payments or receipts through the expected life of the financial instrument to its net carrying amount. This adjustment includes all fees and interest paid or received that are an integral part of the effective interest rate, transaction costs and all other premiums and discounts.

b) Deferred tax assets

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Deferred tax effects of proforma adjustments	47.4	51.0	63.8

c) Prepayments and accrued income

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Reclassification of opening balances to loans and advances to customers in relation to effective interest rate adjustment	(345.3)	(360.0)	(463.2)
Impact of effective interest rate adjustment	22.2	19.6	30.2
Total impact – decrease in prepayments and accrued income	(323.1)	(340.4)	(433.0)

NOTES TO THE PROFORMA RESULTS (CONTINUED)

21. Reconciliation of Proforma Balance Sheets (continued)

Explanation of the effect of the transition to IFRS (continued)

d) Accruals and deferred income

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Impact of effective interest rate adjustment	(13.2)	(10.5)	(7.9)
Reversal of reserve capital instruments and subordinated liabilities coupon payment accrual in accordance with IAS 32 and IAS 10	(14.3)	(26.9)	(14.3)
Total impact – decrease in accruals and deferred income	(27.5)	(37.4)	(22.2)

e) Other liabilities

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Impact on payment to The Northern Rock Foundation	-	0.5	0.5

f) Subordinated liabilities

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Transfer to non shareholders' equity	(350.3)	(746.4)	(746.4)

In accordance with the requirements of IAS 32 certain subordinated liabilities are classified as non shareholders' equity, as there is no contractual obligation to pay the interest coupon.

g) Reserve capital instruments

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Transfer to non shareholders' equity	(300.0)	(300.0)	(300.0)

In accordance with the requirements of IAS 32 reserve capital instruments are classified as non shareholders' equity, as there is no contractual obligation to pay the interest coupon.

NOTES TO THE PROFORMA RESULTS (CONTINUED)

21. Reconciliation of Proforma Balance Sheets (continued)

h) Non shareholders' funds

	1 January 2004 £m	30 June 2004 £m	31 December 2004 £m
Transfer from subordinated liabilities	350.3	746.4	746.4
Transfer from reserve capital instruments	300.0	300.0	300.0
Total impact – increase in non shareholders' funds	650.3	1,046.4	1,046.4

NOTES TO THE PROFORMA RESULTS (CONTINUED)

22. Reconciliation of Proforma Profit (continued)

Explanation of the effect of the transition to IFRS

a) Interest and similar income

	6 months ended 30 June 2004 £m	Year ended 31 December 2004 £m
Impact of effective interest rate adjustment	38.5	84.9

In accordance with IAS 39 the interest rate is adjusted to reflect the rate that exactly discounts expected future cash payments or receipts through the expected life of the financial instrument to its net carrying amount. This adjustment includes all fees and interest paid or received that are an integral part of the effective interest rate, transaction costs and all other premiums and discounts.

b) Interest expense and similar charges

	6 months ended 30 June 2004 £m	Year ended 31 December 2004 £m
Reversal of interest payable on reserve capital instruments and portion of subordinated liabilities	33.8	60.9

In accordance with the requirements of IAS 32 reserve capital instruments and certain subordinated liabilities are classified as non shareholders' equity, as there is no contractual obligation to pay the interest coupon. Accordingly the interest payable on these instruments is removed from interest expense and accounted for as an appropriation and recognised in accordance with IAS 10.

c) Fee and commission income and expense

	6 months ended 30 June 2004 £m	Year ended 31 December 2004 £m
Reclassification of fee and commission income within interest and similar income	(77.3)	(177.4)
Reclassification of fee and commission expense within interest and similar income	19.0	47.4
Impact of effective interest rate adjustment	(58.3)	(130.0)

Where fees charged on loans are integral to the loan yield, they are classified to interest and similar income, in accordance with the effective interest rate rules of IAS 39.

NOTES TO THE PROFORMA RESULTS (CONTINUED)

22. Reconciliation of Proforma Profit (continued)

Explanation of the effect of the transition to IFRS (continued)

d) Other operating income

	6 months ended 30 June 2004 £m	Year ended 31 December 2004 £m
Impact of effective interest rate adjustment	(5.2)	(10.5)

e) Operating expenses

	6 months ended 30 June 2004 £m	Year ended 31 December 2004 £m
Impact of effective interest rate adjustment	0.7	1.4
Impact of statutory adjustments on the covenant to The Northern Rock Foundation	(0.1)	(0.2)
Impact of proforma adjustments on the covenant to The Northern Rock Foundation	(0.4)	(0.3)
Total impact – decrease in operating expenses	0.2	0.9

f) Tax on profit on ordinary activities

	6 months ended 30 June 2004 £m	Year ended 31 December 2004 £m
Tax effect of IFRS proforma adjustments	(2.7)	(1.9)

g) Appropriations

	6 months ended 30 June 2004 £m	Year ended 31 December 2004 £m
Treatment of reserve capital instruments and subordinated liabilities coupon payment in accordance with IAS 32 and IAS 10	14.9	42.6

Introduction

Statutory Results

The 2005 Preliminary Results have been prepared using International Financial Reporting Standards ("IFRS") as approved by the International Accounting Standards Board that, under European Regulations, are effective or available for early adoption at the Group's first reporting date under IFRS, 31 December 2005. Certain of these IFRS are only effective from 1 January 2005, and therefore have not been used to restate the 2004 statutory based results. The results included on pages 22 to 38 represent the statutory results of the Group for the year ended 31 December 2005 and include the statutory comparatives reflecting only those standards which permit or require retrospective adoption, reflecting the voluntary exemptions of IFRS1.

Proforma Results

As a result of some IFRS not being required to be implemented until 1 January 2005, to aid comparability of the 2005 results with those of 2004, 2004 results have also been prepared on a proforma basis, incorporating the impact of IFRS where it is possible to determine what the impact would have been if the accounting changes had been effective in 2004. The proforma results, included on pages 44 to 57, include the impacts of changes to accounting rules relating to effective interest rate and the reclassification of certain financial instruments from debt to equity, but exclude the effects of hedge accounting under IFRS which differs from that applied under UK GAAP.

Underlying Results

The 2005 statutory results include the full effects of the introduction of fair value and hedge accounting following the adoption of IAS 32 and 39 with effect from 1 January 2005. Where appropriate, certain aspects of the results for 2005 are presented to reflect management's view of the underlying results for 2005 excluding the effects of fair value volatility and hedge ineffectiveness to provide a clearer representation of the underlying performance of the Group, in addition to the statutory results.

NORTHERN ROCK GROUP ANNUAL RESULTS

25 January 2006

Northern Rock plc today issued its Preliminary Results for the year ended 31 December 2005.

HIGHLIGHTS

Operating Performance

- Total underlying assets of £81.1 billion - an increase of 24.9% from December 2004 assets of £64.9 billion. Risk weighted assets grew by 14.2%
- Record gross lending of £26.9 billion - an increase of 15.2%, with record net lending of £14.6 billion - an increase of 12.6%
- Share of UK gross mortgage lending of 8.1% - up from 6.8% in 2004; net share of 14.4% - up from 11.2% in 2004
- 0.39% (31 December 2004 - 0.37%) of mortgage accounts 3 months or more in arrears - under half of industry average
- Record retail savings net intake of £2.8 billion (2004 - £0.9 billion) - over 3 times the total for 2004

Profits

- Underlying pre tax profits of £504.6 million, up by 14.3% compared with 2004 proforma
- Underlying profit attributable to shareholders of £308.1 million, up by 13.6% compared with 2004 proforma
- Statutory pre tax profits (including hedge ineffectiveness) up by 13.5% to £494.2 million

Costs

- Cost to asset ratio improved to 0.34% (from 0.37% in 2004)
- Cost to underlying income ratio improved to 29.8% (from 29.9% proforma in 2004)

Pension Fund

- IAS 19 pension fund deficit substantially eliminated by special contributions made in December 2005 and January 2006 amounting in total to £65.0 million

Shareholder Value

- Underlying return on equity of 20.8% and 19.3% on a statutory basis
- Underlying EPS of 74.3p - an increase of 13.1%
- Final dividend per share of 20.7p - giving a total dividend per share of 30.1p, an increase of 13.6%

Social Responsibility

- The Northern Rock Foundation - supporting charitable causes - to receive £24.7 million

Adam J Applegarth, Chief Executive, said:

"In 2005, Northern Rock continued to achieve its strategic targets and is well placed to continue to do so. Lending, dominated by low risk residential mortgages, has been strong resulting in underlying total balance sheet assets growing to £81.1 billion, an increase of 24.9%. Underlying pre tax profits rose by 14.3% to £504.6 million, attributable profit grew by 13.6% to £308.1 million and return on equity on the same basis was 20.8%. All this was achieved in a year when income was deferred and cost write-off accelerated under IFRS, meaning 2005 was a year of very good performance.

We do not expect to see a significant deterioration in credit quality going forward. We have low levels of arrears, strong credit risk management and a low risk balance sheet. We have continued to provide, prudently, for loan losses using our Basle II based impairment models.

Capital efficiency and risk management have been enhanced following our innovative Whinstone transaction resulting in the sale of the majority of first loss positions previously held in respect of our pre 2005 securitisations. We expect similar transactions going forward which will mitigate the risk of credit default and enable a closer alignment of regulatory and credit rating levels of capital as Basle II is introduced.

Northern Rock submitted its waiver application for IRB approval before the year end and is well positioned to take advantage of the introduction of Basle II. Our business model remains extremely robust and continues to deliver good shareholder value."

OPERATIONAL REVIEW

Introduction

The 2005 Preliminary Results have been prepared using International Financial Reporting Standards ("IFRS") as approved by the International Accounting Standards Board that, under European Regulations, are effective or available for early adoption at the Group's first reporting date under IFRS, 31 December 2005 and which differ significantly to UK GAAP used in the preparation of previously reported financial statements.

Analysis of the results is complicated as a result of certain IFRS only having been applied from 1 January 2005. This means that the revised 2004 statutory results only include the impact of certain of the IFRS used in the preparation of the 2005 results. As a consequence we have included, on pages 44 to 57, 2004 results prepared on a proforma basis, incorporating the impact of IFRS where it can be determined what the impact would have been if the accounting changes had been effective in 2004. This impact includes the treatment of interest income and fees and the reclassification of certain funding instruments from debt to non shareholders' equity but excludes the effects of accounting for derivatives under IFRS which differs from that applied under UK GAAP.

Full reconciliations of the effect of the introduction of IFRS together with full details of the accounting policies for 2005 will be included in the full 2005 Annual Financial Statements and were included in the Interim Results released on 28 July 2005. The Interim Results are available on the Company's website www.northernrock.co.uk.

As a consequence of the introduction of IFRS the balance sheet and income statement are subject to a certain amount of volatility particularly from the accounting for hedges deemed under IFRS rules to be ineffective, plus volatility arising from fair value movements on derivatives taken out in respect of certain financial liabilities and instruments included in non shareholders' equity which themselves are not subject to fair value treatment. Where appropriate, such volatility is separately identified in the review of financial and operating results to enable management's view of underlying performance to be separately identified. Further detail is given on page 14.

Overview

Strong lending volumes continued throughout 2005 resulting in underlying total assets of £81.1 billion at the year end, an increase of 24.9% compared with 31 December 2004. Estimated residential net lending market share at 14.4% for the full year, exceeded both the 11.2% share achieved in 2004 and the 13.5% achieved in the first half of 2005, confirming Northern Rock's ability to achieve growth targets in a competitive mortgage market. Commercial lending and standalone personal unsecured lending grew more slowly reflecting our low appetite for risk. Asset quality also remained robust across all loan portfolios.

The strong performance of our retail funding seen in 2004 and the first half of 2005 continued, resulting in net inflows for the year of £2.8 billion. Our successful securitisation issues raised a net £8.8 billion and contributed further to our capital management. Capital efficiency has also been enhanced by the sale of a significant part of our securitisation vehicles' retained first loss risk in the Whinstone transaction, following which our senior unsecured credit rating outlook was changed from neutral to positive by Standard & Poor's

Profit before tax (underlying) rose by 14.3% and profit attributable to shareholders (underlying) rose by 13.6% from last year - ahead of consensus. Underlying return on equity at 20.8% remained well within our strategic target range of 19% to 22%.

Lending

During 2005 Northern Rock again achieved record levels of total lending. Total gross lending was £26,879 million, an increase of 15.2% (2004 - £23,342 million), with total net lending of £14,555 million, an increase of 12.6% (2004 - £12,932 million). Prospects for 2006 are good, with a total opening pipeline of £5,300 million (1 January 2005 - £5,105 million) including a residential lending pipeline of £5,005 million (1 January 2005 - £4,891 million). The 2006 opening pipeline reflects a 6% improvement in the time applications remain in the lending pipeline. Improved customer retention reduces the need to grow gross lending significantly as we move towards achieving the centre of our asset growth target range.

The composition of our lending portfolios has continued to be low risk. At 31 December 2005, 90% of our loans to customers were residential secured loans (31 December 2004 - 89%), 2% commercial secured loans (31 December 2004 - 3%) and 8% (31 December 2004 - 8%) within our personal unsecured portfolios. This mix is not expected to change significantly going forward.

An analysis of new lending by portfolio is set out in the following table:

£ millions	Residential	Commercial	Unsecured	Total
2005				
Gross	23,618	408	2,853	26,879
Net	13,350	5	1,200	14,555
2004				
Gross	20,051	499	2,792	23,342
Net	11,383	182	1,367	12,932

Residential – UK market

The UK residential lending market improved in the second half of 2005 resulting in estimated gross lending for the year of £287 billion, broadly unchanged from the £291 billion recorded in 2004. Gross lending associated with housing transactions and equity withdrawal represents around 55% of lending with 45% driven by remortgage activity. Whilst the former will vary with volumes of home moving transactions and house price inflation, the latter does not due to increased market liquidity following the removal of overhanging early repayment charges. The two components will continue to provide a substantial and robust gross lending market for us to be able to achieve our lending targets. The slow down in the housing transaction market during 2005 has, however, resulted in estimated net lending being down 9% at £92 billion (2004 - £101 billion). UK house prices remained stable throughout 2005. Although the latter part of 2005 saw an increase in housing transactions, we expect 2006 transactions to be similar to those achieved in 2005, with low single digit house price appreciation, in line with the growth in average earnings.

Residential – Northern Rock performance

Against this background, we achieved gross residential lending of £23,618 million (2004 - £20,051 million) and net residential lending of £13,350 million (2004 - £11,383 million), representing increases of 17.8% and 17.3% respectively. Our estimated share of UK gross residential lending for 2005 was 8.1% and our market share of net residential lending was 14.4%. This compares with 8.0% and 13.5% respectively for the first half of 2005, and 6.8% and 11.2% for 2004 in total. Our share of redemptions for the year was 5.2% (2004 - 4.5%), again lower than our closing share of mortgage stock of around 6.4% (31 December 2004 - 5.5%). This reflects the continued success and strengthening of our pro-active customer retention process and our fair and transparent policy of allowing existing customers, subject to their contractual terms, to transfer their loan to any product available to new borrowers.

Lending (continued)

In 2005, 90% of our gross residential lending was originated via the indirect market (2004 - 88%). This reflects the increasing importance of mortgage clubs and networks, with whom we are even more closely aligned following the introduction of statutory mortgage regulation in the last quarter of 2004, and improvements in service levels and access through our on-line trading platform.

The profile of our new lending has remained low risk despite strong growth in volumes. There was a slight increase in the proportion of lending to first time buyers to 24% (2004 - 21%) reflected in increased volumes of "together" lending. 76% (2004 - 79%) of new customers continued to have a proven payment track record. The impact of this trend has been to increase the average Loan to Value ratio ("LTV") of new lending in 2005 to 78% compared with 76% in 2004. Similarly new lending at or below 90% LTV was 70% (2004 - 77%) of completions. The average indexed LTV of our mortgage book is now 58% (31 December 2004 - 53%) which continues to provide strong cover in the event of default. We have minimal exposure to large loans with only 3.4% of new loans over £500,000 (2004 - 3.5%) and have a good spread of geographic risk.

We offer customers a wide range of innovative and attractive products including lifestyle products and traditional price-led products. Most of our products also have inbuilt flexibility giving customers the opportunity to overpay, make redraws and subject to advance agreement and after a qualifying period, take payment holidays. Our lifestyle products comprise our "together" family of products, Lifetime and residential Buy to Let mortgages. The "together" products combine a secured and unsecured loan at one interest rate and one monthly payment. Gross lending of "together" products amounted to £7.0 billion of which £6.1 billion were advances secured on residential property representing 28.7% of new residential lending, excluding further advances. Outstanding balances of "together" mortgages have increased to 20.6% of our mortgage portfolio (31 December 2004 - 18.2%).

Our Lifetime range is aimed at homeowners aged 60 and over who wish to utilise equity in their homes to enhance their lifestyle. Such lending accounted for 1.4% of gross new residential lending (2004 - 1.8%), with outstanding Lifetime balances representing 3.0% (31 December 2004 - 3.1%) of our mortgage balances.

Residential Buy to Let lending is focussed on lending to private investors secured on good quality residential properties with low LTVs. Such lending accounted for 4.9% of our mortgage portfolio at 31 December 2005 (31 December 2004 - 4.0%) and for 7.1% (2004 - 6.4%) of gross new residential lending.

In total our family of lifestyle products, which are margin enhancing, represented 37.2% (2004 - 28.9%) of our gross new residential lending and 28.5% of mortgage balances at 31 December 2005 (31 December 2004 - 25.3%).

Of our traditional price-led mortgage products, fixed rate mortgages remained the most popular with 25.3% (2004 - 46.4%) of total new lending accounted for by short term fixed rate products up to two years, and 28.8% (2004 - 7.5%) by longer term fixes, normally up to five years. The increased demand for longer term fixed rate products reflected competitive pricing led by attractive longer term swap rates.

Lending (continued)

Unsecured

Our personal unsecured credit portfolios comprise the unsecured element of "together" lending and standalone unsecured loans not linked to a residential mortgage. An analysis of lending volumes on the separate elements of our unsecured portfolios is shown in the following table:

£ millions	Standalone Unsecured	Together Unsecured	Total
2005			
Gross	1,970	883	2,853
Net	744	456	1,200
2004			
Gross	2,068	724	2,792
Net	1,104	263	1,367

Standalone unsecured gross lending has slowed in line with the number of borrowers who satisfy our credit score and our risk appetite. Net lending has shown a further reduction as the portfolio matures and redemptions and repayments naturally increase.

Volumes of new "together" unsecured lending increased below the rate of growth of "together" mortgage lending due to the cap of £30,000 on the value of the unsecured element of "together" loans. At 31 December 2005, our unsecured lending balances were £5,789 million (31 December 2004 - £4,581 million) of which 40.0% (31 December 2004 - 40.3%) represented "together" unsecured advances.

Commercial

Competition in the commercial secured lending market remained strong throughout 2005 with certain lenders being particularly aggressive on price and LTV levels at which they are prepared to lend. Both gross and net lending within our commercial lending portfolio slowed as a result of maintaining our emphasis on quality rather than volume of lending. Gross lending in the year amounted to £408 million (2004 - £499 million) with net lending of £5 million (2004 - £182 million).

Arrears and Possessions

The arrears position of each of our personal lending portfolios based upon numbers of accounts three months or more in arrears is set out in the following table:

	Residential	Standalone Unsecured	Together Unsecured	CML Residential Average
31 December 2005	0.39%	0.98%	0.84%	0.87%
31 December 2004	0.37%	1.04%	0.78%	0.80%

Note: CML Residential Average arrears shown at 30 June 2005 and 31 December 2004. Source: Council of Mortgage Lenders.

Residential accounts three months or more in arrears at 0.39% remained well below half the CML residential average of 0.87% at 30 June 2005 (31 December 2004 - 0.80%) and only marginally ahead of the equivalent figure of 0.37% at the end of 2004. The "together" secured three months plus arrears

Arrears and Possessions (continued)

increased to 0.84% at 31 December 2005 (31 December 2004 - 0.77%) but remained around the CML average for residential lending.

At 31 December 2005, properties in possession had increased to 576, representing only 0.09% of all accounts compared with 181 (0.03%) at the end of 2004 in line with our policy of rapid movement towards recovery where it is clear the borrower is unwilling to maintain payments and where we have higher risk.

Standalone personal unsecured loan arrears remain significantly better than industry average, reflecting our policy of attracting high quality lending and use of our bespoke scorecard to avoid lower quality lending. Three months plus arrears finished the year at 0.98%, below that reported at the half year and at the end of December 2004, although greater collections activity was required compared with 2004. On an industry-wide view indebtedness of customers seems to have stabilised. In our loan portfolios indebtedness has begun to decline and collection activity in the last quarter became a little easier.

At 31 December 2005 only 10 of our commercial loans (0.42% of accounts) with balances outstanding of £5.8 million were three months or more in arrears compared with 8 accounts (0.31%) with outstanding balances of £6.3 million at 31 December 2004.

Funding

Northern Rock has established four distinct funding arms enabling it to attract funds from a wide range of customers and counterparties on a global basis. Flows of new funding and closing balances are shown in the following table:

£ millions	Retail	Non-Retail	Securitisation	Covered Bonds
2005				
Net flow	2,809	2,317	8,831	2,378
Closing balances	20,104	22,253	31,156	3,830
2004				
Net flow	896	2,770	7,234	1,341
Closing balances	17,290	19,740	22,090	1,339

Note: Net flow in 2005 represents net cashflows excluding fair value adjustments. Closing balances at 31 December 2005 are stated including fair value adjustments.

Retail

Retail funding comprised a total inflow of funds of £2,809 million, including interest credited of £565 million and builds on the successful funding in the first half of 2005 of £1,716 million, again demonstrating the strength and diversity of our retail franchise. 2005's net inflow represents over three times the net inflow of £896 million achieved in 2004.

Funding during the year was largely into our Silver Savings account for the over 50s, launched in September 2004 and supplemented in 2005 by the introduction of a 30 day notice account. Balances in our Ireland based operation rose 63% to £1,026 million (31 December 2004 - £628 million), with £1,940 million (31 December 2004 - £1,871 million) in our Guernsey based off-shore vehicle.

Closing balances of £20.1 billion represent 65.8% of our non-securitised lending portfolios (31 December 2004 - 52.6%). .

Non-Retail

Our non-retail funding provides a balanced mixture of short and medium term funding with increasing diversification of our global investor base. During the first half we repaid net £2.2 billion, mainly short term funds, following securitisation issues. In the second half we raised a net £4.5 billion, leaving a full year net funding of £2.3 billion.

During the year, we raised £2.6 billion medium term wholesale funds from a variety of globally spread sources, with specific emphasis on the US, Europe and Asia. This included a US$1.75 billion Extendible Quarterly Securities issue sold to domestic US investors and a US$1.5 billion Floating Rate Notes issue sold in Asia and Europe. In January 2006, we have raised a further US$2.0 billion Extendible Securities, with over 60% of funds raised from investors new to the Northern Rock Extendible programme.

Key developments in short term funding included the establishment of a CAD$2 billion Canadian Commercial Paper programme which provides access to domestic Canadian investors. This programme had outstanding balances of CAD$850 million at 31 December 2005.

Securitisation

Funding through securitisation has remained an integral part of Northern Rock's funding strategy. During 2005 four residential mortgage-backed issues were completed raising £12.9 billion through our Granite vehicles. The characteristics of the mortgages securitised, in terms of product type, LTV and geographic distribution remain similar to those of our non-securitised mortgages. We continue to diversify our investor base aided by comprehensive global investor roadshows. A second commercial mortgage securitisation (Dolerite) raising £600 million was also completed.

The last Granite issue of 2005 (a £3.75 billion deal) was priced at the lowest spread we have ever achieved, even tighter than previous deals completed in the year and significantly below the cost of older deals being replaced.

Already in 2006 we have completed a £6.0 billion residential mortgage-backed securitisation issue, which was heavily oversubscribed. (Details are set out in a separate Stock Exchange announcement released today - 25 January 2006.)

At 31 December 2005 advances to customers subject to securitisation amounted to £39.1 billion (31 December 2004 - £21.9 billion), representing 56% (31 December 2004 - 40%) of our total lending portfolios.

Covered Bonds

In 2005 we raised €3.5 billion (£2.4 billion) from two further issues from our €10 billion covered bond programme established in 2004. This provided further ongoing diversification of the investor base. The second transaction raised funds with a maturity of 15 years priced at mid swaps plus 11bps helping to lower the average cost of new funding. The covered bonds are secured by a pool of ring-fenced residential mortgages. The credit risks associated with these loans have subsequently been transferred into the capital markets by means of synthetic securitisation transactions (Graphite) providing further capital benefits.

Assets

Total assets on a statutory and underlying basis (excluding fair value adjustments) are set out in the following table:

£ millions	31 December 2005	31 December 2004
Statutory	82,709	64,881
Underlying	81,057	64,881

On an underlying basis total assets are 24.9% higher than at the previous year end and on a statutory basis have increased by 27.5%.

Treasury

Our Treasury operation continues to raise wholesale funds, manage interest rate and currency risks, and manage a portfolio of investments primarily for liquidity purposes. It is not a separate profit centre and does not operate trading portfolios. At 31 December 2005, 97% (31 December 2004 - 96%) of our Treasury investment portfolios comprised assets which are rated single A or better. We continue to have no exposure to emerging markets or non-investment grade debt.

Total Income and Margins

The introduction of IFRS in 2005 results in significant changes in the presentation and reporting of interest and non-interest income. Upfront lending fees are now spread over the expected life of a loan and included in interest income resulting in a deferral of reported income. Introducer fees are also now recognised within interest income and spread over the expected life of a loan, rather than the life of the customer relationship, resulting in an acceleration of the recognition of the cost. Mortgage incentives continue to be offset against interest income but are now spread over the expected life of a loan rather than over the early repayment charge period. In addition, following the re-classification of certain instruments from debt to equity, the coupon payable on these instruments is now excluded from interest expense. As these accounting changes were introduced on a statutory basis with effect from 1 January 2005 we have prepared comparable 2004 figures on a proforma basis as well as on the statutory basis.

The following table shows net interest income and total income on a statutory and proforma basis for 2004 and on a statutory (excluding hedge ineffectiveness) and underlying basis (see notes 3 and 4) for 2005.

	Statutory	Underlying	Statutory	Proforma
£ millions	2005	2005	2004	2004
Net interest income	752.3	706.8	466.9	612.7
Other income	129.0	129.0	252.3	111.8
Total income	**881.3**	**835.8**	**719.2**	**724.5**

On a statutory basis, total income in 2005 amounted to £881.3 million (excluding hedge ineffectiveness) representing an increase of 22.5% over statutory total income in 2004. On this basis the ratio of total income to mean total assets at 1.19% compares with the 2004 ratio of 1.23%. Total income as a proportion of mean risk weighted assets at 3.34% compares with the 2004 ratio of 3.37%.

On an underlying basis total income in 2005 amounted to £835.8 million representing an increase of 15.4% over proforma total income in 2004. On this basis, the ratio of total income to underlying mean total assets at 1.15% compares with the 2004 ratio of 1.24%. Total income as a proportion of mean risk weighted assets at 3.41% compares with the 2004 ratio of 3.43%.

Total Income and Margins (continued)

Underlying interest margin at 0.97% compares with the 2004 ratio of 0.82% on a statutory basis and 1.07% on a proforma basis. The proforma basis is considered to be a more appropriate comparator as it is calculated on the same basis as the 2005 figures, including the impact of effective interest rate changes under IFRS. On this basis, interest margin for 2005 is 10bps lower than the full year in 2004 but only 3bps lower than in the first half of 2005. During 2004, 3 month Libor was on average 26bps higher than Bank Base Rate. Although this differential reduced to 11bps on average during 2005, there continued to be an adverse effect on the price of our Libor related funding.

At 31 December 2005, the net value of fees deferred to future periods amounted to £292.0 million, compared with £238.2 million at 31 December 2004 on a proforma basis. This deferred income returns to the income statement over the life of loans, reducing the future dependence of income growth on volume growth.

Other income primarily comprises commission generated on sales of third party products such as building and contents and payment protection insurance together with administration fees not included within interest margin. During 2005, we improved our product range and sales process for payment protection insurance. By offering a wider range of products which better match customer needs and by lowering prices we have arranged better protection to more customers.

Expenses

Total operating expenses amounted to £249.4 million representing an increase of 14.2% over statutory operating expenses of £218.3 million and 15.0% over proforma operating expenses of £216.9 million for 2004. The increase of 15.0% compares with an increase in underlying assets of 24.9% over the year and a rise in underlying total income of 15.4%, resulting in a cost to asset ratio of 0.34% (2004 statutory - 0.37%, proforma - 0.37%) and a cost to underlying income ratio of 29.8% (2004 statutory - 30.4%, proforma - 29.9%).

At the half year stage the cost to underlying income ratio had risen to 30.1% as a result of incremental regulatory costs being incurred in the first half of 2005 with no corresponding cost in the equivalent period in 2004. In the second half of 2005, underlying income growth of 17.5%, compared with the second half of 2004, exceeded cost growth of only 12.4%, resulting in a 2005 second half cost to underlying income ratio of 29.6%.

Included in the 2005 operating expenses are approximately £10 million of recurring incremental costs (2004 - £3.6 million) in relation to the full year impact of increased regulatory requirements. These have been absorbed in our cost base and so going forward we expect the rate of cost growth to slow, cost growth to be at the bottom end of the one half to two thirds of asset growth range and income growth to exceed cost growth.

Social Responsibility - The Northern Rock Foundation

Northern Rock donates 5% of pre tax profit to The Northern Rock Foundation under a deed of covenant. Such donations are used to support community and charitable causes mainly in the North East of England and Cumbria. The covenant from 2005 profits amounts to £24.7 million (31 December 2004 - £21.6 million), resulting in approximately £145 million having been donated since its inception in 1997 as an integral part of Northern Rock's conversion to a plc.

Loan Loss Impairment

Although there are similarities between the bases for determining loan loss impairment provisions under UK GAAP and IFRS, the latter is more prescriptive. In 2005, we enhanced our loan loss impairment methodologies incorporating risk and performance data captured in and generated by our Basle II capital systems. As stated at the half year stage, following the introduction of the improved methodologies, a reassessment of loan loss impairment provisions was made to reflect more accurately the risk profile of our loan portfolios. Following this one-off reassessment, loan loss impairment provisions were reduced by £10.3 million for the residential portfolio and by £9.8 million in our commercial lending portfolio and increased by £20.1 million in respect of our unsecured loans.

The 2005 charge for loan loss impairment amounted to £56.6 million (2004 - £48.5 million) representing 0.09% of mean advances to customers (2004 - 0.10%). The combination of high quality lending, low interest rates, low arrears and continued strong average LTV of the portfolio have continued to contain the levels of loan loss impairment provisions required for residential mortgages. Provisions for the commercial secured lending portfolio are consistent with portfolio performance and economic conditions for this sector.

The growth in loan loss impairment provision balances against our personal unsecured credit portfolios reflects growth in balances and the maturing nature of the portfolios. As a result, total loan loss impairment provision balances for these portfolios have increased to £87.1 million (31 December 2004 - £78.4 million) with total cover of 1.48% (31 December 2004 - 1.68%).

Hedge Ineffectiveness

Following the introduction of IFRS, all derivatives entered into by Northern Rock, which under UK GAAP were held off balance sheet, are now recorded on the balance sheet at full fair value with any fair value movements being taken to the income statement. Where effective hedge relationships can be established, the movement in the fair value of the derivative instrument is offset in full or in part by opposite movements in the fair value of the underlying instrument being hedged. Any ineffectiveness arising from different movements in fair value will trend to zero over time and so any recorded ineffectiveness in any accounting period is excluded from underlying results in that accounting period.

In addition, Northern Rock enters into certain derivative contracts, which although efficient economically, cannot be included in effective hedge accounting relationships. Consequently, although the implicit interest cost of the underlying instrument and associated derivative are included in net interest income in the income statement, fair value movements of future cashflows on such derivatives are recorded in "Net hedge ineffectiveness and other unrealised fair value gains and losses" on the face of the income statement and are excluded from underlying results as these fair value adjustments are not realised in the current accounting period. The same treatment also applies to the revaluation at each balance sheet date of economically hedged foreign currency liabilities.

The over-riding objective of the presentation of underlying results is to show the underlying interest income / expense of hedged instruments and to exclude future fair value adjustments from current performance measurement.

In 2005, the income statement shows "Net hedge ineffectiveness and other unrealised fair value gains and losses" as a negative figure of £56.4 million. This reduces to £10.9 million negative after the cost of interest implicit in forward exchange contracts is transferred to underlying net interest income. At 30 June 2005 the equivalent figures were £33.3 million positive and £57.6 million positive respectively.

Taxation

The effective tax rate in 2005 was 29.3% (2004 - 28.9%). We continue to anticipate, with a corporation tax rate of 30% and HMRC's stance on tax planning, that the ongoing effective tax rate will trend towards 30.0% in the medium term.

Profits and EPS

To aid comparison of the 2005 results with those of 2004 we have prepared 2004 comparatives on a statutory basis and on a proforma basis. In addition, management's view of the underlying 2005 results is also presented. Details of profit before tax, profit attributable to shareholders and earnings per share on these bases are set out in the following table:

	Statutory 2005	Underlying 2005	Statutory 2004	Proforma 2004
PBT £m	494.2	504.6	435.3	441.5
Attributable profit £m	300.7	308.1	309.5	271.2
EPS p/share	72.5	74.3	74.9	65.7

The reconciliation between 2005 statutory and underlying results is set out in note 2 of the Preliminary Results (page 28 statutory results, page 48 proforma results).

Underlying 2005 profit before tax of £504.6 million represents an increase of 14.3% over 2004 proforma profit before tax, with underlying attributable profit rising by 13.6% to £308.1 million. Compared with the 2004 statutory results, 2005 statutory profit before tax of £494.2 million represents an increase of 13.5% over the equivalent figure for 2004 and an increase of 11.9% over the 2004 proforma figure

Return on equity for 2005 was 20.8% on an underlying basis and 19.3% on a statutory basis compared with 20.9% in 2004 on a proforma basis and 21.6% on a statutory basis.

Whinstone Transaction

In November 2005, Northern Rock completed its first Whinstone transaction transferring around 80% of the reserve fund risk relating to pre 2005 Granite residential mortgage securitisations to third party investors, therefore reducing the potential exposure to downturn credit risk. The transaction reduces the level of core capital required under credit rating assessments of required capital as well as the regulatory capital deduction in respect of the reserve funds, thereby enhancing capital efficiency and more closely aligning regulatory and credit rating capital; an important step in advance of Basle II. By retaining a small portion of the first loss, Northern Rock continues to align the interests of securitisation investors and the Company and demonstrates its confidence in the credit performance of the mortgage portfolios.

Net interest income, total income and pre tax profits were affected by the interest cost of this transaction for two months in 2005 and will be affected on a full year basis thereafter. This additional cost will be largely offset by savings in appropriations due to not having to raise subordinated debt to support securitisation capital deductions. Underlying attributable profits will therefore not be significantly affected by this transaction.

Whinstone Transaction (continued)

Following the announcement of the transaction Standard & Poor's changed the Northern Rock senior unsecured credit rating outlook from neutral to positive. The £423 million transaction, included within securitised notes in issue, is by far the largest transaction of its type ever completed in the international markets and has been awarded European Securitisation deal of the year by IFR magazine. It is our intention to continue to utilise this type of transaction on an ongoing basis.

Dividends

In line with our dividend policy of a payout ratio of approximately 40% of sustainable underlying attributable profits, cover of 2.5 times, the proposed final dividend is 20.7p per share payable on 26 May 2006 to shareholders on the register on 28 April 2006. This, combined with the interim dividend of 9.4p, results in a total dividend for 2005 of 30.1p per share, an increase of 13.6% over the 2004 total dividend of 26.5 pence per share.

Capital

At 31 December 2005, total capital amounted to £3,224 million resulting in a total capital ratio of 12.3%, comfortably above regulatory and internal requirements. Tier 1 capital was £2,033 million and the Tier 1 ratio 7.7%. The restated equivalent ratios at 31 December 2004 on a statutory basis were 14.0% and 8.7% and on a proforma basis were 13.5% and 8.0% respectively.

In December 2005, we submitted our application seeking waiver from the FSA to permit us to adopt the Retail Internal Ratings Based approach to Basle II, which is planned to commence on 1 January 2007. We intend to initially adopt the Standardised Approach to Operational Risk.

Our low risk balance sheet means that we expect to achieve significant reductions in the levels of our total regulatory risk weighted assets for credit exposures compared to current levels. This should result, subject to consultation with the FSA and credit rating agencies, in future capital efficiencies. In the first three years of the operation of Basle II, transitional arrangements will apply such that any capital relief will be introduced gradually with a potential maximum 20% reduction in capital by the end of the transition period.

Pension Fund

Whilst almost fully funded on an actuarial basis, the average deficit of the Northern Rock Pension Fund throughout 2005 using the IAS19 basis of calculation was £65.0 million. At the end of 2005, this deficit would have grown to around £74.4 million without corrective action, reflecting in particular volatility arising from the use of point in time assumptions about return on assets and discount rates. The defined benefit element of the fund is a closed fund, and as we get closer to the end of the fund's life, the IAS19 deficit will become realised. Consequently, we have decided to eliminate the average 2005 deficit. This has been achieved by an initial additional contribution of £20.0 million in December 2005, with the balance of £45.0 million paid in January 2006.

As a result of the above, the IAS 19 deficit at 31 December 2005 is £54.4 million, which reduces by £45.0 million to £9.4 million after the payments made in January 2006. The impact of these contributions will be minimal on the Group's earnings but will reduce the risk of significant increases in pension cost in the future.

Outlook

We expect UK gross residential lending in 2006 to be similar to 2005 at around £300 billion, underpinned by a stable housing market and sustained remortgage activity. Economic conditions will remain fundamentally supportive, with interest rates remaining low during 2006.

Following two years of growth of assets at the top of our strategic range of 20% + / - 5% we intend that over the next two to three years the rate of growth of assets will move to the centre of the range, assisting both operational and capital efficiency. Also as income deferred under IFRS is recognised in the income statement and margins stabilise we expect to see underlying earnings growth move back to at least the centre of our strategic range of 15% + / - 5%. Our strategic target for return on equity of 19% to 22% is also confirmed.

Cost efficiency ratios should continue to improve as cost growth returns to below income growth and at the lower end of the target of one half to two thirds of asset growth despite continuing our usual policy of investing in new infrastructure for the future.

Risk management and credit quality remains paramount to Northern Rock's business, which will remain dominated by good quality prime residential mortgages. Whilst the extremely benign credit conditions of the last few years are unlikely to continue they are not expected to deteriorate significantly. This, together with increased focus on arrears management and sound provisioning policies, should ensure that loan loss impairment provisions will not increase markedly.

Capital efficiency will continue to benefit from further sales of securitisation reserve fund risk and in the future by the reduction in capital risk weightings under Basle II.

Our business model remains on track to deliver all of our strategic targets in terms of asset and profit growth, returns on equity and cost efficiency. This will benefit employees, customers and shareholders.

Notes

1. 2004 ratios have been restated to reflect the impact of IFRS. Profit growth ratios for 2004 have not been calculated as 2003 results have not been restated under IFRS.

2. Balance sheet growth in 2005 represents the growth in balance sheet assets between 31 December 2004 and 31 December 2005.

3. Post tax returns are calculated by reference to profit attributable to equity shareholders.

NOTES TO THE STATUTORY RESULTS

1. Basis of Preparation

The 2005 Preliminary Results have been prepared using International Financial Reporting Standards ("IFRS") as approved by the International Accounting Standards Board that, under European Regulations, are effective or available for early adoption at the Group's first reporting date under IFRS, 31 December 2005. The accounting policies adopted for use in the preparation of the 2005 Preliminary Results and for the 2005 Annual Financial Statements were included in the Interim Results released on 28 July 2005. The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses.

2. Underlying Results

Underlying results for 2005 are reconciled to the IFRS statutory results in the following table.

	Profit before taxation	Profit for the year	Profit attributable to equity shareholders
	£m	£m	£m
IFRS statutory results	494.2	349.3	300.7
Underlying net hedge ineffectiveness and other unrealised fair value gains and losses (note 5)	10.9	10.9	10.9
Impact of covenant to The Northern Rock Foundation	(0.5)	(0.5)	(0.5)
Associated taxation		(3.0)	(3.0)
Underlying results	504.6	356.7	308.1

Underlying results include the interest related fair value movements on forward exchange contracts and exclude the hedge accounting ineffectiveness on derivatives where fair value hedge accounting has been obtained, together with gains and losses on non-hedging derivatives excluding interest flows to the extent that these are not offset by translation gains and losses on underlying instruments in economic hedging relationships.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

3. Total Income

	2005 £m	2004 £m
Reported total income	824.9	719.2
Adjustment:		
Underlying net hedge ineffectiveness and other unrealised fair value gains and losses (note 5)	10.9	
Underlying total income	835.8	
Mean total assets	73,794.7	58,414.7
Mean total assets (underlying)	72,968.8	n/a
Mean risk weighted assets	24,663.4	21,336.7
Underlying total income : mean total assets (underlying)	1.15%	n/a
Underlying total income : mean risk weighted assets	3.39%	n/a
Total income : mean total assets	1.12%	1.23%
Total income : mean risk weighted assets	3.34%	3.37%

Underlying total income includes the interest related fair value movements on forward exchange contracts and excludes the hedge accounting ineffectiveness on derivatives where fair value hedge accounting has been obtained, together with gains and losses on non-hedging derivatives excluding interest flows to the extent that these are not offset by translation gains and losses on underlying instruments in economic hedging relationships.

Underlying total assets exclude the effect of fair value adjustments.

4. Net Interest Income

Interest margin has been calculated by reference to average interest earning assets excluding fair value adjustments. For assets denominated in foreign currencies, where these have been economically hedged, average balances are based on the contract rate implicit in the associated hedging instrument. Average balances have been calculated on a monthly basis.

Interest spread represents the difference between interest receivable as a % of average interest earning assets, excluding fair value adjustments, and interest payable as a % of average interest bearing liabilities, excluding fair value adjustments. For assets and liabilities denominated in foreign currencies, where these have been economically hedged, average balances are based on the contract rate implicit in the associated hedging instrument.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

4. Net Interest Income (continued)

	2005 £m	2004 £m
Interest income		
Secured advances	3,220.2	2,303.4
Other lending	337.0	323.5
Investment securities and deposits	499.5	362.5
	4,056.7	2,989.4
Interest expense		
Retail customer accounts	841.7	689.7
Other deposits and loans	2,398.7	1,714.5
Subordinated liabilities	53.7	85.5
Reserve capital instruments	(3.7)	19.8
Tier one notes	14.0	13.0
Interest expense as reported	3,304.4	2,522.5
Interest implicit in forward foreign exchange contracts	45.5	
Underlying interest expense	3,349.9	
Net interest income as reported	752.3	466.9
Underlying net interest income	706.8	
Average interest earning assets excluding fair value adjustments	72,730.0	57,071.3
Average interest bearing liabilities excluding fair value adjustments	70,250.7	56,008.9
Underlying interest margin	0.97%	n/a
Underlying interest spread	0.81%	n/a
Interest margin as reported	1.03%	0.82%
Interest spread as reported	0.87%	0.73%

Interest implicit in forward exchange contracts represents the difference between the sterling cost implicit from the exchange contract and the currency coupon on the foreign currency liability translated at spot exchange rates. This is regarded as the interest element of the forward exchange contract. The remainder of the contract is the difference between the full fair value of the contract and the interest element of the contract and represents the currency fair value element of the contract.

The full fair value of foreign exchange contracts, including both the interest and currency elements, is included in "Net hedge ineffectiveness and other unrealised fair value gains and losses" in the statutory results (note 5).

Included within interest income is an adjustment of £3.3m with respect to the unwind of the discount included in the impairment allowance under IFRS.

NOTES TO THE STATUTORY RESULTS (CONTINUED)

5. Net Hedge Ineffectiveness and Other Unrealised Fair Value Gains and Losses

	2005 £m	2004 £m
Fair value movements of future cashflows excluding interest flows on non-hedging derivatives	1,675.6	-
Translation gains and losses on underlying instruments	(1,693.7)	-
	(18.1)	-
Net hedge ineffectiveness excluding interest flows on fair value hedges	(38.3)	-
Net hedge ineffectiveness and other unrealised fair value gains and losses	(56.4)	-
Interest implicit in forward exchange contracts (note 4)	45.5	-
Underlying net hedge ineffectiveness and other unrealised fair value gains and losses	(10.9)	-

The Group enters into certain derivative financial instruments which although highly effective as economic hedges are not included in hedge accounting relationships. These derivatives include hedges on certain foreign currency assets and wholesale funding recorded at amortised cost and instruments included within non shareholders' funds, forward currency contracts and previously effective hedges which no longer meet the hedge accounting criteria and consequently have been de-designated.

The fair value movements of future cashflows excluding interest flows on such derivatives are separately identified within "Net hedge ineffectiveness and other unrealised fair value gains and losses", together with the translation gains and losses on underlying instruments arising from the revaluation from foreign currency into sterling. The deemed interest flows on such derivatives are included within interest income or expense, as appropriate.

Net hedge ineffectiveness excluding interest flows on fair value hedges represents the difference between changes in the fair value of future cashflows excluding interest flows of the hedging derivatives and the changes in the fair value of future cashflows excluding interest flows of the underlying hedged items.

6. Operating Expenses

Operating expenses excluding the covenant to The Northern Rock Foundation are as follows:

	2005 £m	2004 £m
Staff costs	144.5	119.6
Other expenses	81.6	80.5
Depreciation and amortisation	23.3	18.2
Total operating expenses	249.4	218.3

The average number of persons employed by the Group was as follows:

	2005	2004
Full time	4,569	3,916
Part time	1,210	1,064

NOTES TO THE STATUTORY RESULTS (CONTINUED)

7. Interest Incentives and Fees

Included within the consolidated balance sheet are the following:

	Mortgage incentives £m	Fees receivable £m	Fees payable £m
Balance at 1 January 2004	236.9	(13.2)	108.4
Amounts charged / paid	482.5	-	112.5
Released in the year	(440.1)	5.3	(37.1)
Balance at 31 December 2004	279.3	(7.9)	183.8
Balance at 31 December 2004	279.3	(7.9)	183.8
Adoption of IAS 39	33.5	(230.3)	(29.5)
Balance at 1 January 2005	312.8	(238.2)	154.3
Amounts charged / paid	637.2	(212.3)	132.4
Released in the year	(531.6)	158.5	(95.3)
Balance at 31 December 2005	418.4	(292.0)	191.4

8. Impairment Losses on Loans and Advances

	2005 £m	2004 £m
Impairment charge:		
Secured on residential property	7.0	(0.5)
Secured commercial	(7.1)	0.7
Unsecured	56.7	48.3
Total impairment charge	56.6	48.5
% of mean advances to customers	0.09%	0.10%

	2005 £m	2004 £m
Impairment allowance		
Secured on residential property	32.5	36.3
Secured commercial	4.7	12.2
Unsecured	87.1	78.4
Total impairment allowance	124.3	126.9
% of year end advances to customers	0.18%	0.23%

NOTES TO THE STATUTORY RESULTS (CONTINUED)

9. Residential Mortgage Arrears

	2005		2004	
	Cases	%	Cases	%
3 – 6 months	2,035	0.31	1,695	0.29
Over 6 – 12 months	540	0.08	422	0.07
Over 12 months	16	-	18	0.01
Total	2,591	0.39	2,135	0.37

10. Dividends

The following tables analyse dividends when paid and the year to which they relate.

	2005 pence per share	2004 pence per share
2003 final dividend	-	15.8
2004 interim dividend	-	8.5
2004 final dividend	18.0	-
2005 interim dividend	9.4	-
	27.4	24.3

The proposed final dividend in respect of 2005 amounts to 20.7 pence per share (£86.4 million). These Annual Results do not reflect this dividend payable.

	2005 £m	2004 £m
2003 final dividend	-	66.2
2004 interim dividend	-	35.2
2004 final dividend	74.7	-
2005 interim dividend	39.2	-
Less paid to ESOP trusts	(0.1)	(0.8)
	113.8	100.6

NOTES TO THE STATUTORY RESULTS (CONTINUED)

11. Earnings per Share

Earnings per share figures based upon reported (basic) and underlying profit on ordinary activities attributable to equity shareholders (see note 2) are as follows:

	2005	2004
Weighted average number of shares in issue	414.6m	413.0m
Basic EPS	72.5p	74.9p
Underlying EPS	74.3p	n/a

The weighted average number of Ordinary shares in issue has been determined after deducting shares held in trust for employee share schemes.

Diluted weighted average number of shares in issue	417.9m	416.6m
Diluted EPS	72.0p	74.3p
Underlying diluted EPS	73.7p	n/a

The fully diluted EPS figures are calculated using the weighted average number of Ordinary shares in issue together with 3.3 million (31 December 2004: 3.6 million) potentially dilutive Ordinary shares resulting from options granted under employee share schemes.

Foundation shares held by The Northern Rock Foundation have been excluded from the EPS calculations as they carry no rights to dividends. The Foundation shares can convert into Ordinary shares only under specified circumstances which are considered to be remote. If conversion were to take place the shares would rank for dividend but the covenant to the Foundation would cease.

12. Mortgage Lending

The following analysis of mortgage lending is based on total gross lending in each year.

	2005 %	2004 %
Type of lending		
Fixed rate (long term – over 2 years)	29	8
Fixed rate (short term – up to and including 2 years)	25	46
Discount	8	16
Cashback	1	1
Together	29	21
Lifetime	1	2
Buy to Let	7	6
Type of customer		
First time buyer	24	21
Next time buyer	39	42
Remortgage	37	37
Geographic spread		
North	15	15
Scotland	10	10
Midlands	25	24
South	50	51

NOTES TO THE STATUTORY RESULTS (CONTINUED)

13. Loans and Advances to Customers

	2005 £m	2004 £m
Advances secured on residential property not subject to securitisation	24,064.5	27,000.7
Advances secured on residential property subject to securitisation	38,356.3	21,661.1
Advances secured on residential property	62,420.8	48,661.8
Commercial secured advances not subject to securitisation	743.5	1,278.1
Commercial secured advances subject to securitisation	779.8	238.4
Total other secured advances	1,523.3	1,516.5
Unsecured loans not subject to securitisation	5,788.6	4,581.4
Unsecured investment loans	507.2	9.1
	70,239.9	54,768.8

14. Covered Bonds

Included within loans and advances to customers not subject to securitisation are £4,686.1 million of mortgage advances assigned to a bankruptcy remote special purpose vehicle. These loans provide security to issues of covered bonds made by Northern Rock, which are included within debt securities in issue amounting to £3,830.4 million (31 December 2004 - £1,339.0 million). Northern Rock retains substantially all the risks and rewards associated with these loans and therefore these transactions do not qualify for derecognition under IAS 39.

15. Analysis of Customer Accounts

	2005 £m	2004 £m
Branch accounts	5,114.7	3,084.4
Postal accounts	8,714.3	7,554.5
Internet accounts	2,047.9	2,503.4
Offshore accounts	2,965.4	2,499.4
Telephone accounts	698.6	896.3
Legal & General branded accounts	563.5	752.2
Total retail balances	20,104.4	17,290.2
Other customer accounts	3,568.2	3,103.5
	23,672.6	20,393.7

NOTES TO THE STATUTORY RESULTS (CONTINUED)

16. Own Shares

The credit to retained earnings in respect of movements on own shares for the year is as follows:

	2005 £m	2004 £m
Employee share schemes - value of employee services	10.8	7.9
Cash received on exercise of employee options and for other employee share plans	16.3	3.4
Tax impact of share based payments	0.8	3.6
Purchase of shares	(10.2)	(6.0)
	17.7	8.9

17. Other Reserves

Other reserves comprise:

	2005 £m	2004 £m
Revaluation reserve – available-for-sale investments (a)	26.0	-
Hedging reserve – cash flow hedges (b)	-	-
Pension reserve (c)	(14.9)	(2.0)
	11.1	(2.0)

Movements in reserves are as follows:

(a) Revaluation reserve – available-for-sale investments

	£m
Balance at 31 December 2004	-
Adoption of IAS 39	27.0
Balance at 1 January 2005	27.0
Net gains from changes in fair value	21.3
Associated deferred income taxes	(5.7)
Net profits on disposal transferred to net income	(23.5)
Associated deferred income taxes	6.9
Balance at 31 December 2005	26.0

(b) Hedging reserve – cash flow hedges

	£m
Balance at 31 December 2004	-
Adoption of IAS 39	8.8
Balance at 1 January 2005	8.8
Net losses from changes in fair value	(12.5)
Associated deferred income taxes	3.7
Balance at 31 December 2005	-

NOTES TO THE STATUTORY RESULTS (CONTINUED)

17. Other Reserves (continued)

(c) Pension reserve

	£m
Balance at 31 December 2004	(2.0)
Total loss recognised in the Statement of Recognised Income and Expense in the year	(18.5)
Associated income taxes	5.6
Balance at 31 December 2005	(14.9)

18. Capital Structure

	2005 £m	2004 £m
Tier 1		
Share capital	123.9	123.9
Share premium account	6.8	6.8
Capital redemption reserve	7.3	7.3
Retained earnings	1,426.5	1,401.6
Pension scheme	23.1	34.8
Reserve capital instruments	299.3	300.0
Tier one notes	223.9	200.0
Goodwill and intangible assets	(78.2)	(73.1)
Total Tier 1 capital	2,032.6	2,001.3
Upper Tier 2		
Perpetual subordinated debt	736.5	746.4
Collectively assessed impairment allowances	119.0	83.1
Total Upper Tier 2 capital	855.5	829.5
Lower Tier 2		
Term subordinated debt	785.3	769.3
Total Tier 2 capital	1,640.8	1,598.8
Deductions	(449.8)	(374.7)
Total capital	3,223.6	3,225.4
Risk weighted assets	26,295.9	23,030.9
Tier 1 ratio (%)	7.7%	8.7%
Total capital (%)	12.3%	14.0%

19. Dividend

The relevant dates for the 2005 final dividend are as follows:

Ex dividend date	26 April 2006
Record date	28 April 2006
Payment date	26 May 2006

NOTES TO THE STATUTORY RESULTS (CONTINUED)

20. Other Information

The information in this announcement is unaudited and does not constitute statutory accounts within the meaning of section 240 of the Companies Act 1985. The statutory accounts of Northern Rock plc for the year ended 31 December 2004 have been filed with the Registrar of Companies in England and Wales. The auditors' report on these accounts was unqualified and did not include a statement under section 237(2) or (3) of the Act.

A summary of this report will appear as an advertisement in the Financial Times, The Times, The Daily Telegraph, The Scotsman and The Newcastle Journal on 26 January 2006. The report will also be available on the Northern Rock website www.northernrock.co.uk from 8.30am on 25 January 2006.

A presentation of the results will be given by directors on the morning of the results announcement. A live web cast of the presentation will be available on the Northern Rock website on 25 January 2006 from 9.30am. A recording of this web cast will subsequently be available on the Northern Rock website from 3.00 pm on 25 January 2006.

21. Significant Accounting Policies

The Group's key accounting policies under IFRS which differ from UK GAAP will be included in the full 2005 Annual Financial Statements and were set out in the Interim Results for the 6 months ended 30 June 2005 issued on 28 July 2005. Copies of the Interim Results are available on the Group's website at www.northernrock.co.uk.

22. Reconciliations Between IFRS and UK GAAP

Full details of the impact of the Group's implementation of IFRS will be included in the full 2005 Annual Financial Statements and were published in the Group's Interim Results for the 6 months ended 30 June 2005 issued on 28 July 2005. Copies of the Interim Results are available on the Group's website at www.northernrock.co.uk.

This document contains certain forward-looking statements with respect to certain of the plans of Northern Rock, its current goals and expectations relating to its future financial condition and performance. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. Northern Rock's actual future results may differ materially from the results expressed or implied in these forward-looking statements as a result of a variety of factors, including UK domestic and global economic and business conditions, market related risk such as interest rates and exchange rates, delays in implementing proposals, unexpected difficulties with computer systems, unexpected changes to regulation, changes in customer preferences, competition and other factors.

ANNUAL RESULTS

YEAR ENDED 31 DECEMBER 2005

PROFORMA INFORMATION

In order to aid comparability of the 2005 results with those of 2004, the following pages show the 2004 results on a proforma basis, incorporating to the extent described in detail on page 48, the impact of IFRS. In particular, the proforma results include the impacts of changes to accounting rules relating to effective interest rate and the reclassification of certain financial instruments from debt to equity but excludes the effects of hedge accounting under IFRS, which differs from that applied under UK GAAP.

The 2005 statutory results include the full effects of the introduction of fair value and hedge accounting following the introduction of IAS 32 and IAS 39 with effect from 1 January 2005. Certain elements of the results for 2005 are also presented excluding the effects of fair value volatility and hedge ineffectiveness to provide management's view of the underlying performance of the Group.

THIS PAGE LEFT INTENTIONALLY BLANK

FINANCIAL HIGHLIGHTS – PROFORMA

Notes

1. 2005 underlying ratios are based upon underlying results (note 2), underlying total income (note 3) and underlying net interest income (note 4).

2. 2004 ratios have been restated to reflect the impact of IFRS. Profit growth ratios for 2004 have not been calculated as 2003 results have not been restated under IFRS.

3. Balance sheet growth in 2005 represents the growth in balance sheet assets between 31 December 2004 and 31 December 2005. Underlying balance sheet growth excludes the impact of fair value adjustments.

4. Post tax returns are calculated by reference to profit attributable to equity shareholders.

NOTES TO THE PROFORMA RESULTS

1. Basis of Preparation

To enable a more meaningful presentation of results, in addition to the statutory comparatives for the 2004 accounts, proforma comparatives have been prepared and are set out on pages 44 to 57. These show how the 2004 results would have looked, assuming the full application of IAS 32, and the application of IAS 39 excluding the fair value accounting volatility. The Group has not shown the full impacts from all the IAS 39 accounting rules as hedges and financial assets to be fair valued were only designated and documented from 1 January 2005.

2. Underlying Results

Underlying results for 2005 are reconciled to the reported results in the following table.

	Profit before taxation £m	Profit for the year £m	Profit attributable to equity shareholders £m
Reported results	494.2	349.3	300.7
Underlying net hedge ineffectiveness and other unrealised fair value gains and losses (note 5)	10.9	10.9	10.9
Impact of covenant to The Northern Rock Foundation	(0.5)	(0.5)	(0.5)
Associated taxation		(3.0)	(3.0)
Underlying results	504.6	356.7	308.1

Underlying results include the interest related fair value movements on forward exchange contracts and exclude the hedge accounting ineffectiveness on derivatives where fair value hedge accounting has been obtained, together with gains and losses on non-hedging derivatives excluding interest flows to the extent that these are not offset by translation gains and losses on underlying instruments in economic hedging relationships.

NOTES TO THE PROFORMA RESULTS (CONTINUED)

3. Total Income

	2005 £m	2004 £m
Reported total income	824.9	724.5
Adjustment:		
Underlying net hedge ineffectiveness and other unrealised fair value gains and losses (note 5)	10.9	
Underlying total income	835.8	
Mean total assets	73,709.5	58,260.6
Mean total assets (underlying)	72,883.6	n/a
Mean risk weighted assets	24,530.3	21,100.1
Underlying total income : mean total assets (underlying)	1.15%	n/a
Underlying total income : mean risk weighted assets	3.41%	n/a
Reported total income : mean total assets	1.12%	1.24%
Reported total income : mean risk weighted assets	3.36%	3.43%

Underlying total income includes the interest related fair value movements on forward exchange contracts and excludes the hedge accounting ineffectiveness on derivatives where fair value hedge accounting has been obtained, together with gains and losses on non-hedging derivatives excluding interest flows to the extent that these are not offset by translation gains and losses on underlying instruments in economic hedging relationships.

Underlying total assets exclude the effect of fair value adjustments.

4. Net Interest Income

Interest margin has been calculated by reference to average interest earning assets excluding fair value adjustments. For assets denominated in foreign currencies, where these have been economically hedged, average balances are based on the contract rate implicit in the associated hedging instrument. Average balances have been calculated on a monthly basis.

Interest spread represents the difference between interest receivable as a % of average interest earning assets, excluding fair value adjustments, and interest payable as a % of average interest bearing liabilities, excluding fair value adjustments. For assets and liabilities denominated in foreign currencies, where these have been economically hedged, average balances are based on the contract rate implicit in the associated hedging instrument.

NOTES TO THE PROFORMA RESULTS (CONTINUED)

4. Net Interest Income (continued)

	2005 £m	2004 £m
Interest income		
Secured advances	3,220.2	2,397.5
Other lending	337.0	317.1
Investment securities and deposits	499.5	359.7
	4,056.7	3,074.3
Interest expense		
Retail customer accounts	841.7	689.7
Other deposits and loans	2,398.7	1,714.5
Subordinated liabilities	53.7	49.8
Reserve capital instruments	(3.7)	(5.4)
Tier one notes	14.0	13.0
Interest expense as reported	3,304.4	2,461.6
Interest implicit in forward foreign exchange contracts	45.5	
Underlying interest expense	3,349.9	
Net interest income as reported	752.3	612.7
Underlying net interest income	706.8	
Average interest earning assets excluding fair value adjustments	72,730.0	57,222.3
Average interest bearing liabilities excluding fair value adjustments	70,250.7	55,111.8
Underlying interest margin	0.97%	n/a
Underlying interest spread	0.81%	n/a
Interest margin as reported	1.03%	1.07%
Interest spread as reported	0.87%	0.91%

Interest implicit in forward exchange contracts represents the difference between the sterling cost implicit from the exchange contract and the currency coupon on the foreign currency liability translated at spot exchange rates. This is regarded as the interest element of the forward exchange contract. The remainder of the contract is the difference between the full fair value of the contract and the interest element of the contract and represents the currency fair value element of the contract.

The full fair value of foreign exchange contracts including both the interest and currency elements is included in "Net hedge ineffectiveness and other unrealised fair value gains and losses" in the reported results (note 5).

Included within interest income is an adjustment of £3.3m with respect to the unwind of the discount included in the impairment allowance under IFRS.

NOTES TO THE PROFORMA RESULTS (CONTINUED)

5. Net Hedge Ineffectiveness and Other Unrealised Fair Value Gains and Losses

	2005 £m	2004 £m
Fair value movements of future cashflows excluding interest flows on non-hedging derivatives	1,675.6	-
Translation gains and losses on underlying instruments	(1,693.7)	-
	(18.1)	-
Net hedge ineffectiveness excluding interest flows on fair value hedges	(38.3)	-
Net hedge ineffectiveness and other unrealised fair value gains and losses	(56.4)	-
Interest implicit in forward exchange contracts (note 4)	45.5	-
Underlying net hedge ineffectiveness and other unrealised fair value gains and losses	(10.9)	-

The Group enters into certain derivative financial instruments which although highly effective as economic hedges are not included in hedge accounting relationships. These derivatives include hedges on certain foreign currency assets and wholesale funding recorded at amortised cost and instruments included within non shareholders' funds, forward currency contracts and previously effective hedges which no longer meet the hedge accounting criteria and consequently have been de-designated.

The fair value movements of future cashflows excluding interest flows on such derivatives are separately identified within "Net hedge ineffectiveness and other unrealised fair value gains and losses", together with the translation gains and losses on underlying instruments arising from the revaluation from foreign currency into sterling. The deemed interest flows on such derivatives are included within interest income or expense, as appropriate.

Net hedge ineffectiveness excluding interest flows on fair value hedges represents the difference between changes in the fair value of future cashflows excluding interest flows of the hedging derivatives and the changes in the fair value of future cashflows excluding interest flows of the underlying hedged items.

6. Operating Expenses

Operating expenses excluding the covenant to The Northern Rock Foundation are as follows:

	2005 £m	2004 £m
Staff costs	144.5	119.6
Other expenses	81.6	79.1
Depreciation and amortisation	23.3	18.2
Total operating expenses	249.4	216.9

The average number of persons employed by the Group was as follows:

	2005	2004
Full time	4,569	3,916
Part time	1,210	1,064

NOTES TO THE PROFORMA RESULTS (CONTINUED)

7. Interest Incentives and Fees

Included within the consolidated balance sheet are the following:

	Mortgage incentives £m	Fees receivable £m	Fees payable £m
Balance at 1 January 2004	236.9	(13.2)	108.4
Adoption of IAS 39	2.9	(168.9)	(6.1)
	239.8	(182.1)	102.3
Amounts charged / paid	466.2	(184.5)	121.5
Released in the year	(393.2)	128.4	(69.5)
Balance at 31 December 2004	312.8	(238.2)	154.3
Balance at 31 December 2004	312.8	(238.2)	154.3
Amounts charged / paid	637.2	(212.3)	132.4
Released in the year	(531.6)	158.5	(95.3)
Balance at 31 December 2005	418.4	(292.0)	191.4

8. Impairment Losses on Loans and Advances

	2005 £m	2004 £m
Impairment charge:		
Secured on residential property	7.0	(0.5)
Secured commercial	(7.1)	0.7
Unsecured	56.7	48.3
Total impairment charge	56.6	48.5
% of mean advances to customers	0.09%	0.10%

	2005 £m	2004 £m
Impairment allowance		
Secured on residential property	32.5	36.3
Secured commercial	4.7	12.2
Unsecured	87.1	78.4
Total impairment allowance	124.3	126.9
% of year end advances to customers	0.18%	0.23%

NOTES TO THE PROFORMA RESULTS (CONTINUED)

9. Residential Mortgage Arrears

	2005		2004	
	Cases	%	Cases	%
3 – 6 months	2,035	0.31	1,695	0.29
Over 6 – 12 months	540	0.08	422	0.07
Over 12 months	16	-	18	0.01
Total	2,591	0.39	2,135	0.37

10. Dividends

The following tables analyse dividends when paid and the year to which they relate.

	2005 pence per share	2004 pence per share
2003 final dividend	-	15.8
2004 interim dividend	-	8.5
2004 final dividend	18.0	-
2005 interim dividend	9.4	-
	27.4	24.3

The proposed final dividend in respect of 2005 amounts to 20.7 pence per share (£86.4 million). These Annual Results do not reflect this dividend payable.

	2005 £m	2004 £m
2003 final dividend	-	66.2
2004 interim dividend	-	35.2
2004 final dividend	74.7	-
2005 interim dividend	39.2	-
Less paid to ESOP trusts	(0.1)	(0.8)
	113.8	100.6

NOTES TO THE PROFORMA RESULTS (CONTINUED)

11. Earnings per Share

Earnings per share figures based upon reported (basic) and underlying profit on ordinary activities attributable to equity shareholders (note 2) are as follows:

	2005	2004
Weighted average number of shares in issue	414.6m	413.0m
Basic EPS	72.5p	65.7p
Underlying EPS	74.3p	n/a

The weighted average number of Ordinary shares in issue has been determined after deducting shares held in trust for employee share schemes.

Diluted weighted average number of shares in issue	417.9m	416.6m
Diluted EPS	72.0p	65.1p
Underlying diluted EPS	73.7p	n/a

The fully diluted EPS figures are calculated using the weighted average number of Ordinary shares in issue together with 3.3 million (31 December 2004: 3.6 million) potentially dilutive Ordinary shares resulting from options granted under employee share schemes.

Foundation shares held by The Northern Rock Foundation have been excluded from the EPS calculations as they carry no rights to dividends. The Foundation shares can convert into Ordinary shares only under specified circumstances which are considered to be remote. If conversion were to take place the shares would rank for dividend but the covenant to the Foundation would cease.

12. Mortgage Lending

The following analysis of mortgage lending is based on total gross lending in each year.

	2005 %	2004 %
Type of lending		
Fixed rate (long term – over 2 years)	29	8
Fixed rate (short term – up to and including 2 years)	25	46
Discount	8	16
Cashback	1	1
Together	29	21
Lifetime	1	2
Buy to Let	7	6
Type of customer		
First time buyer	24	21
Next time buyer	39	42
Remortgage	37	37
Geographic spread		
North	15	15
Scotland	10	10
Midlands	25	24
South	50	51

NOTES TO THE PROFORMA RESULTS (CONTINUED)

13. Loans and Advances to Customers

	2005 £m	2004 £m
Advances secured on residential property not subject to securitisation	24,064.5	27,192.3
Advances secured on residential property subject to securitisation	38,356.3	21,661.1
Advances secured on residential property	62,420.8	48,853.4
Commercial secured advances not subject to securitisation	743.5	1,270.6
Commercial secured advances subject to securitisation	779.8	238.4
Total other secured advances	1,523.3	1,509.0
Unsecured loans not subject to securitisation	5,788.6	4,596.1
Unsecured investment loans	507.2	9.1
	70,239.9	54,967.6

14. Covered Bonds

Included within loans and advances to customers not subject to securitisation are £4,686.1 million of mortgage advances assigned to a bankruptcy remote special purpose vehicle. These loans provide security to issues of covered bonds made by Northern Rock, which are included within debt securities in issue amounting to £3,830.4 million (31 December 2004 - £1,339.0 million). Northern Rock retains substantially all the risks and rewards associated with these loans and therefore these transactions do not qualify for derecognition under IAS 39.

15. Analysis of Customer Accounts

	2005 £m	2004 £m
Branch accounts	5,114.7	3,084.4
Postal accounts	8,714.3	7,554.5
Internet accounts	2,047.9	2,503.4
Offshore accounts	2,965.4	2,499.4
Telephone accounts	698.6	896.3
Legal & General branded accounts	563.5	752.2
Total retail balances	20,104.4	17,290.2
Other customer accounts	3,568.2	3,103.5
	23,672.6	20,393.7

NOTES TO THE PROFORMA RESULTS (CONTINUED)

16. Own Shares

The credit to retained earnings in respect of movements on own shares for the year is as follows:

	2005 £m	2004 £m
Employee share schemes - value of employee services	10.8	7.9
Cash received on exercise of employee options and for other employee share plans	16.3	3.4
Tax impact of share based payments	0.8	3.6
Purchase of shares	(10.2)	(6.0)
	17.7	8.9

17. Other Reserves

Other reserves comprise:

	2005 £m	2004 £m
Revaluation reserve – available-for-sale investments (a)	26.0	-
Hedging reserve – cash flow hedges (b)	-	-
Pension reserve (c)	(14.9)	(2.0)
	11.1	(2.0)

Movements in reserves are as follows:

(a) Revaluation reserve – available-for-sale investments

	£m
Balance at 31 December 2004	-
Adoption of IAS 39	27.0
Balance at 1 January 2005	27.0
Net gains from changes in fair value	21.3
Associated deferred income taxes	(5.7)
Net profits on disposal transferred to net income	(23.5)
Associated deferred income taxes	6.9
Balance at 31 December 2005	26.0

(b) Hedging reserve – cash flow hedges

	£m
Balance at 31 December 2004	-
Adoption of IAS 39	8.8
Balance at 1 January 2005	8.8
Net losses from changes in fair value	(12.5)
Associated deferred income taxes	3.7
Balance at 31 December 2005	-

NOTES TO THE PROFORMA RESULTS (CONTINUED)

Lower Tier 2		
Term subordinated debt	785.3	769.3
Total Tier 2 capital	1,640.8	1,624.8
Deductions	(449.8)	(374.7)
Total capital	3,223.6	3,076.7
Risk weighted assets	26,295.9	22,764.7
Tier 1 ratio (%)	7.7%	8.0%
Total capital (%)	12.3%	13.5%

19. Reconciliations Between Proforma IFRS and UK GAAP

Full details of the impact of the Group's implementation of IFRS will be included in the full 2005 Annual Financial Statements and were published in the Group's Interim Results for the 6 months ended 30 June 2005 issued on 28 July 2005. Copies of the Interim Results are available of the Group's website at www.northernrock.co.uk.

This document contains certain forward-looking statements with respect to certain of the plans of Northern Rock, its current goals and expectations relating to its future financial condition and performance. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. Northern Rock's actual future results may differ materially from the results expressed or implied in these forward-looking statements as a result of a variety of factors, including UK domestic and global economic and business conditions, market related risk such as interest rates and exchange rates, delays in implementing proposals, unexpected difficulties with computer systems, unexpected changes to regulation, changes in customer preferences, competition and other factors.

OFFERING CIRCULAR

US$20,000,000,000

northern rock

NORTHERN ROCK PLC

RECEIVED
2006 SEP 21 A 9:11
OFFICE OF INTERNATIONAL
CORPORATE FINANCE

(incorporated with limited liability in England and Wales under the Companies Act 1985)

Senior/Subordinated Medium-Term Notes

Due Nine Months or More from Date of Issue

Northern Rock plc ("**Northern Rock**") may issue at various times up to US$20,000,000,000 aggregate principal amount outstanding at any time of Medium-Term Notes (the "**Notes**") denominated in US dollars or in other currencies or composite currencies. The Notes are being offered on a continuous basis to or through the Dealers named below only to institutional accredited investors and qualified institutional buyers as described in this Offering Circular under "Plan of Distribution". Northern Rock will agree with any Dealer as to the terms of the Notes to be issued. With respect to Notes to be listed on the Euro MTF market (the "**Euro MTF**"), a market regulated by the Luxembourg Stock Exchange, such terms will be set forth in a form of final terms set out herein, or where such terms differ significantly from the form of final terms set out herein, or are not otherwise contemplated thereby, in a form of securities note agreed to among the parties at that time and approved by the Luxembourg Stock Exchange or any applicable stock exchange. As used in this Offering Circular in relation to any listed Notes, the term "**Final Terms**" shall refer to include any and all such final terms or securities notes. For unlisted Notes, such terms shall be set forth in a form of pricing supplement in a form to be agreed by the parties (the "**Pricing Supplement**"). Unless otherwise provided in a Final Terms or Pricing Supplement, Notes may be issued with the following terms:

- **Maturity Date**: The Notes, other than Perpetual Subordinated Notes, will mature in nine months or more from the date of issue.
- **Status**: Each tranche of Notes may be issued as either Senior Notes or Subordinated Notes. Subordinated Notes may be issued with a stated maturity date ("**Dated Subordinated Notes**") or without a stated maturity date ("**Perpetual Subordinated Notes**"), each as further described in this Offering Circular.
- **Redemption or Repayment Option**: Notes, other than Perpetual Subordinated Notes, may be subject to redemption or repayment at the option of Northern Rock or at the option of the holder.
- **Interest Rate Basis**: The Notes will bear interest at either a fixed or a floating rate. The floating rate formula may be based on the CD Rate, CMT Rate, Commercial Paper Rate, Eleventh District Cost of Funds Rate, Federal Funds Rate, LIBOR, EURIBOR, Prime Rate, Treasury Rate, or such other basis as is described in an applicable Final Terms or Pricing Supplement, as the case may be. Each of those rates is described under "Description of the Notes" in this Offering Circular.
- **Other Features**: The Notes may also be issued as discount notes, indexed notes or amortizing notes.
- **Form**: Senior Notes will be issued as Global Notes in fully registered form without coupons or as fully registered Certificated Notes. Subordinated Notes will be issued as Global Notes in bearer form and will be represented by Global Receipts in fully registered form without coupons.
- **Denomination**: The Notes generally will have minimum denominations of US$100,000 and integral multiples of US$1,000 in excess of such minimum denomination (or the equivalent of such amount in other currencies).
- **Interest Payment Dates**: Northern Rock will pay interest on the Notes on the dates specified in the applicable Final Terms or Pricing Supplement, as the case may be.

See "Risk Factors" commencing on page 19 for a discussion of certain risks that you should consider prior to making an investment in the Notes. The applicable Final Terms or Pricing Supplement, as the case may be, may describe additional risks you should consider.

Application has been made to the Luxembourg Stock Exchange for certain Notes issued under Northern Rock's US$20,000,000,000 Senior/Subordinated Medium-Term Note Program (the "**Program**") during the twelve months from the date of this Offering Circular to be listed on the Euro MTF and, consequently, this Offering Circular may be used for the purposes of listing Notes issued under the Program on the Euro MTF during such twelve-month period. This Offering Circular constitutes a base prospectus for the purposes of listing Notes on the Luxembourg Stock Exchange and trading Notes on the Euro MTF. It is generally anticipated that Senior Notes will be unlisted and that Subordinated Notes will be listed.

The Notes have not been, and will not be, registered under the US Securities Act of 1933, as amended (the "**Securities Act**"), or any state securities laws, and are being offered only to institutional investors that qualify as Accredited Investors (as defined in rule 501(a) under the Securities Act), to qualified institutional buyers (within the meaning of Rule 144A under the Securities Act) or in other transactions exempt from registration in accordance with Regulation S under the Securities Act and, in each case, in compliance with applicable securities laws.

Each initial and subsequent purchaser of a Note will be deemed, by its acceptance or purchase thereof, to have made certain acknowledgements, representations and agreements intended to restrict the resale or other transfer of such Note, as described in this Offering Circular, and, in connection therewith, may be required to provide confirmation of its compliance with such resale or other transfer restrictions in certain cases. See "Notice to Investors".

The Notes are offered on a continuing basis by Northern Rock to or through the Dealers. One or more Dealers may purchase Notes, as principal, from Northern Rock for resale to investors and other purchasers at varying prices relating to prevailing market prices as determined by any such Dealer at the time of resale or, if so agreed, at a fixed offering price. In addition, if agreed to by Northern Rock and a Dealer, such Dealer may utilize its reasonable efforts on an agency basis specified in the applicable Final Terms or Pricing Supplement, as the case may be. Northern Rock reserves the right to withdraw, cancel or modify the offering contemplated hereby without notice. Northern Rock, or a Dealer if it solicits an offer on an agency basis, may reject any offer to purchase Notes in whole or in part. See "Plan of Distribution".

No dealer, salesman or other person has been authorized to give any information or make any representation other than those contained in this Offering Circular and any amendment or supplement to this Offering Circular and, if given or made, such information or representation must not be relied upon as having been so authorized. This Offering Circular and any amendment or supplement to this Offering Circular do not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. Neither the delivery of this Offering Circular or any amendment or supplement to this Offering Circular nor any sale made under this Offering Circular shall, under any circumstances, create any implication that there has been no change in the affairs of Northern Rock since the date of this Offering Circular or any such amendment or supplement or that the information contained in this Offering Circular or in any such amendment or supplement is correct as of any time subsequent to the date of such information.

Northern Rock accepts responsibility for the information contained in this Offering Circular. To the best of the knowledge and belief of Northern Rock (which has taken all reasonable care to ensure that such is the case), the information contained in this Offering Circular is in accordance with the facts and does not omit anything likely to affect the import of such information.

IMPORTANT INFORMATION

Neither this Offering Circular nor any Final Terms nor any Pricing Supplement, as the case may be, constitutes an offer of, or an invitation by or on behalf of Northern Rock or by or on behalf of any Dealer to subscribe for or purchase, any of the Notes in any jurisdiction to any person to whom it is unlawful to make such an offer or solicitation in such jurisdiction. The distribution of this Offering Circular or any Final Terms or any Pricing Supplement, as the case may be, and the offering of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Offering Circular or any Final Terms or any Pricing Supplement, as the case may be, comes are required by the Dealers and Northern Rock to inform themselves about and to observe any such restrictions. For a further description of certain restrictions on the offering, sale and resale of the Notes, see "Plan of Distribution".

Each initial and subsequent purchaser of a Note will be deemed, by its acceptance or purchase of a Note, to have made certain acknowledgements, representations and agreements to and with Northern Rock and any applicable Dealer intended to restrict the resale or other transfer of such Note, as described in this Offering Circular, and, in connection therewith, may be required to provide confirmation of its compliance with such resale or other transfer restrictions in certain cases. See "Notice to Investors".

The information contained in this Offering Circular relating to Northern Rock was obtained from Northern Rock, and no assurance can be given by the Dealers as to the accuracy or completeness of such information. The Dealers make no representation or warranty, express or implied, as to the accuracy or completeness of the information contained in this Offering Circular. None of the information contained in this Offering Circular is, or should be relied upon as a promise or representation by the Dealers. In making an investment decision, investors must rely on their own examinations of Northern Rock and the terms of the offering, including the merits and risks involved.

All inquiries relating to Northern Rock, this Offering Circular and the offering contemplated herein should be directed to the Dealers.

Any purchaser of Notes must be able to bear the economic risk of an investment in such Notes for an indefinite period of time because the Notes have not been registered under the Securities Act. There is no undertaking to register the Notes under the Securities Act and they cannot be resold unless they are subsequently registered thereunder or an exemption from registration is available (including the exemption provided for in Rule 144A under the Securities Act).

The Notes have not been recommended by the US Securities and Exchange Commission (the "Securities and Exchange Commission"), any state securities commission or any other regulatory authority. Furthermore, the foregoing authorities have not passed upon or endorsed the merits of this offering or the accuracy or adequacy of this Offering Circular. Any representation to the contrary is a criminal offense.

This Offering Circular is submitted to a limited number of institutional accredited investors and qualified institutional buyers for informational use solely in connection with the consideration of the purchase of the Notes. Its use for any other purpose is not authorized. This Offering Circular may not be copied or reproduced in whole or in part nor may it be distributed or any of its contents disclosed to anyone other than the prospective investors to whom it is submitted. This Offering Circular may only be used for the purposes of which it has been published.

Neither the Dealers nor Northern Rock are making any representation to any offeree or purchaser of the Notes described herein regarding (a) the legality of investment therein by such offeree or purchaser under applicable legal investment or similar laws or regulations, or (b) the consequences of investment therein under United States federal tax laws or other taxation statutes. Prospective purchasers should consult with their own advisors as to issues of legal investment or taxation.

No person is authorized to give any information or to make any representation not contained in this Offering Circular and any information or representation not contained herein must not be relied upon as having been authorized by or on behalf of Northern Rock or the Dealers. The delivery of this Offering Circular at any time does not imply that the information herein is correct at any time subsequent to its date.

Northern Rock will, at the specified offices of the Paying Agents (as defined under "Description of the Notes"), provide, free of charge, upon the written request therefor, a copy of this Offering Circular (or any document incorporated by reference therein). Written requests for such documents should be directed to the specified office of any Paying Agent or the specified office of the Listing Agent in Luxembourg.

In connection with the issue and distribution of any tranche of Notes, the Dealer (if any) disclosed as stabilising manager in the applicable Final Terms or Pricing Supplement, as the case may be, or any person acting for him may over-allot or effect transactions with a view to supporting the market price of the Series (as defined herein) of which such tranche forms part at a level higher than that which might otherwise prevail for a limited period in accordance with applicable laws and regulations. However, there may be no obligation on the stabilising manager or any agent of his to do this. Such stabilising, if commenced, may be discontinued at any time and must be brought to an end after a limited period.

FOR NEW HAMPSHIRE RESIDENTS:

NEITHER THE FACT THAT A REGISTRATION STATEMENT OR AN APPLICATION FOR A LICENSE HAS BEEN FILED UNDER RSA 421-B WITH THE STATE OF NEW HAMPSHIRE NOR THE FACT THAT A SECURITY IS EFFECTIVELY REGISTERED, OR A PERSON IS LICENSED IN THE STATE OF NEW HAMPSHIRE CONSTITUTES A FINDING BY THE SECRETARY OF STATE THAT ANY DOCUMENT FILED UNDER RSA 421-B IS TRUE, COMPLETE AND NOT MISLEADING. NEITHER ANY SUCH FACT NOR THE FACT THAT AN EXEMPTION OR EXCEPTION IS AVAILABLE FOR A SECURITY OR TRANSACTION MEANS THAT THE SECRETARY OF STATE HAS PASSED IN ANY WAY UPON THE MERITS OR QUALIFICATIONS OF, OR RECOMMENDED OR GIVEN APPROVAL TO, ANY PERSON, SECURITY, OR TRANSACTION. IT IS UNLAWFUL TO MAKE, OR CAUSE TO BE MADE, TO ANY PROSPECTIVE PURCHASER, CUSTOMER OR CLIENT, ANY REPRESENTATION INCONSISTENT WITH THE PROVISIONS OF THIS PARAGRAPH.

FORWARD-LOOKING STATEMENTS

This Offering Circular includes forward-looking statements. Examples of such forward-looking statements include, but are not limited to: (i) expectations of drivers of net interest income, total income, profit, earnings per share, capital expenditures, dividends, capital structure or other financial items or ratios; (ii) statements of plans, objectives or goals of Northern Rock or its management for future operations, including those related to products or services; (iii) statements of future economic performance, including in particular any such statements included under the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations"; and (iv) statements of assumptions underlying such statements. Words such as "believes," "anticipates," "expects," "intends," "aims," and "plans" and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements.

Northern Rock has based any forward-looking statements herein on current expectations and projections about uncertain future events. Forward-looking statements are subject to risks, uncertainties and assumptions about Northern Rock. Although Northern Rock believes that the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements are reasonable, Northern Rock cautions readers that a number of important factors could cause actual results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. These factors include:

- inflation, interest rates, exchange rates, and market and monetary fluctuations;
- the effects of, and changes in, laws, regulations and government policy;
- the effects of competition in the geographic and business areas in which Northern Rock conducts operations;
- changes in consumer spending, saving and borrowing habits in the United Kingdom and in regions in which Northern Rock conducts operations;
- changes in the UK housing market, in the UK residential mortgage market and the UK retail deposit market;
- the effects of changes in taxation or accounting standards or practices;
- the ability to increase market share and control expenses;
- the timely development of and acceptance of new products and services of Northern Rock and the perceived overall value of these products and services by users;
- acquisitions, disposals and any other strategic transactions;
- the continued ability of Northern Rock to access wholesale funding sources and to further securitize loans;
- technological changes including those affecting European Economic and Monetary Union compliance; and
- Northern Rock's success at managing the risks of the foregoing.

Northern Rock cautions that the foregoing list of important factors is not exhaustive. Investors and others should carefully consider the foregoing factors and other uncertainties and events when making an investment decision based on any forward-looking statement. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this Offering Circular may not occur.

OFFERING OF MEDIUM-TERM NOTES

Merrill Lynch, Pierce, Fenner & Smith Incorporated, Citigroup Global Markets Inc., Lehman Brothers Inc. and Morgan Stanley & Co. Incorporated (collectively, the "**Dealers**") have been appointed by Northern Rock as Dealers for the offering from time to time of the Notes. The Notes will be limited to US$20,000,000,000 aggregate principal amount (or the equivalent of that amount in one or more other currencies or composite currencies) outstanding at any time, subject to increase without the consent of the registered holders of the Notes. The Notes have not been, and will not be, registered under the Securities Act, and are being offered pursuant to the exemption from registration provided by Section 4(2) thereof. Accordingly, the Notes are subject to restrictions on resale or other transfer. For a description of those restrictions, see "Notice to Investors".

Each initial purchaser of a Note will be furnished with a copy of this Offering Circular and each applicable amendment and supplement, including the Final Terms or Pricing Supplement, as the case may be, to this Offering Circular describing the terms related to such tranche of Notes. Unless the context otherwise requires, references to the "**Offering Circular**" are intended to include this Offering Circular, together with any amendments and supplements applicable to a particular tranche of Notes.

DOCUMENTS INCORPORATED BY REFERENCE

The following documents shall be deemed to be incorporated in, and to form part of, this Offering Circular:

(a) the most recent year-end audited consolidated financial statements and individual company balance sheet (as prepared and presented in accordance with applicable UK companies law and accounting practice) of Northern Rock, together with the auditors' reports thereon and all notes thereto, and any subsequent unaudited interim financial statements of Northern Rock; and

(b) all supplements and amendments to this Offering Circular circulated by Northern Rock from time to time;

save that any statement contained herein or in any document which is deemed to be incorporated by reference herein shall be deemed to be modified or superseded for the purposes of this Offering Circular to the extent that a statement contained in any such subsequent document which is deemed to be incorporated by reference herein modifies or supersedes such earlier statement (whether expressly, by implication or otherwise).

The Offering Circular should be read and construed with any amendment or supplement hereto and with any other document incorporated by reference herein and, in relation to any Series (as defined under "Summary of the Program" below), should be read and construed together with the relevant Final Terms or Pricing Supplement, as the case may be.

Northern Rock will provide, without charge, to each Holder (as defined below) of a Series of Notes, upon the request of such Holder, a copy of any or all of the documents which are incorporated by reference herein. Requests for such documents should be directed to the principal office of Deutsche Bank Trust Company Americas, in its capacities as the Senior Trustee and as the Subordinated Trustee for the Notes. In addition, if and for so long as any Notes are listed on the Euro MTF, such documents will be available free of charge from the specified office of the Luxembourg Listing Agent.

Northern Rock will, in connection with the listing of the Notes issued under the Program on the Euro MTF, so long as any Notes remain outstanding and listed on such exchange, in the event of any material adverse change in the financial condition of Northern Rock or material change in the terms and conditions of the Notes or the Program (including an increase in the size of the Program) which is not reflected in this Offering Circular (or any of the documents incorporated by reference in this Offering Circular), advise the Luxembourg Stock Exchange of any such material change and prepare a further supplement to this Offering Circular or a new offering circular for use in connection with any subsequent issue of Notes to be listed on the Euro MTF.

SUMMARY OF THE PROGRAM

The following summary highlights important information about the program but does not purport to be complete. The information contained in this summary is taken from, and is qualified in its entirety by, the remainder of this Offering Circular. You should also review the applicable Final Terms or Pricing Supplement, as the case may be, for additional information about the particular Notes you are considering purchasing. If Northern Rock and the Dealer(s) so agree, specific terms and provisions of Notes may differ from those set forth below, in which case the description of such terms and provisions in the applicable Final Terms or Pricing Supplement, as the case may be, will supersede the description of the Notes contained in this Offering Circular to the extent they are inconsistent. Words and expressions defined elsewhere in this Offering Circular have the same meaning when used in this summary.

Issuer:	Northern Rock plc ("**Northern Rock**") is a public limited company incorporated and registered in England and Wales under the Companies Act 1985. Northern Rock is a specialized mortgage lender whose core business is the provision of residential mortgages in the United Kingdom funded through the retail, wholesale, covered bond and securitization markets. Northern Rock, together with its subsidiaries and associated companies, also engages in secured commercial lending, the distribution of third party insurance products, personal unsecured lending and provides money transmission facilities.
Dealers:	Merrill Lynch, Pierce, Fenner & Smith Incorporated, Citigroup Global Markets Inc., Lehman Brothers Inc. and Morgan Stanley & Co. Incorporated.
Trustees:	Deutsche Bank Trust Company Americas (formerly, Bankers Trust Company), in its separate capacities as the Senior Trustee and as the Subordinated Trustee. Northern Rock has entered into the Senior Indenture with the Senior Trustee relating to the Senior Notes and the Subordinated Indenture with the Subordinated Trustee relating to the Subordinated Notes. Each Trustee has also agreed under the applicable Indenture to act as the principal paying agent for Notes issued under such Indenture.
Luxembourg Listing Agent:	Deutsche Bank Luxembourg S.A.
Paying Agents:	Deutsche Bank Trust Company Americas, pursuant to the Indentures, and Deutsche Bank Luxembourg S.A., pursuant to the Luxembourg Paying and Transfer Agency Agreement.
Program Size:	Northern Rock may issue up to US$20,000,000,000 (or the equivalent of that amount in one or more other currencies or composite currencies) outstanding at any time. The program size may be increased from time to time without the consent of the holders of the Notes (the "**Holders**" or "**Noteholders**").
Currencies:	Subject to any applicable legal or regulatory restrictions, such currencies as may be agreed between Northern Rock and the relevant Dealer.
Issuance in Series:	The Senior Notes and the Subordinated Notes will each constitute a separate series of Notes issued under their respective Indentures. Notes will be issued in tranches. The Notes of each tranche will be subject to identical terms, except that the issue date, the issue price and the amount of the first payment of interest may be different in respect of different tranches.
Status of Senior Notes: ...	The Senior Notes will constitute direct, unconditional, unsecured and unsubordinated obligations of Northern Rock without any preference among themselves and will rank at least equally with deposits and all other unsecured and unsubordinated obligations of Northern Rock subject in the event of insolvency, to laws of general applicability relating to or affecting creditors' rights.

Status of Subordinated Notes:	The Subordinated Notes will constitute direct, unconditional, unsecured and subordinated obligations of Northern Rock without any preference among themselves. The rights of Holders of Subordinated Notes will be subordinated in right of payment in the manner provided in the Subordinated Indenture and as described in "Description of the Notes" below. In respect of the Perpetual Subordinated Notes, payments of interest thereon are subject to the right of Northern Rock to defer such payments in the manner provided in the Subordinated Indenture and as described in "Description of the Notes" below.
Issue Price:	Notes may be offered at par or at a premium or discount to par as specified in the applicable Final Terms or Pricing Supplement, as the case may be.
Maturities:	The Notes, other than Perpetual Subordinated Notes (which will be undated), will mature in nine months or longer as specified in the applicable Final Terms or Pricing Supplement, as the case may be. In the case of Dated Subordinated Notes, the minimum maturity, as at the date of this Offering Circular, will be five years and one day.
Redemption at Maturity:	Notes, other than Perpetual Subordinated Notes (which will not have a stated maturity), may be redeemed by Northern Rock at par on the maturity date or at such other amount as may be specified in the relevant Final Terms or Pricing Supplement, as the case may be.
Early Redemption:	Early redemption will be permitted for taxation reasons, but will otherwise be permitted only to the extent specified in the applicable Final Terms or Pricing Supplement, as the case may be. The early redemption of Subordinated Notes is at any time subject to the prior written consent of the United Kingdom Financial Services Authority (the "**FSA**") having been obtained.
Repayment:	The Final Terms or Pricing Supplement, as the case may be, may provide that the Notes of such tranche are repayable by Northern Rock, at the option of the holder. The early repayment of Subordinated Notes will be subject to the prior written consent of the FSA having been obtained.
Interest:	Interest may accrue at a fixed rate or a floating rate, which will be calculated by referring to an index and/or formula. The floating rate may be determined by reference to one or more base rates, such as LIBOR, and be adjusted by a spread or a spread multiplier or other interest rate formula, in each case as agreed by Northern Rock and the purchaser and described in the applicable Final Terms or Pricing Supplement, as the case may be.
Interest Payments:	Interest may be paid monthly, quarterly, semi-annually, annually or at such other intervals as are described in the applicable Final Terms or Pricing Supplement, as the case may be; provided, however that Northern Rock is entitled to defer payment of interest in respect of the Perpetual Subordinated Notes.
Denominations:	Notes will be issued in minimum denominations of US$100,000 and integral multiples of US$1,000 in excess thereof and in such other denominations as are specified in the applicable Final Terms or Pricing Supplement, as the case may be.
Form, Clearance and Settlement:	Notes offered in the United States to qualified institutional buyers in reliance on Rule 144A will be represented by one or more US Global Notes and Notes offered outside the United States in reliance on Regulation S will be represented by one or more International Global Notes. Senior Notes offered to certain institutional accredited investors initially will be represented by Certificated Notes. Unless otherwise specified in a Final Terms or Pricing Supplement, as the case may be, Subordinated Notes will not be offered to institutional accredited investors. Senior Notes will be in fully registered form. Global Notes representing Senior Notes will be held by or on behalf of The Depository Trust Company ("**DTC**") for the benefit of participants in DTC.

Subordinated Notes will be in bearer form. Global Notes representing Subordinated Notes will be deposited with a custodian which will issue Global Receipts representing such Global Notes. The Global Receipts will be held by or on behalf of DTC for the benefit of participants in DTC.

The Notes have not been registered under the Securities Act and may not be offered or sold within the United States or to or for the benefit of United States persons, except pursuant to an exemption from, or in a transaction not subject to, the registration requirement of the Securities Act.

Notes, other than Notes represented by an International Global Note, will bear a legend setting forth transfer restrictions and may not be transferred except in compliance with such transfer restrictions. Transfers of interests from a US Global Note to an International Global Note and transfers of Certificated Notes held by institutional accredited investors are subject to certification requirements. If such Certificated Notes are transferred to qualified institutional buyers in reliance on Rule 144A or offered outside the United States in reliance on Regulation S, then these Certificated Notes will be represented by US Global Notes or International Global Notes, as the case may be, and will be available for inspection at the specified office of the Paying Agent.

Governing Law:. . . . . The Notes and all related contractual documentation will be governed by, and construed in accordance with, the laws of the State of New York, except that the subordination provisions of the Subordinated Notes and the Subordinated Indenture will be governed by and construed in accordance with the laws of England and Wales.

Ratings:. . . . . The program has; unless otherwise described in the applicable Final Terms or Pricing Supplement, as the case may be, been issued the following ratings (for Notes having a maturity of one year or more from the date of issue):

Rating Agency	Senior Notes	Dated Subordinated Notes	Perpetual Subordinated Notes
Moody's Investors Service, Inc.. .	A1	A2	A2
Standard & Poor's Ratings Services	A	A–	BBB+

The Rating Agencies have agreed to continue to monitor the credit of the Issuer. The ratings set forth above are accurate only as of the date hereof, and may be changed at any time. A rating reflects only the views of Standard & Poor's Ratings Services ("**S&P**") or Moody's Investors Service, Inc. ("**Moody's**", and together with S&P, the "**Rating Agencies**"), as the case may be, and is not a recommendation to buy, sell or hold the Notes.

Sales and Transfer Restrictions:. . . . . The Notes have not been registered under the Securities Act and may not be offered or sold within the United States or to or for the benefit of United States persons, except pursuant to an exemption from, or in a transaction not subject to, the registration requirement of the Securities Act. In addition, there are certain restrictions on the sales of the Notes in the United Kingdom.

Listing: . . . . . Each Series of Notes (a "**Series**") may be listed on the Euro MTF and/or listed, quoted and/or traded on or by any stock exchange, competent listing authority and/or quotation system as may be agreed between Northern Rock and the Dealers. The terms relating to any series of Notes that are listed shall be set forth in an applicable Final Terms. A series of Notes may be unlisted. In any such case, the terms relating to such series of unlisted Notes shall be set forth in an applicable Pricing Supplement. It is expected that Senior Notes will be unlisted and that Subordinated Notes will be listed.

RECENT DEVELOPMENTS

IFRS

The year ended December 31, 2005 was the first full year in which Northern Rock prepared its financial statements in accordance with International Financial Reporting Standards ("**IFRS**"). This Offering Circular contains financial statements, which have been prepared in accordance with IFRS, as of and for the years ended December 31, 2005 and 2004. This Offering Circular also contains additional financial information, which has been prepared in accordance with UK GAAP, relating to the years ended December 31, 2004, 2003 and 2002.

Current Market Conditions

Northern Rock believes that the UK economic fundamentals are sound despite a slowdown in GDP growth. Whilst unemployment is increasing, it remains at historic low levels, and inflation is under control. Northern Rock expects these trends to continue and therefore that interest rates and debt servicing costs will be relatively low.

Northern Rock expects this backdrop to continue to provide support for the UK housing market, especially when combined with the long-standing preference for home ownership in a market where housing demand outstrips supply. The latter stages of 2005 and the start of 2006 have seen a small but encouraging increase in the number of first time buyers returning to the housing market. Northern Rock expects this gentle trend to continue, providing increased support to the home moving market, which is expected to see a slight increase in the number of housing transactions compared to 2005. As households continue to reorganise their finances, demand for remortgage products will remain high, supporting gross loan volumes in 2006. Remortgaging is expected to represent 40% to 45% of gross lending in 2006.

Combining its outlook for the UK housing and mortgage markets, Northern Rock's expectation is for a gross mortgage market in 2006 of around £300 billion, compared with £288 billion in 2005. Northern Rock remains confident of its ability to achieve its lending targets within this context.

During the first three months of 2006, Northern Rock's total net lending was 26% higher than the same period last year, due to a combination of a good gross mortgage market share, enhanced by customer retention. In the first quarter of 2006, gross and net lending market shares have been in line with those for 2005 as a whole. Net residential lending during the first three months of the year was 14% higher than at the same point in 2005. This is encouraging, as the first quarter of 2005 saw strong lending following the introduction of mortgage regulation. Northern Rock's policy of offering existing mortgage customers the same products available to new customers, combined with active promotion and dedicated retention resources, has led to a continued good retention performance.

Credit quality at Northern Rock remains tightly monitored and controlled. Northern Rock's underwriting criteria, the high proportion of borrowers with a proven payment track record and the targeting of low risk sectors ensure credit quality remains robust.

Northern Rock continues to develop retail funding, building on last year's performance, and is attracting further strong net inflows of retail savings, which it expects to be the pattern for 2006. January saw the first of Northern Rock's residential mortgage-backed security (RMBS) issues for 2006. As with previous transactions, the issue was heavily oversubscribed leading to the issue being increased to £6 billion. A further £3 billion securitization was completed in May 2006. The first quarter of 2006 also saw the fourth issue from Northern Rock's €10 billion Covered Bond Programme. The €2 billion issue was also oversubscribed, reflecting the significant appetite for this type of investment. Northern Rock expects to raise further funds through the Covered Bond Programme in 2006. Northern Rock recently completed its first Australian dollar medium term note issue totaling A$1.2 billion. This further expanded its wholesale franchise and makes Northern Rock a genuinely global player in the wholesale funding markets. On June 20, 2006, a second Whinstone transaction was completed thereby further reducing the potential exposure to downturn credit risk. On June 29, 2006 Northern Rock issued £400 million non-cumulative sterling preference shares. This issue further diversifies Northern Rock's capital base, increases flexibility and reflects its ongoing confidence in achieving its strategic growth targets.

SUMMARY CONSOLIDATED FINANCIAL INFORMATION

The summary consolidated financial information (as prepared in accordance with IFRS) set forth below for the years ended December 31, 2005 and 2004 and as at December 31, 2005 and 2004 has been derived from the Group's Consolidated Financial Statements for the year ended December 31, 2005, included in this Offering Circular. Financial information set forth below should be read in connection with, and is qualified in its entirety by reference to, the Group's Consolidated Financial Statements and the accompanying notes included elsewhere in this Offering Circular. Summary consolidated financial information (as prepared in accordance with UK GAAP) for the years ended December 31, 2004, 2003, 2002 and 2001 and as at December 31, 2004, 2003, 2002 and 2001 has been derived from the Group's Consolidated Financial statements for the year ended December 31, 2003 and 2002, which are not included or incorporated by reference herein.

The Group's Consolidated Financial Statements included elsewhere in this Offering Circular have been prepared in accordance with IFRS, which differ in certain significant respects from US GAAP. For a discussion of certain significant differences between IFRS and US GAAP, see Note 47 of Notes to Consolidated Financial Statements, which includes reconciliation to US GAAP of certain amounts calculated in accordance with IFRS. The dollar financial information has been translated for convenience at the rate of £1.00 to $1.7187, the noon buying rate on December 30, 2005.

Notes:

(1) Financial information set forth above for the year ended December 31, 2005 has been prepared in accordance with IFRS. Financial information set forth above for the year ended December 31, 2004 has been restated to reflect the adoption of IFRS. Further details of this restatement are included in Note 45 to the Consolidated Financial Statements.

(2) In connection with its conversion from a mutual form building society to a stock form bank, Northern Rock covenanted to set aside approximately 5% of annual consolidated profit before tax for the benefit of The Northern Rock Foundation.

(3) Amounts in accordance with US GAAP reflect IFRS amounts as adjusted for differences between US GAAP and IFRS as described in more detail in Note 47 in the Consolidated Financial Statements.

Notes:

(1) Financial information set out above has been prepared in accordance with UK GAAP. Financial information set forth above for the year ended December 31, 2001 has been restated to reflect the adoption of UITF 33 – "Obligations in Capital Instruments". Financial information set forth above for the years ended December 31, 2002 and 2001 has been restated to reflect a revised presentation of income from securitization. Financial information set forth above for the years ended December 31, 2003, 2002 and 2001 has been restated to reflect the adoption of UITF 38 "Accounting for ESOP trusts".

(2) In connection with its conversion from a mutual form building society to a stock form bank, Northern Rock covenanted to set aside approximately 5% of annual consolidated profit before tax for the benefit of The Northern Rock Foundation.

(3) Under UK GAAP, dividends after the year-end are recorded in the period to which they relate, whereas US practice is to record dividends in the period in which they are declared.

(4) Amounts in accordance with US GAAP reflect UK GAAP amounts as adjusted for differences between US and UK GAAP as described in more detail in Note 47 in the Consolidated Financial Statements.

Notes:

(1) Financial information set forth above has been prepared in accordance with UK GAAP. Financial information set forth above for the year ended December 31, 2001 has been restated to reflect the adoption of UITF 33 – "Obligations in Capital Instruments". Financial information set forth above for the years ended December 31, 2002 and 2001 has been restated to reflect a revised presentation of income from securitization. Financial information set forth above for the years ended December 31, 2003, 2002 and 2001 has been restated to reflect the adoption of UITF 38 "Accounting for ESOP trusts".

(2) Return on average total assets represents profit attributable to equity shareholders as a percentage of average adjusted total assets.

(3) Return on average shareholders' equity represents profit attributable to equity shareholders as a percentage of average shareholders' equity.

(4) Adjusted return on average shareholders' equity represents reported profit attributable to equity shareholders adjusted to exclude the surplus arising on the disposal of the credit card portfolio and non-recurring costs associated with branch closures (2003), as a percentage of average shareholders' equity.

(5) Adjusted return on average total assets represents reported profit attributable to equity shareholders adjusted as described in note (3) above, as a percentage of average total assets.

(6) Net interest margin represents net interest income as a percentage of average interest earning assets as described in this Offering Circular under "Selected Statistical Information". Net interest margin figures set forth in the table above have been prepared on the basis of adjusted total assets, including assets subject to securitization as interest earning assets and securitized notes in issue treated as interest bearing liabilities.

(7) For this purpose, earnings consist of profit before taxation plus fixed charges. Fixed charges consist of interest payable including or excluding interest on retail deposits, as appropriate.

(8) Net interest margin and ratios of earnings to fixed charges for 2004 have been restated to reflect the revised presentation of fair value changes for derivatives not in hedging relationships described on page F-114. Ratios for 2001-2003 have not been restated.

EXCHANGE RATES

The following table sets forth, for the periods indicated, certain information concerning the exchange rate for pounds sterling based on the noon buying rate in New York City expressed in US dollars per £1.00. No representation is made that amounts in pounds sterling have been, could have been, or could be converted into US dollars at the noon buying rate or at any other rate. At July 14, 2006, the noon buying rate was 1.84 per £1.00.

	High	Low	Average	Period End
		(dollars per pound sterling)		
Recent Monthly Exchange Rate Data				
June 2006	1.88	1.81	1.84	1.85
May 2006	1.89	1.83	1.87	1.87
April 2006	1.82	1.74	1.77	1.82
March 2006	1.76	1.73	1.74	1.74
February 2006	1.78	1.73	1.75	1.75
January 2006	1.79	1.72	1.77	1.78
December 2005	1.78	1.72	1.75	1.72
Historical Annual Exchange Rate Data[1]				
2005	1.93	1.71	1.81	1.72
2004	1.95	1.76	1.83	1.92
2003	1.78	1.55	1.64	1.78
2002	1.61	1.41	1.50	1.61
2001	1.50	1.37	1.44	1.45

Note:

(1) The average of the noon buying rates on the last business day of each month during the relevant period.

Unless otherwise indicated, all references in this Offering Circular to "**pounds sterling**", "**sterling**" and "**£**" are to the lawful currency of the United Kingdom.

RISK FACTORS

An investment in the Notes will include certain risks. In consultation with financial and legal advisers, a prospective investor should carefully consider, among other matters, the following discussion of risk before deciding whether an investment in the Notes is suitable. Notes are not an appropriate investment for unsophisticated investors with respect to foreign currency transactions or transactions involving interest rate or currency index or other indices or formulas.

In particular, Notes denominated or payable in or determined by reference to a foreign or composite currency or to one or more interest rates, currencies or other indices or formulas are not an appropriate investment for investors who are unsophisticated with respect to foreign currency transactions or transactions involving the applicable interest rate or currency index or other indices or formulas. The matters described below, among other factors, should be carefully considered by any prospective investor..

This Offering Circular does not describe all of the risks of an investment in Notes, whether resulting from such Notes being denominated or payable in or determined by reference to a foreign currency or composite currency or to one or more interest rates, currencies or other indices or formulas, or otherwise. Northern Rock and the Dealers disclaim any responsibility to advise prospective investors of such risks as they exist at the date of this Offering Circular or as they change from time to time.

Transfer Restrictions

The Notes have not been, and will not be, registered under the Securities Act or any other applicable securities laws and are being offered pursuant to the exemption from registration provided by Section 4(2) of the Securities Act. Accordingly, the Notes are subject to certain restrictions on the resale and other transfer thereof as set forth under "Notice to Investors". As a result of such restrictions, Northern Rock cannot be certain of the existence of a secondary market for the Notes or the liquidity of such market if one develops. Consequently, a Holder (as defined under "Description of the Notes – General") of Notes and owner of beneficial interests in such Notes must be able to bear the economic risk of an investment in such Notes for an indefinite period of time.

Structure Risks

General

With respect to an investment in Notes indexed to one or more interest rates, currencies or other indices or formulas, significant risks exist that are not associated with a conventional fixed rate or floating rate debt security. Such risks include fluctuation of the particular indices or formulas and the possibility that an investor will receive a lower amount of principal, premium or interest and at different times than expected. Northern Rock has no control over a number of matters, including economic, financial and political events, that are important in determining the existence, magnitude and longevity of such risks and their results. In addition, if an index or formula used to determine any amounts payable in respect of the Notes contains a multiplier or leverage factor, the effect of any change in such index or formula will be magnified. In recent years, values of certain indices and formulas have been volatile and volatility in those and other indices and formulas may be expected in the future. However, past experience is not necessarily indicative of what may occur in the future.

Redemption

If the applicable Final Terms or Pricing Supplement, as the case may be, specifies that the Notes are redeemable at the option of the issuer, or are otherwise subject to mandatory redemption, Northern Rock may (in the case of optional redemption) or must (in the case of mandatory redemption) choose to redeem such Notes at times when prevailing interest rates may be relatively low. Accordingly, an investor generally will not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the Notes.

Uncertain Trading Markets

Although the Notes may be listed on the Euro MTF, Northern Rock cannot assure a trading market for the Notes will develop or be maintained. Many factors independent of the creditworthiness of Northern Rock affect the trading market. These factors include:

- the complexity and volatility of the index or formula applicable to the Notes;
- the method of calculating the principal, premium and interest in respect of the Notes;
- the time remaining to the maturity of the Notes;
- the outstanding amount of the Notes;
- the redemption features of the Notes;
- the amount of other debt securities linked to the index or formula applicable to the Notes; and
- the level, direction and volatility of market interest rates generally.

In addition, certain Notes have a more limited trading market and experience more price volatility because they were designed for specific investment objectives or strategies. There may be a limited number of buyers when an investor decides to sell such Notes. This may affect the price an investor receives for such Notes or the ability of an investor to sell such Notes at all. A prospective investor should not purchase Notes unless such an investor understands and knows it can bear these investment risks.

Exchange Rates and Exchange Controls

With respect to an investment in Notes that are denominated and/or payable in a currency other than US dollars ("**Specified Currency Notes**"), there will be significant risks not associated with an investment in a debt security denominated and payable in US dollars, including the possibility of material changes in the exchange rate between US dollars and the payment currency and the imposition or modification of exchange controls by the applicable governments. Northern Rock has no control over the factors that generally affect these risks, such as economic, financial and political events and the supply and demand for the applicable currencies. Moreover, if payments on Specified Currency Notes are determined by reference to a formula containing a multiplier or leverage factor, the effect of any change in the exchange rates between the applicable currencies will be magnified. In recent years, exchange rates between certain currencies have been highly volatile and volatility between such currencies or with other currencies may be expected in the future. Fluctuations between currencies in the past are not necessarily indicative, however, of fluctuations that may occur in the future. Depreciation of the payment currency would result in a decrease in the US dollar equivalent yield of the Specified Currency Notes, in the US dollar equivalent value of the principal and any premium payable at maturity or earlier redemption of the Specified Currency Notes and generally, in the US dollar equivalent market value of the Specified Currency Notes.

Governmental exchange controls could affect exchange rates and the availability of the payment currency on a required payment date. Even if there are no exchange controls, it is possible that the payment currency will not be available on a required payment date due to circumstances beyond Northern Rock's control. In such cases, Northern Rock will be allowed to satisfy its obligations in respect of Specified Currency Notes in US dollars.

European Monetary Union

United Kingdom membership of the European Monetary Union prior to the maturity of the Notes, may adversely affect investors in the Notes. It is possible that prior to the maturity of the Notes the United Kingdom may become a participating Member State and that the Euro may become the lawful currency of the United Kingdom. In that event (i) all amounts payable in respect of any Notes denominated in sterling may become payable in euro; (ii) the law may allow or require the Notes to be re-denominated into euro and additional measures to be taken in respect of such Notes; and (iii) there may no longer be available published or displayed rates for deposits in Sterling used to determine the rates of interest on such Notes or changes in the way those rates are calculated, quoted and published or displayed. The introduction of the euro could also be accompanied by a volatile interest rate environment, which could adversely affect investors in the Notes.

Credit Ratings

The credit ratings of Northern Rock's medium-term note program may not reflect the potential impact of all risks related to structure and other factors on the value of the Notes. In addition, real or anticipated changes in the credit ratings of Northern Rock will generally affect the market value of

the Notes. Moreover, a credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Economic Activity in the United Kingdom

Northern Rock's business activities are dependent on the level of banking, finance and financial services required by its customers. In particular, levels of borrowing are heavily dependent on customer confidence, employment trends, the state of the economy and market interest rates at the time. As Northern Rock currently conducts the majority of its business in the United Kingdom, its performance is influenced by the level and cyclical nature of business activity in the United Kingdom, which is in turn impacted by both domestic and international economic and political events. There can be no assurance that a weakening in the UK economy will not have a material effect on Northern Rock's future results.

Risk Associated with Strategic Decisions Regarding Organic Growth and Cost Control

Northern Rock's strategy relies upon the continued organic growth of its assets under management coupled with controlling related expenses. The strategy also involves operating as a single segment business concentrating on UK residential mortgage lending. No assurance can be given that profitability would not be impacted in the event conditions in the UK residential mortgage market deteriorated significantly or Northern Rock was otherwise unable to succeed in its growth strategy or in continuing to control related expenses.

Access to Wholesale Funding, Covered Bond and Securitization Markets

A substantial amount of Northern Rock's funding depends upon access to wholesale funding sources, including accessing the institutional debt market in the United States, Europe and in Asia, as well as accessing the covered bond and the global securitization markets as additional sources of wholesale funding. The continued ability of Northern Rock to access such funding sources on favorable economic terms is dependent on a variety of factors, including a number of factors outside of its control, including general market conditions. There can be no assurance that Northern Rock will continue to be able to access such funding sources on favorable terms in the future.

Impact of Regulatory Changes

Northern Rock is subject to financial services laws, regulations, administrative actions and policies in each location that Northern Rock operates. Changes in supervision and regulation, in particular in the UK, could materially affect Northern Rock's business, the products and services offered or the value of its assets. Although Northern Rock works closely with its regulators and continually monitors the situation, future changes in regulation, fiscal or other policies can be unpredictable and are beyond the control of Northern Rock. See "*Supervision and Regulation*" for additional information.

Risks related to the optional redemption of the Notes

An optional redemption feature is likely to limit the market value of Notes. During any period when Northern Rock may elect to redeem Notes, the market value of such Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

Northern Rock may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Index Linked Notes and Dual Currency Notes

Northern Rock may issue Notes with principal or interest determined by reference to an index or formula, to changes in the prices of securities or commodities, to movements in currency exchange rates or other factors (each, a "**Relevant Factor**"). In addition, Northern Rock may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

- the market price of such Notes may be volatile;
- they may receive no interest;
- payment of principal or interest may occur at a different time or in a different currency than expected;
- the amount of principal payable at redemption may be less than the nominal amount of such Notes or even zero;
- a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable likely will be magnified; and
- the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield.

Risks related to variable rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be more volatile than those for securities that do not include those features.

Inverse Floating Rate Notes

"**Inverse Floating Rate Notes**" have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of such Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Risks related to Floating Rate/Fixed Rate Notes

"**Floating Rate/Fixed Rate Notes**" may bear interest at a rate that Northern Rock may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Northern Rock's ability to convert the interest rate will affect the secondary market and the market value of such Notes since Northern Rock may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If Northern Rock converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favorable than the then-prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If Northern Rock converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

Risks related to Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Northern Rock's obligations under Subordinated Notes are subordinated

Northern Rock's obligations under the Subordinated Notes will be direct, unconditional, unsecured and subordinated. In the event of a winding-up of Northern Rock, or an administration of Northern Rock where the administrator has served notice that he or she proposes to make a distribution to creditors, the relevant Noteholders' claims shall be subordinated to the claims of depositors and other unsubordinated creditors of Northern Rock in respect of their respective Senior Claims (as defined in "*Description of the Notes – Status and Subordination of Subordinated Notes*"

below). Payments of principal and interest in respect of the Subordinated Notes are, in the event of a winding up of, or such an administration of Northern Rock as referred to above, conditional upon Northern Rock being solvent at the time of payment by Northern Rock.

Northern Rock's obligations under Perpetual Subordinated Notes will be direct, unconditional, unsecured and subordinated to the claims of Senior Creditors (as defined in "*Description of the Notes – Status and Subordination of Subordinated Notes*" below). Payments of principal and interest in respect of Perpetual Subordinated Notes are conditional upon Northern Rock being solvent at the time of payment by Northern Rock. If at any time an order is made or an effective resolution is passed for the winding up in England of Northern Rock (except in the circumstances described in "*Description of the Notes – Status and Subordination of Subordinated Notes*" below), or an administration of Northern Rock where the administrator has served notice that he or she prepares to make a distribution to creditors, the Noteholders shall receive, in respect of each Note, such amount (if any) as would have been payable to the Noteholder if, on the day prior to the commencement of the winding up or such administration, such Noteholder were the holder of a class of preference share in the capital of Northern Rock having a preferential right to a return of assets in the winding up or such administration over the holders of all issued shares for the time being in the capital of Northern Rock, as more fully described in "*Description of the Notes – Status and Subordination of Subordinated Notes*" below.

Although Subordinated Notes may pay a higher rate of interest than comparable Notes which are not subordinated, there is a real risk that an investor in Subordinated Notes will lose all or some of his investment should Northern Rock become insolvent.

In relation to Perpetual Subordinated Notes, Northern Rock may elect to defer payment of interest until the first to occur of (i) the date upon which a dividend is next paid on any class of its share capital, (ii) the date fixed for any redemption and (iii) the commencement of winding up proceedings of Northern Rock as more fully described in "*Description of the Notes – Status and Subordination of Subordinated Notes*" below.

Northern Rock will pay all deferred interest on all Perpetual Subordinated Notes as soon as it may no longer defer interest under the terms described above. Northern Rock will make this payment in respect of all such Notes on the next scheduled Interest Payment Date that occurs in respect of any issue of such Notes, unless it elects to make the payment earlier.

In no event will holders of Perpetual Subordinated Notes be able to accelerate the maturity of their Notes; such holders will have claims only for amounts then due and payable on their Notes. After Northern Rock has fully paid all deferred interest on any issue of Perpetual Subordinated Notes and if that issue of Perpetual Subordinated Notes remains outstanding, future interest payments on that issue of Perpetual Subordinated Notes will be subject to further deferral as described above.

Any deferral of interest payments will likely have an adverse effect on the market price of the Perpetual Subordinated Notes. In addition, as a result of the interest deferral provision of the Perpetual Subordinated Notes, the market price of such Notes may be more volatile than the market prices of other debt securities on which original issue discount or interest accrues that are not subject to such deferrals and may be more sensitive generally to adverse changes in Northern Rock's financial condition.

USE OF PROCEEDS

The net proceeds of each issue of Notes will be used by Northern Rock for the purpose of funding its business. See "Description of Northern Rock and its Business" for a detailed description of the business of Northern Rock to be funded.

DESCRIPTION OF NORTHERN ROCK AND ITS BUSINESS

Northern Rock plc

Northern Rock is a public limited liability company incorporated and registered in England and Wales under the Companies Act 1985. Northern Rock is a specialized mortgage lender whose core business is the provision of residential mortgages in the United Kingdom funded in the retail, wholesale, covered bond and securitization markets. Northern Rock, together with its subsidiaries and associated companies, also engages in personal unsecured lending, secured commercial lending and distribution of third party insurance products. At December 31, 2005, the Group (as defined below) had total assets of £82.7 billion.

Northern Rock's ordinary shares have been admitted to trading on the London Stock Exchange's market for listed securities and were admitted to the Official List of the UK Listing Authority from October 1, 1997. The registered and principal executive office of Northern Rock is at Northern Rock House, Gosforth, Newcastle upon Tyne NE3 4PL, United Kingdom, its telephone number is +44-845-600-8401, and its internet address is www.northernrock.co.uk.

Organizational Structure

Northern Rock currently has the following two principal subsidiaries, each of which is wholly owned by Northern Rock: Northern Rock Mortgage Indemnity Company Limited ("**NORMIC**"), a Guernsey limited liability company providing mortgage indemnity insurance to Northern Rock and Northern Rock (Guernsey) Limited, a Guernsey limited liability company engaging in retail deposit taking. In connection with its securitization programme, the Group has established a number of special purpose entities for the purpose of issuing securitized loan notes. As at December 31, 2005, 21 material special purpose entities had been established for the purpose of issuing securitized loan notes. In addition, Whinstone Limited has been established for the purpose of the issue of credit linked loan notes following the transfer of around 80% of the reserve risk fund element of pre-2005 securitization transactions. Northern Rock and its principal subsidiaries are referred to collectively in this Offering Circular as the "**Group**". See "Other Activities" below.

History and Development of the Company

Northern Rock was originally formed as a building society (a mutual form of organization existing under English law which engages primarily in residential mortgage lending and deposit taking) in 1965. Northern Rock Building Society was formed on July 1, 1965, as a result of the merger of Northern Counties Permanent Building Society (established in 1850) and Rock Permanent Building Society (established in 1865). After such time, Northern Rock Building Society merged with a number of small, local building societies and, prior to its conversion to a public limited company in October 1997, was an amalgamation of 53 societies.

The most significant development in the recent history of Northern Rock was its conversion, effective October 1, 1997, from a mutual form UK building society to a UK authorized bank, listed on the London Stock Exchange and authorized, at the time of its conversion, under the Banking Act 1987 and currently, under the Financial Services and Markets Act 2000 (the "**FSMA**") (which replaced the Banking Act 1987 and other financial services legislation). Prior to the conversion, Northern Rock's activities as a building society were limited by statute primarily to its core business purposes of making residential mortgage loans and accepting retail deposits, with particular restrictions as to the level of wholesale funding it could utilize. Upon conversion to a UK bank, and following certain regulatory developments in the UK described below under "Supervision and Regulation", the scope of banking services which Northern Rock may now engage in has been greatly expanded, although Northern Rock intends to remain focused on its core business as described below.

The conversion also resulted in the establishment of The Northern Rock Foundation, a charitable body which is entitled to receive approximately 5% of the annual consolidated profit before taxation of Northern Rock and holds certain Foundation Shares. See "-The Northern Rock Foundation" below.

On August 1, 2002 Northern Rock acquired Legal & General Bank Limited and Legal & General Mortgage Services Limited which comprised the retail banking operations of Legal & General plc. On completion, Northern Rock acquired total assets of £1.9 billion, of which £1.5 billion were loans and advances to customers, primarily residential mortgage advances. Northern Rock also

obtained £1.2 billion of retail deposit balances. During 2002, the assets, liabilities and operations of these companies were transferred to Northern Rock plc.

Business Overview

Northern Rock specializes in lending to individuals with a core business of providing residential mortgage loans, funded in the retail, wholesale, covered bond and securitization markets. Northern Rock's operations are primarily concentrated in the United Kingdom. At December 31, 2005, Northern Rock held an estimated 6.4% of UK mortgage balances and an estimated 1.8% of UK retail savings balances. In addition, the Group engages in personal unsecured lending, secured commercial lending and distribution of third party insurance products. At December 31, 2005, total assets of the Group were £82.7 billion. Profit attributable to equity shareholders for the year ended December 31, 2005, was £300.7 million.

Northern Rock is one of the top six mortgage lenders in the United Kingdom based upon loans outstanding. In the UK mortgage market, Northern Rock had an estimated market share of approximately 14.5% on the basis of net residential lending during 2005 (*i.e.* increase in outstanding mortgage balances) of £13.3 billion and an estimated market share of approximately 8.1% on the basis of gross lending during 2005 (i.e. solely on the basis of new mortgage lending during the year) of £23.6 billion.

Northern Rock focuses on its core business of providing residential mortgage loans in the United Kingdom. For the years ended December 31, 2005, 2004, and 2003, the portion of interest income attributable to the portfolio of secured loans (predominantly residential mortgage loans) amounted to 79.4% in 2005, 77.1% in 2004, and 78.0% in 2003. By comparison, the only other major category of interest earning assets consists of investments held by Northern Rock's Treasury Department principally to meet both internal and regulatory liquidity requirements. Interest income from Treasury assets as a percentage of total interest income amounted to 11.7% in 2005, 13.7% in 2004 and 12.8% in 2003. The balance of total interest income is derived from the Group's personal unsecured lending portfolios.

Strategy of the Group

Northern Rock's primary business objective is to maximize shareholder value while continuing to ensure customer satisfaction. In seeking to achieve this, Northern Rock's strategy consists of:

- focusing primarily on its core business of providing residential mortgage loans. The Group does not intend to diversify into areas where it is unable to apply its expertise;
- aiming to grow its income earning assets by offering competitively priced products and thereby maintaining and increasing its market share;
- seeking to combine high quality asset growth with strict cost control, thus further reducing unit costs and sustaining its pricing advantage, profitability and future growth;
- continuing to identify and prudently develop opportunities to supplement its business with complementary products, including insurance via third party suppliers, secured commercial lending, and personal unsecured lending; and
- funding the Group's operations based upon an appropriate mix of funding sources including retail, wholesale, securitization and covered bonds.

Funding

Competition in the retail deposit market, together with the increased level of funding required by Northern Rock to meet its strong asset growth, has meant that pricing for new retail funding in recent years has been less attractive to Northern Rock. See "– Competition" below. As a consequence, greater emphasis has been placed on raising wholesale funds internationally and through the use of securitization programs.

Northern Rock intends to maintain its retail franchise and will continue to seek new sources of retail funding both in the UK and Europe.

Northern Rock has significantly expanded the use of wholesale funding sources. Wholesale funding sources include funding raised in the capital and money markets through commercial paper

and medium-term note programs and the issue of instruments such as time deposits and certificates of deposits, to banks, other financial institutions and corporate customers.

In addition to retail and wholesale funding sources, securitization of residential mortgage assets, as a third source of funding, was developed during 1999. As at December 31, 2005 Northern Rock had raised £42.6 billion via its residential mortgage backed securitization issues, with £12.9 billion completed during 2005. In addition, Northern Rock has also issued two commercial mortgage backed securities transactions totaling £1.1 billion, of which £0.7 billion was outstanding as at December 31, 2005. Further mortgage securitization issues are planned for 2006 and beyond, with an issue of £6.0 billion residential mortgage backed notes completed in January 2006 and a further issue of £3.0 billion in May 2006. See "– Treasury and Wholesale Funding" below for more information regarding Northern Rock's use of securitization as a funding source. During 2004, Northern Rock established a €10 billion Global Covered Bond Program. The inaugural issue of €2.0 billion covered bonds was followed in 2005 by two further issues amounting to €3.5 billion. To date in 2006, a further €2.0 billion issue of covered bonds has been completed. The covered bond is secured by a pool of ring-fenced mortgages which remain on-balance sheet as Northern Rock retains substantially all the risks and rewards associated with the loans.

Competition in both the retail savings and lending markets is likely to remain strong, which can be expected to place continuing pressure on interest margins for the industry as a whole. Northern Rock has addressed this challenge by continuing to grow its income earning assets through competitive pricing, utilizing its low cost base. It has also offset overall margin decline by controlled growth of personal unsecured lending and secured commercial lending, both of which earn premium rates of interest; the introduction of innovative, higher margin products and the use of differential product pricing based upon loan-to-value ratios.

Acquisitions

The Board will only consider acquisitions where they are consistent with the Group's business objectives and provide returns which enhance shareholder value.

Lending

The Group's lending activities focus on residential mortgage lending in the United Kingdom. The Group also engages in commercial secured lending and unsecured personal lending. Total revenues from the Group's lending activities comprising interest income and fees (net of service charges) amounted to £3,619.2 million for the year ended December 31, 2005, £2,607 million for 2004 and £1,984 million for 2003. Revenues from lending activities accounted for 86.5% of total revenues for the year ended December 31, 2005, 80.4% of total revenues for 2004 and 84.0% for 2003. A description of such lending activities is set forth below.

UK residential mortgage lending

UK residential mortgage lending is Northern Rock's core business. A residential mortgage is a loan which is partly or fully secured on the residential property of the borrower on terms which allow for repossession and sale of the property if the borrower breaks the terms and conditions of the loan. Northern Rock's policy is for all residential mortgage loans to be first charges on the mortgaged property. Consequently, Northern Rock's residential mortgage lending carries lower risk than certain other types of bank lending.

Northern Rock has a growing presence in the UK mortgage market. At December 31, 2005, the Group had 660,000 residential mortgage accounts with outstanding balances of £62.4 billion representing 75% of underlying total assets. Although based in the North East of England, Northern Rock achieves a diversified spread of lending throughout the UK broadly in line with the distribution of the population. In 2005, based on an analysis of total gross residential lending, as defined in the table below, 15% of new lending was in the North of England, 10% in Scotland, 25% in Central England and 50% in the South of England.

The following table shows the Group's growth in residential mortgage advances over the three year period ended December 31, 2005.

	At December 31,		
	2005	2004	2003
	(£ Millions, except for percentages)		
Advances secured on residential property	24,064.5	27,000.7	23,179.7
Advances secured on residential property subject to securitization[1]	38,356.3	21,661.1	15,229.4
Total	62,420.8	48,661.8	38,409.1
Annual growth	28.3%	26.7%	28.0%
Proportion of total assets	75.5%	75.0%	73.9%

Note:

(1) Since 1999, Northern Rock has securitized a portion of its residential mortgage assets as a diversified source of funding. Such residential mortgages are originated by Northern Rock under normal credit criteria and continue to be administered by Northern Rock in the same manner as non-securitized mortgages. For a description of Northern Rock's use of securitization as an additional funding source, see "– Treasury and Wholesale Funding" below.

During 2005 the UK mortgage market remained extremely buoyant boosted by low interest rates, house price inflation of approximately 5% and low levels of unemployment. Based upon Bank of England statistics reported by the Council of Mortgage Lenders, UK gross mortgage lending totalled £288 billion in 2005 compared with £291.2 billion in 2004, broadly unchanged from 2004. Net mortgage lending slowed in 2005, totalling £91 billion compared to £101 billion in 2004. Management expects annualized house price inflation will more closely align with the rate of growth in average earnings over the medium term. Management also expects the gross mortgage market to be at least similar to that of 2005 supported by strong re-mortgage activity underpinned by low inflation, low interest rates and generally low levels of unemployment.

Structural changes in the residential mortgage market, including the reduction in use of overhanging early repayment charges, certain lenders operating a two tier pricing structure for existing borrowers, competition from alternative, non-traditional sources and low market interest rates, have caused the UK residential mortgage market to become heavily commoditized, with competition for business to a large extent driven by price. Management believes that, in this market, borrowers are prepared to transfer their loans to other lenders (re-mortgage) in order to obtain discounted interest rates, fixed interest rates, cashback offers or a combination of these. Therefore, it is expected that, as the market has become increasingly liquid, there are opportunities for profitable growth for those cost efficient lenders, such as Northern Rock, that are able to offer attractive pricing. Accordingly, Northern Rock has introduced and markets a wide range and variety of competitively priced products designed to maintain and increase market share. Northern Rock also rewards loyalty by offering a concessionary discount against its standard variable rate for customers of seven years or more. Northern Rock's market share of redemptions in 2005 was only 5.2%, compared with its share of outstanding balances of 6.4% at the end of 2005, emphasizing Northern Rock's focus on retention of existing customers.

Discounted mortgage products are a common feature in the UK market. At the end of the discount period, the loan becomes a standard variable rate loan, the rate being set by Northern Rock by reference to market conditions and UK base interest rates as set by the Monetary Policy Committee of the Bank of England.

The UK market has traditionally demanded variable rate products. However, in recent years the demand for short term fixed rate products has fluctuated in response to market expectations of changes in the level of interest rates.

Northern Rock offers a wide range of fixed rate, capped rate and variable rate mortgages. Fixed rate products generally offer a predetermined interest rate for typically two or five years, after which they bear interest at standard variable rates. Capped rates offer a fixed ceiling above which the interest rate cannot rise for a predetermined period. Discounted variable rate mortgages offer a two or three year discount against standard variable rates and may therefore rise or fall as general interest rates change. A cashback mortgage involves a payment of interest at the standard variable rate but

the customer receives an upfront cash incentive to take out a loan. In order to mitigate the risk of early repayment associated with discounted mortgage products and other mortgage incentives, Northern Rock, in line with market practice, imposes early repayment charges on most products during an incentive period to protect the profitability of each loan.

Northern Rock also offers a combined secured residential mortgage and unsecured loan with one monthly repayment marketed under the name "**together**". This product is offered as a variable rate or fixed rate product. The "together" product allows flexible payments, permitting under or over-payment, payment holidays or re-drawing of over-payments. Such combination of loan types (also referred to as "credit bundling") enables Northern Rock to monitor a customer's overall credit position, enhance margin and promote customer retention. During 2005, the secured element of "together" lending amounted to £6.1 billion, while the unsecured element of "together" lending amounted to £883 million. The "together" secured loans account for approximately 21% of outstanding secured residential balances which management expects to continue in the medium term.

Northern Rock also offers a mortgage product named "**Lifetime**" aimed at older customers whose residences are not mortgaged. Customers obtaining a Lifetime loan are able to utilize the equity in their homes to obtain a lump sum advance or a monthly income stream which is secured by a first mortgage on their property. Unlike traditional mortgage lending, Lifetime loans have no set repayment date and no monthly loan repayments. Instead, the loan plus accrued interest is repaid from the sale of the property following death, a move into long term care or sheltered accommodation or moving house. Underwriting criteria and the management of risks associated with Lifetime lending also differ from traditional mortgages in that the amount of loan available to a customer is determined by reference to their age and the value of their property. Lifetime loans accounted for 1.4% of gross new residential lending in 2005, and Management expects that Lifetime loans will continue to grow in 2006.

Northern Rock also offers a Buy to Let product which is focused on lending to private investors secured on good quality residential properties with low loan-to-value ratios (or "**LTVs**"). Such lending accounted for 4.9% of Northern Rock's year end mortgage portfolio compared to 4.0% as at December 31, 2004. Gross mortgage lending amounted to 7.1% of total gross lending in 2005 compared to 6.4% in 2004.

An analysis of Northern Rock's gross residential mortgage lending by product type over the last three years is shown in the following table.

Analysis of Gross Mortgage Lending by Product Type

	2005	2004	2003
	(%)	(%)	(%)
Fixed rate (up to 2 years)	25	46	46
Fixed rate (over 2 years)	29	8	10
Cashback	1	1	1
Discount	8	16	14
"together"	29	21	25
Lifetime	1	2	4
Buy to Let	7	6	2

A normal condition of upfront incentives is that incentive repayment charges are payable by the borrower in the event of repayment within a specified time. The purpose of such charges is to mitigate the risk of early repayment to ensure that Northern Rock achieves the required profitability from each mortgage. Since 2002, and in line with market practice, Northern Rock has increasingly offered products with shorter early repayment charge periods but with consequently lower levels of incentives, as well as tapering early repayment charges which reduce over the early repayment charge period. A "Base Rate Pledge" is also maintained whereby Northern Rock guarantees that the variable rate paid during the early repayment charge period will be the lower of Northern Rock's standard variable rate or the Bank of England's base rate plus an agreed percentage.

Northern Rock has increased its mortgage lending principally due to attractive pricing combined with effective distribution and processing. This growth has been achieved while maintaining arrears

levels at December 31, 2005, which were significantly below the UK industry average as shown in the following table:

Arrears[1]	Northern Rock	UK Industry Average[2]
	% of total mortgages	
3-6 months	0.31	0.54
6-12 months	0.08	0.30
Over 12 months	0.00	0.12
Total	0.39	0.96

Notes:

(1) For additional information regarding historical arrears levels, see "Selected Statistical Information – Analysis of Residential Mortgage Loans in Arrears" below.

(2) Source: Council of Mortgage Lender's figures for the year ended December 31, 2005.

Northern Rock has adopted a low risk policy to mortgage lending and utilizes a sophisticated credit scorecard to assist in minimizing credit risk. Credit assessment takes into account, among other things, income multiples, loan to value criteria, credit history and the amount of the loan. As noted above, Northern Rock's policy is for all residential mortgage loans to be first charges on the mortgaged property, and Management closely monitors exposure limits based upon loan-to-value ratios, loan size, and geographic distribution within its residential mortgage loan portfolio. For additional information regarding how the Group manages credit risk in connection with new lending, see "Financial Risk Management – Credit Risk". The Group's lending practices are consistent with other similar financial institutions operating in the United Kingdom. Such practices differ in certain respects from lending practices of similar institutions operating in the United States. See "Selected Statistical Data-Problem and Non-performing Loans and Advances-Differences in Lending and Accounting Practices" herein for additional information.

The proportion of Northern Rock's lending to first time buyers was 24% in 2005 compared with 21% in 2004 and 23% in 2003. Northern Rock also manages risk through monitoring LTVs. LTVs represent the percentage that a particular mortgage loan relates to the estimated value of the residential property securing such loan. In 2005 the average LTV of Northern Rock's new residential lending was 78% compared to 76% in 2004 and 75% in 2003. In 2005, lending in excess of 90% LTV was 30%, compared with 23% in 2004 and 26% in 2003. Northern Rock has almost no loans with an LTV ratio in excess of 95%. The trend of higher volumes of high LTV lending in 2005 and 2004, together with a reduction in house price inflation in recent years, have resulted in the average indexed LTV of Northern Rock's residential mortgage lending portfolio increasing to 58% as at December 31, 2005 from 53% as at December 31, 2004. Northern Rock also avoids large loans with only 3.4% of new lending above £500,000 in 2005.

In addition to new mortgage loans, Northern Rock offers further secured advances on existing mortgaged property to customers consistent with the lending criteria discussed above.

Commercial secured lending

Northern Rock engages in a limited amount of commercial secured lending. Commercial secured lending provides a diversification of assets and enhances interest margin for the Group. Northern Rock has a commercial loan portfolio which comprises two types of loans: loans secured on residential property and loans secured on non-residential property. Northern Rock also has securitized certain commercial loans that are secured on non-residential properties in connection with its securitization program. The amount outstanding in respect of these types of loans at December 31, 2005, was as follows:

Commercial Secured Loans	£ millions	% of total assets
Advances secured on residential property[1]	814	1.0
Advances secured on non-residential property	1,523	1.9
Total commercial secured loans	2,337	2.9

Note:

(1) For statutory reporting purposes, these advances are included within advances secured on residential property.

Commercial loans secured on residential property mainly consist of loans to individuals or corporates and residential investment property portfolios. In addition, there is a small historical element of social lending to organizations such as housing associations, also secured on residential property. Commercial loans secured on residential property attract the same regulatory risk weighting as advances to owner-occupiers secured on residential property if lending to an individual, or an increased regulatory risk weighting if lending to a corporate body.

Loans secured on non-residential property consist of more traditional types of commercial secured lending. Such loans represent loans to individuals or corporations to support investment in properties mainly for retail, office or industrial use. Loans secured on non-residential property have traditionally carried higher risk of default and accordingly carry a higher regulatory risk weighting than loans secured on residential property. As noted above, certain loans secured on non-residential property were securitized by Northern Rock during 2002. As at December 31, 2005, the balance of such loans amounted to £780 million.

Northern Rock closely monitors and controls the risks involved in commercial lending, specializing in lending to the investment property sector. The maximum LTV ratio for a commercial loan will depend on the quality of the borrower, tenants and assets. Close attention is also given to the borrower's ability to service the loan as well as the terms of underlying leases of tenants. In addition to individual loan underwriting criteria and management, Northern Rock has closely monitored portfolio exposure limits to control exposure to individual sectors, LTV, loan size and interest only periods.

Northern Rock's commercial loan portfolio continues to perform well with only ten loans (representing 0.42% of the total number of commercial loans) more than three months or more in arrears on December 31, 2005 as compared to 8 loans (representing 0.3% of the total number of commercial loans) more than three months or more in arrears at December 31, 2004.

Management intends to continue to grow its commercial secured loan portfolio cautiously during 2006 while maintaining the existing level of credit quality throughout the portfolio.

Personal unsecured lending

The Group also engages in personal unsecured lending. For the year ended December 31, 2005, gross lending attributable to personal unsecured loans was £2,853 million (of which £883 million related to "together" unsecured loans, and £1,970 million to stand-alone personal unsecured loans), as compared to £2,792 million for 2004. Year-end balances of personal unsecured lending totalled £5,843 million at December 31, 2005 compared with £4,643 million at December 31, 2004. Personal unsecured lending is considered to be an area of potential profitable growth for Northern Rock, particularly for such lending made as part of the "together" product which is considered to be a lower risk product as supported by its arrears performance.

The Group out-sources the processing and administration of part of its personal unsecured loan portfolio to Ventura, a UK company and part of the Next Group plc, which receives an administration fee. Northern Rock underwrites, prices and funds the loans, earning premium rates of interest compared to residential mortgage lending. Additional fee income is generated from the relationship with the customer through the sale of payment protection insurance. The "together" unsecured loans are administered in-house.

Personal unsecured lending carries more risk than residential mortgage lending and accordingly carries a 100% risk weighting for purposes of determining the Group's regulatory capital requirements. Default risk on personal unsecured lending is greater because such lending is unsecured. In order to mitigate such risks, Northern Rock uses a sophisticated credit scorecard designed to evaluate the borrower's ability to repay the loan. In addition, Northern Rock imposes a maximum limit on the size of personal unsecured loans and encourages customers to take out payment protection insurance. See "Financial Risk Management – Credit Risk" below for additional information regarding how the Group addresses credit risk in connection with new lending. At the end of 2005, only 0.98% of unsecured personal loans were three months or more in arrears, and only 0.78% of "together" unsecured accounts were three months or more in arrears as compared with 1.04% and 0.77%, respectively, at the end of 2004.

Insurance

In conjunction with its core business of providing residential mortgage loans, the Group is also involved in general insurance distribution, life assurance distribution and the provision of mortgage indemnity insurance.

General insurance distribution

Northern Rock distributes a limited range of household building and contents and payment protection insurance products, primarily to its residential mortgage customers, through third party providers. Under arrangements with third party providers, Northern Rock receives a commission on policies sold, but does not take any underwriting risk from policies. Building and contents policies are provided through an exclusive arrangement with Axa Insurance, a member of the Axa Group of companies. The Group also distributes payment protection products for mortgage and unsecured lending customers underwritten by Legal and General Insurance Limited and Pinnacle Insurance plc respectively, for which the Group receives commissions.

Commissions from general insurance sales provide an important source of non-interest income for the Group. The Group's strategy in general insurance is to continue to act solely as a distributor of a range of flexible insurance products, maintaining its existing insurance customer book through an active retention strategy and improving its sales to new borrowers and other customers. Management believes that strong competition in the market, particularly from direct insurance providers, will continue. In confronting this competition, Northern Rock's relationships with its third party providers should enable it to retain product and pricing flexibility and participate in profits without underwriting risk.

Life assurance distribution

The Group has a close relationship with Legal & General, a leading UK life assurance provider. Northern Rock's residential mortgage customers are routinely referred to Legal & General for advice on life assurance products, including endowment products. Northern Rock receives a commission for introducing these customers to Legal & General. Northern Rock plans to continue to act as an introducer for Legal & General.

Other Activities

Personal banking

Northern Rock provides a limited range of money transmission facilities, including check guarantee and debit cards, to its current account customers. At December 31, 2005, the Group had approximately 149,000 current accounts with balances of £226 million. Northern Rock's customers also have access to approximately 19,000 automated teller machines ("**ATMs**") through the LINK network in the United Kingdom which allows Northern Rock customers to engage in limited money transmission transactions at certain financial institutions other than Northern Rock.

Mortgage indemnity guarantee insurance

Northern Rock Mortgage Indemnity Company Limited ("**NORMIC**") is the Group's captive insurance company based in Guernsey. Up to December 31, 2002 NORMIC provided mortgage indemnity guarantee insurance to Northern Rock in the event of losses being incurred following repossession of a property from a defaulting borrower. As from January 1, 2003 Northern Rock ceased purchasing mortgage indemnity guarantee insurance from NORMIC. Existing cover remains in force; although coverage for mortgage loans is cancelled in the event that a further advance is granted with respect to those mortgage loans.

Retail Funding

At December 31, 2005, Northern Rock had retail funding deposits of £20.1 billion, representing a market share of approximately 1.8% of UK retail savings balances, based upon Bank of England statistics. Net new retail funding in 2005 amounted to £2,809 million, including interest credited of £565 million. Retail funding represented 26% of total funding, including securitized bonds, of the Group at December 31, 2005. Northern Rock intends that loans and advances not subject to securitization will be funded in the medium term at least 50% by retail funding.

Northern Rock provides a wide range of retail savings products, including demand deposit accounts, notice accounts and short term fixed rate bonds. In addition, Northern Rock provides tax efficient accounts (ISAs) and tracker accounts on which interest rates are automatically linked to UK bank base rates, as set by the Monetary Policy Committee of the Bank of England from time to time. Funding during the year was largely into Northern Rock's Silver Savings account for the over 50s, launched in September 2004 and supplemented in 2005 by the introduction of a 30 day notice account. For a discussion of how Northern Rock manages exposure to interest rate movements when there is a mismatch between interest rate sensitive assets (such as loans) and liabilities (such as retail deposits), see "Financial Risk Management – Mark Risk – Interest Rate Risk" and "– Interest Rate Sensitivity Cap" below.

Management believes that the primary determinant for attracting retail savings is the interest rate offered to savers. Accordingly, Northern Rock pursues a strategy of launching competitive products, utilizing its cost advantage. It gathers retail funds from a number of sources, namely its branch network, postal accounts; offshore accounts (administered in Guernsey and Ireland); telephone accounts gathered by its Save Direct division and internet-based deposit accounts.

The table below provides information regarding the various types of accounts through which the Group obtained retail funds as at December 31, 2005, 2004 and 2003:

	At December 31,		
	2005	2004	2003
	(£ millions)		
Branch accounts	5,114.7	3,084.4	2,437.2
Postal accounts	8,714.3	7,554.5	6,230.8
Offshore accounts	2,965.4	2,499.4	2,405.9
Telephone accounts	698.6	896.3	1,339.8
Internet accounts	2,047.9	2,503.4	2,891.4
Legal & General branded accounts	563.5	752.2	1,037.7
Total retail balances	20,104.4	17,290.2	16,342.8

In response to consumer concerns over industry practices relating to the introduction of new savings products, Northern Rock operates a "Savings' Pledge". The Savings' Pledge is designed to ensure that Northern Rock's retail savings customers receive notifications and other important information significantly in excess of the industry standards and those required to comply with the UK Banking Code. The Savings' Pledge assures that Northern Rock's retail savings' customers are notified in writing every time Northern Rock makes a change to the interest rate on their accounts, launches a new savings product which is available to the majority of them; or changes the terms and conditions on their accounts. Any decreases in rates of interest paid will be introduced only after a

period equivalent to any notice period on the account affected. Management believes that the Savings' Pledge gives Northern Rock a competitive advantage in the UK retail savings market.

The UK retail savings market has been subject to strong competition. During the late 1990s and 2000, new entrants such as insurance companies and certain retailers increased competition and since then competition has been maintained by the introduction of stand alone internet banks or brands. The effect of such competition has been an increase in the relative cost of retail funds and especially for new retail funds. Consequently, Northern Rock has funded its asset growth primarily through the wholesale markets, securitization and covered bonds whilst maintaining its market share of retail funds. Management expects this funding strategy to continue throughout 2006.

Treasury and Wholesale Funding

The Treasury department provides treasury services to the Group. It has three main objectives: (i) to manage the Group's liquidity and investments, (ii) to raise funds through the wholesale, covered bonds and securitization markets and (iii) to manage interest rate and currency risks. Total investment income from the Group's liquidity and investment activities amounted to £472.9 million for the year ended December 31, 2005, £410.3 million for the year ended December 31, 2004 and £256.6 million for 2003. Income from these activities accounted for 11.3% of total income for the year ended December 31, 2005, 12.7% of total income for 2004 and 10.95% of total income for 2003.

Northern Rock raises wholesale funds from a variety of sources, including time deposits, certificates of deposit, commercial paper and medium-term notes. Funding from wholesale, covered bonds and securitization markets, excluding subordinated liabilities, amounted to £13.5 billion at December 31, 2005, representing 82.8% of total funding.

Treasury aims to achieve a diversified source of wholesale funding both geographically and by categories of investors, as well as a range of maturities to prevent dependence on any particular funding sector. With regard to the geographical distribution of wholesale funding sources, a variety of programs are currently in place to raise both short-term and long-term funding globally, although principally in the US and Euro capital markets. With regard to categories of investors, such programs currently can access both institutional and retail investors in the Euro and French commercial paper and Euro medium-term note market, as well as institutional investors in the commercial paper and medium-term note markets in the United States.

Since 1999, Northern Rock has been a major issuer of securitized bonds. Securitization involves the sale of residential mortgage loans by Northern Rock at par to special purpose securitization companies, which fund their purchase through the issuance of mortgage backed securities. Northern Rock also makes interest bearing subordinated loans to the special purpose companies, the repayments of which are subordinated to the claims of the holders of the mortgage-backed securities. Other than the subordinated loan and the provision of mortgage indemnity guarantee insurance via a subsidiary company, with respect to certain of the securitized mortgage loans originated before January 1, 2003 (see "– Other Activities – Mortgage Indemnity Guarantee Insurance"), Northern Rock does not guarantee any of the liabilities of the special purpose companies.

In November 2005, Northern Rock completed its first Whinstone transaction transferring around 80% of the reserve fund risk relating to pre 2005 Granite residential mortgage securitizations to third party investors, therefore reducing the potential exposure to downturn credit risk. On June 20, 2006, a second Whinstone transaction was completed. These transactions reduce the level of core capital required under credit rating assessments of required capital as well as the regulatory capital deduction in respect of the reserve funds, thereby enhancing capital efficiency and more closely aligning regulatory and credit rating capital; an important step in advance of Basle II. By retaining a small portion of the first loss, Northern Rock continues to align the interests of securitization investors and the Company and demonstrates its confidence in the credit performance of the mortgage portfolios.

The following table sets out details of Northern Rock's securitization issues.

Securitization Company	Date	Gross assets securitized (£ millions)
Residential:		
Granite Mortgages 99-1 plc	October 1, 1999	600
Granite Mortgages 00-1 plc	March 1, 2000	750
Granite Mortgages 00-2 plc	September 25, 2000	1,300
Granite Mortgages 01-1 plc	March 26, 2001	1,500
Granite Mortgages 01-2 plc	September 28, 2001	1,500
Granite Mortgages 02-1 plc	March 20, 2002	2,420
Granite Mortgages 02-2 plc	September 23, 2002	2,748
Granite Mortgages 03-1 plc	January 21, 2003	3,010
Granite Mortgages 03-2 plc	May 21, 2003	2,495
Granite Mortgages 03-3 plc	September 24, 2003	2,225
Granite Mortgages 04-1 plc	January 28, 2004	3,472
Granite Mortgages 04-2 plc	May 26, 2004	3,650
Granite Mortgages 04-3 plc	September 22, 2004	4,000
Granite Master Issuer plc	Various	12,864[1]
Commercial:		
Dolerite Funding No. 1 plc	June 24, 2002	500
Dolerite Funding No. 2 plc	July 18, 2005	600
Whinstone Capital Management Limited	November 9, 2005	423

Note:

(1) A further £9,020 million of assets have been securitized via Granite Master Issuer plc since December 31, 2005.

Securitization provides Northern Rock with an alternative source of funding which is also capital efficient. Management intends to continue to use securitization as a funding source during 2006 and beyond. Already, as of January 25, 2006, a further securitization of £6.0 billion of residential mortgages has been completed and on May 25, 2006 a further £3.0 billion was completed.

The Group invests in a wide range of liquid assets, including fixed deposits, certificates of deposits, commercial paper, gilts, floating rate notes and structured investments to meet regulatory requirements and agreed operational limits. The Group does not operate trading portfolios although income maximization is targeted and profits are taken when opportunities arise. At December 31, 2005, 97% of treasury counterparty exposures were rated single A or better. There is no exposure to emerging markets or non-investment grade debt.

In 2005 Northern Rock raised €3.5 billion (£2.4 billion) from two further issues from its €10 billion covered bond programme established in 2004. This provided further ongoing diversification of the investor base. The second transaction raised funds with a maturity of 15 years priced at mid swaps plus 11bps helping to lower the average cost of new funding. To date in 2006, a further €2.0 billion of covered bonds were issued. The covered bonds are secured by a pool of ring-fenced residential mortgages. The credit risks associated with these loans have subsequently been transferred into the capital markets by means of synthetic securitization transactions (Graphite) providing further capital benefits.

Treasury provides risk management services to the Group and makes use of off-balance sheet instruments such as swaps, futures and options, which reduce the Group's exposure to changes in interest rates and currency rates. See "Financial Risk Management" below for further details of risk management.

Distribution Network

The Group operates a diversified, low cost distribution network. In addition to serving existing customers, this has enabled Northern Rock to grow its business while controlling costs. Northern Rock has centralized the administration of mortgages and savings products and increased the network's emphasis on sales. The distribution network is targeted to achieve volume growth principally in residential mortgage lending and insurance sales and to support the Group's retail

funding objectives. Developments in the network have focused on cost efficiency and meeting the needs of customers who are increasingly prepared to transact business by mail, telephone or by e-commerce.

The distribution network for the Group's products consists of the following:

- branches;
- intermediaries;
- mortgage sales centers;
- telemarketing;
- postal retail funding;
- offshore retail funding;
- regional commercial lending centers; and
- the internet.

Branches

Traditionally branches were a major source of mortgage lending and retail funding for retail banks. Northern Rock has achieved volume growth and geographical spread in its core markets through alternative and more cost efficient distribution means which have resulted in a reduction in its branch network, which is located mainly in the North of England.

All branches sell Northern Rock's core residential mortgage and retail savings products (excluding postal and telemarketing products), personal lending and third party insurance. Branches concentrate on customer service and selling new business and perform little mortgage processing, which has been centralized. There were 56 branches open at the end of 2005.

Northern Rock opened 2 new mortgage branches in major UK cities in 2005. In addition a further 5 are planned in each of 2006 and 2007. These outlets will enhance mortgage and personal lending distribution but do not currently provide retail deposit facilities (it is Northern Rock's intention to introduce retail deposit facilities into all mortgage branches from 2007).

Intermediaries

Distribution through intermediaries accounted for approximately 90% of new mortgage lending in 2005 as compared with 88% of new mortgage lending in 2004 and 87% in 2003. Distribution through intermediaries allows Northern Rock to achieve national distribution coverage. Such intermediaries range from large UK insurance companies to small independent mortgage advisors, which operate within "groups" or independently. Intermediaries are supported locally by business development sales teams. Depending on the arrangements in place between Northern Rock and a particular intermediary, intermediaries are compensated for introducing the mortgage business in line with general market practice. Management expects that strong relationships with intermediaries will continue to be an important element of Northern Rock's distribution strategy.

The processing of intermediary introduced business is primarily routed through Northern Rock's Online systems. Northern Rock launched a new online service for intermediaries in July 2005. Since then the proportion of online business has increased from 20% of all introduced business to around 70%. The online system provides instant decisions and allows the introducer to submit intelligent pre-populated applications. Online business is more efficient to process as the intermediary is inputting the application data which is automatically populated into Northern Rock's processing systems. This in turn improves the service the intermediary receives.

Mortgage sales branches

Northern Rock currently has 15 mortgage branches, mainly located in areas where Northern Rock does not have branches, including Central England and the South of England. Mortgage branches have been important in helping to establish a national lending base. Such branches are situated in good secondary locations, and are to be supplemented during 2006 and 2007 by the 10 new mortgage branches discussed above.

Telemarketing

Telemarketing plays an important role in generating retail funding and new residential mortgage lending.

Northern Rock Direct is a telephone-based direct marketing and selling operation. It sells mortgages and associated third party insurance products or creates leads for branches or mortgage sales centers through telephone contact with customers initiated by advertising and inclusion of products in "best buy" tables featured in most national and regional newspapers. Northern Rock also operates a stand-alone mortgage retention unit which is important in retaining existing customers.

Postal retail funding

On-shore postal-based savings accounts were introduced by Northern Rock in 1992. Fixed rate postal bonds having maturities of one year or more have proven to be popular with balances of £8.7 billion at December 31, 2005.

Offshore retail funding

Offshore postal, telephone and internet accounts, offered through Northern Rock (Guernsey) Limited, are aimed at attracting large value retail deposits. Northern Rock Ireland, a branch of Northern Rock based in Dublin, offers postal, telephone and internet accounts in the Irish market. At December 31, 2005, offshore balances amounted to £1.9 billion, with accounts offered in pounds sterling, US dollars and euro.

Regional commercial lending centers

Northern Rock operates a network of eight specialized regional commercial lending centers located in areas where Northern Rock has identified a demand for commercial loan finance.

Internet-based distribution

Northern Rock has adopted e-commerce as an integral part of the Group's distribution strategy and has not developed a stand-alone, separately branded internet bank.

The Northern Rock website provides current and potential customers, and intermediaries, with round-the-clock access to the Group's full range of mortgages, savings accounts, loans and other products. Separate sites are operated for offshore products offered by Northern Rock (Guernsey) Limited and Northern Rock Ireland.

In addition to providing the latest mortgage and savings rates, the website permits visitors to, among other things, apply on-line for a personal unsecured loan, submit a full mortgage application, complete a mortgage pre-qualification form, calculate repayments on mortgage products, save on-line and locate the nearest branch. Within the website, a dedicated area has been established to provide mortgage intermediaries with product information and obtain on-line decisions, submit applications and track their progress through to completion.

During 2005, an internet based savings account which moves in line with UK bank base rates continued to be popular. At the end of 2005, balances in this account amounted to £2.0 billion.

Lending business generated via the internet during 2005 amounted to loan applications of approximately £11.6 billion, with approximately 28% of such applications related to unsecured loans and 72% related to mortgages. These volumes represented approximately 28% of all mortgage applications, mainly via Northern Rock's intermediary online systems and 61% of unsecured loan applications.

Further development of internet activities will be focused on functions that are likely to generate significant levels of customer and intermediary demand, as well as cost effectiveness, while at the same time providing a secure and resilient environment for on-line users.

Capital Expenditures and Divestitures

Northern Rock, consistent with its core business of UK residential mortgage lending, has not undertaken significant capital expenditures (other than for head office expansion) or divestitures over the prior three year period. A summary of capital expenditures is set out in the following table.

	2005	2004	2003
		(£ millions)	
Land & Buildings	9.4	28.7	13.8
Plant, equipment, fixtures, fittings & vehicles	17.7	9.6	5.2
Computer software	21.8	22.1	24.6
Total	48.9	60.4	43.6

Northern Rock is expanding its main head office building in the North East of England. The total property costs associated with such building amounted to £38.5 million over the three years, ended December 31, 2005.

Capital divestitures over the prior three year periods are set out in the following table.

	2005	2004	2003
		(£ millions)	
Land & Buildings	4.2	4.2	0.2
Plant, equipment, fixtures, fittings & vehicles	1.0	1.5	1.0
Computer software	—	—	—
Total	5.2	5.7	1.2

Northern Rock does not currently have any material capital divestitures in progress. See Note 26 to the Consolidated Financial Statements included elsewhere herein for additional information regarding Northern Rock's tangible fixed assets as at December 31, 2005.

The Northern Rock Foundation

In connection with the conversion of Northern Rock to a public limited company on October 1, 1997, The Northern Rock Foundation was established as an independent charitable company limited by guarantee in England and Wales. The establishment of The Northern Rock Foundation was intended to express Northern Rock's commitment to its mutual history and to the region from which its business has drawn much of its strength. The Northern Rock Foundation has as its primary objective helping to improve the conditions of people disadvantaged by age, infirmity, poverty or other circumstances. Pursuant to a deed of covenant entered into by Northern Rock, The Northern Rock Foundation is entitled to receive 5% of Northern Rock's annual consolidated profit before tax. The Northern Rock Foundation has received non-voting and non-dividend paying Foundation Shares which would convert into just under 15% of the ordinary share capital of Northern Rock only in certain circumstances, principally involving a change in control of Northern Rock, in which event the deed of covenant would terminate.

Employees

The average number of persons employed by Northern Rock and its subsidiaries during the last three years is set forth below:

	Full Time Employees			Part Time Employees		
	2005	2004	2003	2005	2004	2003
Northern Rock core businesses	4,569	3,916	3,448	1,210	1,064	952

Property

The property interests of the Group at December 31; 2005, consisted of the following:

Type	Freehold	Long Term[1] Leasehold	Other Leasehold	Total
Branches[4]	27	0	28	55
Commercial Lending[2]	0	0	7	7
Head Office	1	4	1	6
Miscellaneous (Area offices, ATM and others)	1	1	22	24
Mortgage Processing	0	0	2	2
Mortgage branches	0	0	15	15
Non-operational	0	0	2	2
Vacant	0	0	1	1
Total	29	5	78	112

Notes:

(1) Long-Term Leaseholds generally consist of leaseholds in excess of 50 years unexpired.

(2) Commercial Lending Offices total 8 but one is based above a branch and is counted in the freehold branch category above.

(3) Northern Rock operates 3 Remote Mortgage Processing Centres but one is located above a branch office and the property is included in the freehold branch category above.

(4) Northern Rock operate 56 branches but one of these is a head office (staff facility) and the property holding is already included in the head office freehold category above.

Legal Proceedings

Northern Rock and its subsidiaries are party to various legal proceedings in the ordinary course of business, the ultimate resolutions of which are not expected to have a material adverse effect on the business, financial position or results of operations of the Group.

Enforcement of Civil Liabilities

Northern Rock is a public limited company incorporated and registered in England and Wales. All of its directors and executive officers are non-residents of the United States. All or a substantial portion of the assets of such non-resident persons and of Northern Rock are located outside the United States. As a result, it may not be possible for investors to effect service of process within the United States upon such persons or Northern Rock or to enforce them against them in United States courts' judgments obtained in such courts predicated upon civil liability provisions of the federal securities laws of the United States. Northern Rock has been advised by its UK counsel that there is doubt as to the enforceability in the United Kingdom, in original actions or in actions for the enforcement of judgments of US courts, of civil liabilities predicated solely upon the federal securities laws of the United States.

The following discussion is based on the Consolidated Financial Statements of the Group included elsewhere in this Offering Circular. This section contains forward-looking statements that involve inherent risks and uncertainties. Actual results may differ materially from those contained in such forward-looking statements. See "Forward-Looking Statements" above. As a consequence of the introduction of IFRS the 2005 balance sheet and income statement are subject to a certain amount of volatility particularly from the accounting for hedges deemed under IFRS rules to be ineffective, plus volatility arising from fair value movements on derivatives taken out in respect of certain financial liabilities and instruments included in non shareholders' equity which themselves are not subject to fair value treatment. Where appropriate, such volatility is excluded in the discussion below to enable management's view of underlying performance to be separately identified. Adjusted GAAP figures utilized in certain tables in this section and elsewhere in this Offering Circular reflect the non-recurring nature of certain items to aid compatibility between years. Unless as otherwise disclosed, all data presented below in the tables represents statutory information.

Critical Accounting Estimates

Critical accounting estimates are defined as those accounting policies that require management's most difficult, subjective or complex judgements, often as a result of the need to make estimates about the effect of matters that are inherently uncertain.

Management believes that of its critical accounting estimates (see Note 1 to the Consolidated Financial Statements), the following represent the Group's critical estimates.

Impairment losses on loans and advances

Individual impairment losses on loans and advances are calculated based on an individual valuation of the underlying asset. Collective impairment losses on loans and advances are calculated using a statistical model. The key assumptions used in the model are the probability of any account going into default in the next twelve months, the loss incurred in the event of possession or write off, the roll rates of borrowers moving from lower levels of arrears to serious arrears and possession or write off, and the time period from the date of the event causing the loss to the date of realisation of the property or write off. The probability of accounts going into default is based on application and behavioural scorecards, which are regularly recalibrated to take account of current circumstances. These key assumptions are based on observed data from historical patterns from lending over previous years and are updated regularly based on new data as it becomes available. In addition, management considers how appropriate past trends and patterns might be in the current economic situation and makes any adjustments that it believes to be necessary to reflect current conditions. The accuracy of the impairment calculation would therefore be affected by unexpected changes to the economic situation, inaccuracies within the models used compared to actual outcomes and assumptions which differ from actual outcomes.

Fair value calculations

Fair value is defined as the value at which assets, liabilities or positions could be closed out or sold in a transaction with a willing and knowledgeable counterparty. For the majority of instruments carried at fair value, these are determined by reference to quoted market prices. Where these are not available, fair value is based upon cash flow models, which use wherever possible independently sourced market parameters such as interest rate yield curves, currency rates and option volatilities. Other factors are also considered, such as counterparty credit quality and liquidity. Management must use judgement and estimates where not all necessary data can be externally sourced or where factors specific to Northern Rock's holdings need to be considered. The accuracy of the fair value calculations would therefore be affected by unexpected market movements, inaccuracies within the models used compared to actual outcomes and incorrect assumptions.

Average life of secured lending

IAS 39 requires interest earned from mortgage lending to be measured under the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash

receipts or payments through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset.

Management must therefore use judgement to estimate the expected life of each instrument and hence the expected cash flows relating to it. The accuracy of the effective interest rate would therefore be affected by unexpected market movements resulting in altered customer behaviour, inaccuracies in the models used compared to actual outcomes and incorrect assumptions.

Pension benefits

The present value of the pensions obligations is dependent upon an actuarial calculation which includes a number of assumptions. These assumptions include the discount rate, which is used to determine the present value of the estimated future cash outflows that will be required to meet the pension obligation. In determining the appropriate discount rate to use, the Group considers market yields of high quality corporate bonds denominated in sterling that have terms to maturity approximating the terms of the pension liability. Other key assumptions for pensions benefits including mortality tables are based in part upon current market conditions. Additional information is included in Note 7 to the Consolidated Financial Statements included on pages F-1 to F-118.

Results of operations for the year ended December 31, 2005, compared with the year ended December 31, 2004.

The 2005 results have been prepared using IFRS as approved by the International Accounting Standards Board that, under European Regulations, are effective or available for early adoption at the Group's first reporting date under IFRS, December 31, 2005 and which differ significantly to UK GAAP used in the preparation of previously reported financial statements.

Analysis of the results is complicated as a result of certain IFRS only having been applied from January 1, 2005. This means that the revised 2004 statutory results only include the impact of certain of the IFRS used in the preparation of the 2005 results. As a consequence Northern Rock has included in comparisons set out below, 2004 results prepared on a proforma basis, incorporating the impact of IFRS where it can be determined what the impact would have been if the accounting changes had been effective in 2004. This impact includes the treatment of interest income and fees and the reclassification of certain funding instruments from debt to non shareholders' equity but excludes the effects of accounting for derivatives under IFRS which differs from that applied under UK GAAP.

As a consequence of the introduction of IFRS the 2005 balance sheet and income statement are subject to a certain amount of volatility particularly from the accounting for hedges deemed under IFRS rules to be ineffective, plus volatility arising from fair value movements on derivatives taken out in respect of certain financial liabilities and instruments included in non shareholders' equity which themselves are not subject to fair value treatment. Where appropriate, such volatility is excluded in the discussion below to enable management's view of underlying performance to be separately identified.

Summary income statements shown on a reported statutory basis and on an underlying basis for 2005 and on a reported statutory and proforma basis for 2004 are set out as follows:

	2005		
	Statutory	Adjustments	Underlying
		(£ millions)	
Net interest income	752.3	(45.5)	706.8
Other income	129.0	—	129.0
Net hedge ineffectiveness and other unrealized fair value gains and losses[1]	(56.4)	56.4	—
Total income	824.9	10.9	835.8
Administrative expenses	(249.4)	—	(249.4)
Covenant to The Northern Rock Foundation	(24.7)	(0.5)	(25.2)
Operating expenses	(274.1)	(0.5)	(274.6)
Impairment losses on loans and advances	(56.6)	—	(56.6)
Profit before taxation	494.2	10.4	504.6
Income tax expense	(144.9)	(3.0)	(147.9)
Profit for the year	349.3	7.4	356.7
Attributable to:			
Appropriations	48.6	—	48.6
Profit attributable to equity shareholders	300.7	7.4	308.1
Total	349.3	7.4	356.7
Earnings per share (pence)	72.5p		74.3p

Note:

(1) The income statement shows "Net hedge ineffectiveness and other unrealised fair value gains and losses" as a negative figure of £56.4 million. This reduces to £10.9 million negative after the cost of interest implicit in forward exchange contracts is transferred to underlying net interest income.

	2004		
	Statutory	Adjustments[1]	Proforma
		(£ millions)	
Net interest income	466.9	145.8	612.7
Other income	252.3	(140.5)	111.8
Total income	719.2	5.3	724.5
Administrative expenses	(218.3)	1.4	(216.9)
Covenant to The Northern Rock Foundation	(21.6)	(0.5)	(22.1)
Operating expenses	(239.9)	0.9	(239.0)
Impairment losses on loans and advances	(48.5)	—	(48.5)
Impairment of fixed asset investments	4.5	—	4.5
Profit before taxation	435.3	6.2	441.5
Income tax expense	(125.8)	(1.9)	(127.7)
Profit for the year	309.5	4.3	313.8
Attributable to:			
Appropriations	—	42.6	42.6
Profit attributable to equity shareholders	309.5	(38.3)	271.2
Total	309.5	4.3	313.8
Earnings per share (pence)	74.9p		65.7p

Note:

(1) Proforma adjustments comprise the impact of spreading upfront lending fees and mortgage incentives over the expected life of a loan, the recognition of introducer fees within interest income and the treatment of the coupon payable on certain instruments as an appropriation.

Total assets on a statutory and underlying basis (excluding fair value adjustments) for 2005 are set out in the following table:

	2005	2004
	(£ millions)	
Statutory	82,709	64,881
Underlying	81,057	64,881

Overview

The Group reported statutory profit before taxation for the year ended December 31, 2005 of £494.2 million as compared with £435.3 million for the year ended December 31, 2004, an increase of 13.5%. Reported statutory profit for the year ended December 31, 2005 increased to £349.3 million from £309.5 million for the year ended December 31, 2004, an increase of 12.9%. Profit attributable to equity shareholders decreased by 2.8% to £300.7 million for the year ended December 31, 2005. On the same basis return on equity was 19.3% for the year ended December 31, 2005 compared to 21.6% for the year ended December 31, 2004.

Based on the year ended December 31, 2005 underlying results and the year ended December 31, 2004 proforma results, profit before taxation increased by 14.3% to £504.6 million with profit attributable to equity shareholders increasing by 13.6% to £308.1 million. On the same basis return on equity was 20.8% for the year ended December 31, 2005 compared to 20.9% for the year ended December 31, 2004.

Underlying interest margin increased to 0.97% for the year ended December 31, 2005 from 0.82% in the previous year on a statutory basis and decreased from 1.07% on a proforma basis determined as described above. On this basis, interest margin for 2005 is 10 bps lower than the full year in 2004, but only 3 bps lower than in the first half of 2005. During 2004, 3 month LIBOR was on average 26 bps higher than the Bank Base Rate. Although this differential reduced to 11 bps on average during

2005, there continued to be an adverse effect on the price of Northern Rock's LIBOR related funding. The underlying cost/income ratio for the year ended December 31, 2005 was 29.8% compared to a statutory ratio of 30.4% in 2004 and a proforma ratio of 29.9%. The cost/asset ratio improved to 0.34% from a statutory and proforma ratio of 0.37% in 2004.

Lending

During 2005 Northern Rock achieved record levels of total lending. Total gross lending for 2005 was £26,879 million, an increase of 15.2%, as compared with £23,342 million for 2004, with total net lending for 2005 of £14,555 million, an increase of 12.6% over the £12,932 million for 2004.

The UK residential lending market was weaker in the first half of 2005 compared with the equivalent period in 2004, as a result of falling consumer confidence and a slow down in the housing transaction market. The UK residential lending market improved in the second half of 2005, resulting in gross lending for the year of £287 billion, broadly unchanged from the £291 billion recorded in 2004. The slow down in the housing transaction market during 2005 has, however, resulted in net lending being down 9% at £92 billion for the year ended December 31, 2005 compared to £101 billion for the previous year. UK house prices grew by around 5% in 2005, compared with 15% in 2004 and 25% in 2003.

Northern Rock achieved gross residential lending in 2005 of £23,618 million compared with £20,051 million in 2004 and net residential lending of £13,350 million compared with £11,383 million in 2004, representing increases of 17.8% and 17.3% respectively. Northern Rock's market share of gross residential lending was 8.1% and its market share of net residential lending was 14.4%. Northern Rock's share of redemptions was 5.2%, significantly lower than the closing share of mortgage stock of 6.4%. This was due to Northern Rock's customer retention process and its fair and transparent policy of allowing existing customers, subject to contractual terms, to transfer their loan to any product available to new borrowers.

The "together" range of products, which combines a secured and unsecured loan at one interest rate and one monthly payment, remained popular. Gross lending of "together" products for 2005 amounted to £7.0 billion, of which £6.1 billion were advances secured on residential property representing 28.7% of new residential lending, excluding further advances. Outstanding balances of "together" mortgages have increased to 20.6% of the mortgage portfolio at the year end.

Residential Buy to Let lending focuses on lending to private investors secured on good quality residential properties with low LTVs. Such lending accounted for 4.9% of the year end mortgage portfolio, compared to 4.0% in 2004, and for 7.1% of gross new residential lending in 2005 compared to 6.4% in 2004.

Lifetime, aimed at homeowners aged over 60 who wish to utilize equity in their homes to enhance their lifestyle, accounted for 1.4% of new gross new residential lending in 2005, compared to 1.8% in 2004. In total the lifestyle products, which are margin enhancing, represented around 37.2% of gross new residential lending and 28.5% of year end mortgage balances compared to 25.3% in 2004.

Of the traditional price-led mortgage products, fixed-rate mortgages remained the most popular in 2005, with 25.3% of Northern Rock's new lending in short term fixed products of up to two years, and 28.8% of new lending in longer term fixed products, up to seven years. This demand reflected customers' preferences to obtain certainty of monthly repayments during a period of rising interest rates.

Competition in the commercial secured lending market remained strong throughout 2005. Both gross and net lending within Northern Rock's commercial lending portfolio slowed as a result of its emphasis on quality rather than volume lending. Gross lending in 2005 amounted to £408 million compared to £499 million in 2004, with net lending amounting to £5 million compared to £182 million in 2004.

Northern Rock's unsecured credit portfolios comprise the unsecured element of "together" lending and standalone unsecured loans not linked to a residential mortgage. During 2005 gross unsecured lending amounted to £2,853 million compared to £2,792 million in 2004, with net lending of £1,200 million compared to £1,367 million in 2004. Gross standalone unsecured lending amounted to £1,970 million compared to £2,068 million in 2004, with net lending of £744 million in 2005 compared to £1,104 million in 2004. Standalone unsecured gross lending has slowed in line with the number of borrowers who satisfy Northern Rock's credit score and its risk appetite. At December 31, 2005,

unsecured lending balances amounted to £5,789 million compared to £4,581 million as at December 31, 2004, of which 40.0% represented "together" unsecured advances in 2005 and 40.3% in 2004.

Retail Funding

Total retail deposit balances for 2005 increased by £2,809 million to £20.1 billion, an increase of 16.3% from £17.3 billion at December 31, 2004. This increase comprised a net inflow of retail funds for 2005 of £2,244 million plus interest credited of £565 million.

The funding during the year was largely into Northern Rock's Silver Savings account for the over-50s launched in September 2004 and supplemented in 2005 by the introduction of a 30 day notice account. Balances in the Ireland-based operation increased to £1,026 million, with £1,940 million in the Guernsey based off-shore vehicle; at December 31, 2004 these balances were £628 million and £1,871 million respectively.

Non-Retail Funding

Total net non-retail funding for 2005 amounted to £2,317 million with balances at December 31, 2005 amounting to £22.3 billion compared with £19.7 billion at December 31, 2004. Northern Rock's non-retail funding provides a balanced mixture of short and medium-term funding with increasing diversification of the global investor base.

During the first half of 2005, Northern Rock repaid net £2.2 billion, mainly short term funds, following securitization issues. In the second half it raised a net £4.5 billion leaving a full year net funding of £2.3 billion. During the year, Northern Rock raised £2.6 billion medium term wholesale funds from a variety of globally spread sources, with specific emphasis on the US and Europe. This included a US$1.75 billion Extendible Quarterly Securities issue sold to domestic US investors and a US$1.5 billion Floating Rate Note issue sold in Asia and Europe.

Key developments for short term funding included the establishment of a CAD$2 billion Canadian Commercial Paper Programme which provides access to domestic Canadian investors. This program had outstanding balances of CAD$850 million at December 31, 2005.

Securitization

Funding through securitization has remained an integral part of Northern Rock's funding strategy. During 2005, Northern Rock completed four issues raising £12.9 billion. Diversification of Northern Rock's investor base has continued with over 75% of the securitized bonds in 2005 issued in US dollars or euros. The characteristics of the mortgages securitized, in terms of product type, LTV and geographic distribution remain similar to those of Northern Rock's on-balance sheet mortgages.

At December 31, 2005 advances to customers subject to securitization amounted to £39.1 billion compared with £21.9 billion at December 31, 2004, representing 56% and 40% respectively of Northern Rock's total lending portfolios.

Northern Rock has already completed two further securitizations of residential mortgages in 2006 raising £9.0 billion.

Covered Bonds

In 2005 Northern Rock raised €3.5 billion (£2.4 billion) from two further issues from its €10 billion covered bond programme established in 2004. This provided further ongoing diversification of the investor base. The second transaction raised funds with a maturity of 15 years priced at mid swaps plus 11bps helping to lower the average cost of new funding. The covered bonds are secured by a pool of ring-fenced residential mortgages. The credit risks associated with these loans have subsequently been transferred into the capital markets by means of synthetic securitisation transactions (Graphite) providing further capital benefits.

Underlying/proforma net interest income and total income

The introduction of IFRS in 2005 results in significant changes in the presentation and reporting of interest and non-interest income. Upfront lending fees are now spread over the expected life of a loan and included in interest income resulting in a deferral of reported income. Introducer fees are also now recognized within interest income and spread over the expected life of a loan, rather than, as previously, the life of the customer relationship, resulting in an acceleration of the recognition of the cost. Mortgage incentives continue to be offset against interest income but are now spread over the

expected life of a loan rather than over the early repayment charge period. In addition, following the re-classification of certain instruments from debt to equity, the coupon payable on these instruments is now excluded from interest expense and is treated as an appropriation. As these accounting changes were introduced on a statutory basis with effect from January 1, 2005 Northern Rock has prepared comparable 2004 figures on a proforma basis as well as on the statutory basis.

The following table reconciles net interest income and total income on a reported statutory (excluding hedge ineffectiveness) and underlying basis for 2005 and on a reported statutory and proforma basis for 2004.

	For the year ended December 31,	
	2005	2004
	(£ millions)	
Reported statutory net interest income	752.3	466.9
Interest implicit in forward exchange contracts	(45.5)	—
Impact of IFRS	—	145.8
Underlying/proforma net interest income	706.8	612.7
Reported statutory other income	129.0	252.3
Impact of IFRS	—	(140.5)
Underlying/proforma other income	129.0	111.8
Reported statutory total income (excluding hedge ineffectiveness)	881.3	719.2
Underlying/proforma total income	835.8	724.5
Based upon the above table total income ratios are as follows:		
Reported statutory		
Total income: mean total assets	1.19%	1.23%
Total income: mean risk weighted assets	3.57%	3.37%
Underlying/proforma		
Total income: mean total assets	1.15%	1.24%
Total income: mean risk weighted assets	3.41%	3.43%

Net Interest Income

The table below sets forth information regarding net interest income for the years ended December 31, 2005 and 2004.

	For the year ended December 31,	
	2005	2004
	(£ millions)	
Interest and similar income:		
On secured advances	3,220.2	2,303.4
On other lending	337.0	323.5
On investment securities and deposits	499.5	362.5
Total interest and similar income	4,056.7	2,989.4
Interest expense and similar charges		
On retail customer accounts	841.7	689.7
On other deposit accounts	2,398.7	1,714.5
On subordinated liabilities	53.7	85.5
On tier one notes	14.0	13.0
On reserve capital instruments	(3.7)	19.8
Total interest payable	3,304.4	2,522.5
Total net interest income	752.3	466.9

Interest and similar income for the year ended December 31, 2005 increased to £4,056.7 million from £2,989.4 million in 2004, an increase of 35.7%. Underlying interest income and similar income increased to £4,056.7 million in 2005 compared to £3,074.3 million on a proforma basis in 2004, an

increase of 32%. The increase reflects a 27.4% increase in average interest earning assets from £57,071.3 million in 2004, to £72,730 million in 2005 and an increase in the average interest rate earned on such assets of 0.34% to 5.58% in 2005 compared with 5.24% in 2004, an increase of 6.5%. The average rate earned on loans and advances to customers increased from 5.42% in 2004 to 5.76% in 2005, an increase of 6.3%

The average rate earned on wholesale debt and money market instruments, which are primarily LIBOR denominated assets, increased from 4.33% in 2004 to 4.49% in 2005, an increase of 0.16% compared with an increase in the average 3 month LIBOR rate of 0.12%. This increase primarily relates to the increase in the 3-month LIBOR during the year.

Interest expense increased to £3,304.4 million in 2005 from £2,522.5 million in 2004, an increase of 31.0%. Underlying interest expense increased to £3,349.9 million in 2005 compared to £2,461.6 million on a proforma basis in 2004, an increase of 36.1%. This reflects an increase in average interest bearing liabilities of 25.4% and an increase in the average interest rate paid of 0.20% from 4.50% in 2004 to 4.70% in 2005. The growth in average interest bearing liabilities was £14,241.8 million. Retail customer accounts increased by £2,471.4 million and wholesale funded liabilities increased by £12,685 million.

The increase in average interest rate paid amounts to 0.20% compared with the increase in the average UK bank base rate of 0.27% and an increase in the average three month LIBOR rate of 0.12%.

The average rate paid on retail customer accounts increased by 0.25%, broadly in line with the increase in the average UK bank base rate. Wholesale funding incurred an average rate of 4.76% in 2005, an increase of 0.21% compared with 4.55% in 2004. This increase is more than the increase in the average three month LIBOR rate of 0.12%, reflecting the re-pricing of Northern Rock's funding as LIBOR rates increased during the year.

Net interest income for the year ended December 31, 2005, was £752.3 million, an increase of 61.1% compared with £466.9 million in 2004. Underlying net interest income increased to £706.8 million for the year ended December 31, 2005 compared to £612.7 million on a proforma basis for 2004, an increase of 15.4%. The increase in net interest income reflects the growth in average interest earning assets, outweighing the effects of the decrease in net interest margin from 0.97% to 0.82%.

The following table presents information regarding interest income (as a percentage of average interest earning assets) and interest expense (as a percentage of average interest bearing liabilities), net interest spread, net interest margin and UK general interest rates for the years ended December 31, 2005 and 2004. The figures contained in the table are calculated from the Average Balance Sheets and Interest Rates presented under "Selected Statistical Information – Average Balance Sheet".

	For the year ended December 31,	
	2005	2004
Interest income as a percentage of average interest earning assets	5.58%	5.24%
Interest expense as a percentage of average interest bearing liabilities	4.70%	4.51%
Net interest spread[1]	0.87%	0.73%
Net interest margin[2]	1.03%	0.82%
Average UK bank base rate	4.65%	4.38%

Notes:

(1) Net interest spread represents the difference between the gross yield and the interest expense as a percentage of average interest bearing liabilities. Net interest spread, gross yield represents interest income as a percentage of average interest earning assets.

(2) Net interest margin represents net interest income as a percentage of average interest earning assets.

Other Income

The table below contains details of the items included in other income for the years ended December 31, 2005 and 2004.

	For the year ended December 31,	
	2005	2004
	(£ millions)	
Fee and commission income	157.0	305.1
Fee and commission expense	(28.9)	(64.5)
Other operating income	0.9	11.7
	129.0	252.3

Other income decreased by 48.9% from £252.3 million in the year ended December 31, 2004 to £129.0 million in 2005 on a statutory basis. On a proforma basis non interest income increased by 15.4% from £111.8 million in the year ended December 31, 2004 to £129.0 million in 2005.

Fee and commission income represents commission earned on the sale of third-party insurance and payment protection products to new customers. This source of revenue remained relatively static year-on-year due to reduced sales penetration of new customers and continued high levels of cancellations, both reflecting the benign economic conditions in the UK. Where fees charged on loans are integral to the loan yield, they are classified to interest and similar income, in accordance with the effective interest rate rules of IAS 39. As noted earlier, IAS 39 does not require retrospective adoption. Accordingly the statutory results for the year ended December 31, 2004 above include certain fee and commission income which is included within interest income in 2005 (see previous discussion of Net Interest Income).

Operating Expenses

The table below shows operating expense data for Northern Rock based upon Northern Rock's consolidated results of operations for the years ended December 31, 2005 and 2004.

	For the year ended December 31,	
	2005	2004
	(£ millions)	
Operating Expenses		
Total staff costs	144.5	119.6
Other expenses	81.6	80.5
Depreciation and amortisation	23.3	18.2
Total operating expenses	249.4	218.3
Covenant to The Northern Rock Foundation	24.7	21.6
Total operating expenses	274.1	239.9

Total operating expenses (excluding the covenant to The Northern Rock Foundation) grew to £249.4 million in 2005 from £218.3 million in 2004 representing an increase of 14.2% over statutory operating expenses, and 15% over proforma operating expenses of £216.9 million in 2004. The increase of 15% compares with an underlying increase in underlying assets of 24.9% over 2004 and a rise in underlying income of 15.4% resulting in a cost to asset ratio of 0.34% (2004 statutory – 0.37%, proforma – 0.37%) and a cost to underlying income ratio of 29.8% (2004 statutory – 30.4%, proforma – 29.9%).

The increase in staff costs reflects a 16% increase in staff numbers in response to increased business volumes, salary increases and profit related bonuses. Other expenses increased due to business volumes and depreciation increased primarily due to amortization of head office development costs.

The covenant to The Northern Rock Foundation amounted to £24.7 million for the year ended December 31, 2005, representing 5% of Northern Rock's profit before tax for the year.

Impairment Losses on Loans and Advances

The following table shows the impairment losses on loans and advances in Northern Rock's consolidated profit and loss accounts for the years ended December 31, 2005 and December 31, 2004.

	For the year ended December 31,	
	2005	2004
	(£ millions)	
Increase in the allowance during the year:	66.2	51.4
Adjustment resulting from recoveries:	(9.6)	(2.9)
Total	56.6	48.5

The impairment losses on loans and advances for the year ended December 31, 2005 increased by £8.1 million to £56.6 million compared with £48.5 million in 2004, primarily reflecting growth in all loan portfolios. The allowance for loan losses balance at December 31, 2005, was £124.3 million (0.18% of loans and advances to customers) compared with £123.6 million (0.23% of loans and advances to customers) at December 31, 2004.

Profit Before Taxation

The table below provides an analysis of profit before taxation for the years ended December 31, 2005 and 2004.

	For the year ended December 31,	
	2005	2004
	(£ millions)	
Profit before taxation	494.2	435.3

Profit before taxation increased to £494.2 million for the year ended December 31, 2005, from £435.3 million for the year ended December 31, 2004, an increase of 13.5%. Based on 2005 underlying results and the 2004 proforma results, profit before taxation increased by 14.3% to £504.6 million.

Income tax expense

Reported income tax expense for the year ended December 31, 2005 increased by £19.1 million to £144.9 million as compared with the year ended December 31, 2004. The effective tax rate for the year was 29.3% compared with the standard UK corporate tax rate of 30.0%.

Profit for the year

The table below provides an analysis of profits on ordinary activities after tax for the years ended December 31, 2005 and 2004.

	For the year ended December 31,	
	2005	2004
	(£ millions)	
Profit for the year	349.3	309.5
Attributable to:		
Appropriations	48.6	—
Profit attributable to equity shareholders	300.7	309.5
Profit for the year	349.3	309.5

Profit for the year increased to £349.3 million for the year ended December 31, 2005, compared with £309.5 million in 2004, an increase of 12.9%. Based on 2005 underlying results and the 2004 proforma results, profit attributable to equity shareholders increased by 13.6% to £308.1 million.

Return on equity for the year ended December 31, 2005 was 20.8% on an underlying basis and 19.3% on a statutory basis compared with 20.9% in 2004 on a proforma basis and 21.6% on a statutory basis. The return on mean assets decreased by 0.12% to 0.41%, from 0.53% in 2004 on a statutory basis. Based on 2005 underlying results and the 2004 proforma results, return on mean assets decreased by 0.05% to 0.42%.

Liquidity and Capital Resources

The FSA requires the Group to be able to meet its sterling obligations without recourse to the wholesale money markets for a period of at least five business days, and Northern Rock manages its cashflow on a daily basis in order to meet this requirement. The Board has approved a Liquidity Policy Statement which is compliant with the supervisory framework set by the FSA and ensures that the Group is able to meet retail deposit withdrawals, repayments of wholesale borrowing and current lending objectives. For a description of the Liquidity Policy Statement and how the Group manages liquidity risk, see "Financial Risk Management – Liquidity Risk" herein.

Capital adequacy and capital resources are monitored by the Group on the basis of techniques developed by the Basel Committee on Banking Supervision ("**Basel Committee**") as adopted in the European Union pursuant to the Banking Consolidation Directive ("**BCD**") and the Capital Adequacy Directive ("**CAD**") and as implemented in the United Kingdom by the FSA. The basic instrument of capital monitoring is the risk asset ratio as developed by the Basel Committee. This ratio derives from a consideration of capital as a cover for the credit risk inherent in Group assets. The Basel Committee sets a minimum risk asset ratio for international banks of 8%. The FSA sets minimum risk asset ratios on an individual basis for the banks it supervises. These are set with regard to the minimum standards set by the Basel Committee and the particular circumstances of each bank.

Capital is defined by reference to the BCD, and divided into "**Tier 1**" capital, "**Tier 2**" capital and "**Tier 3**" capital. Tier 1 capital consists of ordinary and preference shareholders' funds after deducting goodwill. Tier 2 capital includes general provisions and certain debt capital instruments, particularly dated and undated subordinated debt. Tier 3 (or ancillary) capital consists of short-term subordinated debt and minority interests in Tier 3 capital. The BCD and the CAD will be "recast" on July 20, 2006 as amended as a result of the EU's adoption of the New Basel Capital Accord. See "Supervision and Regulation – New Basel Capital Accord" herein.

The table below analyzes the Group's consolidated capital resources at December 31, 2005 and 2004:

	2005	2004
	(£ millions, except percentages)	
Tier 1 Capital:		
Share capital	123.9	123.9
Share premium account	6.8	6.8
Capital redemption reserve	7.3	7.3
Retained earnings	1,426.5	1,401.6
Pension scheme	23.1	34.8
Reserve capital instruments	299.3	300.0
Tier one notes	223.9	200.0
Goodwill and intangible assets	(78.2)	(73.1)
Total Tier 1 capital	2,032.6	2,001.3
Upper Tier 2 Capital:		
Perpetual subordinated debt	736.5	746.4
Collectively assessed impairment allowances	119.0	83.1
Total Upper Tier 2 capital	855.5	829.5
Lower Tier 2 Capital:		
Term subordinated debt	785.3	769.3
Total Tier 2 Capital	1,640.8	1,598.8
Deductions	(449.8)	(374.7)
Total capital	3,223.6	3,225.4
Total Risk Weighted Assets	26,295.9	23,030.9
Risk asset ratios:		
Tier 1 ratio	7.7%	8.7%
Total capital	12.3%	14.0%

On June 29, 2006 Northern Rock issued £400 million of non cumulative preference shares. Except for the issuance of £400 million non cumulative preference shares noted above, there has been no material change in the Group's consolidated capital resources since December 31, 2005.

Although management believes that Northern Rock could operate with a lower level of Tier 1 capital, it has maintained Tier 1 and total capital ratios above the minimum standards for Northern Rock, as set by the FSA, in order to maintain the continued confidence of investors. Management intends to continue to manage Northern Rock's capital position with a view to optimizing shareholder value while at the same time considering the interests of customers and investors.

Northern Rock raises no capital through off balance sheet entities nor does it use off-balance sheet entities to manage its capital on a temporary basis. The sale of mortgage loans to securitization special purpose vehicles ("**SPVs**") results in reduced regulatory capital requirements. However, there are no circumstances under which Northern Rock can be forced to re-acquire these loans, nor are there any circumstances that could necessitate further capital backing for these loans. To the extent that losses in securitization vehicles could impact on Northern Rock, a deduction is made from regulatory capital, thus ensuring full protection of deposits against such losses. This is in respect of the subordinated loans granted by Northern Rock to the vehicles to provide a first loss reserve fund.

A discussion of Northern Rock's use of financial instruments and its treasury activities and policies is included under "Description of Northern Rock and its Business – Treasury and Wholesale Funding", "– Selected Statistical Information – Average Balance Sheets and Interest Rates" and "Quantitative and Qualitative Disclosures of Market Risk-Financial Risk Management".

Funding Sources

Northern Rock raises funds from a wide diversity of markets, both retail and wholesale, together with its use of covered bonds and mortgage securitizations. Retail funding is raised principally in the United Kingdom, although funds are also raised through offshore funding vehicles located in Guernsey and the Republic of Ireland. These vehicles enable Northern Rock to raise retail funds from other markets and lessens dependency upon the United Kingdom. Of the Group's total retail deposit base of £20.1 billion at December 31, 2005, just under £3.0 billion was held through offshore vehicles.

The retail deposit base predominantly has a short legal maturity profile, with accounts traditionally being instant access or available on a short notice period, albeit with an interest penalty for early withdrawal. Whilst this results in a mismatch of maturity dates between assets and liabilities, Northern Rock has received positive flows of funds from retail deposits consistently in all but one of the last 16 half years, showing an ability to continue to attract retail funds through a very competitive period in the market. More recently, as interest rates have fallen, depositors have sought to protect their return. As a consequence one year or longer fixed rate accounts have become popular. At December 31, 2005 Northern Rock had attracted £5.2 billion into such accounts, representing 26% of total retail deposits.

Wholesale funding is also raised from a number of sources and over a range of maturities, to ensure that there is no over dependence on any one market or type of counterparty. Funds are raised in three main currencies, Sterling, US Dollars and Euros, and from three main areas – the United Kingdom, the United States and continental Europe. Short-term deposits are taken from banks and other corporate sources through time deposits. In addition, use is made of European, US, French and Canadian Commercial Paper (ECP, USCP, French and Canadian CP) programs and also of European and US Medium Term Note programs (EMTN and USMTN), Australian Debt Issuance Program and the Covered Bond Program (Covered Bonds). These programs ensure a diversity of source, maturity and counterparty to minimize risk to the funding program from localized economic impacts. The program sizes and amounts drawn down at December 31, 2005 are set out below:

	Outstanding $bn	Program Size $bn
ECP	2.0	4.0
USCP	2.4	5.0
EMTN	11.2	15.0
USMTN	5.4	10.0
	€bn	**€bn**
French CP	0.9	4.0
Covered Bonds	5.5	10.0
	CAD $bn	**CAD $bn**
Canadian CP	0.9	2.0

Since December 31, 2005, the following program has been established, with the size and amount drawn down set out below:

	Outstanding A$bn	Program Size A$bn
Australian Debt Issuance Program	1.2	2.0

Within its funding program, Northern Rock has no repayment triggers relating to credit rating downgrade or to any profitability or earnings per share ratios.

In addition to its funding programs, Northern Rock has bank credit agreements providing backup for its US Commercial Paper Program to a total value of $600 million, and a further multi-currency revolving credit facility of £750 million (a five year facility negotiated in 2003). There were no outstanding balances in relation to these facilities at December 31, 2005. Since December 31, 2005,

an additional $50 million bank credit agreement has been established to provide backup for its Australian Debt Issuance Program which includes the ability to issue A$ short term notes.

The main factor impacting upon the cost of, and access to, wholesale funding markets is Northern Rock's credit rating. Northern Rock's current ratings are set out below:

	Short Term	Long Term
S&P	A1	A
Moody's	P1	A1
Fitch	F1	A+
Dominion Bond Rating Service	R-1M	

The third main source of funding to Northern Rock is its securitization program. By December 31, 2005, a total of £42.6 billion of residential mortgage loans had been transferred to SPVs, funded by the issue of residential mortgage backed securities in the UK, European and US markets. A further £1.1 billion of commercial mortgage loans were transferred to an SPV (£500 million in 2002 and £600 million in 2005) funded by the issue of commercial mortgage securities in the United Kingdom and Europe. Already, as of January 25, 2006, a further securitization of £6.0 billion of residential mortgages has been completed and on May 25, 2006 a further £3.0 billion was completed.

Northern Rock acts as servicer to the mortgage loans transferred to the SPVs, and also swaps the SPVs' cash receipts from interest payments based on mortgage interest rates into payments based on floating rate LIBOR so that both interest income and expense within the SPVs are determined on the same basis. If Northern Rock were to be downgraded by S&P or Fitch Ratings Ltd ("**Fitch**") below its current long term rating, or downgraded by two grades by Moody's, it would no longer be able to act as a basis swap provider. It would then need to find a new swap counterparty, which would reduce earnings from the SPVs due to the cost of the third party swap provider. It is not anticipated that the effect of any such substitution on the income earned from the SPVs would be material to Northern Rock.

Northern Rock's total debt and its commitments by maturity at December 31, 2005 are set out in the following table:

	Payments due by period			
	Less than 1 year	1 year to 5 years	After 5 years	Total
	(£ millions)			
Contractual obligations				
Deposits by banks	1,358.8	74.9	103.1	1,536.8
Customer accounts	21,788.4	1,884.2	—	23,672.6
Derivative financial instruments	308.5	457.4	80.2	846.1
Debt Securities in issue	12,017.3	6,037.0	34,080.3	52,134.6
Subordinated liabilities	—	—	785.3	785.3
Tier 1 notes	—	—	223.9	223.9
Other liabilities	823.5	1.4	72.9	897.8
Total	36,296.5	8,454.9	35,345.7	80,097.1

	Amount of commitment expiring in:			
	Less than 1 year	1 year to 5 years	After 5 years	Total
	(£ millions)			
Capital commitments	22.0	—	—	22.0
Irrevocable undrawn loan facilities	3.0	13.0	2,084.3	2,100.3
Leasing commitments:				
Land and buildings	0.1	0.8	3.3	4.2
Other	0.1	4.1	—	4.2
Total	25.2	17.9	2,087.6	2,130.7

The table below presents an analysis of short-term assets versus short-term liabilities as at December 31, 2005 and 2004.

	At December 31	
	2005	2004
	(£ millions)	
Short-term assets (maturities 1 year or less)		
Cash	12.1	10.2
Loans and advances to banks	5,073.8	3,305.4
Loan advances to customers	2,307.3	906.3
Debt securities (under UK GAAP)	n/a	761.9
Investment securities	854.3	n/a
Short-term assets	8,247.5	4,983.8
Short-term liabilities (repayable in 1 year or less)		
Deposits by banks	1,358.8	1,041.3
Customer accounts	21,788.4	18,434.0
Debt securities in issue	12,017.3	10,188.6
Subordinated liabilities	—	61.5
Other liabilities	823.5	335.6
Total short-term liabilities	35,988.0	30,061.0

The ratio of short-term assets to short-term liabilities at December 31, 2005 and December 31, 2004 were 22.9% and 16.6%, respectively.

Derivative financial instruments

Derivative financial instruments are used to hedge all exposure on balance sheet assets and liabilities. Northern Rock does not engage in any off balance sheet trading activities in derivatives, or take any off balance sheet trading positions. Prior to the introduction of IFRS with effect from January 1, 2005, derivative financial instruments were recorded as off balance sheet items. The table below shows the underlying principal amounts, the fair values of derivatives by type of contract at December 31, 2005. Northern Rock did not adopt IAS 32 and 39 until January 1, 2005. The disclosures relating to December 31, 2004 are those required under FRS 13 under UK GAAP, the relevant standard at that date.

2005

	Contract/ notional amount	Fair values	
		Assets	Liabilities
		(£ millions)	
Derivatives in accounting hedge relationships			
Derivatives designated as fair value hedges			
Interest rate swaps	37,159.8	134.5	(210.3)

FINANCIAL RISK MANAGEMENT

Risk Management

The management of risk is fundamental to the business of banking and is an integral part of the Group's strategic focus. The Group's risk management structure begins with oversight responsibility by the Board. In fulfilling its task it must ensure that management undertakes the necessary action to identify, measure, monitor and control risks. It does this by agreeing strategic annual operational plans and policy statements. On a regular basis it reviews actual results against budgets, forecasts and other key business measures. The Board has created committees which *inter alia* assist it to fulfill its risk management functions.

The Audit Committee reports to the Board on all matters relating to regulatory, prudential and accounting matters affecting the Group. It is also responsible for ensuring that an effective system of internal control is maintained. It receives regular reports on matters within its terms of reference from the External Auditors, the Chief Internal Auditor and the Group Compliance function.

The Risk Committee reports to the Board on all significant matters relating to the Group's risk strategy and policies. It is also responsible for reviewing credit risk, interest rate risk, liquidity risk and operational risk exposures as well as capital adequacy.

The Management Board comprises the Executive Directors and other senior executives. It facilitates the Group's effective operation so that it meets its strategic and operational objectives. The Asset and Liability Committee oversees the management and review of the Group's Balance Sheet risk profile together with the Group's liquidity and Operational Risk profile.

The Director of Risk works with management to identify and assess the key risk exposures of existing and new business activities and assists business functions to formulate and implement appropriate risk management policies, methodologies and infrastructure. Each business area is responsible for the identification and quantification of their particular risk exposures and implementing risk management policies and procedures agreed by the Management Board and the Board.

Through its normal operations, the Group is exposed to a number of risks; the most significant of which are liquidity, credit, operational and market risk. The Group's approach to managing these risks is set out below.

Liquidity Risk

Liquidity risk arises from the mismatch in the cashflows generated from on-balance sheet assets and liabilities and the net interest flows on off-balance sheet instruments such as interest rate swaps. The FSA requires the Group to be able to meet its sterling obligations without recourse to the wholesale money market for a period of at least five business days, and the Group measures and manages its cashflow on a daily basis in order to meet this requirement.

To meet the foregoing requirements, the Board has approved a Liquidity Policy Statement which is compliant with the supervisory framework set by the FSA. Those policies ensure that the Group is able to meet retail deposit withdrawals (either on demand or at contractual maturity), to repay wholesale borrowing as they mature, and to meet current lending objectives. This is achieved by managing a diversified portfolio of high quality liquid assets, and a balanced maturity portfolio of wholesale and retail funds. Longer term funds are raised through Northern Rock's Medium-Term Note programs. Monthly reports are made to the FSA covering sterling liquidity, while for other currencies a series of periodic returns are made covering non-sterling balances and their maturities.

In addition to approving permissible categories of liquid assets which may be purchased, the Liquidity Policy Statement sets forth approved operational limits and established operational guidelines for managing the Group's liquidity risk. Liquidity levels are monitored daily by the Treasury director and a daily cashflow liquidity report and sterling stock liquidity report are produced by the settlement back office and sent to the Treasurer director. Other daily reports are prepared including, among other things, daily movements; a portfolio analysis and a maturity profile. In addition, a monthly liquidity report is submitted to the Board analyzing the liquid assets and showing the relevant percentages of each type of instrument held by the Group. The Board is required to review the Liquidity Policy Statement on an annual basis.

The high quality of the liquidity portfolio is reflected by the credit ratings of the counterparties with whom Treasury deal, whereby 97% of counterparty exposures are rated single "A" or better. The

residual element of the portfolio is invested mainly in investment grade assets and unrated credits, mainly UK building societies.

Credit Risk

Credit risk is the potential risk of financial loss arising from the failure of a customer or counterparty to settle its financial and contractual obligations. Credit risk occurs mainly in the Group's loans and investment assets, and in derivative contracts. Prudent risk management is essential to ensure that the Group's cost advantage is not undermined by poor quality loans. Loss provisions for the year ended December 31, 2005, were £56.6 million, representing 0.08% of average loans and advances to customers compared with 2004 when loss provisions were £56.5 million (0.09% of average loans and advances to customers). See "Selected Statistical Information – Allowance for Loan Losses" below.

The overall day-to-day management of credit risk is delegated to individual business areas. Each business area utilizes various qualitative and quantitative techniques to measure and manage their respective credit risk exposures. The customer loan risk management process incorporates sophisticated credit scoring systems to assess the credit risk associated with residential mortgage loans and unsecured loans, both at individual transaction and portfolio levels. Credit exposure limits for corporates and financial institutions are primarily based on the credit ratings assigned by rating agencies. Credit limits are continually monitored and managed to ensure they remain within authorized counterparty credit limits approved by the Management Board. The majority of loans provided by Northern Rock are secured by UK residential properties.

Northern Rock's strategy is also designed to manage the quality of its residential mortgage portfolio as it grows. Accordingly, the Group reviews several key risk factors in managing the portfolio to ensure prudent new lending. Such factors include:

- *Emphasis on next time buyers and remortgage customers relative to first time buyers*: In Northern Rock's experience customers who have proven repayment records represent lower risk. Of Northern Rock's gross new residential mortgage lending in 2005, 39% was to next time buyers and 34% to remortgage customers.
- *Loan size*: Northern Rock's policy matches maximum loan-to-value ratios ("LTV") with permissible property values. Purchases up to £300,000 attract a maximum LTV of 95%, whereas purchases over £300,000 attract a maximum of 90%. During 2005 only 3.4% of new residential mortgage advances were over £500,000.
- *Geographic spread*: Distribution channels for new residential mortgage lending are designed to avoid excessive reliance on any one geographic region.
- *Size of loan relative to the value of the property*: Northern Rock's current policy is for at least 65% of new residential mortgage lending in any one year to have LTV ratios of 90% or lower.

Within the Group Treasury function, the overall policy is to minimise credit risk through the use of operational credit limits, credit authorisation and credit control and review. Credit limits authorised by Executive Management are established for specified counterparties. These limits are based on a number of factors including external and internal ratings and capital of Northern Rock plc. Group limits have been incorporated to ensure that Northern Rock plc does not exceed its exposure to either a single counterparty or group of closely-related counterparties. Country limits have been incorporated to ensure that Northern Rock plc does not exceed its exposure in a geographical region. Master netting agreements are in place with all derivative counterparties. In addition most of the exposures created by derivatives are mitigated through the use of collateral agreements negotiated with derivative counterparties. Other techniques (including margining, credit breaks, compounding, termination and credit derivatives) are used periodically to mitigate the credit risk associated with particular transactions or group of transactions.

Operational Risk

Operational risk is the risk of business opportunities foregone, reputational damage or financial losses, resulting from inadequacies or failures in internal processes, people or systems, or from external events. The three main categories of operational risk losses are direct financial losses, indirect losses

due to impairment of the Group's reputation; and potential earnings foregone as a result of the lack of operational capability to transact business.

The Group has identified the following key components of operational risk: systems and processes, technology, customers, external events and relationships, people, reconciliation and accounting; new activity and legal and compliance.

To minimize operational risk, the Group has developed a Risk Policy and an Operational Risk Policy. It will maintain a system of controls commensurate with the characteristics of the business and markets in which the Group operates, best practice principles and regulatory considerations. Business and support function managers are primarily responsible for ensuring effective operational risk management and control within their businesses, particularly in respect of transactional risks. Where appropriate, the Group's Insurance Manager will arrange suitable cost effective insurance to mitigate or transfer operational risk exposures.

An Operational Risk Group, comprising senior management of all the main business functions under the chairmanship of the Chief Operating Officer has been established to monitor all aspects of operational risk.

Where necessary, the Group's senior management will establish a project team, comprising senior business line managers to devise and implement a suitable action plan to mitigate specific operational risk exposures.

Market Risk

Market risk is the risk that changes in the level of interest rates, the rate of exchange between currencies or the price of securities or other financial contracts, including derivatives, will have an adverse impact on the results of operations or financial condition of the Group. The principal market risks to which the Group is exposed are interest-rate risk and foreign exchange (currency) risk. The principal financial instruments that expose the Group to such risks are loans, deposits, securities, and derivatives, each of which are used for other than trading purposes.

In order to manage the Group's exposure to market risk, the Board has adopted a policy statement entitled the Balance Sheet Structural Risk Management and Hedging Policy Statement, which sets out the Group's policy regarding managing market risk in the balance sheet and the use of off-balance sheet hedging instruments to manage such risks. The policy statement provides a mechanism for the Board to assess, monitor and manage the current and anticipated interest rate risk, credit risk and currency risk in the balance sheet in line with the Group's overall risk policies.

Interest rate risk

The Group offers numerous banking, mortgage and savings products with varying interest rate features and maturities which create potential interest rate risk exposures. Interest rate risk arises as a result of timing differences on the re-pricing of assets and liabilities, unexpected changes in the slope and shape of yield curves and changes in correlation of interest rates between different financial instruments (often referred to as basis risk). In addition to interest rate risk positions managed within controlled risk limits within the Group, structural interest rate risk arises in the Group's consolidated balance sheet as a result of fixed rate, variable rate and non interest bearing assets and liabilities. Exposure to interest rate movements arises when there is a mismatch between interest rate sensitive assets and liabilities. The Group closely monitors interest rate movements, the interest rate and re-pricing maturity structure of its interest bearing assets and liabilities and the level of non-interest bearing assets and liabilities.

Interest rate sensitivity refers to the relationship between interest rates and net interest income resulting from the periodic repricing of assets and liabilities. The largest single items in the Group balance sheet are residential mortgages and retail deposits, both of which predominantly bear interest at variable rates. The contractual maturity of mortgage loans is generally more than five years but the maturity of retail deposits is primarily under one year. This apparent mismatch gives rise to issues which are addressed by the Group in its liquidity management. However, the effect of such mismatch on interest rate management is less significant. The Group has the ability to reprice both its retail variable-rate liabilities and variable-rate mortgage assets, subject to the constraints imposed by the competitive situation in the market place. Management believes this ability enables the Group to mitigate the impact of interest rate movements on net interest income for the Group's retail banking.

Northern Rock also offers fixed-rate mortgages and savings products on which the interest rate paid by or to the customer is fixed for an agreed period of time at the start of the contract. Northern Rock matches the expected maturity profiles of its interest earning assets and interest bearing liabilities through the use of derivatives. The risk of prepayment is additionally reduced by imposing penalty charges if the customers terminate their contracts early.

The Group uses a number of measures to monitor and control interest rate risk and sensitivity. One such measure evaluates the difference in principal value between assets and liabilities repricing in various gap periods. Risk weights are assigned to each gap period which reflect potential losses for a given change in rates, and based on these a capital allocation is calculated for each period. The risk is controlled through setting maximum overall capital allocations, and individual capital allocations for each gap period.

A second control used measures net interest income sensitivity from unmatched positions in fixed rate lending. The Group imposes a limit on the value of such earnings that may be at risk, based upon various scenarios of adverse interest rate changes.

The sensitivity of earnings to changes in interest rates is measured by comparing forecast net interest income over a 12-month period under two interest rate scenarios, a 1% parallel increase and decrease in all yield curves. Forecasts are based on measuring the sensitivity of net interest income for all on-balance sheet and derivative instruments while maintaining a consistent balance sheet size and structure throughout the simulation period. Forecasts include the effect on net interest income of those instruments which have embedded optionality. Forecasts also include other simplifying assumptions, such as no management action in response to a change in interest rates. An immediate hypothetical 1% parallel increase and decrease in all yield curves on December 31, 2006, would result in a decrease of £32.4 million and an increase of £28.4 million, respectively, in planned net interest income for the twelve months to December 31, 2006.

Interest Rate Sensitivity Gap

The following table shows the contractual re-pricing terms for each category of asset and liability, together with management's estimate of the interest rate sensitivity gap for the Group as at December 31, 2005. This does not reflect the potential impact of early repayment or withdrawal. Transactions without defined contractual re-pricing terms are shown according to management's expectations. Positions may not be reflective of those in subsequent periods. Major changes in positions can be, and are, made promptly as market outlooks change. In addition, significant variations in interest rate sensitivity may exist within the re-pricing periods presented and among the currencies in which the Group has interest rate positions. The following table gives an analysis of the re-pricing periods of assets and liabilities on the Group balance sheet at December 31, 2005. Items are allocated to time bands in the table below by reference to the earlier of the next contractual interest rate re-pricing date and the residual maturity date. The carrying amounts of derivative financial instruments are included in other assets and other liabilities under the heading non interest bearing funds.

2005	Within 3 months	After 3 months but within 6 months	After 6 months but within 1 year	After 1 year but within 5 years	After 5 years	Non-Interest Bearing funds	Total
			(£ millions, except percentages)				
Assets							
Cash and balances with central banks	17.9	—	—	—	—	51.3	69.2

Total interest rate sensitivity gap	(30,790.2)	5,256.4	7,477.7	21,711.9	(1,300.3)	(2,355.5)	—
Cumulative interest rate sensitivity gap	(30,790.2)	(25,533.8)	(18,056.1)	3,655.8	2,355.5	—	—

Currency Risk

Currency risk arises as a result of the Group having assets, liabilities and off-balance sheet items that are denominated in currencies other than sterling as a result of normal banking activities, including wholesale funding. In addition to raising funds through the sterling money market, capital markets and domestic retail savings market, the Group raises funds through issuing euro commercial paper, US dollar commercial paper, non-sterling denominated medium-term debt securities and non-sterling denominated retail funds. The most significant currencies in which the Group has transactions are US dollars and the euro. The Group's policy is to fully hedge any exchange rate exposures by using cross-currency swaps and forward foreign exchange contracts or investing the proceeds of US dollar or euro instruments in US dollar or euro denominated assets (matched portfolio approach). Any non-sterling denominated assets are also fully hedged in this manner. Consequently, the sensitivity of income to changes in foreign exchange rates is insignificant to the Group.

The table below sets forth the value in sterling of all assets and liabilities of the Group denominated in a currency other than sterling at December 31, 2005 and 2004. The figures in the table below should not be viewed as indicating the Group's exposure to foreign exchange risk due to the use of hedging instruments discussed above.

	Group	
	2005	2004
	(£ millions)	
Assets	2,569.1	2,966.5
Liabilities	38,578.4	26,736.2

Derivatives

Board policy on use of derivatives

The Board has authorized the use of derivative instruments for the purpose of supporting the strategic and operational business activities of the Group and reducing the risk of loss arising from changes in interest rates and exchange rates. All use of derivative instruments within the Group is to hedge risk exposure, and the Group takes no trading positions in derivatives.

For the purpose of reducing interest rate risk and currency risk, the Group uses a number of derivative instruments. These comprise interest rate swaps, interest rate options, forward rate agreements, interest rate and bond futures, currency swaps and forward foreign exchange contracts. The objective, when using any derivative instrument, is to ensure that the risk to reward profile of any transaction is optimized. Where either an off-balance sheet derivative instrument or an on-balance sheet asset or liability could be used for a specific purpose, or where more than one derivative instrument could be used, the Group will select the instrument which optimizes the following conditions:

- minimize capital utilization;
- maximize income or minimize cost;
- maximize liquidity;
- minimize administrative and accounting complexity; and
- minimize the Group's tax liability.

The benefits of using off-balance sheet derivative instruments are measured by examining the anticipated consequences of not hedging the perceived risk in terms of revenue or capital loss. The vast majority of the Group's derivatives activity is contracted with banks and other financial institutions.

Analysis of activities and related hedging instrument

The following table sets forth activities undertaken by the Group and the related risks associated with such activities, and provides details of the types of derivatives used in managing such risks.

Activity	Risk	Type of Hedge
Management of the return on variable rate assets	Reduced profitability due to falls in short-term interest rates	Receive fixed interest rate swaps Purchase interest rate options Sell forward rate agreements Purchase interest rate futures
Fixed-rate lending	Sensitivity to increases in interest rates Sensitivity to decreases in medium/ long-term interest rates, resulting in prepayment	Pay fixed interest rate swaps Purchase interest rate caps Impose early repayment penalty charges
Fixed-rate retail and wholesale funding	Sensitivity to falls in short-term interest rates	Receive fixed interest rate swaps
Fixed-rate asset investments	Sensitivity to increase in interest rates	Pay fixed interest rate swaps
Re-financing of wholesale funding	Sensitivity to increase in interest rates	Sell bond futures Purchase forward rate agreements Sell interest rate futures
Investment in foreign currency assets	Sensitivity to strengthening of sterling against other currencies	Cross-currency swaps Foreign currency funding
Issuance of bonds in foreign currencies	Sensitivity to weakening of sterling against other currencies	Cross-currency swaps
Interest earned on foreign currency denominated debt securities	Sensitivity to strengthening of sterling against other currencies	Forward foreign exchange contracts Purchase currency options

Analysis of derivatives by type of contract

The table below shows the contract/notional amount and fair values of derivatives by type of contract as at December 31, 2005.

	Contract/ notional amount	Fair values	
		Assets	Liabilities
		(£ millions)	
Derivatives in accounting hedge relationships			
Derivatives designated as fair value hedges			
Interest rate swaps	37,159.8	134.5	(210.3)
Cross currency interest rate swaps	4,741.1	239.8	(0.7)
	41,900.9	374.3	(211.0)
Derivatives in economic hedging relationships but not in accounting hedge relationships			
Interest rate derivatives			
Interest rate swaps	11,197.1	141.8	(48.4)
Forward rate agreements	—	—	—
Exchange traded futures	—	—	—
Caps, floors and options	90.0	6.5	—
Equity index swaps	197.7	20.0	(0.9)
Embedded derivatives	181.5	—	(30.3)
	11,666.3	168.3	(79.6)
Currency derivatives			
Cross currency swaps	26,776.6	855.5	(551.9)
Forward foreign exchange	4,533.6	51.7	(3.6)
	31,310.2	907.2	(555.5)
Total derivatives in economic hedging relationships	42,976.5	1,075.5	(635.1)
Total recognised derivative assets/(liabilities)	84,877.4	1,449.8	(846.1)

At December 31, 2005, the Group had not entered into any derivatives transactions with significant leveraging features. Derivatives which are combinations of more basic transactions (such as swaps with embedded option features), or which have leverage features, may be used in circumstances where the underlying position being hedged contains the same risk features, for example, medium-term note issues based on equity indices or a multiple of an underlying asset or liability. Exposure to market risk on such contracts is therefore fully hedged. Credit risk on these contracts is monitored within tightly defined risk limits on the basis of the contractual terms of the instruments, rather than the face or contract amount.

SELECTED STATISTICAL INFORMATION

Information presented below in respect of the years ended and as at December 31, 2005 and 2004 has been prepared in accordance with IFRS. Information presented below for December 31, 2003, 2002 and 2001, where applicable, has been prepared in accordance with UK GAAP.

Average Balance Sheets and Interest Rates

The following table shows average balances and interest rates for Northern Rock for the past two years.

	2005			2004		
	Average Balance[1]	Interest[2]	Average Rate%	Average Balance[1]	Interest[2]	Average Rate %
	(£ in millions, except percentages)					
Assets						
Cash and balances with central banks	14.4	0.3	2.08	10.6	0.2	1.89
Loans and advances to banks	4,772.4	212.1	4.44	4,093.9	179.7	4.39
Loans and advances to customers[3]	62,197.0	3,583.5	5.76	47,590.6	2,578.9	5.42

Equity						
Shareholders' funds	1,518.5			1,445.3		
Non shareholders' funds	1,035.8			—		
Total average liabilities and equity	74,974.1			58,256.7		
Net interest margin						
Net interest income		752.3			466.9	
Interest income as a percentage of average interest-earning assets			5.58			5.24
Interest expense as a percentage of average interest-bearing liabilities			4.70			4.50
Interest spread			0.87			0.73
Net interest margin[4]			1.03			0.82

Notes:

(1) Average balances are based upon monthly data for Northern Rock and its subsidiaries.

(2) For the purpose of the average balance sheet, interest income and interest expense have been stated after allocation of interest on instruments entered into for hedging purposes.

(3) Loans and advances to customers includes non-performing loans, net of allowances for loan losses. See "Allowance for Loan Losses" and "Problem and Non-Performing Loans and Advances" below.

(4) Net interest margin represents net interest income as a percentage of average interest earning assets.

The following tables set forth prevailing average interest rates and yields, spreads and margins for the two years ended December 31, 2005.

	At December 31,	
	2005	2004
	(%)	
Prevailing Average Interest Rates		
United Kingdom:		
Banks base rate	4.65	4.38
London inter-bank offered rate:		
Three month sterling	4.76	4.64
Three month Eurodollar	3.57	1.62
United States:		
Prime rate	6.19	4.35
Yields, Spreads and Margins		
Gross yield[1]	5.58	5.24
Net interest spread[2]	0.87	0.73
Net interest margin[3]	1.03	0.82

Notes:

(1) Gross yield represents interest income as a percentage of average interest-earning assets.

(2) Net interest spread represents the difference between the gross yield and the interest expense as a percentage of average interest bearing liabilities.

(3) Net interest margin represents net interest income as a percentage of average interest earning assets.

Changes in Net Interest Income-Volume and Rate Analysis

The following table allocates changes in interest income, interest expense and net interest income between changes in volume and changes in rate for the year ended December 31, 2005. Volume and rate variances have been calculated on the movement in the average balances and the change in the interest rates on average interest-earning assets and average interest-bearing liabilities. The variance caused by changes in both volume and rate has been allocated to rate changes.

		2005/2004 Changes due to Increase/(decrease) in:	
	Total Change	Volume	Rate
		(£ millions)	
Interest Income			
Cash and balances with central banks	0.1	0.1	—
Loans and advances to banks	32.4	29.8	2.6
Loans and advances to customers	1,004.6	791.7	212.9
Investment securities	30.2	15.9	14.3
Total interest income	1,067.3	837.5	229.8
Interest Expenses			
Deposits by banks	11.1	3.5	7.6
Retail customer accounts – demand deposits	79.2	29.4	49.8
Retail customer accounts – time deposits	72.8	38.4	34.4
Customer accounts – wholesale deposits	29.8	22.4	7.4
Debt securities in issue	643.3	560.3	83.0
Subordinated liabilities	(31.8)	(38.1)	6.3
Reserve capital instruments	(23.5)	(23.5)	—
Tier one notes	1.0	—	1.0
Total interest expense	781.9	592.4	189.5
Net interest income[1]	285.4	245.1	40.3

Note:

(1) Interest income, interest expense and net interest income have been stated after allocation of interest on instruments entered into for hedging purposes.

Investment Securities

The following table sets forth the amortized cost and market values of securities as at December 31 for each of the three years indicated. Until 2004 investment securities were recorded in the balance sheet at cost, adjusted for the amortization of premiums or discounts to redemption, less provision for any permanent diminution in value (amortized cost). In 2005 investment securities are recorded in the balance sheet at market value. For further information, see Notes 21 to 23 to the Consolidated Financial Statements included elsewhere herein.

	2005 Amortized cost	2005 Market Value[1]	2004 Amortized cost	2004 Market Value[1]	2003 Amortized cost	2003 Market Value[1]
	(£ millions)					
	IFRS				UK GAAP	
Investment securities[2]						
Debt securities

Total	5,338.9	5,377.1	5,317.8	5,373.7	4,596.3	4,637.4

Notes:

(1) There are hedges in place in respect of certain securities where the rise or fall in their market value will be offset by a substantially equivalent reduction or increase in the value of the hedges which are not included in the market value of the debt securities.

(2) Investment securities include government securities held as part of the Group's treasury management portfolio for asset/liability management, liquidity and regulatory purposes and are for use on a continuing basis in the activities of the Group. In addition, the Group holds as investment securities listed and unlisted corporate securities.

(3) At December 31, 2005, the market value of UK Government securities held by Northern Rock were equal to 83.7% of total stockholders' equity. Northern Rock had no other investments in any one counterparty exceeding 10% of Northern Rock's stockholders' equity at December 31, 2005.

The following table sets forth the maturities of investment securities at December 31, 2005.

Total book value	854.1		2,578.8		300.7		1,605.3		5,338.9	
Total market value	854.3		2,588.3		302.3		1,632.2		5,377.1	

Notes:

(1) Included within "Other issuers" are asset-backed securities. These securities are classified in the table according to their contractual maturity dates; however, redemption of these securities is expected on average to take place between four and ten years from date of issue. As with the underlying assets, asset-backed securities involve prepayment risks; however, the Group's exposure to this type of risk is limited by the high proportion of floating rate assets in this category. See page 57 for further explanation of the Group's risk management and hedging strategy.

Loans and Advances to Banks

For December 31, 2005 and 2004, cash ratio deposits held with central banks are excluded from loans and advances to banks and shown within cash and balances with central banks. For December 31, 2003, 2002 and 2001 loans and advances to banks includes loans to banks and building societies and balances with central banks (excluding those balances which can be withdrawn on demand).

Loans and Advances to Customers

The Group provides lending facilities primarily to personal customers in the form of mortgages secured on residential properties and in the form of unsecured lending and a limited number of lending facilities to corporate customers.

The following table sets forth total loans and advances to customers at the indicated dates.

Loans and Advances to Customers[1]

	Year ended December 31,				
	2005	2004	2003	2002	2001
			(£ millions)

Total	70,239.9	54,768.8	28,202.1	24,951.6	20,944.2

Notes:

(1) No single concentration of lending, with the exception of advances secured on residential properties in the United Kingdom, as disclosed above, accounts for more than 10% of Group lending and no individual country, other than the United Kingdom, accounts for more than 5% of total Group lending.

(2) Prior to the adoption of IFRS, securitization transactions, which commenced in 1999, were reported in accordance with FRS 5, "Reporting the Substance of Transactions". The criteria for linked presentation under FRS 5 were satisfied and, accordingly, only the net amount of the Group's interests in the assets was consolidated and the gross advances and related non-recourse finance were shown together on the face of the balance sheet. Following the adoption of IFRS, non-recourse finance is reported within debt securities in issue.

The following table sets forth certain loans and advances to customers by maturity at December 31, 2005.

Allowance for Loan Losses

Through various processes Northern Rock actively monitors credit risk on an ongoing basis for its entire loan portfolio. Northern Rock's impairment allowance policy requires an adequate allowance to be maintained to cover losses in the loan portfolio. The impairment allowance methodology is as follows:

Individual assessments: Northern Rock first assesses whether objective evidence of impairment exists individually for loans that are individually significant. Objective evidence that a financial asset is impaired includes observable data that comes to the attention of the Group about the following loss events:

(a) significant financial difficulty of the customer;

(b) a breach of contract, such as a default or delinquency in interest or principal repayments; or

(c) granting to the borrower a concession that Northern Rock would not otherwise consider.

If there is objective evidence that an impairment loss on loans and receivables has been incurred, the amount of the loss is measured as the difference between the loan's carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the loan's original effective interest rate. The carrying amount of the loan is reduced through the use of an impairment allowance and the amount of the loss is recognized in the income statement. In future periods the unwind of the discount is recognized within interest income.

Collective assessments: If Northern Rock determines that no objective evidence of impairment exists for an individually assessed loan, whether significant or not, it includes the loan in a group of loans with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss on a group of loans with similar characteristics has been incurred, the amount of the loss is measured as the difference between the group of loans carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the group of loans average original effective interest rate. The carrying amount of the group of loans is reduced through the use of an impairment allowance and the amount of the loss is recognized in the income statement. In future periods the unwind of the discount is recognized within interest income.

Recoveries: Recoveries of prior losses are recorded in income in the period of recovery as an offset against the impairment allowance. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the customer's credit rating), the previously recognized impairment loss is reversed by adjusting the impairment allowance. The amount of the reversal is recognized in the income statement.

Amounts written off: When a loan is uncollectible, it is written off against the related provision for loan impairment. Such loans are written off after all the necessary procedures have been completed and the amount of the loss has been determined. Subsequent recoveries of amounts previously written off decrease the amount of the provision for loan impairment in the income statement.

The following tables show Northern Rock's allowance for loan losses as at the year-end for the past five years and the movements in the allowance for loan losses for each of the years then ended.

Analysis of Year-End Allowance for Loan Losses

	Year ended December 31,

	(3.4)	(1.7)	(1.2)
Allowance at the end of the year	101.3	82.9	61.4

Trends in the allowance for loan loss ratios shown above are consistent with Northern Rock's past due experience over the past five years. Northern Rock has consistently maintained a low appetite for credit risk which has, together with other factors, resulted in an overall loan portfolio of high credit quality. Northern Rock's underwriting criteria for commercial lending continues to result in controlled growth with lower risk commercial borrowers. At December 31, 2005, total year-end allowances for loan losses on unsecured loans amount to £87.1 million compared with £78.4 million at December 31, 2004. This increase reflects the increase in outstanding unsecured balances and the continuing improvement in credit quality resulting in the ratio of unsecured loan allowances decreasing from 1.68% at year end 2004 to 1.48% at year end 2005.

Problem and Non-performing Loans and Advances

Problem and Non-performing loans and advances are analyzed and reported in categories which reflect US lending and accounting practices. However, lending and accounting practices differ in the UK from those practices employed in the US Different terminology is also used in the US as compared to the UK to describe the same items. The following summary includes the primary differences in bank terminology and lending and accounting practices:

Differences in terminology[1]

UK	US
Loans and advances	Loans and advances or "lendings"
Impairment allowance	Allowance for lending or loan losses
Interest receivable	Interest income
In arrears	Past-due
Loans with interest suspended	Loans in non-accrual status
Write-offs	Charge-offs
Repossession	Foreclosure
Property in possession	Foreclosed property, acquired property or other real estate owned
Problem loans and advances	Impaired loans and advances

Note:

(1) Throughout this Offering Circular, where appropriate, US terminology has been used for disclosures related to loans and advances with the exception of the Group's Consolidated Financial Statements, which have been reported under IFRS.

Differences in Lending and Accounting Practices

In the US it is the typical practice of banks to stop accruing interest when payments on loans and advances are 90 days or more past due or when recovery of both principal and interest is doubtful. Accrued interest upon transfer to non-accrual status is reversed from income and no further interest is recognized until it becomes probable that the principal and interest will be repaid in full in accordance with the contractual terms. In accordance with IFRS, Northern Rock continues to accrue interest, where appropriate, to customer accounts even where recovery is in doubt. This accrued interest is added to the loan balance, and it is recorded as income during the period. Although this practice has no effect on net income when compared to the practice employed in the US, it has the effect of increasing the reported level of problem and potential non-performing loans and advances for UK banks in comparison with US banks.

In the US non-performing loans and advances are typically charged-off earlier than in the UK As a result, a UK bank may appear to have a higher level of non-performing loans and advances than a US bank. In the UK such loans would be accounted for as loans subject to repossession as described below.

In most circumstances in the US, title to property securing residential real estate transfers to the lender upon foreclosure. At foreclosure the loan is charged off and the acquired property is recorded at fair value with any recoveries recorded as an offset to the provision for loan losses for the period. Any specific allowance relating to the loan is not carried forward. The acquired property is subsequently reported in other assets on the balance sheet at the lower of cost or fair value less selling costs. Cost is defined as the fair value of the acquired property at the time of foreclosure. Upon sale of the acquired property, US banks will record gains and losses in the income statement as gain or loss on acquired property.

Although a bank is entitled under UK law to enforce a first charge on property held as security in the UK, it typically does so only to the extent of enforcing its power of sale. Northern Rock accounts for repossessed property in accordance with IFRS and industry practice for UK banks. At repossession, Northern Rock takes control of the property held as security on a loan but title does not transfer to the Bank. As UK banks generally do not take title to the property held as security, they are obligated to remit to the borrower any gain, in excess of the bank's net investment in the loan, realized upon the sale of the property. In contrast, US banks may take title to the property upon foreclosure and, although generally not a common occurrence, a US bank can recognize a gain upon the sale of the property.

Loans subject to repossession continue to be reported by Northern Rock as loans in the balance sheet. Any recoveries or additional losses realized upon the subsequent sale of the property are recorded by Northern Rock within the provision for loan losses during the reporting period. This practice results in a difference in the classification of losses and recoveries in the income statement. It also has the effect of increasing the reported level of non-performing loans for UK banks in comparison with US banks. The amount of loans subject to repossession held by Northern Rock as at December 31, 2005, amounted to £50.6 million.

The following tables present non-performing loans and advances for Northern Rock:

Group Non-performing Loans

	At December 31,				
	2005	2004	2003	2002	2001
	(£ millions, except percentages)				
	IFRS		UK GAAP		
Accruing lendings on which a proportion of interest has been suspended and/or on which individual/ specific allowance has been made	27.6	179.7	139.5	127.8	114.2
Accruing lendings 90 days overdue on which no interest has been suspended and on which no individual/ specific allowance has been made	389.1	55.2	25.9	45.9	30.4
Non-accruing lendings	—	39.7	13.4	9.5	16.9
Troubled debt restructurings	36.1	23.1	7.8	7.0	1.7
Total non-performing lendings	452.8	297.7	186.6	190.2	163.2

The table below sets out the number of residential mortgage loans in arrears falling into each category and such figures as a proportion of the number of residential mortgage loans.

Analysis of Residential Mortgage Loans in Arrears

	At December 31,				
	2005	2004	2003	2002	2001
Number of residential mortgage loans in arrears:					
3 to 6 months	2,035	1,695	1,674	1,946	1,598
6 to 12 months	540	422	634	658	736
Over 12 months	16	18	106	133	191
Total	2,591	2,135	2,414	2,737	2,525
As a percentage of the total number of residential mortgage loans:					
3 to 6 months	0.3%	0.3%	0.3%	0.4%	0.4%
6 to 12 months	0.1%	0.1%	0.2%	0.2%	0.2%
Over 12 months	—	—	—	—	—
Total	0.4%	0.4%	0.5%	0.6%	0.6%

Interest in Suspense

	Year ended December 31,				
	2005	2004	2003	2002	2001
			(£ millions)		
	IFRS		UK GAAP		
Interest in suspense at the beginning of the year	n/a	5.8	5.5	5.8	5.5
Net interest suspended during the year	n/a	1.3	0.7	0.2	1.0
Interest written off	n/a	(0.7)	(0.4)	(0.5)	(0.7)
Interest in suspense at the end of the year	n/a	6.4	5.8	5.5	5.8

Until December 31, 2004 loans were designated as non-performing as soon as management had doubts as to the ultimate collectability of principal or interest. When a loan was designated as non-performing interest was not normally credited to the income statement and either interest accruals ceased ("non-accruing lendings") or interest was credited to an interest suspense account in the balance sheet which was netted against the relevant loan ("suspended interest"). Following the introduction of IAS 39 with effect from January 1, 2005 interest is no longer suspended and accounts are no longer classified as non-accruing.

Deposits

The following table sets forth the average balances for each type of deposit and the average rate for each type of deposit for the three years ended December 31.

	Year ended December 31,					
	2005		2004		2003	
	Average Balance	Average Rate %	Average Balance	Average Rate %	Average Balance	Average Rate %
	(£ millions, except percentages)					
	IFRS				UK GAAP	
Deposits by banks	1,747.2	3.53	1,632.4	3.09	1,485.3	2.65
Retail demand deposits	2,539.1	3.81	952.5	1.85	947.0	1.13
Retail time deposits	16,371.2	4.55	15,486.4	4.34	14,710.7	3.73
Wholesale deposits	3,207.5	4.33	2,661.4	4.10	2,483.6	3.35
Total	23,865.0		20,732.7		19,626.6	

Retail demand and time deposits are obtained through, and administered by, the retail distribution network including the offshore operations in Guernsey and Dublin. They are all interest bearing and interest rates are varied from time to time in response to competitive conditions. Retail demand deposits increased during 2005 largely due to the increases in the Silver Savings account for the over 50s.

Time deposits comprise accounts which require customers to give notice of an intention to make a withdrawal, including fixed rate bonds, as well as postal and telephone deposit accounts. Delays in customers being able to use funds from postal and telephone accounts arise due to the impact of the time required for receipt of funds via mail or bank transfer following a request for withdrawal.

Wholesale deposits are sourced through the London money markets or over-the-counter (OTC) for which interest rates are quoted on request rather than being publicly advertised. These deposits are of fixed maturity and bear interest rates which reflect the inter bank money market rates.

A number of key factors have affected the UK retail savings market during the period 2003 to 2005. This period has seen sustained levels of competition from existing financial institutions. Improved technology has resulted in the introduction of cost efficient distribution methods (e.g. telephone accounts and internet- based accounts). Interest rates were 4.00% at the beginning of 2003 representing an almost 40 year low. The downward trend continued in the first half of 2003, with rates reduced to 3.50% by July 2003. Rates then increased gradually to 4.75% during the period November 2003 to August 2004 after which they remained unchanged for a year. The decrease to 4.50% in August 2005 was the final movement in rates during the period. All of these factors have affected the composition of Northern Rock's savings products and the effective rate paid to customers.

Short-term borrowings

The following table contains information regarding the Group's short-term borrowings (i.e., those with an original maturity of less than one year) for each of the three years ended December 31:

	Year ended December 31,		
	2005	2004	2003
	(£ millions, except percentages)		
	IFRS		UK GAAP
Bank Deposits			
Year end balance	1,018.5	838.7	1,087.2
Maximum balance	1,544.8	1,636.2	1,613.5
Average balance	1,282.9	1,240.7	1,118.1
Average interest rate during year[1]	3.34%	2.90%	2.74%
Year end interest rate[2]	3.78%	3.85%	2.84%
Commercial Paper[3]			
Year end balance	3,593.3	3,201.1	2,416.4
Maximum balance	3,939.9	3,201.1	2,416.4
Average balance	3,201.1	2,263.7	2,086.7
Average interest rate during year[1]	2.96%	3.13%	2.93%
Year end interest rate[2]	3.57%	3.42%	3.21%
Certificates of Deposit			
Year end balance	4,158.6	3,834.1	3,468.5
Maximum balance	4,158.6	4,262.4	3,468.5
Average balance	3,311.3	3,277.1	2,700.3
Average interest rate during year[1]	4.22%	3.98%	3.29%
Year end interest rate[2]	4.43%	4.48%	3.48%

Notes:

(1) Average interest rates during the year are calculated by dividing total interest expense by the average amount borrowed.

(2) The year end interest rates presented are based on the rates paid and balances at a single day and as such may reflect market conditions that may not be indicative of generally prevailing market rates.

(3) Commercial paper included in the above analysis had an original maturity not exceeding 365 days.

The following table shows the maturity breakdown of certificates of deposit and time deposits of £58,184 (approximately $100,000) or more at December 31, 2005.

	Certificates of Deposit	Time Deposits	Total
		(£ millions)	
3 months	3,678.0	3,774.1	7,452.1
3 to 6 months	479.4	360.7	840.1
6 months to 1 year	221.1	441.1	662.2
Over 1 year	46.7	113.4	160.1
	4,425.2	4,689.3	9,114.5

COMPETITION

This section contains forward-looking statements that involve inherent risks and uncertainties. Northern Rock's actual results may differ materially from those contained in such forward-looking statements. See "Forward-Looking Statements" above.

Industry Background

Northern Rock's main competitors have traditionally been providers of personal financial services in the United Kingdom. These include banks, building societies, life insurance companies and mutual insurance organizations. In recent years, competitive pressures, consolidation and changes in the regulatory environment have led to a blurring of the boundaries between banks, building societies and insurance companies in the United Kingdom. In addition, in recent years new providers of financial services have emerged as competitors in the UK residential mortgage lending market and retail savings market. Below is a description of the traditional types of organizations that continue to compete with Northern Rock, as well as a description of certain new competitors.

Banks and building societies

There has been significant consolidation of banks and building societies in recent years. The number of building societies has fallen from 105 in 1992 to 63 currently. This reduction has been marked by the merger of certain of these organizations as well as acquisitions by existing banks.

Certain major financial service providers have also changed their legal status with Halifax, Woolwich and Alliance & Leicester building societies converting during 1997 to stock form UK licensed banks in the form of public limited liability companies. A number of building societies have chosen not to convert, and legislation was passed in 1997 to enable these organizations to compete more freely with banks. Despite this, Bradford and Bingley Building Society converted to a listed bank in December 2000.

Insurance Companies

The UK insurance industry has traditionally been comprised of a large number of mutual insurance organizations and several composite insurers originating a range of products, distributed through banks, building societies, direct sales forces and a large network of independent financial advisers. In recent years, the entry of building societies and banks into the market as originators, as well as distributors, has reduced this dominance.

Non-Traditional Competitors

Certain supermarkets and other large retailers and utility companies sell financial services to their customers. A number of UK banks have cooperation arrangements with large UK retailers to provide personal banking services to their customer base, including direct savings accounts through the mail or by telephone. In addition, insurance and life assurance companies have entered the mortgage and retail savings markets, and more recently foreign entities have been active in the UK retail savings market. Such companies are using low cost telephone, postal and internet-based distribution channels to offer competitively priced retail savings products and mortgages. Certain UK banks, notably HBOS and to a lesser extent Abbey, operate stand-alone, separately branded internet banks. Northern Rock's response to such competition is to continue to develop its e-commerce capabilities as an integrated part of the Group's distribution strategy and to continue to offer customers a range of options for transacting business. See "– Description of Northern Rock and its Business – Distribution Network – Internet-based distribution" for a more detailed discussion of such activity to date.

The UK Residential Mortgage Market

The table below sets out information for the last five years concerning year-end balances of UK lending secured on residential property and the proportions held by banks, building societies and Northern Rock.

	Total Balances	Building Societies	Banks	Northern Rock
	(£ billions)	(%)	(%)	(%)
2001	591.4	19.2	70.8	3.7
2002	675.2	18.3	69.3	4.3
2003	774.6	18.4	66.0	4.8
2004	877.5	18.2	61.9	5.5
2005	967.1	17.9	59.5	6.4

Source: Bank of England data except for information regarding Northern Rock's balances which are taken from Northern Rock's own data.

The table below sets out information for the last five years showing gross and net lending in the UK.

	Gross	Net
	(£ billions)	
2001	160.1	53.9
2002	220.7	78.8
2003	277.3	101.1
2004	291.2	100.7
2005	288.1	91.4

Note:

Source: Bank of England data.

The UK residential mortgage market remained relatively buoyant in 2005, showing a decrease in gross lending of 1.1% over comparable 2004 lending figures and a decrease in net lending of 9.2%. This decrease reflected average house price inflation of 5.1% during 2005, low levels of interest rates and generally low levels of unemployment. The year 2005 also saw significant increase levels of re-mortgage activity with 43% of total UK gross lending attributable to re-mortgages, compared with 41% in 2004 and 42% in 2003.

Competition in the UK mortgage market involves defending the existing stock of balances and competing for the flow of new lending. New lending is driven by first-time buyers or next-time buyers remortgaging or changing homes. In recent years, the proportion of the population owning their own homes has stabilized at around 70%. Although this figure is high by European standards, Management believes it is unlikely to increase or decrease significantly in the near future. Consequently, Management views the mortgage market in the UK as a mature and highly commoditized market driven primarily by price, especially with respect to new lending.

A key feature of the UK mortgage market is the differential pricing structure that has developed, mainly in response to increased competition. New customers are offered attractive rates via discounts, tracker accounts, fixed and capped rates or cashbacks for a period of time, compared with existing customers who pay a standard variable rate which can fluctuate in response to competitive forces and UK monetary and economic policy. This differential pricing structure is likely to contribute to continued strong levels of re-mortgage activity in 2006.

Due, in part, to competitive pricing since the early 1990s, product innovations and retention of existing customers, Northern Rock has been able to achieve net lending greater than its market share of balances over this period while its gross lending has been only slightly above mortgage stock levels. Northern Rock's redemption levels have remained below its share of stock due to the effect of early repayment charges during the incentive period and due to its customer retention policies. The latter includes allowing existing customers to transfer to products available to new customers, subject to the payment of any existing early repayment charges, and the investment in a dedicated mortgage retention team.

Management expects that competition from existing lenders is likely to remain intense. Management also considers that new customers will remain attracted to up-front incentives on traditional mortgage products and that strong demand will remain for credit bundling products, enabling Northern Rock to achieve volume lending in 2006.

The UK Retail Deposit Market

The UK retail deposit market is dominated by banks, building societies and National Savings. National Savings is a UK. Government-sponsored savings and investment organization, with products distributed to individuals through the UK Post Office branch network and through postal accounts. Figures for the total UK retail deposit market appearing in the table below have been compiled from details published by the Bank of England.

Building Societies', Banks' and Northern Rock's Share of the UK Retail Deposit Market

	Total UK Retail deposits[1]	Building societies' share of total UK Retail deposits[1]	Banks' share of total UK Retail deposits[1][2]	Northern Rock's share of total UK Retail deposits[1]
	(£ billions)	(%)	(%)	(%)
2001	682.3	17.9	72.9	1.6
2002	734.2	18.3	73.2	1.8
2003	809.7	17.7	74.1	1.7
2004	877.1	17.7	74.5	1.7
2005	957.2	18.2	74.3	1.8

Notes:

(1) Source: Bank of England, except for information regarding Northern Rock's balances which are taken from Northern Rock's own data.

(2) Included within Banks' share of total UK retail deposits are companies such as Tesco plc and Egg plc, which have UK banking licenses.

Management believes that the UK retail deposit market, like the residential mortgage market is a commoditized one, driven primarily by price. This is particularly true for the flow of new money, which will seek the most attractive rates available. Older deposit balances have traditionally subsidized the cost of new retail deposits, primarily reflecting customer inertia.

In the last 10 years, competition for UK retail deposits has increased as new participants, such as supermarkets and insurance/life assurance companies entered the market by offering attractive rates of interest. This situation has been exacerbated since 2000 by the introduction of internet-based accounts and foreign entrants which have offered rates at or above UK bank base rates. The combined effect of this competition has caused the cost of attracting new retail deposits to be higher in many cases than the cost of wholesale money market deposits.

Management believes that increased consumer awareness driven by the press and increased competition has resulted in the potential for greater volatility of retail deposit balances both between different organizations and between different accounts within organizations, resulting in a reduction in the differential between rates paid to existing and new balances as customers transfer to higher rate accounts and organizations aim to retain existing balances.

SUPERVISION AND REGULATION

European Union Directives

The framework for supervision and regulation of banking and financial services in the United Kingdom has been, and continues to be, heavily influenced by European Union ("**EU**") Directives which are required to be implemented in EU member states through national legislation. The banking Directives aim to harmonize banking regulation and supervision throughout member states by laying down minimum standards in key areas and requiring member states to give "mutual recognition" to each other's standards of regulation. The Banking Consolidation Directive ("**BCD**") includes the "passport" concept: that is, freedom to establish branches in, and to provide cross-border services into, other member states once a bank is authorized in its "home" member state.

Investment firms are subject to a similar regulatory environment and can obtain a "passport" with respect to authorization under national legislation implemented pursuant to the Investment Services Directive. The Investment Services Directive will be repealed and replaced by the Markets in Financial Instruments Directive ("**MiFID**") when the MiFID is implemented across the EU on November 1, 2007. Despite the application of the "passports", a "host" member state can impose certain requirements on the conduct of banking and investment activities in its boundaries (including conduct of business rules). Northern Rock's Treasury team are currently preparing for the implementation of MiFID in the UK.

Although a credit institution such as Northern Rock is primarily regulated in its home state by a national regulator, the EU Directives prescribe minimum criteria for regulation of the authorization of credit institutions and the prudential supervision applicable to them, including in respect of capital adequacy, liquidity and limits on large exposures to certain types of counterparties. The prudential rules for banks in respect of credit risk are based on the requirements of the BCD, while those relating to market work (including position risk, counterparty, settlement risk and foreign exchange risk) are based on the requirements of the Capital Adequacy Directive (the "**CAD**"). The CAD applies both to banks and to investment firms (and, in respect of the latter, also sets out initial capital requirements). Finally, the Financial Groups Directive provides for the prudential supervision of financial groups or conglomerates.

In September 2002, the European Commission published a proposal on a directive on consumer credit to the EU member states, which would require prospective creditors to provide advice and information to consumers taking consumer credit before the credit agreement is concluded, so that the consumer can choose with full knowledge of the facts among the types of credit offered. Among other things, the proposal required that the information to be provided by the credit intermediary and creditor should in particular include an annual percentage rate of charge applicable to the credit; the total lending charge; the agreed duration of the loan and the number and amount of installments. This is to standardize information given to consumers to make Europe-wide comparisons easier. Similarly, it will be the responsibility of the creditor, in accordance with the principle of "responsible lending", to check whether the consumer and where applicable, the guarantor, are in a position to meet new commitments. The September 2002 proposals also included provisions in respect of borrowers drawing down credit under the terms of their mortgage loans. In January 2004, the European Parliament published a re-drafted form of the proposed Directive. Significantly, the re-draft excluded loans secured by a mortgage on land. The European Parliament approved this re-draft on its first reading on April 20, 2004. In October 2004, the European Commission published an amended Form of the proposed Directive. The UK Department of Trade and Industry ("**DTI**") has consulted with consumer and industry organizations on the proposal. The latest consultation paper on the form of the proposed Directive was published by the DTI in March 2006 and consultations closed in May 2006.

The proposed Directive is unlikely to come into force until mid-2007 at the earliest; and Member States will then have a further two years in which to bring national implementing legislation into force. Until the final text of the directive is decided and the details of United Kingdom implementing legislation are published, it is not certain what effect the adoption and implementation of the Directive would have on Northern Rock and its respective businesses and operations. No assurance can be given that the finalised Directive and the United Kingdom implementing legislation will not adversely affect the ability of the Issuer to make payments to Noteholders.

Basel Capital Accord

The Basel Committee on Banking Supervision published the text of a new capital adequacy framework on June 26, 2004 under the title "International Convergence of Capital Measurement and Capital Standards: a Revised Framework" ("**Basel 2**"). This text was updated on November 15, 2005. This new framework replaces the existing 1988 Basel Accord and places enhanced emphasis on market discipline and sensitivity to risk.

On July 14, 2004 the European Commission published its consultation paper on the proposed Capital Requirements Directive (the "**CRD**"), by which Basel 2 will be implemented in the EU. Although Basel 2 applies only to banks, the CRD will apply the Basel 2 principles both to banks and to investment firms. The CRD aims to implement Basel 2 in the EU by "recasting" each of the BCD and the CAD so that they comply with the new capital adequacy framework. On June 7, 2006, the Council of the European Union formally adopted the CRD and the "recast" BCD and CAD will each come into force on July 20, 2006. EU member states are to apply the CRD from year end 2006, with the most sophisticated approaches being available from year end 2007. This is in line with the planned global introduction of the Basel 2 rules.

Northern Rock has a Basel project team which is working to ensure that the capital benefits of the Basel Capital Accord are available to Northern Rock as quickly as possible. Northern Rock intends to adopt the Internal Ratings Based (IRB) approach for credit risk and has implemented the core models to ensure compliance with Pillar 1 of Basel 2 and the CRD (which sets forth certain measures for assessing minimum capital requirements). The Basel project team is developing procedures to consider risks to the business that may not be covered by the minimum capital adequacy requirements set out under Pillar 1 and take an appropriate course of action to mitigate those risks and consider the impact of broader macro-economic scenarios on the firm's overall level of capital adequacy.

UK Regulations

The Companies Acts govern the fundamental concepts of constitutional issues, company registration and the format and production of annual reports and accounts applicable to such entities including Northern Rock. As a UK public limited company listed on the London Stock Exchange, Northern Rock is obliged to comply with a code of practice known as the Combined Code regarding corporate governance. Further, as part of the continuing obligations of Northern Rock under the listing rules of the UK Listing Authority (the body which approved Northern Rock's listing on the London Stock Exchange) (the "**Listing Rules**") and the disclosure rules of the FSA (defined above), it must disclose, through a regulatory information service, all "inside information" (broadly speaking, information which would, if generally available, be likely to have a significant effect on the price of its securities listed on any market of the London Stock Exchange).

The undertaking of certain activities in the UK subjects the relevant entity to further regulatory regimes. The most significant regimes relevant to Northern Rock are discussed below.

The principal piece of legislation governing the establishment, supervision and regulation of financial services in the UK is the FSMA. The FSA is the single regulator for the full range of financial business in the UK; it derives its powers under the FSMA and regulates both the prudential aspects and conduct (including market conduct) of those businesses.

The FSMA prohibits any person from carrying on a "regulated activity" in the UK unless that person is an "authorized person" under the FSMA or is specifically exempted from such provision. The list of "regulated activities" under the FSMA includes deposit-taking and activities relating to investment and insurance businesses.

Banking (Acceptance of Deposits)

Northern Rock is authorized by the FSA to accept deposits in the UK.

The FSA monitors the liquidity of the UK banking sector through a series of periodic returns covering both sterling and non-sterling operations. UK banks are required to maintain, in interest-free accounts at the Bank of England, a non-operational cash balance of a percentage of eligible liabilities. The FSA also requires banks to report (among other things), and in some cases obtain consent for, large single exposures and large exposures to related borrowers.

The Banking Code (the "**Code**") is a voluntary code adopted by UK banks and building societies. It sets the minimum standards of service that personal customers can expect from all banks and building societies which subscribe to the Code. The Code covers the responsibilities of the banks and building societies to their personal customers in connection with the operation of their accounts. The Code became effective in March 1992, with subsequent revisions in March 1994, March 1997, March 1999, January 2001, March 2003 and March 2005. Northern Rock has adopted the Code. Compliance with the Code is monitored by the Banking Code Standards Board.

Investment Business

The conduct of investment business is regulated in the UK in that, among other things, "dealing in", "arranging deals in", "managing", "safeguarding and administering" and "advising on" investments are "regulated activities" under the FSMA. The Group has the appropriate authorization under the FSMA to conduct its investment business activities.

The marketing and promotion of investments ("investments" includes rights under a contract of insurance) in the UK is prohibited under the FSMA unless the promotion is made by an authorized person or the communication is approved by an authorized person. Various exemptions apply as reflected in the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005.

Under the regulatory regime that existed prior to the FSMA, "Listed money market institutions" were exempted from the provisions of the Financial Services Act 1986 in respect of their money market activities only. Northern Rock was granted listed money market institution status and that status was "grandfathered" into the new regime under the FSMA. Such money market activities remain regulated by the FSA which expects such entities to observe the relevant chapters of the FSA Handbook (in particular, the chapter entitled "Inter-Professional Conduct" in the Market Conduct Sourcebook). Given the nature of Northern Rock's money market activity, the Non-Investment Products Code (NIPs) is also applicable to this business. The FSA Handbook is expected to be revised as part of the implementation of MiFID.

Insurance Subsidiaries

NORMIC is the only subsidiary of Northern Rock which undertakes insurance business.

NORMIC is a Guernsey-registered company, and consequently is regulated by Guernsey law and the Guernsey Financial Services Commission.

Financial Services Compensation Scheme

Depositors are protected in respect of their deposits with authorized institutions in the UK. Payments under the Financial Services Compensation Scheme ("**FSCS**") are limited to 100% of the first £2,000 of a depositor's total deposits with the institution and 90% of the next £33,000, resulting in a maximum payment of £31,700. The FSCS is financed by a levy on all authorized institutions in proportion to their deposit base which includes deposits in sterling, other European Economic Area currencies and the euro.

The FSCS also applies to claims relating to mortgage advice and arranging from October 31, 2004 and for claims relating to insurance intermediaries from January 14, 2005.

Dispute Resolution

The FSMA gives the FSA the power to make rules relating to the handling of complaints by firms and provides for the establishment of an independent dispute resolution scheme to resolve complaints about financial services firms quickly and with minimum formality. The body established to administer and operate this scheme is the Financial Ombudsman Service Limited ("**FOS**").

Regulation of Mortgage Business

Mortgage lending and services, the arranging of mortgages and the giving of mortgage advice in the UK became a regulated activity under the FSMA on October 31, 2004 (the date known as "N(M)"). The Mortgages: Conduct of Business Sourcebook ("**MCOB**") covers conduct of business requirements for authorized persons in respect of regulated mortgage contracts. These rules provide for, amongst other things, certain pre-origination matters, such as financial promotions and draft pre-application illustrations, start of contract disclosures, post-sale disclosures (annual statements), rules on contract charges and arrears and repossessions. The MCOB came into force on N(M).

The regime under the FSMA regulating financial promotions also covers the content and manner of promotions of regulated mortgage products, and by whom such promotion can be issued or approved.

Northern Rock is authorized to carry on such regulated mortgage business.

Regulation of Insurance Business

Since January 14, 2005, the FSA has been responsible for regulating intermediaries selling general insurance policies (e.g. home contents insurance and payment protection).

The Insurance: Conduct of Business Sourcebook ("**ICOB**") contains the rules relating to the business processes involved in selling and administering non-investment insurance. Examples of these processes are marketing, sales, provision of product literature to customers and claims handling. Northern Rock advises on and arranges Household and Payment Protection insurance in association with its insurance partners AXA and Cardiff Pinnacle.

Northern Rock is classified as an 'insurance intermediary' under the ICOB and is authorized to carry on such regulated business.

Other Relevant Legislation & Regulation

The Consumer Credit Act 1974 (the "**CCA**") regulates the provision of secured and unsecured loans and ancillary credit businesses such as credit brokerage and debt collecting. Currently, a credit agreement is regulated by the CCA where: (a) the borrower is or includes an individual, (b) the amount of "credit" as defined in the CCA does not exceed the financial limit, which is £25,000 for credit agreements made on or after May 1, 1998, or lower amounts for credit agreements made before that date, and (c) the credit agreement is not an exempt agreement as specified in or under section 16 of the CCA (for example, certain types of credit to finance the purchase of, or alterations to, homes or business premises or a regulated mortgage contract under the FSMA. On March 30, 2006, the Consumer Credit Act 2006 (the "**2006 Act**") received Royal Assent. Its provisions, which are to be brought into force between June 2006 and October 2008, amend the CCA in a number of ways including, amongst others, the removal of the financial limit for consumer lending, whilst retaining the limit of £25,000 for lending for business purposes to individuals, unincorporated bodies and partnerships of up to three partners. Once the 2006 Act comes into force, then any loan or further advance originated or varied bilaterally after this time, other than a regulated mortgage contract under the FSMA or an exempt agreement under the CCA, will be regulated by the CCA. Such loan or further advance will have to comply with requirements as to form and content of the credit agreement and if it does not comply, will be unenforceable against the borrower without a court order. So as to avoid dual regulation all FSA regulated mortgage contracts will not be covered by the CCA. For the avoidance of doubt, regulated mortgage contracts will, however, be enforceable only under court order obtained pursuant to the CCA, notwithstanding their regulation under the FSMA where those contracts (except for this carve-out) would otherwise be regulated or treated as regulated by the CCA.

A number of changes to the secondary legislation made under the CCA were also introduced in October 2004, notably changes to the consumer credit advertising promotions rules and changes to the form and content of credit agreements and to early settlement rules.

The Data Protection Act 1998 regulates, among other things, the retention and use of data relating to individual customers. Each company in the Group has made appropriate notifications under that Act.

The UK Money Laundering regulations, the Proceeds of Crime Act 2002 and the Terrorism Act 2000 set out the obligations on UK firms to have in place effective procedures to detect and prevent money laundering and terrorist financing. The FSA monitors firms' financial crime prevention measures as part of its work to achieve one of its four main objectives, i.e. to prevent the finance industry from being used for financial crime purposes.

The Unfair Terms in Consumer Contracts Regulations 1999 came into force in October 1999. These Regulations (together with the Unfair Contract Terms Act 1977, the "**Regulations**") apply to certain contracts for goods and services entered into with consumers. The main effect of the Regulations is that a contractual term covered by the Regulations which is "unfair" will not be enforceable against a consumer. The Regulations apply, among other things, to mortgages and related

products and services. The FSA Handbook contains guidance on the FSA's approach under the Regulations in respect of financial services contracts.

Unclaimed Assets – Budget 2006

As part of the UK's Chancellor of the Exchequer's budget statement issued on May 22, 2006, the UK Government stated its support of the efforts of the British Bankers' Association and the Building Societies' Association in trying to reunite unclaimed assets and their owners. A Steering Group has been established to investigate the setting up of a voluntary scheme whereby unclaimed assets can be reinvested in society, as long as the original owners' entitlements to reclaim are preserved, via charitable and voluntary organizations.

Northern Rock, together with other UK banks and the British Bankers' Association, are considering the implications of the scheme.

DIRECTORS AND SENIOR MANAGEMENT

The following table identifies the directors and senior management of Northern Rock as of July 18, 2006, and sets forth their functions and areas of experience within Northern Rock, principal business activities performed outside of Northern Rock, including any outside directorships.

Name (and date of birth)	Current position	Principal external directorships	Year Appointed
Dr. Matthew White Ridley (February 7, 1958)	Chairman	Northern 2 VCT Plc PA Holdings Limited Northern Investors Company PLC	1994
Adam John Applegarth (August 3, 1962)	Chief Executive	Persimmon plc	1996
David Frank Baker (May 2, 1953)	Deputy Chief Executive	Newcastle Employment Bond Limited	1996
Robert Frederick Bennett (May 30, 1947)	Group Finance Director	Greggs plc	1993
Keith McCallum Currie (July 18, 1956)	Executive Director	None	2005
Andy Menze Kuipers (December 24, 1957)	Executive Director	None	2005
Nicholas Adam Hodnett Fenwick (October 20, 1960)	Non-Executive Director	Fenwick Limited John Swire and Sons Limited	2003
Sir Ian Gibson (February 1, 1947)	Senior Independent Director	GKN plc Greggs plc	2002
Nichola Pease (April 3, 1961)	Non-Executive Director	J O Hambro Capital Management Limited	1999
Michael James Queen (September 27, 1961)	Non-Executive Director	3i Group PLC	2005
Rosemary Anne Radcliffe October 9, 1944)	Non-Executive Director	NIAL Holdings plc Newcastle International Airport Limited Guernsey Financial Services Commission	2005
Sir Derek Wanless (September 29, 1947)	Non-Executive Director	Northumbrian Water Group plc	2000

Note:

(1) Year appointed to the Board of Directors of Northern Rock or its predecessor, Northern Rock Building Society.

The business address of the directors is Northern Rock House, Gosforth, Newcastle upon Tyne, NE3 4PL.

BOARD PRACTICES

Corporate Governance

Northern Rock regards adherence to the principles of good corporate governance to be of the utmost importance. The Board is accountable to Northern Rock's shareholders for corporate governance. The following describes how Northern Rock applies the principles and provisions contained in the Combined Code of Corporate Governance published in July 2003 (the "**Combined Code**"). The Listing Rules require listed companies to disclose how they comply with the Combined Code and, where they do not do so, to provide a clear explanation of why they do not comply.

For the period January 1, 2005 to December 31, 2005; Northern Rock complied with all aspects of the Combined Code except for the requirement that the Senior Independent Director should attend meetings with a range of shareholders. In addition to the Corporate Governance Day in late 2004 held between shareholders, the Chairman and the Senior Independent Director, and the extensive programme of contact between Executive Directors and shareholders, it was not considered necessary for Sir George Russell to undertake an additional series of meetings with shareholders. He is available to shareholders at all times and sees regular feedback from them.

The Board of Directors

The Board of Directors meets regularly throughout the year and retains full and effective control over the Group. It is collectively responsible for the success of the Group and determines its strategy and policies, whilst monitoring performance. The Board met eleven times during 2005 and, following the appointments of Mr Queen and Miss Radcliffe on January 5, 2005 and March 1, 2005 respectively, comprised the Chairman, the Senior Independent Director, six other Non-Executive Directors, the Chief Executive and four other Executive Directors. Where directors were absent from Board or Committee meetings, the Board or respective Committee was satisfied with the apologies that were offered on each occasion.

The Board has a written schedule of matters reserved for its review and approval. It has also adopted a detailed procedures manual which covers the responsibilities and procedures of the Board, its Committees and its officers. The reserved matters include: the setting of capital expenditure budgets, the declaration of dividends, the setting of policies for balance sheet structural risk management, the raising of Non Retail Funds, Liquidity and Credit Risk, and the approval of the Annual Report and Accounts.

Authority for the execution of approved policies has been delegated by the Board to Northern Rock's Executive Committee and the Chief Executive. The Executive Committee comprises the Chief Executive; the other Executive Directors and the Company Secretary.

Within the parameters set out in the Executive Committee's terms of reference, the Executive Committee has responsibility for facilitating Northern Rock's effective operation to ensure that it meets its objectives through the implementation of the Strategic and Operational Plans. The Executive Committee also monitors developments in Northern Rock's core markets, and examines, appraises and reviews defence initiatives, potential acquisitions and corporate finance initiatives. It also establishes processes to control, appraise and review the implementation of any new procedures that are agreed upon.

The Management Board Asset and Liability Committee is responsible for overseeing the management and review of Northern Rock's balance sheet risk profile and processes, and Northern Rock's balance sheet, income statement and liquidity profiles. In addition, the Management Board Asset and Liability Committee has authority to authorise use by Northern Rock of structured financial products and private equity investments in accordance with the policies and procedures set down in the Corporate Finance and Structured Financial Policy statement approved by the Board.

A clear division of responsibility exists between the Chairman, who is responsible for running the Board, and the Chief Executive who has responsibility for running the business. This division is clearly set out in the Chairman's letter of appointment and the Chief Executive's job description.

Appointments to the Board

Northern Rock's Articles of Association require that each director stand for re-election at least every three years and that directors appointed by the Board should be subject to election by

shareholders at the first opportunity after their appointment. The directors to retire by rotation will be those in office longest since their previous re-election. Non-Executive Directors are appointed for a specified term subject to re-election.

Northern Rock's policy is that Non-Executive Directors will stand down from office at the conclusion of the next Annual General Meeting following their seventieth birthday. In accordance with this policy, Sir George Russell retired from office at the conclusion of the 2006 Annual General Meeting.

Directors

More than half of the Board comprises Non-Executive Directors all of whom have experience in a wide range of commercial or banking activities. The Board is required to determine whether each director is independent in character and judgement and whether there are relationships or circumstances which are likely to affect, or could appear to affect, the director's judgement. The Board considers all of the Non-Executive Directors to be independent for the purposes of the definition in the Combined Code.

Until his retirement on April 25, 2006, Sir George Russell was Northern Rock's Senior Independent Director. Sir Ian Gibson was appointed Senior Independent Director of Northern Rock on April 25, 2006.

Induction and training

It is Northern Rock's policy that every director should receive appropriate training when he or she is appointed to the Board, and subsequently as necessary. During 2005 Mr Queen and Miss Radcliffe both joined the Board as Non-Executive Directors whilst Mr Currie and Mr Kuipers became Executive Directors.

A detailed induction process was completed for each of the directors to ensure that they were able to discharge their responsibilities effectively; this included in the case of Mr Queen and Miss Radcliffe, attendance at the Northern Rock's Interim and Preliminary Results presentations, where they were available to meet with major shareholders. Northern Rock's induction process is designed to ensure that every new director understands his or her responsibilities as a director of Northern Rock. Where appropriate, the process also enables directors to build an understanding of Northern Rock, its business and the market in which it operates. It also assists with the formulation of a link with the senior executives in Northern Rock and facilitates an understanding of Northern Rock's main relationships with its major customers, suppliers and shareholders.

The initial induction programme is supported by an ongoing training programme for all directors to ensure that they remain fully up to date with legal, regulatory and financial developments. In addition to this programme, at Board meetings during 2005, a number of Northern Rock's senior executives provided presentations concerning their areas of responsibility. This ensures that the Board remains fully up to date on the Group's business. The ongoing training process is enhanced by the annual appraisal process, where directors are asked to identify areas where additional training is required.

To enable the Board to function effectively, all directors have full and timely access to all information which may be relevant to the discharge of their duties and obligations. Northern Rock also arranges additional, specific training or support for any director who requests it.

The Chairman ensures that all directors are properly briefed on issues to be discussed at Board meetings. All directors are able to obtain further advice or seek clarity on issues raised at Board meetings from within Northern Rock or from external professional sources. All directors have access to the advice and services of the Company Secretary who is responsible for ensuring that Board procedures and applicable rules and regulations are observed.

Additionally, the Company Secretary provides regular reports to the Board to ensure that it remains up to date on the latest regulatory, legal and governance developments relevant to Northern Rock and its officers. Where necessary, the directors are able to take independent professional advice at Northern Rock's expense.

Indemnities

Northern Rock's Articles of Association provide an indemnity to directors against certain liabilities incurred as a result of their office. The indemnities extend to defending any proceedings in which judgement is given in the directors' favour, or in which they are acquitted or in any proceedings in which relief is granted by a court from liability for negligence, default, breach of duty or breach of trust in relation to the affairs of Northern Rock. In addition, Northern Rock arranges Directors and Officer's Insurance on behalf of its directors in accordance with the provisions of the Companies Act 1985.

Board Evaluation and Director Appraisal

The Combined Code requires that Non-Executive Directors, the Board and its Committees should be subject to annual appraisal. Where a Non-Executive Director is proposed for re-election beyond six years, the proposal should be subject to a particularly rigorous review, and should take into account the need for progressive refreshing of the Board.

All Executive Directors, Non-Executive Directors and the Chairman were subject to an appraisal during the year under review to ensure that their contribution continued to be of the highest standard.

The Chief Executive and all of the Non-Executive Directors were appraised by the Chairman whilst the appraisal of the Group Finance Director, Deputy Chief Executive and other Executive Directors was completed by the Chief Executive. After a meeting of the Non-Executive Directors in absence of the Chairman and having also canvassed the opinions of the Executive Directors, the Senior Independent Director conducted the appraisal of the Chairman.

For the year under review, the conclusion of the appraisal exercise was that each Non-Executive Director, Executive Director and the Chairman continued to demonstrate a continued commitment and effective contribution to their position. The terms of appointment of each Non-Executive Director have been renewed for a further year with effect from January 1, 2006, subject to re-election where appropriate at the Annual General Meeting held in April 2006.

In addition to the appraisal of the individual Directors, an evaluation of the Board and its Committees was also completed. This evaluation process consisted of a lengthy questionnaire that canvassed the directors' views on a wide range of matters including, the effectiveness of the Board, its Committees and the Chairman. The directors were also asked to comment on the Board meeting process, the composition of the Board, and the interaction between the Board and its Committees.

The Company Secretary reported to the Board on the outcome of the evaluation exercise. The process was completed by the Board considering and debating the Company Secretary's report and reviewing the respective strengths and weaknesses of the Board, its members and its Committees.

The Company Secretary reported to the Board that the evaluation of the Board and its Committees showed that they were discharging their responsibilities effectively and confirmed that the process also provided useful feedback that would be used to improve current practice and procedures.

Board Committees

In accordance with the Combined Code and the best principles of corporate governance, the Board has established a number of Committees to assist it in the way that it deals with matters that are reserved for its consideration. The Chairman and membership of each Committee are set out on page 93. Each Committee has detailed terms of reference clearly setting out its remit and authority. In accordance with the Combined Code, the terms of reference of the Audit, Nominations, Remuneration and Risk Committees are available on Northern Rock's website and on request in writing from the Company Secretary.

In addition to the meetings of the Board and the Committees which took place throughout the year, the Chairman also held meetings with Non-Executive Directors in absence of the Executive Directors and the Non-Executive Directors met in absence of the Chairman and the Executives.

The following paragraphs set out details of the Committees and the particular work that they undertake.

Audit Committee

The Audit Committee comprises five independent Non-Executive Directors and met six times during 2005. It considers and, where appropriate, advises the Board on all matters relating to regulatory, prudential and accounting requirements that may affect the Group. It also reports to the Board on both financial and non-financial controls. An important aspect of its role is to ensure that an objective and professional relationship is maintained with the external auditors.

The Audit Committee has responsibility for recommending the appointment, re-appointment and removal of the external auditors. In February 2005 the Audit Committee reviewed the effectiveness of the external auditors and made a recommendation that they be re-appointed for a further 12 months. The Board accepted this recommendation and an appropriate resolution was passed at the 2005 Annual General Meeting.

The Audit Committee reviews the scope and results of the annual external audit, its cost effectiveness, and the independence and objectivity of the external auditors. It also reviews the nature and extent of any non-audit services provided by the external auditors. The external auditors may attend all meetings of the Audit Committee and they have direct access to the Audit Committee and its Chairman at all times.

The Chief Internal Auditor provides further assurance that the significant risks identified by the business are properly managed. The Chief Internal Auditor also has direct access to the Audit Committee and its Chairman. The Executive Directors are not members of the Audit Committee but attend meetings by invitation of the Audit Committee, as necessary, to facilitate its business.

The Audit Committee reviews the internal control system on behalf of the Board and is also responsible for reviewing the effectiveness of the Internal Audit function. At each meeting the Committee receives reports of reviews conducted throughout the Company by the Internal Audit and (periodically) Compliance functions.

The Combined Code requires the Board to be satisfied that at least one member of the Audit Committee has recent and relevant financial experience. The Board is satisfied in this regard and, in addition, in the opinion of the Board the qualifications of each of the Audit Committee members gives the Audit Committee the breadth of financial experience to discharge its responsibilities.

Chairman's Committee

The principal function of the Chairman's Committee is to review Northern Rock's strategy and to consider any major operational issues or proposals for significant new initiatives that may arise. The Chairman's Committee only meets as a formal Committee in exceptional circumstances and its activities are reported to the Board. The Chairman's Committee comprises the Chairman, the Executive Directors and the Company Secretary.

Nominations Committee

The Nominations Committee comprises the Chairman and two independent Non-Executive Directors. The Nominations Committee met once during 2005. It monitors and reviews the membership of, and succession to, the Board and the Nominations Committee makes recommendations to the Board in this regard. One of its functions is to identify potential Executive and Non-Executive Directors taking into account the requirement for the members of the Board to have an appropriate range of skills and experience to understand the activities of Northern Rock and its subsidiary undertakings.

During 2005, the Nominations Committee assessed the size of the Board, the attributes of the Board members, the continued growth of Northern Rock and its strategic aims. Following the addition of two Non-Executive Directors and two Executive Directors in 2005, the Nominations Committee believes that the Board has an appropriate number of directors with a suitable range of knowledge and skills and that, for the time being, the performance of the Board would not be improved by the recruitment of additional directors.

During 2005, the Nominations Committee also considered the succession to the position of Senior Independent Director, in anticipation of Sir George Russell's retirement from the Board. Having considered the duties and expectations of the position, Sir Ian Gibson taking no part in the debate, the Nominations Committee concluded that Sir Ian Gibson possessed the necessary qualities of

experience and business acumen. The Nominations Committee therefore recommended to the Board that the appointment should be made, and at its November meeting, the Board approved this recommendation.

Remuneration Committee

The Remuneration Committee comprises seven independent Non-Executive Directors and met twice in 2005. It is responsible for considering and advising the Board on the remuneration policy for Executive Directors and the Chairman, and for determining their remuneration packages. In discharging its responsibilities the Remuneration Committee takes professional advice from within and outside Northern Rock. It is the Board's responsibility to determine the remuneration policy for Non-Executive Directors within the limits set in the Articles of Association. The Remuneration Committee also determines the level of remuneration for Northern Rock's Management Board Directors (comprising management at the level immediately below the Board).

In accordance with the requirements of the Directors' Remuneration Report Regulations 2002 further information may be found in Northern Rock's Directors' Remuneration Report.

Risk Committee

The Risk Committee comprises four independent Non-Executive Directors and the Executive Directors, Mr Currie and Mr Kuipers having been appointed to the Risk Committee with effect from January 1, 2006. The Risk Committee met four times during 2005. The main role of the Risk Committee is to review, on behalf of the Board, the key risks inherent in the business, the system of control necessary to manage such risks, and to present their findings to the Board.

This responsibility requires the Risk Committee to keep under review the effectiveness of the Group's system of internal controls, which includes financial, operational, compliance and risk management controls and to foster a culture that emphasizes and demonstrates the benefits of a risk-based approach to internal control and management of the Group. The Risk Committee fulfils this remit by reinforcing management's control consciousness and making appropriate recommendations to the Board on all significant matters relating to the Group's risk strategy and policies.

Other responsibilities of the Risk Committee include keeping under review the effectiveness of the Group's risk management infrastructure. This involves an assessment of risk management procedures (for the identification, measurement and control of key risk exposures) in accordance with changes in the operating environment. It is also primarily responsible for considering the major findings of any of the FSA or internal/external audit's risk management review and management's response.

To assist the Board in discharging its responsibilities for the setting of risk policy, the Risk Committee periodically reviews the Group's credit risk, interest rate risk, liquidity risk and operational risk exposures in relation to the Board's risk appetite and the Group's capital adequacy. As part of the implementation of Basel 2 the Risk Committee has responsibility for monitoring the performance of Northern Rock's Basel 2 credit rating systems and reviewing reports prepared by the Credit Risk Management Group and the Basel Steering Group.

The Risk Committee also ensures that the public disclosure of information regarding the Group's risk management policies and key risk exposures is in accordance with the statutory requirements and financial reporting standards.

Internal Control

The Board is responsible for the Group's system of internal control and for annually reviewing its effectiveness. The system of internal control is designed to manage risk rather than eliminate it and in this regard, the Board considers that Northern Rock is a well-controlled, risk-averse business that continues to adopt a prudent stance in the management of risk. Through the work undertaken in this area by the Audit Committee and reported to it, the Board has reviewed the effectiveness of the system of internal control and is satisfied that there is a sound system of internal control that safeguards shareholders' investments and Northern Rock's assets.

In accordance with the guidance set out in the Turnbull Guidance on Internal Control, Northern Rock has an ongoing process for identifying, evaluating and managing the significant risks faced by it. This process was in place for the period January 1, 2005 to December 31, 2005 and remained in place

on the date that the 2005 Annual Report and Accounts was approved by the Board. As part of Northern Rock's continuing evaluation of internal control, the Board has reviewed and (where necessary) updated the process for identifying and evaluating significant risks affecting the business and the policies and procedures by which these risks are managed.

Northern Rock is committed to developing and maintaining a control-conscious culture in all areas. This is achieved through a well-defined organizational structure with clear reporting lines and a commitment to recruiting and training staff governed by appropriate codes of conduct. In addition, the Group maintains procedure manuals that detail the procedures to control physical and logical access, segregation of duties and credit, expenditure and other authorization limits. There are well-established budgetary and strategic planning cycles, and the Board reviews the results monthly against budgets, forecasts and prior year actual results, together with other key business measures.

The Chief Executive reports to the Board on behalf of the Executive Committee on significant changes in the business and the external environment which affect significant risks. The Board also receives monthly financial information, which includes key performance and risk indicators. Where areas for improvement in the system are identified, the Board considers the recommendations made by the Executive Committee, the Risk Committee and the Audit Committee.

A detailed description of the Group's approach to financial risk management and the related use of derivatives is set out in note 39 to the Consolidated Financial Statements. Material risk exposures are subject to Board policy statements that set out the exposure limits of the risks and the hedges and control techniques to be utilised. In addition, regular reporting of all risk exposures is monitored throughout Northern Rock by the Operational Risk Group whose membership is drawn from each of Northern Rock's departments within which operational risk may arise. This Group reports to Management Board Asset and Liability Committee on a monthly basis and subsequently to each meeting of Risk Committee.

Northern Rock's Internal Audit function provides a degree of assurance as to the operation and validity of the system of internal control and planned corrective actions are independently monitored for timely completion.

Northern Rock has in place a formal procedure by which staff can, in confidence, raise concerns about possible improprieties in financial and other matters – commonly referred to as 'whistleblowing' procedures. Details of these arrangements are set out in Northern Rock's Standards of Business Conduct. Northern Rock's whistleblowing policy is intended to encourage and enable staff to raise serious concerns. Employees reporting concerns in this way are afforded certain rights through legislation (Public Interest Disclosure Act 1998) and have access to a confidential 'whistleblowing' telephone line.

The Audit Committee reviews this procedure on an annual basis and remains satisfied that it incorporates arrangements for the proportionate and independent investigation of matters raised and for appropriate follow up action.

Communications

A Summary Financial Statement is issued to all shareholders and a copy of the Annual Report and Accounts is available by written request to the Company Secretary or from the Northern Rock website: www.northernrock.co.uk. Northern Rock communicates regularly with its shareholders who are given the opportunity to raise matters for discussion at the Annual General Meeting. Northern Rock also deals with a number of written enquiries from shareholders throughout the year.

Northern Rock regards communication with institutional shareholders as important and its Investor Relations department maintains a high level of contact throughout the year with institutional shareholders.

The Company Secretary also reports regularly to the Board on feedback received from shareholders. Additionally, the Chief Executive, Group Finance Director and other Executive Directors have extensive ongoing contact with shareholders and feedback arising from this is also reported to the Board. Coupled with presentations from analysts and brokers throughout the year, these arrangements ensure that all directors, both Executive and Non-Executive, remain up to date on the views of major shareholders.

As Senior Independent Director, Sir George Russell (and after his retirement, Sir Ian Gibson) is available to shareholders if they have concerns which contact through the normal channels of

Chairman, Chief Executive or Group Finance Director has failed to resolve or for which such contact is inappropriate.

To ensure that opportunities are offered to major shareholders to meet with members of the Board, a number of more informal meetings are also held throughout the year where investor feedback on strategy and governance is encouraged.

Going Concern

The directors are satisfied that the Group has adequate resources to continue in business for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the accounts.

Statement of Directors' Responsibilities

The Companies Act 1985 requires the directors to prepare financial statements for each financial year that give a true and fair view of the state of affairs of the Company and the Group as at the end of the year and of the profit or loss of the Group for the year.

The directors consider that in preparing the financial statements appropriate accounting policies, consistently applied and supported by reasonable and prudent judgements and estimates, have been used and that applicable accounting standards have been followed.

The directors are responsible for ensuring that the Company and the Group keeps accounting records that disclose with reasonable accuracy at any time the Group's financial position and that enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the Company and the Group and hence for taking reasonable steps to prevent and detect fraud and other irregularities.

The maintenance and integrity of the Northern Rock website is the responsibility of the directors; the work carried out by the auditors does not involve consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the website.

Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Committees

Membership of the Board's Committees is set out below.

Audit Committee

+ Sir Derek Wanless (Chairman)
+ N A H Fenwick
+ Sir Ian Gibson

DIRECTORS' REMUNERATION REPORT

Summary

The Directors' Remuneration Report is presented to shareholders by the Board and contains the following information:

- A description of the role of the Remuneration Committee;
- A summary of the Group's Remuneration Policy including a statement of Northern Rock's policy on directors' remuneration;
- Graphs illustrating the performance of Northern Rock relative to the FTSE 100 Index and the FTSE 350 Index for the last five years;
- Details of the terms of the service contracts and the remuneration of each director for the preceding financial year;
- Details of the share options and awards under long-term incentive schemes held by the directors; and
- Details of each director's interests in ordinary shares in Northern Rock.

The Directors' Remuneration Report complies with the Directors' Remuneration Report Regulations 2002 (the "**Regulations**"). The Directors' Remuneration Report also sets out how the principles of the Combined Code relating to Executive Director remuneration are applied by the Group.

Shareholders approved the Directors' Remuneration Report at the Annual General Meeting on April 25, 2006.

The Remuneration Committee

The Remuneration Committee consists entirely of independent Non-Executive Directors and comprises Ms N Pease (Chairman), Mr N A H Fenwick, Sir Ian Gibson, Mr M J Queen, Miss R A Radcliffe, Sir George Russell and Sir Derek Wanless.

Where appropriate, the Chairman and Chief Executive are invited to attend meetings of the Remuneration Committee, save that they are absent when their own remuneration is under consideration. The Remuneration Committee operates within agreed terms of reference and has responsibility for making recommendations to the Board on the Group's general policy relating to executive remuneration. It also determines on behalf of the Board, specific remuneration packages for the Chairman, the Executive Directors and the Management Board Directors, being the level of management immediately below the Board.

The Remuneration Committee meets regularly and takes advice from both inside and outside the Group on a range of matters, including the scale and composition of the total remuneration package payable in comparable financial institutions to people with similar qualifications, skills and experience.

The following persons and advisors provided advice or services that materially assisted the Remuneration Committee in its consideration of directors' remuneration matters during the year:

- The Remuneration Committee consulted the Chief Executive on matters relating to the remuneration of the other Executive Directors who report to him. The Chairman was also consulted in relation to the remuneration of all Executive Directors;
- Internal support was provided to the Remuneration Committee by the Company Secretary;
- Watson Wyatt LLP advised the Remuneration Committee on a range of issues including the benchmarking of Executive Directors' salaries and the Chairman's fee. In addition to providing this advice to the Remuneration Committee, Watson Wyatt LLP advised the Board on the benchmarking of Non-Executive Directors' fees and are the consulting actuaries to Northern Rock who advised on various pension issues;
- Inbucon Administration Ltd was responsible for preparing TSR (defined below) calculations for the purposes of Northern Rock's long term incentive plan ("**LTIP**") and the Directors' Remuneration Report. Inbucon Administration Ltd did not provide other advice or services to Northern Rock; and

- Freshfields Bruckhaus Deringer advised Northern Rock on various share plan matters and compliance with the Regulations. They are Northern Rock's main legal advisor.

Compliance

Northern Rock has complied with the provisions of the Combined Code relating to directors' remuneration throughout the year.

Remuneration policy for Executive Directors

The Remuneration Committee believes that the continuing improvement in the performance of Northern Rock depends on individual contributions made by the Executive Directors. For this reason, the remuneration policy is designed to provide competitive packages to motivate, reward and retain Executive Directors of high quality and to align their interests with those of shareholders.

The Board has adopted, on the recommendation of the Remuneration Committee, a remuneration policy with the objectives set out below:

(i) The remuneration packages for Executive Directors are designed to be competitive in terms of market practice;

(ii) Performance-related remuneration should seek to align the interests of Executive Directors with those of the shareholders through the imposition of stretching corporate performance targets and the satisfaction of most short and longer term incentives in the form of shares; and

(iii) To motivate for future achievement, a significant proportion of remuneration should be based on operational and financial performance both in the short and long term together with the individual contribution made by the Executive Directors.

It is intended that this policy should continue to apply for 2006 and subsequent years.

The Remuneration Committee regularly reviews all aspects of remuneration to ensure they remain appropriate. The operation of share incentive schemes is kept under review to ensure that they remain appropriate to Northern Rock's current circumstances and prospects.

The Directors' Remuneration Report sets out Northern Rock's policy on Executive Directors' remuneration for 2006 and, so far as practicable, for subsequent years. The inclusion in the report of remuneration policy in respect of years after 2006 is required by the Regulations. The Remuneration Committee is able to state its remuneration policy for 2006 with reasonable certainty, and this policy will continue in subsequent years unless changed by the Remuneration Committee. The Remuneration Committee considers that a successful remuneration policy needs to be sufficiently flexible to take account of future changes in Northern Rock's business environment and in remuneration practice.

Any changes in policy for years after 2006 will be described in future Directors' Remuneration Reports; such reports will continue to be subject to shareholder approval. All statements in this report in relation to remuneration policy for years after 2006 should be read in light of this paragraph.

Elements of Remuneration

Remuneration comprises: basic salary, annual bonus, pension benefits and benefits in kind. In addition, Executive Directors and senior executives participate in certain share based incentive schemes, comprising the bonus matching plan, deferred share scheme and LTIP. These share-based incentive schemes, and the annual bonus, are performance-related, and the Remuneration Committee regards them as a key element in the Executive Directors' remuneration package.

As a result of changes to the performance-related elements of remuneration in recent years (including, from 2005, the imposition of a corporate performance condition on awards vesting under the bonus matching plan and deferred share scheme, and the increase in annual bonus potential as described below), the performance-related element of total potential remuneration has materially increased in recent years.

Basic Salary

The Remuneration Committee's objective is that Executive Directors' basic salaries should be paid at an appropriate level to take account of both personal performance and of salaries within a comparator group of financial institutions. The Remuneration Committee considers that exceptional

performance, whether corporate or individual, should be rewarded through bonus and incentive schemes rather than basic salary.

Salaries are reviewed annually for each Executive Director, and revised salaries took effect from January 1, 2006 as follows:

A J Applegarth	£690,000	(2005 – £625,000)
D F Baker	£455,000	(2005 – £390,000)
R F Bennett	£455,000	(2005 – £390,000)
K M Currie	£365,000	(2005 – £270,000 from January 5, 2005)
A M Kuipers	£365,000	(2005 – £270,000 from January 5, 2005)

The revised salaries of the Executive Directors have been benchmarked against salaries paid for similar positions in banks in the FTSE 100 Index and for companies in positions 63 – 87 in the FTSE 100 Index being the grouping of companies around Northern Rock in the FTSE as of June 30, 2005, the date of the exercise.

During 2005 Northern Rock's 12 Management Board Directors were paid salaries ranging from £90,000 to £192,000.

Short Term Bonus Scheme

Northern Rock operates a short term cash bonus scheme under which payments are made on an annual basis at the discretion of the Remuneration Committee. All of the Executive Directors and certain senior executives participate in this scheme.

This cash bonus scheme relates to year-on-year increases in the Group's statutory profit before taxation, adjusted to exclude the effect of extraordinary and exceptional items and payments to The Northern Rock Foundation, with increases in profit before taxation generating a bonus payment equal to a percentage of salary. Only where there is an increase in profit before taxation will participants be eligible for a short term bonus. Every 1% increase in profit before taxation generates a bonus payment equal to 5% of salary with a maximum of 100% of salary by way of bonus for 20% increase in profits (with a sliding scale between these points). Payment of one-third of the bonus will be subject to the Committee's view of the participant's personal performance, and the remaining two-thirds relates to the performance of the business. The bonus payable is reduced by the value of shares appropriated under the all-employee Inland Revenue Share Incentive Plan for the year, to the extent needed to ensure that the relevant bonus cap is not exceeded. On this basis, the bonus earned in respect of 2005 was 84.7% of salary.

For 2006 and thereafter the Remuneration Committee will continue to operate the cash bonus scheme on the same basis as for 2005 save that the level of bonus will be based upon increases in underlying profit attributable to equity shareholders. This will provide a more transparent method of performance comparison under the new IFRS and will more closely align scheme payments to shareholder interests.

Bonus Matching Plan

Participants are also encouraged to identify with the interests of shareholders by investing some of their own funds in Northern Rock. All of the Executive Directors and certain other senior executives are entitled to elect for all or part of the after tax amount of their annual cash bonus to be used to acquire shares which will be held for a period of three years; alternatively they may elect to deposit their own shares with an aggregate value not exceeding the cash amount of the after tax bonus. The shares acquired or deposited will be eligible for additional "matched" shares at the end of the three-year period, provided the participant has remained an employee of the Group.

The plan is designed to achieve one-for-one matching on an after tax basis. As the participant's shares are invested in the plan on an after tax basis, but the matched shares only attract income tax and national insurance contributions if and when they are released from the plan, the number of matched shares is increased (by reference to tax rates at the time the matching shares are initially awarded) to reflect the fact that they will attract income tax if and when they are released. Entitlement to the matched shares will normally be lost if the participant leaves employment except in certain "good leaver" circumstances.

For awards made under the bonus matching plan in 2005 and future years, the release of matched share awards is dependent on the Group achieving average real earnings per share growth of 3% per annum over the three financial years pending their release. This performance target was also adopted for deferred share awards made under the deferred scheme referred to below and was given shareholder approval at the Annual General Meeting on April 26, 2005.

The bonus matching plan was operated in respect of 2005, resulting in the share awards to Executive Directors described on pages 105 and 106. The Remuneration Committee will continue to operate it in respect of 2006 and future years.

The beneficial ownership of the matched shares transfers to the participant on the grant of an award. The matched shares will be forfeited if the participant ceases to be entitled to them except in certain "good leaver" circumstances. The participant will be entitled to any dividends paid on their matched shares during the restricted period.

Deferred Share Scheme

Under a separate element of the short term bonus scheme, the Remuneration Committee may grant to Executive Directors and certain senior executives who receive a cash bonus under that scheme an award of shares with a pre-tax value equal to the pre-tax value of their cash bonus. A participant who is granted an award must normally continue to hold these shares and remain an employee of the Group for a period of three years from the date of the award in order to retain the full number of shares so granted to them, although shares will be released earlier in certain "good leaver" circumstances.

This deferred share scheme was operated in respect of 2005 resulting in the share awards to Executive Directors described on pages 106 and 107. The Remuneration Committee will continue to operate the deferred share scheme in respect of 2006 and future years.

The beneficial ownership of the deferred shares transfers to the participant on the grant of an award. The deferred shares will be forfeited if the participant ceases to be entitled to them except in certain "good leaver" circumstances. The participant will be entitled to any dividends paid on their deferred shares during the restricted period.

Long Term Incentive Plan

All Executive Directors participate in a long term incentive plan ("**LTIP**"), which was approved by shareholders in 1998. Awards have been made in 1998 and each subsequent year thereafter. The plan involves the grant of share awards, which can only be released if demanding performance targets are achieved and if the participant remains in employment, except in certain "good leaver" circumstances. The number of shares comprised in an award is calculated by reference to a percentage of salary, with the maximum award of shares being 100% of salary.

Performance is measured over a three year period on the basis of total shareholder return ("**TSR**"), comparing Northern Rock's performance to that of the companies in an appropriate index at the date of an award. The Remuneration Committee decided that, for awards in 2005 and subsequent years, the FTSE 100 Index would be used. For previous awards, the FTSE 350 Index was used because, at the time the LTIP was approved in 1998, Northern Rock's market capitalisation placed it around the mid-point of the constituents of that index. Northern Rock joined the FTSE 100 Index in September 2001. The extent to which an award is realisable depends on Northern Rock's ranking in this comparison. Awards are released on a sliding scale between median and top quartile performance with 25 per cent of an award being released for median performance and 100 per cent of the award being released for a ranking within the top quartile. If the Group's performance is below the median, none of the shares in an award will vest. There is no re-testing of targets.

There is also an earnings per share threshold, which requires that the Group's earnings per share growth over the three year period must exceed the growth in the UK Retail Prices Index ("**RPI**") by an average of at least 3% per annum. This performance condition is designed to ensure that the vesting level of LTIP awards is dependent on satisfactory year-on-year financial performance as well as above-median TSR ranking.

The LTIP was operated in 2005, resulting in the share awards to Executive Directors set out in the table on pages 108 and 109. The Remuneration Committee will continue to operate it for Executive Directors in 2006 and future years. A separate share scheme, in substantially the same terms

as the LTIP, has been adopted by the Remuneration Committee and is extended to 36 executives. This is also now subject to the FTSE 100 performance target. Executive Directors are not eligible to participate in this scheme, and awards under it will be satisfied with existing shares only.

All Employee Share Schemes

Executive Directors are eligible to participate in Northern Rock's all-employee share schemes on the same terms as other employees. These schemes comprise:

(i) The Sharesave Scheme, a savings-related share option scheme available to all employees. This scheme operates within specific tax legislation (including a requirement to finance exercise of the option using the proceeds of a monthly savings contract), and exercise of the option is not subject to satisfaction of a performance target;

(ii) The Employee Share Option Scheme, an HM Revenue & Customs approved share option scheme under which options have been granted to substantially all employees. Under this scheme the aggregate exercise value of unexercised options may not exceed £30,000. Options under this scheme may not be exercised unless real earnings per share of Northern Rock has grown by more than 2% over the life of the option. This performance condition is designed to ensure that the exercisability of options is dependent on satisfactory year-on-year financial performance on a sustained basis; and

(iii) The Share Incentive Plan ("**SIP**"), under which the maximum value of free shares awarded to employees cannot exceed £3,000 per year. The value of share awards under this scheme is dependent on the Group's profits. The SIP operates within specific tax legislation. Any payment made under the SIP together with any amount payable under the short term cash bonus scheme may not exceed the overall bonus cap from time to time.

The Remuneration Committee is satisfied that these schemes constitute a well considered overall plan for Executive Directors' and senior executives' long-term remuneration. These schemes are kept under regular review, to take account of changing circumstances. Bonus and share incentive scheme payments are not taken into account for pension purposes. It should be noted that the Executive Directors elected not to participate in the last two grants made under the Employee Share Option Scheme, namely those made in 2002 and 2005.

Pension Benefits

The following section describes the pension arrangements currently in force for the Executive Directors. These arrangements will be affected by changes to the tax treatment of the current UK pension regime contained in the Finance Act 2004 which is effective from April 6, 2006 ("**A Day**"). Northern Rock will not reimburse any additional tax burden that falls due to an individual Executive Director. Northern Rock has also agreed to pay those employees who elect to "cap" their pension at A Day a cash supplement in respect of the loss of future pension accrual, on a cost neutral basis to Northern Rock. As a consequence of these changes, a principle of cost neutrality will apply to those Executive Directors who, with Northern Rock's agreement, take early retirement at 55, without actuarial reduction of pension. Where this occurs, the money that would have been paid into the Northern Rock Pension Scheme to offset the actuarial reduction, will be paid to the individual and subject to deduction in respect of income tax and National Insurance. Northern Rock will re-imburse reasonable professional fees for advice to Executive Directors concerning the changes to the pension regime.

Each of the Executive Directors currently participates in the Northern Rock Pension Scheme, a contributory pension scheme which provides a pension of up to two-thirds of pensionable salary on retirement, dependent upon service. On death in service the scheme also provides for a dependant's pension and a lump sum of four times basic salary. This pension and life assurance is provided from the scheme (to the extent permitted by legislation) and otherwise from separate arrangements.

The normal retirement age under the pension scheme is 60 which enables members to achieve the maximum pension of 2/3rds of their salary at normal retirement age after 40 years service.

For death before retirement whilst in service, a capital sum equal to four times the annual rate of basic earnings, excluding director's fees, is payable, plus a return of member's contributions. In addition, a pension of 50% of the member's prospective pension at the age of 60, based on pensionable earnings at death, is payable to a surviving spouse providing the couple were married

before retirement: On death before retirement after leaving the scheme, a benefit of 50% of the member's deferred pension, re-valued to the date of death, is payable to a surviving spouse. For death in retirement, a spouse's pension of 50% of the member's pre-commutation pension is payable. In certain circumstances a children's allowance is payable, usually up to the age of 18 (or up to the age of 21 if they are in full-time education).

Subject to the Trustees' approval, early retirement may be granted from the age of 50, or at any age due to ill-health. The pension is calculated at the date of retirement based on accrued pensionable service and final pensionable earnings at that date. The pension will then be actuarially reduced to take account of early payment by an amount of 0.25% for each complete month before normal retirement date. Northern Rock and the Trustees have agreed that if Mr Applegarth or Mr Baker (having attained age 55) retire with the consent of Northern Rock they will receive immediate payment of their accrued pension without the application of an actuarial reduction.

If Mr Applegarth or Mr Baker elect to retire after attaining the age of 55 without the consent of Northern Rock they will receive an immediate pension being the accrued deferred pension reduced by 3% for each year or proportionate part thereof by which retirement precedes age 60.

Post retirement increases to pensions arising from membership of the defined benefit scheme are guaranteed each year at the rate of 3% per annum compound, subject to any guaranteed minimum pension. Pension benefits accrued after April 5, 1997 are guaranteed to increase in line with inflation, to a maximum of 5% per annum.

In addition to the normal scheme increases, and subject to the defined benefit scheme fund having adequate resources, the Trustees may award further discretionary increases each April. Members of the scheme have the option to pay additional voluntary contributions to secure additional benefits within regulatory limits, to which Northern Rock does not contribute.

Northern Rock also operates an unapproved unfunded arrangement for Mr Bennett (which is provided for in Northern Rock's accounts and maintains pension entitlement from previous employment) to provide additional benefits to the main scheme. The unfunded arrangement is designed to ensure that Mr Bennett (or his spouse) will receive the level of pension benefit in respect of his eligible earnings in excess of the pensions "earnings cap", currently £105,600 (2004/05 – £102,000) per annum, which are not pensioned by the Northern Rock Pension Scheme. Mr Bennett contributes 5% of his basic salary including those earnings in excess of the earnings cap. Mr Bennett's pension will accrue at the rate of 1/36th of pensionable earnings for each year (and *pro rata* for each part year) of pensionable service from November 1, 1993 (date joined pension scheme). In addition, all pension calculations shall include pensionable service brought forward from previous employers of 19 years 5 months at a rate of accrual of 1/60th per annum and 5 years 1 month at a rate of accrual of 1/36th per annum.

The total of the pension provided for Mr Bennett at normal retirement date or at any age after his 55th birthday, where the retirement is by mutual consent or at Northern Rock's request, shall be the maximum of two thirds of his uncapped final pensionable earnings. If retirement occurs prior to age 60 without the consent of Northern Rock, he may elect to receive an immediate pension being the accrued deferred pension with a maximum of two thirds of his uncapped final pensionable earnings reduced by 3% for each year (and proportionate for each part thereof) by which retirement precedes age 60.

The aggregate of pension increases to be provided whether in deferment or in payment shall be the greater of 5% per annum or RPI, subject to any guaranteed minimum pension and the increases as granted by the Trustees of the scheme inclusive of any discretionary increases.

Should Mr Bennett die in service or in receipt of benefits under the Northern Rock's Permanent Health Insurance Scheme prior to age 60, a lump sum shall be paid of four times his earnings at death plus a return of his contributions. In addition, if he leaves a surviving spouse she shall receive a pension of four ninths of his uncapped final pensionable earnings. Any child or children under the age of 25 receiving full-time education would receive an allowance of one half of the entitlement of the surviving spouse. Should Mr Bennett die whilst in receipt of a pension prior to age 60, a lump sum of four times his earnings at retirement shall be payable. On death in receipt of a pension, any surviving spouse would receive a pension of two thirds of the pension Mr Bennett would have been receiving at death, ignoring any pension commuted for a tax free cash sum.

Any income tax or other related tax due on Northern Rock's contribution to the unfunded arrangement which, under an uncapped arrangement, would not have been paid by Mr Bennett, will be borne by Northern Rock up to two thirds of the contribution amount. In addition, any income tax or related tax due on the cash sum commutation will be borne by Northern Rock up to two thirds of the commutation amount.

Benefits In Kind

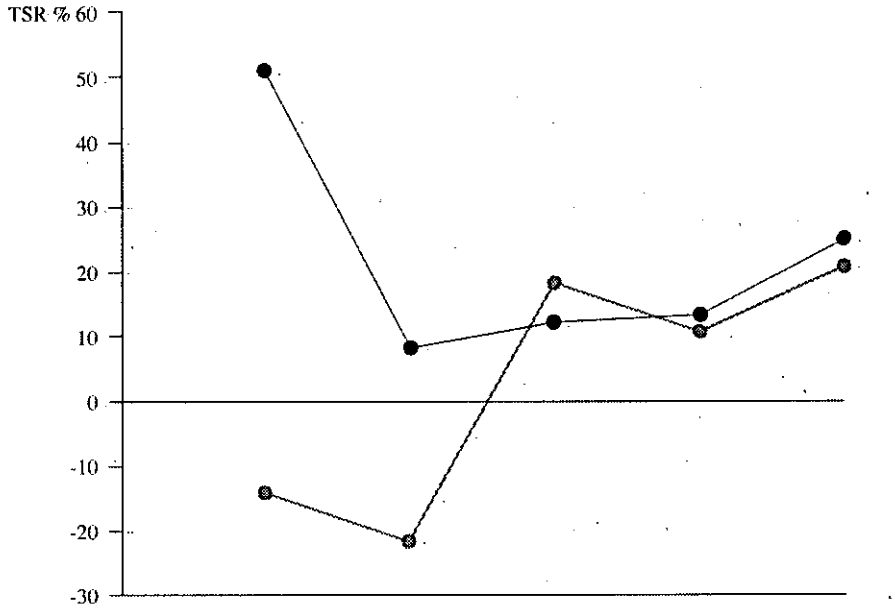
Each Executive Director is provided with company car and medical insurance benefits. The Executive Directors had, as employees of Northern Rock Building Society (or in the case of Mr Currie and Mr Kuipers as employees of Northern Rock prior to their appointment as directors), entitlement to participate in a concessionary mortgage scheme at the discretion of the Board. No further new loans may be made under the scheme following conversion to plc status, but existing loans are not affected.

Policy On Executive Directors' Service Contracts

It is the policy of Northern Rock that Executive Directors' service contracts can be terminated by 12 months' notice given to an Executive Director at any time. Each Executive Director can terminate his employment by giving 6 months' notice.

All of the Executive Directors' contracts may be terminated immediately by Northern Rock either with (for Mr Baker and Mr Bennett) the payment of liquidated damages equal to 12 months' salary and the value of annual bonus and benefits or (for Mr Applegarth, Mr Kuipers and Mr Currie) a payment in lieu of notice equal to such amount. Mr Applegarth, Mr Baker and Mr Bennett would, in the event of a change of control of Northern Rock, be entitled to terminate employment and receive a liquidated damages payment calculated on the same basis. The terms of reference of the Remuneration Committee make it clear that the Remuneration Committee seeks, in appropriate circumstances, to mitigate the amount of termination payments made to Executive Directors.

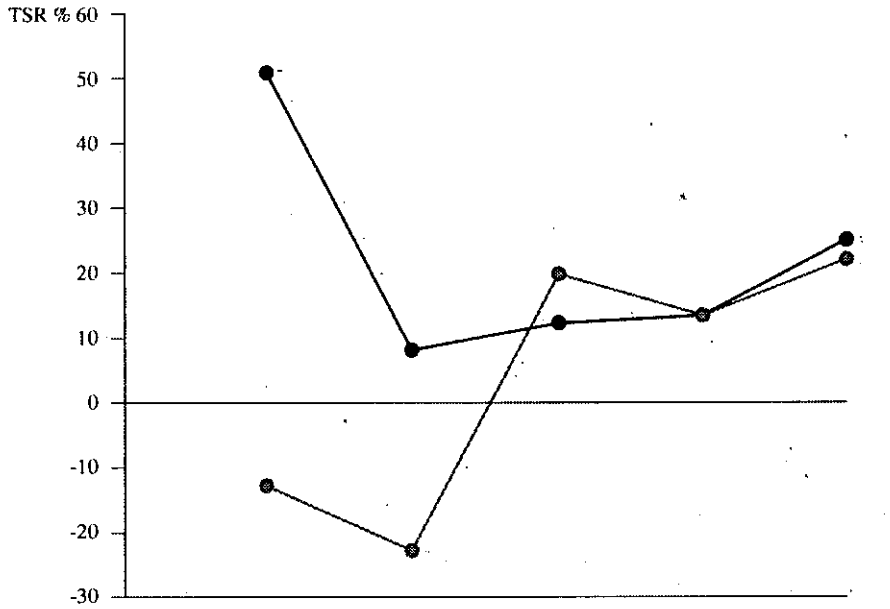
Policy on External Non-Executive Directorships Held By Executive Directors



Executive Directors are permitted to hold one external non-executive directorship unrelated to Northern Rock's business, provided that the time commitment is not material. Executive Directors are permitted to retain any fees arising from such a non-executive directorship. On this basis, Mr Bennett is a Non-Executive Director of Greggs plc, and Mr Bennett was entitled to fees of £28,000 from that company in respect of 2005. Mr Applegarth was appointed as a Non-Executive Director of Persimmon Homes plc in May 2005 and was entitled to fees of £26,667 in respect of 2005.

Performance Graphs

The performance graphs set out below illustrate the Group's TSR performance over the preceding five years, 2001 to 2005, compared with that of the FTSE 100 Index of which Northern Rock has been a constituent since September 2001, and that of the FTSE 350 Index of which Northern Rock was a constituent prior to September 2001.



The FTSE 350 Index has been included because members of this index comprise the comparator group for LTIP purposes for 2004 and prior. The performance graphs have been prepared in accordance with the Regulations.

FTSE 100

Service Contracts

Mr Applegarth is employed under a service contract with Northern Rock dated March 1, 2001. His current annual salary is £690,000, and he is entitled under the contract to participation in Northern Rock's bonus scheme, a company car (or allowance in lieu), membership of Northern Rock's pension scheme, life assurance cover equal to four times salary, permanent health insurance, private medical insurance cover and the continuation of a mortgage at a concessionary rate (which was granted before Northern Rock's conversion to plc status). Mr Applegarth's contract is for an indefinite term ending automatically on his retirement date (age 60), but may be terminated by 12 months notice given by Northern Rock and 6 months notice given by Mr Applegarth. Northern Rock may at its discretion elect to terminate the contract by making a payment in lieu of notice equal to:

(i) 100 per cent of basic annual salary;

(ii) The amount of annual bonus paid in respect of the preceding financial year; and

(iii) The annual cost to Northern Rock of providing pension and all other benefits to which Mr Applegarth is entitled under his contract.

In addition, Mr Applegarth may elect to terminate the contract on one month's notice given within six months following a change of control of Northern Rock. In these circumstances, Mr Applegarth would become entitled to a lump sum payment equal to the aggregate of:

(i) 100 per cent of basic annual salary;

(ii) The amount of annual bonus paid in respect of the preceding financial year; and

(iii) The annual cost to Northern Rock of providing pension and all other benefits specified in his service contract.

Mr Bennett is employed under a service contract with Northern Rock dated August 26, 1997, which was amended by a supplemental agreement dated March 12, 1998. His current annual salary is £455,000. He is entitled to the same benefits as those specified above in relation to Mr Applegarth, save that Mr Bennett is entitled to special pension arrangements which are described on pages 109 and 110.

Mr Bennett's contract is for an indefinite term ending automatically on his retirement date (age 60), but may be terminated by 12 months' notice given by Northern Rock and 6 months' notice given by Mr Bennett. Northern Rock may at its discretion elect to terminate the contract early by making a payment of liquidated damages calculated in the manner set out above in relation to Mr Applegarth's post-change of control liquidated damages entitlement.

In the event of a change of control of Northern Rock, Mr Bennett may elect to terminate the contract and receive a lump sum payment calculated in the manner set out above in relation to Mr Applegarth.

Mr Baker is employed under a service contract with Northern Rock dated August 26, 1997, which was amended by supplemental agreements dated March 12, 1998 and July 1, 1999. His current annual salary is £455,000. He is entitled to the same benefits as those specified above in relation to Mr Applegarth (save that Mr Baker has repaid the mortgage awarded to him before Northern Rock's conversion to plc status, and is not entitled to a further mortgage on concessionary terms).

Mr Baker's contract is for an indefinite term ending automatically on his retirement date (age 60), but may be terminated by 12 months' notice given by Northern Rock and 6 months' notice given by Mr Baker.

Northern Rock may elect to terminate the contract by making a payment of liquidated damages calculated in the manner set out above in relation to Mr Bennett. In the event of a change of control of Northern Rock, Mr Baker may elect to terminate the contract and receive a lump sum payment calculated in the manner set out above in relation to Mr Applegarth.

Mr Currie and Mr Kuipers are each employed under service contracts with Northern Rock dated January 5, 2005. Their current annual salaries are £365,000, and they are entitled under the terms of their contracts to participate in Northern Rock's bonus scheme, to receive a company car and expenses (or a monthly car allowance), membership of Northern Rock's pension scheme, life assurance cover equal to four times basic salary and the continuation of a concessionary mortgage (which was granted to them before they became directors of Northern Rock). Their contracts are for

an indefinite term ending automatically on their retirement (age 60). The contracts may however be terminated by 12 months' notice given by Northern Rock and six months' notice given by the directors.

Northern Rock may at its discretion elect to terminate Mr Currie's and Mr Kuipers' contracts by making a payment in lieu of notice equal to:

(i) 100 per cent of basic salary;

(ii) The amount of annual bonus paid in respect of the preceding financial year; and

(iii) The annual cost to Northern Rock's of providing pension and all other benefits to which they are entitled under their contracts.

The payment in lieu of notice payments may be made in phased instalments at Northern Rock's discretion.

Remuneration of the Chairman and Non-Executive Directors

The remuneration of the Chairman is determined by the Remuneration Committee and that of the other Non-Executive Directors is determined by the Board as a whole, on the basis of external independent advice.

The Chairman's annual fee is £300,000 (2005 – £250,000). The Senior Independent Non-Executive Director's annual fee is £67,000 (2005 – £55,000). Non-Executive Directors receive an annual fee of £44,000 (2005 – £40,000). The fee payable for membership of each of the Audit, Nomination, Risk and Remuneration Committees is £5,000 (2005 – £3,500) or, where a Non-Executive Director is chairman of a Board Committee, the additional annual fee payable to them is £15,000 (2005 – £13,000).

These revised fees for the Chairman and Non-Executive Directors were determined after consideration of an extensive report by Watson Wyatt LLP on the fees paid for similar roles at banks in the FTSE 100 Index, and for companies positioned 51-100 in the FTSE 100 Index.

The Chairman and Non-Executive Directors serve Northern Rock under letters of appointment, which are terminable by Northern Rock at any time without liability for compensation; they do not have service contracts. The Chairman and Non-Executive Directors are entitled to fees from Northern Rock and it is Northern Rock's policy that they do not participate in bonus, incentive or pension schemes. However, Sir George Russell, who also served on the Board of Northern Rock Building Society, (see page 88) is a member of a non-contributory pension scheme established by Northern Rock Building Society under which pension entitlement accrued for each complete year of qualifying service subject to a maximum of 60% of qualifying fees. This scheme ceased to accrue benefits after June 30, 1997.

Information Subject To Audit

The information set out below in the remainder of the Directors' Remuneration Report has been subject to audit as required by Part 3 of Schedule 7A of the Companies Act 1985.

Directors' Individual Remuneration

Details of directors' individual remuneration is set out below:

Non-Executive Directors

	2005	2004
	(£000)	
Dr M W Ridley (appointed Chairman April 27, 2004)	218	127
N A H Fenwick	43	36

There were no payments by Northern Rock during the financial year for compensation for loss of office or payments in connection with the termination of qualifying services.

There were no amounts paid to the Executive Directors in respect of their qualifying services by way of expenses allowance that was chargeable to UK income tax.

The nature of the non-cash benefits is set out on page 100.

Bonus Matching Plan

Details of the ordinary shares over which the directors have conditional rights under the bonus matching plan by year of grant are as follows:

Rights under the bonus matching plan

	Date granted	Rights held under plan at Dec 31, 04	Rights granted during 2005	Market price of each share at date of grant	Rights released during 2005	Rights held under plan at Dec 31, 05	Date of end of qualifying period

	Jan 05	—	18,120	7.73	—	18,120	Jan 08

For 2004 and previous years, the release of matched share awards was not dependent on satisfaction of a further performance condition because the value of matched share awards was derived from annual bonus criteria and was therefore dependent on corporate performance.

The value, calculated in accordance with IFRS 2 – Share-based Payment, of these awards is being charged to the income statement over the three year period to which they relate. In 2005 £1,138,922 was charged to the income statement (2004 £718,646).

Further awards were granted on January 26, 2006 at £9.57 per share as follows:

A J Applegarth	55,315
D F Baker	34,517
R F Bennett	34,517
K M Currie	23,895
A M Kuipers	23,895

Rights vested under the bonus matching plan during 2005

	Number of ordinary shares	Date on which rights were awarded	Market price of each share at award date	Vesting date	Market price of each share at vesting date
			£		£
A J Applegarth	23,723	Jan 02	6.66	Jan 05	7.73
D F Baker	21,621	Jan 02	6.66	Jan 05	7.73
R F Bennett	21,621	Jan 02	6.66	Jan 05	7.73
K M Currie	9,383	Jan 02	6.66	Jan 05	7.73
A M Kuipers	9,383	Jan 02	6.66	Jan 05	7.73

Rights were released in January 2006 at £9.57 per share as follows:

A J Applegarth	52,253
D F Baker	38,728
R F Bennett	38,728
K M Currie	22,130
A M Kuipers	22,130

The value of the bonus matching award is derived from the annual bonus criteria (relating to the year on year increases in the Group's pre-tax profits on like-for-like ordinary activities) and is therefore dependent on corporate performance. At the 2005 Annual General Meeting, shareholders approved a resolution amending the scheme terms and conditions to incorporate a performance condition for the release of bonus matching share awards. For awards in 2005 and subsequent years the value of any bonus matching share awards will be dependent on the Group achieving real earnings per share growth of 3% per annum over the three years prior to their release.

Deferred Share Scheme

Details of the ordinary shares over which the directors have conditional rights under the deferred share scheme by year of grant are as follows:

	Date granted	Rights held under plan at Dec 31, 04	Rights granted during 2005	Market price of each share at date of grant	Rights released during 2005	Rights held under plan at Dec 31, 05	Date of end of qualifying period

Rights vested during 2005

	Number of ordinary shares	Date on which rights were awarded	Market price of each share at award date	Vesting date	Market price of each share at vesting date
			£		£
A J Applegarth	46,393	Jan 02	6.66	Jan 05	7.73
D F Baker	34,385	Jan 02	6.66	Jan 05	7.73
R F Bennett	34,385	Jan 02	6.66	Jan 05	7.73
K M Currie	15,719	Jan 02	6.66	Jan 05	7.73
A M Kuipers	15,719	Jan 02	6.66	Jan 05	7.73

The value, calculated in accordance with IFRS 2 – Share-based Payment, of these awards is being charged to the income statement over the three year period to which they relate. In 2005 £850,310 was charged to the income statement (2004 £616,041).

Rights released during 2005 represent awards granted in 2002 which matured in January 2005. 72.7% of rights originally awarded were released to participants, the remaining 27.3% of rights have lapsed under the performance conditions of the scheme.

The awards granted in 2003 shown above, matured in January 2006 and led to no release of shares originally awarded under the performance conditions of the scheme. Subject to the performance criteria being met, the other awards may be exercised during the three month period commencing on the third anniversary of the award dates. The awards will lapse if they are not exercised during these times.

Further awards were granted on January 26, 2006 at £9.57 per share as follows:

A J Applegarth	72,100
D F Baker	47,544
R F Bennett	47,544
K M Currie	38,140
A M Kuipers	38,140

There were no variations made in the terms and conditions of the plan interests during 2005. The number of shares comprised in an award is calculated by reference to a percentage of salary, up to a maximum of 100% of salary. Shares may only be released if demanding performance targets are achieved and if the participant remains in employment, except in certain "good leaver" circumstances. In relation to awards granted in 2004 and previous years, performance is measured over a three year period on the basis of TSR, comparing Northern Rock's performance to that of the other companies in the FTSE 350 Index at the date of the award. For awards in 2005 and subsequent years, Northern Rock's TSR will be compared to that of other companies in the FTSE 100 Index at the date of the award. See page 97 for further details.

Pensions

Set out below are details of the pension benefits to which each of the Executive Directors is entitled.

	Age at Dec 31, 05	Years and months of service at Dec 31, 05	Accrued pension entitlement at Dec 31, 05 (Per Annum)	Accrued pension entitlement at Dec 31, 04 (Per Annum)	Additional pension entitlement earned in year	Additional entitlement earned in year (in excess of inflation)
			£	£	£	£
A J Applegarth	43	22 years 2 months	230,903	199,319	31,584	25,405
D F Baker	52	28 years 7 months	211,250	195,833	15,417	9,346
R F Bennett	58	12 years 2 months	260,000	250,000	10,000	2,250
K M Currie (appointed January 5, 2005)	49	25 years 5 months	130,125	99,437	30,688	27,605
A M Kuipers (appointed January 5, 2005)	48	18 years 3 months	82,125	61,812	20,313	18,397

	Transfer value of accrued pension entitlement at Dec 31, 05	Transfer value of accrued pension entitlement at Dec 31, 04	Increase in transfer value less Directors' contributions	Transfer value of increase in accrued pension entitlement in excess of inflation (less Directors' contributions)
	£	£	£	£
A J Applegarth	1,842,785	1,471,285	340,250	170,761
D F Baker	2,793,613	2,368,096	406,017	103,935
R F Bennett	5,131,167	4,415,009	696,658	25,011
K M Currie (appointed January 5, 2005)	1,430,644	1,005,802	411,357	288,717
A M Kuipers (appointed January 5, 2005)	837,525	579,999	244,041	173,173

The accrued pension entitlement is the amount that the director would receive if he retired at the end of the year. The increase in the accrued pension entitlement is the difference between the accrued pension entitlement at the year end and that at the previous year end. The Listing Rules also require this to be disclosed excluding inflation.

All transfer values have been calculated on the basis of actuarial advice in accordance with Actuarial Guidance Note GN11. The transfer values of the accrued pension entitlement represent the value of assets that the pension scheme would need to transfer to another pension provider on transferring the scheme's liability in respect of the directors' pension benefits. They do not represent

the sums payable to individual directors and, therefore, cannot be added meaningfully to annual remuneration.

The increase in the transfer value less directors' contributions is the increase in the transfer value of the accrued pension entitlement during the year after deducting the director's personal contributions to the scheme.

The transfer value of the increase in accrued pension entitlement, required by the Listing Rules, discloses the current value of the increase in accrued pension entitlement (excluding inflation) that the director has earned in the period, whereas the change in his transfer value, required by the Companies Act 1985, discloses the absolute increase or decrease in transfer values and thus includes the change in value of the accrued pension entitlement that results from market volatility affecting the transfer value over the year, as well as the value of the additional accrued pension entitlement earned in the year.

Including Mr R F Bennett's unfunded arrangement he has an estimated accrued annual pension entitlement at December 31, 2005 of £260,000. This is based on his total pensionable service of 12 years 2 months and his pensionable service of 19 years 5 months at the rate of accrual of 1/60th per annum and 5 years 1 month at the rate of accrual of 1/36th and his pensionable earnings above the earnings cap. The contributions cost during the year in respect of this unfunded arrangement amounted to £88,443 for Northern Rock and £14,265 for Mr Bennett.

Directors' interests in shares

The following directors held a beneficial interest in Northern Rock's ordinary shares:

				Contingent Interests		
	At Feb 28, 06	At Dec 31, 05	At Dec 31, 04 (or date of appointment)	At Feb 28, 06	At Dec 31, 05	At Dec 31, 04 (or date of appointment)

Contingent interests represent ordinary shares over which the directors have conditional rights under the bonus matching plan, the deferred share scheme and the long term incentive plan as described previously. Contingent interests on February 28, 2006 includes awards made since December 31, 2005 under the bonus matching plan, the deferred share scheme and the long term incentive plan for the year ended December 31, 2005.

Directors' share options

Movements in options to subscribe for ordinary shares in Northern Rock in which the directors have an interest during the period January 1, 2005 to December 31, 2005 are as follows:

	Option type	At Dec 31, 04 (or date of appointment)	Exercised in 2005	Exercise price £	At Dec 31, 05	Date from which first exercisable	Expiry date
A J Applegarth . . .	Sharesave 2	7,848	(7,848)	2.15	—	—	—

A M Kuipers	Sharesave 2	8,546	—	2.15	8,546	May 1, 07	Nov 1, 07
(appointed	Sharesave 4	—	—	7.27	2,273	May 1, 10	Nov 1, 10
January 5, 2005)							

For each unexercised option at the end of the year, the market price of each share at December 31, 2005 was £9.43, the highest market price during the year was £9.435 (on December 29, 2005) and the lowest market price during the year was £7.36 (on May 10, 2005 and May 16, 2005).

On May 3, 2005 A J Applegarth, D F Baker and K M Currie each exercised 7,848 Sharesave 2 options. The market price of the shares on May 3, 2005 was £7.48.

The specific individual interests of Executive Directors are shown in the tables above. In addition the directors are deemed to have an interest in shares held by trusts for various executive and other employee share schemes at December 31, 2005 as follows:

(i) Northern Rock Employee Trust holds 4,048,207 shares (December 31, 2004 – 5,779,139 shares);

(ii) Northern Rock Qualifying Employee Share Ownership Trust holds 1,117,287 shares (December 31, 2004 – 2,054,261 shares); and

(iii) Northern Rock Trustees Limited holds 287,252 shares (December 31, 2004 – 511,241 shares).

No Executive Director option terms were varied during 2005 and no price was paid for any of the options in the table, other than the all employee Sharesave Scheme, where each director paid £250 per month.

Options listed in the table above are Inland Revenue approved schemes. The Employee Share Option Scheme was subject to an earnings per share target which was met in 2005. Options under the Sharesave Scheme do not have any performance conditions.

RELATED PARTY TRANSACTIONS

At the end of the year the aggregate amounts outstanding in relation to loans from and other credit transactions with Northern Rock from directors, their connected persons and Officers, and the number of persons concerned, were as follows:

	Directors		Officers	
	2005	2004	2005	2004
Number of persons	5	5	12	15
Aggregate amount	£2.7m	£2.0m	£2.7m	£2.4m

Northern Rock's total contribution payable under deed of covenant to The Northern Rock Foundation for the year ended December 31, 2005, amounted to £24.7 million, as compared to £21.6 million for the year ended December 31, 2004. At December 31, 2005, the commitment in respect of amounts not yet paid was £10.0 million as compared to £11.6 million for the year ended December 31, 2004.

Loans made to directors of Northern Rock and its controlled entities and to parties related to them are made in the ordinary course of business on normal terms and conditions (including interest rates and collateral). In respect of loans to executive directors, loans are made on the same terms and conditions (including interest rates and collateral) as apply to other employees and certain customers in accordance with established policy. These loans do not involve more than the normal risk of collectability or present any other unfavorable features.

Except for contribution to The Northern Rock Foundation, Northern Rock has made no promotional and benevolent donations to organizations in which certain directors and their connected persons hold positions of influence such as directors, trustees and governors.

Northern Rock has mortgage loans outstanding from its related companies. Movements in these loans and provisions in respect of them during the year were as follows:

	£m
Cost:	
At January 1, 2005 and December 31, 2005	0.1
Provisions:	
At January 1, 2005 and December 31, 2005	0.1
Net book amount:	
At December 31, 2005 and December 31, 2004	—

Northern Rock plc is a listed company and its shares are held by a large number of investors. No investor acting individually has the ability to control the activities of Northern Rock. Consequently, it is considered that there is no ultimate controlling party as defined in IAS 24, "Related Party Disclosures".

DESCRIPTION OF THE NOTES

The following description sets forth the material terms and provisions of the Notes to which any Final Terms or Pricing Supplement, as the case may be, may relate. The particular terms of the Notes offered by any Final Terms or Pricing Supplement, as the case may be, and the extent, if any, to which the general provisions described below may apply to the Notes so offered will be described, in the case of any listed Notes, in the form of Final Terms, or, in the case of unlisted Notes, in the form of a Pricing Supplement, as the case may be. Capitalized terms used but not defined herein shall have the meanings given to them in the Notes or the Indentures (as defined below), as the case may be. The following summaries do not purport to be complete and are subject to, and are qualified in their entirety by reference to, the terms and conditions of the Indentures, the Notes of each Series (as defined below) and the Final Terms or Pricing Supplement, as the case may be, related to the Notes of such Series. The terms and conditions of a Series of Notes, when combined with the applicable Final Terms or Pricing Supplement, as the case may be, will comprise the complete terms and conditions of such Series.

It is expected that Senior Notes will be unlisted and that the specific terms relating to any Senior Notes will be set forth in an applicable Pricing Supplement. It is expected that Subordinated Notes will be listed and that the specific terms relating to any Subordinated Notes will be set forth in an applicable Final Terms. In certain cases, a Pricing Supplement containing substantially the same information with respect to the specific terms relating to any Subordinated Notes will be prepared prior to delivery of Final Terms.

General

The Senior Notes offered hereby will be issued under an Amended and Restated Senior Indenture, dated as of July 12, 2005 between Northern Rock and Deutsche Bank Trust Company Americas (formerly Bankers Trust), as trustee (the "**Senior Trustee**"); together with the Trustees (as defined below) in their capacity as principal paying agents, the "**Paying Agents**", each a "**Paying Agent**") (such Indenture, as supplemented or amended from time to time, is referred to herein as the "**Senior Indenture**"). The Subordinated Notes offered hereby, which may be Dated Subordinated Notes or Perpetual Subordinated Notes, will be issued under an Amended and Restated Subordinated Indenture, dated as of July 12, 2005 between Northern Rock and Deutsche Bank Trust Company Americas as trustee and principal paying agent (the "**Subordinated Trustee**" and together with the Senior Trustee, the "**Trustees**") (such Indenture, as supplemented or amended from time to time, is referred to herein as the "**Subordinated Indenture**"; the Subordinated Indenture and the Senior Indenture are referred to herein collectively as the "**Indentures**" and individually as an "**Indenture**"). In connection with the listing of the Program on the Euro MTF, Northern Rock has appointed Deutsche Bank Luxembourg S.A. as Luxembourg paying and transfer agent (the "**Luxembourg Paying Agent**", which expression includes any additional or successor Luxembourg paying and transfer agents) pursuant to an Amended and Restated Luxembourg Paying and Transfer Agency Agreement, dated as of July 12, 2005 (as supplemented or amended from time to time, the "**Luxembourg Paying and Transfer Agency Agreement**"), between Northern Rock and Deutsche Bank Luxembourg S.A. References to the "Indentures" shall be construed to include references to the Luxembourg Paying and Transfer Agency Agreement. In acting under the Luxembourg Paying and Transfer Agency Agreement, the Luxembourg Paying Agent will act solely as agent of Northern Rock and does not assume any obligations or relationships of agency or trust to or with the Holders. The Senior Notes and the Subordinated Notes are limited to an aggregate principal amount of up to US$20,000,000,000 outstanding at any time (including, in the case of Notes denominated in one or more other currencies or composite currencies, the equivalent thereof at the Market Exchange Rate in the Specified Currency on the Original Issue Date (each as defined below)), subject to reduction by or pursuant to action of the Board of Directors of Northern Rock, provided that no such reduction will affect any Note already issued or as to which an offer to purchase has been accepted by Northern Rock. The foregoing limits, however, may be increased by Northern Rock without the consent of the Holders if in the future it determines that it may wish to sell additional Notes.

The Notes will be offered on a continuing basis and each Note will mature nine months or more from its Original Issue Date as selected by the initial purchaser and agreed to by Northern Rock, and may be subject to redemption at the option of Northern Rock or repayment at the option of the Holder prior to the date on which such Notes will mature (the "**Stated Maturity**") as set forth below

under "Redemption and Repurchase". Each Note will be denominated in US dollars or in such other Specified Currency as is specified in the applicable Final Terms or Pricing Supplement, as the case may be. See "Payment of Principal, Premium, if any, and Interest, if any". Each Note will be either (i) a Fixed Rate Note or (ii) a Floating Rate Note which will bear interest at a rate determined by reference to the interest rate basis or combination of interest rate bases specified in the applicable Final Terms or Pricing Supplement, as the case may be, which may be adjusted by a Spread and/or Spread Multiplier (each as defined below).

Status of Senior Notes

The Senior Notes will constitute direct, unconditional, unsubordinated and (subject to the provisions set forth under "Negative Pledge" herein) unsecured obligations of Northern Rock without any preference among themselves and will rank at least equally with deposits and all other unsecured and unsubordinated obligations of Northern Rock, subject, in the event of insolvency, to laws of general applicability relating to or affecting creditors' rights, provided that such other unsecured and unsubordinated indebtedness may contain covenants, events of default and other provisions which are different from or which are not contained in the Senior Notes.

Status and Subordination of Subordinated Notes

The Subordinated Notes will constitute direct, unconditional, unsecured and subordinated obligations of Northern Rock without any preference among themselves. The rights of Holders of Dated Subordinated Notes will, in the event of a winding up of Northern Rock, or in an administration of Northern Rock after the administrator has served notice pursuant to Rule 2.95 Insolvency Rules 1986 (as amended, and including any amendment or replacement thereof) that he or she proposes to make a distribution to creditors of Northern Rock (a "**Distribution Notice**"), be subordinated to the claims of depositors and other unsubordinated creditors of Northern Rock in respect of their respective Senior Claims (as defined below). The rights of Holders of Perpetual Subordinated Notes are subordinated in right of payment to the claims of Senior Creditors (as defined below). The Subordinated Notes do not have the benefit of the negative pledge covenant described below under "Negative Pledge".

"**Senior Claims**" means the aggregate amount of all claims which are not, in respect of indebtedness of Northern Rock, the right to repayment of which by its terms is, or is expressed to be, subordinated to (or otherwise rank after) the claims of depositors and other unsubordinated creditors of Northern Rock.

"**Senior Creditors**" means creditors of Northern Rock (i) who are unsubordinated depositors or other unsubordinated creditors of Northern Rock, or (ii) whose claims are, or are expressed to be, subordinated (whether only in the event of the winding up or administration of Northern Rock or otherwise) to the claims of unsubordinated depositors and other unsubordinated creditors of Northern Rock but not further or otherwise, or (iii) who are subordinated creditors of Northern Rock other than those whose claims are, or are expressed to rank *pari passu* with, or junior to, the claims of the Holders of Perpetual Subordinated Notes.

With respect to Perpetual Subordinated Notes, if at any time an order is made or an effective resolution is passed for the winding up of Northern Rock in England (except in the case of a solvent winding up solely for the purpose of a reconstruction or amalgamation or the substitution of Northern Rock by a successor, the terms of which reconstruction, amalgamation or substitution (i) have been previously approved by the Subordinated Trustee in writing or by the Holders of not less than a majority in aggregate principal amount of the Outstanding Perpetual Subordinated Notes and (ii) do not provide that the Notes shall thereby become payable), or, if Northern Rock is in administration, a Distribution Notice is served the amounts payable on the Perpetual Subordinated Notes of each Series (in lieu of any other payment but subject to the subordination provisions of the Subordinated Indenture), will be such amount, if any, as would have been payable to the Holder thereof if, on the day prior to the commencement of the winding up or such administration and thereafter, Holders of such Perpetual Subordinated Notes were the holders of a class of preference shares in the capital of Northern Rock having a preferential right to a return of assets in the winding up or such administration over the holders of all issued shares for the time being in the share capital of Northern Rock on the assumption that such preference shares were entitled to receive (to the exclusion of other rights or privileges) as a return of capital in such winding up or such

administration an amount equal to the principal amount of such Note together with premium, if any, and interest accrued to the date of repayment, if any, at the rate provided for in the Perpetual Subordinated Notes of the Series, and Arrears of Interest (as defined below), if any, which is payable.

With respect to Dated Subordinated Notes, payments of principal, premium, if any, and interest, if any, are conditional upon, in the event of a winding up of Northern Rock or an administrator of Northern Rock following the service of a Distribution Notice, Northern Rock being solvent at the time of payment by Northern Rock, and no principal, premium, if any, or interest, if any, will be payable except to the extent that Northern Rock could make such payment and still be solvent immediately thereafter. For the purposes of this section ("Description of The Notes"), Northern Rock shall be "solvent" if its Assets exceed its Liabilities (other than its Liabilities which are not Senior Claims). A report as to the solvency of Northern Rock by its liquidator or administrator shall in the absence of proven error be treated and accepted by Northern Rock, the Trustees and the Holders of the Notes as correct and sufficient evidence thereof.

With respect to Perpetual Subordinated Notes, payments of principal, premium, if any, and interest and Arrears of Interest (as defined below), if any, are, in addition to the right of Northern Rock to defer payment of interest as described below, conditional upon Northern Rock being solvent at the time of payment by Northern Rock, and no principal, premium, if any, or interest and Arrears of Interest, if any, shall be payable except to the extent that Northern Rock could make such payment and still be solvent immediately thereafter. For the purposes of this section, Northern Rock shall be solvent if (i) to the extent that any determination as to solvency is to be made prior to the commencement of winding up or administration proceedings of Northern Rock, it is able to pay its debts owed to Senior Creditors as such debts fall due and (ii) its Assets exceed its Liabilities (other than its Liabilities to persons who are not Senior Creditors). A report as to the solvency of Northern Rock by two directors of Northern Rock or, if Northern Rock is in winding up, its liquidator or administrator, shall in the absence of proven error be treated and accepted by Northern Rock, the Trustees and the Holders of the Notes as correct and sufficient evidence thereof.

The obligations of Northern Rock in respect of the Perpetual Subordinated Notes are conditional upon Northern Rock being solvent immediately before and after payment by Northern Rock. If this condition is not satisfied, any amounts which might otherwise have been allocated in or towards payment of principal and interest in respect of the Perpetual Subordinated Notes may be used to absorb losses.

"**Assets**" means the unconsolidated gross tangible assets of Northern Rock and "**Liabilities**" means the unconsolidated gross liabilities of Northern Rock as shown in the latest published audited balance sheet of Northern Rock but as adjusted for contingent assets and contingent liabilities and subsequent events, as the Board or the liquidator or administrator (as the case may be) may determine.

With respect to Perpetual Subordinated Notes on an Interest Payment Date there may (subject to the subordination provisions set forth in the Subordinated Indenture) be paid (at the option of Northern Rock) the interest accrued on such Interest Payment Date in respect of the Interest Period ending on the day immediately preceding such date, but Northern Rock shall not have any obligation to make such payment and any failure to pay shall not constitute a default by Northern Rock for any purpose. If Northern Rock opts not to pay interest on an Interest Payment Date, it shall give not less than 30 days' notice of such option to the Holders of the Perpetual Subordinated Notes in accordance with the notice provisions specified in the Subordinated Indenture. Any interest not paid on an Interest Payment Date together with any other interest not paid on any other Interest Payment Date shall, so long as the same remains unpaid, constitute "**Arrears of Interest**". Arrears of Interest may, at the option of Northern Rock (subject to the subordination provisions set forth in the Subordinated Indenture), be paid in whole or in part at any time upon the expiration of not less than seven days' notice given to the Subordinated Trustee and to the Holders, but all Arrears of Interest on all Notes outstanding shall (subject to the subordination provisions set forth in the Subordinated Indenture) become due in full on whichever is the earliest of (i) the date upon which a dividend is next paid on any class of share capital of Northern Rock, (ii) the date set for any redemption, or (iii) the commencement of winding up proceedings of Northern Rock in England.

If notice is given by Northern Rock of its intention to pay the whole or part of Arrears of Interest, Northern Rock will be obliged (subject to the subordination provisions set forth in the Subordinated Indenture) to make such payment upon the expiration of such notice. Where Arrears of

Interest are paid in part, each part payment shall be applied in payment of the Arrears of Interest accrued due in respect of the relative Interest Payment Date (or consecutive Interest Payment Dates) furthest from the date of payment. Arrears of Interest shall not themselves bear interest.

The Holder of any Subordinated Note by such Holder's acceptance thereof will be deemed to the extent permitted by applicable law to have waived any right of set-off or counterclaim that such Holders might otherwise have against Northern Rock whether prior to or in any winding up of Northern Rock or as may arise outside of any insolvency proceedings.

To the extent that Holders of the Notes are entitled to any recovery with respect to the Notes in any bankruptcy, winding up or administration, it is unclear whether such Holders would be entitled in such proceedings to recovery in US dollars and may be entitled only to a recovery in pounds sterling and, as a general matter, the right to claim for any amounts payable on Notes may be limited by applicable insolvency law.

Certain Definitions

"**Business Day**" means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which commercial banks are authorized or required by law, regulation or executive order to close in New York City or London; provided, however, that, with respect to Notes denominated in a Specified Currency other than US dollars, such day is also not a day on which commercial banks are authorized or required by law, regulation or executive order to close in the Principal Financial Center (as defined below) of the country issuing the Specified Currency (or, if the Specified Currency is euro or EURIBOR is an applicable Interest Rate Basis, such day is also a day on which the Trans-European Automated Real Time Gross Settlement Express Transfer (TARGET) System is open (a "**TARGET Settlement Date**")).

"**Principal Financial Center**" means, unless otherwise defined in any Note, (i) the capital city of the country issuing the Specified Currency or (ii) the capital city of the country to which the Designated LIBOR Currency relates, as applicable, except, in the case of (i) or (ii) above, that with respect to US dollars, Australian dollars, pounds sterling, Canadian dollars, South African rand and Swiss francs, the "Principal Financial Center" shall be New York City, Sydney and (solely in the case of the Specified Currency) Melbourne, London (solely in the case of the Designated LIBOR Currency), Toronto, Johannesburg and Zurich, respectively.

As used herein, "**Specified Currency**" means a currency issued and actively maintained as a country's or countries' recognized unit of domestic exchange by the government of any country and such term shall also include the euro.

Form, Transfer, Exchange and Denomination

Notes offered in the United States to qualified institutional buyers ("**QIBs**") in reliance on Rule 144A will be represented by one or more US global notes ("**US Global Notes**") and Notes offered outside the United States in reliance on Regulation S will be represented by one or more international global notes ("**International Global Notes**"). Senior Notes offered to Institutional Accredited Investors, as defined in Rule 501(a)(1), (2), (3) or (7) under the Securities Act, initially will be represented by physical registered certificates ("**Certificated Notes**"). If such Certificated Notes are thereafter transferred to QIBs in reliance on Rule 144A or offered outside the United States in reliance on Regulation S, then the Certificated Notes will be represented by one or more US Global Notes or International Global Notes, as the case may be. Unless otherwise specified in a Final Terms or Pricing Supplement, as the case may be, Subordinated Notes will not be offered to Institutional Accredited Investors. Except as set forth below under "– Book-Entry System", physical registered certificates will not be issued in exchange for Global Notes.

Senior Notes will be in fully registered form. Global Notes representing Senior Notes of a Series will be deposited with a custodian for DTC and held by or on behalf of DTC for the benefit of participants in DTC.

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, Subordinated Notes of a Series will initially be represented by a Global Subordinated Note or Global Subordinated Notes in bearer form. The Global Subordinated Note or Global Subordinated Notes representing a Series of Subordinated Notes will be deposited on or about the Original Issue Date of such Note or Notes with a custodian (the "**Subordinated Note Custodian**") under an Amended

and Restated Deposit and Custody Agreement, dated as of July 12, 2005 (as supplemented or amended from time to time, the "**Deposit and Custody Agreement**"), entered into by Deutsche Bank Trust Company Americas (formerly Bankers Trust), as depositary (the "**Subordinated Note Depositary**"), the Subordinated Note Custodian and Northern Rock, for the benefit of the holder from time to time of a Global Receipt (the "**Global Receipt Holder**") and beneficial owners from time to time of interests in such Global Receipt. A Global Receipt in registered form representing an interest in 100% of each Global Subordinated Note in respect of Subordinated Notes of a Series will be issued to and deposited with, or on behalf of, DTC in New York City and registered in the name of Cede & Co. ("**Cede**"), as DTC's nominee. Interests in a Global Receipt in respect of a Global Subordinated Note or Global Subordinated Notes representing Subordinated Notes of a Series will be shown in, and transfers thereof will be effected only through, records maintained by DTC and its participants until such time, if any, as Certificated Subordinated Notes in respect of such Subordinated Notes are issued as set forth below under "– Book-Entry System". Pursuant to the terms of the Deposit and Custody Agreement, the Global Subordinated Note or Global Subordinated Notes representing a Series of Subordinated Notes may be transferred only to a successor of the Subordinated Note Custodian and the Global Receipt or Global Receipts in respect of the Global Subordinated Note or Global Subordinated Notes representing a Series of Subordinated Notes may be transferred only to a successor of DTC or another nominee of DTC. See "Book-Entry System" herein. Certificated Senior Notes and Certificated Subordinated Notes, if any, will be exchangeable for other Certificated Senior Notes and Certificated Subordinated Notes, respectively, of any authorized denominations and of a like aggregate principal amount and tenor.

Certificated Notes may be presented to the Trustees, the Paying Agent or the Luxembourg Paying Agent for registration of transfer or exchange at its Corporate Trust Office which at the date hereof is located at Trust & Securities Services, 60 Wall Street, New York, New York 10005, United States of America or, in the case of the Luxembourg Paying Agent, at its office located at 2, Boulevard Konrad Avenauer L-1115 Luxembourg. Certificated Notes may be presented for exchange and transfer in the manner, at the places and subject to the restrictions set forth in the respective Indenture and the Notes. Transfers of ownership interests in Global Notes and Global Receipts will be made as set forth below under "– Book-Entry System". The Notes have not been registered under the Securities Act or with any securities regulatory authority of any jurisdiction and accordingly transfers of the Notes will be subject to the restrictions set forth below under "Notice to Investors".

Certificated Notes and interests in the US Global Notes may be transferred to a person who takes delivery in the form of interests in an International Global Note only upon receipt by the applicable Trustee or Deutsche Bank Luxembourg S.A., as an alternative transfer agent, of written certifications (in the form provided in the Indentures) to the effect that such transfer is being made in accordance with Regulation S or Rule 144 under the Securities Act and that, if such transfer occurs prior to the 40th day after the commencement of the offering of such Senior Notes, the interest transferred will be held immediately thereafter through Euroclear Bank S.A./N.V., as the Euroclear Operator ("**Euroclear**") or Clearstream Banking, société anonyme ("**Clearstream, Luxembourg**").

Until the 40th day after the closing date for the offering of a Series of Notes, interests in an International Global Note may be held only through Euroclear or Clearstream, Luxembourg. Certificated Notes and interests in International Global Notes may be transferred to a person who takes delivery in the form of interests in a US Global Note only upon receipt by the applicable Trustee of written certifications (in the form provided in the Indentures) to the effect that such transfer is being made in accordance with Rule 144A to a person whom the transferor reasonably believes is purchasing for its own account or for an account as to which it exercises sole investment discretion and that such person and such account or accounts are "qualified institutional buyers" within the meaning of Rule 144A and agree to comply with the restrictions on transfer set forth under "Notice to Investors".

Certificated Senior Notes may be transferred to a person who takes delivery in the form of Certificated Senior Notes (other than transfers to Northern Rock or a Dealer and transfers by or through or approved by a Dealer) only upon receipt by the Senior Trustee of written certifications (in the form provided in the Senior Indenture) to the effect that such Certificated Senior Note is being acquired by an Institutional Accredited Investor for investment purposes and not for distribution in violation of the Securities Act, and containing such other evidence of compliance with the Securities Act as may be required by Northern Rock or the Senior Trustee.

In the event of any redemption of Notes, Northern Rock will not be required to (i) register the transfer of or exchange the Notes during a period of 15 calendar days next preceding the date of redemption; (ii) register the transfer of or exchange the Notes, or any portion thereof, called for redemption, except the unredeemed portion of any of the Notes being redeemed in part; or (iii) with respect to Subordinated Notes represented by a Global Subordinated Note or Global Subordinated Notes in bearer form issued to the Subordinated Note Custodian, exchange any such Note or Notes called for redemption, except to exchange for another Global Subordinated Note or Global Subordinated Notes in bearer form of that Series and like tenor representing the aggregate principal amount of Subordinated Notes of that Series that have not been redeemed.

Each of the applicable Trustee and Deutsche Bank Luxembourg S.A. has been appointed as paying agent pursuant to each of the Indentures. Northern Rock may at any time designate additional Paying Agents or rescind the designation of any Paying Agent. So long as the Notes are listed on the Euro MTF, Northern Rock shall maintain a transfer agent for the Notes in Luxembourg, which shall initially be Deutsche Bank Luxembourg S.A.

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, Notes will be issuable in US dollars in denominations of US$100,000 and integral multiples of US$1,000 in excess thereof. The authorized denominations of any Note denominated in other than US dollars will be the amount of the Specified Currency for such Note equivalent, at the noon dollar buying rate in New York City by the Federal Reserve Bank of New York (the "**Market Exchange Rate**") on the first Business Day in New York City and the country issuing such currency (or, in the case of euro, the first TARGET Settlement Date) next preceding the date on which Northern Rock accepts the offer to purchase such Note, to US$100,000, or such other minimum denomination as may be allowed or required from time to time by any relevant central bank or equivalent governmental body, however designated, or by any laws or regulations applicable to the Notes or to such Specified Currency. The Notes will be issued in integral multiples of 1,000 units of any such Specified Currency in excess of their minimum denominations. If any of the Notes are to be denominated in a Specified Currency other than US dollars, or if the principal of and premium, if any, and interest, if any, on any of the Notes not denominated in US dollars are to be payable at the option of the Holder or Northern Rock in US dollars, the applicable Final Terms or Pricing Supplement, as the case may be, will provide additional information, including applicable exchange rate information, pertaining to the terms of such Notes and other matters of interest to the Holders thereof.

Payment of Principal, Premium, if any, and Interest, if any

Payments of principal, premium, if any, and interest, if any, to owners of beneficial interests in Global Notes or Global Receipts are expected to be made in accordance with those procedures of DTC and its participants in effect from time to time as described below under "– Book-Entry System".

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, with respect to any Certificated Note, payments of interest or Arrears of Interest, if any, and, in the case of Amortizing Notes, principal (other than interest and, in the case of Amortizing Notes, principal payable at Maturity) will be made by mailing a check to the Holder at the address of such Holder appearing on the register for the Notes on the applicable regular record date (the "**Regular Record Date**"). Notwithstanding the foregoing, at the option of Northern Rock, all payments of interest or Arrears of Interest, if any, and, in the case of Amortizing Notes, principal on the Notes may be made by wire transfer of immediately available funds to an account at a bank located within the United States as designated by each Holder not less than 15 calendar days prior to the applicable Interest Payment Date. A Holder of US$10,000,000 (or, if the Specified Currency is other than US dollars, the equivalent thereof in such Specified Currency) or more in aggregate principal amount of Notes of like tenor and terms with the same Interest Payment Date may demand payment by wire transfer but only if appropriate payment instructions have been received in writing by any Paying Agent with respect to such Note appointed by Northern Rock, not less than 15 calendar days prior to the applicable Interest Payment Date. In the event that payment is so made in accordance with instructions of the Holder, such wire transfer shall be deemed to constitute full and complete payment of such principal, premium and/or interest on the Notes. Payment of the principal of, premium, if any, and interest or Arrears of Interest, if any, due with respect to any Certificated Note at Maturity will be made in immediately available funds upon surrender of such Note at the principal office of

any Paying Agent; including the Luxembourg Paying Agent, with respect to such Notes appointed by Northern Rock, accompanied by wire transfer instructions; provided that the Certificated Note is presented to such Paying Agent in time for such Paying Agent to make such payments in such funds in accordance with its normal procedures.

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, payments of principal, premium, if any, and interest and Arrears of Interest, if any, with respect to any Note to be made in a Specified Currency other than US dollars will be made by check mailed to the address of the person entitled thereto as such address appears in the register or by wire transfer to such account with a bank located in a jurisdiction acceptable to Northern Rock and the respective Trustee as shall have been designated at least 15 calendar days prior to the Interest Payment Date or Maturity, as the case may be, by the Holder of such Note on the relevant Regular Record Date or at Maturity, provided that, in the case of payment of principal of, and premium, if any, and interest and Arrears of Interest, if any, due at Maturity, the Note is presented to any Paying Agent with respect to such Note appointed by Northern Rock in time for such Paying Agent to make such payments in such funds in accordance with its normal procedures. Such designation shall be made by filing the appropriate information with the Trustee at its Corporate Trust Office, and, unless revoked, any such designation made with respect to any Note by a Holder will remain in effect with respect to any further payments with respect to such Note payable to such Holder. If a payment with respect to any such Note cannot be made by wire transfer because the required designation has not been received by the applicable Trustee on or before the requisite date or for any other reason, a notice will be mailed to the Holder at its registered address requesting a designation pursuant to which such wire transfer can be made and, upon such Trustee's receipt of such a designation, such payment will be made within 15 calendar days of such receipt. Northern Rock will pay any administrative costs imposed by banks in connection with making payments by wire transfer, but any tax, assessment or governmental charge imposed upon payments will be borne by the Holders of such Notes in respect of which such payments are made. If so specified in the applicable Final Terms, except as provided below, payments of principal, premium, if any, and interest and Arrears of Interest, if any, with respect to any Note denominated in other than US dollars will be made in US dollars (as set forth below). If the Holder of such Note on the relevant Regular Record Date or at Maturity, if any, as the case may be, requests payments in other than US dollars, the Holder shall transmit a written request for such payment to any Paying Agent with respect to such Note appointed by Northern Rock at its principal office on or prior to such Regular Record Date or the date 15 calendar days prior to Maturity, if any, as the case may be. Such request may be delivered by mail, by hand, by cable or by telex or any other form of facsimile transmission. Any such request made with respect to any Note by a Holder will remain in effect with respect to any further payments of principal, and premium, if any, and interest and Arrears of Interest, if any, with respect to such Note payable to such Holder, unless such request is revoked by written notice received by such Paying Agent on or prior to the relevant Regular Record Date or the date 15 calendar days prior to Maturity, if any, as the case may be (but no such revocation may be made with respect to payments made on any such Note if an Event of Default has occurred with respect thereto or upon the giving of a notice of redemption). Holders of Notes denominated in other than US dollars whose Notes are registered in the name of a broker or nominee should contact such broker or nominee to determine whether and how an election to receive payments in other than US dollars may be made.

The US dollar amount to be received by a Holder of a Note denominated in other than US dollars who elects to receive payments in US dollars will be based on the highest indicated bid quotation for the purchase of US dollars in exchange for the Specified Currency obtained by the Currency Determination Agent (as defined below) at approximately 11:00 A.M., New York City time, on the second Business Day next preceding the applicable payment date (the "**Conversion Date**") from the bank composite or multicontributor pages of the Quoting Source for three (or two if three are not available) major banks in New York City. The first three (or two) such banks selected by the Currency Determination Agent which are offering quotes on the Quoting Source will be used. If fewer than two such bid quotations are available at 11:00 A.M., New York City time, on the second Business Day next preceding the applicable payment date, such payment will be based on the Market Exchange Rate as of the second Business Day next preceding the applicable payment date. If the Market Exchange Rate for such date is not then available, such payment will be made in the Specified Currency. As used herein, the "**Quoting Source**" means Reuters Monitor Foreign Exchange Service, or if the Currency Determination Agent determines that such service is not available, Telerate Monitor

Foreign Exchange Service, or if the Currency Determination Agent determines that neither service is available, such comparable display or other comparable manner of obtaining quotations as shall be agreed between Northern Rock and the Currency Determination Agent. All currency exchange costs associated with any payment in US dollars on any such Note will be borne by the Holder thereof by deductions from such payment. The currency determination agent (the "**Currency Determination Agent**") with respect to any such Notes will be specified in the applicable Final Terms or Pricing Supplement, as the case may be.

If the Specified Currency for a Note denominated in other than US dollars is not available for the required payment of principal, premium, if any, and/or interest and Arrears of Interest, if any, in respect thereof due to the imposition of exchange controls or other circumstances beyond the control of Northern Rock, Northern Rock will be entitled to satisfy its obligations to the Holder of such Note by making such payment in US dollars on the basis of the Market Exchange Rate, computed by the Currency Determination Agent, on the second Business Day prior to such payment or, if such Market Exchange Rate is not then available, on the basis of the most recently available Market Exchange Rate, or as otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be. Any payment made in US dollars under such circumstances where the required payment was to be in a Specified Currency other than US dollars will not constitute an Event of Default under the applicable Indenture with respect to the Notes. All determinations referred to above made by the Currency Determination Agent shall be at its sole discretion and in accordance with its normal operating procedure and shall, in the absence of manifest error, be conclusive for all purposes and binding on all Holders and beneficial owners of Notes.

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, if the principal of any Discount Note is declared to be immediately due and payable as described herein under "Events of Default- Senior Notes" and "– Subordinated Notes," the amount of principal due and payable with respect to such Note shall be the Amortized Face Amount of such Note as of the date of such declaration. The "Amortized Face Amount" of a Discount Note that does not bear stated interest shall be an amount equal to the sum of (i) the principal amount of such Note multiplied by the price (which may be expressed as a percentage of the aggregate principal amount thereof) at which such Note will be issued (the "**Issue Price**") set forth in the applicable Final Terms or Pricing Supplement, as the case may be, plus (ii) the portion of the difference between the US dollar amount determined pursuant to the preceding clause (i) and the principal amount of such Note that has accrued at the yield to maturity set forth in the Final Terms or Pricing Supplement, as the case may be, (computed in accordance with generally accepted financial practices) to such date of declaration, but in no event shall the Amortized Face Amount of a Discount Note exceed its principal amount.

Northern Rock is entitled to vary or terminate the appointment of any Trustee or Paying Agent appointed under the terms of the Indentures and pursuant to the terms of the Indentures and/or appoint additional or other trustees or paying agents, including affiliates of Northern Rock in either case, and/or approve any change in the specified office through which any paying agent acts, provided that:

(i) so long as the Notes of a Series are listed, quoted and/or traded on or by the Euro MTF, or any other stock exchange or competent listing authority and/or quotation system, there will at all times be a Paying Agent with a specified office in Luxembourg, if applicable, and/or each location required by the rules and regulations of the relevant stock exchange, competent listing authority and/or quotation system; and

(ii) Northern Rock will ensure that it maintains a paying agent in an EU Member State that will not be obliged to withhold or deduct tax pursuant to European Council Directive 2003/48/EC or any law implementing such Directive.

For so long as the Notes of any Series are listed, quoted and/or traded on or by the Euro MTF and the rules and regulations of the stock exchange so require, notice of any change in the appointment of any Trustee or Paying Agent appointed under the terms of the Indentures will be published in a leading newspaper of general circulation in Luxembourg (which is expected to be *d'Wort*).

Interest and Interest Rates

Each Note other than certain Discount Notes will bear interest from the date on which such Note will be issued (the "**Original Issue Date**") or from the most recent Interest Payment Date to which interest on such Note has been paid or duly provided for at a fixed rate or rates per annum, or at a rate or rates determined pursuant to an Interest Rate Base or Bases stated therein and in the applicable Final Terms or Pricing Supplement, as the case may be, that may be adjusted by a Spread and/or Spread Multiplier, until the principal thereof is paid or made available for payment. Interest will be payable on each Interest Payment Date and at Maturity. "**Maturity**" means the date, if any, on which the principal (or, if the context so requires, lesser amount in the case of Discount Notes) of (or premium, if any, on) a Note becomes due and payable in full in accordance with its terms and the terms of the applicable Indenture, whether at Stated Maturity or earlier by declaration of acceleration, call for redemption, request for redemption repayment at the option of the Holder pursuant to any sinking fund provision or otherwise. Interest (other than Defaulted Interest which may be paid as of a Special Record Date) will be payable to the Holder at the close of business on the Regular Record Date next preceding such Interest Payment Date; *provided, however*, that interest payable at Maturity will be payable to the person to whom principal shall be payable. The first payment of interest on any Note originally issued between a Regular Record Date for such Note and the succeeding Interest Payment Date will be made on the Interest Payment Date following the next succeeding Regular Record Date for such Note to the Holder.

Interest rates, Interest Rate Base or Bases, Spreads and Spread Multipliers are subject to change by Northern Rock but no such change will affect any Note theretofore issued or which Northern Rock has agreed to sell. The Interest Payment Dates for each Fixed Rate Note shall be as described below under "Fixed Rate Notes". The Interest Payment Dates for each Floating Rate Note shall be as described below under "Floating Rate Notes" and in the applicable Final Terms or Pricing Supplement, as the case may be. The Regular Record Date for a Note will be the fifteenth day (whether or not a Business Day) next preceding each Interest Payment Date or Maturity, as the case may be.

Fixed Rate Notes

Interest on Fixed Rate Notes will be payable semi-annually in arrears on such dates as are specified in the applicable Final Terms or Pricing Supplement, as the case may be (each, an "**Interest Payment Date**" with respect to Fixed Rate Notes) and on the date of Maturity. Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, interest on Fixed Rate Notes will be computed on the basis of a 360-day year of twelve 30-day months.

If any Interest Payment Date or the date of Maturity of a Fixed Rate Note falls on a day that is not a Business Day, the required payment of principal, premium, if any, and interest, if any, with respect to such Note will be made on the next succeeding Business Day as if made on the date such payment was due, and no interest will accrue on such payment for the period from and after such Interest Payment Date or the date of Maturity, as the case may be, to the date of such payment on the next succeeding Business Day.

Floating Rate Notes

Interest on Floating Rate Notes will be determined by reference to the applicable Interest Rate Basis or Bases, which may, as described below, include:

- the CD Rate;
- the CMT Rate;
- the Commercial Paper Rate;
- the Eleventh District Cost of Funds Rate;
- EURIBOR;
- the Federal Funds Rate;
- LIBOR;
- the Prime Rate;
- the Treasury Rate; or

such other Interest Rate Basis or Bases or interest rate formula as may be specified in the applicable Final Terms or Pricing Supplement, as the case may be.

The applicable Final Terms or Pricing Supplement, as the case may be, will specify certain terms with respect to which each Floating Rate Note is being delivered, including: whether such Floating Rate Note is a "Regular Floating Rate Note," a "Floating Rate/Fixed Rate Note" or an "Inverse Floating Rate Note," the Fixed Rate Commencement Date, if applicable, Fixed Interest Rate, if applicable, Interest Rate Basis or Bases, Initial Interest Rate, if any, Initial Interest Reset Date, Interest Reset Dates, Interest Payment Dates, Index Maturity, Maximum Interest Rate and/or Minimum Interest Rate, if any, and Spread and/or Spread Multiplier, if any, as such terms are defined below. If one or more of the applicable Interest Rate Bases is the CMT Rate, EURIBOR or LIBOR, the applicable Final Terms or Pricing Supplement, as the case may be, will also specify the Designated CMT Maturity Index and Designated CMT Telerate Page, the Designated EURIBOR Page or the Designated LIBOR Currency and Designated LIBOR Page respectively, as such terms are defined below. The interest rate borne by the Floating Rate Notes will be determined as follows:

(i) Unless such Floating Rate Note is designated as a "Floating Rate/Fixed Rate Note" or an "Inverse Floating Rate Note", or as having an Addendum attached or having "Other/ Additional Provisions" apply, in each case relating to a different interest rate formula, such Floating Rate Note will be designated as a "**Regular Floating Rate Note**" and, except as described below or in the applicable Final Terms or Pricing Supplement, as the case may be, will bear interest at the rate determined by reference to the applicable Interest Rate Basis or Bases (a) plus or minus the applicable Spread, if any, and/or (b) multiplied by the applicable Spread Multiplier, if any. Commencing on the Initial Interest Reset Date, the rate at which interest on such Regular Floating Rate Note shall be payable shall be reset as of each Interest Reset Date; provided, however, that the interest rate in effect for the period, if any, from the Original Issue Date to the Initial Interest Reset Date will be the Initial Interest Rate.

(ii) If such Floating Rate Note is designated as a "**Floating Rate/Fixed Rate Note,**" then, except as described below or in the applicable Final Terms or Pricing Supplement, as the case may be, such Floating Rate Note will bear interest at the rate determined by reference to the applicable Interest Rate Basis or Bases (a) plus or minus the applicable Spread, if any, and/or (b) multiplied by the applicable Spread Multiplier, if any. Commencing on the Initial Interest Reset Date, the rate at which interest on such Floating Rate/Fixed Rate Note shall be payable shall be reset as of each Interest Reset Date; provided, however, that (y) the interest rate in effect for the period, if any, from the Original Issue Date to the Initial Interest Reset Date will be the Initial Interest Rate and (z) the interest rate in effect (the "**Fixed Interest Rate**") for the period commencing on the date specified therefor in the applicable Final Terms or Pricing Supplement, as the case may be (the "**Fixed Rate Commencement Date**") to the Maturity Date shall be the interest rate so specified in the applicable Final Terms or Pricing Supplement, as the case may be, or, if no such rate is specified, the interest rate in effect thereon on the day immediately preceding the Fixed Rate Commencement Date.

(iii) If such Floating Rate Note is designated as an "Inverse Floating Rate Note," then, except as described below or in the applicable Final Terms or Pricing Supplement, as the case may be, such Floating Rate Note will bear interest at the Fixed Interest Rate minus the rate determined by reference to the applicable Interest Rate Basis or Bases (a) plus or minus the applicable Spread, if any, and/or (b) multiplied by the applicable Spread Multiplier, if any; provided, however, that, unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, the interest rate thereon will not be less than zero. Commencing on the Initial Interest Reset Date, the rate at which interest on such Inverse Floating Rate Note shall be payable shall be reset as of each Interest Reset Date; provided, however, that the interest rate in effect for the period, if any, from the Original Issue Date to the Initial Interest Reset Date will be the Initial Interest Rate.

The "**Spread**" is the number of basis points to be added to or subtracted from the related Interest Rate Basis or Bases applicable to such Floating Rate Note. The "**Spread Multiplier**" is the percentage of the related Interest Rate Basis or Bases applicable to such Floating Rate Note by which such Interest Rate Basis or Bases will be multiplied to determine the applicable interest rate on such Floating Rate Note. The "**Index Maturity**" is the period to maturity of the instrument or obligation with respect to which the related Interest Rate Basis or Bases will be calculated.

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, the interest rate with respect to each Interest Rate Basis will be determined in accordance with the applicable provisions below. Except as set forth above or in the applicable Final Terms or Pricing Supplement, as the case may be, the interest rate in effect on each day shall be (i) if such day is an Interest Reset Date, the interest rate determined as of the Interest Determination Date (as defined below) immediately preceding such Interest Reset Date or (ii) if such day is not an Interest Reset Date, the interest rate determined as of the Interest Determination Date immediately preceding the most recent Interest Reset Date.

The applicable Final Terms or Pricing Supplement, as the case may be, will specify whether the rate of interest on the related Floating Rate Note will be reset daily, weekly, monthly, quarterly, semi-annually or annually or at such other specified intervals as specified in the applicable Final Terms or Pricing Supplement; as the case may be (each, an "**Interest Reset Period**") and the dates on which such rate of interest will be reset (each, an "**Interest Reset Date**"). Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, the Interest Reset Dates will be, in the case of Floating Rate Notes which reset:

- daily, each Business Day;
- weekly, the Wednesday of each week (with the exception of weekly reset Floating Rate Notes as to which the Treasury Rate is an applicable Interest Rate Basis, which will reset the Tuesday of each week);
- monthly, the third Wednesday of each month (with the exception of monthly reset Floating Rate Notes as to which the Eleventh District Cost of Funds Rate is an applicable Interest Rate Basis, which will reset on the first calendar day of the month);
- quarterly, the third Wednesday of March, June, September and December of each year;
- semi-annually, the third Wednesday of the two months of each year specified in the applicable Final Terms or Pricing Supplement, as the case may be; and
- annually, the third Wednesday of the month of each year specified in the applicable Final Terms or Pricing Supplement, as the case may be;

provided however, that, with respect to Floating Rate/Fixed Rate Notes, the rate of interest thereon will not reset after the applicable Fixed Rate Commencement Date. If any Interest Reset Date for any Floating Rate Note would otherwise be a day that is not a Business Day, such Interest Reset Date will be postponed to the next succeeding Business Day, except that in the case of a Floating Rate Note as to which EURIBOR or LIBOR is an applicable Interest Rate Basis and such Business Day falls in the next succeeding calendar month, such Interest Reset Date will be the immediately preceding Business Day.

The interest rate applicable to each Interest Reset Period commencing on the related Interest Reset Date will be the rate determined by the Calculation Agent as of the applicable Interest Determination Date and calculated on or prior to the Calculation Date (as defined below), except with respect to the Eleventh District Cost of Funds Rate, EURIBOR and LIBOR, which will be calculated on such Interest Determination Date. The "**Interest Determination Date**" with respect to:

- the CD Rate, the CMT Rate, the Commercial Paper Rate, the Federal Funds Rate and the Prime Rate will be the second Business Day immediately preceding the applicable Interest Reset Date;
- the Eleventh District Cost of Funds Rate will be the last Business Day of the month immediately preceding the applicable Interest Reset Date on which the Federal Home Loan Bank of San Francisco (the "**FHLB of San Francisco**") publishes the Index (as defined below);
- EURIBOR will be the second TARGET Settlement Date immediately preceding the applicable Interest Reset Date;
- LIBOR will be the second London Business Day immediately preceding the applicable Interest Reset Date, unless the Designated LIBOR Currency is pounds sterling, in which case the "**Interest Determination Date**" will be the applicable Interest Reset Date; and

- the Treasury Rate will be the day in the week in which the applicable Interest Reset Date falls on which day Treasury Bills (as defined below) are normally auctioned (Treasury Bills are normally sold at an auction held on Monday of each week, unless such Monday is a legal holiday, in which case the auction is normally held on the immediately succeeding Tuesday although such auction may be held on the preceding Friday); provided, however, that if an auction is held on the Friday of the week preceding the applicable Interest Reset Date, the "**Interest Determination Date**" will be such preceding Friday.

The "**Interest Determination Date**" pertaining to a Floating Rate Note the interest rate of which is determined by reference to two or more Interest Rate Bases will be the most recent Business Day which is at least two Business Days prior to the applicable Interest Reset Date for such Floating Rate Note on which each Interest Rate Basis is determinable. Each Interest Rate Basis will be determined as of such date, and the applicable interest rate will take effect on the applicable Interest Reset Date.

Notwithstanding the foregoing, a Floating Rate Note may also have, if specified in the applicable Final Terms or Pricing Supplement, as the case may be, either or both of the following: (i) a Maximum Interest Rate, or ceiling, that may accrue during any Interest Reset Period and (ii) a Minimum Interest Rate, or floor, that may accrue during any Interest Reset Period. In addition to any Maximum Interest Rate that may apply to any Floating Rate Note, the interest rate on Floating Rate Notes will in no event be higher than the maximum rate permitted by New York law, as the same may be modified, or other applicable law.

Except as provided below or in the applicable Final Terms or Pricing Supplement, as the case may be, the date(s) on which interest on Floating Rate Notes is payable (each, an "**Interest Payment Date**" with respect to Floating Rate Notes) will be, in the case of Floating Rate Notes which reset:

- daily, weekly or monthly, the third Wednesday of each month or on the third Wednesday of March, June, September and December of each year, as specified in the applicable Final Terms or Pricing Supplement, as the case may be;
- quarterly, the third Wednesday of March, June, September and December of each year;
- semi-annually, the third Wednesday of the two months of each year specified in the applicable Final Terms or Pricing Supplement, as the case may be;
- annually, the third Wednesday of the month of each year specified in the applicable Final Terms or Pricing Supplement, as the case may be; and
- the Maturity Date.

If any Interest Payment Date other than the Maturity Date for any Floating Rate Note would otherwise be a day that is not a Business Day, such Interest Payment Date will be postponed to the next succeeding Business Day, except that in the case of a Floating Rate Note as to which EURIBOR or LIBOR is an applicable Interest Rate Basis and such Business Day falls in the next succeeding calendar month, such Interest Payment Date will be the immediately preceding Business Day. If the Maturity Date of a Floating Rate Note falls on a day that is not a Business Day, the required payment of principal, premium, if any, and interest will be made on the next succeeding Business Day as if made on the date such payment was due, and no interest will accrue on such payment for the period from and after the Maturity Date to the date of such payment on the next succeeding Business Day. The Regular Record Date for each Floating Rate Note will be the fifteenth day (whether or not a Business Day) preceding each Interest Payment Date or Maturity, as the case may be.

All percentages resulting from any calculation on Floating Rate Notes will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with five- or more one millionths of a percentage point rounded upwards (*e.g.*, 9.876545% (or .09876545) would be rounded to 9.87655% (or .0987655)), and all amounts used in or resulting from such calculation on Floating Rate Notes will be rounded, in the case of US dollars, to the nearest cent or, in the case of a Specified Currency, to the nearest unit (with one-half cent or unit being rounded upwards).

With respect to each Floating Rate Note, accrued interest is calculated by multiplying its principal amount by an accrued interest factor. Such accrued interest factor is computed by adding the interest factor calculated for each day in the applicable Interest Period but excluding the date for which accrued interest is being calculated. Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, the interest factor for each such day will be computed by dividing the interest rate applicable to such day by 360, in the case of Floating Rate Notes for which

an applicable Interest Rate Basis is the CD Rate, the Commercial Paper Rate, the Eleventh District Cost of Funds Rate, EURIBOR, the Federal Funds Rate, LIBOR or the Prime Rate, or by the actual number of days in the year in the case of Floating Rate Notes for which an applicable Interest Rate Basis is the CMT Rate or the Treasury Rate. Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, the interest factor for Floating Rate Notes for which the interest rate is calculated with reference to two or more Interest Rate Bases will be calculated in each period in the same manner as if only the applicable Interest Rate Basis specified in the applicable Final Terms or Pricing Supplement, as the case may be, applied.

Upon request of the Holder of any Floating Rate Note, the "**Calculation Agent**" (as specified in the applicable Final Terms or Pricing Supplement, as the case may be) will disclose the interest rate then in effect and, if determined, the interest rate that will become effective as a result of a determination made for the next succeeding Interest Reset Date with respect to such Floating Rate Note. Unless otherwise specified in the applicable Final Terms, the "**Calculation Date**", if applicable, pertaining to any Interest Determination Date will be the earlier of (i) the tenth calendar day after such Interest Determination

Date or, if such day is not a Business Day, the next succeeding Business Day or (ii) the Business Day immediately preceding the applicable Interest Payment Date or the Maturity Date, as the case may be.

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, the Calculation Agent shall determine each Interest Rate Basis in accordance with the following provisions.

The Paying Agent will notify Northern Rock and any stock exchange, competent listing authority and/or quotation system on or by which the relevant Floating Rate Notes are for the time being listed, quoted and/or traded of the rate of interest and each amount of interest payable for each interest period and the relevant Interest Payment Date, and will cause the same to be notified to the Holders in accordance with the notice provisions herein as soon as possible after their determination but in no event later than the fourth Business Day thereafter. Each amount of interest payable per Specified Denomination and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notification as aforesaid in the event of an extension or shortening of the interest period in accordance with the provisions hereof. Each stock exchange, competent listing authority and/or quotation system on or by which the relevant Floating Rate Notes are for the time being listed, quoted and/or traded shall be promptly notified of any such amendment.

CD Rate

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, "**CD Rate**" means, with respect to any Interest Determination Date relating to a Floating Rate Note for which the interest rate is determined with reference to the CD Rate (a "**CD Rate Interest Determination Date**"), the rate on such date for negotiable US dollar certificates of deposit having the Index Maturity specified in the applicable Final Terms or Pricing Supplement, as the case may be, as published in H.15(519) (as defined below) under the heading "CDs (secondary market)" or, if not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on such CD Rate Interest Determination Date for negotiable US dollar certificates of deposit of the Index Maturity specified in the applicable Final Terms or Pricing Supplement, as the case may be, as published in H.15 Daily Update (as defined below), or such other recognized electronic source used for the purpose of displaying such rate, under the caption "CDs (secondary market)". If such rate is not yet published in H.15(519), H.15 Daily Update or another recognized electronic source by 3:00 P.M., New York City time, on the related Calculation Date, then the CD Rate on such CD Rate Interest Determination Date will be calculated by the Calculation Agent and will be the arithmetic mean of the secondary market offered rates as of 10:00 A.M., New York City time, on such CD Rate Interest Determination Date, of three leading nonbank dealers in negotiable US dollar certificates of deposit in New York City (which may include the Dealers or their affiliates) selected by the Calculation Agent for negotiable US dollar certificates of deposit of major United States money center banks for negotiable certificates of deposit with a remaining maturity closest to the Index Maturity specified in the applicable Final Terms or Pricing Supplement, as the case may be, in an amount that is representative for a single transaction in that market at that time; provided, however, that if the

dealers so selected by the Calculation Agent are not quoting as mentioned in this sentence, the CD Rate determined as of such CD Rate Interest Determination Date will be the CD Rate in effect on such CD Rate Interest Determination Date.

"**H.15(519)**" means the weekly statistical release designated as such, or any successor publication, published by the Board of Governors of the Federal Reserve System.

"**H.15 Daily Update**" means the daily update of H.15(519), available through the worldwideweb site of the Board of Governors of the Federal Reserve System at http://www.federalreserve.gov/releases/h15/update/, or any successor site or publication.

CMT Rate

(1) if the Designated CMT Telerate Page 7051 is specified in the applicable Final Terms or Pricing Supplement, as the case may be:

(a) the percentage equal to the yield for United States Treasury securities at "constant maturity" having the Designated CMT Maturity Index specified in the applicable Final Terms or Pricing Supplement, as the case may be, as published in H.15(519) under the caption "Treasury Constant Maturities", as the yield is displayed on Moneyline Telerate (or any successor service) on page 7051 (or any other page as may replace the specified page on that service) ("Moneyline Telerate Page 7051"), for the particular CMT Rate Interest Determination Date, or

(b) if the rate referred to in clause (a) does not so appear on the Designated CMT Telerate Page 7051, the percentage equal to the yield for United States Treasury securities at "constant maturity" having the particular Designated CMT Maturity Index and for the particular CMT Rate Interest Determination Date as published in H.15(519) under the caption "Treasury Constant Maturities", or

(c) if the rate referred to in clause (b) does not so appear in H.15(519), the rate on the particular CMT Rate Interest Determination Date for the period of the particular Designated CMT Maturity Index as may then be published by either the Federal Reserve System Board of Governors or the United States Department of the Treasury that the Calculation Agent determines to be comparable to the rate which would otherwise have been published in H.15(519), or

(d) if the rate referred to in clause (c) is not so published, the rate on the particular CMT Rate Interest Determination Date calculated by the Calculation Agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices at approximately 3:30 P.M., New York City time, on that CMT Rate Interest Determination Date of three leading primary United States government securities dealers in The City of New York (which may include the agents or their affiliates) (each, a "**Reference Dealer**"), selected by the Calculation Agent from five Reference Dealers selected by the Calculation Agent and eliminating the highest quotation, or, in the event of equality, one of the highest, and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity equal to the particular Designated CMT Maturity Index, a remaining term to maturity no more than 1 year shorter than that Designated CMT Maturity Index and in a principal amount that is representative for a single transaction in the securities in that market at that time, or

(e) if fewer than five but more than two of the prices referred to in clause (d) are provided as requested, the rate on the particular CMT Rate Interest Determination Date calculated by the Calculation Agent based on the arithmetic mean of the bid prices obtained and neither the highest nor the lowest of the quotations shall be eliminated, or

(f) if fewer than three prices referred to in clause (d) are provided as requested, the rate on the particular CMT Rate Interest Determination Date calculated by the Calculation Agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices as of approximately 3:30 P.M., New York City time, on that CMT Rate Interest Determination Date of three Reference Dealers selected by the Calculation Agent from five Reference Dealers selected by the Calculation Agent and eliminating the highest quotation or, in the event of equality, one of the highest and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity greater than the particular Designated

CMT Maturity Index, a remaining term to maturity closest to that Designated CMT Maturity Index and in a principal amount that is representative for a single transaction in the securities in that market at that time; or

(g) if fewer than five but more than two prices referred to in clause (f) are provided as requested, the rate on the particular CMT Rate Interest Determination Date calculated by the Calculation Agent based on the arithmetic mean of the bid prices obtained and neither the highest nor the lowest of the quotations will be eliminated; or

(h) if fewer than three prices referred to in clause (f) are provided as requested, the CMT Rate in effect on the particular CMT Rate Interest Determination Date.

(2) if the Designated CMT Telerate Page 7052 is specified in the applicable Final Terms or Pricing Supplement, as the case may be:

(a) the percentage equal to the one-week or one-month, as specified in the applicable Final Terms or Pricing Supplement, as the case may be, average yield for United States Treasury securities at "constant maturity" having the Designated CMT Maturity Index specified in the applicable Final Terms or Pricing Supplement, as the case may be, as published in H.15(519) opposite the caption "Treasury Constant Maturities", as the yield is displayed on Moneyline Telerate (or any successor service) (on page 7052 or any other page as may replace the specified page on that service) ("Moneyline Telerate Page 7052"), for the week or month, as applicable, ended immediately preceding the week or month, as applicable, in which the particular CMT Rate Interest Determination Date falls, or

(b) if the rate referred to in clause (a) does not so appear on the Designated CMT Telerate Page 7052, the percentage equal to the one-week or one-month, as specified in the applicable Final Terms or Pricing Supplement, as the case may be, average yield for United States Treasury securities at "constant maturity" having the particular Designated CMT Maturity Index and for the week or month, as applicable, preceding the particular CMT Rate Interest Determination Date as published in H.15(519) opposite the caption "Treasury Constant Maturities," or

(c) if the rate referred to in clause (b) does not so appear in H.15(519), the one-week or one-month, as specified in the applicable Final Terms or Pricing Supplement, as the case may be, average yield for United States Treasury securities at "constant maturity" having the particular Designated CMT Maturity Index as otherwise announced by the Federal Reserve Bank of New York for the week or month, as applicable, ended immediately preceding the week or month, as applicable, in which the particular CMT Rate Interest Determination Date falls, or

(d) if the rate referred to in clause (c) is not so published, the rate on the particular CMT Rate Interest Determination Date calculated by the Calculation Agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices at approximately 3:30 P.M., New York City time, on that CMT Rate Interest Determination Date of three Reference Dealers selected by the Calculation Agent from five Reference Dealers selected by the Calculation Agent and eliminating the highest quotation, or, in the event of equality, one of the highest, and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity equal to the particular Designated CMT Maturity Index, a remaining term to maturity no more than 1 year shorter than that Designated CMT Maturity Index and in a principal amount that is representative for a single transaction in the securities in that market at that time, or

(e) if fewer than five but more than two of the prices referred to in clause (d) are provided as requested, the rate on the particular CMT Rate Interest Determination Date calculated by the Calculation Agent based on the arithmetic mean of the bid prices obtained and neither the highest nor the lowest of the quotations shall be eliminated, or

(f) if fewer than three prices referred to in clause (d) are provided as requested, the rate on the particular CMT Rate Interest Determination Date calculated by the Calculation Agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices as of approximately 3:30 P.M., New York City time, on that CMT Rate Interest Determination Date of three Reference Dealers selected by the Calculation Agent from five Reference Dealers selected by the Calculation Agent and eliminating the highest quotation or, in the event of equality, one of the highest and the lowest quotation or, in the event of equality, one of the lowest, for

United States Treasury securities with an original maturity greater than the particular Designated CMT Maturity Index, a remaining term to maturity closest to that Designated CMT Maturity Index and in a principal amount that is representative for a single transaction in the securities in that market at the time, or

(g) if fewer than five but more than two prices referred to in clause (f) are provided as requested, the rate on the particular CMT Rate Interest Determination Date calculated by the Calculation Agent based on the arithmetic mean of the bid prices obtained and neither the highest or the lowest of the quotations will be eliminated, or

(h) if fewer than three prices referred to in clause (f) are provided as requested, the CMT Rate in effect on that CMT Rate Interest Determination Date.

If two United States Treasury securities with an original maturity greater than the Designated CMT Maturity Index specified in the applicable Final Terms or Pricing Supplement, as the case may be, have remaining terms to maturity equally close to the particular Designated CMT Maturity Index, the quotes for the United States Treasury security with the shorter original remaining term to maturity will be used.

"**Designated CMT Maturity Index**" means the original period to maturity of the US Treasury securities (either 1, 2, 3, 5, 7, 10, 20 or 30 years) specified in the applicable Final Terms with respect to which the CMT Rate will be calculated or, if no such maturity is specified in the applicable Final Terms or Pricing Supplement, as the case may be, 2 years.

"**Designated CMT Telerate Page**" means the display on Moneyline Telerate (or any successor service) on the page specified in the applicable Final Terms or Pricing Supplement, as the case may be (or any other page as may replace such page on such service) for the purpose of displaying Treasury Constant Maturities as reported in H.15(519) or, if no such page is specified in the applicable Final Terms or Pricing Supplement, as the case may be, page 7052.

Commercial Paper Rate

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, "**Commercial Paper Rate**" means, with respect to any Interest Determination Date relating to a Floating Rate Note for which the interest rate is determined with reference to the Commercial Paper Rate (a "**Commercial Paper Rate Interest Determination Date**"), the Money Market Yield (as defined below) on such date of the rate for commercial paper having the Index Maturity specified in the applicable Final Terms or Pricing Supplement, as the case may be, as published in H.15(519) under the caption "Commercial Paper-Nonfinancial" or, if not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on such Commercial Paper Rate Interest Determination Date for commercial paper having the Index Maturity specified in the applicable Final Terms or Pricing Supplement, as the case may be, as published in H.15 Daily Update, or such other recognized electronic source used for the purpose of displaying such rate, under the caption "Commercial Paper-Nonfinancial". If such rate is not yet published in H.15(519), H.15 Daily Update or another recognized electronic source by 3:00 P.M., New York City time, on the related Calculation Date, then the Commercial Paper Rate on such Commercial Paper Rate Interest Determination Date will be calculated by the Calculation Agent and will be the Money Market Yield of the arithmetic mean of the offered rates at approximately 11:00 A.M., New York City time, on such Commercial Paper Rate Interest Determination Date of three leading dealers of US dollar commercial paper in New York City (which may include the Dealers or their affiliates) selected by the Calculation Agent for commercial paper having the Index Maturity specified in the applicable Final Terms or Pricing Supplement, as the case may be, placed for industrial issuers whose bond rating is "Aa", or the equivalent, from a nationally recognized statistical rating organization; provided, however, that if the dealers so selected by the Calculation Agent are not quoting as mentioned in this sentence, the Commercial Paper Rate determined as of such Commercial Paper Rate Interest Determination Date will be the Commercial Paper Rate in effect on such Commercial Paper Rate Interest Determination Date.

"**Money Market Yield**" means a yield (expressed as a percentage) calculated in accordance with the following formula:

$$\text{Money Market Yield} = \frac{D\ 6{,}360}{360 - (D\ 6\ M)} \times 100$$

where "D" refers to the applicable per annum rate for commercial paper quoted on a bank discount basis and expressed as a decimal, and "M" refers to the actual number of days in the applicable Interest Reset Period.

Eleventh District Cost of Funds Rate

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, "**Eleventh District Cost of Funds Rate**" means, with respect to any Interest Determination Date relating to a Floating Rate Note for which the interest rate is determined with reference to the Eleventh District Cost of Funds Rate (an "**Eleventh District Cost of Funds Rate Interest Determination Date**"), the rate equal to the monthly weighted average cost of funds for the calendar month immediately preceding the month in which such Eleventh District Cost of Funds Rate Interest Determination Date falls as set forth under the caption "11th District" on the display on Moneyline Telerate (or any successor service) on page 7058 (or any other page as may replace such page on such service) ("**Telerate Page 7058**") as of 11:00 A.M., San Francisco time, on such Eleventh District Cost of Funds Rate Interest Determination Date. If such rate does not appear on Telerate Page 7058 on such Eleventh District Cost of Funds Rate Interest Determination Date, then the Eleventh District Cost of Funds Rate on such Eleventh District Cost of Funds Rate Interest Determination Date shall be the monthly weighted average cost of funds paid by member institutions of the Eleventh Federal Home Loan Bank District that was most recently announced (the "**Index**") by the FHLB of San Francisco as such cost of funds for the calendar month immediately preceding such Eleventh District Cost of Funds Rate Interest Determination Date. If the FHLB of San Francisco fails to announce the Index on or prior to such Eleventh District Cost of Funds Rate Interest Determination Date for the calendar month immediately preceding such Eleventh District Cost of Funds Rate Interest Determination Date, the Eleventh District Cost of Funds Rate determined as of such Eleventh District Cost of Funds Rate Interest Determination Date will be the Eleventh District Cost of Funds Rate in effect on such Eleventh District Cost of Funds Rate Interest Determination Date.

EURIBOR

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, "**EURIBOR**" means the rate determined in accordance with the following provisions:

(i) With respect to any Interest Determination Date relating to a Floating Rate Note for which the interest rate is determined with reference to EURIBOR (a "**EURIBOR Interest Determination Date**"), EURIBOR will be either: (a) if "EURIBOR Telerate" is specified in the applicable Final Terms or Pricing Supplement, as the case may be, or if neither "EURIBOR Reuters" nor "EURIBOR Telerate" is specified in the applicable Final Terms or Pricing Supplement, as the case may be, as the method for calculating EURIBOR, the rate for deposits in euro having the Index Maturity specified in such Final Terms or Pricing Supplement, as the case may be, commencing on such Interest Reset Date, that appears on the Designated EURIBOR Page as of 11:00 A.M., Brussels time, on such EURIBOR Interest Determination Date; or (b) if "EURIBOR Reuters" is specified in the applicable Final Terms or Pricing Supplement, as the case may be, the arithmetic mean of the offered rates (unless the Designated EURIBOR Page by its terms provides only for a singe rate, in which case such single rate shall be used) for deposits in euro having the Index Maturity specified in such Final Terms or Pricing Supplement, as the case may be, commencing on the applicable Interest Reset Date that appear (or, if only a single rate is required as aforesaid, appears) on the Designated EURIBOR Page as of 11:00 A.M., Brussels time, on such EURIBOR Interest Determination Date. If fewer than two such offered rates so appear, or if no such rate so appears, as applicable, EURIBOR on such EURIBOR Interest Determination Date will be determined in accordance with the provisions described in clause (ii) below.

(ii) With respect to a EURIBOR Interest Determination Date on which fewer than two offered rates appear, or no rate appears, as the case may be, on the Designated EURIBOR Page as specified in Clause (i) above, the Calculation Agent will request the principal Euro-zone office of each of four major reference banks (which may include affiliates of the Dealers) in the Euro-zone interbank market, as selected by the Calculation Agent, to provide the Calculation Agent with its offered quotation for deposits in euro for the period of the Index Maturity specified in the applicable Final Terms or Pricing Supplement, as the case may be, commencing on the applicable Interest Reset Date, to prime banks in the Euro-zone interbank market at

approximately 11:00 A.M., Brussels time, on such EURIBOR Interest Determination Date and in a principal amount that is representative for a single transaction in euro in such market at such time. If fewer than two such quotations are so provided, then EURIBOR on such EURIBOR Interest Determination Date will be the arithmetic mean of the rates quoted at approximately 11:00 A.M., Brussels time, on such EURIBOR Interest Determination Date by three major banks (which may include affiliates of the Dealers) in the Euro-zone selected by the Calculation Agent for loans in euro to leading European banks, having the Index Maturity specified in the applicable Final Terms or Pricing Supplement, as the case may be, and in a principal amount that is representative for a single transaction in euro in such market at such time; provided, however, that if the banks so selected by the Calculation Agent are not quoting as mentioned in this sentence, EURIBOR determined as of such EURIBOR Interest Determination Date will be EURIBOR in effect on such EURIBOR Interest Determination Date.

"**EURIBOR**" means the rate for deposits in euro designated as such and sponsored jointly by the European Banking Federation and ACI-The Financial Market Association (or any company established by the joint sponsors for the purposes of compiling and publishing such rates).

"**Designated EURIBOR Page**" means (a) if "EURIBOR Reuters" is specified in the applicable Final Terms or Pricing Supplement, as the case may be, the display on the Reuter Monitor Money Rates Service (or any successor service) on the page specified in such Final Terms or Pricing Supplement, as the case may be (or any other page as may replace such page on such service) for the purpose of displaying the Euro-zone interbank rates or major banks for the euro, or (b) if "EURIBOR Telerate" is specified in the applicable Final Terms or Pricing Supplement, as the case may be, or neither "EURIBOR Reuters" nor "EURIBOR Telerate" is specified in the applicable Final Terms or Pricing Supplement, as the case may be, as the method for calculating EURIBOR, the display on Moneyline Telerate (or any successor service) on the page specified in such Final Terms or Pricing Supplement, as the case may be (or any other page as may replace such page on such service for the purpose of displaying the Euro-zone interbank rates of major banks for the euro.

"**Euro-zone**" means the region comprised of member states of the European Union that have adopted the single currency in accordance with the Treaty on European Union signed at Maastricht on February 7, 1992.

Federal Funds Rate

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, "**Federal Funds Rate**" means, with respect to any Interest Determination Date relating to a Floating Rate Note for which the interest rate is determined with reference to the Federal Funds Rate (a "**Federal Funds Rate Interest Determination Date**"), the rate with respect to such date for US dollar federal funds as published in H.15(519) under the heading "Federal Funds (Effective)", as such rate is displayed on Moneyline Telerate (or any successor service) on page 120 (or any other page as may replace such page on such service) ("**Telerate Page 120**"), or, if such rate does not appear on Telerate Page 120 or is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate with respect to such Federal Funds Rate Interest Determination Date for US dollar federal funds as published in H.15 Daily Update, or such other recognized electronic source used for the purpose of displaying such rate, under the caption "Federal Funds (Effective)". If such rate does not appear on Telerate Page 120 or is not yet published in H.15(519), H.15 Daily Update or another recognized electronic source by 3:00 P.M., New York City time, on the related Calculation Date, then the Federal Funds Rate with respect to such Federal Funds Rate Interest Determination Date will be calculated by the Calculation Agent and will be the arithmetic mean of the rates for the last transaction in overnight US dollar federal funds arranged by three leading brokers of US dollar federal funds transactions in New York City (which may include the Dealers or their affiliates) selected by the Calculation Agent prior to 9:00 A.M., New York City time, on the Business Day following such Federal Funds Rate Interest Determination Date; provided, however, that if the brokers so selected by the Calculation Agent are not quoting as mentioned in this sentence, the Federal Funds Rate determined as of such Federal Funds Rate Interest Determination Date will be the Federal Funds Rate in effect on such Federal Funds Rate Interest Determination Date.

LIBOR

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, "**LIBOR**" means the rate determined in accordance with the following provisions:

(i) With respect to any Interest Determination Date relating to a Floating Rate Note for which the interest rate is determined with reference to LIBOR (a "**LIBOR Interest Determination Date**"), LIBOR will be either: (a) if "LIBOR Telerate" is specified in the applicable Final Terms or Pricing Supplement, as the case may be, or if neither "LIBOR Reuters" nor "LIBOR Telerate" is specified in the applicable Final Terms or Pricing Supplement, as the case may be, as the method for calculating LIBOR, the rate for deposits in the Designated LIBOR Currency having the Index Maturity specified in such Final Terms or Pricing Supplement, as the case may be, commencing on such Interest Reset Date, that appears on the Designated LIBOR Page as of 11:00 A.M., London time, on such LIBOR Interest Determination Date; or (b) if "LIBOR Reuters" is specified in the applicable Final Terms or Pricing Supplement, as the case may be, the arithmetic mean of the offered rates (unless the Designated LIBOR Page by its terms provides only for a single rate, in which case such single rate shall be used) for deposits in the Designated LIBOR Currency having the Index Maturity specified in such Final Terms or Pricing Supplement, as the case may be, commencing on the applicable Interest Reset Date that appear (or, if only a single rate is required as aforesaid, appears) on the Designated LIBOR Page as of 11:00 A.M., London time, on such LIBOR Interest Determination Date. If fewer than two such offered rates so appear, or if no such rate so appears, as applicable, LIBOR on such LIBOR Interest Determination Date will be determined in accordance with the provisions described in clause (ii) below.

(ii) With respect to a LIBOR Interest Determination Date on which fewer than two offered rates appear, or no rate appears, as the case may be, on the Designated LIBOR Page as specified in clause (i) above, the Calculation Agent will request the principal London offices of each of four major reference banks (which may include affiliates of the Dealers) in the London interbank market, as selected by the Calculation Agent, to provide the Calculation Agent with its offered quotation for deposits in the Designated LIBOR Currency for the period of the Index Maturity specified in the applicable Final Terms or Pricing Supplement, as the case may be, commencing on the applicable Interest Reset Date, to prime banks in the London interbank market at approximately 11:00 A.M., London time, on such LIBOR Interest Determination Date and in a principal amount that is representative for a single transaction in the Designated LIBOR Currency in such market at such time. If at least two such quotations are so provided, then LIBOR on such LIBOR Interest Determination Date will be the arithmetic mean of such quotations. If fewer than two such quotations are so provided, then LIBOR on such LIBOR Interest Determination Date will be the arithmetic mean of the rates quoted at approximately 11:00 A.M., in the applicable Principal Financial Center, on such LIBOR Interest Determination Date by three major banks (which may include affiliates of the Dealers) in such Principal Financial Center selected by the Calculation Agent for loans in the Designated LIBOR Currency to leading European banks, having the Index Maturity specified in the applicable Final Terms or Pricing Supplement, as the case may be, and in a principal amount that is representative for a single transaction in the Designated LIBOR Currency in such market at such time; provided, however, that if the banks so selected by the Calculation Agent are not quoting as mentioned in this sentence, LIBOR determined as of such LIBOR Interest Determination Date will be LIBOR in effect on such LIBOR Interest Determination Date.

"**Designated LIBOR Currency**" means the currency specified in the applicable Final Terms or Pricing Supplement, as the case may be, as to which LIBOR shall be calculated or, if no such currency is specified in the applicable Final Terms or Pricing Supplement, as the case may be, US dollars.

"**Designated LIBOR Page**" means (a) if "LIBOR Reuters" is specified in the applicable Final Terms or Pricing Supplement, as the case may be, the display on the Reuter Monitor Money Rates Service (or any successor service) on the page specified in such Final Terms or Pricing Supplement, as the case may be (or any other page as may replace such page on such service) for the purpose of displaying the London interbank rates of major banks for the Designated LIBOR Currency, or (b) if "LIBOR Telerate" is specified in the applicable Final Terms or Pricing Supplement, as the case may be or neither "LIBOR Reuters" nor "LIBOR Telerate" is specified in the applicable Final Terms or

Pricing Supplement, as the case may be, as the method for calculating LIBOR, the display on Moneyline Telerate (or any successor service) on the page specified in such Final Terms or Pricing Supplement, as the case may be (or any other page as may replace such page on such service) for the purpose of displaying the London interbank rates of major banks for the Designated LIBOR Currency.

Prime Rate

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, "**Prime Rate**" means, with respect to any Interest Determination Date relating to a Floating Rate Note for which the interest rate is determined with reference to the Prime Rate (a "**Prime Rate Interest Determination Date**"), the rate on such date as such rate is published in H.15(519) under the caption "Bank Prime Loan" or, if not published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on such Prime Rate Interest Determination Date as published in H.15 Daily Update, or such other recognized electronic source used for the purpose of displaying such rate, under the caption "Bank Prime Loan". If such rate is not yet published in H.15(519), H.15 Daily Update or another recognized electronic source by 3:00 P.M., New York City time, on the related Calculation Date, then the Prime Rate shall be the arithmetic mean of the rates of interest publicly announced by each bank that appears on the Reuters Screen US PRIME 1 Page (as defined below) as such bank's prime rate or base lending rate as of 11:00 A.M., New York City time, on such Prime Rate Interest Determination Date. If fewer than four such rates so appear on the Reuters Screen US PRIME 1 Page for such Prime Rate Interest Determination Date, then the Prime Rate shall be the arithmetic mean of the prime rates or base lending rates quoted on the basis of the actual number of days in the year divided by a 360-day year as of the close of business on such Prime Rate Interest Determination Date by three major banks (which may include affiliates of the Dealers) in New York City selected by the Calculation Agent; provided, however, that if the banks so selected by the Calculation Agent are not quoting as mentioned in this sentence, the Prime Rate determined as of such Prime Rate Interest Determination Date will be the Prime Rate in effect on such Prime Rate Interest Determination Date.

"**Reuters Screen US PRIME 1 Page**" means the display on the Reuter Monitor Money Rates Service (or any successor service) on the "US PRIME 1" page (or such other page as may replace the US PRIME 1 page on such service) for the purpose of displaying prime rates or base lending rates of major US banks.

Treasury Rate

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, "**Treasury Rate**" means, with respect to any Interest Determination Date relating to a Floating Rate Note for which the interest rate is determined by reference to the Treasury Rate (a "**Treasury Rate Interest Determination Date**"), the rate from the auction held on such Treasury Rate Interest Determination Date (the "**Auction**") of direct obligations of the United States ("**Treasury Bills**") having the Index Maturity specified in the applicable Final Terms or Pricing Supplement, as the case may be, under the caption "INVESTMENT RATE" on the display on Moneyline Telerate (or any successor service) on page 56 (or any other page as may replace such page on such service) ("**Telerate Page 56**") or page 57 (or any other page as may replace such page on such service) ("**Telerate Page 57**") or, if not so published by 3:00 P.M., New York City time, on the related Calculation Date, the Bond Equivalent Yield (as defined below) of the rate for such Treasury Bills as published in H.15 Daily Update, or such other recognized electronic source used for the purpose of displaying such rate, under the caption "US Government Securities/Treasury Bills/Auction High" or, if not so published by 3:00 P.M., New York City time, on the related Calculation Date, the Bond Equivalent Yield of the auction rate of such Treasury Bills as announced by the US Department of the Treasury. In the event that the auction rate of Treasury Bills having the Index Maturity specified in the applicable Final Terms or Pricing Supplement, as the case may be, is not so announced by the US Department of the Treasury, or if no such Auction is held, then the Treasury Rate will be the Bond Equivalent Yield of the rate on such Treasury Rate Interest Determination Date of Treasury Bills having the Index Maturity specified in the applicable Final Terms or Pricing Supplement, as the case may be, as published in H.15(519) under the caption "US Government Securities/Treasury Bills/Secondary Market" or, if not yet published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on such Treasury Rate Interest Determination Date of such Treasury Bills as published in

H.15 Daily Update, or such other recognized electronic source used for the purpose of displaying such rate, under the caption "US Government Securities/Treasury Bills/Secondary Market". If such rate is not yet published in H.15(519), H.15 Daily Update or another recognized electronic source, then the Treasury Rate will be calculated by the Calculation Agent and will be the Bond Equivalent Yield of the arithmetic mean of the secondary market bid rates, as of approximately 3:30 P.M., New York City time, on such Treasury Rate Interest Determination Date, of three primary US government securities dealers (which may include the Dealers or their affiliates) selected by the Calculation Agent, for the issue of Treasury Bills with a remaining maturity closest to the Index Maturity specified in the applicable Final Terms or Pricing Supplement, as the case may be; provided, however, that if the dealers so selected by the Calculation Agent are not quoting as mentioned in this sentence, the Treasury Rate determined as of such Treasury Rate Interest Determination Date will be the Treasury Rate in effect on such Treasury Rate Interest Determination Date.

"**Bond Equivalent Yield**" means a yield (expressed as a percentage) calculated in accordance with the following formula:

$$\text{Bond Equivalent Yield} = \frac{-D \times N}{360 - (D \times M)} \times 100$$

where "D" refers to the applicable per annum rate for Treasury Bills quoted on a bank discount basis; "N" refers to 365 or 366, as the case may be, and "M" refers to the actual number of days in the applicable Interest Reset Period.

Other/Additional Provisions; Addendum

Any provisions with respect to the Notes, including the specification and determination of one or more Interest Rate Bases, the calculation of the interest rate applicable to a Floating Rate Note, the Interest Payment Dates, the Stated Maturity, any redemption or repayment provisions or any other term relating thereto, may be modified and/or supplemented as specified under "Other/Additional Provisions; Addendum" in the applicable Final Terms or Pricing Supplement, as the case may be; provided that the provisions relating to maturity, redemption, repayment, events of default and subordination of the Subordinated Notes shall not be so capable of modification under "Other/Additional Provisions: Addendum" in the applicable Final Terms or Pricing Supplement, as the case may be, unless the prior written consent of the FSA has been obtained or is for the purpose of correcting a manifest error.

Discount Notes

Northern Rock may from time to time offer Notes ("**Discount Notes**") that have an Issue Price (as specified in the applicable Final Terms or Pricing Supplement, as the case may be) that is less than 100% of the principal amount thereof (*i.e.*, par) by more than a percentage equal to the product of 0.25% and the number of full years to the Stated Maturity. Discount Notes may not bear any interest currently or may bear interest at a rate that is below market rates at the time of issuance. The difference between the Issue Price of a Discount Note and par is referred to herein as the "**Discount**". In the event of redemption, repayment or acceleration of maturity of a Discount Note, the amount payable to the Holder of such Discount Note will be equal to the sum of (i) the Issue Price (increased by any accruals of Discount) and, in the event of any redemption of such Discount Note (if applicable), multiplied by the Initial Redemption Percentage (as adjusted by the Annual Redemption Percentage Reduction, if applicable) and (ii) any unpaid interest accrued thereon to the date of such redemption, repayment or acceleration of maturity, as the case may be.

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, for purposes of determining the amount of Discount that has accrued as of any date on which a redemption, repayment or acceleration of Maturity occurs for a Discount Note, such Discount will be accrued using a constant yield method. The constant yield will be calculated using a 30-day month, 360-day year convention, a compounding period that, except for the Initial Period (as defined below), corresponds to the shortest period between Interest Payment Dates for the applicable Discount Note (with ratable accruals within a compounding period), a coupon rate equal to the initial coupon rate applicable to such Discount Note and an assumption that the Maturity of such Discount Note will not be accelerated. If the period from the Original Issue Date to the initial Interest Payment Date for a Discount Note (the "**Initial Period**") is shorter than the compounding period for such Discount Note, a proportionate amount of the yield for an entire compounding period will be accrued. If the

Initial Period is longer than the compounding period, then such period will be divided into a regular compounding period and a short period with the short period being treated as provided in the preceding sentence. The accrual of the applicable Discount may differ from the accrual of issue discount for purposes of the US Internal Revenue Code of 1986, as amended (the "**Code**"). Certain Discount Notes may not be treated as having original issue discount within the meaning of the Code, and Notes other than Discount Notes may be treated as issued with original issue discount for federal income tax purposes. See "US Taxation-Certain United States Federal Income Tax Considerations".

Indexed Notes

Northern Rock may from time to time offer Notes ("**Indexed Notes**") with the amount of principal, premium and/or interest payable in respect thereof to be determined with reference to the price or prices of specified commodities or stocks, to the exchange rate of one or more designated currencies relative to an indexed currency or to other items, in each case as specified in the applicable Final Terms or Pricing Supplement, as the case may be. In certain cases, a Holder of an Indexed Note may receive a principal payment on Maturity that is greater than or less than the principal amount of such Indexed Note depending upon the relative value on Maturity of the specified indexed item. Information as to the method for determining the amount of principal, premium, if any, and/or interest, if any, payable in respect of Indexed Notes, certain historical information with respect to the specified indexed item and any material tax considerations associated with an investment in Indexed Notes will be specified in the applicable Final Terms. See also "Risk Factors".

Unless otherwise stated in the applicable Final Terms or Pricing Supplement, as the case may be, in the event that the principal, premium and/or interest, if any, or any other amount payable in respect of any Note is to be determined by means of quotations obtained from major banks or other relevant sources, such quotations will be requested on the basis of a representative amount of a normal single transaction in the relevant market and at the relevant time for such quotation.

Additional Notes

Northern Rock may issue additional Notes of a Series having identical terms to that of a prior tranche of Notes of the same Series but for the Original Issue Date and the public offering price ("**Additional Notes**"). The Final Terms or Pricing Supplement, as the case may be, relating to any Additional Notes will set forth matters related to such issuance, including identifying the prior tranche of Notes, their Original Issue Date and the aggregate principal amount of Notes then-comprising such Series.

Amortizing Notes

Northern Rock may from time to time offer Notes with the amount of principal thereof and interest thereon payable in installments over the term of such Notes ("**Amortizing Notes**"). Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, interest on each Amortizing Note will be computed on the basis of a 360-day year of twelve 30-day months. Payments with respect to Amortizing Notes will be applied first to interest due and payable thereon and then to the reduction of the unpaid principal amount thereof. Further information concerning additional terms and provisions of Amortizing Notes will be specified in the applicable Final Terms or Pricing Supplement, as the case may be, including a table, formula or formulae setting forth repayment information for such Amortizing Notes.

Payment of Additional Amounts

Northern Rock will, subject to certain limitations and exceptions (set forth below) pay to the Holder of any Note such additional amounts as may be necessary in order that every net payment of the principal of (including premium or final redemption amount, initial redemption amount or early redemption amount, if any, and in the case of Discount Notes, the Amortized Face Amount or other amount payable in respect thereof) and interest and Arrears of Interest, if any, on such Note, after deduction or other withholding for or on account of any present or future tax, assessment, duty or other governmental charge of any nature whatsoever imposed, levied or collected by or on behalf of the United Kingdom, or any political subdivision thereof or authority therein having power to tax, will not be less than the amount provided for in such Note as then due and payable. No such

additional amount shall, however, be payable on any Note on account of any tax, assessment, duty or other governmental charge which is payable:

(a) otherwise than by deduction or withholding from any payments of principal (including premium or final redemption amount, initial redemption amount or early redemption amount, if any, and in the case of Discount Notes, the Amortized Face Amount or other amount payable in respect thereof) or interest, if any, on such Note;

(b) by reason of such Holder having, or having had, some personal or business connection with the United Kingdom and not merely by reason of the fact that payments are, or for the purposes of taxation are deemed to be, from sources in, or secured in, the United Kingdom;

(c) by reason of a change in law or official practice of any relevant taxing authority that becomes effective more than 30 days after the Relevant Date (as defined below) for payment of principal (including premium or final redemption amount, initial redemption amount or early redemption amount, if any, and in the case of Discount Notes, the Amortized Face Amount or other amount payable in respect thereof) or interest, if any, in respect of such Note;

(d) by reason of any estate, excise, inheritance, gift, sales, transfer, wealth, personal property tax or any similar assessment or governmental charge;

(e) as a result of the failure of a Holder to satisfy any statutory requirements or make a declaration of non-residence or other similar claim for exemption to the relevant tax authority;

(f) by reason of such tax assessment, duty or other governmental charge required to be withheld by any Trustee or Paying Agent from any payment of principal or interest with respect to any Note, if such payment can be made without such withholding by any other Trustee or Paying Agent with respect to the Notes in a member state of the European Union;

(g) by reason of such tax, assessment, duty or other governmental charge being required to be withheld or deducted where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC on the taxation of savings income or any law (whether of a member state of the European Union or a non-Member state) implementing or complying with, or introduced in order to conform to, such directive; or

(h) owing to a combination of clauses (a) through (g) above.

"**Relevant Date**" means the date on which the payment of principal (including premium or final redemption amount, initial redemption amount or early redemption amount, if any, and in the case of Discount Notes, the Amortized Face Amount or other amount payable in respect thereof) or interest or Arrears of Interest, if any, on a Note first becomes due and payable but, if the full amount of the monies payable on such date has not been received by the relevant Paying Agent or as it shall have directed on or prior to such date, the "Relevant Date" means the date on which such monies shall have been so received.

No additional amounts will be paid as provided above with respect to any payment of principal (including premium or final redemption amount, initial redemption amount or early redemption amount, if any, and in the case of Discount Notes, the Amortized Face Amount or other amount payable in respect thereof) or interest and Arrears of Interest, if any, on such Note to any Holder who is a fiduciary or partnership or other than the sole beneficial owner of any such payment, to the extent that a beneficiary or settlor with respect to such fiduciary, a member of such partnership or the beneficial owner of such payment would not have been entitled to the additional amounts had such beneficiary, settlor, member or beneficial owner been the Holder of any such Note.

Redemption and Repurchase

General

The Final Terms or Pricing Supplement, as the case may be, relating to a Series of Notes will indicate either that such Notes cannot be redeemed prior to Maturity, other than for tax reasons (as set forth below), or the terms on which the Notes will be redeemable prior to Maturity at the option of Northern Rock or at the option of the Holder or at the option of either. Notice of redemption shall be provided as set forth below under "– Notices".

Perpetual Subordinated Notes

The Perpetual Subordinated Notes will be undated and, accordingly, will have no Stated Maturity and may not be repaid except in accordance with the provisions set forth below under "– Redemption for Tax Reasons", "– Repurchase" and "Events of Default – Subordinated Notes" or in any applicable Final Terms or Pricing Supplement, as the case may be.

Redemption for Tax Reasons

The Notes of any Series may be redeemed, subject to any other terms set forth in the applicable Final Terms or Pricing Supplement, as the case may be, as a whole but not in part, at the option of Northern Rock, upon not more than 60 days', nor less than 30 days', prior notice given as provided below under "– Notices", at a redemption price equal to 100% of the principal amount (or at the then current Amortized Face Amount, if the Note is a Discount Note or, if such Note is an Indexed Note or Amortizing Note, at the Redemption Price (as defined below) specified in the applicable Final Terms or Pricing Supplement, as the case may be) (and premium, if any, thereon) together with interest and Arrears of Interest accrued, if any, to the date fixed for redemption, if on the next succeeding Interest Payment Date Northern Rock will become obligated to pay additional amounts (as provided in the applicable Indenture for the Notes of such Series) and such obligation cannot be avoided by the use of reasonable measures available to Northern Rock; provided, that (a) Senior Notes of any such Series may not be so redeemed if such obligation of Northern Rock to pay such additional amounts as aforesaid arises by reason of Northern Rock no longer being a bank authorized under the Financial Services and Markets Act 2000 or interest paid on the Notes of any such Series not being paid in the ordinary course of its business, in each case as a consequence of any action taken by Northern Rock, and (b)(i) Subordinated Notes may be so redeemed only with the prior written consent of the FSA, and (ii) may not be so redeemed if such obligation of Northern Rock to pay such additional amounts as aforesaid arises by reason of the Subordinated Notes not being listed on a "recognized stock exchange" within the meaning of Section 841 of the Tax Act or as a result of payments on the Subordinated Notes being made by or through a paying agent not outside the United Kingdom.

In the event that Northern Rock elects to redeem the Notes of any Series pursuant to the provisions set forth in the preceding paragraph, Northern Rock will deliver to the applicable Trustee (i) a certificate, signed by two authorized officers of Northern Rock, evidencing compliance with such provisions and stating that Northern Rock is entitled to redeem the Notes of any such Series pursuant to the terms of such Notes and the applicable Indenture and (ii) a written Opinion of Counsel to Northern Rock to the effect that the circumstances referred to above exist.

Redemption at the Option of Northern Rock

The Notes will be redeemable at the option of Northern Rock (subject, in the case of Subordinated Notes, to the prior written consent of the FSA having been obtained) prior to the Stated Maturity if, and, only if an Initial Redemption Date ("**Initial Redemption Date**") is specified in the applicable Final Terms or Pricing Supplement, as the case may be. If so specified, and subject to any other terms set forth in the applicable Final Terms or Pricing Supplement, as the case may be, the Notes will be subject to redemption at the option of Northern Rock on any date on and after the applicable Initial Redemption Date in whole or from time to time in part in increments of US$100,000 or the minimum denomination specified in such Final Terms or Pricing Supplement, as the case may be (provided that any remaining principal amount thereof shall be at least US$100,000 or such minimum denomination), at the applicable Redemption Price on notice given not more than 60 days, if the Notes are being redeemed in whole, or 45 days, if the Notes are being redeemed in part, nor less than 30 days prior to the date of redemption and in accordance with the provisions of the respective Indenture. "**Redemption Price**" with respect to a Note, means, unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, an amount equal to the sum of (i) the Initial Redemption Percentage specified in such Final Terms or Pricing Supplement, as the case may be (as adjusted by the Annual Redemption Percentage Reduction, if applicable (as specified in such Final Terms or Pricing Supplement, as the case may be)) multiplied by the unpaid principal amount or the portion to be redeemed plus (ii) accrued interest, if any, to the date of redemption. Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, the Initial Redemption Percentage, if any, applicable to a Note shall decline at each anniversary of the Initial Redemption Date by an amount equal to the applicable Annual Redemption Percentage

Reduction, if any, until the Redemption Price is equal to 100% of the unpaid principal amount thereof or the portion thereof to be redeemed. Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, the Notes will not be subject to any sinking fund.

Repayment at the Option of the Holders of Senior Notes

If so specified in the applicable Final Terms or Pricing Supplement, as the case may be, the Senior Notes will be repayable by Northern Rock in whole or in part at the option of the Holders thereof on their respective optional repayment dates ("**Optional Repayment Dates**") specified in such Final Terms or Pricing Supplement, as the case may be. For the avoidance of doubt, the Subordinated Notes will not be so repayable. If no Optional Repayment Date is specified with respect to a Note, such Note will not be repayable at the option of the Holder thereof prior to the Stated Maturity. Any repayment in part will be in increments of US$100,000 or the minimum denomination specified in the applicable Final Terms or Pricing Supplement, as the case may be (provided that any remaining principal amount thereof shall be at least US$100,000 or such minimum denomination). Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, the repayment price for any Note to be repaid means an amount equal to the sum of the unpaid principal amount thereof or the portion thereof plus accrued interest or Arrears of Interest to the date of repayment. Except as otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, exercise of the repayment option is irrevocable.

Selection of Notes for Partial Redemption

In the case of any partial redemption of Notes, and subject to any other terms specified in the applicable Final Terms or Pricing Supplement, as the case may be, the Notes to be redeemed shall be selected either by the applicable Trustee individually by lot not more than 60 days prior to the Redemption Date from the outstanding Notes not previously called for redemption or, in such other manner as may be agreed by Northern Rock and the Holders.

Repurchase

Northern Rock may (subject, in the case of Subordinated Notes, to the prior written consent of the FSA having been obtained) at any time purchase Notes at any price or prices in the open market or otherwise. Notes so purchased may be held or resold or, at the discretion of Northern Rock, surrendered to the applicable Trustee for cancellation. If any applicable Final Terms or Pricing Supplement, as the case may be, provides for mandatory sinking fund payments with respect to such Notes, the Indentures provide that in lieu of making all or any part of any mandatory sinking fund payment in cash, Northern Rock may deliver to the applicable Trustee Notes previously purchased or otherwise acquired by Northern Rock (to the extent not previously credited).

Negative Pledge

So long as any of the Senior Notes remain outstanding, Northern Rock will neither create nor have Outstanding any mortgage, lien (other than a lien arising by operation of law), pledge or other charge upon the whole or any part of its assets, present or future (including any uncalled capital), to secure any Loan Stock (as defined below) of Northern Rock or any obligation of Northern Rock under any guarantee of or indemnity in respect of any Loan Stock of any subsidiary of Northern Rock without at the same time or prior thereto securing the Senior Notes equally and ratably therewith or providing such other security for the Senior Notes not materially less beneficial to the Holders of the Senior Notes or as shall be approved by a majority of the Holders of the Outstanding Senior Notes.

As used herein, "**Loan Stock**" means indebtedness which is in the form of, or represented or evidenced by, bonds, notes, debentures, loan stock or other securities which for the time being are, or are intended to be, quoted, listed, ordinarily dealt in or traded on any stock exchange, over-the-counter or other established securities market but excluding any such indebtedness which has a Stated Maturity not exceeding one year.

Events of Default – Senior Notes

The following shall constitute "**Events of Default**" with respect to the Senior Notes:

(i) a failure to pay, or to duly provide for the payment of, any principal (including premium or final redemption amount, initial redemption amount or early redemption amount, if any, and in the case of Discount Notes, the Amortized Face Amount or other amount payable in respect thereof) of any Senior Note of the Series of Senior Notes of which such Senior Note is a part when due (whether at Maturity, upon redemption or otherwise);

(ii) a failure to pay, or to duly provide for the payment of, any interest for a period of 30 days or more, in respect of any Senior Note of the Series of Senior Notes of which such Senior Note is a part when due;

(iii) a failure to make any payment in respect of indebtedness for Borrowed Money (as defined in the Senior Indenture) (which indebtedness has an outstanding aggregate principal amount of at least the Specified Amount) of Northern Rock or any Material Subsidiary on its due date (or by the expiry of any applicable grace period as originally provided) or such indebtedness becoming due and payable prior to the Stated Maturity by reason of default or the failure to honor any guarantee or indemnity of any payment in respect of indebtedness for moneys borrowed of any third party given by Northern Rock or any Material Subsidiary when due and called upon (except where the aggregate liability under any such guarantees or indemnities does not exceed the Specified Amount);

(iv) a default by Northern Rock in the performance or observance of any obligation, condition or provision binding on it under the Senior Notes or the Senior Indenture (other than any obligation included in the Senior Indenture solely for the benefit of Senior Notes other than the Senior Notes of any such particular Series) and, except where such default is or the effects of such default are, in the opinion of the Trustee, not capable of remedy when no such continuation and notice as is hereinafter mentioned will be required, such default continues for 30 days (or such longer period as the Senior Trustee may permit) after written notice thereof has been given by the Senior Trustee to Northern Rock requiring the same to be remedied;

(v) an order is made or an effective resolution is passed for the winding-up of Northern Rock or any Material Subsidiary (except, in any such case, a winding-up or dissolution for the purpose of a reconstruction or amalgamation the terms of which have previously been approved in writing by the Senior Trustee or by the Holders of not less than a majority in aggregate principal amount of the Outstanding Senior Notes or a voluntary solvent winding-up or a transfer of all or a material part of the business, undertaking and assets of such Material Subsidiary to Northern Rock or any other subsidiary of Northern Rock);

(vi) Northern Rock or any Material Subsidiary stops or threatens to stop payment to its creditors generally or Northern Rock or any Material Subsidiary ceases or threatens to cease to carry on its business or substantially the whole of its business (except for the purpose of or in connection with a reconstruction or amalgamation the terms of which have previously been approved in writing by the Senior Trustee or by the Holders of not less than a majority in aggregate principal amount of the Outstanding Senior Notes or a voluntary solvent winding-up or a transfer of all or a material part of the business, undertaking and assets of such Material Subsidiary to Northern Rock or any other subsidiary of Northern Rock);

(vii) an encumbrancer takes possession or a receiver, administrator, administrative receiver or other similar officer is appointed of the whole or any material part of the undertaking, property and assets of Northern Rock or any Material Subsidiary or a distress or execution is levied or enforced upon or sued out against the whole or any material part of the chattels or property of Northern Rock or any Material Subsidiary and, in the case of any of the foregoing events, is not discharged within 30 days (or such longer period as the Senior Trustee may permit);

(viii) Northern Rock or any Material Subsidiary is unable to pay its debts generally; or

(ix) any other event of default provided with respect to Senior Notes of that Series.

"**Adjusted Tangible Net Worth**" means the aggregate of (1) the nominal amount of the share capital of Northern Rock for the time being issued and paid up or credited as paid up, (2) the amounts standing to the credit of the reserves (including any share premium account and profit and loss account) of Northern Rock and its subsidiaries and (3) any amount attributable to minority interests in subsidiaries, all as shown in the latest audited consolidated balance sheet of Northern Rock and its subsidiaries prepared in accordance with UK GAAP less (4) any amounts, determined in

accordance with UK GAAP, representing distribution of cash or tangible assets declared, recommended or made by Northern Rock or any of its subsidiaries (other than any distribution attributable to Northern Rock or another subsidiary) out of profits accrued prior to the date of, and not provided for in, the latest audited consolidated balance sheet of Northern Rock and its subsidiaries and less (5) any amounts shown in such latest audited consolidated balance sheet attributable to intangible assets and of any debit on the profit and loss account.

"**Material Subsidiary**" means any subsidiary of Northern Rock whose total assets (attributable to Northern Rock) represent 10% or more of the consolidated total assets (attributable to Northern Rock) of Northern Rock and its subsidiaries.

"**Specified Amount**" means the greater of (a) £15,000,000 or its equivalent in any other currency or currencies and (b) such amount in pounds sterling as is equal to 1% of the Adjusted Tangible Net Worth.

In case an Event of Default with respect to any Series of Senior Notes shall have occurred and be continuing, the Senior Trustee or the Holders of at least 25% in aggregate principal amount of the Outstanding Senior Notes of that Series may declare the principal of (including premium, if any on) or (in the case of Discount Notes) such lesser amount as may be provided for with respect to such Notes, all the Senior Notes of that Series to be due and payable immediately, by a notice in writing to Northern Rock (and to the Senior Trustee if given by Holders), and upon any such declaration of acceleration such principal or such lesser amount, as the case may be, including premium, if any, thereon, together with any accrued interest and all other amounts owing under such Senior Notes and under the Senior Indenture (with respect to such Series of Senior Notes), shall become immediately due and payable, without presentment, demand, protest or notice of any kind, all of which have been expressly waived by Northern Rock. Upon such an acceleration, any premium and interest on the Outstanding Senior Notes shall also become due and payable. At any time after such a declaration of acceleration but before a judgment or decree for payment of the money due has been obtained by the Senior Trustee or the Holders of such Outstanding Senior Notes, the Holders of a majority in aggregate principal amount of such Outstanding Senior Notes may rescind and annul such acceleration and its consequences, provided all required payments (other than as a result of such acceleration) have been made and all Events of Default with respect to such Senior Notes shall have been cured or waived.

The Holders of a majority in aggregate principal amount of the Outstanding Senior Notes of a Series may waive, on behalf of the Holders of all such Senior Notes of that Series, any past default of that series with respect to the Senior Notes of that Series and its consequences, except a default in the payment of the principal of (or premium, if any, on) or interest, if any, on any such Senior Note of that Series or a default in respect of a covenant or provision of the Senior Indenture that cannot be modified or amended without the consent of the Holders of each such Senior Note of that Series affected thereby. See "– Waivers" below.

Northern Rock has also covenanted that if (i) there is a failure to pay, or to duly provide for the payment of, any interest for a period of 30 days upon any Senior Note of a Series when such interest becomes due and payable or (ii) there is a failure to pay, or to duly provide for the payment of, the principal of (or premium, if any, on) any Senior Note of a Series at its Maturity, Northern Rock will, upon demand of the Senior Trustee for the Senior Notes of such Series, pay to it, for the benefit of the Holders of such Senior Notes, the whole amount then due and payable on such Senior Notes for principal (and premium, if any) and interest, if any, with interest upon the overdue principal (and premium, if any) and, to the extent that payment of such interest shall be legally enforceable, upon any overdue installments of interest at a rate per annum equal to the rate borne by such Senior Notes (or, in the case of Discount Notes, the Notes' Yield to Maturity); and, in addition thereto, such further amount as shall be sufficient to cover the costs and expenses of collection, including the reasonable compensation, expenses, disbursements and advances of the Senior Trustee, its agents and counsel.

If Northern Rock fails to pay such amounts forthwith upon such demand, the Senior Trustee, in its own name and as trustee of an express trust, may institute a judicial proceeding for the collection of the sums so due and unpaid, and may prosecute such proceedings to judgment or final decree, and may enforce the same against Northern Rock or any other obligor upon the Senior Notes and collect

the moneys adjudged or decreed to be payable in the manner provided by law out of the property of Northern Rock, or any other obligor upon the Senior Notes, wherever situated.

Holders of Senior Notes of any Series may not enforce the Senior Indenture or Senior Notes, except as described in the preceding paragraphs; provided that each Holder of Senior Notes will have the right to institute suit for the enforcement of payment of the principal of (and premium, if any, on) and interest, if any, on such Senior Notes on the respective Stated Maturities thereof. The Senior Trustee may require indemnity satisfactory to it before it enforces the Senior Indenture or Senior Note. Subject to certain limitations, Holders of a majority in aggregate principal amount of the Outstanding Senior Notes of any Series may direct the Senior Trustee in its exercise of any trust or power. Northern Rock will furnish the Senior Trustee with an annual certificate of certain of its officers certifying, to the best of their knowledge, whether Northern Rock, is, or has been, in default and specifying the nature and status of any such default. The Senior Trustee may withhold from Holders of Senior Notes of any Series notice of any continuing default (except a default in payment) if it determines in good faith that the withholding of such notice is in the interest of such Holders.

Events of Default – Subordinated Notes

Events of Default relating to Dated Subordinated Notes

The following shall constitute "**Events of Default**" with respect to the Dated Subordinated Notes:

(i) a failure to pay, or to duly provide for the payment of, any principal for a period of seven days or more (including premium or final redemption amount, initial redemption amount or early redemption amount, if any, and in the case of Discount Notes, the Amortized Face Amount or other amount payable in respect thereof) of any Dated Subordinated Note of the Series of Dated Subordinated Notes of which such Dated Subordinated Note is a part when due (whether at maturity, upon redemption or otherwise);

(ii) a failure to pay, or to duly provide for the payment of, any interest for a period of 14 days or more, in respect of any Dated Subordinated Note of the Series of Dated Subordinated Notes of which such Dated Subordinated Note is a part when due; or

(iii) commencement of the winding-up of Northern Rock (other than a winding-up which has been approved in writing by the Holders of not less than a majority in aggregate principal amount of the Dated Subordinated Notes).

In case an Event of Default with respect to the Dated Subordinated Notes shall have occurred and be continuing, the Subordinated Trustee or the Holders of at least 25% in aggregate principal amount of the Outstanding Dated Subordinated Notes may declare the principal of all such Outstanding Dated Subordinated Notes (including premium, if any, on), or (in the case of Discount Notes) such lesser amount as may be provided for with respect to such Notes, all the Dated Subordinated Notes of that Series to be due and payable immediately, by a notice in writing to Northern Rock (and to the Subordinated Trustee if given by Holders), and upon any such declaration of acceleration such principal or such lesser amount, as the case may be, including premium, if any, thereon together with any accrued interest, and all other amounts owing thereunder, shall become immediately due and payable, without presentment, demand, protest or notice of any kind, all of which have been expressly waived by Northern Rock. If the Dated Subordinated Notes become immediately due and repayable, a majority of the Holders of the Outstanding Dated Subordinated Notes may institute proceedings, but may take no other action in respect of such default, for the winding-up of Northern Rock and to prove a claim in such winding up to enforce the obligations of Northern Rock in respect of the Dated Subordinated Notes; provided that no payment of interest, repayment of principal or other claim in respect to the Dated Subordinated Notes may be made otherwise than during or after a winding-up or dissolution of Northern Rock, except with prior written consent of the FSA. For the purposes of the foregoing, a payment shall be deemed to be due even if Northern Rock is not solvent.

Events of Default relating to Perpetual Subordinated Notes

In the case of Perpetual Subordinated Notes, if Northern Rock shall fail to pay or duly provide for the payment of principal or interest for a period of 14 days or more (including premium, if any, and in the case of Discount Notes, the Amortized Face Amount or other amount payable in respect thereof) of any Perpetual Subordinated Note when due, the majority of Holders of the Outstanding

Perpetual Subordinated Notes may institute proceedings, but may take no other action in respect of such default; for the winding up of Northern Rock and to prove a claim in such winding up to enforce the obligations of Northern Rock in respect of the Perpetual Subordinated Notes. For the avoidance of doubt; no payment shall be deemed due if Northern Rock does not make or has not made such payment because of its insolvency or because such payment will cause it to become insolvent and no payment of interest shall be due if Northern Rock has exercised its right to defer such payment (as set out in the Subordinated Indenture and described herein under "*Status and Subordination of Subordinated Notes*").

Events of Default relating to Subordinated Notes-General

No Holder of Outstanding Subordinated Notes shall be entitled to institute proceedings for the winding-up of Northern Rock, or to prove a claim in any winding-up of Northern Rock, unless a majority of the Holders of Outstanding Subordinated Notes have determined to so proceed, in which event any such Holder of Outstanding Subordinated Notes may, at its own expense and in its own name, institute proceedings for the winding-up of Northern Rock and/or prove a claim in any winding up of Northern Rock in respect of its Outstanding Subordinated Notes.

Judgments

Under current New York law, a state court in the State of New York rendering a judgment in respect of a Note denominated in other than US dollars would be required to render such judgment in the Specified Currency, and such judgment would be converted into US dollars at the Market Exchange Rate prevailing on the date of entry of such judgment. Accordingly, the Holder of such Note denominated in other than US dollars would be subject to exchange rate fluctuations between the date of entry of a judgment in a currency other than US dollars and the time the amount of such judgment is paid to such Holder in US dollars and converted by such Holder into the Specified Currency. It is not certain, however, whether a non-New York state court would follow the same rules and procedures with respect to conversions of judgments in currency other than US dollars.

Northern Rock will indemnify the Trustee and the Holder of any Note against any loss incurred by such Holder and/or the Trustee as a result of any judgment or order being given or made for any amount due under such Note and such judgment or order requiring payment in a currency (the "**Judgment Currency**") other than the Specified Currency, and as a result of any variation between (i) the rate of exchange at which the Specified Currency amount is converted into the Judgment Currency for the purpose of such judgment or order, and (ii) the rate of exchange at which the Holder of such Note, on the date of payment of such judgment or order, is able to purchase the Specified Currency with the amount of the Judgment Currency actually received by such Holder, as the case may be.

Consolidation, Merger and Sale or Lease of Assets

So long as any Note of a Series remains outstanding, Northern Rock will not consolidate or amalgamate with or merge into any other corporation or convey, transfer or lease its properties and assets substantially as an entirety to any Person unless (i) the corporation formed by such consolidation or amalgamation or into which Northern Rock is merged or the Person which acquired by conveyance or transfer, or which leases, the properties and assets of Northern Rock substantially as an entirety shall be a corporation or other Person organized and validly existing under the laws of the United Kingdom which shall expressly assume, by an amendment to the applicable Indenture that is executed and delivered to the applicable Trustee and is in form reasonably satisfactory to the applicable Trustee, the due and punctual payment of the principal of (and premium, if any, on) and interest, if any, on all of the Notes of such a Series and the performance of every covenant of the applicable Indenture (other than a covenant included in the applicable Indenture solely for the benefit of Notes other than such Notes) and of such Notes to be performed, and such assumption shall provide that such corporation or Person shall pay to the Holder of any such Notes such additional amounts as may be necessary in order that every net payment of the principal of (and premium; if any, on) and interest, if any, on such Notes will not be less than the amounts provided for in such Notes to be then due and payable and such obligations shall extend to any deduction or withholding for or on account of any present or future tax; assessment or governmental charge imposed upon such payment (it being understood that, except as aforesaid; no such corporation or Person shall be obligated to make any indemnification or payment in respect of any tax consequences to any Holder as a result of such assumption of rights and obligations if such corporation or Person would not be

obligated to pay an additional amount pursuant to the applicable Indenture if such corporation or Person were Northern Rock); (ii) immediately after giving effect to such transaction, no Event of Default with respect to Senior Notes of such a Series or with respect to Subordinated Notes of such a Series, as the case may be, and no event which, after notice or lapse of time, or both, would become an Event of Default with respect to such Notes, shall have occurred and be continuing; and (iii) Northern Rock has delivered to the applicable Trustee a certificate signed by two duly authorized officers and an Opinion of Counsel each stating that such consolidation, amalgamation, merger, conveyance, transfer or lease and such amendment to the applicable Indenture evidencing the assumption by such corporation or Person comply with the applicable Indenture and that all conditions precedent provided for in the applicable Indenture relating to such transaction have been complied with.

Upon any such consolidation, amalgamation or merger, or any such conveyance, transfer or lease, the successor corporation or Person will succeed to, and be substituted for, and may exercise every right and power of Northern Rock, under the applicable Indenture with the same effect as if such successor corporation or Person has been named as the issuer thereunder, and thereafter, except in the case of a lease, the predecessor corporation shall be relieved of all obligations and covenants under the applicable Indenture and such Notes.

Satisfaction and Discharge

Except as may otherwise be set forth in the Final Terms or Pricing Supplement, as the case may be, relating to the Notes of a Series, the Indentures provide that Northern Rock will be discharged from its obligations under the Notes of a Series (with certain exceptions) at any time prior to the Stated Maturity, if any, or redemption of such Notes when (i) Northern Rock has irrevocably deposited or caused to be deposited with or to the order of the applicable Trustee, in trust, (a) sufficient funds in the currency, currencies, currency unit or units in which such Notes are payable (without consideration of any reinvestment thereof) to pay the principal of (and premium, if any, on) and interest and Arrears of Interest, if any, on such Notes to the Stated Maturity, if any (or Redemption Date), or (b) such amount of US Government Obligations (as defined below) as will, together with the predetermined and certain income to accrue thereon (without consideration of any reinvestment thereof), be sufficient to pay when due the principal of (and premium, if any, on) and interest, if any, to the Stated Maturity, if any (or Redemption Date) on such Notes, or, (c) such amount equal to the amount referred to in clause (a) or (b) in any combination of currency or currency unit of US Government Obligations; (ii) Northern Rock has paid all other sums payable with respect to such Notes; (iii) Northern Rock has delivered to the applicable Trustee an Opinion of Counsel to the effect that (a) Northern Rock has received from, or there has been published by, the US Internal Revenue Service a ruling, or (b) since the date of the applicable Indenture there has been a change in applicable United States federal income tax law, in either case to the effect that, and based upon which such Opinion of Counsel shall confirm that, the Holders of such Notes will not recognize income, gain or loss for United States federal income tax purposes as a result of such discharge and will be subject to United States federal income tax on the same amount and in the same manner and at the same time as would have been the case if such discharge had not occurred; and (iv) certain other conditions are met. Upon such discharge, the Holders of the Notes of such a Series shall no longer be entitled to the benefits of the terms and conditions of the applicable Indenture and Notes, except for certain provisions including registration of transfer and exchange of such Notes and replacement of mutilated, destroyed, lost or stolen Notes of such a Series, and shall look for payment only to such deposited funds or obligations. In addition, under the requirements of the FSA at the date of this Offering Circular, any such discharge with respect to the Subordinated Notes of any Series would require the consent of the FSA.

"**US Government Obligations**" means non-callable (i) direct obligations (or certificates representing an ownership interest in such obligations) of the United States for which its full faith and credit are pledged or (ii) obligations of a Person controlled or supervised by, and acting as an agency or instrumentality of, the United States, the timely payment of which is unconditionally guaranteed as a full faith and credit obligation of the United States.

Supplemental Indentures

The Indentures contain provisions permitting Northern Rock and the applicable Trustee (i) without the consent of the Holders of any Notes (including the Notes of such a Series) issued under the applicable Indenture, to execute supplemental indentures for certain enumerated purposes, such as to cure any ambiguity or inconsistency or to make any change that does not have a materially adverse effect on the rights of any holder of such Notes, and (ii) with the consent of the Holders of not less than a majority in aggregate principal amount of the Outstanding Notes of each Series of Notes issued under the applicable Indenture (including the Notes of any such Series) and affected thereby, to execute supplemental indentures for the purpose of adding any provisions to or changing in any manner or eliminating any of the provisions of the applicable Indenture or of modifying in any manner the rights of holders of any such Note under the applicable Indenture; provided, that no such supplemental indenture may, without the consent of the Holder of each such Outstanding Note (including such Notes) affected thereby (a) change the Stated Maturity, if any, of the principal of or interest on any such Note, or change the terms of any Perpetual Subordinated Note to include a Stated Maturity of the principal amount of any such Note, or reduce the principal amount of any such Note or the rate of interest thereon, if any, or any premium or principal payable upon redemption thereof, or change any obligation of Northern Rock to pay additional amounts thereon, or change any Place of Payment where, or change the currency in which, any such Note or the interest, if any, thereon is payable, or impair the right to institute suit for the enforcement of any such payment on or after the Stated Maturity, if any, thereof or the date any such payment is otherwise due and payable (or, in the case of redemption, on or after the redemption date); or (b) reduce the percentage in aggregate principal amount of such Outstanding Notes of any particular Series, the consent of whose Holders is required for any such supplemental indenture, or the consent of whose Holders is required for any waiver (of compliance with certain provisions of the applicable Indenture or certain defaults thereunder and their consequences) provided for in the applicable Indenture; or (c) change any obligation of Northern Rock to maintain an office or agency in the places and for the purposes specified in the applicable Indenture; or (d) modify certain of the provisions of the applicable Indenture pertaining to the waiver by Holders of such Notes of past defaults, supplemental indentures with the consent of Holders of such Notes and the waiver by Holders of such Notes of certain covenants, except to increase any specified percentage in aggregate principal amount required for any actions by Holders of Notes or to provide that certain other provisions of the applicable Indenture cannot be modified or waived without the consent of the Holder of each such Note affected thereby; or (e) in the case of the Subordinated Notes, change in any manner adverse to the interests of the Holders of such Outstanding Subordinated Notes the subordination provisions of such Subordinated Notes. The provisions of the Subordinated Indenture relating to maturity, redemption, repayment, events of default and subordination of the Subordinated Notes shall not be capable of modification by any Supplemental Indenture other than with the prior written consent of the FSA or for the purpose of correcting a manifest error.

Notes authenticated and delivered after the execution of any amendment to the Indentures or Notes may bear notation as to any matter provided by such amendment.

New Notes, so modified to conform, in the opinion of Northern Rock, to any modification contained in any such amendment may be prepared by Northern Rock, authenticated and delivered in exchange for the Notes then outstanding.

Waivers

The Holders of not less than a majority in aggregate principal amount of the Outstanding Notes of each Series of Notes issued under the applicable Indenture and affected thereby, may on behalf of the Holders of all such Notes waive compliance by Northern Rock with certain restrictive provisions of the applicable Indenture as pertain to the corporate existence of Northern Rock, the maintenance of certain agencies by Northern Rock or, solely with respect to Senior Notes, as pertain to the negative pledge covenant as described under "Negative Pledge" above.

The Holders of a majority in aggregate principal amount of the Outstanding Notes of a Series issued under the applicable Indenture may waive on behalf of the Holders of all such Notes of such Series, any past default and its consequences under the applicable Indenture, except a default in the payment of the principal of (or premium, if any, on) or interest, if any, on any such Note of that Series or a default in respect of a covenant or a provision which under the applicable Indenture

cannot be modified or amended without the consent of the Holder of each Outstanding Note of such a Series.

Notices

Notices to Holders of Notes in registered form will be given by mail to the addresses of such Holders as they appear in the Note Register. For so long as the Notes are listed on the Euro MTF and the rules of the Luxembourg Stock Exchange so require, notices shall also be published in a leading newspaper of general circulation in Luxembourg (which is expected to be *d'Wort*); *provided that* for so long as the Notes are held in registered global form and if the rules of the Luxembourg Stock Exchange would so permit, notifications may be made either through DTC, Euroclear and Clearstream, Luxembourg or by mail to the address of such Holders as they appear in the Note Register with a copy of the Luxembourg Stock Exchange in place of publication in a newspaper as described above.

Title

Northern Rock, the Trustees and any agent of Northern Rock or the Trustees may treat the registered owner of any Note in registered form as the absolute owner thereof (whether or not such security shall be overdue and notwithstanding any notice to the contrary) for the purpose of making payment and for all other purposes.

Governing Law

The Senior Indenture and the Senior Notes will be governed by and construed in accordance with the laws of the State of New York.

The Subordinated Indenture and the Subordinated Notes will be governed by and construed in accordance with the laws of the State of New York, except that the subordination provisions of the Subordinated Indenture and Subordinated Notes will be governed by and construed in accordance with the laws of England and Wales.

Consent to Service

Northern Rock has designated and appointed CT Corporation System at 111 Eighth Avenue, in the Borough of Manhattan, New York City, New York, 10011 as its authorized agent upon which process may be served in any suit or proceeding arising out of or relating to the applicable Notes or Indenture which may be instituted in any State or Federal court located in the Borough of Manhattan, City of New York, State of New York, and has submitted (for the purposes or any such suit or proceeding) to the jurisdiction of any such court in which any such suit or proceeding is so instituted. Northern Rock has agreed, to the fullest extent that it lawfully may do so, that final judgment in any such suit, action or proceeding brought in such a court shall be conclusive and binding upon it and may be enforced in the courts of England and Wales (or any other courts to the jurisdiction of which it is subject).

Notwithstanding the foregoing, any actions arising out of or relating to the applicable Notes or Indenture may be instituted by Northern Rock, the Trustees or the Holder of any Note in any competent court in England and Wales or such other competent jurisdiction, as the case may be.

Concerning the Senior Trustee

The Senior Indenture provides that, except during the continuance of an Event of Default, the Senior Trustee will have no obligations other than the performance of such duties as are specifically set forth in such Senior Indenture. If an Event of Default has occurred and is continuing, the Senior Trustee will use the same degree of care and skill in its exercise of the rights and powers vested in it by the Senior Indenture as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

Concerning the Subordinated Trustee

The Subordinated Indenture provides that, except during the continuance of an Event of Default, the Subordinated Trustee will have no obligations other than the performance of such duties as are specifically set forth in such Subordinated Indenture. If an Event of Default has occurred and is

continuing, the Subordinated Trustee will use the same degree of care and skill in its exercise of the rights and powers vested in it by the Subordinated Indenture as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

Book-Entry System

DTC will act as securities depositary for the Global Notes representing Senior Notes and for Global Receipts representing Subordinated Notes. Unless otherwise specified, the Global Notes representing Senior Notes and the Global Receipts representing Subordinated Notes will be issued as fully-registered securities registered in the name of Cede (DTC's partnership nominee).

Northern Rock understands that DTC is a limited-purpose trust company organized under the laws of the State of New York, a "Banking Organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that its participants ("**Participants**") deposit with DTC. DTC also facilitates the clearance and settlement among Participants of transactions in such securities through electronic book-entry changes in Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants ("**Direct Participants**") include securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc., the American Stock Exchange, Inc., and the National Association of Securities Dealers, Inc. Access to DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("**Indirect Participants**"). The rules applicable to DTC and its Participants are on file with the Securities and Exchange Commission.

Purchases of Global Notes or Global Receipts under DTC's system must be made by or through Direct Participants, which will receive a credit for the Global Notes or Global Receipts on DTC's records. The ownership interest of each actual purchaser of each Global Note or Global Receipt is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transactions, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the beneficial owner entered into the transaction. Transfers of ownership interests in the Global Notes or Global Receipts are to be accomplished by entries made on the books of Participants acting on behalf of the beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in Global Notes or Global Receipts, except in the event that use of the book-entry system for one or more Global Notes or Global Receipts is discontinued.

To facilitate subsequent transfers, all Global Notes and Global Receipts deposited by Participants with DTC are registered in the name of DTC's partnership nominee, Cede. The deposit of Global Notes and Global Receipts with DTC and their registration in the name of Cede effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the Global Notes or Global Receipts; DTC's records reflect only the identity of the Direct Participants to whose accounts such Global Notes or Global Receipts are credited, which may or may not be the beneficial owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to Cede. If less than all of the Notes and Global Receipts within a Series are being redeemed, DTC's current practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede will consent or vote with respect to Notes. Under its usual procedures, DTC will mail an "Omnibus Proxy" to Northern Rock as soon as possible after the record date. The Omnibus Proxy assigns Cede's consenting or voting rights to those Direct Participants to whose

accounts the Notes are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the Global Notes and Global Receipts will be made to DTC. DTC's practice is to credit Direct Participants' accounts on the payable date in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on the payable date. Payments by Participants to beneficial owners will be governed by standing instructions and customary practices, as in the case of securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, or Northern Rock, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of Northern Rock, disbursement of such payments to Direct Participants shall be the responsibility of DTC, and disbursement of such payments to the beneficial owners shall be the responsibility of Direct and Indirect Participants.

A beneficial owner shall give notice to elect to have its Global Notes or Global Receipts purchased or tendered, through its Participant, to the applicable Trustee for a Series of Notes, and shall effect delivery of such Global Notes or Global Receipts by causing the Direct Participant to transfer the Participant's interest in the Global Notes or Global Receipts, on DTC's records, to such Trustee. The requirement for physical delivery of Global Notes or Global Receipts in connection with a demand for purchase or a mandatory purchase will be deemed satisfied when the ownership rights in the Global Notes or Global Receipts are transferred by a Direct Participant on DTC's records.

DTC may discontinue providing its services as securities depositary with respect to the Global Notes and Global Receipts at any time by giving reasonable notice to Northern Rock and the Dealers. Under such circumstances, in the event that a successor securities depository is not obtained, Certificated Notes will be printed and delivered in exchange for the Global Notes and Global Receipts.

Northern Rock may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, registered or book entry Certificated Notes will be printed and delivered in exchange for the Global Notes and Global Receipts represented by the Global Securities held by DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that Northern Rock believes to be reliable, but Northern Rock takes no responsibility for the accuracy thereof.

None of Northern Rock, any Trustee, any Paying Agent, any registrar for the Notes or any Dealer will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a Global Note or Global Receipt or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

DTC

DTC has advised us as follows:

- DTC is:
  - a limited-purpose trust company organized under the laws of the State of New York, which is a wholly-owned subsidiary of Depository Trust and Clearing Company, owned in turn by the principal users of DTC, consisting primarily of banks, broker-dealers and other financial institutions, including the initial purchasers of the notes,
  - a member of the Federal Reserve System,
  - a "clearing corporation" within the meaning of the Uniform Commercial Code, and
  - a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act.
  - DTC was created to hold securities for its participants and to facilitate the clearance and settlement of securities transactions, including transfers and pledges, in deposited securities between its participants through electronic book-entry changes to the accounts of its participants. This eliminates the need for physical movement of certificates.

- Participants in DTC include securities brokers and dealers, banks, trust companies and clearing corporations and may include certain other organizations. DTC is partially owned by some of these participants or their representatives.
- Indirect access to the DTC system is also available to banks, brokers, dealers and trust companies that have relationships with participants.
- The rules applicable to DTC and DTC participants are on file with the SEC.

Clearstream, Luxembourg

Clearstream, Luxembourg has advised us as follows:

- Clearstream, Luxembourg is a duly licensed bank organized as a société anonyme incorporated under the laws of Luxembourg and is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector (*Commission de Surveillance du Secteur Financier*). Clearstream, Luxembourg is owned by Deutsche Borse AG. The shareholders of Deutsche Borse AG are banks, securities dealers and financial institutions.
- Clearstream, Luxembourg holds securities for its customers and facilitates the clearance and settlement of securities transactions among them. It does so through electronic book-entry changes to the accounts of its customers. This eliminates the need for physical movement of certificates.
- Clearstream, Luxembourg provides other services to its participants, including safekeeping, administration, clearance and settlement of internationally traded securities, lending and borrowing of securities and collateral management. It interfaces with the domestic markets in over 30 countries through established depositary and custodial relationships.
- Clearstream, Luxembourg's customers include worldwide securities brokers and dealers, banks, trust companies and clearing corporations and may include professional financial intermediaries. Its US customers are limited to securities brokers and dealers and banks.
- Indirect access to the Clearstream, Luxembourg system is also available to others that clear through Clearstream, Luxembourg customers or that have custodial relationships with its customers, such as banks, brokers, dealers and trust companies.
- Clearstream, Luxembourg is an indirect participant in DTC.
- Clearstream, Luxembourg has established an electronic bridge with Euroclear to facilitate settlement of trades between Clearstream, Luxembourg and Euroclear.
- Distributions with respect to the notes held beneficially through Clearstream, Luxembourg will be credited to cash accounts of Clearstream, Luxembourg customers in accordance with its rules and procedures, to the extent received by Clearstream, Luxembourg.

Euroclear

Euroclear has advised us as follows:

- Euroclear is incorporated under the laws of Belgium as a bank and is subject to regulation by the Belgian Banking and Finance Commission (*Commission Bancaire et Financiere*) and the National Bank of Belgium (*Banque Nationale de Belgique*). The Euroclear system is owned by Euroclear Clearance System Public Limited Company (ECS plc) and operated through a license agreement by Euroclear.
- Securities clearance accounts and cash accounts with Euroclear are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of Euroclear, and applicable Belgian law. These terms and conditions and operating procedures govern transfer of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipt of payments with respect to securities in Euroclear. Euroclear acts under these terms and conditions and operating procedures only on behalf of Euroclear participants and has no record of or relationship with persons holding through Euroclear accounts.
- Euroclear holds securities for its customers and facilitates the clearance and settlement of securities transactions among them. It does so through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates.

- Euroclear provides other services to its customers, including credit custody, lending and borrowing of securities and tri-party collateral management. It interfaces with the domestic markets of several other countries.
- Euroclear customers include banks, central banks, securities brokers and dealers, trust companies and clearing corporations and may include certain other professional financial intermediaries.
- Euroclear is an indirect participant in DTC.
- Indirect access to the Euroclear system is also available to others that clear through Euroclear customers or that maintain a custodial relationship with a Euroclear participant, either directly or indirectly.
- All securities in Euroclear are held on a fungible basis. This means that specific certificates are not matched to specific securities clearance accounts.

Circular 230 Legend

The following discussion of United States federal income tax matters and any other discussions of United States federal income tax matters contained elsewhere in this Offering Circular or the applicable Final Terms or Pricing Supplement, as the case may be, (a) were not intended or written to be legal or tax advice to any person and were not intended or written to be used, and they cannot be used, by any person for the purpose of avoiding any tax-related penalties that may be imposed on such person, and (b) were written in connection with the promotion or marketing of the Notes pursuant to the Program by Northern Rock and the Dealers. Each person considering an investment in the Notes pursuant to the Program should seek advice based on its particular circumstances from an independent tax advisor.

Notwithstanding anything to the contrary contained herein, each prospective investor (and each employee, representative, or other agent of each prospective investor) may disclose to any and all persons, without limitation of any kind, the tax treatment and tax structure of the transactions described in this Offering Circular or the applicable Final Terms or Pricing Supplement, as the case may be, and all materials of any kind that are provided to the prospective investor relating to such tax treatment and tax structure (as such terms are defined in Treasury Regulation Section 1.6011-4). This authorization of tax disclosure is retroactively effective to the commencement of discussions between Northern Rock, the Dealers or their representatives and each prospective investor regarding the transactions contemplated herein.

Certain United States Federal Income Tax Considerations

The following summary of certain United States federal income tax consequences of the purchase, ownership and disposition of the Notes is based upon the US Internal Revenue Code of 1986, as amended (the "**Code**"), regulations, rulings and decisions now in effect, all of which are subject to change (including changes in effective dates) or possible differing interpretations. It deals only with Notes held as capital assets and does not purport to deal with persons in special tax situations, such as financial institutions, insurance companies, real estate investment trusts, tax-exempt entities or persons holding Notes in a tax-deferred or tax-advantaged account, persons liable for alternative minimum tax, regulated investment companies, dealers in securities or currencies, traders in securities that elect to use a mark to market method of accounting, partnerships or other pass-through entities for United States federal income tax purposes, persons holding Notes as part of a hedging, integrated, conversion or constructive sale transaction, or as a position in a "straddle" for tax purposes, or United States persons whose functional currency is not the United States dollar. It also does not deal with holders other than original purchasers (except where otherwise specifically noted). Any special United States federal income tax considerations relevant to a particular issue of the Notes, such as Indexed Notes and Amortizing Notes, will be provided in the applicable Final Terms or Pricing Supplement, as the case may be. If a partnership holds our Notes, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding our Notes, you should consult your tax advisors.

This summary deals only with the United States federal income tax consequences of the purchase, ownership, and disposition of Senior Notes and Dated Subordinated Notes, in each case, which mature 30 years or less after their issue date. The United States federal income tax consequences of the purchase, ownership, and disposition of Perpetual Subordinated Notes will be discussed in the applicable Final Terms or Pricing Supplement, as the case may be.

Persons considering the purchase of the Notes should consult their own tax advisors concerning the application of United States federal income tax laws to their particular situations as well as any consequences of the purchase, ownership and disposition of the Notes arising under the laws of any other taxing jurisdiction.

As used herein, the term "**US Holder**" means a beneficial owner of a Note that is for United States federal income tax purposes (i) a citizen or resident of the United States, (ii) a corporation (or entity treated as a corporation for United States federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia, (iii) an estate the income of which is subject to United States federal income tax regardless of its source, (iv) a trust

(A) if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust or (B) that has a valid election in effect under applicable US Treasury regulations to be treated as a United States person, or (v) any other person whose income or gain in respect of a Note is effectively connected with the conduct of a United States trade or business. The term "non-US Holder" means a beneficial owner of a Note (other than a partnership) that is not a US Holder.

US Holders

Payments of Interest. Except as set forth below, payments of interest on a Note generally will be taxable to a US Holder as ordinary interest income at the time such payments are accrued or are received (in accordance with the US Holder's regular method of tax accounting). Interest income and original issue discount (as defined below) on a Note generally will constitute foreign source income and generally will be considered "passive income" or "financial services income" if paid in taxable years beginning before January 1, 2007, and "passive income" or "general income" in taxable years beginning after December 31, 2006, for purposes of computing the foreign tax credit. A US Holder will generally be denied a foreign tax credit for foreign taxes imposed with respect to the Notes where the holder does not meet a minimum holding period requirement during which they are not protected from risk of loss. The rules governing the foreign tax credit are complex. Holders are urged to consult their tax advisors regarding the availability of the foreign tax credit under their particular circumstances.

Original Issue Discount. The following summary is a general discussion of the United States federal income tax consequences to US Holders of the purchase, ownership and disposition of Notes issued with original issue discount for United States federal income tax purposes ("**Original Issue Discount Notes**"). The following summary is based upon final Treasury regulations (the "**OID Regulations**") under the original issue discount provisions of the Code.

For United States federal income tax purposes, original issue discount is the excess of the stated redemption price at maturity of a Note over its issue price, if such excess equals or exceeds a *de minimis* amount (generally $^1/_4$ of 1% of the Note's stated redemption price at maturity multiplied by the number of complete years to its maturity from its issue date or, in the case of a Note providing for the payment of any amount other than qualified stated interest (as defined below) prior to maturity, multiplied by the weighted average maturity of such Note). The issue price of each Note in an issue of Notes equals the first price at which a substantial amount of such Notes has been sold (ignoring sales to bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, dealers, or wholesalers). The stated redemption price at maturity of a Note is the sum of all payments provided by the Note other than "qualified stated interest" payments. The term "**qualified stated interest**" generally means stated interest that is unconditionally payable in cash or property (other than debt instruments of the issuer) at least annually, is payable over the entire term of the Note, and is payable at a single fixed rate or, subject to certain conditions, based on one or more indicies. In addition, under the OID Regulations, if a Note bears interest for one or more accrual periods at a rate below the rate applicable for the remaining term of such Note (*e.g.*, Notes with teaser rates or interest holidays), and if the greater of either the resulting foregone interest on such Note or any "true" discount on such Note (*i.e.*, the excess of the Note's stated principal amount over its issue price) equals or exceeds a specified *de minimis* amount; then the stated interest on the Note would be treated as original issue discount rather than qualified stated interest.

In the case of a Note issued with *de minimis* original issue discount, the US Holder generally must include such *de minimis* original issue discount in income as stated principal payments on the Notes are made in proportion to the stated principal amount of the Note. Any amount of *de minimis* original issue discount that has been included in income shall be treated as capital gain upon the sale, exchange, or retirement of the Note. Payments of qualified stated interest on a Note are taxable to a US Holder as ordinary interest income at the time such payments are accrued or are received (in accordance with the US Holder's regular method of tax accounting). A US Holder of an Original Issue Discount Note must include original issue discount in income as ordinary interest income for United States federal income tax purposes as it accrues under a constant yield method in advance of receipt of the cash payments attributable to such income, regardless of such US Holder's regular method of tax accounting. In general, the amount of original issue discount included in income by the

initial US Holder of an Original Issue Discount Note is the sum of the daily portions of original issue discount with respect to such Original Issue Discount Note for each day during the taxable year (or portion of the taxable year) on which such US Holder held such Original Issue Discount Note. The "daily portion" of original issue discount on any Original Issue Discount Note is determined by allocating to each day in any accrual period a ratable portion of the original issue discount allocable to that accrual period. An "**accrual period**" may be of any length and the accrual periods may vary in length over the term of the Original Issue Discount Note, provided that each accrual period is no longer than one year and each scheduled payment of principal or interest occurs either on the final day of an accrual period or on the first day of an accrual period. The amount of original issue discount allocable to each accrual period is generally equal to the difference between (i) the product of the Original Issue Discount Note's adjusted issue price at the beginning of such accrual period and its yield to maturity (determined on the basis of compounding at the close of each accrual period and appropriately adjusted to take into account the length of the particular accrual period) and (ii) the amount of any qualified stated interest payments allocable to such accrual period. Original issue discount allocable to a final accrual period is the difference between the amount payable at maturity (other than a payment of qualified stated interest) and the adjusted issue price at the beginning of the final accrual period. Special rules apply for calculating original issue discount for an initial short accrual period. The "adjusted issue price" of an Original Issue Discount Note at the beginning of any accrual period is the sum of the issue price of the Original Issue Discount Note plus the amount of original issue discount allocable to all prior accrual periods minus the amount of any prior payments on the Original Issue Discount Note that were not qualified stated interest payments. Under these rules, US Holders generally will have to include in income increasingly greater amounts of original issue discount in successive accrual periods.

A US Holder that purchases an Original Issue Discount Note for an amount that is greater than its adjusted issue price as of the purchase date and less than or equal to the sum of all amounts payable on the Original Issue Discount Note after the purchase date other than payments of qualified stated interest, will be considered to have purchased the Original Issue Discount Note at an "acquisition premium." Under the acquisition premium rules, the amount of original issue discount which such US Holder must include in its gross income with respect to such Original Issue Discount Note for any taxable year (or portion thereof in which the US Holder holds the Original Issue Discount Note) will be reduced (but not below zero) by the portion of the acquisition premium properly allocable to the period.

Under the OID Regulations, Floating Rate Notes ("**Variable Notes**") are subject to special rules whereby a Variable Note will qualify as a "variable rate debt instrument" if (a) its issue price does not exceed the total noncontingent principal payments due under the Variable Note by more than a specified *de minimis* amount and (b) it provides for stated interest, paid or compounded at least annually, at current values of (i) one or more qualified floating rates, (ii) a single fixed rate and one or more qualified floating rates, (iii) a single objective rate, or (iv) a single fixed rate and a single objective rate that is a qualified inverse floating rate.

A "**qualified floating rate**" is any variable rate where variations in the value of such rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the Variable Note is denominated. Although a multiple of a qualified floating rate will generally not itself constitute a qualified floating rate, a variable rate equal to the product of a qualified floating rate and a fixed multiple that is greater than .65 but not more than 1.35 will constitute a qualified floating rate. A variable rate equal to the product of a qualified floating rate and a fixed multiple that is greater than .65 but not more than 1.35, increased or decreased by a fixed rate, will also constitute a qualified floating rate. In addition, under the OID Regulations, two or more qualified floating rates that can reasonably be expected to have approximately the same values throughout the term of the Variable Note (*e.g.*, two or more qualified floating rates with values within 25 basis points of each other as determined on the Variable Note's issue date) will be treated as a single qualified floating rate. Notwithstanding the foregoing, a variable rate that would otherwise constitute a qualified floating rate but which is subject to one or more restrictions such as a maximum numerical limitation (*i.e.*, a cap) or a minimum numerical limitation (*i.e.*, a floor) may, under certain circumstances, fail to be treated as a qualified floating rate under the OID Regulations unless such cap or floor is fixed throughout the term of the Note. An "**objective rate**" is a rate that is not itself a qualified floating rate but which is determined using a single fixed formula and that is based on

objective financial or economic information. A rate will not qualify as an objective rate if it is based on information that is within the control of the issuer (or a related party) or that is unique to the circumstances of the issuer (or a related party), such as dividends, profits, or the value of the issuer's stock (although a rate does not fail to be an objective rate merely because it is based on the credit quality of the issuer). A "**qualified inverse floating rate**" is any objective rate where such rate is equal to a fixed rate minus a qualified floating rate, as long as variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate. The OID Regulations also provide that if a Variable Note provides for stated interest at a fixed rate for an initial period of one year or less followed by a variable rate that is either a qualified floating rate or an objective rate and if the variable rate on the Variable Note's issue date is intended to approximate the fixed rate (*e.g.*, the value of the variable rate on the issue date does not differ from the value of the fixed rate by more than 25 basis points), then the fixed rate and the variable rate together will constitute either a single qualified floating rate or objective rate, as the case may be.

If a Variable Note that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof qualifies as a "variable rate debt instrument" under the OID Regulations and if the interest on such Variable Note is unconditionally payable in cash or property (other than debt instruments of the issuer) at least annually, then all stated interest on the Variable Note will constitute qualified stated interest and will be taxed accordingly. Thus, a Variable Note that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof and that qualifies as a "variable rate debt instrument" under the OID Regulations will generally not be treated as having been issued with original issue discount unless the Variable Note is issued at a "true" discount (*i.e.*, at a price below the Note's stated principal amount) in excess of a specified *de minimis* amount. The amount of qualified stated interest and the amount of original issue discount, if any, that accrues during an accrual period on such a Variable Note is determined under the rules applicable to fixed rate debt instruments by assuming that the variable rate is a fixed rate equal to (i) in the case of a qualified floating rate or qualified inverse floating rate, the value, as of the issue date, of the qualified floating rate or qualified inverse floating rate, or (ii) in the case of an objective rate (other than a qualified inverse floating rate), a fixed rate that reflects the yield that is reasonably expected for the Variable Note. The qualified stated interest allocable to an accrual period is increased (or decreased) if the interest actually paid during an accrual period exceeds (or is less than) the interest assumed to be paid during the accrual period pursuant to the foregoing rules.

In general, any other Variable Note that qualifies as a "variable rate debt instrument" will be converted into an "equivalent" fixed rate debt instrument for purposes of determining the amount and accrual of original issue discount and qualified stated interest on the Variable Note. The OID Regulations generally require that such a Variable Note be converted into an "equivalent" fixed rate debt instrument by substituting any qualified floating rate or qualified inverse floating rate provided for under the terms of the Variable Note with a fixed rate equal to the value of the qualified floating rate or qualified inverse floating rate, as the case may be, as of the Variable Note's issue date. Any objective rate (other than a qualified inverse floating rate) provided for under the terms of the Variable Note is converted into a fixed rate that reflects the yield that is reasonably expected for the Variable Note. In the case of a Variable Note that qualifies as a "variable rate debt instrument" and provides for stated interest at a fixed rate in addition to either one or more qualified floating rates or a qualified inverse floating rate, the fixed rate is initially converted into a qualified floating rate (or a qualified inverse floating rate, if the Variable Note provides for a qualified inverse floating rate). Under such circumstances, the qualified floating rate or qualified inverse floating rate that replaces the fixed rate must be such that the fair market value of the Variable Note as of the Variable Note's issue date is approximately the same as the fair market value of an otherwise identical debt instrument that provides for either the qualified floating rate or qualified inverse floating rate rather than the fixed rate. Subsequent to converting the fixed rate into either a qualified floating rate or a qualified inverse floating rate, the Variable Note is then converted into an "equivalent" fixed rate debt instrument in the manner described above.

Once the Variable Note is converted into an "equivalent" fixed rate debt instrument pursuant to the foregoing rules, the amount of original issue discount and qualified stated interest, if any, are determined for the "equivalent" fixed rate debt instrument by applying the general original issue discount rules to the "equivalent" fixed rate debt instrument and a US Holder of the Variable Note

will account for such original issue discount and qualified stated interest as if the US Holder held the "equivalent" fixed rate debt instrument. Each accrual period appropriate adjustments will be made to the amount of qualified stated interest or original issue discount assumed to have been accrued or paid with respect to the "equivalent" fixed rate debt instrument in the event that such amounts differ from the actual amount of interest accrued or paid on the Variable Note during the accrual period.

If a Variable Note does not qualify as a "variable rate debt instrument" under the OID Regulations, then the Variable Note would be treated as a contingent payment debt instrument. On June 11, 1996, the Treasury Department issued final regulations (the "**CPDI Regulations**") concerning the proper United States federal income tax treatment of contingent payment debt instruments. In general, the CPDI Regulations would cause the timing and character of income, gain or loss reported on a contingent payment debt instrument to substantially differ from the timing and character of income, gain or loss reported on a conventional noncontingent payment debt instrument under current United States federal income tax law. Specifically, the CPDI Regulations generally require a US Holder of such an instrument to include future contingent and noncontingent interest payments in income as such interest accrues based upon a projected payment schedule. Moreover, in general, under the CPDI Regulations, any gain recognized by a US Holder on the sale, exchange, or retirement of a contingent payment debt instrument will be treated as ordinary income and all or a portion of any loss realized could be treated as ordinary loss as opposed to capital loss (depending upon the circumstances). The CPDI Regulations apply to debt instruments issued on or after August 13, 1996. The proper United States federal income tax treatment of Variable Notes that are treated as contingent payment debt instruments will be more fully described in the applicable Final Terms or Pricing Supplement, as the case may be. Furthermore, any other special United States federal income tax considerations, not otherwise discussed herein, which are applicable to any particular issue of Notes will be discussed in the applicable Final Terms or Pricing Supplement, as the case may be.

Certain of the Notes (i) may be redeemable at the option of Northern Rock prior to their stated maturity (a "**call option**") and/or (ii) may be repayable by Northern Rock at the option of the holder prior to their stated maturity (a "**put option**"). Notes containing such features may be subject to rules that differ from the general rules discussed above. Investors intending to purchase Notes with such features should consult their own tax advisors, since the original issue discount consequences will depend, in part, on the particular terms and features of the purchased Notes.

US Holders may generally, upon election, include in income all interest (including stated interest, acquisition discount, original issue discount, *de minimis* original issue discount, market discount, *de minimis* market discount, and unstated interest, as adjusted by any amortizable bond premium or acquisition premium) that accrues on a debt instrument by using the constant yield method applicable to original issue discount, subject to certain limitations and exceptions. This election will generally apply only to the debt instrument with respect to which it is made and may be revoked only with the consent of the the Internal Revenue Service ("**IRS**").

Short-Term Notes. Notes that have a fixed maturity of one year or less ("**Short-Term Notes**") will be treated as having been issued with original issue discount. Under the OID Regulations, all payments (including all stated interest) will be included in the stated redemption price at maturity, and thus, US Holders will generally be taxable on the discount in lieu of stated interest. The discount will be equal to the excess of the stated redemption price at maturity over the issue price of a Short-Term Note, unless the US Holder elects to compute this discount using tax basis instead of issue price. In general, an individual or other cash method US Holder is not required to accrue such original issue discount unless the US Holder elects to do so. If such an election is not made, any gain recognized by the US Holder on the sale, exchange or maturity of the Short-Term Note will be ordinary income to the extent of the original issue discount accrued on a straight-line basis, or upon election under the constant yield method (based on daily compounding), through the date of sale or maturity. In addition, a US Holder that does not elect to include currently accrued discount in income may be required to defer deductions for a portion of the US Holder's interest expense with respect to any indebtedness incurred or continued to purchase or carry such Notes. US Holders who report income for United States federal income tax purposes under the accrual method, and certain other holders including banks and dealers in securities, are required to accrue original issue discount on a Short-Term Note on a straight-line basis unless an election is made to accrue the original issue discount under a constant yield method (based on daily compounding).

Market Discount. If a US Holder purchases a Note, other than an Original Issue Discount Note, for an amount that is less than its issue price (or, in the case of a subsequent purchaser, its stated redemption price at maturity) or, in the case of an Original Issue Discount Note, for an amount that is less than its "revised issue price" as of the purchase date, such US Holder will be treated as having purchased such Note at a "market discount," unless such market discount is less than a specified *de minimis* amount.

Under the market discount rules, a US Holder will be required to treat any principal payment (or, in the case of an Original Issue Discount Note, any payment that does not constitute qualified stated interest) on, or any gain realized on the sale, exchange, retirement or other disposition of, a Note as ordinary income to the extent of the lesser of (i) the amount of such payment or realized gain or (ii) the market discount which has not previously been included in income and is treated as having accrued on such Note at the time of such payment or disposition. Market discount will be considered to accrue ratably during the period from the date of acquisition to the maturity date of the Note, unless the US Holder elects to accrue market discount under a constant yield method.

A US Holder may be required to defer the deduction of all or a portion of the interest paid or accrued on any indebtedness incurred or maintained to purchase or carry a Note with market discount until the maturity of the Note or certain earlier dispositions, because a current deduction is only allowed to the extent the interest expense exceeds an allocable portion of market discount. A US Holder may elect to include market discount in income currently as it accrues (under either a ratable or a constant yield method), in which case the rules described above regarding the treatment as ordinary income of gain upon the disposition of the Note and upon the receipt of certain cash payments and regarding the deferral of interest deductions will not apply. Generally, such currently included market discount is treated as ordinary interest income for United States federal income tax purposes. Such an election will apply to all debt instruments acquired by the US Holder on or after the first day of the first taxable year to which such election applies and may be revoked only with the consent of the IRS.

Premium. If a US Holder purchases a Note for an amount that is greater than the sum of all amounts payable on the Note after the purchase date other than payments of qualified stated interest, such US Holder will be considered to have purchased the Note with "amortizable bond premium" equal in amount to such excess and will not be required to include any original issue discount in income. In the case of instruments that provide for alternative payment schedules, bond premium is calculated by assuming that (i) the holder will exercise or not exercise options in a manner that maximizes the holder's yield and (ii) the issuer will exercise or not exercise options in a manner that minimizes the holder's yield except with respect to call options for which the issuer is assumed to exercise such call options in a manner that maximizes the holder's yield. A US Holder may elect to amortize such premium using a constant yield method over the remaining term of the Note and may offset interest otherwise required to be included in respect of the Note during any taxable year by the amortized amount of such excess for the taxable year. Bond premium on a Note held by a US Holder that does not make such an election will decrease the gain or increase the loss otherwise recognized on disposition of the Note. However, if the Note may be optionally redeemed after the US Holder acquires it at a price in excess of its stated redemption price at maturity, special rules would apply which could result in a deferral of the amortization of some bond premium until later in the term of the Note. Any election to amortize bond premium applies to all taxable debt instruments held by the US Holder on or after the first day of the first taxable year to which such election applies and may be revoked only with the consent of the IRS.

Disposition of a Note. Except as discussed above, upon the sale, exchange or retirement of a Note, a US Holder generally will recognize taxable gain or loss equal to the difference between the amount realized on the sale, exchange or retirement (other than amounts representing accrued and unpaid interest, which will be taxable as ordinary income) and such US Holder's adjusted tax basis in the Note. A US Holder's adjusted tax basis in a Note generally will equal such US Holder's initial investment in the Note increased by any original issue discount included in income (and accrued market discount, if any, if the US Holder has included such market discount in income) and decreased by the amount of any payments, other than qualified stated interest payments, received and amortizable bond premium taken with respect to such Note. Except with respect to Short-Term Notes as described above, with respect to gain or loss attributable to changes in exchange rates as described below or with respect to market discount described above, such gain or loss will be capital gain or

loss, will be US source and will be long-term capital gain or loss if the Note was held for more than one year. Non-corporate taxpayers are subject to reduced maximum rates of taxation on long-term capital gain and are generally subject to tax at ordinary income rates on short-term capital gain. The deductibility of capital losses is subject to certain limitations. Prospective investors should consult their own tax advisors concerning these tax law provisions.

Notes Denominated or on which Interest is Payable in a Foreign Currency

As used herein, "**Foreign Currency**" means a currency other than US dollars.

Payments of Interest in a Foreign Currency. Cash Method. A US Holder who uses the cash method of accounting for United States federal income tax purposes and who receives a payment of interest on a Note (other than original issue discount or market discount) will be required to include in income the US dollar value of the Foreign Currency payment (determined at the spot rate on the date such payment is received) regardless of whether the payment is in fact converted to US dollars at that time, and such US dollar value will be the US Holder's tax basis in such Foreign Currency. No exchange gain or loss will be recognized with respect to the receipt of such payment.

Accrual Method. A US Holder who uses the accrual method of accounting for United States federal income tax purposes, or who otherwise is required to accrue interest prior to receipt, will be required to include in income the US dollar value of the amount of interest income (including original issue discount or market discount and reduced by amortizable bond premium to the extent applicable) that has accrued and is otherwise required to be taken into account with respect to a Note during an accrual period. The US dollar value of such accrued income will be determined by translating such income at the average rate of exchange for the accrual period or, with respect to an accrual period that spans two taxable years, at the average rate for the partial period within the taxable year. A US Holder may elect, however, to translate such accrued interest income using the rate of exchange on the last day of the accrual period or, with respect to an accrual period that spans two taxable years, using the spot rate on the last day of the taxable year. If the last day of an accrual period is within five business days of the date of receipt of the accrued interest, a US Holder may translate such interest using the spot rate on the date of receipt. The above election will apply to other debt obligations held by the US Holder and may not be changed without the consent of the IRS. A US Holder should consult a tax advisor before making the above election. A US Holder will recognize exchange gain or loss (which will be treated as ordinary income or loss) with respect to accrued interest income on the date such income is received. The amount of ordinary income or loss recognized will equal the difference, if any, between the US dollar value of the Foreign Currency payment received (determined on the date such payment is received) in respect of such accrual period and the US dollar value of interest income that has accrued during such accrual period (as determined above).

Purchase, Sale and Retirement of Notes. A US Holder who purchases a Note with previously owned Foreign Currency will recognize ordinary income or loss in an amount equal to the difference, if any, between such US Holder's tax basis in the Foreign Currency and the US dollar fair market value of the Foreign Currency used to purchase the Note, determined on the date of purchase.

For purposes of determining the amount of any gain or loss recognized by a US Holder on the sale, exchange, retirement or other disposition of a Note that is denominated in a Foreign Currency, the amount realized will be based on the US dollar value of the Foreign Currency on the date the payment is received or the Note is disposed of (or deemed disposed of as a result of a material change in the terms of the Note). To the extent the amount realized upon the disposition of a Note represents accrued but unpaid interest, however, such amounts must be taken into account as interest income, with exchange gain or loss computed as described in "– Payments of Interest in a Foreign Currency" above. In the case of a Note that is denominated in Foreign Currency and is traded on an established securities market, a cash basis US Holder (or, upon election, an accrual basis US Holder) will determine the US dollar value of the amount realized by translating the Foreign Currency payment at the spot rate of exchange on the settlement date of the sale. A US Holder's adjusted tax basis in a Note will equal the cost of the Note to such holder, increased by the amounts of any market discount or original issue discount previously included in income by the holder with respect to such Note and reduced by any amortized premium and any payments other than qualified stated interest received by the holder. A US Holder's tax basis in a Note, and the amount of any subsequent adjustments to such holder's tax basis, will be the US dollar value of the Foreign Currency amount

paid for such Note, or of the Foreign Currency amount of the adjustment, determined on the date of such purchase or adjustment.

Gain or loss realized upon the sale, exchange or retirement of a Note that is attributable to fluctuations in currency exchange rates will be ordinary income or loss which will not be treated as interest income or expense. Such gain or loss generally will be US source gain or loss. Gain or loss attributable to fluctuations in exchange rates will equal the difference between the US dollar value of the Foreign Currency principal amount of the Note, generally determined on the date such payment is received or the Note is disposed of, and the US dollar value of the Foreign Currency principal amount of the Note, determined on the date the US Holder acquired the Note. Such Foreign Currency gain or loss will be recognized only to the extent of the total gain or loss realized by the US Holder on the sale, exchange or retirement of the Note.

Original Issue Discount. In the case of an Original Issue Discount Note or Short-Term Note, (i) original issue discount is computed in the Foreign Currency, (ii) accrued original issue discount is translated into US dollars as described in "– Payments of Interest in a Foreign Currency-Accrual Method" above and (iii) the amount of Foreign Currency gain or loss on the accrued original issue discount is determined by comparing the amount of income received attributable to the discount (either upon payment, maturity or an earlier disposition), as translated into US dollars at the rate of exchange on the date of such receipt, with the amount of original issue discount accrued, as translated above. For these purposes, all receipts on a Note will be viewed first, as the receipt of any qualified stated interest payments called for under the terms of the Note; second, as receipts of previously accrued original issue discount (to the extent thereof), with payments considered made for the earliest accrual periods first; and third, as the receipt of principal.

Premium and Market Discount. In the case of a Note with market discount, (i) market discount is computed in the Foreign Currency, (ii) accrued market discount taken into account upon the receipt of any partial principal payment or upon the sale, exchange, retirement or other disposition of the Note (other than accrued market discount required to be taken into account currently) is translated into US dollars at the exchange rate on such disposition date (and no part of such accrued market discount is treated as exchange gain or loss) and (iii) accrued market discount currently includible in income by a US Holder for any accrual period is translated into US dollars on the basis of the average exchange rate in effect during such accrual period, and the exchange gain or loss is determined upon the receipt of any partial principal payment or upon the sale, exchange, retirement or other disposition of the Note in the manner described in "– Payments of Interest in a Foreign Currency – Accrual Method" above with respect to computation of exchange gain or loss on accrued interest.

With respect to a Note acquired with amortizable bond premium, if an election is made to amortize the premium, such premium is computed in the relevant Foreign Currency and reduces interest income in units of the Foreign Currency. A US Holder should recognize exchange gain or loss equal to the difference between the US dollar value of the bond premium amortized with respect to a period, determined on the date the interest attributable to such period is received, and the US dollar value of the bond premium determined on the date of the acquisition of the Note. A US Holder that does not elect to amortize bond premium will translate the bond premium, computed in the applicable Foreign Currency, into US dollars at the spot rate on the maturity date and such bond premium will constitute a capital loss which may be offset or eliminated by exchange gain.

Exchange of Foreign Currencies. A US Holder will have a tax basis in any Foreign Currency received as interest or on the sale, exchange or retirement of a Note equal to the US dollar value of such Foreign Currency, determined at the time the interest is received or at the time of the sale, exchange or retirement. As discussed above, if the Notes are traded on an established securities market, a cash basis US Holder (or, upon election, an accrual basis US Holder) will determine the US dollar value of the Foreign Currency by translating the Foreign Currency received at the spot rate of exchange on the settlement date of the sale, exchange or retirement. Accordingly, a US Holder's basis in the Foreign Currency received would be equal to the spot rate of exchange on the settlement date. Any gain or loss realized by a US Holder on a sale or other disposition of Foreign Currency (including its exchange for US dollars or its use to purchase Notes) will be ordinary income or loss and will generally be US source income or loss.

Tax Return Disclosure Regulations

Pursuant to Treasury regulations (the "**Disclosure Regulations**"), any taxpayer that has participated in a "reportable transaction" and that is required to file a United States federal income tax return must generally attach a disclosure statement disclosing such taxpayer's participation in the reportable transaction to the taxpayer's tax return for each taxable year for which the taxpayer participates in the reportable transaction. A penalty in the amount of $10,000 in the case of a natural person and $50,000 in any other case is imposed on any taxpayer that fails to file a reportable transaction disclosure statement. The Disclosure Regulations provide that, in addition to certain other transactions, a "loss transaction" constitutes a "reportable transaction." A "loss transaction" is any transaction resulting in the taxpayer claiming a loss under section 165 of the Code in an amount equal to or in excess of certain threshold amounts. The Disclosure Regulations specifically provide that a loss resulting from a "section 988 transaction" (as defined in section 988(c)(l) of the Code relating to foreign currency transactions) will constitute a section 165 loss. In the case of individuals or trusts, whether or not the loss flows through from an S corporation or partnership, if the loss arises with respect to a section 988 transaction, the applicable threshold amount is $50,000 in any single taxable year. Higher threshold amounts apply depending upon the taxpayer's status as a corporation, partnership, or S corporation, as well as certain other factors. It is important to note, however, that the Disclosure Regulations provide that the fact that a transaction is a reportable transaction shall not affect the legal determination of whether the taxpayer's treatment of the transaction is proper. Holders should consult their own tax advisors concerning the potential application of the Disclosure Regulations to the Notes.

Non-US Holders

Subject to the discussion of "back-up" withholding tax below, interest on the Notes is currently exempt from United States federal income taxes, including withholding taxes, if paid to a "non-US Holder."

Subject to the discussion of back-up withholding tax below, a non-US Holder will not be subject to United States federal income tax on any gain realized on the sale or exchange of a Note, provided that such gain is not effectively connected with the conduct by the holder of a United States trade or business and, in the case of a non-US Holder who is an individual, such holder is not present in the United States for a total of 183 days or more during the taxable year in which such gain is realized and certain other conditions are met, and the Notes are deemed to be situated outside the United States for purposes of the United States federal estate tax and are not includible in the gross estate for purposes of such tax in the case of a non-resident in the United States who was not a citizen of the United States at the time of death.

Back-up Withholding and Information Reporting

A "back-up" withholding tax and certain information reporting requirements may apply to payments of principal and interest on the Notes made to certain non-corporate holders if such payments are made or are considered made in the United States (including payments on Notes made by wire transfer from outside the United States to an account maintained by the holder with the paying agent in the United States). If such payments are considered to have been made in the United States, non-US Holders are generally exempt from these withholding and reporting requirements (assuming that the gain or income is otherwise exempt from United States federal income tax) but may be required to comply with certification and identification procedures in order to prove their exemption from the requirements. Similar rules requiring reporting through a United States branch of a broker and information reporting (but not back-up withholding) will apply to a non-US Holder who sells a Note through (a) a non-United States branch of a United States broker, or (b) a non-United States office of a broker that is (i) a controlled foreign corporation for United States tax purposes, (ii) a person 50% or more of whose income is effectively connected with a United States trade or business for a specified period, or (iii) a foreign partnership in which one or more of its partners are "US Persons," as defined in Treasury regulations, who in the aggregate hold more than 50% of the income or capital interest in the partnership or a foreign partnership engaged in a United States trade or business, in either case unless the holder proves an exemption from the requirement.

UNITED KINGDOM TAXATION

*The following, which applies only to persons who are the beneficial owners of the Notes, is a summary of Northern Rock's understanding of United Kingdom tax law and H.M. Revenue & Customs ("**HMRC**") practice as at the date of this Offering Circular relating to certain aspects of the United Kingdom taxation of the Notes. It is not a comprehensive analysis of the tax consequences arising in respect of the Notes and so should be treated with appropriate caution. Prospective investors are advised to satisfy themselves as to the overall tax consequences, including specifically the consequences in any relevant jurisdiction other than the United Kingdom, of the acquisition, ownership and disposition of the Notes and seek independent professional advice should there be any doubt as to their tax position. Some aspects do not apply to certain classes of taxpayers (such as dealers).*

1. Interest on the Notes

1.1 Withholding tax on payments of interest on the Notes

(a) Provided Northern Rock continues to be a bank within the meaning of section 840A of the Income and Corporation Taxes Act 1988 (the "**Tax Act**") for the purposes of section 349 of the Tax Act and provided that the interest on the Notes is paid in the ordinary course of its business within the meaning of section 349 of the Tax Act, it is entitled to make payments of interest without withholding or deduction for or on account of United Kingdom income tax. In accordance with the published practice of HMRC, such payments will be accepted as being made by Northern Rock in the ordinary course of its business unless either:

(i) the borrowing in question conforms to any of the definitions of tier 1, 2 or 3 capital adopted by the FSA whether or not it actually counts towards tier 1, 2 or 3 capital for regulatory purposes; or

(ii) the characteristics of the transaction giving rise to the interest are primarily attributable to an intention to avoid United Kingdom tax.

(b) Where interest is payable on Notes which have a maturity of less than one year (and which are not issued under arrangements the effect of which is to render such Notes part of a borrowing with a total term of a year or more), the interest will not be "yearly interest" for the purposes of the Tax Act and accordingly payments of interest on such Notes may be made without withholding or deduction for or on account of United Kingdom income tax.

(c) There is no requirement to withhold or deduct amounts for or on account of United Kingdom income tax from payments of interest made in respect of "quoted Eurobonds". Notes which carry a right to interest will constitute "quoted Eurobonds" provided they are and continue to be listed on a "recognised stock exchange", as defined in section 841 of the Tax Act. Listing on the Euro MTF is regarded by HMRC as constituting "listing on a recognised stock exchange" for the purposes of Section 349 of the Tax Act. Provided, therefore, that any Notes remain so listed, interest on such Notes will be payable without withholding or deduction on account of United Kingdom tax whether or not Northern Rock carries on a banking business in the United Kingdom and whether or not the interest is paid in the ordinary course of its business.

(d) In other cases, an amount will generally be required to be withheld from payments of interest on the Notes on account of United Kingdom income tax at the lower rate (currently 20 per cent.), subject to any direction to the contrary by the HMRC under an applicable double taxation treaty or to the interest being paid to the persons (including companies within the charge to United Kingdom corporation tax) and in the circumstances specified in sections 349A to 349D of the Tax Act.

1.2 Provision of information

Noteholders who are individuals may wish to note that in certain circumstances HMRC has power to obtain information (including the name and address of the beneficial owner of the interest) from any person in the United Kingdom who either pays interest to, or receives interest for the benefit of, an individual, or who either pays amounts payable on the redemption of Notes which are deeply discounted securities as defined in the Income Tax (Trading and Other Income) Act 2005 to, or receives such amounts for the benefit of, an individual. Information so obtained may, in certain

circumstances, be exchanged by HMRC with the tax authorities of the jurisdiction in which the individual is resident for tax purposes.

The references to "interest" above mean "interest" as understood in United Kingdom tax law. The statements above do not take any account of any different definitions of "interest" or "principal" which may be created by the terms and conditions of the Notes or any related documentation.

1.3. Further United Kingdom income tax issues

Interest on the Notes constitutes United Kingdom source income and, as such, may be subject to income tax by direct assessment even where paid without withholding, subject to any direction to the contrary from HMRC in respect of such relief as may be available pursuant to the provisions of an applicable double taxation treaty.

However, interest with a United Kingdom source received without withholding or deduction on account of United Kingdom tax will not be chargeable to United Kingdom tax in the hands of a Noteholder (other than certain trustees) who is not resident for tax purposes unless that Noteholder carries on a trade, profession or vocation in the United Kingdom through a branch or agency (or, in the case of a Noteholder which is a company, unless that Noteholder carries on a trade through a permanent establishment in the United Kingdom) in connection with which the interest is received or to which the Notes are attributable. There are exemptions for interest received by certain categories of agent (such as some brokers and investment managers).

Where interest has been paid under deduction of United Kingdom income tax, Noteholders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted if there is an appropriate provision under an applicable double taxation treaty.

2. United Kingdom corporation tax payers

In general, Noteholders which are within the charge to United Kingdom corporation tax in respect of the Notes will be charged to tax and obtain relief as income on all returns on and fluctuations in the value of the Notes broadly in accordance with their statutory accounting treatment.

3. Other United Kingdom tax payers

3.1 Taxation of chargeable gains

Notes denominated in a currency other than sterling will not constitute "qualifying corporate bonds" within the meaning of Section 117 of the Taxation of Chargeable Gains Act 1992. Accordingly, a disposal of such Notes may give rise to a chargeable gain or an allowable loss for the purposes of the United Kingdom taxation of chargeable gains. It is expected that any Notes denominated in sterling and as regards which provision is made for redenomination in Euro will also not be treated by HMRC as constituting "qualifying corporate bonds" within the meaning of Section 117 of the Taxation of Chargeable Gains Act 1992, with the same consequences as those just described.

There are provisions to prevent any particular gain (or loss) from being charged (or relieved) at the same time under these provisions and also under the provisions of the "accrued income scheme" described in 3.2 below.

3.2 Accrued income scheme

On a disposal of Notes by a Noteholder, any interest which has accrued since the last Interest Payment Date may be chargeable to tax as income under the rules of the "accrued income scheme" if that Noteholder is resident or ordinarily resident in the United Kingdom or carries on a trade in the United Kingdom through a branch or agency to which the Notes are attributable.

4. Stamp duty and stamp duty reserve tax

No United Kingdom stamp duty or stamp duty reserve tax will be payable on the issue, transfer or redemption of the Notes provided that, in the case of Notes which are not in bearer form, they do not carry either: (a) a right to interest the amount of which exceeds a reasonable commercial return on the nominal amount of the capital, or (b) a right on repayment to an amount which exceeds the nominal amount of the capital and is not reasonably comparable with what is generally repayable (in

respect of a similar nominal amount of capital) under the terms of issue of loan capital which is described in the relevant legislation as "listed in the Official List of The Stock Exchange."

5. European Union directive on the taxation of savings income

Under the European Union directive on the taxation of savings income, each member state is required to provide to the tax authorities of another member state details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other member state. However, for a transitional period, Belgium, Luxembourg and Austria will instead be required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with other countries). A number of non-European Union countries and territories, including Switzerland, have agreed to adopt similar measures (a withholding system in the case of Switzerland).

Exchange Rates and Exchange Controls

An investment in Notes that are denominated in, or the payment of which is determined with reference to, a Specified Currency other than US dollars entails significant risks that are not associated with a similar investment in a security denominated in US dollars. Similarly, an investment in an Indexed Note entails significant risks that are not associated with an investment in non-Indexed Notes. Such risks include, without limitation, the possibility of significant changes in rates of exchange between US dollars and the Specified Currency (or, in the case of each Indexed Note, the rate of exchange between the denominated currency and the indexed currency for such Indexed Note), including changes resulting from official redenomination with respect to such Specified Currency (or, in the case of each Indexed Note, with respect to the denominated currency or the indexed currency therefor) and the possibility of the imposition or modification of foreign exchange controls with respect to the Specified Currency. Such risks generally depend on factors over which Northern Rock has no control, such as economic and political events and the supply of and demand for the relevant currencies. In recent years, rates of exchange between Specified Currencies have been highly volatile, and such volatility may be expected in the future. Fluctuations in any particular exchange rate that have occurred in the past are not necessarily indicative, however, of fluctuations in the rate that may occur during the term of any Note. Depreciation of a currency or composite currency in which a Note is denominated against the US dollar would result in a decrease in the effective yield of such Note below its coupon rate, and in certain circumstances could result in loss to the investor on a US dollar basis. Similarly, depreciation of the denominated currency with respect to an Indexed Note against the applicable indexed currency would result in the principal amount payable with respect to such Indexed Note at the Stated Maturity being less than the face amount of such Indexed Note which, in turn would decrease the effective yield of such Indexed Note below its applicable interest rate and could also result in a loss to the investor.

The Notes will provide that, in the event of an official redenomination of a foreign currency (including, without limitation, an official redenomination of a foreign currency that is a composite currency) the obligations of Northern Rock with respect to payments on Notes denominated in such currency shall, in all cases, be deemed immediately following such redenomination to provide for the payment of that amount of redenomination currency representing the amount of such obligations immediately before such redenomination. Except as expressly provided herein or in the applicable Final Terms or Pricing Supplement, as the case may be, the Notes do not provide for any adjustment to any amount payable under the Notes as a result of (a) any change in the value of a foreign currency relative to any other currency due to fluctuations in exchange rates or (b) any redenomination of any component currency of any composite currency (unless such composite currency is itself officially redenominated).

Governments have from time to time imposed, and may in the future impose, exchange controls that could affect exchange rates as well as the availability of a foreign currency for making payments with respect to a Note denominated in such currency. There can be no assurances that exchange controls will not restrict or prohibit payments of principal or interest in any currency or composite currency. Even if there are not actual exchange controls, it is possible that, with respect to any particular Note, the currency for such Note will not be available to Northern Rock to make payments of interest and principal then due because of circumstances beyond the control of Northern Rock. In that event, Northern Rock will make such payment in the manner set forth below under "– Payment Currency".

The Final Terms or Pricing Supplement, as the case may be, relating to Notes denominated in a Specified Currency other than US dollars or relating to Indexed Notes will contain information concerning historical exchange rates for such Specified Currency or denominate currency against the US dollar or other relevant currency (including, in the case of Indexed Notes, the applicable indexed currency) and any exchange controls affecting such currency or currencies. Information concerning exchange rates is furnished as a matter of information only and should not be regarded as indicative of the range of or trend in fluctuations in currency exchange rates that may occur in the future.

Payment Currency

Except as otherwise provided herein or in the applicable Final Terms or Pricing Supplement, as the case may be, if payment on a Note is required to be made in a Specified Currency other than US dollars or in any currency unit and such currency or currency unit is unavailable due to the imposition of exchange controls or other circumstances beyond the control of Northern Rock or if such currency is no longer used by the government of the country issuing such currency or for the settlement of transactions by public institutions of or within the international banking community, then all payments in respect of such Note shall be made in US dollars until such currency or currency unit is again available or so used. The amount so payable on any date in such currency or currency unit will be converted into US dollars on the basis of the Market Exchange Rate for such currency, or for each Component Currency, as of the Conversion Date. See "Description of the Notes – Payment of Principal, Premium, if any, and Interest, if any" above. Any payment made under such circumstances in US dollars will not constitute an Event of Default under the Notes.

If the official unit of any Component Currency is altered by way of combination or subdivision, the number of units of that currency as a Component Currency shall be divided or multiplied in the same proportion. If two or more Component Currencies are consolidated into a single currency, the amounts of those currencies as Component Currencies shall be replaced by an amount in such single currency equal to the sum of the amounts of the consolidated Component Currencies expressed in such single currency. If any Component Currency is divided into two or more currencies, the amount of the original Component Currency shall be replaced by the amounts of such two or more currencies having an aggregate value on the date of division equal to the amount of the former Component Currency immediately before such division.

Foreign Currency Judgments

The Notes and the Indentures will be governed by and construed in accordance with the laws of the State of New York applicable to instruments made to be performed wholly within such jurisdiction, except that the subordination provisions in the Subordinated Notes and in the Subordinated Indenture will be governed by and construed in accordance with the laws of England and Wales. Courts in the United States customarily have not rendered judgments for money damages denominated in any currency other than US dollars. If a Note is denominated in a Specified Currency other than US dollars, any judgment under New York law will be rendered in the foreign currency of the underlying obligations and converted into US dollars at a rate of exchange prevailing on the date of entry of the judgment or decree.

Information Limited to US Holders

The information set forth in this Offering Circular (except for certain tax information) is directed to prospective purchasers of Notes who are US Holders (as defined below), and Northern Rock disclaims any responsibility to advise prospective purchasers who are residents of countries other than the United States with respect to any matters that may affect the purchase or holding of, or receipt of payments of principal, premium or interest in respect of, Notes. Such persons should consult their own counsel with regard to such matters.

DESCRIPTION OF THE GLOBAL RECEIPTS REPRESENTING GLOBAL BEARER NOTES

The following is a summary of certain terms and provisions of the Deposit and Custody Agreement pursuant to which global receipts (the "**Global Receipts**") representing the global bearer Notes (the "**Bearer Notes**") in respect of a Series of Subordinated Notes will be issued. The Deposit and Custody Agreement in respect of a Series of Subordinated Notes is among the Subordinated Note Depositary, the Subordinated Note Custodian and Northern Rock, for the benefit of the holder of the Global Receipts (which will be the nominee of DTC or a successor thereof) and the beneficial owners from time to time of interests in Global Receipts. The summary set forth below does not purport to be complete and is subject to and qualified in its entirety by reference to the Deposit and Custody Agreement, a copy of which may be obtained by making a request to Northern Rock's principal executive office at Northern Rock House, Gosforth, Newcastle upon Tyne, NE3 4PL, United Kingdom.

Global Receipts

Upon deposit of the Bearer Notes of a Series of Subordinated Notes with the Subordinated Note Custodian, on behalf of the Subordinated Note Depositary, subject to the terms of the Deposit and Custody Agreement, the Subordinated Note Depositary will issue one or more Global Receipts representing the aggregate principal amount of such Bearer Notes. The Global Receipts in respect of such Bearer Notes shall be delivered to the Subordinated Note Depositary who will hold Global Receipts as custodian for DTC and registered in the name of DTC's nominee. So long as DTC or its nominee is the holder of the Global Receipt, any owner of a beneficial interest in the Subordinated Notes of a Series represented by Global Receipts must rely upon the procedures of DTC and institutions having accounts with DTC to exercise or be entitled to any rights of a holder of such Global Receipts. See "Description of the Notes – Book-Entry System" above.

Book-Entry

Ownership of beneficial interests in a Global Receipt representing the Bearer Notes in respect of a Series of Subordinated Notes will be limited to Participants or persons who hold interests through Participants. In addition, ownership of beneficial interests will be evidenced only by, and the transfer of that ownership interest will be effected only through, records maintained by DTC or its nominee and Participants until such time, if any, as Certificated Notes are issued as set forth under "Description of the Notes – Book-Entry System" above. The laws of some states require that certain purchasers of Notes take physical delivery of such Notes in certificated form. Such laws may impair the ability to transfer beneficial interests in a Global Receipt.

Northern Rock has been advised by DTC that upon the issuance of a Global Receipt by the Subordinated Note Depositary, and the deposit of such Global Receipt with DTC, DTC will immediately credit, on its book-entry registration and transfer system, the respective principal amounts of such beneficial interests in such Global Receipt to the accounts of Participants. The accounts to be credited shall be designated by the soliciting Dealer or, to the extent that the Subordinated Notes represented by such Global Receipt are offered and sold directly, by Northern Rock.

Payment of principal of and any premium and interest in respect of beneficial interests in any Global Receipt registered in the name of or held by DTC or its nominee will be made to DTC or its nominee, as the case may be, as the registered holder of the Global Receipt. None of Northern Rock, the Subordinated Trustee, the Subordinated Note Depositary, the Subordinated Note Custodian or any agent of any of them will have any responsibility or liability for any aspect of DTC's records or any Participant's records relating to, or payments made on account of, beneficial ownership interests in a Global Receipt or for maintaining, supervising or reviewing any of DTC's records or any Participant's records relating to such beneficial ownership interests. Payments by Participants to owners of beneficial interests in a Global Receipt held through such Participants will be governed by standing instructions and customary practices, as is now the case with Notes held for the accounts of customers registered in "street name", and will be the sole responsibility of such Participants.

No Global Receipt may be transferred except by DTC to a nominee of DTC or by a nominee of DTC to DTC or another nominee of DTC or any successor thereof.

Owners of beneficial interests in a Global Receipt will not be entitled to receive physical delivery of Global Receipts in certificated form and will not be considered the holders thereof for any purpose under the Deposit and Custody Agreement, the Global Receipts, the Subordinated Indenture or the Subordinated Notes, and no Global Receipt shall be exchangeable, except for another Global Receipt of like denomination and tenor to be registered in the name of DTC or its nominee. Accordingly, each person owning a beneficial interest in such Global Receipt must rely on the procedures of DTC and, if such person is not a Participant, on the procedures of the Participant through which such person owns its interest, to exercise any rights of a holder under the Deposit and Custody Agreement, the Global Receipts, the Subordinated Indenture or the Subordinated Notes. Northern Rock understands that under existing industry practices, in the event it requests any action of a holder or an owner of a beneficial interest in such Global Receipt desires to give or take action that a holder is entitled to give or take under the Deposit and Custody Agreement or the Global Receipts, DTC would authorize the Participants holding the relevant beneficial interests to give or take such action, and such Participants would authorize beneficial owners owning through such Participants to give or take such action or would otherwise act upon the instructions of beneficial owners owning through them.

The Subordinated Indenture and the Subordinated Notes require that payments in respect of the Subordinated Notes be made in immediately available funds. Interests in the Global Receipt are expected to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in the Global Receipts will be required to be settled in immediately available funds. No assurance can be given as to the effect, if any, of such settlement arrangements on trading activity in the Global Receipts or interests in the Global Receipts.

Issuance of Certificated Notes

The Deposit and Custody Agreement provides that, upon the written request of the holder of the Global Receipt, the Subordinated Note Depositary will request that the Subordinated Note Custodian surrender the Bearer Notes representing such Global Receipt for exchange and the Subordinated Note Depositary will request that the principal paying agent issue certificated registered Subordinated Notes in the names and in the amounts as specified by the holder of the Global Receipt. Such request may be made in the circumstances and subject to the conditions described under "Description of the Notes – Book-Entry System" above.

The exchange of interests in the Global Receipt for certificated Subordinated Notes of a particular Series shall be made free of any fees of the Subordinated Note Depositary to the holder, *provided, however*, that such person receiving Subordinated Notes in certificated form will be obligated to pay or otherwise bear the cost of any tax or other governmental charge as required by the Subordinated Indenture and any cost of insurance, postage, transportation and the like.

Payments on the Notes

The Subordinated Note Depositary will distribute all principal, premium and interest payments that are received by it from the Subordinated Note Custodian in respect of the Bearer Notes of a Series of Subordinated Notes to the Holder of the Global Receipt in respect of such Bearer Notes on the relevant date of payment. All principal, premium and interest payments made on such Bearer Notes shall be distributed to the holder of the Global Receipt without deduction or withholding for any taxes or other governmental charges, or if the Subordinated Note Depositary or the Subordinated Note Custodian is required to make any such deduction or withholding under the provisions of any applicable law or regulation, Northern Rock agrees that it shall pay or cause to be paid such additional amounts as may be necessary in order that the net amounts distributed to the holder of the Global Receipt, after such deduction or withholding, shall equal the amounts which were paid on such Bearer Notes.

None of the Subordinated Trustee, the Subordinated Note Custodian or the Subordinated Note Depositary assume any responsibility for any failure by Northern Rock to make payments on or in respect of the Subordinated Notes or for any delay in receipt of payment due to a delay in sending payment by Northern Rock. The Global Receipts do not represent any separate or independent payment obligation of the Subordinated Note Depositary or in any other capacity, except to the extent of principal, premium and interest payments, if any, received by it from the Subordinated Note Custodian.

Redemption

In the event that Northern Rock exercises any right of redemption in respect of the Subordinated Notes of a Series, the Subordinated Note Depositary will redeem, from the amount received by it in respect of the redemption of such Subordinated Notes, a portion of the relevant Global Receipts which represents the portion of such Subordinated Notes of a Series so redeemed. The redemption price in connection with the redemption of a portion of such Global Receipts will be equal to the amount received by the Subordinated Note Depositary in respect of the aggregate principal amount (or such other relevant amount as may be described in any applicable Final Terms or Pricing Supplement, as the case may be) of such Subordinated Note so redeemed, net of any amounts required to be withheld or deducted in respect of taxes. Upon receipt of notice of redemption by the Subordinated Note Depositary, such Depositary will forward such notice to the holder of the Global Receipt in accordance with the terms of the Deposit and Custody Agreement and, in accordance with any written instructions received from such holder, to all beneficial owners affected thereby.

Repayment

If a Subordinated Note becomes repayable at the option of the Holder on a date or dates specified prior to its maturity date, if any, and the Subordinated Note Depositary is so notified by the principal paying agent, the Subordinated Note Depositary shall promptly notify the holder of the Global Receipt that such Subordinated Note has become repayable. In order for the repayment option in any Subordinated Note to be exercised by the Subordinated Note Depositary, the owners of beneficial interests in the Global Receipt representing an interest in such Subordinated Note must instruct the broker or other Direct or Indirect Participant through which it holds an interest in the Global Receipt relating to such Subordinated Note to notify the Subordinated Note Depositary of its desire for the Subordinated Note Depositary to exercise the Subordinated Note Depositary's right to repayment. Different firms have different cut-off times for acceptance instructions from their customers and, accordingly, each beneficial owner should consult the broker or other Direct or Indirect Participant through which it holds its beneficial interest in a Global Receipt representing an interest in a Subordinated Note in order to ascertain the cut-off time by which such an instruction must be given in order for timely notice to be delivered to the Subordinated Note Depositary.

Record Date

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, or unless Northern Rock otherwise instructs the Subordinated Note Depositary in writing, the Regular Record Date with respect to a Global Receipt shall, if practicable, be the date 15 calendar days prior to the applicable Interest Payment Date in respect of the Subordinated Note represented thereby. Whenever any payment is made in respect of a Subordinated Note that is represented by a Global Receipt for which a Regular Record Date has not been fixed, or the Subordinated Note Custodian shall receive notice of any action to be taken by the Holder of such Subordinated Note or whenever the Subordinated Note Depositary otherwise deems it appropriate in respect of any other matter, the Subordinated Note Depositary will, if practicable, fix a record date for the determination of the holder of the Global Receipt who shall be entitled to receive such payment or to take any such action or to act in respect of any such matter.

Action by the Holder of the Subordinated Notes

As soon as practicable after receipt by the Subordinated Note Custodian of notice of any solicitation of consents or request for a waiver or other action by it as the holder of the Subordinated Notes of a Series, the Subordinated Note Custodian shall inform the Subordinated Note Depositary who shall mail to the holder of the Global Receipt in respect of such Subordinated Notes a notice containing (a) such information as is contained in such notice, (b) a statement that such holder of the Global Receipt at the close of business on a specified record date will be entitled, subject to the provisions of the Deposit and Custody Agreement and of or governing such Subordinated Notes, to instruct the Subordinated Note Depositary as to the consent, waiver or other action, if any, pertaining to the Subordinated Notes of such series, and (c) a statement as to the manner in which such instructions may be given. Upon the written request of the holder of the Global Receipt, received on or before the date established by the Subordinated Note Depositary for such purpose, the Subordinated Note Depositary shall endeavor insofar as practicable and permitted under the

provisions of or governing the Subordinated Notes of such Series cause the Subordinated Note Custodian to endeavor insofar as practicable and permitted under the provisions of or governing the Subordinated Notes of such Series to take such action regarding the requested consent, waiver or other action in relation to such Subordinated Notes in accordance with any instructions set forth in such request. Neither the Subordinated Note Depositary nor the Subordinated Note Custodian will itself exercise any discretion in the granting of consents, waivers or taking other such action in respect of the Subordinated Notes of a Series.

Reports

The Subordinated Note Depositary will make available at its principal office for inspection by the holder of the Global Receipt any notices, reports and other communications received from Northern Rock that are received by the Subordinated Note Custodian as Holder of the Subordinated Notes and are made generally available to holders of the Subordinated Notes by Northern Rock. The Subordinated Note Depositary shall send promptly to the holder of the Global Receipt a copy of such notices furnished by Northern Rock.

Action by Subordinated Note Depositary and Subordinated Note Custodian

The Subordinated Note Depositary and Subordinated Note Custodian have agreed that upon the occurrence of an Event of Default under the Subordinated Notes of a particular Series, or in connection with any other right of the Holder of Subordinated Notes under the Subordinated Indenture, if requested in writing by the holder of the Global Receipt in respect thereof, to request the Subordinated Trustee take any such action as shall be requested in such notice in respect of such Subordinated Notes; *provided* that the Subordinated Note Depositary and the Subordinated Note Custodian have been offered security or indemnity satisfactory to them against the costs, expenses and liabilities which might be incurred by them in compliance with such request, *provided further* that such obligation of the Subordinated Note Depositary and the Subordinated Note Custodian shall cease following the automatic issuance of certificated registered Subordinated Notes upon the occurrence of an Event of Default.

Charges of Subordinated Note Depositary and Subordinated Note Custodian

Northern Rock has agreed to pay all charges of the Subordinated Note Depositary and the Subordinated Note Custodian under the Deposit and Custody Agreement. Northern Rock also has agreed to indemnify the Subordinated Note Depositary and the Subordinated Note Custodian against certain liabilities incurred by them under the Deposit and Custody Agreement.

Modification

The Deposit and Custody Agreement and the Global Receipts in relation to a Series of Subordinated Notes may be amended by agreement among the Subordinated Note Depositary, the Subordinated Note Custodian and Northern Rock. The consent of the holder of the Global Receipt shall not be required in connection with any amendment to the Deposit and Custody Agreement (i) to cure any formal defect, omission, inconsistency or ambiguity in such Deposit and Custody Agreement, (ii) to add to the covenants and agreements of the Subordinated Note Depositary, the Subordinated Note Custodian or Northern Rock, (iii) to effectuate the assignment of the Subordinated Note Depositary's or the Subordinated Note Custodian's rights and duties to a qualified successor as provided in the Deposit and Custody Agreement, (iv) to comply with the Securities Act or the 1940 Act or any other applicable securities law, (v) to modify the Deposit and Custody Agreement in connection with an amendment of the Subordinated Indenture that does not require the consent of the Holders of the Subordinated Notes, or (vi) to modify, alter, amend, or supplement the Deposit and Custody Agreement in any other respect not inconsistent with the Deposit and Custody Agreement which, in the opinion of counsel acceptable to Northern Rock is not adverse to the holder of the Global Receipt. Except as set forth above, no amendment which adversely affects the holder of the Global Receipt may be made to the Deposit and Custody Agreement without the consent of the holder of the Global Receipt.

Termination

The Subordinated Note Depositary in respect of a Series of Subordinated Notes will at any time at the written direction of Northern Rock terminate the Deposit and Custody Agreement in respect of such Subordinated Notes by mailing a notice of such termination to the holder of the Global Receipt and requesting, on behalf of the Subordinated Note Custodian in accordance with the Subordinated Indenture, that the principal paying agent issue certificated Subordinated Notes in respect of such Series of Subordinated Notes in registered form to the persons and in the amounts as specified by the holder of the Global Receipt. Upon the issuance of such Subordinated Notes in certificated form, the Deposit and Custody Agreement in relation to such Series of Subordinated Notes shall terminate. The Deposit and Custody Agreement in relation to a Series of Subordinated Notes may also be terminated upon the resignation of the Subordinated Note Depositary or the Subordinated Note Custodian if no successor has been appointed within 90 days as set forth under "– Resignation or Removal of Subordinated Note Depositary or Subordinated Note Custodian" below.

Resignation or Removal of Subordinated Note Depositary or Subordinated Note Custodian

The Subordinated Note Depositary may at any time resign as Subordinated Note Depositary for a Series of Subordinated Notes by written notice delivered to the Subordinated Trustee and Northern Rock, such resignation to take effect upon the appointment by Northern Rock of a successor depositary (approved by the Subordinated Trustee and the Holder of the Subordinated Notes, such approval not to be unreasonably withheld) and its acceptance of such appointment. If at the end of 90 days after delivery of such notice, no successor depositary has been appointed or accepted such appointment, the Subordinated Note Depositary may terminate the Deposit and Custody Agreement in relation to such Series of Subordinated Notes, provided that such termination will not be effective with respect to the Subordinated Note Custodian unless and until certificated Subordinated Notes in registered form in respect of such Series shall have been issued in accordance with the Deposit and Custody Agreement.

The Subordinated Note Custodian may at any time resign as Subordinated Note Custodian for a Series of Subordinated Notes by written notice delivered to the Subordinated Note Depositary, the Subordinated Trustee and Northern Rock, such resignation to take effect upon the appointment by Northern Rock of a successor custodian (approved by the Subordinated Note Depositary, such approval not to be unreasonably withheld) and its acceptance of such appointment and the transfer of the Subordinated Notes of such Series in accordance with the Deposit and Custody Agreement. If at the end of 90 days after delivery of such notice, no successor custodian has been appointed or accepted such appointment, the Subordinated Note Custodian may request that certificated Subordinated Notes of such Series in registered form be issued and, upon the issuance of such Subordinated Notes, may terminate the Deposit and Custody Agreement.

In the event that Northern Rock determines that it would become obligated to pay any amount in respect of any deduction or withholding for any taxes or other governmental charges as set forth under "– Payments on the Notes" above, or Northern Rock in its absolute discretion wishes to replace the Subordinated Note Depositary or the Subordinated Note Custodian, Northern Rock may remove the Subordinated Note Depositary or the Subordinated Note Custodian by written notice of such removal effective upon the appointment of a successor depositary or successor custodian, as the case may be, and its acceptance of such appointment.

Obligations of Subordinated Note Depositary and Subordinated Note Custodian

The Subordinated Note Depositary and the Subordinated Note Custodian assume no obligation or liability under the Deposit and Custody Agreement other than to act in good faith without gross negligence or wilful misconduct in the performance of their respective duties under the Deposit and Custody Agreement.

Governing Law and Consent to Service

The Deposit and Custody Agreement and the Global Receipts will be governed by and construed in accordance with the laws of the State of New York. Northern Rock has designated and appointed CT Corporation System at 111 Eighth Avenue, in the Borough of Manhattan, New York City, New York, 10011 as its authorized agent upon which process may be served in any suit or proceeding arising out of or relating to the Global Receipts or the Deposit and Custody Agreement which may

be instituted in any State or Federal court located in New York City, New York, and has submitted (for the purposes of any such suit or proceeding) to the jurisdiction of any such court in which any suit or proceeding is so instituted.

NOTICE TO INVESTORS

Offers and Sales by the Dealers

The Notes have not been, and will not be, registered under the Securities Act or any other applicable securities laws and may not be offered or sold in the United States except pursuant to an effective registration statement or in accordance with an applicable exemption from the registration requirements of the Securities Act and such other securities laws. Accordingly, the Notes are being offered and sold only (1)(i) to qualified institutional buyers ("**QIBs**"), as defined in Rule 144A under the Securities Act ("**Rule 144A**"), (ii) to institutional investors that qualify as accredited investors ("**Institutional Accredited Investors**"), as defined in Rule 501(a)(1), (2), (3) or (7) under the Securities Act, purchasing for their own account or as fiduciary or agent for others (which others also must be Institutional Accredited Investors unless the purchaser is a bank acting in its fiduciary capacity) for investment purposes and not for distribution in violation of the Securities Act (iii) in offers and sales that occur outside the United States to persons other than US persons in offshore transactions meeting the requirements of Rule 903 of Regulation S under the Securities Act or (iv) in other transactions exempt from the registration under the Securities Act and (2) in compliance with any other applicable securities laws.

Purchasers' Representations and Restrictions on Resale

Each purchaser of Notes (other than a Dealer in connection with the initial issuance and sale of Notes by Northern Rock) and each owner of any beneficial interest therein, will be deemed, by its acceptance or purchase thereof, to have represented and agreed as follows:

1. It is purchasing the Notes for its own account or an account with respect to which it exercises sole investment discretion and it and any such account is either (A) a QIB, and is aware that the sale to it is being made in reliance on Rule 144A or (B) an Institutional Accredited Investor acquiring the Notes for investment purposes and not for distribution in violation of the Securities Act or (C) a foreign purchaser that is outside the United States (or a foreign purchaser that is a dealer or other fiduciary as referred to above).

2. It acknowledges that the Notes have not been registered under the Securities Act or with any securities regulatory authority of any jurisdiction and may not be offered or sold within the United States or to, or for the account or benefit of, US persons except as set forth below.

3. It understands and agrees that Notes initially offered in the United States to QIBs will be represented by US Global Notes, that Notes initially offered to Institutional Accredited Investors will be represented by physical registered certificates and that Notes offered outside the United States in reliance on Regulation S will be represented by International Global Notes.

4. It shall not resell or otherwise transfer any of such Notes except (A) to Northern Rock or a Dealer or by, through, or in a transaction approved by a Dealer, (B) within the United States to a QIB in a transaction complying with Rule 144A, (C) within the United States to an Institutional Accredited Investor acquiring the Notes for investment purposes and not for distribution in violation of the Securities Act, (D) outside the United States, in compliance with Rule 903 or 904 under the Securities Act, (E) pursuant to the exemption from registration provided by Rule 144 under the Securities Act (if available), or (F) pursuant to an effective registration statement under the Securities Act.

5. It agrees that it will give to each person to whom it transfers the Notes notice of any restrictions on transfer of such Notes.

6. It acknowledges that prior to any proposed transfer of Notes (other than pursuant to an effective registration statement) the holder of such Notes may be required to provide certifications relating to the manner of such transfer as provided in the applicable Indenture.

7. It acknowledges that the applicable Trustee for the Notes will not be required to accept for registration transfer of any Notes acquired by it, except upon presentation of evidence satisfactory to Northern Rock and such Trustee that the restrictions set forth herein have been complied with.

8. It acknowledges that Northern Rock, the Dealers and others will rely upon the truth and accuracy of the foregoing acknowledgments, representations and agreements and agrees that if any of the acknowledgments, representations or agreements deemed to have been made by its

purchase of the Notes are no longer accurate, it shall promptly notify Northern Rock and the Dealers. If it is acquiring the Notes as a fiduciary or agent for one or more investor accounts, it represents that it has sole investment discretion with respect to each such account and it has full power to make the foregoing acknowledgments, representations, and agreements on behalf of each account.

Set forth below is a form of legend which will appear on the face of Notes, other than International Global Notes, and which will be used to notify transferees of the foregoing restrictions on transfer. Additional copies of such notice may be obtained from the Trustee.

"THIS NOTE HAS NOT BEEN REGISTERED UNDER THE US SECURITIES ACT OF 1933, AS AMENDED (THE "**US SECURITIES ACT**") OR ANY OTHER SECURITIES LAWS. THE HOLDER HEREOF, BY PURCHASING THIS NOTE, AGREES FOR THE BENEFIT OF NORTHERN ROCK PLC (THE "**ISSUER**") THAT THIS NOTE MAY BE OFFERED, RESOLD, PLEDGED OR OTHERWISE TRANSFERRED ONLY (1) TO THE ISSUER OR MERRILL LYNCH, PIERCE, FENNER & SMITH INCORPORATED, CITIGROUP GLOBAL MARKETS INC., LEHMAN BROTHERS INC. AND MORGAN STANLEY & CO. INCORPORATED (EACH, A "**DEALER**" AND COLLECTIVELY, THE "**DEALERS**") OR BY, THROUGH OR IN A TRANSACTION APPROVED BY A DEALER, (2) SO LONG AS THIS SECURITY IS ELIGIBLE FOR RESALE PURSUANT TO RULE 144A UNDER THE US SECURITIES ACT ("**RULE 144A**"), TO A PERSON WHO THE SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER (AS DEFINED IN RULE 144A) IN ACCORDANCE WITH RULE 144A, (3) IN AN OFFSHORE TRANSACTION IN ACCORDANCE WITH RULE 903 OR 904 OF REGULATION S UNDER THE US SECURITIES ACT, (4) TO AN "ACCREDITED INVESTOR" WITHIN THE MEANING OF RULE 501(a)(1), (2), (3) OR (7) UNDER THE US SECURITIES ACT ACQUIRING THE NOTES FOR INVESTMENT PURPOSES AND NOT FOR DISTRIBUTION IN VIOLATION OF SUCH ACT, (5) PURSUANT TO AN EXEMPTION FROM REGISTRATION UNDER THE US SECURITIES ACT PROVIDED BY RULE 144 UNDER THE US SECURITIES ACT (IF AVAILABLE) OR (6) PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE US SECURITIES ACT, AND IN EACH OF SUCH CASES IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES OR ANY OTHER APPLICABLE JURISDICTION. THE HOLDER HEREOF, BY PURCHASING THIS NOTE, REPRESENTS AND AGREES FOR THE BENEFIT OF THE ISSUER THAT IT WILL NOTIFY ANY PURCHASER OF THIS SECURITY FROM IT OF THE RESALE RESTRICTIONS REFERRED TO ABOVE".

For further discussion of the requirements (including the presentation of transfer certificates) under the Indenture to effect exchanges or transfers of interest in Global Notes and Certificated Notes, see "Description of the Notes – Form, Transfer, Exchange and Denomination".

Selling Restrictions

United Kingdom

Each Dealer has represented and agreed, and each further Dealer appointed under the Program will be required to represent and agree, that:

(i) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSMA would not, if Northern Rock was not an authorised person, apply to Northern Rock; and

(ii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Notes in, from or otherwise involving the United Kingdom.

General

Unless otherwise stated in the applicable Final Terms or Pricing Supplement, as the case may be, no action has been taken by Northern Rock that would permit a public offering of the Notes or possession or distribution of the Offering Circular or any other offering material in any jurisdiction

where action for that purpose is required. Accordingly, each Dealer has agreed and each further dealer appointed under the Program will be required to agree that it will (to the best of its knowledge and belief) comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes this Offering Circular or any other offering material and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and Northern Rock shall have no responsibility therefor.

With regard to each Series, the relevant Dealer will be required to comply with such other additional restrictions as Northern Rock and the relevant Dealer shall agree and as shall be set out in the applicable Final Terms or Pricing Supplement, as the case may be.

PLAN OF DISTRIBUTION

The Notes are being offered on a continuous basis for sale by Northern Rock to or through Merrill Lynch, Pierce, Fenner & Smith Incorporated, Citigroup Global Markets Inc., Lehman Brothers Inc. and Morgan Stanley & Co. Incorporated, together with such other Dealers as may be appointed by Northern Rock with respect to a particular tranche of Notes (the "**Dealers**"). One or more Dealers may purchase Notes, as principal, from Northern Rock from time to time for resale to investors and other purchasers at varying prices relating to prevailing market prices at the time of resale as determined by any Dealer, or, if so specified in the applicable Final Terms or Pricing Supplement, as the case may be, for resale at a fixed offering price. If Northern Rock and a Dealer agree, a Dealer may also utilize its reasonable efforts on an agency basis to solicit offers to purchase the Notes. Unless otherwise described in an applicable Final Terms or Pricing Supplement, as the case may be, Northern Rock will pay a commission to a Dealer, ranging from .125% to .750% of the principal amount of each Note depending upon its Stated Maturity, for Notes sold through such Dealer as agent unless otherwise agreed at that time. Commissions with respect to Notes with Stated Maturities in excess of 30 years that are sold through a Dealer as an agent of Northern Rock will be negotiated between Northern Rock and such Dealer at the time of such sale.

Unless otherwise specified in an applicable Final Terms or Pricing Supplement, as the case may be, any Note sold to one or more Dealers as principal will be purchased by such Dealers at a price equal to 100% of the principal amount thereof less a percentage of the principal amount equal to the commission applicable to an agency sale of a Note of identical maturity. A Dealer may sell Notes it has purchased from Northern Rock as principal to certain dealers less a concession equal to all or any portion of the discount received in connection with such purchase. Such Dealer may allow, and such dealers may reallow, a discount to certain other dealers. After the initial offering of Notes, the offering price (in the case of Notes to be resold at a fixed offering price), the concession and the reallowance may be changed.

Northern Rock may withdraw, cancel or modify the offering contemplated hereby without notice and may reject offers to purchase Notes in whole or in part. Each Dealer shall have the right, in its discretion reasonably exercised, to reject in whole or in part any offer to purchase Notes received by it on an agency basis.

In connection with the issue and distribution of any tranche of Notes, the Dealer (if any) disclosed as stabilizing manager in the applicable Final Terms or Pricing Supplement, as the case may be, or any person acting for it may over-allot or effect transactions with a view to supporting the market price of the Series (as defined herein) of which such tranche forms part at a level higher than that which might otherwise prevail for a limited period in accordance with applicable laws and regulations. However, there may be no obligation on the stabilizing manager or any agent of his to do this. Such stabilizing, if commenced, may be discontinued at any time and must be brought to an end after a limited period. Such stabilization, if commenced, may be discontinued at any time and must be brought to an end after a limited period. Such stabilizing, if any, shall be in compliance with all relevant laws and regulations. These transactions may include stabilizing transactions pursuant to which the Dealers, acting directly or through subsidiaries, may bid for or purchase Notes in the open market or otherwise for the purpose of stabilizing the market price of the Notes. The relevant stabilising manager may also create a short position for its account by selling more Notes in connection with the offering than it is committed to purchase from Northern Rock, and in such case may purchase Notes in the open market following completion of the offering to cover all or a portion of such short position.

Neither Northern Rock nor any of the Dealers makes any representation or prediction as to the direction or magnitude of any effect that the transactions described in the immediately preceding paragraph may have on the price of Notes. In addition, neither Northern Rock nor the Dealers makes any representation that the Dealers will engage in any such transactions or that such transactions, once commenced, will not be discontinued without notice.

Northern Rock has agreed to indemnify the Dealers against certain liabilities (including liabilities under the Securities Act) or to contribute to payments the Dealers may be required to make in respect thereof. Northern Rock has also agreed to reimburse the Dealers for certain other expenses.

In the ordinary course of business, the Dealers and their affiliates may have engaged in and may in the future engage in investment and/or commercial banking transactions with Northern Rock for which they have received and may in the future receive customary fees and commissions.

SETTLEMENT

Unless otherwise specified in the applicable Final Terms or Pricing Supplement, as the case may be, payment of the purchase price of the Notes will be required to be made in immediately available funds in the applicable Specified Currency in New York City three Business Days after the trade date.

WHERE YOU CAN FIND MORE INFORMATION

The Group's consolidated financial statements, consisting of the consolidated balance sheets of Northern Rock plc and its subsidiaries as of December 31, 2005 and 2004, the related consolidated income statements, consolidated statements of recognized income and expense and consolidated cash flow statements for each of the two years in the period ended December 31, 2005 and the notes to the accounts, are set out on pages F-1 to F-118. These consolidated financial statements have been prepared in accordance with accounting standards generally accepted in the United Kingdom and reported on by PricewaterhouseCoopers LLP, the Reporting Accountants, whose report is included on page F-3. Copies of Northern Rock's subsequent audited consolidated financial statements and unaudited semi-annual financial statements, if any, which will be prepared in accordance with IFRS (see "Recent Developments"), will be attached hereto and incorporated herein by reference. Such financial statements will not be distributed to holders of outstanding Notes, but will be available to such holders upon request. Requests for copies of such financial statements should be directed to the Company Secretary, Northern Rock plc, Northern Rock House, Gosforth, Newcastle upon Tyne, NE3 4PL, United Kingdom (fax +44-191-279-4130).

Northern Rock is a limited liability company incorporated in England and Wales under the UK Companies Act 1985. Northern Rock no longer files reports and other information with the Securities and Exchange Commission under the Exchange Act. In order to preserve the exemption for resales and other transfers under Rule 144A, Northern Rock has agreed to furnish the information required to be delivered pursuant to Rule 144A(d)(4) if a noteholder or prospective purchaser specified by a registered holder requests such information. Northern Rock will continue to provide such reports for so long as it is neither subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act nor exempt from such reporting requirements pursuant to Rule 12g3-2(b).

REPORTING ACCOUNTANTS

The consolidated financial statements of Northern Rock as of December 31, 2005 and 2004 and for each of the years then ended, included in this Offering Circular have been reported on by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report appearing herein. The consolidated financial statements of Northern Rock as of December 31, 2003 have been reported on by PricewaterhouseCoopers LLP, an independent registered public accounting firm.

LEGAL OPINIONS

The validity of the Notes will be passed upon for Northern Rock by Sidley Austin, London, England and for the Dealers by Simpson Thacher & Bartlett LLP, London, England.

GENERAL INFORMATION

Listing

Application has been made to list the Notes issued under the Program on the Luxembourg Stock Exchange. The Luxembourg Stock Exchange has allocated the number 13022 to the Program for listing purposes.

Authorisation

The Program has been established and Notes have been and will be issued thereunder pursuant to authority granted by the Board of Directors of Northern Rock, or a duly authorised committee thereof, on April 27, 1999, May 25, 1999, February 27, 2001 and approvals of directors pursuant to delegated authority, dated June 8, 2001; November 14, 2002, June 18, 2004 and July 5, 2006, as each such authority may be supplemented from time to time.

Significant Change

Except as disclosed herein, as of the date of this Offering Circular there has been no significant change in the financial or trading position or results of operations of Northern Rock on a consolidated basis. Except as disclosed herein, as of the date of this Offering Circular there has been no material adverse change in the financial position or prospects of Northern Rock on a consolidated basis since the Group's last audited consolidated financial statements.

Litigation

Northern Rock is not, nor has it been involved in any legal or arbitration proceedings, nor, to Northern Rock's knowledge, are any legal or arbitration proceedings pending or threatened involving Northern Rock, which may have or have had during the 12 months prior to the date of this Offering Circular a significant effect on the financial position of Northern Rock on a consolidated basis.

Financial Statements

The Group's consolidated financial statements, consisting of the consolidated balance sheets of Northern Rock plc and its subsidiaries as of December 31, 2005 and 2004, the related consolidated income statements, statement of recognized income and expense, and consolidated cash flow statements for each of the two years in the period ended December 31, 2005 and the notes to the accounts, are set out on pages F-1 to F-118. These consolidated financial statements have been prepared in accordance with IFRS and reported on by PricewaterhouseCoopers LLP, the Reporting Accountants, whose report is included on page F-3. Northern Rock does not prepare non-consolidated financial statements.

Clearing Systems

The Notes have been accepted for clearance through the DTC, Euroclear and Clearstream, Luxembourg systems. The appropriate DTC number, Common Code and ISIN for each tranche allocated by DTC, Euroclear and Clearstream, Luxembourg, as applicable, and details of any other agreed clearing system will be contained in the relevant Final Terms or Pricing Supplement, as the case may be. Transactions will normally be effected for settlement not earlier than three days after the date of the transaction.

Documents Available for Collection and Inspection

From the date hereof and throughout the lifetime of the Program, this Offering Circular, copies of Northern Rock's Memorandum and Articles of Association, its audited consolidated financial statements for the fiscal year ended December 31, 2005, any subsequent unaudited semi-annual interim financial statements and any future offering circulars and supplements (including the Final Terms or Pricing Supplement, as the case may be, with respect to listed Notes) to this Offering Circular will be available for collection without charge from, and copies of the Senior Indenture and the Subordinated Indenture (incorporating the forms of the Restricted Global Notes, International Global Notes and Certificated Notes), the Luxembourg Paying and Transfer Agency Agreement, the Deposit and Custody Agreement and the Program Agreement will be available for inspection during normal office hours at, the office of the Luxembourg Paying Agent in Luxembourg, the principal office of the

Trustee in New York, New York and the registered office of Northern Rock. Copies of Northern Rock's current annual report and all subsequent annual reports will also be available for collection without charge as above, however such annual report and annual reports are not incorporated by reference into this Offering Circular and the content thereof should not be relied upon by any investor in respect of the Notes.

Statement of Directors' Responsibilities

The following statement, which should be read in conjunction with the Reporting Accountants' report set out on page F-3, is made with a view to distinguishing for shareholders the respective responsibilities of the Directors and of the Reporting Accountants in relation to the financial statements.

The Directors of Northern Rock plc are required by U.K. company law to prepare financial statements which give a true and fair view of the state of affairs of the Group as at the end of the year and of the profit or loss for the year. They are also responsible for ensuring that proper and adequate accounting records have been maintained and that reasonable procedures have been followed for safeguarding the assets of the Group and hence for taking reasonable steps to prevent and detect fraud and other irregularities.

The Directors consider that in preparing the financial statements, appropriate accounting policies, consistently applied and supported by reasonable and prudent judgements and estimates have been used, and that applicable accounting standards have been followed.

Reporting Accountants' Report

The following is the text of a report received by the Board of Directors of Northern Rock plc from PricewaterhouseCoopers LLP, the Reporting Accountants:

The Directors
Northern Rock plc
Northern Rock House
Gosforth
Newcastle upon Tyne
NE3 4PL

Dear Sirs,

Northern Rock plc
We report on the consolidated financial statements consisting of the consolidated balance sheets of Northern Rock plc and its subsidiaries as of December 31, 2005 and 2004, the related consolidated income statements and consolidated cash flow statements for each of the two years in the period ended December 31, 2005 and the notes to the accounts set out on pages F-4 to F-118. These consolidated financial statements have been prepared for inclusion in the Offering Circular for the US$20,000,000,000 Senior/Subordinated Medium-Term Notes of Northern Rock plc (the "Offering Circular") dated July 18, 2006, on the basis of the accounting policies set out in note 1 to the consolidated financial statements.

Responsibilities
As described on page F-2, the Directors of Northern Rock plc are responsible for preparing the consolidated financial statements on the basis of preparation set out in note 1 and in accordance with applicable law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

It is our responsibility to form an opinion as to whether the consolidated financial statements give a true and fair view, for the purposes of the Offering Circular, and to report our opinion to you.

Basis of Opinion
We conducted our work in accordance with the Standards for Investment Reports issued by the Auditing Practices Board in the United Kingdom. Our work included an assessment of evidence relevant to the amounts and disclosures in the consolidated financial statements. It also included an assessment of significant estimates and judgements made by those responsible for the preparation of the financial information underlying the consolidated financial statements and whether the accounting policies are appropriate to the entity's circumstances, consistently applied and adequately disclosed.

We planned and performed our work so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the consolidated financial statements are free from material misstatement whether caused by fraud or other irregularity or error.

Our work has not been carried out in accordance with auditing standards generally accepted in the United States of America or auditing standards of the Public Accounting Oversight Board (United States) and accordingly should not be relied upon as if it had been carried out in accordance with those standards.

Opinion
In our opinion, the consolidated financial statements give, for the purposes of the Offering Circular dated July 18, 2006, a true and fair view of the state of affairs of Northern Rock plc as at the dates stated and of its profits and cash flows for the periods then ended in accordance with the basis of preparation set out in note 1 and in conformity with IFRS as adopted by the European Union.

Accounting principles in conformity with IFRS as adopted by the European Union vary in certain material respects from accounting principles generally accepted in the United States of America. The application of the latter, after the restatement referred to in note 47 would have affected the determination of consolidated net profit expressed in pounds sterling for each of the years at December 31, 2005 and 2004, to the extent summarised in notes 47 and 48 to the consolidated financial statements.

As discussed in the Principal Accounting Policies of the consolidated financial statements, the Group has applied International Financial Reporting Standards with effect from January 1, 2004, the date of transition in accordance with the transitional provisions set out in IFRS 1, 'First-time Adoption of International Financial Reporting Standards'. Previously, the Group followed the generally accepted principles of the United Kingdom ('UK GAAP').

Yours faithfully,

PricewaterhouseCoopers LLP, Chartered Accountants,
Newcastle upon Tyne, England

July 18, 2006

NOTES TO THE ACCOUNTS

1. Principal accounting policies

a) Accounting convention

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and IFRIC interpretations that, under European Regulations, are effective or available for early adoption at the Group's first reporting date under IFRS, 31 December 2005, and with those parts of the Companies Act, 1985 applicable to companies reporting under IFRS. The financial statements have been prepared under the historical cost convention as modified by the revaluation of available for sale investments, financial assets and liabilities held at fair value. A summary of the more important group accounting policies is set out below, together with an explanation of where changes have been made to previous policies on the adoption of new accounting standards in the year. Where comparative figures have been prepared under UK GAAP, the applicable accounting policy has been disclosed in the relevant note. Reconciliations from UK GAAP to IFRS are contained in notes 43 to 46.

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

b) Basis of consolidation

The financial information of the Group incorporates the assets, liabilities, and results of Northern Rock plc and its subsidiary undertakings (including Special Purpose Entities). Entities are regarded as subsidiaries where the Group has the power to govern financial and operating policies so as to obtain benefits from their activities. Inter-company transactions and balances are eliminated upon consolidation.

The acquisition method of accounting is used to account for the purchase of subsidiaries which are held at cost.

c) Interest income and expense

Interest income and expense are recognised in the income statement for all instruments measured at amortised cost using the effective interest method.

The effective interest method calculates the amortised cost of a financial asset or a financial liability, and allocates the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Group estimates cash flows considering all contractual terms of the financial instrument (for example prepayment options) but does not consider future credit losses. The calculation includes all amounts received or paid by the Group that are an integral part of the overall return; direct incremental transaction costs related to the acquisition or issue of a financial instrument and all other premiums and discounts.

Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

1. Principal accounting policies (continued)

d) Fees and commissions

Where they are not included in the effective interest calculation, fees and commissions are generally recognised on an accruals basis when the service has been provided. Loan commitment fees for loans that are likely to be drawn down are deferred (together with related incremental direct costs) and recognised as an adjustment to the effective interest rate on the loan. Insurance commissions are recognised in the period in which they are earned.

e) Financial instruments

Financial assets can be classified in the following categories: loans and receivables, available for sale, held to maturity or financial assets at fair value through profit and loss. Management determines the classification of its investments at initial recognition. The Group measures all of its financial liabilities at amortised cost, other than those instruments which have been designated as part of a hedging relationship (see below). All regular way trades are accounted for on a trade date basis.

i) Loans and receivables and financial liabilities at amortised cost

The Group's loans and advances to customers are classified as loans and receivables. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, whose recoverability is based solely on the credit risk of the customer and where the Group has no intention of trading the loan. Both loans and receivables and financial liabilities are initially recognised at fair value including direct and incremental transaction costs. Subsequent recognition is at amortised cost using the effective interest method.

ii) Available for sale financial assets

Available for sale financial assets are non-derivative financial assets, principally but not exclusively investment securities intended to be held for an indefinite period of time which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices. They are initially measured at fair value including direct and incremental transaction costs. Subsequent measurement is at fair value, with changes in fair value being recognised in equity except for impairment losses and translation differences, which are recognised in the income statement. Upon derecognition of the asset, or where there is objective evidence that the investment security is impaired, the cumulative gains and losses recognised in equity are removed from equity and recycled to the income statement.

iii) Held to maturity financial assets

Held to maturity financial assets are non-derivative financial assets with fixed or determinable payments that the Group has the ability and intention to hold to maturity. They are initially measured at fair value including direct and incremental transaction costs. Subsequent measurement is at amortised cost using the effective interest method.

1. Principal accounting policies (continued)

iv) Financial assets at fair value through profit or loss

A financial asset is classified in this category if it is so designated by management on initial recognition. Derivatives are held at fair value through profit or loss unless they are designated as cash flow hedges. The assets are initially measured at fair value, with transaction costs taken directly to the income statement. Subsequent measurement is at fair value, with changes in fair value included directly in the income statement.

The fair values of quoted investments in active markets are based on current bid prices. If the market for a financial asset is not active (and for unlisted securities), the Group establishes fair value using valuation techniques. These include the use of recent arm's length transactions, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants.

f) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

g) Derivative financial instruments and hedge accounting

The Group undertakes transactions in derivative financial instruments, which include cross currency swaps, interest rate swaps, equity swaps, interest rate caps, forward rate agreements, options, foreign exchange contracts and similar instruments, for non-trading purposes.

The Group's derivative activities are entered into for the purpose of matching or eliminating risk from potential movements in interest and foreign exchange rates inherent in the Group's assets, liabilities and positions. All derivative transactions are for economic hedging purposes and so it is therefore decided at the outset which position the derivative will be hedging. Derivatives are reviewed regularly for their effectiveness as hedges and corrective action taken, if appropriate. Derivatives are measured initially at fair value and subsequently remeasured to fair value. Fair values are obtained from quoted market prices in active markets and where these are not available from valuation techniques including discounted cash flow models and option pricing models. Where derivatives are not designated as part of a hedging relationship, changes in fair value are recorded in the income statement. Where derivatives are designated within hedging relationships, the treatment of the fair value changes depends on the nature of the hedging relationship as explained below.

Hedge accounting is used for derivatives designated in this way provided certain criteria are met. The Group documents at inception of the hedge relationship the link between the hedging instrument and the hedged item as well as its risk management objective and strategy for undertaking various hedge transactions. The Group also documents its assessment both at hedge inception and on an ongoing basis of whether the derivatives used in hedging transactions are highly effective in offsetting changes in the fair values or cash flows of hedged items.

i) Cash flow hedges

A cash flow hedge is used to hedge exposures to variability in cash flows, such as variable rate financial assets and liabilities. The effective portion of changes in the derivative fair value is recognised in equity, and recycled to the income statement in the periods when the hedged item will affect profit and loss. The fair value gain or loss relating to the ineffective portion is recognised immediately in the income statement.

1. Principal accounting policies (continued)

ii) Fair value hedges

A fair value hedge is used to hedge exposures to variability in the fair value of financial assets and liabilities, such as fixed rate loans. Changes in fair value of derivatives that are designated and qualify as fair value hedges are recorded in the income statement, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk. If the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of the hedged item is amortised to the income statement over the period to maturity.

If derivatives are not designated as hedges then changes in fair values are recognised immediately in the income statement.

iii) Embedded derivatives

Certain derivatives are embedded within other non-derivative host instruments to create a hybrid instrument. Where the economic characteristics and risks of the embedded derivatives are not closely related to the economic characteristics and risk of the host instrument, and where the hybrid instrument is not measured at fair value, the Group separates the embedded derivative from the host instrument and measures it at fair value with the changes in fair value recognised in the income statement.

h) Sale and repurchase agreements

Securities sold subject to repurchase agreements ('repos') are reclassified in the financial statements as assets pledged when the transferee has the right by contract or custom to sell or repledge the collateral; the counterparty liability is included in amounts due to other banks, deposits from banks, other deposits or deposits due to customers, as appropriate. Securities purchased under agreements to resell, ('reverse repos'), are recorded as loans and advances to banks or customers as appropriate. The difference between sale and repurchase price is treated as interest and accrued over the life of the agreements using the effective interest method. Securities lent to counterparties are also retained in the financial statements.

Securities borrowed are not recognised in the financial statements, unless these are sold to third parties, in which case the obligation to return them is recorded at fair value as a trading liability.

i) Impairment losses

The Group assesses its financial assets or groups of financial assets for objective evidence of impairment at each balance sheet date. An impairment loss is recognised if, and only if, there is a loss event (or events) that has occurred after initial recognition and before the balance sheet date and has a reliably measurable impact on the estimated future cash flows of the financial assets or groups of financial assets.

1: Principal accounting policies (continued)

i) Assets held at amortised cost

The Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. Objective evidence that a financial asset is impaired includes observable data that comes to the attention of the Group about the following loss events:

a) significant financial difficulty of the issuer or obligor;
b) a breach of contract, such as a default or delinquency in interest or principal repayments;
c) the lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;
d) it becomes probable that the borrower will enter bankruptcy or other financial reorganisation;
e) the disappearance of an active market for that financial asset because of financial difficulties; or
f) observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:
    i. adverse changes in the payment status of borrowers in the portfolio;
    ii. national or local economic conditions that correlate with defaults on the assets in the portfolio.

If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss on loans and receivables has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an impairment allowance and the amount of the loss is recognised in the income statement. In future periods the unwind of the discount is recognised within interest income.

When a loan is uncollectible, it is written off against the related provision for loan impairment. Such loans are written off after all the necessary procedures have been completed and the amount of the loss has been determined. Subsequent recoveries of amounts previously written off decrease the amount of the provision for loan impairment in the income statement.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the customer's credit rating), the previously recognised impairment loss is reversed by adjusting the impairment allowance. The amount of the reversal is recognised in the income statement.

1. Principal accounting policies (continued)

ii) Available for sale financial assets

For available for sale financial assets, the Group assesses at each balance sheet date whether there is objective evidence that a financial asset, or group of financial assets are impaired. The amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated cash flows. The rate used to discount the cash flows is the original effective rate on the available for sale financial asset. The amount of the impairment loss is recognised in the income statement. This includes cumulative gains and losses previously recognised in equity which are recycled from equity to the income statement.

j) Derecognition of financial assets and liabilities

Derecognition is the point at which the Group removes an asset or liability from its balance sheet. The Group's policy is to derecognise financial assets only when the contractual right to the cash flows from the financial asset expires. The Group also derecognises financial assets that it transfers to another party provided the transfer of the asset also transfers the right to receive the cash flows of the financial asset. Where the transfer does not result in the Group transferring the right to receive the cash flows of the financial assets, but it does result in the Group assuming a corresponding obligation to pay the cash flows to another recipient, the financial assets are also accordingly derecognised.

The Group derecognises financial liabilities only when the obligation specified in the contract is discharged, cancelled or has expired.

k) Securitisation transactions

Certain Group companies have issued debt securities in order to finance specific loans and advances to customers. Both the debt securities in issue and the loans and advances to customers remain on the Group balance sheet within the appropriate balance sheet headings unless:

i) a fully proportional share of all or of specifically identified cash flows have been transferred to the holders of the debt securities, in which case that proportion of the assets are derecognised;
ii) substantially all the risks and rewards associated with the assets have been transferred, in which case the assets are fully derecognised; or
iii) if a significant proportion of the risks and rewards have been transferred, the assets are recognised only to the extent of the Group's continuing involvement.

All transactions previously recognised under UK GAAP on the basis of linked presentation have been recognised by the separate presentation of the gross assets and the related funding.

1. Principal accounting policies (continued)

l) Debt and equity securities in issue

Issued securities are classified as liabilities where the contractual arrangements result in the Group having an obligation to deliver either cash or another financial asset to the security holder, or to exchange financial instruments under conditions that are potentially unfavourable to the Group. Issued securities are classified as equity where they meet the definition of equity and confer a residual interest in the Group's assets on the holder of the securities.

Financial liabilities are carried at amortised cost using the effective interest rate (see "interest income and expense"). Equity instruments are initially recognised at net proceeds, after deducting transaction costs and any related income tax. Appropriations to holders of equity securities are deducted from equity, net of any related income tax, as they become irrevocably due to the holders of the securities.

m) Foreign currency translation

The Group's financial statements are presented in sterling, which is the functional currency of the parent company. Items included in the financial statements of each of the Group's entities are measured using their functional currency, which is the currency of the primary economic environment in which they operate.

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the dates of the transactions. Monetary items denominated in foreign currencies are translated at the rate prevailing at the balance sheet date. Foreign exchange gains and losses resulting from the restatement and settlement of such transactions are recognised in the income statement, except when deferred in equity as qualifying cash flow hedges. Non-monetary items measured at amortised cost and denominated in foreign currencies are translated at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are translated at the exchange rate at the date of valuation. Where these are held at fair value through profit and loss, exchange differences are reported as part of the fair value gain or loss. Where they are held as available for sale, exchange differences are reported directly in equity.

n) Share-based payments

Share-based payments are accounted for on a fair value basis. The Group measures the fair value of the Long Term Incentive Plan ("LTIP") using a Monte Carlo simulation model and the fair value of the Save-As-You-Earn scheme and all other share based payment schemes using a Black-Scholes option pricing model. The fair value is recognised in the income statement over the relevant vesting period and adjusted for forfeitures, with the number of shares expected to be forfeited estimated at each balance sheet date prior to the vesting date. The impact of any revisions to estimates is reflected in the income statement, with the corresponding adjustment recognised in equity. The only exception is where the share-based payment has vesting outcomes attached to market based performance conditions such as in the case of the LTIPs. Under these circumstances, the Monte Carlo simulation model takes into account these market based performance conditions which effectively estimate the number of shares expected to vest. No subsequent adjustment is then made to the fair value charge for shares that do not vest in the event that these performance conditions are not met.

In accordance with the transitional provisions of IFRS 2 - Share-based Payment, the Group has only applied the requirements of the standard to equity settled share-based payments granted after 7 November 2002.

1. Principal accounting policies (continued)

o) Intangible assets

i) Goodwill

Goodwill arising on the acquisition of subsidiary companies, which is represented by the excess of fair value of the purchase consideration over the fair value of the assets acquired, is capitalised and shown as an asset in the balance sheet. It is reviewed for impairment annually. Any impairment is recognised immediately in the income statement and is not subsequently reversed.

Goodwill arising on acquisitions before the date of transition to IFRS has been retained at the previous UK GAAP amount, having been tested for impairment at 31 December 2003. Goodwill written off to reserves under UK GAAP prior to the introduction of FRS 10 "Goodwill and Intangible Assets" in 1998 has not been reinstated and is not included in determining any subsequent profit or loss on disposal.

ii) Computer software

Costs incurred in acquiring and developing computer software for internal use are capitalised as intangible assets where the software leads to the creation of an identifiable non-monetary asset and it is probable that the expected future economic benefits that are attributable to the asset will flow to the Group from its use for a period of over one year. The software is classified as an intangible asset where it is not an integral part of the related hardware and amortised over its estimated useful life which is generally 3 to 5 years.

Costs associated with maintaining software are expensed as they are incurred.

p) Cash and cash equivalents

For the purposes of the cashflow statement, cash and cash equivalents comprise balances with less than three months' maturity from the date of acquisition, including cash and non-restricted balances with central banks. This differs from UK GAAP, where only cash and balances available on demand were regarded as cash.

q) Taxation

Income tax payable on taxable profits ('current tax') is recognised as an expense in the period in which the profits arise. Income tax recoverable on tax allowances is recognised as an asset only to the extent that it is regarded as recoverable by offset against current or future taxable profits.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred tax is determined using tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the deferred tax asset is realised or the deferred tax liability is settled.

Deferred and current tax assets and liabilities are only offset when they arise in the same reporting tax group and where there is both a legal right of offset and the intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

1. Principal accounting policies (continued)

r). **Pensions and employee benefits**

The Company operates the Northern Rock Pension Scheme (the "Scheme") to provide retirement benefits for staff. Staff who joined the Scheme before 1 July 1999 participate in the funded, contracted out, defined benefit section of the scheme unless they opt out. Other staff, including those employed at 1 July 1999 but not members of the defined benefit section of the Scheme at that date, together with staff employed from 1 July 1999, participate in the defined contribution section of the scheme unless they opt out. The assets of both sections of the Scheme are held in a trustee-administered fund separate from the assets of Northern Rock plc.

A full actuarial valuation of the Group's defined benefit section of the scheme is undertaken every three years with interim reviews in the intervening years; these valuations are updated to 31 December each year by qualified independent actuaries. For the purpose of these annual updates, scheme assets are included at their fair value and scheme liabilities are measured on an actuarial basis using the projected unit credit method. Liabilities in the defined benefit section of the scheme are discounted using rates equivalent to the market yields at the balance sheet date on high quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability. The resulting net surplus or deficit is included in the Group's balance sheet. Surpluses are only recognised to the extent that they are recoverable through reduced contributions in the future or through refunds from the scheme.

The Group's income statement includes the current service cost of providing pension benefits, the expected return on the scheme's assets, net of administration costs, and the interest cost on the scheme's liabilities. Cumulative actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised immediately through the Statement of Recognised Income and Expense.

Past service costs are recognised immediately in the income statement, unless the changes to the Scheme are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past-service costs are amortised on a straight line basis over the average vesting period.

For defined contribution plans, the Company has no further payment obligations once the contributions have been paid. The contributions are recognised as an employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

1. Principal accounting policies (continued)

s) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and provision for impairment, as appropriate. Additions and subsequent expenditure are included in the asset's carrying value or are recognised as a separate asset only when they improve the expected future economic benefits to be derived from the asset. All other repairs and maintenance are charged to the income statement in the period in which they are incurred.

Depreciation is provided using the straight line method to allocate costs less residual values over estimated useful lives, as follows:

Freehold property	100 years
Leasehold property	Unexpired period of the lease
Plant, equipment, fixtures and fittings	
- plant	30 years
- furniture	10 years
- other	5 years
Computer equipment	
- PCs	3 years
- other	5 years
Motor vehicles	4 years

Assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

Where the cost of freehold land can be identified separately from buildings, the land value is not depreciated. Fixed assets are subject to impairment testing, if deemed appropriate.

Assets in the course of construction are not depreciated until they have been completed and transferred to the appropriate category of property, plant and equipment. The costs of financing assets in the course of construction are not included in the costs of the assets.

t) Leases

Operating lease payments are charged to the income statement on a straight line basis unless a different systematic basis is more appropriate. Where an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor in compensation is charged to the income statement in the period in which termination is made.

1: Principal accounting policies (continued)

u) Share capital

i) Share issue costs

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

ii) Dividends on ordinary shares

Dividends on ordinary shares are recognised in equity in the period in which they are approved by the Company's shareholders or paid.

iii) Treasury shares

Where any Group company purchases the Company's equity share capital, the consideration paid is deducted from total shareholders' equity as treasury shares until they are cancelled. Where such shares are subsequently sold or reissued, any consideration received is included in shareholders' equity.

v) Transition to IFRS

The Group's financial statements for the year ending 31 December 2005 are the first annual financial statements that comply with IFRS.

Northern Rock plc's transition date is 1 January 2004. The Group prepared its opening IFRS balance sheet at that date. The Group's IFRS adoption date is 1 January 2005.

In preparing these financial statements in accordance with IFRS 1, the Group has applied the following optional exemptions and mandatory exceptions from full retrospective application of IFRS.

Applicable optional exemptions from full retrospective application elected by the Group

i) Business combinations

Northern Rock has applied the business combinations exemption in IFRS 1. It has not restated business combinations that took place prior to the 1 January 2004 transition date.

ii) Fair value as deemed cost

Northern Rock has elected to measure certain items of property, plant and equipment at fair values as at 1 January 2004. The application of this exemption is detailed in note 44h.

iii) Employee benefits

Northern Rock has elected to recognise all cumulative actuarial gains and losses on its final salary pension scheme at 1 January 2004, and to apply the exemption under IFRS 1 paragraph 20A from providing four years' comparative amounts in respect of disclosures of the history of experience gains and losses.

1. Principal accounting policies (continued)

iv) Exemption from restatement of comparatives for IAS 32 and IAS 39

Northern Rock has elected to apply this exemption, with the exception in regards to the recognition of previously derecognised assets and liabilities of securitisation vehicles and inactive retail accounts in accordance with IFRS 1 paragraph 27A. It has applied previous UK GAAP rules to derivatives, financial assets and financial liabilities and to hedging relationships for the 2004 comparative information. The adjustments required for differences between UK GAAP and IAS 32 and IAS 39 are determined and recognised at 1 January 2005. The adjustments are detailed in note 46.

v) Designation of financial instruments

Northern Rock reclassified various securities as available for sale investments. The adjustments relating to IAS 32 and IAS 39 at the opening balance sheet date of 1 January 2005, the IAS 32/39 transition date, are detailed in note 46.

vi) Share based transactions

Northern Rock has elected to apply the share based payment exemption. It applies IFRS 2 from 1 January 2004 to those share based payment schemes that were granted after 7 November 2002 but that have not vested by 1 January 2005.

vii) Recognition of financial assets and liabilities

Northern Rock has applied the exemption in IFRS 1 paragraph 27A to financial assets and liabilities of securitisation vehicles and to inactive retail accounts previously derecognised. All such balances previously derecognised under UK GAAP are recognised on the balance sheet at transition date.

Applicable mandatory exceptions from full retrospective application followed by the Group

i) Hedge accounting

Management has applied the hedge accounting exception from 1 January 2005 only if the hedge relationship meets all the hedge accounting criteria under IAS 39. The application of this exception at the opening balance sheet date of 1 January 2005 is detailed in note 46.

w) Standards, interpretations and amendments to published standards that are not yet effective

Certain new standards, amendments and interpretations to existing standards have been published that are relevant and mandatory for the Group's accounting periods beginning on or after 1 January 2006 or later periods but which the Group has not adopted early, as follows:

i) IFRS 7, Financial Instruments: Disclosures, and a complementary amendment to IAS 1, Presentation of Financial Statements – Capital Disclosures (effective 1 January 2007).

IFRS 7 amends disclosures relating to financial instruments and requires the disclosure of qualitative and quantitative information relating to exposure to risks arising from financial instruments, including specified disclosures about credit risk, market risk and liquidity risk. It replaces IAS 30, Disclosures in the Financial Statements of Banks and Similar Financial Institutions, and disclosure requirements in IAS 32, Financial Instruments: Disclosure and Presentation. The amendment to IAS 1 introduces disclosures about the level of an entity's capital, and how it manages it.

2. Critical accounting estimates

a) Impairment losses on loans and advances

Individual impairment losses on loans and advances are calculated based on an individual valuation of the underlying asset. Collective impairment losses on loans and advances are calculated using a statistical model. The key assumptions used in the model are the probability of any account going into default in the next twelve months, the loss incurred in the event of possession or write off, the roll rates of borrowers moving from lower levels of arrears to serious arrears and possession or write off, and the time period from the date of the event causing the loss to the date of realisation of the property or write off. The probability of accounts going into default is based on application and behavioural scorecards, which are regularly recalibrated to take account of current circumstances. These key assumptions are based on observed data from historical patterns from lending over previous years and are updated regularly based on new data as it becomes available. In addition, management considers how appropriate past trends and patterns might be in the current economic situation and makes any adjustments that it believes to be necessary to reflect current conditions. The accuracy of the impairment calculation would therefore be affected by unexpected changes to the economic situation, inaccuracies within the models used compared to actual outcomes and assumptions which differ from actual outcomes. To the extent that the loss given default differs by +/- 10%, the impairment allowance would be an estimated £12.1m higher or £12.0m lower respectively.

b) Fair value calculations

Fair value is defined as the value at which assets, liabilities or positions could be closed out or sold in a transaction with a willing and knowledgeable counterparty. For the majority of instruments carried at fair value, these are determined by reference to quoted market prices. Where these are not available, fair value is based upon cash flow models, which use wherever possible independently sourced market parameters such as interest rate yield curves, currency rates and option volatilities. Other factors are also considered, such as counterparty credit quality and liquidity. Management must use judgement and estimates where not all necessary data can be externally sourced or where factors specific to Northern Rock's holdings need to be considered. The accuracy of the fair value calculations would therefore be affected by unexpected market movements, inaccuracies within the models used compared to actual outcomes and incorrect assumptions. For example, if management were to use a tightening in the credit spread of 10 basis points, the fair values of liabilities and derivatives would increase from the reported fair values by £83.8m.

c) Average life of secured lending

IAS 39 requires interest earned from mortgage lending to be measured under the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset.

Management must therefore use judgement to estimate the expected life of each instrument and hence the expected cash flows relating to it. The accuracy of the effective interest rate would therefore be affected by unexpected market movements resulting in altered customer behaviour, inaccuracies in the models used compared to actual outcomes and incorrect assumptions. If the estimated average life of secured loans were increased or reduced by one month, the value of such loans on the balance sheet would be increased or decreased by £9.7m and £10.4m respectively.

2. Critical accounting estimates (continued)

d) Pension benefits

The present value of the pensions obligations is dependent upon an actuarial calculation which includes a number of assumptions. These assumptions include the discount rate, which is used to determine the present value of the estimated future cash outflows that will be required to meet the pension obligation. In determining the appropriate discount rate to use, the Group considers market yields of high quality corporate bonds denominated in sterling that have terms to maturity approximating the terms of the pension liability. Were this discount rate to reduce by 0.1% or increase by 0.1% from the current management estimate, the carrying value of the pension obligations would be an estimated £6.6m higher or £6.6m lower respectively.

Other key assumptions for pensions benefits including mortality tables are based in part upon current market conditions. Additional information is included in note 7.

3. Interest and similar income

	2005 £m	2004 £m
On secured advances	**3,220.2**	2,303.4
On other lending	**337.0**	323.5
On investment securities and deposits	**499.5**	362.5
	4,056.7	2,989.4

The accounting policy under UK GAAP for revenue recognition in 2004 is set out below.

"Interest income is recognised in the profit and loss account on an accruals basis, except for income on loans taken into possession which is taken to income when it is received.

Fees receivable from customers to reimburse the Group for costs incurred are taken to the profit and loss account when due. Fees receivable relating to ongoing services are taken to income when the related service is performed, and fees in lieu of interest are taken to income on a level yield basis over the life of the loan."

Included within the above is £3.3m with respect to the unwind of the impairment allowance discount.

4. Interest expense and similar charges

	2005 £m	2004 £m
On retail customer accounts	**841.7**	689.7
On other deposit accounts	**2,398.7**	1,714.5
On subordinated liabilities	**53.7**	85.5
On tier one notes	**14.0**	13.0
On reserve capital instruments	**(3.7)**	19.8
	3,304.4	2,522.5

5. Administrative expenses

		2005 £m	2004 £m
Wages and salaries		**121.9**	100.9
Social security costs		**10.6**	8.9
Other pension costs		**12.0**	9.8
Total staff costs		**144.5**	119.6
Other administrative expenses		**81.6**	80.5
		226.1	200.1
Other administrative expenses include:			
Hire of equipment		**5.3**	5.5
Property rentals		**3.6**	3.1
Remuneration of auditors:	statutory audit	**1.7**	1.1
	further assurance services	**0.8**	1.0
		2.5	2.1

Remuneration of auditors for audit work for the Company amounted to £1.3m (2004 £0.7m). Further assurance services comprises services provided in respect of International Financial Reporting Standards, securitisation transactions and the raising of wholesale funding. No other consultancy advice was provided.

The average number of persons employed by the Group was as follows:

	2005	2004
Full time	**4,569**	3,916
Part time	**1,210**	1,064

6. Share based payment

Summary of schemes

Northern Rock grants share options to executive officers and employees under the following schemes:

- Employee Share Option Scheme
- Employee Sharesave Scheme

Equity instruments other than options have been granted under the following schemes:

- Share Incentive Plan
- Long Term Incentive Plan
- Share Matching Scheme
- Deferred Share Scheme

Further details of each scheme are given below.

Share Option Schemes

Employee Share Option Scheme
The Employee Share Option Scheme is an incentive scheme established in 1998 under which eligible employees may be granted share options. In accordance with the scheme, options are granted at an exercise price equivalent to market price on the grant date with a vesting period of 3 years. Upon vesting, options may be exercised up to ten years from the grant date.
An initial grant of options was made in 1998, a second grant was made in 2002 and a further grant was made in 2005.

Employee Sharesave Scheme
Qualifying employees may participate in the Employee Sharesave Schemes which are HM Revenue & Customs approved Save As You Earn ("SAYE") option schemes. Under these schemes, employees may contribute a portion of their monthly salary, up to a specified maximum amount, and at the expiry of a fixed term have the option to use the savings to acquire shares in Northern Rock plc. The fixed terms outlined in the schemes for option vesting are three, five and seven years. Options can be exercised up to six months after vesting. Employees who leave the Company prior to the options fully vesting may be able to exercise their options, for up to six months, if they meet certain specified criteria. Options are granted to the employees at a discount from the market price. This was 20% for the first two grants and 10% for subsequent grants. The vesting period for the options is equivalent to the fixed terms in accordance with the schemes' rules.

Four Sharesave schemes are currently in operation resulting from options offered to employees during 1997, 2000, 2003 and 2005. Employees can save in any number of the schemes up to an overall specified maximum amount.

The following tables summarise the movement in the number of share options between those outstanding at the beginning and end of the year, together with changes in the weighted average exercise price over the same period. The number of shares authorised for grant under each scheme was equal to the actual number of shares granted in all years presented.

6. Share based payment (continued)

	Options outstanding at the beginning of the year	Options granted during the year	Options exercised during the year	Options forfeited during the year	Options expired during the year	Options outstanding at the end of the year	Options exercisable at the end of the year
2005							
Employee Sharesave (2005) Scheme	-	808,621	(41)	(36,381)	-	772,199	-
Employee Sharesave (2003) Scheme	825,588	-	(4,578)	(33,000)	-	788,010	2,212

Employee Share Option (1998) Scheme	945,565	-	(368,295)	(7,500)	-	569,770	569,770

6. Share based payment (continued)

All options outstanding at 31 December 2005 under the Employee Sharesave (2005) Scheme, the Employee Sharesave (2003) Scheme, the Employee Sharesave (2000) Scheme, the Employee Sharesave (1997) Scheme, the Employee Share Option (2005) Scheme, the Employee Share Option (2002) Scheme and the Employee Share Option (1998) Scheme were granted with an exercise price of £7.27, £5.98, £2.15, £3.81, £7.73, £6.41 and £6.18 respectively. The market price of the Company's shares at the grant date for each of these schemes was £8.08, £6.40, £3.07, £4.82, £7.73, £6.41 and £6.18 respectively.

Share-based compensation costs relating to these schemes were as follows:

	2005	2004
	£m	£m
Employee Sharesave (2005) Scheme	**0.2**	-
Employee Sharesave (2003) Scheme	**0.4**	0.3
Employee Sharesave (2000) Scheme *	**-**	-
Employee Sharesave (1997) Scheme *	**-**	-
Employee Share Option (2005) Scheme	**1.4**	-
Employee Share Option (2002) Scheme *	**-**	-
Employee Share Option (1998) Scheme *	**-**	-

* In accordance with the transitional provisions, the Group has only applied the requirements of IFRS 2 - Share-based Payment to equity settled share-based payments granted after 7 November 2002.

The fair value of options granted during the year were as follows:

	2005	2004
	£	£
Employee Sharesave (2005) Scheme		
Three year vesting	**1.73**	-
Five year vesting	**2.17**	-
Employee Share Option (2005) Scheme	**1.54**	-

The fair value of options granted during the year was determined using a Black Scholes valuation model. The significant inputs into the model were share prices at the grant date, exercise prices, and option lives as disclosed above, and volatility and risk free interest rates as follows:

6. Share based payment (continued)

Volatility	2005	2004
	%	%
Employee Sharesave (2005) Scheme		
Three year vesting	25.1	-
Five year vesting	28.6	-
Employee Share Option (2005) Scheme	25.3 – 29.1	-

The volatility is based on a statistical analysis of daily share prices over a period equal to the vesting period of each scheme ending on the day before the grant date for each scheme.

Risk free interest rates	2005	2004
	%	%
Employee Sharesave (2005) Scheme		
Three year vesting	4.8	-
Five year vesting	4.8	-
Employee Share Option (2005) Scheme	4.5 – 4.6	-

The weighted average remaining contractual life of options outstanding at 31 December 2005 were as follows.

Employee Sharesave (2005) Scheme	3.9 years
Employee Sharesave (2003) Scheme	1.8 years
Employee Sharesave (2000) Scheme *	1.8 years
Employee Sharesave (1997) Scheme *	-
Employee Share Option (2005) Scheme	9.1 years
Employee Share Option (2002) Scheme *	6.5 years
Employee Share Option (1998) Scheme *	2.4 years

* In accordance with the transitional provisions, the Group has only applied the requirements of IFRS 2 - Share-based Payment to equity settled share-based payments granted after 7 November 2002.

6. Share based payment (continued)

Other Equity Instruments

Share Incentive Plan / Approved Profit Sharing Scheme
The Share Incentive Plan ("SIP") was established in 2003 and is available to all employees who have completed a minimum of six months of service. Provided that the Group meets certain performance criteria annually as outlined in the SIP, eligible employees are granted rights to shares in Northern Rock plc for an amount not in excess of 5% of their annual salary, subject to a maximum of £3,000, free from any consideration. The rights to shares vest immediately. The Company subsequently purchases shares to satisfy the shares vested and transfers them to an independent trustee company. Shares are transferred to the employees by the trustee company on the fifth anniversary of the grant date. The SIP was introduced following changes to UK legislation regarding employee share compensation schemes. Prior to this the Company operated an Approved Profit Sharing Scheme ("APSS") for employees. The qualifying conditions for and operation of APSS were the same as for SIP except that shares were transferred to the employees by the trustee company on the third anniversary of the grant date rather than the fifth anniversary. Compensation expense relating to these schemes was £1.8m (2004 £1.8m).

Long Term Incentive Plan
Executive Directors and certain other senior executives are granted rights to shares under the Long Term Incentive Plan ("LTIP"). All details relating to this scheme are included within the Directors' Remuneration Report on pages 97 and 98 and pages 108 and 109.

The following tables summarise the movement in the number of share options between those outstanding at the beginning and end of the year, together with changes in weighted average exercise price over the same period. The number of shares authorised for grant under each scheme was equal to the actual number of shares granted in all years presented.

6. Share based payment (continued)

Details of rights to shares held by Executive Directors are included within the Directors' Remuneration Report on page 108. Details of all rights held under the scheme are shown below:

	Rights outstanding at the beginning of the year	Rights granted during the year	Rights exercised during the year	Rights forfeited during the year	Rights expired during the year	Rights outstanding at the end of the year	Rights exercisable at the end of the year
2005							
LTIP 2005-2007 Scheme	-	669,318	-	-	-	669,318	-
LTIP 2004-2006 Scheme	591,441	-	-	-	-	591,441	-
LTIP 2003-2005 Scheme	636,966	-	-	-	-	636,966	-
LTIP 2002-2004 Scheme	389,040	-	(282,836)	(106,204)	-	-	-
2004							
LTIP 2004-2006 Scheme	-	591,441	-	-	-	591,441	-
LTIP 2003-2005 Scheme	636,966	-	-	-	-	636,966	-
LTIP 2002-2004 Scheme	389,040	-	-	-	-	389,040	-
LTIP 2001-2003 Scheme	377,750	-	(377,750)	-	-	-	-

6. Share based payment (continued)

The fair value of shares granted during the year was determined using a Monte Carlo simulation model. The significant inputs into the model were share prices of £7.68, £7.40 and £6.15 at the grant date in 2005, 2004 and 2003 respectively, exercise price of nil, standard deviation of expected share price returns of 25.3%, 29.0% and 33.5% respectively, option life of 3 years, and the annual risk free interest rate of 4.5%, 4.6% and 3.8% respectively. Correlation of the Company's share price movement with the comparator companies in the FTSE 100 index or FTSE 350 index as appropriate is calculated by reference to the share price of the Company compared to the individual FTSE 100 or 350 companies on a daily basis over the three year period ending on the date before the grant date for each scheme. The volatility is based on a statistical analysis of daily share prices over the three year period ending on the date before the grant date for each scheme. Compensation expense relating to this scheme in 2005 was £2.3m (2004 £2.3m).

Share Matching Schemes

The Company operates two Share Matching Schemes which entitle certain employees to use their annual bonus under the short term cash bonus scheme to purchase shares in Northern Rock plc. The first scheme applies to Executive Directors and other senior executives (Share Matching Scheme 1). The Company grants the employee one additional share for every share purchased. Rights to these shares vest over 3 years from the grant date. The Company has purchased or will purchase shares on behalf of the employees for the amounts allocated by them from their annual bonuses together with shares equivalent to the related rights granted and has transferred them to an independent trustee. The shares will be transferred to the employees at the end of the vesting period. Compensation expense relating to this scheme in 2005 was £3.1m (2004 £2.4m).

Details of the rights held by Executive Directors are included within the Directors' Remuneration Report on page 105.

The second scheme (Share Matching Scheme 2) was introduced during 2001 and applies to other senior management. Under the scheme, employees are entitled to use their annual bonus under the short term cash bonus scheme to purchase shares in Northern Rock plc. For every two shares purchased by the employee, the Company grants the employee the right to one additional share, free from any consideration. Rights to these shares vest over 3 years from the grant date. The Company has purchased or will purchase shares on behalf of the employees for the amounts allocated by them from their annual bonuses together with shares equivalent to the related rights granted and has transferred them to an independent trustee. The shares will be transferred to the employees at the end of the vesting period. Compensation expense relating to this scheme in 2005 was £0.3m (2004 £0.3m).

Details of the rights held by employees in Share Matching Schemes are detailed below:

	Rights outstanding at the beginning of the year	Rights granted during the year	Rights exercised during the year	Rights forfeited during the year	Rights expired during the year	Rights outstanding at the end of the year	Rights exercisable at the end of the year
2005							
Scheme 1	909,888	354,346	(170,852)	-	-	1,093,382	-
Scheme 2	130,068	55,112	(36,480)	(2,191)	-	146,509	-
2004							
Scheme 1	646,526	393,177	(129,815)	-	-	909,888	-
Scheme 2	124,240	51,753	(44,047)	(1,878)	-	130,068	-

6. Share based payment (continued)

Deferred Share Scheme

Executive Directors or other executives who receive a bonus under the short term cash bonus scheme may, at the absolute discretion of the Remuneration Committee, be granted an award of shares under the Deferred Bonus Plan with a pre-tax value equal to the pre-tax value of their bonus under the short term cash bonus scheme. A participant who is granted an award must normally continue to hold those shares and remain an employee of the Group for a period of three years from the grant date in order to retain the full number of shares so granted to them, although shares will be released earlier in certain "good leaver" circumstances. Compensation expense relating to this scheme in 2005 was £2.2m (2004 £1.6m).

Details of the rights held by Executive Directors are included within the Directors' Remuneration Report on page 106. Details of all rights held under the Deferred Bonus Plan are shown below:

	Rights outstanding at the beginning of the year	Rights granted during the year	Rights exercised during the year	Rights forfeited during the year	Rights expired during the year	Rights outstanding at the end of the year	Rights exercisable at the end of the year
2005	632,291	246,430	(117,942)	-	-	760,779	-
2004	489,801	251,849	(109,359)	-	-	632,291	-

The table below sets out the total number of rights granted during each year and the fair value at grant date for the following schemes:

	2005		2004	
	Number of rights granted	**Fair value at grant date (£)**	Number of rights granted	Fair value at grant date (£)
Share Incentive Plan	**221,283**	**8.01**	236,041	7.66
Long Term Incentive Plan	**669,318**	**3.79**	591,441	4.07
Share Matching Scheme 1	**354,346**	**7.73**	393,177	7.40
Share Matching Scheme 2	**55,112**	**8.32**	51,753	7.25
Deferred Share Scheme	**246,430**	**7.73**	251,849	7.40

7. Pension commitments

The Company operates one main employee benefit scheme ("the Scheme") with both defined benefit and defined contribution sections.

The defined benefit section of the Scheme provides benefits based on final salary for certain employees. The assets of the Scheme are held in a separate trustee-administered fund. Contributions to the defined benefit section are assessed in accordance with the advice of an independent qualified actuary using the projected unit method. The defined benefit section was closed to new entrants in July 1999.

The Company's policy for recognising actuarial gains and losses is to recognise them immediately on the balance sheet through the Statement of Recognised Income and Expense.

The overall costs of the Scheme have been recognised in the Company's accounts in accordance with IAS19.

Summary of assumptions

	2005 %	2004 %	2003 %
Price inflation	**2.75**	2.75	2.65
Rate of increase in salaries	**4.50**	4.50	4.40
Rate of increase for pensions in payment*	**3.10**	3.10	3.00
Rate of increase for deferred pensions	**2.75**	2.75	2.65
Discount rate	**4.75**	5.30	5.40
Expected rate of return on assets	**6.30**	6.75	6.75

** in excess of any Guaranteed Minimum Pension (GMP) element*

The most significant non-financial assumption is the assumed rate of longevity, which is based on the standard tables known as PA92, projected to 2003, with an age rating of minus two years applied for non-pensioners and no rating for pensioners.

The expected return on assets has been derived as the weighted average of the expected returns from each of the main asset classes. The expected return for each asset class reflects a combination of historical performance analysis, the forward looking views of the financial markets (as suggested by the yields available), and the views of investment organisations.

Categories of assets

	2005 %	2004 %	2003 %
Equities	**50**	53	53
Bonds	**35**	40	42
Property	**7**	6	4
Cash/other	**8**	1	1
Total	**100**	100	100

7. Pension commitments (continued)

Funded status

	2005 £m	2004 £m	2003 £m
Present value of defined benefit obligation	(311.0)	(251.4)	(226.1)
Assets at fair value	256.6	198.9	178.8
Defined benefit liability	(54.4)	(52.5)	(47.3)

Disclosed pension expense for year

	2005 £m	2004 £m
a) Components of defined benefit pension expense		
Current service cost	8.9	7.9
Interest cost	13.5	12.3
Expected return on assets	(13.5)	(12.3)
Total pension expense	8.9	7.9

b) Statement of recognised income and expense (SORIE)	2005 £m	2004 £m
Actuarial loss recognised in SORIE	(18.5)	(2.8)
Cumulative actuarial losses recognised at 1 January	(2.8)	-
Cumulative actuarial losses recognised at 31 December	(21.3)	(2.8)

Reconciliation of return on assets for year

	2005 £m	2004 £m
Expected return on assets	13.5	12.3
Actuarial gain on assets	20.8	4.2
Actual return on assets	34.3	16.5

Movements in present value of defined benefit obligation during the year

	2005 £m	2004 £m
Present value of defined benefit obligation at 1 January	251.4	226.1
Defined benefit service cost	8.9	7.9
Interest cost	13.5	12.3
Defined benefit employee contributions	1.8	1.7
Actuarial loss	39.4	7.0
Defined benefit actual benefit payments	(4.0)	(3.6)
Present value of defined benefit obligation at 31 December	311.0	251.4

7. Pension commitments (continued)

Movements in defined benefit fair value of assets during the year	**2005 £m**	2004 £m
Fair value of assets at 1 January	**198.9**	178.8
Actual return on assets	**34.3**	16.5
Defined benefit actual company contributions	**25.6**	5.5
Defined benefit employee contributions	**1.8**	1.7
Defined benefit actual benefits paid	**(4.0)**	(3.6)
Fair value of assets at 31 December	**256.6**	198.9

Experience gains and losses

	2005 £m	2004 £m
Defined benefit obligation	**311.0**	251.4
Fair value of assets	**256.6**	198.9
Deficit	**54.4**	52.5
Experience loss on defined benefit obligation	**39.4**	7.0
Experience gain on assets	**20.8**	4.2

Estimated contributions for year ending 31 December 2006

	2006 £m
Estimated employer contributions for 2006	**50.8**
Estimated employee contributions for 2006	**1.8**
Estimated total contributions for 2006	**52.6**

The estimated employer contributions for 2006 of £50.8m include £45.0m paid in January 2006. This amount together with £20.0m paid in December 2005 results in the payment of £65.0m special contributions having been made by the Company to substantially eliminate the fund deficit as calculated under IAS 19.

Pension costs for the defined contribution section of the Scheme were:

	2005 £m	2004 £m
Total included in staff costs	**2.4**	1.8

8. Impairment losses on loans and advances

	On advances secured on residential property £m	On other secured advances £m	On unsecured loans £m	Total £m
2005				
At 1 January 2005	36.3	12.2	78.4	126.9
Adoption of IAS 39	(1.1)	(0.5)	(1.7)	(3.3)
	35.2	11.7	76.7	123.6
Income Statement:				
Increase in allowance during the year	17.9	2.7	45.6	66.2
Reclassifications	(10.3)	(9.8)	20.1	-
Adjustment resulting from recoveries	(0.6)	-	(9.0)	(9.6)
	7.0	(7.1)	56.7	56.6
Amounts written off during the year	(10.8)	(0.4)	(48.0)	(59.2)
Discount unwind	1.1	0.5	1.7	3.3
At 31 December 2005	32.5	4.7	87.1	124.3

	On advances secured on residential property £m	On other secured advances £m	On unsecured loans £m	Total £m
2004				
At 1 January 2004	40.8	13.2	55.9	109.9
Income Statement:				
Increase in allowance during the year	0.4	0.8	50.2	51.4
Adjustment resulting from recoveries	(0.9)	(0.1)	(1.9)	(2.9)
	(0.5)	0.7	48.3	48.5
Transfers	(0.2)	-	0.2	-
Amounts written off during the year	(3.8)	(1.7)	(26.0)	(31.5)
At 31 December 2004	36.3	12.2	78.4	126.9

9. Net hedge ineffectiveness and other unrealised fair value gains and losses

	2005 £m	2004 £m
Fair value movements of future cashflows excluding interest flows on non-hedging derivatives	**1,675.6**	-
Translation gains and losses on underlying instruments	**(1,693.7)**	-
	(18.1)	-
Net hedge ineffectiveness excluding interest flows on fair value hedges	**(38.3)**	-
Net hedge ineffectiveness and other unrealised fair value gains and losses	**(56.4)**	-

The Group enters into certain derivative financial instruments which although highly effective as economic hedges are not included in hedge accounting relationships. These derivatives include hedges of certain foreign currency assets and wholesale funding recorded at amortised cost and certain instruments included within non shareholders' funds. They also include forward currency contracts and previously effective hedges which have been de-designated.

The fair value movements of future cashflows excluding interest flows on such derivatives are separately identified within "Net hedge ineffectiveness and other unrealised fair value gains and losses", together with the translation gains and losses on underlying instruments arising from the revaluation from foreign currency into sterling. The deemed interest flows on such derivatives are included within interest income or expense, as appropriate.

Net hedge ineffectiveness excluding interest flows on fair value hedges represents the difference between changes in the fair value of future cashflows excluding interest flows of the hedging derivatives and the changes in the fair value of future cashflows excluding interest flows of the underlying hedged items.

10. Directors' emoluments

Full details of the Directors' remuneration and shareholdings are included in the Directors' Remuneration Report set out on pages 94 to 111.

11. Income tax expense

	2005 £m	2004 £m
The income tax expense for the year comprises:		
UK corporation tax		
Current tax on profits for the year	**134.2**	116.4
Adjustments in respect of prior years	**(6.2)**	(2.7)
Total current tax	**128.0**	113.7
Deferred tax (see note 27)	**16.9**	12.1
	144.9	125.8

The tax on the Group's profit before tax differs from the theoretical amount that would arise using the standard rate of UK corporation tax of 30% (2004 30%) as follows:

	2005 £m	2004 £m
Profit before taxation	**494.2**	435.3
Tax calculated at rate of 30% (2004 30%)	**148.3**	130.6
Net non deductible expenses/(non taxable income) for tax purposes	**0.8**	(2.1)
Current tax – prior year adjustment	**(6.2)**	(2.7)
Deferred tax – prior year adjustment	**2.0**	-
Income tax expense	**144.9**	125.8

As detailed in notes 37 and 38, current and deferred income tax have also been charged direct to equity. The deferred income tax charged/(credited) amounts to £1.8m for the Group (2004 £(2.9m)). The current income tax credit amounts to £(13.1m) for the Group (2004 £(1.5m)).

12. Profit attributable to ordinary shareholders

Of the profit attributable to ordinary shareholders, £346.2m (2004 £262.3m) has been dealt with in the accounts of the Company. As permitted by section 230 of the Companies Act 1985, the Company's income statement has not been presented separately.

13. Dividends

The following tables analyse dividends when paid and the year to which they relate.

	2005 pence per share	2004 pence per share
2003 final dividend	**-**	15.8
2004 interim dividend	**-**	8.5
2004 final dividend	**18.0**	-
2005 interim dividend	**9.4**	-
	27.4	24.3

13. Dividends (continued)

The proposed final dividend in respect of 2005 amounts to 20.7 pence per share (£86.4m). These Annual Results do not reflect this dividend payable.

	2005 £m	2004 £m
2003 final dividend	-	66.2
2004 interim dividend	-	35.2
2004 final dividend	**74.7**	-
2005 interim dividend	**39.2**	-
Less paid to ESOP trusts	**(0.1)**	(0.8)
	113.8	100.6

14. Earnings per share

Earnings per Ordinary Share of 72.5p (2004 74.9p) have been calculated by dividing the profit attributable to the holders of Ordinary Shares in Northern Rock plc of £300.7m (2004 £309.5m) by the weighted average number of Ordinary Shares in issue 414.6m (2004 413.0m)

The weighted average number of Ordinary Shares in issue has been determined after excluding the weighted average number of Ordinary Shares held in trust for employee share schemes of 6.6m (2004 8.2m).

Fully diluted earnings per Ordinary Share of 72.0p (2004 74.3p) have been calculated using the weighted average number of shares in issue together with 3.3m (2004 3.6m) potentially dilutive shares resulting from options granted under employee share schemes.

15. Cash and balances with central banks

	2005 £m	2004 £m
Cash in hand	**12.0**	9.0
Balances with central banks other than mandatory reserve deposits	**0.1**	1.2
Included in cash and cash equivalents	**12.1**	10.2
Mandatory reserve deposits with central banks	**57.1**	55.1
	69.2	65.3

Mandatory reserve deposits with central banks are not available for use in day to day operations.

16. Derivative financial instruments

All derivative financial instruments are held for economic hedging purposes, although not all derivatives are designated as hedging instruments under the terms of IAS 39. The analysis below therefore splits derivatives between those in accounting hedge relationships and those in economic hedge relationships but not in accounting hedge relationships.

Northern Rock did not adopt IAS 32 and 39 until 1 January 2005. The disclosures relating to 31 December 2004 are those required under FRS 13 under UK GAAP, the relevant standard at that date.

16. Derivative financial instruments (continued)

2005

	Contract/ notional amount £m	Fair values: Assets £m	Fair values: Liabilities £m
Derivatives in accounting hedge relationships			
Derivatives designated as fair value hedges			
Interest rate swaps	37,159.8	134.5	(210.3)
Cross currency interest rate swaps	4,741.1	239.8	(0.7)
	41,900.9	374.3	(211.0)
Derivatives in economic hedging relationships but not in accounting hedge relationships			
Interest rate derivatives			
Interest rate swaps	11,197.1	141.8	(48.4)
Forward rate agreements	-	-	-
Exchange traded futures	-	-	-
Caps, floors and options	90.0	6.5	-
Equity index swaps	197.7	20.0	(0.9)
Embedded derivatives	181.5	-	(30.3)
	11,666.3	168.3	(79.6)
Currency derivatives			
Cross currency swaps	26,776.6	855.5	(551.9)
Forward foreign exchange	4,533.6	51.7	(3.6)
	31,310.2	907.2	(555.5)
Total derivatives in economic hedging relationships	42,976.5	1,075.5	(635.1)
Total recognised derivative assets/(liabilities)	84,877.4	1,449.8	(846.1)

2004

The information below is based on UK GAAP. The accounting policy used for derivatives under UK GAAP in 2004 is set out below:

"Derivatives comprise, mainly, currency and interest rate swaps, forward rate agreements, foreign exchange forwards and financial futures and options. All transactions are undertaken for hedging purposes.

16. Derivative financial instruments (continued)

Transactions are initially recorded at cost and are accounted for on an accruals basis in accordance with the item or items being hedged. Consequently, profits and losses on the hedges are recognised on a similar accounting basis as the profits or losses on the underlying item or items being hedged. They are therefore recognised in the financial statements as adjustments to the profit or loss of the item or items being hedged. To the extent necessary to achieve a consistent timing of income recognition on the item or items being hedged, deferred gains or losses are included in the balance sheet under the headings "accruals and deferred income" and "prepayments and accrued income". Profits and losses on early termination of contracts that modify the characteristics of designated items are deferred and amortised over the remaining lives of the hedged items. Income and expenses on hedges are recognised as adjustments to interest receivable and interest payable.

When a derivative no longer represents a hedge, because either the underlying asset, liability or position has been extinguished or derecognised, it is restated to market value. Any profit or loss is accounted for in interest income or expense. It is then either redesignated as a hedge of a different asset, liability or position, is disposed of, or the position is otherwise closed, and accounted for accordingly. Where a derivative is no longer a hedge because it ceases to be effective, it is restated to market value and any profit or loss arising is deferred and amortised into interest income or expense over the remaining life of the item previously being hedged."

The table below shows the underlying principal amount and positive and negative fair values of derivatives by type of contract.

	Underlying principal amount	Positive book values	Negative book values	Positive fair values	Negative fair values
	£m	£m	£m	£m	£m
Interest rate derivatives:					
Interest rate swaps					
1 year or less	18,886.7	-	-	30.8	7.5
1 – 5 years	17,651.9	-	-	39.3	95.9
over 5 years	2,602.8	-	-	93.0	13.2
Equity index swaps					
1 year or less	1.0	-	-	-	-
1 – 5 years	179.0	-	-	4.9	4.4
Forward rate agreements					
1 year or less	35.3	-	-	-	-
1 – 5 years	50.0	-	-	-	-
Exchange traded futures					
1 year or less	211.3	-	-	-	1.4
	39,618.0	-	-	168.0	122.4
Currency derivatives					
Cross currency swaps					
1 year or less	1,574.3	9.1	111.4	9.1	102.8
1 – 5 years	5,907.9	215.0	268.2	242.4	255.9
over 5 years	710.0	21.0	60.7	20.8	61.2
Forward foreign exchange					
1 year or less	2,552.4	11.0	76.5	18.8	59.0
	10,744.6	256.1	516.8	291.1	478.9

16. Derivative financial instruments (continued)

The positive fair values in the table relating to 31 December 2004 above represent the gross replacement cost of the Group's derivatives and hence equate to the maximum gross loss it would incur if any party to the derivatives contract failed to perform to its terms. At 31 December 2004 the potential credit exposure after allowing for collateral received was £269.1m.

In addition to the derivatives disclosed above relating to 31 December 2004, there are a number of derivatives that have been entered into by the securitisation Special Purpose Entities (see note 19). These consist of interest rate swaps and cross currency swaps all with a term of over 5 years. The underlying principal amounts at 31 December 2004 were £1,636.1m and £14,810.2m. Positive book values amounted to £nil and £270.6m and negative book values amounted to £nil and £1,368.5m. Positive fair values were £42.7m and £275.4m and negative fair values were £0.3m and £1,367.1m.

Gains and losses on hedging derivatives

	Gains £m	Losses £m	Net £m
Unrecognised gains and losses on hedges			
At 1 January 2004	225.2	(130.0)	95.2
Arising in previous years recognised in 2004	(63.9)	50.4	(13.5)
Brought forward gains and losses not recognised in 2004	161.3	(79.6)	81.7
Arising in 2004 not recognised in 2004	86.7	(49.9)	36.8
At 31 December 2004	248.0	(129.5)	118.5
Of which:			
gains and losses expected to be recognised in 2005	96.3	(36.7)	59.6
gains and losses expected to be recognised in 2006 or later	151.7	(92.8)	58.9

	Gains £m	Losses £m	Net £m
Realised gains and losses on hedges			
At 1 January 2004	6.1	(14.5)	(8.4)
Realised gains and losses brought forward recognised in income in 2004	(6.1)	7.7	1.6
Brought forward realised gains and losses not recognised in income in 2004	–	(6.8)	(6.8)
Realised gains and losses in 2004 not recognised in income in 2004	2.0	(9.6)	(7.6)
At 31 December 2004	2.0	(16.4)	(14.4)
Of which:			
gains and losses expected to be recognised in 2005	2.0	(16.4)	(14.4)

16. Derivative financial instruments (continued)

The above tables show the gains and losses on derivative instruments used for hedging by the Group in 2004 that were, under UK GAAP, off balance sheet. The gains and losses do not therefore represent absolute gains or losses expected by the Group as they will be substantially offset by corresponding losses or gains from on balance sheet instruments.

	Interest rate swaps 2005 £m	**Cross-currency swaps 2005 £m**	**Total 2005 £m**	Interest rate swaps 2004 £m	Cross-currency swaps 2004 £m	Total 2004 £m

Variable rate	**21,062.3**	20,557.5
	70,239.9	54,768.8

19. Securitisation

The Group's results include the results and assets and liabilities of securitisation Special Purpose Entities ("SPEs") on a line by line basis. Under UK GAAP the SPEs were incorporated into the financial statements using linked presentation. Following the introduction of IFRS and a change in UK companies legislation, these SPEs are now treated as legal subsidiaries and consolidated on a line by line basis.

19. Securitisation (continued)

Securitised advances are subject to non-recourse finance arrangements. These loans have been purchased at par by the SPEs from Northern Rock plc, and have been funded through the issue of mortgage-backed bonds. The balances of assets subject to securitisation notes in issue at 31 December 2005 are as follows:

Securitisation company	Date of securitisation	Gross assets securitised £m	Notes in issue £m
Residential:			
Granite Mortgages 99-1 plc	1 October 1999	76.6	66.5
Granite Mortgages 00-1 plc	1 March 2000	228.1	213.1
Granite Mortgages 00-2 plc	25 September 2000	435.6	375.5
Granite Mortgages 01-1 plc	26 March 2001	666.0	641.1
Granite Mortgages 01-2 plc	28 September 2001	737.5	713.2
Granite Mortgages 02-1 plc	20 March 2002	1,378.8	1,366.3
Granite Mortgages 02-2 plc	23 September 2002	1,729.6	1,677.6
Granite Mortgages 03-1 plc	27 January 2003	1,992.3	1,981.3
Granite Mortgages 03-2 plc	21 May 2003	1,507.8	1,468.9
Granite Mortgages 03-3 plc	24 September 2003	1,417.4	1,372.3
Granite Mortgages 04-1 plc	28 January 2004	2,431.3	2,364.8
Granite Mortgages 04-2 plc	26 May 2004	2,642.9	2,587.1
Granite Mortgages 04-3 plc	22 September 2004	3,163.3	3,112.7
Granite Master Issuer plc	26 January 2005	4,007.7	4,000.4
Granite Master Issuer plc	25 May 2005	3,791.9	3,762.1
Granite Master Issuer plc	31 August 2005	549.3	582.2
Granite Master Issuer plc	21 September 2005	4,050.4	3,891.3
		30,806.5	30,176.4
Retained interest in Granite Finance Trustees Limited		9,967.4	
Less cash deposits held with Northern Rock plc		(2,198.0)	
Total residential		38,575.9	30,176.4
Commercial:			
Dolerite Funding No. 1 plc	24 June 2002	147.0	140.8
Retained interest in Dolerite Mortgages Trustee Limited		58.3	
Dolerite Funding No. 2 plc	18 July 2005	593.5	583.1
Retained interest in Dolerite Mortgages Trustee No. 2 Limited		227.7	
Less cash deposits held with Northern Rock plc		(57.2)	
Total commercial		969.3	723.9
Total		39,545.2	30,900.3

19. Securitisation (continued)

Gross assets securitised and notes in issue as presented above reconcile to amounts included in the the consolidated balance sheet within loans and advances to customers and debt securities in issue as follows:

	Gross assets securitised £m	Notes in issue £m
Total as above	39,545.2	30,900.3
Less cash deposits with third parties included within loans and advances to banks	(409.1)	
Less accrued interest on loan notes included within accruals and deferred income		(171.4)
Add loan notes issued by Whinstone Limited (see below)		427.5
Total advances subject to securitisation (see note 18)	39,136.1	
Total securitised notes as per consolidated balance sheet		31,156.4

At 31 December 2005 the SPEs had cash deposits with Northern Rock plc amounting to £2,255.2m (31 December 2004 - £1,396.0m). This balance is restricted in use to the repayment of the debt securities issued by the SPEs and other legal obligations.

On 15 November 2005, Northern Rock entered into a financial guarantee contract with Whinstone Limited, a special purpose entity, in respect of £ 423.0m of the first loss reserve funds held by the Granite securitisation entities repayable to Northern Rock only after repayment of all other liabilities. Whinstone Limited simultaneously issued credit linked notes to the value of £423.0m which are included within debt securities in issue at year end exchange rates where issued in currencies other than sterling.

In addition to the transactions above, Northern Rock assigned a portfolio of unsecured loans valued at £749.7m to Flint Receivables Trustees Limited on 8 December 2003. Flint Consumer Loans No. 1 Limited purchased an interest amounting to £595.0m in the trust on the same date, funded by the issue of asset backed notes. The noteholders have a proportionate interest in each balance in the portfolio, and at 31 December 2005 this interest amounted to £595.0m (2004 £595.0m). The funding giving rise to the noteholders' interest is included within debt securities in issue. Northern Rock retains substantially all the risks and rewards associated with these loans and therefore these transactions do not qualify for derecognition under IAS 39.

20. Covered bonds

Included within loans and advances to customers not subject to securitisation are £4,686.1m (2004 £1,977.6m) of mortgage advances assigned to a bankruptcy remote special purpose vehicle. These loans provide security to issues of covered bonds made by Northern Rock, which are included within debt securities in issue amounting to £3,830.4m (2004 £1,339.0m). Northern Rock retains substantially all the risks and rewards associated with these loans and therefore these transactions do not qualify for derecognition under IAS 39.

21. Available for sale securities

	2005 £m	2004 £m
Debt securities at fair value		
Listed	**4,576.0**	-
Unlisted	**801.1**	-
	5,377.1	-
Fixed rate	**2,346.8**	-
Variable rate	**3,030.3**	-
	5,377.1	-

The movement in available for sale securities was as follows:

	£m
At 1 January 2005	-
Reclassification of financial instruments on introduction of IAS 39	4,966.1
Additions	11,156.3
Disposals (sales and redemptions)	(10,786.4)
Exchange differences	27.8
Net gains on changes in fair value	13.3
At 31 December 2005	5,377.1

Gains of £23.5m previously recognised in reserves have been transferred to the Group income statement on derecognition of available for sale securities.

22. Debt securities (under UK GAAP)

The information below is based on UK GAAP. The accounting policy used for debt securities, and for equity shares and other variable yield securities (see note 23) under UK GAAP in 2004 is set out below:

"Debt securities and equity shares ("securities") are held with the intention of use on a continuing basis and are stated at cost, adjusted to exclude accrued interest at the date of purchase, less provision for any permanent diminution in value. A similar adjustment for accrued interest is made on realisation. Where the adjusted purchase price differs from the nominal value, the premium or discount is amortised or released on an effective yield basis over the period to maturity.

22. Debt securities (under UK GAAP) (continued)

Securities sold subject to repurchase agreements are retained on the balance sheet where the Group retains the risks and rewards of ownership. Funds received under such agreements are included within deposits by banks or customer accounts. Securities purchased under a commitment to resell are treated as collateralised lending transactions where the Group does not acquire the risks and rewards of ownership, and the purchase price is included within either loans and advances to banks or loans and advances to customers. The difference between sale and repurchase prices for such transactions is reflected in the profit and loss account over the lives of the transactions, within interest receivable or interest payable as appropriate."

2004

	Book value £m	Market value £m
Investment securities		
Issued by public bodies:		
Government securities	1,289.0	1,312.4
Issued by other issuers:		
Bank and building society certificates of deposit	456.2	456.2
Other debt securities.	2,997.0	3,014.0
	4,742.2	4,782.6

27. Deferred income tax asset

The full movement in deferred income tax recoverable was as follows:

	2005 £m	2004 £m
At 31 December 2004/2003	**14.1**	23.3
Adoption of IAS 32 and IAS 39	**62.1**	-
At 1 January	**76.2**	23.3
Income statement (charge)/credit	**(16.9)**	(12.1)
Deferred tax impact charged direct to reserves of:		
- net gains from changes in fair value of available for sale securities	**(6.0)**	-
- net profits on disposal of available for sale securities transferred to net income	**0.8**	-
- actuarial losses charged to statement of recognised income and expense	**5.6**	0.8
- share based payments	**(2.2)**	2.1
At 31 December	**57.5**	14.1

Deferred income tax assets and liabilities are attributable to the following items:

	2005 £m	2004 £m
Deferred income tax assets		
Pensions and other employee benefits	**30.0**	26.9
Provision for loan impairment	**24.3**	25.7
Derivatives and financial instruments	**86.4**	-
Other temporary differences	**18.6**	22.0
	159.3	74.6
Deferred income tax liabilities		
Excess of capital allowances over depreciation	**9.0**	9.3
Available for sale securities	**9.7**	-
Derivatives and financial instruments	**24.3**	-
Cashflow hedge	**3.8**	-
Other temporary differences	**55.0**	51.2
	101.8	60.5
Net deferred income tax asset	**57.5**	14.1

27. Deferred income tax asset (continued)

The deferred tax charge in the income statement comprises the following temporary differences:

	2005 £m		2004 £m
Pensions and other employee benefits	**0.1**		-
Provision for loan impairment	**0.5**	(3.7)	(3.7)
Derivatives and financial instruments	**16.4**		-
Excess of capital allowances over depreciation	**(0.3)**		0.5
Other temporary differences	**0.2**		15.3
	16.9		12.1

Deferred income tax liabilities have not been established for tax that would be payable on the unremitted earnings of the Group's overseas subsidiaries. Unremitted earnings at 31 December 2005 totalled £34.5m (2004 £24.9m).

28. Deposits by banks

	2005 £m	2004 £m

	785.3	1,515.7

The 5.625% subordinated bonds due 2015 are not redeemable in the ordinary course of business before 13 January 2010.

The 11.734% subordinated loan 2016 is repayable in five equal annual instalments from 2012 to 2016.

The 5.75% subordinated bonds due 2017 are not redeemable in the ordinary course of business before 28 February 2012.

The 10 3/8% subordinated bonds due 2018 are not redeemable in the ordinary course of business before 25 March 2018.

The 9 3/8% subordinated bonds due 2021 are not redeemable in the ordinary course of business before 17 October 2021.

The 12 5/8% perpetual subordinated notes were created on the transfer of business from Northern Rock Building Society and were issued to holders of Permanent Interest Bearing Shares of the Society.

32. Subordinated liabilities (continued)

The 8% undated subordinated notes are denominated in US dollars; the proceeds and coupon payments have been swapped into sterling. The notes became redeemable on 15 June 2004 and may be subsequently redeemed in the ordinary course of business on coupon dates which fall on 15 March, 15 June, 15 September and 15 December.

The 6.75% fixed rate step-up undated subordinated notes are not redeemable in the ordinary course of business before 17 June 2024.

The floating rate undated subordinated notes are denominated in US dollars; the proceeds and coupon payments have been swapped into sterling. They are not redeemable in the ordinary course of business before 23 February 2011. Interest is payable at 1% above 3 month US$ LIBOR.

The 5.6% undated subordinated notes are denominated in US dollars; the proceeds and coupon payments have been swapped into sterling. The notes are not redeemable in the ordinary course of business before 30 April 2014.

All subordinated liabilities, other than the 8% undated subordinated notes, the floating rate undated subordinated notes and the 5.6% undated subordinated notes, are denominated in sterling. All are ranked equally between and within issues.

Redemptions of any dated subordinated notes prior to their final maturity date and any undated subordinated notes are subject to obtaining prior consent of the Financial Services Authority.

The rights of repayment of holders of subordinated liabilities are subordinated to the claims of other creditors.

In accordance with the requirements of IAS 32, undated subordinated liabilities have been reclassified as non shareholders' equity with effect from 1 January 2005 (see note 35).

33. Tier one notes

The tier one notes were issued for a value of £200m on 21 August 2002 and are undated. They carry a coupon of 7.053% payable annually in arrears on 21 September each year. At each payment date Northern Rock will decide whether to declare or defer the coupon. If Northern Rock decides to defer the coupon, this can then only be satisfied upon the date on which the issue is redeemed. No interest will accrue on any deferred coupon. If Northern Rock defers the coupon, it may not pay a dividend on any share or pay any coupon on the reserve capital instruments, nor redeem or repurchase any of its share capital or reserve capital instruments until it next makes a coupon payment for the tier one notes. Deferred coupons can only be satisfied through the issue of Ordinary Shares.

Northern Rock has a call option after 25 years, which it can only exercise with the consent of the Financial Services Authority. If the issue is not called, the coupon resets to yield 1.835% above 6-month LIBOR.

The full amount of tier one notes is permitted for inclusion within Tier 1 for regulatory capital purposes.

34. Reserve capital instruments

The reserve capital instruments were issued for a value of £200m on 21 September 2000 and are undated. A further £100m was issued in May 2001. They carry a coupon of 8.399% payable annually in arrears on 21 September each year. At each payment date Northern Rock will decide whether to declare or defer the coupon. If Northern Rock decides to declare the coupon, the holder will receive a cash payment equivalent to the coupon which, at Northern Rock's option, will be achieved either by the payment of cash directly, or by the issue of Ordinary Shares in Northern Rock which, when sold by a trustee in the market, will produce an amount equal to the cash payment. If Northern Rock elects to defer the coupon, it may not declare or pay a dividend on any share until the deferred coupons are satisfied. Deferred coupons and any interest accruing thereon can only be satisfied through the issue of Ordinary Shares.

Northern Rock has a call option after 15 years, which it can only exercise with the consent of the Financial Services Authority. If the issue is not called, the coupon resets to yield 4.725% above the prevailing 5-year benchmark Gilt rate.

The maximum amount of reserve capital instruments permitted to be included in Tier 1 for regulatory capital purposes is 15% of overall Tier 1 capital, as defined by the Financial Services Authority. Any excess is allocated to Upper Tier 2 capital.

In accordance with the requirements of IAS 32, reserve capital instruments have been reclassified as non shareholders' equity with effect from 1 January 2005.

Since this date coupons on these notes are treated as appropriations. Prior to this date coupons were treated as interest payable.

35. Subordinated notes

	2005 £m	2004 £m
12 5/8% Perpetual subordinated notes	**19.8**	-
8% Undated subordinated notes	**62.1**	-
6.75% Fixed rate step-up undated subordinated notes	**195.4**	-
Floating rate undated subordinated notes	**66.0**	-
5.6% Undated subordinated notes	**393.2**	-
	736.5	-

In accordance with the requirements of IAS 32, undated subordinated liabilities have been reclassified as non shareholders' equity with effect from 1 January 2005, as there is no contractual obligation to pay the interest coupon. Details of all issues remain unchanged from those disclosed in note 32. Coupons on these notes are treated as appropriations.

All subordinated notes, other than the 8% undated subordinated notes, the floating rate undated subordinated notes and the 5.6% undated subordinated notes are denominated in sterling. All are ranked equally between and within issues and equally with the subordinated liabilities.

Redemptions of any subordinated notes are subject to obtaining prior consent of the Financial Services Authority.

The rights of repayment of holders of subordinated notes are subordinated to the claims of other creditors.

36. Called up share capital

	Ordinary Shares of 25p each Number	Foundation Shares of 25p each Number	Total Number	Ordinary Shares of 25p each £m	Foundation Shares of 25p each £m	Total £m
Authorised: At 31 December 2005 and 31 December 2004	614.0m	104.5m	718.5m	153.5	26.1	179.6
Issued and fully paid: At 31 December 2005 and 31 December 2004	421.2m	74.4m	495.6m	105.3	18.6	123.9

The Foundation Shares are held by The Northern Rock Foundation. These shares carry no rights to dividends but rank pari passu with the Ordinary Shares in respect of other distributions and in the event of a winding up. Because they carry no rights to dividends, they have been omitted in the calculation of earnings per share (see note 14). These shares do not confer any rights in relation to attendance or voting at any general meeting of the Company.

37. Reserves

Share premium account and capital redemption reserve

	Share premium account £m	Capital redemption reserve £m
At 1 January 2005 and 31 December 2005	6.8	7.3

Current income tax impact of share based payments	**3.0**	1.5
Purchase of shares	**(10.2)**	(6.0)
	17.7	8.9

39. Financial risk management

Strategy in using financial instruments

The Board has authorised the use of derivative instruments for the purpose of supporting the strategic and operational business activities of the Group and reducing the risk of loss arising from changes in interest rates and exchange rates. All use of derivative instruments within the Group is to hedge risk exposure, and the Group takes no trading positions in derivatives.

The objective, when using any derivative instrument, is to ensure that the risk to reward profile of any transaction is optimised. The intention is to only use derivatives to create economically effective hedges. However, because of the specific requirements of IAS 39 to obtain hedge accounting, not all economic hedges are designated as accounting hedges, either because natural accounting offsets are expected or because obtaining hedge accounting would be especially onerous.

39. Financial risk management (continued)

a) Fair value hedges

The Group designates a number of derivatives as fair values hedges. In particular the Group has three approaches establishing relationships for:

i) Hedging the interest rate and foreign currency exchange rate risk of non-prepayable, foreign-currency denominated fixed rate assets or liabilities on a one-for-one basis with fixed/floating or floating/fixed cross currency interest rate swaps.

ii) Hedging of interest rate risk of a single currency portfolio of sterling, US Dollar and Euro non-prepayable fixed rate assets/liabilities on a one-for-one basis with vanilla fixed/floating or floating/fixed interest rate swaps.

iii) Hedging the interest rate risk of a portfolio of prepayable fixed rate assets with interest rate derivatives. This solution is used to establish a macro fair value hedge for derivatives hedging fixed rate mortgages. The Group believes this solution is the most appropriate as it is consistent with its policy for hedging fixed rate mortgages on an economic basis.

The total fair value of derivatives included within fair value hedges at 31 December 2005 was £163.3m.

b) Cash flow hedges

At present the Group does not designate any derivatives as cash flow hedges.

c) Net investment hedges

At present the Group does not designate any derivatives as net investment hedges.

Risk management

Risk management is a fundamental part of Northern Rock's strategy, which focuses on profitable growth with a low risk profile. The Group's risk management strategy is to manage risk exposures through comprehensive and integrated risk management processes within each section of the business as part of a framework of delegated responsibility and structured reporting. The Board of Directors has full responsibility for approving and reviewing the main risks undertaken by the Group.

In order to manage and control its risks, the Group has implemented a comprehensive set of policies and procedures. It has put in place appropriate systems to identify risk, and then to assess, measure, monitor and report those risks. A series of policies and procedures exist to define the Group's levels of risk tolerance, containing risk limits and lines of authority and responsibility. These form the basis for risk management structures throughout the business with clear terms of reference. Furthermore, the Group has established strong systems of internal control that comply fully with the requirements of the Financial Services and Markets Act 2000, the Financial Services Authority and the London Stock Exchange.

In accordance with the policies and procedures, the Board of Directors has established a Risk Committee consisting of four Non-Executive Directors and the Executive Directors. The Risk Committee is responsible for the supervision of the Group's risk management processes. It has delegated responsibility for the daily management and review of balance sheet risk profile and review of operational risk to Management Board ALCO, consisting of executive management from all the main business functions.

39. Financial risk management (continued)

Operational risk

Operational risk is the risk of business opportunities foregone, reputational damage or financial losses, resulting from inadequacies or failures in internal processes, people or systems, or from external events.

Management Board directors and senior line managers are primarily responsible for ensuring effective operational risk management exists within their areas – in particular, the setting of tolerances, monitoring and reporting of operational risks. Where appropriate, Northern Rock establishes suitable cost-effective processes to mitigate or transfer operational risk exposures.

Operational risks are controlled and managed on a decentralised basis, with responsibility and authority to mitigate these risks delegated to the relevant line management. Northern Rock's support functions provide corporate policies, processes and reporting mechanisms as appropriate to the "front line" functions for the range of operational risks faced.

Credit risk

Credit risk is the exposure to loss if another party fails to meet its financial obligations to the Company, including failing to perform them in a timely manner. It arises from both on and off balance sheet items.

Within the Group Treasury function, the overall policy is to minimise credit risk through the use of operational credit limits, credit authorisation and credit control and review. Credit limits authorised by Executive Management are established for specified counterparties. These limits are based on a number of factors including external and internal ratings and capital of Northern Rock plc. Group limits have been incorporated to ensure that Northern Rock plc does not exceed its exposure to either a single counterparty or group of closely-related counterparties. Country limits have been incorporated to ensure that Northern Rock plc does not exceed its exposure in a geographical region. Master netting agreements are in place with all derivative counterparties. In addition most of the exposures created by derivatives are mitigated through the use of collateral agreements negotiated with derivative counterparties. Other techniques (including margining, credit breaks, compounding, termination and credit derivatives) are used periodically to mitigate the credit risk associated with particular transactions or group of transactions.

Retail credit risk is controlled and monitored through the use of operational limits, credit authorisation procedures, credit risk scorecards, credit control and review processes, to achieve a planned credit risk profile (relative to the associated economic rewards).

Credit score systems are used as the primary basis for evaluating the risk reward profile of the retail credit risk stance as they are able to differentiate the risk of secured and unsecured loans, both at individual transaction and portfolio levels. Behavioural scoring is used to monitor the performance of the residential secured and unsecured loan books.

The Credit director monitors credit risk limits on the residential secured and unsecured lending books. The Credit Risk Monitoring Group monitors exposures on these books.

Maximum credit risk exposure at 31 December 2005 approximates to the carrying value for all assets apart from loans and advances to customers, where the carrying value includes an adjustment in respect of hedged interest rate risk. The credit risk exposure in respect of these loans is therefore £163.9m lower than the carrying value. Cash collateral held against credit risk at 31 December 2005 amounted to £274.4m.

39. Financial risk management (continued)

Interest rate risk

The Group offers numerous banking, mortgage and savings products with varying interest rate features and maturities which create potential interest rate risk exposures. Interest rate risk arises as a result of timing differences on the re-pricing of assets and liabilities, unexpected changes in the slope and shape of yield curves and changes in correlation of interest rates between different financial instruments (often referred to as basis risk). In addition to interest rate risk positions managed within controlled risk limits within the Group, structural interest rate risk arises in the Group's consolidated balance sheet as a result of fixed rate, variable rate and non interest bearing assets and liabilities. The Group closely monitors interest rate movements, the interest rate and re-pricing maturity structure of its interest bearing assets and liabilities and the level of non-interest bearing assets and liabilities.

Interest rate sensitivity refers to the relationship between interest rates and net interest income resulting from the periodic re-pricing of assets and liabilities. Northern Rock also offers fixed-rate residential mortgages and savings products on which the interest rate paid by or to the customer is fixed for an agreed period of time at the start of the contract. Northern Rock matches the expected maturity profiles of its interest earning assets and interest bearing liabilities through the use of derivatives. The risk of prepayment is additionally reduced by imposing penalty charges if the customers terminate their contracts early.

The Group uses a number of measures to monitor and control interest rate risk and sensitivity. One such measure evaluates the difference in principal value between assets and liabilities repricing in various gap periods. Risk weights are assigned to each gap period which reflect potential losses for a given change in rates, and based on these a capital allocation is calculated for each period. The risk is controlled through setting maximum overall capital allocations, and individual capital allocations for each gap period.

A second control used measures earnings at risk from unmatched positions in fixed rate lending. The Group imposes a limit on the value of such earnings that may be at risk, based upon various scenarios of adverse interest rate changes.

The sensitivity of earnings to changes in interest rates is measured by comparing forecast net interest income over a 12 month period under two interest rate scenarios, a 1% parallel increase and decrease in all yield curves. Forecasts are based on measuring the sensitivity of net interest income for all on-balance sheet and derivative instruments while maintaining a consistent balance sheet size and structure throughout the simulation period. Forecasts include the effect on net interest income of those instruments which have embedded optionality. Forecasts also include other simplifying assumptions, such as no management action in response to a change in interest rates. An immediate hypothetical 1% parallel increase and decrease in all yield curves on 31 December 2005 would result in a decrease of £32.4m (2004 £33.0m) and an increase of £28.4m (2004 £27.0m), respectively, in planned net interest income for the twelve months to 31 December 2006.

The following table gives an analysis of the re-pricing periods of assets and liabilities on the Group balance sheet at 31 December.

Items are allocated to time bands in the table below by reference to the earlier of the next contractual interest rate re-pricing date and the residual maturity date.

In the 2005 table the carrying amounts of derivative financial instruments are included in other assets and other liabilities under the heading non interest bearing funds.

39. Financial risk management (continued)

The table below summarises the effective interest rate for financial instruments not carried at fair value through profit and loss:

	2005 %	2004 %
Assets		
Cash and balances with central banks	**0.4**	0.3
Loans and advances to banks	**4.4**	4.4
Loans and advances to customers	**5.8**	5.4
Investment securities	**4.5**	4.3
Liabilities		
Deposits by banks	**3.5**	3.1
Customer accounts	**4.4**	4.2
Debt securities in issue	**4.8**	4.7
Subordinated liabilities	**7.0**	6.2
Reserve capital instruments	**n/a**	6.6
Tier one notes	**7.0**	6.5

Subordinated notes and reserve capital instruments are excluded from the table for 2005 as under IAS 32 they have been reclassified as equity from 1 January 2005.

Liquidity risk

Liquidity risks arises from the mismatch in the cashflows generated from current and expected assets, liabilities and derivatives. The Board has policies to ensure that the Group is able to meet retail withdrawals, repay wholesale borrowings as they fall due and to meet current lending requirements. This is achieved by managing a diversified portfolio of high quality liquid assets and a balanced maturity profile of liquid assets, wholesale and retail funds.

The table below analyses the Group's assets and liabilities into relevant maturity groupings based on the remaining period at balance sheet date to contractual maturity date.

Currency risk

Currency risk arises as a result of the Group having assets, liabilities and derivative items that are denominated in currencies other than sterling as a result of normal banking activities, including wholesale funding.

In addition to raising funds through sterling money markets, capital markets and domestic retail savings market, the Group raises funds through issuing non-sterling denominated commercial paper, certificates of deposit, medium-term debt securities (including securitised notes and covered bonds) and retail funds. The Group's policy is to fully mitigate any exchange rate exposures by using cross currency swaps and forward foreign exchange contracts, or to match exposures with assets denominated in the same currency.

39. Financial risk management (continued)

The table below gives values of assets and liabilities at sterling carrying values denominated in different currencies at the balance sheet date.

2005

	US$ £m	€ £m	Other £m	Total £m

Fair values of financial assets and liabilities

The following table summarises the carrying amounts and fair values of those financial assets and liabilities not presented on the Group's balance sheet at their fair value. Assets are presented at bid prices, whereas offer prices are used for liabilities.

	Carrying value		Fair value	
	2005 £m	2004 £m	**2005 £m**	2004 £m
Financial assets				
Cash and balances with central banks	**69.2**	65.3	**69.2**	65.3
Loans and advances to banks	**5,073.8**	3,674.2	**5,073.8**	3,674.2
Loans and advances to customers	**70,239.9**	54,768.8	**69,251.4**	53,995.7
Investment securities	**n/a**	5,319.1	**n/a**	5,373.7
Financial liabilities				
Deposits by banks	**1,536.8**	1,218.3	**1,536.8**	1,219.5
Customer accounts	**23,672.6**	20,402.8	**23,699.8**	20,421.9
Debt securities in issue	**52,134.6**	37,580.7	**52,134.6**	37,756.6
Subordinated liabilities	**785.3**	1,455.0	**903.6**	1,620.9
Tier one notes	**223.9**	200.0	**245.2**	233.7
Reserve capital instruments	**n/a**	300.0	**n/a**	365.3

39. Financial risk management (continued)

Investment securities are excluded from the table for 2005 as they are classified as available for sale and carried at fair value on the balance sheet from 1 January 2005. Subordinated notes and reserve capital instruments are excluded from the table for 2005 as under IAS 32 they have been reclassified as equity from 1 January 2005.

Valuation methods for calculations of fair values in this table are set out below:

Cash and balances with central banks

Fair value approximates to carrying value because they have minimal credit losses and are either short term in nature or re-price frequently.

Loans and advances to banks

Fair value was estimated by using discounted cash flows applying either market rates where practicable or rates offered by other financial institutions for loans with similar characteristics. The fair value of floating rate placements, fixed rate placements with less than six months to maturity and overnight deposits is their carrying amount.

Loans and advances to customers

The Group provides loans of varying rates and maturities to customers. The fair value of loans with variable interest rates is considered to approximate to carrying value. For loans with fixed interest rates, fair value was estimated by discounting cash flows using market rates or rates normally offered by the Group.

Deposits by banks and customer accounts

Fair values of deposit liabilities repayable on demand or with variable interest rates are considered to approximate to carrying value. The fair value of fixed interest deposits with less than six months to maturity is their carrying amount. The fair value of all other deposit liabilities was estimated using discounted cash flows, applying either market rates or rates currently offered by the Group for deposits of similar remaining maturities.

Debt securities in issue, subordinated liabilities and tier one notes

Fair values are based on quoted prices where available, or by using discounted cash flows, applying market rates.

40. Guarantees and other financial commitments

1) The Company has an obligation under the Building Societies Act 1986, as successor company to Northern Rock Building Society, to honour the financial commitments of its subsidiaries and associated bodies linked by resolution, incurred prior to 11 June 1996 insofar as those bodies are unable to discharge them out of their own assets. The Company has agreed to continue this obligation in respect of liabilities of Northern Rock (Guernsey) Limited.

2) The Company has given indemnities to the National House Building Council in respect of certain of its house building operations.

3) Capital commitments at 31 December in respect of authorised expenditure were as follows:

40. Guarantees and other financial commitments (continued)

	2005 £m	2004 £m
Contracted for	**22.0**	6.2

4) Leasing commitments at 31 December in respect of annual commitments under operating leases are as follows:

	2005 £m	2004 £m
Land and buildings		
Leases which expire:		
Within one year	**0.1**	0.1
In one to five years	**0.8**	0.8
Over five years	**3.3**	2.0
	4.2	2.9
Other operating leases		
Leases which expire:		
Within one year	**0.1**	0.4
In one to five years	**4.1**	4.8
	4.2	5.2

5) Memorandum items

	2005 £m	2004 £m
Commitments:		
Irrevocable undrawn loan facilities	**2,100.3**	1,488.5
Unpaid share capital of subsidiary company	**-**	-
	2,100.3	1,488.5

41. Related party transactions

A number of banking transactions are entered into with related parties as part of normal banking business. These include loans and deposits. The volumes of related party transactions, outstanding balances at the year end and related income and expense for the year are set out below.

	Directors and key management personnel		Associated companies	
	2005	2004	**2005**	2004
	£m	£m	**£m**	£m
Loans				
Loans outstanding at 1 January	**5.5**	4.2	-	-
Net amounts advanced / (repaid)	**(0.1)**	1.3	-	-
Loans outstanding at 31 December	**5.4**	5.5	-	-
Interest income earned paid	**0.3**	0.2	-	-
Deposits				
Deposits outstanding at 1 January	**1.4**	0.8	-	-
Net amounts deposited / (repaid)	**0.4**	0.6	-	-
Deposits outstanding at 31 December	**1.8**	1.4	-	-
Interest income earned	**0.1**	-	-	-

	2005	2004
	£m	£m
Directors and key management personnel		
Salaries and other short term benefits	**8.2**	6.5
Post-employment benefits	**0.6**	0.5
Share-based payments	**5.9**	5.3
	14.7	12.3

The Company's total contribution payable under deed of covenant to The Northern Rock Foundation for the year ended 31 December 2005 amounted to £24.7m (2004 £21.6m). At 31 December 2005 the commitment in respect of amounts not yet paid was £10.0m (2004 £11.6m).

The Company owns Northern Rock (Guernsey) Limited, which operates as a retail deposit taker. The net funding borrowed by the Company from Northern Rock (Guernsey) Limited during the year amounted to £138.2m (2004 net funding repaid £10.1m).

During the year the Company received £0.3m (2004 £0.2m) from Northern Rock Mortgage Indemnity Company Limited in settlement of mortgage indemnity insurance claims.

During the year the Company borrowed a net £9,050.2m (2004 £8,278.1m) from its securitisation SPEs (see note 19), being the net proceeds from securitisation transactions in the year.

42. Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents comprise the following balances with less than three months maturity from the date of acquisition:

	2005 £m	2004 £m
Cash and balances with central banks	**12.1**	10.2
Loans and advances to banks	**4,934.1**	3,030.9
Loans and advances to customers	**23.2**	9.1
Investment securities	**301.7**	307.6
	5,271.1	3,357.8

43. Reconciliation of equity between IFRS and UK GAAP

The following reconciliations provide a quantification of the effect of transition to IFRS. These are provided for the Group only in notes 43 to 46, as those for the Company are not significantly different from the Group disclosures.

Summary of Equity

	Note	1 January 2004 £m	31 December 2004 £m
Total equity as reported under UK GAAP		1,339.9	1,541.9
Restatement of goodwill	44g	-	3.6

Explanation of the effect of the transition to IFRS

The following explains the material balance sheet adjustments.

a) Cash and balances with central banks

	1 January 2004 £m	31 December 2004 £m
Reclassification of Cash Ratio Deposit held with Bank of England and Central Bank of Ireland	47.2	55.1

The Group has reclassified the Cash Ratio Deposit held with the Bank of England and Central Bank of Ireland from loans and advances to banks to cash and balances with central banks.

44. Balance sheet reconciliations between IFRS and UK GAAP (continued)

b) Loans and advances to banks

	1 January 2004 £m	31 December 2004 £m
Reclassification of Cash Ratio Deposit held with Bank of England and Central Bank of Ireland	(47.2)	(55.1)
Reclassification of securitisation vehicle balance sheets	1,200.4	423.9
Total impact – increase in loans and advances to banks	1,153.2	368.8

The Group has reclassified the cash ratio deposit held with the Bank of England and Central Bank of Ireland from loans and advances to banks to cash and balances with central banks. In addition, cash held by the securitisation vehicles has been reclassified as loans and advances to banks.

c) Loans and advances not subject to securitisation

	1 January 2004 £m	31 December 2004 £m
Reclassification of loans and advances not subject to securitisation	(27,355.8)	(32,869.3)

The Group has reclassified loans and advances to customers not subject to securitisation as loans and advances to customers.

d) Loans and advances subject to securitisation

	1 January 2004 £m	31 December 2004 £m
Reclassification of securitisation vehicle balance sheets	(15,678.7)	(22,339.2)

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used. This results in the reclassification of loans and advances subject to securitisation.

e) Non-recourse finance

	1 January 2004 £m	31 December 2004 £m
Reclassification of securitisation vehicle balance sheets	14,832.4	22,103.7

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used. Non-recourse finance, shown as a deduction from loans and advances to customers under UK GAAP is included in debt securities in issue under IFRS.

44. Balance sheet reconciliations between IFRS and UK GAAP (continued)

f) Loans and advances to customers

	1 January 2004 £m	31 December 2004 £m
Reclassification of loans and advances not subject to securitisation	27,355.8	32,869.3
Reclassification of loans and advances subject to securitisation	14,491.6	21,899.5
Total impact – increase in loans and advances to customers	41,847.4	54,768.8

g) Intangible assets

	1 January 2004 £m	31 December 2004 £m
Reclassification of computer software as intangible asset	30.4	42.4
Reversal of goodwill amortisation	-	3.6
Total impact – increase in intangible assets	30.4	46.0

In accordance with IAS 38, computer software has been reclassified from property, plant and equipment to intangible fixed assets. Under IFRS goodwill is not amortised, but is subject to annual impairment reviews.

h) Property, plant and equipment

	1 January 2004 £m	31 December 2004 £m
Reclassification of computer software as intangible asset	(30.4)	(42.4)
Restatement of properties to fair value as deemed cost	3.9	4.7
Total impact – decrease in property, plant and equipment	(26.5)	(37.7)

In accordance with IAS 38, computer software has been reclassified from Property, Plant and Equipment to intangible fixed assets.

Management has applied the fair value as deemed cost exemption in respect of various properties.

44. Balance sheet reconciliations between IFRS and UK GAAP (continued)

i) Deferred income tax asset

	1 January 2004 £m	31 December 2004 £m
Impact of recognising deferred tax in accordance with IAS 12	23.3	14.1

The Group has recalculated deferred tax in accordance with IAS 12. IAS 12 allows a net presentation of deferred tax assets and liabilities only when certain criteria are met. This adjustment recognises the gross presentation required by IAS 12.

j) Other assets

	1 January 2004 £m	31 December 2004 £m
Reclassification of securitisation vehicle balance sheets	(5.2)	8.6

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used.

k) Prepayments and accrued income

	1 January 2004 £m	31 December 2004 £m
Reversal of pension prepayment under UK GAAP	(30.6)	(29.0)
Reclassification of securitisation vehicle balance sheets	-	1.0
Total impact – decrease in prepayments and accrued income	(30.6)	(28.0)

Under UK GAAP there is a SSAP 24 prepayment in relation to the defined benefit section of the pension scheme. Under IAS 19 the basis of accounting for pension schemes is fundamentally different and the prepayment is no longer applicable.

l) Customer accounts

	1 January 2004 £m	31 December 2004 £m
Restatement of derecognised liabilities	51.7	51.7

Previously derecognised liabilities have been restated on the balance sheet to the extent that the liability has not been contractually discharged.

44. Balance sheet reconciliations between IFRS and UK GAAP (continued)

m) Debt securities in issue

	1 January 2004 £m	31 December 2004 £m
Reclassification of debt securities issued by securitisation vehicles	14,868.3	22,089.9
Reclassification of issue costs	(3.6)	(7.3)
Total impact – increase in debt securities in issue	14,864.7	22,082.6

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used. Non-recourse finance, shown as a deduction from loans and advances to customers under UK GAAP is included in debt securities in issue under IFRS.

n) Other liabilities

	1 January 2004 £m	31 December 2004 £m
Restatement of dividends in accordance with IAS 10	(65.3)	(74.7)
Reclassification of securitisation vehicle balance sheets	(138.0)	(124.8)
Total impact – decrease in other liabilities	(203.3)	(199.5)

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used. IAS 10 requires that dividends are not accrued until they are approved.

o) Accruals and deferred income

	1 January 2004 £m	31 December 2004 £m
Reclassification of securitisation vehicle balance sheets	113.8	139.7

IFRS requires the consolidation of securitisation vehicles, compared with linked presentation under UK GAAP.

44. Balance sheet reconciliations between IFRS and UK GAAP (continued)

p) Provisions for liabilities and charges

	1 January 2004 £m	31 December 2004 £m
Reversal of deferred tax recognised under UK GAAP (see note 44i)	(19.0)	(31.8)
Restatement of retirement benefits obligations under IAS 19	47.3	52.5
Total impact – increase in provisions for liabilities and charges	28.3	20.7

IAS 19 requires that retirement benefit obligations in the defined benefit section of the pension scheme are included in the Group balance sheet.

q) Other reserves

	1 January 2004 £m	31 December 2004 £m
Treatment of actuarial gains and losses on pension scheme	-	(2.8)
Tax effect of above	-	0.8
Total impact – decrease in other reserves	-	(2.0)

Under IAS 19 actuarial gains and losses on the pension scheme are recorded in the Statement of Recognised Income and Expense.

45. Income statement reconciliations between IFRS and UK GAAP

Year ended 31 December 2004	Note	UK GAAP £m	Effect of transition to IFRS £m	IFRS £m
Interest and similar income	45a	2,035.5	953.9	2,989.4

45. Income statement reconciliations between IFRS and UK GAAP (continued)

Explanation of the effect of the transition to IFRS

The following explains the material adjustments to the income statement.

a) Interest and similar income and interest expense and similar charges

	Year ended 31 December 2004 £m
Consolidation of Special Purpose Entities on a line by line basis	953.9

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used.

b) Fee and commission income and expense

	Year ended 31 December 2004 £m
Reallocation of fees and commissions (see note 45d)	(4.4)
Consolidation of Special Purpose Entities on a line by line basis	12.5
Total impact – increase in fee and commission income and expense	8.1

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used.

c) Other operating income

	Year ended 31 December 2004 £m
Consolidation of Special Purpose Entities on a line by line basis	(19.8)

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used.

45. Income statement reconciliations between IFRS and UK GAAP (continued)

d) Operating expenses

	Year ended 31 December 2004 £m
Calculation of pension cost in accordance with IAS 19	(0.8)
Calculation of share based payments in accordance with IFRS 2	0.5
Consolidation of Special Purpose Entities on a line by line basis	(0.7)
Reallocation of fees and commissions (see note 45b)	4.4
Reversal of property impairment provision	0.8
Reversal of goodwill amortisation charge	3.6
Total impact – decrease in operating expenses	7.8

e) Impairment losses on loans and advances

	Year ended 31 December 2004 £m
Consolidation of Special Purpose Entities on a line by line basis	8.0

IFRS requires the consolidation of securitisation vehicles, whereas under UK GAAP linked presentation is used.

f) Tax on profit on ordinary activities

	Year ended 31 December 2004 £m
Tax effect of IFRS adjustments	(0.8)

46. Balance sheet reconciliation as at 1 January 2005

Explanation of the effect of adoption of IAS 32 and IAS 39 with effect from 1 January 2005

The following explains the material balance sheet adjustments.

a) Loans and advances to customers

	1 January 2005 £m
Impact of effective interest rate adjustment	(234.2)
Reclassification from prepayments and accrued income in relation to effective interest rate adjustment	433.0
Reclassification of financial instruments on introduction of IAS 39 and impact of fair valuing derivatives	460.5
Impact of discounting on impairment allowance	3.3
Total impact – increase in loans and advances to customers	662.6

In accordance with IAS 39 the interest rate is adjusted to reflect the rate that exactly discounts expected future cash payments or receipts through the expected life of the financial instrument to its net carrying amount. This adjustment includes all fees and interest paid or received that are an integral part of the effective interest rate, transaction costs and all other premiums and discounts.

In accordance with IAS 39, impairment allowances represent the difference between the carrying value of an asset and discounted expected cash flows.

46. Balance sheet reconciliation as at 1 January 2005 (continued)

b) Investment securities

	1 January 2005 £m
Reclassification of financial instruments on introduction of IAS 39	4,966.1

c) Debt securities

	1 January 2005 £m
Reclassification of financial instruments on introduction of IAS 39	(4,742.2)

d) Equity shares and other variable yield securities

	1 January 2005 £m
Reclassification of financial instruments on introduction of IAS 39	(575.6)

e) Derivative financial instruments

	1 January 2005 £m
Valuation of derivative financial instruments	892.6

f) Deferred income tax

	1 January 2005 £m
Deferred tax effect of IAS 32 and IAS 39 adjustments	62.1

g) Other assets

	1 January 2005 £m
Impact of fair valuing derivatives	(15.8)

46. Balance sheet reconciliation as at 1 January 2005 (continued)

h) Prepayments and accrued income

	1 January 2005 £m
Reclassification of opening balances to loans and advances to customers in relation to effective interest rate adjustment	(463.2)
Impact of effective interest rate adjustment reclassified to loans and advances to customers	30.2
Impact of fair valuing derivatives	(43.5)
Total impact – decrease in prepayments and accrued income	(476.5)

i) Customer accounts

	1 January 2005 £m
Impact of fair valuing derivatives	(13.5)

j) Debt securities in issue

	1 January 2005 £m
Impact of fair valuing derivatives	(1,231.3)

k) Derivative financial instruments

	1 January 2005 £m
Valuation of derivative financial instruments	2,050.7

l) Accruals and deferred income

	1 January 2005 £m
Impact of effective interest rate adjustment	(7.9)
Reversal of reserve capital instruments and subordinated liabilities coupon payment accrual in accordance with IAS 32 and IAS 10	(14.3)
Impact of fair valuing derivatives	128.6
Total impact – increase in accruals and deferred income	106.4

46. Balance sheet reconciliation as at 1 January 2005 (continued)

m) Subordinated liabilities

	1 January 2005 £m
Transfer to non shareholders' equity	(746.4)
Impact of fair valuing derivatives	7.9
Total impact – decrease in subordinated liabilities	(738.5)

In accordance with the requirements of IAS 32 certain subordinated liabilities are classified as non shareholders' equity, as there is no contractual obligation to pay the interest coupon.

n) Reserve capital instruments

	1 January 2005 £m
Transfer to non shareholders' funds	(300.0)

In accordance with the requirements of IAS 32 reserve capital instruments are classified as non shareholders' equity, as there is no contractual obligation to pay the interest coupon.

o) Other reserves

	1 January 2005 £m
Available for sale reserve	38.4
Cash flow hedge reserve	12.5
Tax impact of items credited directly to equity	(15.1)
Total impact – increase in other reserves	35.8

p) Non shareholders' equity

	1 January 2005 £m
Transfer from subordinated liabilities	736.5
Transfer from reserve capital instruments	299.3
Total impact – increase in non shareholders' equity	1,035.8

46. Balance sheet reconciliation as at 1 January 2005 (continued)

q) Tier one notes

	1 January 2005 £m
Impact of fair valuing derivatives	7.6

47. Differences between IFRS and U.S. GAAP

The Group has applied International Financial Reporting Standards ('IFRS') from 1 January 2004, with the exception of IAS 32 and IAS 39 which were applied from 1 January 2005. The impacts of IAS 32 and IAS 39 are not included in the IFRS 2004 comparatives, with financial instruments being accounted for under U.K. GAAP. Such principles vary in significant respects from U.S. Generally Accepted Accounting Principles ('U.S. GAAP'). The differences applicable to Northern Rock's accounts are summarised below.

IFRS	U.S. GAAP
Loan origination fees and costs	**Loan origination fees and costs**
Loan origination fees form part of the effective interest rate on the loan and are released to interest income over the life of the loan. IAS 39 does not allow internal direct incremental costs to be treated as part of the effective interest rate on loans, and so these are taken as an expense as incurred. Redemption fees are included in the effective interest rate calculation.	Under Statement of Financial Accounting Standards ("SFAS") No. 91, "Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases" ("SFAS No. 91"), to the extent that loan origination fees are not offset by related direct costs, they are deferred and amortised through the profit and loss account as an adjustment to net interest income over the life of the loan. Redemption fees are recorded in income as received.
Pension cost	**Pension cost**
For defined benefit schemes, an actuarial valuation of the scheme assets and obligations is made at the end of each year. The difference between the fair value of the scheme assets and the present value of the scheme obligations at the balance sheet date is recognised in the balance sheet. Expected pension costs are reflected in the Income Statement, and actuarial gains or losses are recognised in full in the Statement of Recognised Income and Expense.	Under SFAS No. 87, "Employers' Accounting for Pensions", the same basic actuarial method is used as under IFRS, but certain assumptions differ. Certain variations from regular cost are allocated in equal amounts over the average remaining services lives of current employees.
Derivative financial instruments	**Derivative financial instruments**
As at 1 January 2005, all derivatives were recognised at fair value on the balance sheet and where appropriate adjustments were made to the carrying values of hedged items. Where hedges have been appropriately designated and documented under IFRS, hedge accounting has been applied from that date.	US GAAP principles are similar to those under IFRS, although there are differences in application. Thus, Northern Rock uses interest rate swaps to reduce interest rate exposure to fixed rate mortgages and to fixed rate savings bonds. In economic terms, these swaps provide an effective hedge against interest rate movements. However, under the terms of SFAS No. 133, these swaps do not qualify as effective hedges with the result that changes in the fair value of the swaps are recognised immediately in the income statement. In the case of the swaps hedging fixed rate mortgages, this is because the swaps only cover the periods for which mortgage interest rates are fixed, not the full life of the mortgage loans, although hedge accounting can be obtained for such items under IFRS. In order to mitigate the impact of this on its earnings as measured under U.S. GAAP, Northern Rock has chosen not to treat swaps against fixed rate savings bonds as hedges. This is because the valuation of these swaps will tend to move in an opposite direction to those transacted as economic hedges against fixed rate mortgages, thus lessening the impact on earnings.

47. Differences between IFRS and U.S. GAAP (continued)

IFRS	U.S. GAAP
	Derivative financial instruments (continued)
	As a result of the above, there is a risk of a greater amount of volatility within reported profits under U.S. GAAP than under IFRS . Northern Rock does not believe that it is appropriate to alter its hedging strategies and procedures specifically to comply with SFAS No. 133. Therefore many derivatives are deemed to be non-hedging instruments for U.S. GAAP reporting purposes despite offsetting substantially the interest rate risk associated with these fixed rate products and, in many cases, continuing to qualify as hedges under IFRS.
	In addition, certain transition adjustments made under first time adoption of IFRS are not applicable under US GAAP and have been reversed.
Deferred tax	**Deferred tax**
Deferred income tax is provided in full, using the liability method, on temporary differences arising between tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred tax is determined using tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the deferred tax asset is realised or the deferred tax liability is settled.	Under SFAS No. 109, "Accounting for Income Taxes", provision for deferred tax under the liability method is required in full for all temporary differences.
	Deferred tax assets are recognised in full with valuation allowances provided where it is considered more likely than not that some portion of the deferred tax asset will not be realised.
The deferred tax asset on share compensation schemes is calculated using the intrinsic value at the exercise date.	The deferred tax asset on share compensation schemes is calculated using the fair value of options, with reference to the number of options expected to be exercised.
Investments in securities	**Investments in securities**
Non-derivative financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables, unless specifically classified differently.	Under US GAAP, debt securities cannot be classified as loans and receivables. Certain securities treated as loans and receivables under IFRS have been treated as held to maturity securities under US GAAP.

47: Differences between IFRS and U.S. GAAP (continued)

IFRS	U.S. GAAP
Classification of debt and equity	**Classification of debt and equity**
From 1 January 2005, under IAS 32 certain subordinated instruments issued by the Group which contain no legal obligation to deliver cash or another financial instrument to the holder are regarded as equity. Where these are denominated in foreign currency, the instruments are recorded at the exchange rate applicable at the date of issuance.	Under US GAAP, these subordinated instruments are regarded as debt and are translated at the exchange rate applicable at the balance sheet date with retranslation differences recognised in the income statement. Issuance costs associated with these instruments are amortised to income over the life of the instrument.
Capitalisation of interest	**Capitalisation of interest**
Capitalisation of finance costs directly attributable to the construction of tangible assets is neither required nor forbidden under IAS 16 "Property, Plant and Equipment". If a policy of capitalisation is adopted, it must be consistently applied to all such directly attributable finance costs.	Under SFAS No. 34, "Capitalization of Interest Cost" as amended by SFAS No. 42, "Determining Materiality for Capitalization of Interest Cost", interest costs on borrowings and other obligations associated with assets, which are prepared for use over time, are capitalised as part of the historical cost of the assets.
Goodwill	**Goodwill**
From 1 January 2004, goodwill resulting from acquisitions is capitalised and is not amortised but tested for impairment annually. Such goodwill is written off to the extent that it is judged to be impaired. Goodwill previously written off to reserves under UK GAAP has not been reinstated onto the balance sheet.	Under SFAS No. 141, "Business Combinations" and SFAS No. 142, "Goodwill and Other Intangible Assets" goodwill resulting from acquisitions should be capitalised and is not amortised but tested for impairment annually. Such goodwill should be written off to the extent that it is judged to be impaired.

47. Differences between IFRS and U.S. GAAP (continued)

IFRS	U.S. GAAP
Future developments	**Future developments**
See note 1 (w).	In December 2004, the FASB issued SFAS No. 123 (revised 2004), "Share-Based Payment", ("SFAS 123 (R)"), which is a revision of SFAS No. 123, "Accounting for Stock-Based Compensation". SFAS 123 (R) requires all share-based payments to employees, including grants of employee stock options, to be recognised in the income statement based on their fair values. SFAS 123 (R) is effective for all equity awards granted, modified, repurchased, or cancelled after fiscal years beginning after June 15, 2005. The Group adopted the Statement from January 1, 2006.
	In December 2004, the FASB issued SFAS No. 153, "Exchanges of Non-monetary Assets – an amendment of APB Opinion No. 29". This Statement amends APB Opinion No. 29 to eliminate the exception for non-monetary exchanges of similar productive assets and replaces it with a general exception for exchanges of non-monetary assets that do not have commercial substance. The provisions of this Statement are effective for non-monetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The Group adopted the Statement from January 1, 2006 although it is not expected to have a material impact on the Group's financial position or results of operations.
	In May 2005, the FASB issued SFAS No. 154 "Accounting Changes and Error Corrections – a replacement of APB Opinion No. 20 and FASB Statement No. 3", ("SFAS 154"). In many, but not all aspects, SFAS 154 converges with IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors" in the accounting and reporting of accounting changes and corrections of errors. SFAS 154 is effective for fiscal years beginning after December 15, 2005. The Group adopted the statement from January 1, 2006 although adoption is not expected to have a material impact on the Group's financial position or results of operations.
	In November 2005, the FASB issued FSP 115-1 and 124-1, "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments", which addresses the determination as to when an investment is considered impaired, whether that impairment is other-than-temporary, and the measurement of an impairment loss. This FSP also includes accounting considerations subsequent to the recognition of an other-than-temporary impairment and requires certain disclosures about unrealised losses that have not been recognised as other-than-temporary impairments." The Group does not expect the FSP to have a material impact on its results of operations or financial condition at the time of adoption.

47. Differences between IFRS and U.S. GAAP (continued):

IFRS	U.S. GAAP
	Future developments (continued)
	In February 2006, the FASB issued SFAS No. 155, "Accounting for Certain Hybrid Financial Instruments – an amendment of FASB Statements No. 133 and 140", ("SFAS 155"). SFAS 155 permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation and amends SFAS 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. SFAS 155 will be effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. Earlier adoption is permitted as of the beginning of an entity's fiscal year, provided the Group has not yet issued financial statements, including financial statements for any interim period for that fiscal year. Provisions of SFAS 155 may be applied to instruments that the Group holds at the date of adoption on an instrument-by-instrument basis. The Group is still evaluating the impact this standard will have on the consolidated financial position and results of operations.
	In March 2006, the FASB issued SFAS No. 156, "Accounting for Servicing of Financial Assets – an amendment of FASB Statement No. 140", ("SFAS 156"). SFAS 156 amends FASB Statement No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities – a replacement of FASB Statement No. 125", with respect to the accounting for separately recognised servicing assets and servicing liabilities. The statement requires entities to initially recognise servicing rights at fair value and subsequently measure them either at fair value or amortised cost. Upon adoption of the statement, entities are permitted to reclassify previously recognised servicing rights from the available-for-sale category to trading without calling into question the classification of other investments. SFAS 156 is effective for fiscal years beginning after September 15, 2006. Adoption is not expected to have a material impact on the Group's financial position or results of operations.

47. Differences between IFRS and U.S. GAAP (continued)

The following differences apply only to 2004 comparative figures, and are the result of applying IAS 32 and 39 only from 1 January 2005.

U.K. GAAP	U.S. GAAP
Loan origination fees	**Loan origination fees**
Loan origination fees received in respect of services rendered are recognised in fees and commissions receivable in the profit and loss account as the services are performed. Where loan origination fees or costs are in the nature of interest, they are recognised in the profit and loss account over the life of the loan.	Under Statement of Financial Accounting Standards ("SFAS") No. 91, "Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases" ("SFAS No. 91"), to the extent that loan origination fees are not offset by related direct costs, they are deferred and amortised through the profit and loss account as an adjustment to net interest income over the life of the loan.
Mortgage incentives	**Mortgage incentives**
In accordance with the British Bankers' Association Statement of Recommended Practice ("BBA SORP") on Advances, recoverable mortgage incentives are amortised through other interest receivable and similar income over the period during which such costs can be recovered. The BBA SORP on Advances does not allow the amortisation period to exceed the repayment charge period.	All mortgage incentives are deferred and amortised through the profit and loss account as an adjustment to net interest income over the life of a loan in accordance with SFAS No. 91.

47. Differences between IFRS and U.S. GAAP (continued)

U.K. GAAP

Derivative financial instruments

All derivative financial instruments are used for hedging purposes. Transactions are initially recorded at cost and are accounted for on an accruals basis in accordance with the item or items being hedged. The related interest income and expense is accounted for on a basis in conformity with the underlying hedged position, primarily on an accrual basis. A portion of the Group's risk management activities are conducted on a portfolio basis without specifically designating derivative contracts as hedges of individual assets and liabilities.

Foreign currency transactions that are hedged with currency swaps are synthetically accounted for, resulting in assets and liabilities being recorded on the balance sheet at the exchange rate implicit in the swap contract.

Derivatives embedded with financial instruments are not required to be separately analysed. Products which contain embedded derivatives are valued with reference to the total product inclusive of the derivative element.

U.S. GAAP

Derivative financial instruments

Under U.S. GAAP, derivative financial instruments must be designated to a specific asset or liability or group of similar assets or liabilities in order to be accounted for as a hedge. Derivative financial instruments, which are not designated to specific assets or liabilities that are accounted for as hedges under U.K. GAAP, are accounted for as trading derivatives and recorded at fair value with changes in fair value reflected through the income statement. Derivatives used to hedge or modify the interest rate characteristics of debt securities which have been classified as available for sale under U.S. GAAP are carried at fair value with unrealised gains or losses deferred as a component of shareholders' equity.

Under U.S. GAAP, SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("SFAS No. 133") established accounting and reporting standards for derivative financial instruments, including certain derivatives used for hedging activities and derivatives embedded in other contracts. SFAS No. 133 requires all derivatives to be recognised on the balance sheet at fair value. The recognition of the changes in the fair value of a derivative depends upon its intended use. Derivatives that do not qualify for hedging treatment under SFAS No. 133 must be adjusted to fair value through earnings. For fair value hedges that qualify under SFAS No. 133, the changes in the fair values of the derivatives will be recognised in earnings together with the change in fair value of the hedged item attributable to the risk being hedged. For cash flow hedges that qualify under SFAS No. 133, the changes in the fair value of the derivatives will be recognised in other comprehensive income until the hedged item affects earnings. For all hedging activities, the ineffective portion of a derivative's change in fair value will be immediately recognised in earnings.

SFAS No. 133 further requires derivatives that are embedded within financial instruments to be separated from the host contract and fair valued if it is not deemed clearly and closely related to the host. If the derivative cannot be separated, SFAS No. 133 requires the entire instrument to be fair valued.

Northern Rock uses interest rate swaps to reduce interest rate exposure to fixed rate mortgages and to fixed rate savings bonds, as noted above. In economic terms, these swaps provide an effective hedge against interest rate movements. However, under the terms of SFAS No. 133, these swaps do not qualify as effective hedges. In the case of the swaps hedging fixed rate mortgages, this is because the swaps only cover the periods for which mortgage interest rates are fixed, not the full life of the mortgage loans. In order to mitigate the impacts of this on its earnings as measured under U.S. GAAP, Northern Rock has chosen not to treat swaps against fixed rate savings bonds as hedges. This is because the

47. Differences between IFRS and U.S. GAAP (continued)

U.K. GAAP	U.S. GAAP
	Derivative financial instruments (continued)
	valuation of these swaps will tend to move in an opposite direction to those transacted as economic hedges against fixed rate mortgages, thus lessening the impact on earnings.
	As a result of the above, there is a risk of volatility within reported profits under U.S. GAAP. Northern Rock does not believe that it is appropriate to alter its hedging policies and procedures specifically to comply with SFAS No. 133. Therefore many derivatives are deemed to be non-hedging instruments for U.S. GAAP purposes despite eliminating either completely or substantially the interest rate risk associated with these fixed rate products and continuing to qualify as hedges within U.K. GAAP.
Investments in securities	**Investments in securities**
Securities held for investment purposes are stated at cost less provision for diminution in value. Cost is adjusted for any amortisation of premium or discount and excludes accrued interest. All securities not held for investment purposes would be stated at market value and profits and losses arising from this revaluation would be taken to the profit and loss account. Northern Rock only holds securities for investment purposes.	Securities are classified as trading securities, available for sale securities, and held to maturity securities in accordance with SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities". Held to maturity securities are accounted for in the same way as securities held for investment purposes under U.K. GAAP. Trading securities are accounted for in the same way as securities not held for investment purposes under U.K. GAAP. Available for sale securities are reported at fair value, with unrealised gains and losses excluded from earnings, but reported in Other Comprehensive Income. Unrealised gains and losses on derivative financial instruments hedging available for sale securities are also reported in Other Comprehensive Income.
	If an available for sale security is redesignated as held to maturity, any unrealised holding gain or loss at the date of transfer continues to be reported in other comprehensive income. This unrealised gain or loss is amortised over the remaining life of the security.
	Available for sale and held to maturity securities are reviewed to determine if a decline in fair value below amortised cost is other than temporary. If the decline is judged to be other than temporary, the cost basis is written down to fair value as a new cost basis and the amount of the write down is included in earnings.

47. Differences between IFRS and U.S. GAAP (continued)

U.K. GAAP

Reserve capital instruments

Following the publication of UITF 33, "Obligations in financial instruments" in February 2002, reserve capital instruments ("RCIs") are now reported on the balance sheet as a liability and the gross coupon payable recorded as interest payable. Previously, RCI's were part of shareholders' funds and the coupon payable was shown as an after tax appropriation of profit.

Reserve capital instruments appropriations are accounted for on an accrual basis except where ultimate payment is deemed remote. The appropriations are included in the determination of profit on ordinary activities and earnings per share.

U.S. GAAP

Reserve capital instruments

Reserve capital instruments are included in shareholders' funds in the balance sheet.

Cumulative dividends on reserve capital instruments are not accounted for until declared, and are not included in the determination of net income. Cumulative reserve capital instrument appropriations are deducted however from net income when computing income available to ordinary shareholders for earnings per share calculation purposes.

The following tables summarise the adjustments to consolidated profit attributable to equity shareholders and shareholders' funds which would result from the application of U.S. GAAP instead of IFRS, where applicable. The adjustments in the reconciliations below are stated gross of tax with the tax effect being included within the line item "deferred tax effect of the above U.S. GAAP/IFRS adjustments".

47. Differences between IFRS and U.S. GAAP (continued)

a) Pension cost

Under U.S. GAAP, the Group adopts the provisions of SFAS No. 87, "Employers Accounting for Pensions" ("SFAS No. 87"), as amended by SFAS No. 132, "Employers' Disclosures about Pensions and Other Post-retirement Benefits" and SFAS No. 132 (revised 2003), "Employers' Disclosures about Pensions and Other Post-retirement Benefits", in respect of the Northern Rock Pension Scheme, a funded plan as at 31 December 1995. The U.S. GAAP pension cost for the funded pension scheme for 2005 of £13.8m (2004: £13.5m) compares with £8.9m in 2005 (2004: £8.0m) under IFRS.

The following disclosures are based upon pension costs as calculated under U.S. GAAP. Calculations have been performed at 31 December 2005.

Net periodic pension cost	**2005 £m**	2004 £m
Service cost	**8.9**	7.9
Interest cost	**13.5**	12.6
Expected return on plan assets	**(13.6)**	(12.3)
Amortisation of unrecognised net loss	**5.0**	5.3
Net periodic pension cost	**13.8**	13.5

Projected benefit obligation	**2005 £m**	2004 £m
Benefit obligation at the beginning of the year	**253.7**	232.3
Service cost	**8.9**	7.9
Interest cost	**13.5**	12.6
Employee contributions	**1.8**	1.7
Actuarial loss	**40.0**	3.0
Benefits paid	**(4.0)**	(3.8)
Benefit obligation at the end of the year	**313.9**	253.7

Fair value of plan assets	**2005 £m**	2004 £m
Fair value of plan assets at beginning of the year	**199.7**	179.5
Actual return on plan assets	**34.6**	16.8
Employer contributions	**25.6**	5.5
Employee contributions	**1.8**	1.7
Benefits paid	**(4.0)**	(3.8)
Fair value of plan assets at end of year	**257.7**	199.7

Funded status of the plan	**2005 £m**	2004 £m
Fair value of plan assets	**257.7**	199.7
Projected benefit obligation	**(313.9)**	(253.7)
Funded status	**(56.2)**	(54.0)
Unrecognised actuarial loss	**104.3**	90.3
Prepaid assets	**48.1**	36.3

47. Differences between IFRS and U.S. GAAP (continued)

a) Pension cost (continued)

The Accumulated Benefit Obligation was calculated based on Approach 2 disclosed in EITF 88-1 "Determination of Vested Benefit Obligation for a Defined Benefit Pension Plan". In this approach, the actuarial present value of the vested benefits to which the employee is currently entitled is based on the employee's expected date of separation or retirement, as opposed to Approach 1, where the Vested Benefit Obligation is the actuarial present value of the vested benefits to which the employee is entitled if the employee separates immediately. The Accumulated Benefit Obligation at 31 December 2005 was £227.1m.

Under SFAS No. 87, the excess of plan assets over the projected benefit obligation at the transition date totalled £5.4m and was recorded as a net asset and increase to shareholders' funds. This net asset is recognised as a reduction to pension expense on a prospective basis over approximately 8 years.

Principal financial assumptions

The financial assumptions used to calculate the projected benefit obligation for the Company's pension scheme at 31 December 2005 and 2004 were as follows.

	2005 **% pa**	2004 % pa
Discount rate	**4.75**	5.30
Rate of pay escalation	**4.50**	4.50
Rate of pension increase	**3.10**	3.10
Rate of expected return on plan assets	**6.30**	6.70
Price inflation	**2.75**	2.75

The assets of the plan are invested primarily in equity and fixed interest securities.

The overall expected return on plan assets assumption is derived as the weighted average of the expected returns from each of the main asset classes. The expected return for each asset class reflects a combination of historical performance analysis, the forward looking views of financial markets, as suggested by the yields available, and the views of investment organisations.

Plan assets

The Trustees of the Northern Rock Pension Scheme determine their investment strategy with regard to the liability profile of the Scheme. The Trustees have determined the following benchmark which they believe provides an adequate balance between maximising the return on assets and minimising the risk of failing to meet the liabilities over the long-term.

Asset category	Target allocation at 31 December 2005 %	**Percentage of scheme assets at 31 December 2005 %**	Percentage of scheme assets at 31 December 2004 %
Equities	52.5	**49.7**	53.2
Bonds	42.5	**35.5**	40.3
Property	5.0	**6.9**	6.0
Cash	0.0	**7.9**	0.5

Overall, the Trustees of the Northern Rock Pension Scheme aim to have a sufficiently diversified portfolio.

47: Differences between IFRS and U.S. GAAP (continued)

a) Pension cost (continued)

	2011 to 2015 £m	2010 £m	2009 £m	2008 £m	2007 £m	2006 £m	**2005 £m**	2004 £m
Employer contributions						50.8	**25.6**	5.5
Benefit payments	46.6	7.3	6.7	6.1	5.6	5.1	**4.0**	3.8

Staff who joined the scheme before 1 July 1999 participate in the funded, contracted-out, defined benefit section of the scheme unless they opt out. Retirement benefits of this section of the scheme are based on the individual's final year's pensionable salary and the number of years pensionable service with the Group at retirement. Other staff, including those employed at 1 July 1999 but not members of the defined benefit section of the scheme at that date, together with staff employed from 1 July 1999, participate in the contracted-in defined contribution section of the scheme unless they opt out. Retirement benefits of this section of the scheme are based on the individual's periodic contributions to the scheme and the relative market performance of the investments. The U.S. GAAP pension charge for this section of the scheme, including the cost of guaranteeing the benefits of members approaching retirement, is the same as the IFRS charge and amounted to £2.4m (2004: £1.8m).

b) Deferred tax

In the reconciliations of IFRS to U.S. GAAP above and U.S. GAAP financial statements in note 48, the Group's deferred taxes have been recalculated following the guidance of SFAS No. 109, "Accounting for Income Taxes" ("SFAS No. 109"). The effect of this calculation is shown in the reconciliations of IFRS to U.S. GAAP in the line item "deferred tax".

The principal components of the Group's net deferred tax asset/(liability) calculated under SFAS No. 109, are as follows.

	2005 £m	2004 £m
Deferred tax liabilities:		
Excess of capital allowances over depreciation	**(9.0)**	(9.3)
Available for sale securities	**(9.7)**	-
Derivatives and financial instruments	**(24.3)**	-
Cashflow hedge	**(3.8)**	-
Other temporary differences	**(55.0)**	(51.2)
Total deferred tax liabilities	**(101.8)**	(60.5)
Deferred tax assets:		
Pensions and other employee benefits	**27.8**	20.9
Provision for loan impairment	**24.3**	25.7
Derivatives and financial instruments	**86.4**	-
Other temporary differences	**21.3**	23.7
Total deferred tax assets before valuation allowance	**159.8**	70.3
Less: valuation allowance	**(2.7)**	(1.7)
Deferred tax assets less valuation allowance	**157.1**	68.6
Net deferred asset under SFAS No. 109	**55.3**	8.1
Net deferred tax asset arising from differences in IFRS and U.S. GAAP	**(22.7)**	24.9
Net deferred tax asset under U.S. GAAP	**32.6**	33.0

47. Differences between IFRS and U.S. GAAP (continued)

b) Deferred tax (continued)

The valuation allowance against deferred tax assets at 31 December 2005 and 31 December 2004 principally relates to unrealised capital losses arising on the write down of property upon restructuring and realised capital losses on the disposal of care homes.

c) Earnings per share ("EPS")

Under U.S. GAAP, SFAS No. 128, "Earnings per Share" requires certain disclosures relating to earnings per share in addition to the presentation of basic and diluted earnings per share on the face of the Group's profit and loss account. The following tables provide reconciliations of income and number of shares used in the calculation of basic and diluted EPS for the years ended 31 December 2005 and 2004.

	2005 £m	2004 £m
Net income	**253.8**	192.1
Appropriation on reserve capital instruments (net of tax benefit of £7.6m (2004 £7.6m))	**(17.6)**	(17.6)
Undeclared appropriation on reserve capital instruments (net of tax benefit of £2.1m (2004 nil))	**(4.9)**	-
Net income available to ordinary shareholders (numerator)	**231.3**	174.5

	2005 m	2004 m
Weighted average ordinary shares outstanding (denominator for basic EPS)	**414.6**	413.0
Effect of dilutive securities:		
Share options	**3.3**	3.6
Adjusted weighted average ordinary shares (denominator for diluted EPS)	**417.9**	416.6

	2005 pence	2004 pence
Basic EPS from net income	**55.8**	42.3
Diluted EPS from net income	**55.3**	41.9

EPS, assuming full dilution, is computed based on the average number of common shares outstanding during the period, plus the dilutive effect of stock options. The dilutive effect of stock options is computed using the average market price of the company's stock for the period.

	2005 m	2004 m
Anti-dilutive options to purchase ordinary shares excluded from the computation of diluted EPS		
- at an exercise price of £3.81 (Sharesave Scheme 1997)	**-**	-
- at an exercise price of £6.18 (Share Option Scheme 1998)	**0.3**	0.6
- at an exercise price of £2.15 (Sharesave Scheme 2000)	**0.2**	0.4
- at an exercise price of £6.41 (Share Option Scheme 2002)	**1.5**	2.7
- at an exercise price of £5.98 (Sharesave Scheme 2003)	**0.6**	0.7
- at an exercise price of £7.73 (Share Option Scheme 2005)	**3.8**	-
- at an exercise price of £7.27 (Sharesave Scheme 2005)	**0.5**	-

47. Differences between IFRS and U.S. GAAP (continued)

c) Earnings per share ("EPS") (continued)

The movements on these options during each year are given in the tables on page F-25.

Pro forma net income and basic and diluted earnings per share data

Northern Rock has adopted the intrinsic value based method to measure stock-based compensation, for the purposes of the reconciliation of net income between IFRS and U.S. GAAP.

If stock-based compensation for the stock-based compensation schemes had been determined based on the fair value at the grant dates, consistent with the method encouraged by SFAS No. 123, "Accounting for Stock-Based Compensation", net income and earnings per share would have been as shown on a pro forma basis below.

Net income under U.S. GAAP	**2005 £m**	2004 £m
As reported	**253.8**	192.1
Add total stock-based employee compensation included in reported net income, net of related tax effects	**6.8**	7.2
Less total stock-based employee compensation determined under the fair value based method for all awards, net of related tax effects	**(9.9)**	(8.0)
Pro forma net income	**250.7**	191.3
Basic earnings per Ordinary Share under U.S. GAAP		
As reported	**55.8p**	42.3p
Pro forma	**55.0p**	42.1p
Diluted earnings per Ordinary Share under U.S. GAAP		
As reported	**55.3p**	41.9p
Pro forma	**54.6p**	41.7p

d) Goodwill and other intangible assets

Upon acquisition of Legal & General Bank Limited and Legal & General Mortgage Services Limited, on August 1, 2002, the Group adopted the provisions of SFAS No. 141 "Business Combinations" and SFAS No. 142, "Goodwill and Other Intangible Assets", ("SFAS No. 142"). The Group was not required to adopt the provisions of these standards prior to this date as the Group did not have any existing goodwill or intangible asset balances. In accordance with SFAS No. 142, goodwill arising on the acquisition of Legal & General Bank Limited and Legal & General Mortgage Services Limited of £29.9m has been capitalised and is subject to an impairment test at least annually, whereby impairment test reviews may result in annual goodwill write-downs. No other intangible assets were recognised on acquisition.

Since the date of acquisition, the acquired entities have been subsumed within the Group's normal trading operations. Consequently, in accordance with the impairment testing provisions of SFAS No. 142, goodwill arising on acquisition has been assigned to the consolidated Group level, being the Group's single business segment and reporting unit. If the fair value of this reporting unit is less than its carrying value, a goodwill impairment loss would be recognised equal to the excess, if any, of the net carrying value of the reporting unit goodwill over its implied fair value. In determining the estimated fair value of the reporting unit, the Group has used its quoted market share price as of the date of testing.

The Group performed its goodwill impairment test as of 31 December 2005 and deemed that there were no indicators of goodwill impairment existing.

47. Differences between IFRS and U.S. GAAP (continued)

d) Goodwill and other intangible assets (continued)

The changes in the carrying amount of goodwill for the year ended 31 December 2005 are as follows:

	£m
Balance as of January 1, 2005 and December 31, 2005	29.9

The value of goodwill acquired under U.S. GAAP represents the difference between the cost of the investment in Legal & General Bank Limited and Legal & General Mortgage Services Limited and the fair value of the assets acquired as measured under U.S. GAAP. The carrying amount of goodwill at 31 December 2005 is £0.8m lower under U.S. GAAP as compared to IFRS. This is due to the fair value of assets acquired being £5.9m higher under U.S. GAAP resulting from different amortisation periods for mortgage incentives acquired (see page F-98), net of cumulative amortisation charge of £5.1m under U.K. GAAP since acquisition not required under U.S. GAAP.

e) Investment securities

Under U.S. GAAP, SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities", investment securities are classified and disclosed within one of the following three categories: held to maturity; available for sale; or trading. The Group's investment securities are shown below in the disclosure categories required for investment securities under U.S. GAAP.

At 31 December 2005	**Amortised cost £m**	**Gross unrealised gains £m**	**Gross unrealised losses £m**	**Fair value £m**
Available for sale securities				
Equity securities	63.9	25.0	(0.2)	88.7
Debt securities issued by the U.S. Treasury and other U.S. government corporations and agencies	-	-	-	-
Debt securities issued or backed by foreign governments	1,461.7	7.4	(0.1)	1,469.0
Corporate debt securities	1,919.8	6.4	(1.6)	1,924.6
Mortgage backed securities other than those issued or backed by U.S. government securities	1,566.8	4.2	(0.2)	1,570.8
Other investment securities	321.1	2.9	-	324.0
Available for sale securities at 31 December 2005	5,333.3	45.9	(2.1)	5,377.1
Derivatives held to hedge investment securities classified as available for sale	(2.2)	-	-	(2.2)
Net available for sale securities at 31 December 2005	5,331.1	45.9	(2.1)	5,374.9
Held to maturity securities				
Corporate debt securities	487.1	11.5	(0.6)	498.0

At 31 December 2005 the amortised cost of corporate debt securities guaranteed by banks or other financial institutions amounted to £2,329.0m, comprising £1,848.5m classified as available for sale and £480.5m classified as held to maturity. Their market value at this date was £2,342.7m, comprising £1,851.3m classified as available for sale and £491.4m classified as held to maturity.

At 31 December 2005 the amortised cost of available for sale investment securities pledged to creditors amounted to £1,263.2m. Their market value at this date was £1,268.1m.

47. Differences between IFRS and U.S. GAAP (continued)

e) Investment securities (continued)

At 31 December 2004	Amortised cost £m	Gross unrealised gains £m	Gross unrealised losses £m	Fair value £m
Available for sale securities				
Equity securities	60.8	7.8	(0.4)	68.2
Debt securities issued by the U.S. Treasury and other U.S. government corporations and agencies	4.1	-	--	4.1
Debt securities issued or backed by foreign governments	1,284.9	23.8	(0.4)	1,308.3
Corporate debt securities	2,188.4	12.3	(2.1)	2,198.6
Mortgage backed securities other than those issued or backed by U.S. government securities	1,115.4	5.4	-	1,120.8
Other investment securities	222.5	2.8	-	225.3
Available for sale securities at 31 December 2004	4,876.1	52.1	(2.9)	4,925.3
Derivatives held to hedge investment securities classified as available for sale	(1.3)	-	(3.6)	(4.9)
Net available for sale securities at 31 December 2004	4,874.8	52.1	(6.5)	4,920.4
Held to maturity securities				
Corporate debt securities	437.6	11.4	(0.6)	448.4

At 31 December 2004 the amortised cost of corporate debt securities guaranteed by banks or other financial institutions amounted to £2,514.9m, comprising £2,092.8m classified as available for sale and £422.1m classified as held to maturity. Their market value at this date was £2,533.0m, comprising £2,099.9m classified as available for sale and £433.1m classified as held to maturity.

At 31 December 2004 the amortised cost of available for sale investment securities pledged to creditors amounted to £676.9m. Their market value at this date was £691.9m.

An impairment charge of £6.7m was recognised in net income during 2002 in respect of an investment within equity securities where a decline in its fair value below amortised cost was judged to be other than temporary. The amortised cost of equity securities at 31 December 2005 and 2004 includes this investment at its fair value.

The movement during the period in shareholders' funds in relation to the net unrealised gains or losses on available for sale securities, excluding the effect of derivatives held as hedges against these securities, was a decrease of £5.4m for 2005 and an increase of £10.1m for 2004.

For those investments on which there is a gross unrealised loss at 31 December 2005, the fair value and analysis by period for which there has been a loss position are as follows:

47. Differences between IFRS and U.S. GAAP (continued)

e) Investment securities (continued)

At 31 December 2005	Period investment has been in an unrealised loss position					
	Less than one year		Greater than one year		Total	
	Unrealised losses £m	Fair value £m	Unrealised losses £m	Fair value £m	Unrealised losses £m	Fair value £m
Available for sale securities						
Equity securities	(0.2)	2.4	-	0.1	(0.2)	2.5
Debt securities issued by the U.S. Treasury and other U.S. government corporations and agencies	-	-	-	-	-	-
Debt securities issued or backed by foreign governments	-	-	(0.1)	104.6	(0.1)	104.6
Corporate debt securities	(1.1)	467.9	(0.5)	85.2	(1.6)	553.1
Mortgage backed securities other than those issued or backed by U.S. government securities	(0.2)	205.7	-	6.6	(0.2)	212.3
Other investment securities	-	40.4	-	-	-	40.4
Total	(1.5)	716.4	(0.6)	196.5	(2.1)	912.9

At 31 December 2004, the aggregate amount of unrealised losses outstanding for less than 12 months was £2.1m, and related to investment securities with a fair value of £842.3m; the aggregate amount of unrealised losses outstanding for more than 12 months was £0.8m, and related to investment securities with a fair value of £159.8m.

Northern Rock considers these unrealised losses to be temporary in nature and accordingly no charge has been made for other than temporary impairment.

Maturity analysis of investment securities as at 31 December 2005

	Not more than 1 year £m	In more than 1 year but not more than 5 years £m	In more than 5 years but not more than 10 years £m	In more than 10 years £m	Total £m
Available for sale securities					
Amortised cost	854.1	2,578.8	300.7	1,599.7	5,333.3
Fair value	854.3	2,588.3	302.3	1,632.2	5,377.1
Held to maturity securities					
Amortised cost	221.2	147.3	118.6	-	487.1
Fair value	221.5	153.5	123.0	-	498.0

Securities with no stated maturity are included with securities with a contractual maturity of more than 10 years.

Sales of investment securities

Gross proceeds and realised gains and losses on sales of available for sale securities for the last two years are shown below. Realised gains and losses are calculated using an average weighted cost approach.

	2005 £m	2004 £m
Gross proceeds from sales	**5,197.8**	4,509.0
Gross realised losses on sales	**19.2**	2.5
Gross realised gains on sales	**42.7**	5.3

47. Differences between IFRS and U.S. GAAP (continued)

f) Loans and advances

The following table presents loans and advances which are defined as impaired in accordance with U.S. disclosure requirements. Under this definition loans and advances are classified as impaired if they are accounted for on a non-accruals basis; are in arrears for more than 90 days, irrespective of whether interest has been suspended or a specific provision has been made; or have been restructured and meet the requirements for classification as a "troubled debt restructuring" under SFAS No: 15, "Accounting by Debtors and Creditors for Troubled Debt Restructurings" as modified by SFAS No. 114, "Accounting by Creditors for Impairment of a Loan". Following the introduction of IFRS, Northern Rock continues to accrue interest, where appropriate, to customer accounts even where recovery is in doubt. This accrued interest is added to the loan balance, and it is recorded as income during the period. Prior to the introduction of IFRS, interest was suspended where the recovery of interest was in doubt. Accordingly, the analysis presented below is not directly comparable between 2005 and 2004. Although this practice has no effect on net income when compared to the practice employed in the U.S., it has the effect of increasing the reported level of problem and potential non-performing loans and advances for U.K. banks in comparison with U.S. banks.

	At 31 December 2005 £m	At 31 December 2004 £m
Loans and advances 90 days overdue on which no interest has been suspended and on which no individual allowance / specific provision has been made	**389.1**	55.2
Loans and advances on which a proportion of interest has been suspended and/or which individual allowance / specific provision has been made	**27.6**	179.7
Non-accruing loans and advances	**-**	39.7
Troubled debt restructurings	**36.1**	23.1
Total impaired loans and advances	**452.8**	297.7
Impaired loans and advances as a percentage of total loans and advances to customers	**0.64%**	0.54%
Provisions as a percentage of total impaired loans and advances	**27.45%**	42.63%
Average value of impaired loans and advances during the year (£m)	**375.2**	242.2

g) Segmental information

The Group's operations are treated as a single business segment for management reporting purposes, therefore no segmental information is presented in accordance with SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information".

h) Significant group concentrations of credit risk

Under SFAS No. 105, "Disclosure of Information about Financial Instruments with Off balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk", group concentrations of credit risk exist if a number of counterparties are engaged in similar activities and have similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions.

The Group's significant exposures to credit risk arise mainly in the residential mortgage portfolio. Residential mortgages represented 75% of total assets at 31 December 2005 (2004 75%). All of the Group's residential mortgage lending is concentrated in the U.K. Other secured advances and unsecured loans represented 9% of total assets at 31 December 2005 (2004 9%).

The overall day-to-day management of credit risk is delegated to individual business areas. Each business area utilises various qualitative and quantitative techniques to measure and manage their respective credit risk exposures. This includes the use of various credit risk mitigation techniques such as netting.

The customer loan risk management process incorporates sophisticated credit scoring systems to differentiate the credit risk associated with residential mortgage loans and unsecured loans, both at individual transaction and portfolio levels.

47. Differences between IFRS and U.S. GAAP (continued)

h) Significant group concentrations of credit risk (continued)

Credit exposure limits for corporates and financial institutions are primarily based on the credit ratings assigned by the rating agencies. Credit limits are monitored by the Management Board Asset and Liability Committee to ensure they remain within authorised counterparty credit limits as detailed in the Credit Risk Policy Statement approved by the Board of Directors.

Investments in U.K. Government securities amount to more than 10% of shareholders' funds. At 31 December 2005 the amortised cost of investments in these securities amounted to £1,312.7m. Their market value at this date was £1,318.7m.

i) Derivatives

On January 1, 2001, for U.S. GAAP purposes many derivatives were deemed to be non-hedging instruments and were marked to market through income accordingly. Such instruments relate primarily to derivatives hedging the fixed rate mortgages and fixed rate bonds issued by Northern Rock, for which it has not been possible to obtain hedge accounting treatment under the terms of SFAS No. 133. However, these derivatives offset substantially the interest rate risk associated with these fixed rate products. The impact of adoption of SFAS No. 133 was a decrease of net income of £67.3m and to shareholders' equity of £70.7m.

The effects are primarily attributable to movements in the fair values of interest rate swaps used to reduce the risk associated with fixed rate products. It has also impacted assets and liabilities recorded on the balance sheet. The release in 2005 attributable to the fair value adjustment to the hedged item for the 12 month period was £2.3m (2004 £4.3m).

Under SFAS No. 133, the gain or loss on a derivative instrument designated and qualifying as a fair value hedging instrument as well as the offsetting loss or gain on the hedged item attributable to the hedged risk shall be recognised currently in earnings. Derivatives closing net fair values for qualifying and non-qualifying hedges were £89.0m and £514.7m respectively (2004 (£202.8m) and (£1,026.0m) respectively).

Those derivatives which have qualified as fair value hedges under SFAS No. 133 have no ineffectiveness recorded in income for the years ended 31 December 2005 and 2004.

j) Fair values of financial instruments

Details of fair values of financial assets and financial liabilities are shown in note 39. In addition to the total of £785.3m included in this disclosure in respect of subordinated liabilities, instruments with an additional fair value of £736.5m are included within subordinated liabilities in the U. S. GAAP balance sheet at 31 December 2005. These instruments are classified as subordinated notes within equity under IFRS and are therefore excluded from the disclosure in note 39.

By its nature, the estimation of fair values is highly subjective and the results will depend largely upon the assumptions made. Considerable caution should therefore be used in interpreting the fair values, particularly if comparing with fair values presented by other financial institutions.

The Group attaches great value to its distribution network, its profile in the U.K., its personal financial services market and its relationships with its customers. However, such intangible assets are not recognised for the purposes of SFAS No. 107. Furthermore, the concept of fair values assumes that the financial instruments will be realised by way of sale. However, with the exception of certain non-trading securities, the Group intends to realise its assets through collection over time. Consequently, the Directors believe that the fair values significantly understate the true value of the group as a going concern.

48. U.S. GAAP financial statements

The following are the Group's consolidated balance sheets as at December 31, 2005 and 2004 and related profit and loss accounts, statements of cashflows and statements of changes in shareholders' equity for the two years ended 31 December 2005, prepared in accordance with U.S. GAAP presentation requirements and adjusted to reflect all U.S. GAAP adjustments in the tables shown on pages F-101 and F-102.

Certain classification differences exist in financial reporting under IFRS and U.S. GAAP. For the Group, such differences primarily arise in the profit and loss account and cashflow statement.

The following comparison lists the line items shown on the Group's consolidated profit and loss account as reported under IFRS and the corresponding line items as reported under U.S. GAAP.

48. U.S. GAAP financial statements (continued)

IFRS	U.S. GAAP
Profit and loss presentation	**Profit and loss presentation**
- Interest and similar income	- Interest income
- Interest expense and similar charges	- Interest expense
- Fee and commission income	- Fees and commissions income – classified as "interest income" as it relates to net loan origination fees and "non interest income" as it relates to other fees
- Fee and commission expense	- Fees and commissions expense – classified within "non interest income"
- Other operating income	- Non interest income
- Net hedge ineffectiveness and other unrealised fair value gains and losses	- Non hedging gains and losses
- Operating expenses	
- Administrative expenses	- Operating expenses
- Depreciation and amortisation	- Operating expenses
- Covenant to The Northern Rock Foundation	- Operating expenses
- Impairment losses on loans and advances	- Provision for loan losses
- Impairment of fixed asset investments	- Realised losses on available for sale securities
- Income tax expense	- Income taxes

The principal differences between IFRS and U.S. GAAP related to the classification of cashflow transactions are as follows:

	IFRS classification under IAS7	U.S. GAAP classification under SFAS No. 95
Income taxes paid	Operating liabilities	Operating activities
Net change in loans and advances	Operating assets	Investing activities
Net change in deposits	Operating liabilities	Financing activities
Net change in debt securities in issue	Operating liabilities	Financing activities

48. U.S. GAAP financial statements (continued)

Consolidated Profit and Loss Account
For the years ended 31 December

	2005 £m	2004 £m
Continuing operations		
Interest income	**4,056.3**	2,944.7
Interest expense	**(2,825.5)**	(1,907.1)
Net interest income	**1,230.8**	1,037.6
Provisions for loan losses	**(49.0)**	(48.3)
Net interest income after provision for loan losses	**1,181.8**	989.3
Non interest income		
Non hedging losses	**(665.0)**	(650.9)
Fees and commissions income	**157.0**	189.0
Fees and commissions expense	**(28.9)**	(60.1)
Other operating income	**0.9**	24.2
Impairment of available for sale securities	**-**	5.6
Total non interest income	**(536.0)**	(492.2)
Operating expenses		
- staff costs	**(148.2)**	(127.2)
- other operating expenses	**(81.6)**	(84.9)
- covenant to The Northern Rock Foundation	**(24.7)**	(21.6)
- depreciation	**(27.1)**	(18.2)
- losses on other real estate	**(4.3)**	(0.2)
Total operating expenses	**(285.9)**	(252.1)
Income before income taxes	**359.9**	245.0
Income taxes	**(106.1)**	(52.9)
Net income	**253.8**	192.1
Earnings per share from net income:		
Basic per ordinary share	**55.8p**	42.3p
Fully diluted per ordinary share	**55.3p**	41.9p

Under FAS 133, all fair value changes for derivatives not in hedging relationships are recorded within a single line item in the income statement. Northern Rock believes that this gives a misleading view of interest margin because of the impact of cross currency derivatives used to economically hedge borrowings in foreign currencies. The approach required under FAS 133 results in borrowing costs on foreign currency items being recorded in margin at the rates ruling in the original currencies, with the additional cost required to reflect sterling interest rates being shown within non hedging losses. The value of cash flows and accruals that Northern Rock believes should be recorded within margin in 2005 was £522.5m (2004 £589.6m). If these were restated within margin, this would result in an increase in interest payable and a reduction in non hedging losses of these amounts.

DISCLAIMER - INTENDED ADDRESSEES

Please note that the information contained in each Prospectus (as supplemented) may be addressed to and/or targeted at persons who are residents of particular countries (specified in such Prospectus) only and is not intended for use and should not be relied upon by any person outside these countries and/or to whom the offer contained in such Prospectus is not addressed. Prior to relying on the information contained in such Prospectus, you must ascertain from the Prospectus whether or not you are part of the intended addressees of the information contained therein.

In particular, neither Prospectus on this website constitutes an offer of securities for sale in the United States. The securities described herein have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended, or under any relevant securities laws of any state of the United States of America and may not be offered or sold to U.S. persons or to persons within the United States of America.

Your right to access this service is conditional upon complying with the above requirement.

SUPPLEMENTARY PROSPECTUS DATED 3 AUGUST 2006

northern rock

NORTHERN ROCK PLC

(Incorporated with limited liability in England and Wales under the Companies Act 1985, registered number 3273685)

U.S.$15,000,000,000
Euro Medium Term Note Programme

This Supplement (the **Supplement**) to the Prospectus (the **Prospectus**) dated 19 June 2006 which comprised a Base Prospectus constitutes a supplementary prospectus for the purposes of Section 87G of the Financial Services and Markets Act 2000 (the **FSMA**) and is prepared in connection with the Euro Medium Term Note Programme (the **Programme**) established by Northern Rock plc (the **Issuer**). Terms defined in the Prospectus have the same meaning when used in this Supplement.

This Supplement is supplemental to, and should be read in conjunction with, the Prospectus and any other supplements to the Prospectus issued by the Issuer.

The Issuer accepts responsibility for the information contained in this Supplement. To the best of the knowledge of the Issuer (which has taken all reasonable care to ensure that such is the case) the information contained in this Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information.

On 26 July 2006 the Issuer published its consolidated unaudited interim results as at and for the six month period ended 30 June 2006. A copy of those interim results has been filed with the Financial Services Authority and, by virtue of this Supplement, those interim results are incorporated in, and form part of, the Prospectus. Copies of all documents incorporated by reference in the Prospectus can be obtained from the website of the Issuer at www.northernrock.co.uk and from the registered office of the Issuer and the specified office in London of the Agent, as described on pages 9, 63 and 64, respectively, of the Prospectus.

On 1 August 2006, Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies Inc. announced that it had upgraded the long-term counterparty credit rating of the Issuer to 'A+' from 'A'. The 'A-1' short-term counterparty credit rating was reaffirmed. The rating outlook was described in the announcement as stable.

To the extent that there is any inconsistency between (a) any statement in this Supplement or any statement incorporated by reference into the Prospectus by this Supplement and (b) any other statement in or incorporated by reference in the Prospectus, the statements in (a) above will prevail.

Save as disclosed in this Supplement, there has been no other significant new factor, material mistake or inaccuracy relating to information included in the Prospectus since the publication of the Prospectus.

Any investor who may wish to exercise any withdrawal right arising pursuant to Section 87Q(4) of the FSMA as a result of the publication of this Supplement must exercise that right on or before 5.30 p.m. (London time) on 7 August, 2006.

SUPPLEMENTARY PROSPECTUS DATED 3 AUGUST 2006

Northern Rock plc

(incorporated with limited liability in England and Wales)

€10 billion
Global Covered Bond Programme
unconditionally and irrevocably guaranteed as to payments of interest and principal by

Northern Rock Covered Bond LLP

(a limited liability partnership incorporated in England and Wales)

This Supplement (the **Supplement**) to the Prospectus dated 9 November 2005, as supplemented by a supplementary prospectus dated 31 January 2006 (together, the **Prospectus**) which comprises a Base Prospectus constitutes a supplementary prospectus for the purposes of Section 87G of the Financial Services and Markets Act 2000 (the **FSMA**) and is prepared in connection with the Global Covered Bond Programme (the **Programme**) established by Northern Rock plc (the **Issuer**) and unconditionally and irrevocably guaranteed as to payments of interest and principal by Northern Rock Covered Bond LLP. Terms defined in the Prospectus have the same meaning when used in this Supplement.

This Supplement is supplemental to, and should be read in conjunction with, the Prospectus and any other supplements to the Prospectus issued by the Issuer.

The Issuer accepts responsibility for the information contained in this Supplement. To the best of the knowledge and belief of the Issuer (which has taken all reasonable care to ensure that such is the case) the information contained in this Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information.

On 26 July 2006 the Issuer published its consolidated unaudited interim results as at and for the six month period ended 30 June 2006. A copy of those interim results has been filed with the Financial Services Authority and, by virtue of this Supplement, those interim results are incorporated in, and form part of, the Prospectus. Copies of all documents incorporated by reference in the Prospectus can be obtained from the website of the Issuer at www.northernrock.co.uk and from the registered office of the Issuer and the specified office in London of the Agent, as described on pages 5 and 159, respectively, of the Prospectus. In addition, all documents incorporated by reference in the Prospectus will also be available for viewing on the website of the Regulatory News Service operated by the London Stock Exchange at *http://www.londonstockexchange.com/en-gb/pricesnews/marketnews/*.

On 1 August 2006, Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies Inc. announced that it had upgraded the long-term counterparty credit rating of the Issuer to 'A+' from 'A'. The 'A-1' short-term counterparty credit rating was reaffirmed. The rating outlook was described in the announcement as stable.

The Prospectus and any future prospectuses, supplementary prospectuses, information memoranda and supplements as well as each Final Terms relating to Notes which are either admitted to trading on the London Stock Exchange's Gilt-Edged and Fixed Interest Market or offered in the United Kingdom in circumstances where a prospectus is required to be published under the Prospectus Directive (subject as provided in sub-paragraph (vi) of "General Information – Documents Available" on page 159 of the Prospectus) and any other documents incorporated herein or therein by reference will also be available for viewing on the website of the Regulatory News Service operated by the London Stock Exchange at *http://www.londonstockexchange.com/en-gb/pricesnews/marketnews/*.

To the extent that there is any inconsistency between (a) any statement in this Supplement or any statement incorporated by reference into the Prospectus by this Supplement and (b) any other statement in or incorporated by reference in the Prospectus, the statements in (a) above will prevail.

Save as disclosed in this Supplement, there has been no other significant new factor, material mistake or inaccuracy relating to information included in the Prospectus since the publication of the Prospectus.

Any investor who may wish to exercise any withdrawal right arising pursuant to Section 87Q(4) of the FSMA as a result of the publication of this Supplement must exercise that right on or before 5.30 p.m. (London time) on 7 August, 2006.

OFFICE OF INTERNATIONAL CORPORATE FINANCE

THE COMPANIES ACT 1985
SECTION 380(2)

Registered Number: 3273685

The following resolution was passed as a Special Resolution by the shareholders of Northern Rock plc at the Company's Annual General Meeting held on 26 April 2005.

Special Resolution

18. THAT the regulations in the form produced to the Annual General Meeting and initialled for the purposes of identification by the Chairman of the Meeting, be adopted as the new Articles of Association of the Company, in substitution for and to the exclusion of the existing Articles of Association of the Company, with effect from the conclusion of the Meeting.

The following resolution was passed as an Ordinary Resolution by the shareholders of Northern Rock plc at the Company's Annual General Meeting held on 25 April 2006.

Ordinary Resolution

9. THAT, in substitution for all previous authorities conferred upon the Directors to allot relevant securities of the Company but without prejudice to the continuing authority of the Directors to allot relevant securities pursuant to an offer or agreement made by the Company before the revocation of the authority pursuant to which such offer or agreement was made, the authority conferred on the Directors by Article 10.1 of the Company's Articles of Association shall apply for the period commencing on the date of the passing of this Resolution and shall expire, unless renewed, on 24 April 2011 and for that period the section 80 amount shall be £41,296,625.

The following resolutions were passed as Special Resolutions by the shareholders of Northern Rock plc at the Company's Annual General Meeting held on 25 April 2006.

Special Resolutions:

10. THAT, subject to the passing of Resolution 9 in the Notice of this Meeting, the power conferred on the Directors by Article 10.2 of the Company's Articles of Association shall apply for the period commencing on the date of passing of this Resolution and shall expire, unless renewed, on the expiry or termination of the authority conferred on the Directors pursuant to Resolution 9 in the Notice of this Meeting and for that period the section 89 amount shall be £5,265,325.

11. THAT, pursuant to Article 53, the Company be and is hereby granted general and unconditional authority for the purposes of section 166 of the Companies Act 1985 to make one or more market purchases (within the meaning of section 163(3) of the Companies Act 1985) of ordinary shares of 25p each in its capital provided that:

    a) the maximum aggregate number of ordinary shares hereby authorised to be purchased is 42,122,600 (representing 10% of the Company's issued ordinary share capital as at 31 December 2005);

    b) the minimum price (exclusive of expenses) which may be paid for such shares is 25p per share (being the nominal value of an ordinary share);

c) the maximum price (exclusive of expenses) which may be paid for each ordinary share is the higher of (i) an amount equal to 105% of the average of the middle market quotations for an ordinary share in the Company as derived from the London Stock Exchange's Daily Official List for the five business days immediately preceding the date on which the ordinary share is contracted to be purchased and (ii) an amount equal to the higher of the price of the last independent trade of an ordinary share and the highest current independent bid for an ordinary share as derived from the London Stock Exchange Trading System;

d) unless previously renewed, varied or revoked, the authority hereby conferred shall expire at the conclusion of the Company's next Annual General Meeting or 18 months from the date of passing of this Resolution, whichever is earlier; and

e) the Company may make a contract or contracts to purchase ordinary shares under the authority hereby conferred prior to the expiry of such authority which will or may be executed wholly or partly after the expiry of such authority and may make a purchase of ordinary shares in pursuance of any such contract or contracts.

12. THAT the contingent share purchase contract between the Company and The Northern Rock Foundation (a draft of which is produced to the Meeting and initialled by the Chairman for the purposes of identification), providing for the purchase by the Company of fully paid Foundation Shares in the share capital of the Company at such times and at such prices and in such numbers and otherwise on the other terms set out in such contract, be and is hereby approved and authorised generally (including, without limitation, for the purposes of sections 164 and 165 of the Companies Act 1985) but so that such approval and authority, unless previously renewed, varied or revoked, shall expire 18 months from the date of passing of this Resolution.

PROSPECTUS
Dated 19 June 2006

NORTHERN ROCK PLC

RECEIVED

(Incorporated with limited liability in England and Wales under the Companies Act 1985, registered number 3225685)

A 9: 40

U.S.$15,000,000,000
Euro Medium Term Note Programme

OFFICE OF INTERNATIONAL CORPORATE FINANCE

This Prospectus supersedes any previous prospectus or offering circular. Any Notes issued under the U.S.$15,000,000,000 Euro Medium Term Note Programme (the "Programme") are issued subject to the provisions set out herein. Other than as stated herein, this does not affect any Notes issued prior to the date hereof.

Pursuant to the Programme, Northern Rock plc (the "Issuer" or "Northern Rock") may from time to time issue in one or more Tranches (as defined herein) of Notes (the "Notes", which expression shall include Senior Notes, Dated Subordinated Notes and Undated Subordinated Notes (each as defined herein)). The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed U.S.$15,000,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement (as defined herein) and subject to increase as provided in the Programme Agreement).

Save as further described herein, Notes issued under the Programme may (i) be denominated in such currencies as may be agreed, (ii) be issued at par or at a premium or discount to par, (iii) be issued on a fully-paid or partly-paid basis, (iv) bear interest at a fixed or floating rate or on an index- or formula-linked basis or be issued on a non-interest bearing fully-discounted basis, (v) provide that the amount payable upon redemption is fixed or index- or formula-linked, (vi) provide that they will be redeemed in one amount or instalments or will have no final maturity date and/or (vii) provide that payments of principal and/or interest should be made in a currency or currencies other than the original currency of issue.

The Notes may be issued from time to time to one or more of the Dealers specified on page 4 (each a "Dealer" and together the "Dealers", which expression shall include any additional Dealer appointed under the Programme from time to time and which appointment may be for a specific issue or on an ongoing basis).

An investment in Notes issued under the Programme involves certain risks. For a discussion of these risks, see "Risk Factors" on page 10.

Application has been made to the Financial Services Authority in its capacity as competent authority under the Financial Services and Markets Act 2000 (the "UK Listing Authority" and the FSMA, respectively) for Notes issued within 12 months from the date hereof to be admitted to the official list of the UK Listing Authority (the "Official List") and to the London Stock Exchange plc (the "London Stock Exchange") for such Notes to be admitted to trading on the London Stock Exchange's Gilt-Edged and Fixed Interest Market. References in this Prospectus to Notes being "listed" (and all related references) shall mean that such Notes have been admitted to the Official List and have been admitted to trading on the London Stock Exchange's Gilt-Edged and Fixed Interest Market. The London Stock Exchange's Gilt-Edged and Fixed Interest Market is a regulated market for the purposes of Directive 93/22/EEC (the "Investment Services Directive").

Notice of the aggregate nominal amount of, interest (if any) payable in respect of, the issue price of, the issue date and maturity date (if any) of, and any other terms and conditions not contained herein which are applicable to, each Tranche of Notes will be set forth in a final terms document ("Final Terms") applicable to such Tranche which, with respect to Notes to be listed on the London Stock Exchange, will be delivered to the UK Listing Authority and to the London Stock Exchange on or before the date of issue of such Tranche.

The Programme provides that Notes may be listed and/or admitted to trading, as the case may be, on such other or further stock exchanges or markets as may be agreed between the Issuer and the relevant Dealer(s). The Issuer may also issue Senior Notes which are not to be listed and/or admitted to trading on any market. The applicable Final Terms in respect of the issue of any Notes will specify whether or not such Notes will be admitted to the Official List and to trading on the London Stock Exchange's Gilt-Edged and Fixed Interest Market (or any other listing authority, stock exchange and/or quotation system, if applicable).

The Issuer may agree with any Dealer and the Trustee that Notes may be issued in a form not contemplated by the "Terms and Conditions of the Notes" herein, in which event (in the case of Notes admitted to the Official List only) a supplementary prospectus or further prospectus, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Notes.

The Notes of each Tranche will be in bearer form and will be initially represented by a temporary global Note which will (i) if the global Notes are intended to be issued in new global note ("NGN") form, as specified in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper (the "Common Safekeeper") for Euroclear Bank SA/NV ("Euroclear") and Clearstream Banking, société anonyme ("Clearstream, Luxembourg"); and (ii) if the global Notes are not intended to be issued in NGN form, be delivered on or prior to the original issue date of the Tranche to a common depositary (the "Common Depositary") for Euroclear and Clearstream, Luxembourg. The temporary global Note will be exchangeable, as specified in the applicable Final Terms, either for a permanent global Note or Notes in definitive form, in each case upon certification as to non-U.S. beneficial ownership as required by U.S. Treasury regulations. The applicable Final Terms will specify that a permanent global Note either (i) is exchangeable (in whole but not in part) for definitive Notes upon request or (ii) is only exchangeable (in whole but not in part) for definitive Notes following the occurrence of an Exchange Event (as defined on page 17), all as further described in "Form of the Notes" below.

The Programme has been rated by Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies Inc. ("Standard & Poor's"), Moody's Investors Service Limited ("Moody's") and by Fitch Ratings Ltd ("Fitch").

Notes issued under the Programme may be rated or unrated. Where an issue of Notes is rated, its rating will not necessarily be the same as the rating applicable to the Programme. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

This Prospectus has been approved by the UK Listing Authority as a base prospectus for the purposes of Article 5.4 of Directive 2003/71/EC (the "Prospectus Directive") and has been published in accordance with the prospectus rules made under the FSMA.

The Issuer (the "Responsible Person") accepts responsibility for the information contained in this Prospectus. To the best of the knowledge and belief of the Issuer (which has taken all reasonable care to ensure that such is the case) the information contained in this Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information.

This Prospectus is to be read in conjunction with all documents which are deemed to be incorporated herein by reference (see "Documents Incorporated By Reference" on page 9). This Prospectus shall be read and construed on the basis that such documents are so incorporated and form part of this Prospectus.

Neither the Dealers nor the Trustee have separately verified the information contained in this Prospectus. Accordingly, no representation, warranty or undertaking, express or implied, is made, and no responsibility or liability is accepted, by the Dealers or the Trustee as to the accuracy or completeness of the information contained in this Prospectus, or any other financial statement or any further information supplied in connection with the Programme or the Notes or their distribution. Neither the Dealers nor the Trustee accept any liability in relation to the information contained in this Prospectus or any other information provided by the Issuer in connection with the Programme.

No person is or has been authorised to give any information or to make any representation in connection with the offering, distribution or sale of the Notes other than as contained in, or consistent with, this Prospectus and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, the Dealers or the Trustee.

None of this Prospectus and any financial statements and any further information supplied in connection with the Notes is intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation or constituting an offer or invitation by or on behalf of the Issuer, any of the Dealers or the Trustee that any recipient of this Prospectus or any financial statements or any further information supplied in connection with the Notes should subscribe for or purchase any of the Notes. Each investor contemplating purchasing Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer.

The delivery of this Prospectus does not at any time imply that the information contained herein concerning the Issuer is correct at any time subsequent to the date hereof or that any other financial statements or any further information supplied in connection with the Notes is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers and the Trustee expressly do not undertake to review the financial condition or affairs of the Issuer and its subsidiaries during the life of the Programme. Investors should review, *inter alia*, the documents deemed incorporated herein by reference when deciding whether or not to purchase any of the Notes.

The distribution of this Prospectus and the offer, distribution or sale of Notes may be restricted by law in certain jurisdictions. The Issuer, the Dealers and the Trustee do not represent that this document may be lawfully distributed, or that the Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer, the Dealers or the Trustee which would permit a public offering of any Notes outside the United Kingdom or distribution of this document in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations and the Dealers have represented that all offers and sales by them will be made on the same terms. Persons into whose possession this Prospectus or any Notes come must inform themselves about, and observe, any such restrictions. In particular, there are restrictions on the distribution of this Prospectus and the offer or sale of Notes in the United States, the European Economic Area (including the United Kingdom, France and The Netherlands) and Japan, see "Subscription and Sale" on page 60.

This Prospectus has not been submitted for clearance to the *Autorité des marchés financiers* in France.

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "Securities Act") and are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered, directly or indirectly, within the United States or to, or for the account or benefit of, U.S. persons as defined herein (see "Subscription and Sale").

In this Prospectus, references to "£", "pounds" and "Sterling" are to pounds sterling, references to "U.S.$" and "U.S. Dollars" are to United States dollars, references to "cents" are to United States cents, references to "Yen" and "¥" are to Japanese Yen and references to "euro" and "€" are to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty establishing the European Community, as amended.

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in the applicable Final Terms may over-allot Notes (provided that, in the case of any Tranche of Notes to be admitted to trading on a regulated market in the European Economic Area, the aggregate principal amount of Notes allotted does not exceed 105 per cent. of the aggregate principal amount of the relevant Tranche) or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilising Manager(s) (or persons acting on behalf of a Stabilising Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes.

SUMMARY OF THE PROGRAMME AND TERMS AND CONDITIONS OF THE NOTES

This summary must be read as an introduction to this Prospectus and any decision to invest in any Notes should be based on a consideration of this Prospectus as a whole, including the documents incorporated by reference. Following the implementation of the relevant provisions of the Prospectus Directive in each Member State of the European Economic Area no civil liability will attach to the Responsible Person in any such Member State in respect of this summary, including any translation hereof, unless it is misleading, inaccurate or inconsistent when read together with the other parts of this Prospectus. Where a claim relating to information contained in this Prospectus is brought before a court in a Member State of the European Economic Area, the claimant may, under the national legislation of the Member State where the claim is brought, be required to bear the costs of translating the Prospectus before the legal proceedings are initiated.

Words and expressions defined in "Form of the Notes" and "Terms and Conditions of the Notes" below shall have the same meanings in this summary.

Information Relating to the Issuer:

Description:	Northern Rock plc, a public limited company incorporated and registered in England and Wales under the Companies Act 1985 on 30 October 1996 (with registration number 3273685). The registered and principal executive office of the Issuer is at Northern Rock House, Gosforth, Newcastle upon Tyne NE3 4PL, United Kingdom. Its internet address is www.northernrock.co.uk and its telephone number is +44 845 600 8401.
Business of the Issuer:	The Issuer is a specialised mortgage lender whose core business is the provision of residential mortgages in the United Kingdom funded in the retail, wholesale, covered bonds and securitisation markets. The Issuer, together with its subsidiaries and associated companies, also engages in secured commercial lending, personal unsecured lending and distribution of third party insurance products. At 31 December 2005, the Issuer and its subsidiaries and associated undertakings had statutory total assets of £82.7 billion. The Issuer is the sixth largest mortgage lender in the United Kingdom based upon loans outstanding and has been consistently in the top three mortgage lenders based on net new loans originated. In the UK mortgage market, the Issuer achieved a market share of 14.5 per cent. on the basis of net residential lending during 2005 of £13.4 billion and a market share of 8.1 per cent. on the basis of gross residential lending during 2005 of £23.6 billion. The Issuer was originally a building society (a mutual form of organisation existing under English law which engages primarily in residential mortgage lending and deposit taking) prior to its conversion to a public limited company effective 1 October 1997.

Information Relating to the Programme:

Arranger:	Merrill Lynch International
Dealers:	Barclays Bank PLC Deutsche Bank AG, London Branch HSBC Bank plc Lehman Brothers International (Europe) Merrill Lynch International J.P. Morgan Securities Ltd. The Royal Bank of Scotland plc UBS Limited

Certain Restrictions:	Each issue of Notes denominated in a currency in respect of which particular laws, guidelines, regulations, restrictions or reporting requirements apply will only be issued in circumstances which comply with such laws, guidelines, regulations, restrictions or reporting requirements from time to time (see "Subscription and Sale" on page 60).
Distribution:	Notes may be distributed by way of private or public placement and in each case on either a syndicated or non-syndicated basis.
Trustee:	The Law Debenture Trust Corporation p.l.c.
Issuing and Principal Paying Agent and Agent Bank:	Citibank, N.A.
Amount:	Up to U.S.$15,000,000,000 nominal amount outstanding at any time or its equivalent in other currencies calculated as described in the Programme Agreement. The Issuer may increase the amount of the Programme in accordance with the terms of the Programme Agreement.
Currencies:	Subject to any applicable legal or regulatory restrictions, such currency or currencies as may be agreed from time to time by the Issuer, the relevant Dealer(s), the Agent and the Trustee.
Redenomination:	The applicable Final Terms may provide that certain Notes may be redenominated in euro. If so, the redenomination provisions will be set out in the applicable Final Terms.
Maturities:	Such maturities as may be agreed between the Issuer and the relevant Dealer and as indicated in the applicable Final Terms, subject to such minimum or maximum maturities as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the Issuer or the relevant Specified Currency. At the date of this Prospectus, the minimum maturity of all Notes is six months, save that (i) Subordinated Notes may be undated, (ii) in the case of Dated Subordinated Notes, the minimum maturity will be five years and one day and (iii) in any case such other minimum or maximum maturity as may be required from time to time by the relevant monetary authority or any laws or regulations applicable to the relevant Specified Currency.
Issue Price:	Notes may be issued at par or at a premium or discount to par and may be issued on a fully-paid or partly-paid basis.
Form:	Each Tranche of Notes will be in bearer form and will be initially represented by a temporary global Note which will (i) if the global Notes are intended to be issued in NGN form, as specified in the applicable Final Terms, be delivered on or prior to the Issue Date to a Common Safekeeper for Euroclear and Clearstream, Luxembourg; and (ii) if the global Notes are not intended to be issued in NGN form, be delivered on or prior to the Issue Date to a Common Depositary for Euroclear and Clearstream, Luxembourg. The temporary global Note will be exchangeable upon request as described therein for either a permanent global Note or definitive Notes (as indicated in the applicable Final Terms), in each case not earlier than 40 days after the Issue Date upon certification as to non-U.S. beneficial ownership as required by U.S. Treasury regulations. The applicable Final Terms will specify that a permanent global Note either (i) is exchangeable (in whole but not in part) for definitive Notes

upon not less than 45 days' written notice or (ii) is only exchangeable (in whole but not in part) for definitive Notes upon the occurrence of an Exchange Event, as described in "Form of the Notes" below. Any interest in a global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear and/or Clearstream, Luxembourg and/or any other agreed clearing system, as appropriate.

Notes to be issued under the Programme will be Senior Notes, Dated Subordinated Notes or Undated Subordinated Notes.

Fixed Rate Notes: Fixed interest will be payable on such date or dates as may be agreed between the Issuer and the relevant Dealer(s) and on redemption, and will be calculated on the basis of such Day Count Fraction as may be agreed between the Issuer and the relevant Dealer(s) and indicated in the applicable Final Terms.

Floating Rate Notes: Floating Rate Notes will bear interest at a rate determined either:

(i) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the 2000 ISDA Definitions (as published by the International Swaps and Derivatives Association, Inc., and as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series); or

(ii) on the basis of a reference rate appearing on an agreed screen page of a commercial quotation service; or

(iii) on such other basis as may be agreed between the Issuer and the relevant Dealer(s),

as indicated in the applicable Final Terms.

The Margin (if any) relating to such floating rate will be agreed between the Issuer and the relevant Dealer(s) for each issue of Floating Rate Notes.

Index Linked Notes: Payments of principal in respect of Index Linked Redemption Notes or of interest in respect of Index Linked Interest Notes will be calculated by reference to such index and/or formula or to changes in the prices of securities or commodities or to such other factors as the Issuer and the relevant Dealer(s) may agree (as indicated in the applicable Final Terms).

Other provisions in relation to Floating Rate Notes and Index Linked Interest Notes: Floating Rate Notes and Index Linked Interest Notes may also have a maximum interest rate, a minimum interest rate or both (as indicated in the applicable Final Terms).

Interest on Floating Rate Notes and Index Linked Interest Notes in respect of each Interest Period, as agreed prior to issue by the Issuer and the relevant Dealer(s), will be payable on such Interest Payment Dates and will be calculated on the basis of such Day Count Fraction as may be agreed between the Issuer and the relevant Dealer(s).

Dual Currency Notes: Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of Dual Currency Notes will be made in such currencies, and based on such rates of exchange, as the Issuer and the relevant Dealer(s) may agree (as indicated in the applicable Final Terms).

Zero Coupon Notes: Zero Coupon Notes will not bear interest and will be offered and sold at a discount to their nominal amount unless otherwise specified in the applicable Final Terms.

Redemption:

The applicable Final Terms relating to each Tranche of Notes will indicate either that (except for Undated Subordinated Notes which will not have a stated maturity) the Notes of such Tranche cannot be redeemed prior to their stated maturity (other than in specified instalments (see below), if applicable, or for taxation reasons (subject, in the case of Subordinated Notes only, to having obtained the prior consent of the Financial Services Authority) or following an Event of Default) or that such Notes will be redeemable at the option of the Issuer (subject, in the case of Subordinated Notes only, to having obtained the prior consent of the Financial Services Authority) and/or the Noteholders upon giving not more than 60 nor less than 30 days' irrevocable notice (or such other notice period (if any) as is indicated in the applicable Final Terms) to the Noteholders or the Issuer, as the case may be, on a date or dates specified prior to such stated maturity (if any) and at a price or prices and on such terms as are indicated in the applicable Final Terms.

The applicable Final Terms may provide that Notes may be redeemed in two or more instalments of such amounts and on such dates as are indicated in such Final Terms.

Denomination of Notes:

Notes will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer(s) and as indicated in the applicable Final Terms save that the minimum denomination of each Note will be such amount as may be allowed or required from time to time by the relevant regulatory authority or any laws or regulations applicable to the relevant Specified Currency and save that the minimum denomination of each Note admitted to trading on a regulated market within the European Economic Area or offered to the public in a Member State of the European Economic Area in circumstances which require the publication of a prospectus under the Prospectus Directive will be €1,000 (or, if the Notes are denominated in a currency other than euro, the equivalent amount in such currency at the time of issue).

Taxation:

All payments in respect of the Notes will be made without deduction for or on account of United Kingdom withholding taxes, subject to certain exceptions as are described in Condition 10.

Status of the Senior Notes:

The Senior Notes will constitute direct, unconditional and (subject to the provisions of Condition 4) unsecured obligations of the Issuer ranking *pari passu* and without any preference among themselves and (subject as aforesaid and to any applicable statutory provisions) at least equally with all other present and future unsecured and unsubordinated obligations of the Issuer from time to time outstanding.

Status of the Subordinated Notes:

The Subordinated Notes will be direct, unsecured, subordinated obligations of the Issuer and will rank *pari passu* and without any preference among themselves.

The rights of holders of Subordinated Notes will be subordinated in right of payment in the manner provided in the Trust Deed and as specified in Condition 3.

In respect of Undated Subordinated Notes, payments of interest are subject to the right of the Issuer to defer payments of interest in accordance with Condition 5*(f)* and subject to Condition 3(ii).

Rating:

The Programme has been rated by Standard & Poor's, by Moody's and by Fitch. Notes issued under the Programme may be rated or unrated. Where an issue of Notes is rated, its rating will not necessarily be the same as the rating applicable

	to the Programme. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. Where an issue of Notes is rated, the rating will be specified in the applicable Final Terms.
Cross Default:	The Senior Notes will contain a cross default clause in respect of indebtedness for moneys borrowed (as defined in the Trust Deed) of, or guaranteed by, the Issuer or any Material Subsidiary having an outstanding aggregate principal amount of at least the Specified Amount as more fully described in Condition 11.
Negative Pledge:	The Senior Notes will contain a negative pledge provision as more fully described in Condition 4.
Listing and Admission to Trading:	Application has been made to the UK Listing Authority for Notes issued under the Programme during the period of 12 months from the date of this Prospectus to be admitted to the Official List and to the London Stock Exchange for such Notes to be admitted to trading on the London Stock Exchange's Gilt-Edged and Fixed Interest Market. Notes may also be listed and/or admitted to trading, as the case may be, on such other or further stock exchanges or markets as may be agreed between the Issuer and the relevant Dealer(s) in relation to each issue. Notes (other than Subordinated Notes) which are neither listed nor admitted to trading on any market may also be issued. The Final Terms relating to each Tranche of Notes will state whether or not the relevant Notes are to be listed and/or admitted to trading and, if so, on which stock exchanges and markets.
Governing Law:	The Notes will be governed by, and construed in accordance with, English law.
Selling Restrictions:	There are selling restrictions in relation to the offering and sale of a particular Tranche of Notes. See "Subscription and Sale".
Risk Factors:	A description of certain factors that may affect the Issuer's ability to fulfil its obligations under Notes issued under the Programme is set out under "Risk Factors" below and includes exposure to credit risk and market risk, dependence on economic activity in the UK, risks associated with strategic decisions regarding organic growth and cost control, access to wholesale funding, covered bond and securitisation markets and the impact of regulatory changes. In addition, there are certain factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme, see "Risk Factors".

DOCUMENTS INCORPORATED BY REFERENCE

The following documents, which have previously been published and have been filed with the Financial Services Authority, shall be incorporated in, and form part of, this Prospectus:

(a) the Issuer's 2004 Annual Report and Accounts, including the audited consolidated annual financial statements for the financial year ended 31 December 2004 together with the notes to the financial statements and the audit report thereon;

(b) the Issuer's 2005 Annual Report and Accounts, including the audited consolidated annual financial statements for the financial year ended 31 December 2005 together with the notes to the financial statements and the audit report thereon; and

(c) the Preliminary Results of the Issuer for the financial year ended 31 December 2005.

Following the publication of this Prospectus, a supplementary prospectus may be prepared by the Issuer and approved by the UK Listing Authority in accordance with Article 16 of the Prospectus Directive. Statements contained in any such supplementary prospectus (or contained in any document incorporated by reference therein) shall, to the extent applicable (whether expressly, by implication or otherwise), be deemed to modify or supersede statements contained in this Prospectus or in a document which is incorporated by reference in this Prospectus. Any statement so modified or superseded shall not, except as so modified or superseded, constitute a part of this Prospectus.

Copies of documents incorporated by reference in this Prospectus can be obtained, upon request and free of charge, from the registered office of the Issuer and from the specified office of the Agent in London and will be available for viewing on the website of the Regulatory News Service operated by the London Stock Exchange at www.londonstockexchange.com/en-gb/pricesnews/marketnews/.

In the event of any significant new factor arising or any material mistake or inaccuracy relating to the information included in this Prospectus which is capable of affecting the assessment of any Notes, the Issuer will prepare and publish a supplementary prospectus or a new prospectus for use in connection with any subsequent issue of Notes. In addition, the Issuer has undertaken to the Dealers in the Programme Agreement (as defined in "Subscription and Sale" on page 60) that it will comply with Section 87G of the FSMA.

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under Notes issued under the Programme. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

Factors which the Issuer believes may be material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the Issuer may be unable to pay interest, principal or other amounts on or in connection with any Notes for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Prospectus and reach their own views prior to making any investment decision.

Factors that may affect the Issuer's ability to fulfil its obligations under Notes issued under the Programme

Like all other banks, the Issuer is mainly exposed to credit risk and market risk (for example, fluctuations in interest rates and currency values). These risk factors are addressed by the Issuer's own risk management procedures and exposures are constantly measured and monitored.

Economic Activity in the UK

The Issuer's business activities are dependent on the level of banking, finance and financial services required by its customers. In particular, levels of borrowing are heavily dependent on customer confidence, employment trends, the state of the economy and market interest rates at the time. As the Issuer currently conducts the majority of its business in the UK, its performance is influenced by the level and cyclical nature of business activity in the UK, which is in turn impacted by both domestic and international economic and political events. There can be no assurance that a weakening in the UK economy will not have a material effect on the Issuer's future results.

Risk Associated with Strategic Decisions Regarding Organic Growth and Cost Control

The Issuer's strategy relies upon the continued organic growth of its assets coupled with controlling related expenses. The strategy also involves operating as a single segment business concentrating on UK residential mortgage lending. No assurance can be given that profitability would not be impacted in the event conditions in the UK residential mortgage market deteriorated significantly or the Issuer was otherwise unable to succeed in its growth strategy or in continuing to control related expenses.

Access to Wholesale Funding, Covered Bond and Securitisation Markets

A substantial amount of the Issuer's funding depends upon access to wholesale funding sources, including accessing the institutional debt market in the United States, Europe and in Asia, as well as accessing the global securitisation and covered bond markets as an additional source of wholesale funding. The continued ability of the Issuer to access such funding sources on favourable economic terms is dependent on a variety of factors, including a number of factors outside of its control, including general market conditions. There can be no assurance that the Issuer will continue to be able to access such funding sources on favourable terms in the future.

Impact of Regulatory Changes

The Issuer is subject to financial services laws, regulations, administrative actions and policies in each location that the Issuer operates. Changes in supervision and regulation, in particular in the UK, could materially affect the Issuer's business, the products and services offered or the value of its assets. Although the Issuer works closely with its regulators and continually monitors the situation, future changes in regulation, fiscal or other policies can be unpredictable and are beyond the control of the Issuer.

International Financial Reporting Standards

The Issuer has adopted International Financial Reporting Standards ("IFRS") for reporting periods beginning 1 January 2005 and thereafter. These standards are, in a number of ways, different from existing generally accepted accounting principles in the UK and their implementation has had a significant effect on the presentation of the Issuer's financial statements.

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

(i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplementary prospectus;

(ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;

(iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the currency in which such investor's financial activities are principally denominated;

(iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant indices and financial markets; and

(v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with the assistance of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of certain such features:

Notes subject to optional redemption by the Issuer

An optional redemption feature is likely to limit the market value of Notes. During any period when the Issuer may elect to redeem Notes, the market value of such Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Risks related to Index Linked Notes and Dual Currency Notes

The Issuer may issue Notes with principal or interest determined by reference to an index or formula, to changes in the prices of securities or commodities, to movements in currency exchange rates or other factors (each, a "Relevant Factor"). In addition, the Issuer may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

(i) the market price of such Notes may be volatile;

(ii) they may receive no interest;

(iii) payment of principal or interest may occur at a different time or in a different currency than expected;

(iv) the amount of principal payable at redemption may be less than the nominal amount of such Notes or even zero;

(v) a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;

(vi) if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable likely will be magnified; and

(vii) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield.

Risks related to Partly-paid Notes

The Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of its investment.

Risks related to variable rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be more volatile than those for securities that do not include those features.

Risks related to Inverse Floating Rate Notes

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of such Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Risks related to Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of such Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favorable than the then-prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

The Issuer's obligations under Subordinated Notes are subordinated

The Issuer's obligations under Dated Subordinated Notes will be unsecured and subordinated. In the event of a winding-up of the Issuer or the appointment of an administrator of the Issuer where the administrator has given notice that he/she intends to declare and distribute a dividend, the relevant Noteholders' claims shall be subordinated to the claims of depositors and other unsubordinated creditors of the Issuer in respect of their respective Senior Claims (as defined in Condition 3(iv)). Payments of principal and interest in respect of Dated Subordinated Notes are, in the event of a winding up of the Issuer, conditional upon the Issuer being solvent at the time of payment by the Issuer or the appointment of an administrator of the Issuer where the administrator has given notice that he/she intends to declare and distribute a dividend, conditional upon the Issuer being solvent at the time of payment by the Issuer, as more fully described in Condition 3.

The Issuer's obligations under Undated Subordinated Notes will be unsecured and subordinated to the claims of Senior Creditors (as defined in Condition 3(iv)). Payments of principal and interest in respect of Undated Subordinated Notes are conditional upon the Issuer being solvent at the time of payment by the Issuer. If at any time an order is made or an effective resolution is passed for the winding up in England of the Issuer (except in the circumstances described in Condition 3(ii)) or if, following the appointment of an administrator of the Issuer, the administrator gives notice that he/she intends to declare and distribute a dividend, the Noteholders shall receive, in respect of each Note, such amount (if any) as would have been payable to the Noteholder if, on the day prior to the commencement of the winding up or such administration, such Noteholder were the holder of a preference share in the capital of the Issuer having a preferential right to a return of assets in the winding up or such administration over the holders of all issued shares for the time being in the capital of the Issuer, as more fully described in Condition 3.

Although Subordinated Notes may pay a higher rate of interest than comparable Notes which are not subordinated, there is a real risk that an investor in Subordinated Notes will lose all or some of his investment should the Issuer become insolvent.

Under certain conditions, interest payments under Undated Subordinated Notes may be deferred

In relation to Undated Subordinated Notes, the Issuer may elect to defer payment of interest until the first to occur of (i) the date upon which a dividend is next paid on any class of its share capital, (ii) any date fixed for redemption of the relevant Notes pursuant to Condition 6 and (iii) the commencement of winding up in England of the Issuer, as more fully described under Condition 5(f).

The Issuer will pay all deferred interest on all Undated Subordinated Notes as soon as it may no longer defer interest under the terms described above. The Issuer will make this payment in respect of all such Notes on the next scheduled Interest Payment Date that occurs in respect of any issue of such Notes, unless it elects to make the payment earlier.

In no event will holders of Undated Subordinated Notes be able to accelerate the maturity of their Notes; such holders will have claims only for amounts then due and payable on their Notes. After the Issuer has fully paid all deferred interest on any issue of Undated Subordinated Notes and if that issue of Undated Subordinated Notes remains outstanding, future interest payments on that issue of Undated Subordinated Notes will be subject to further deferral as described above.

Any deferral of interest payments will likely have an adverse effect on the market price of the Undated Subordinated Notes. In addition, as a result of the interest deferral provision of the Undated Subordinated Notes, the market price of such Notes may be more volatile than the market prices of other debt securities on which original issue discount or interest accrues that are not subject to such deferrals and may be more sensitive generally to adverse changes in the Issuer's financial condition.

Risks related to Notes generally

Set out below is a brief description of certain risks relating to the Notes generally:

Modification, waivers and substitution

The Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Terms and Conditions of the Notes also provide that the Trustee may, without the consent of Noteholders, (i) agree to any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of Notes or (ii) determine without the consent of the Noteholders that any Event of Default or potential Event of Default shall not be treated as such or (iii) agree to the substitution of another company as principal debtor under any Notes in place of the Issuer, in the circumstances described in Condition 15 of the Notes.

Basel Capital Requirements Directive

The Basel Committee has issued proposals for reform of the 1988 Capital Accord and has proposed a framework which places enhanced emphasis on market discipline and sensitivity to risk. The Issuer cannot predict the precise effects of the potential changes that might result from implementation of the proposals on both its own financial performance or the impact on the pricing of its Notes issued under the Programme. Prospective investors in the Notes should consult their own advisers as to the consequences for them of the potential application of the New Basel Capital Accord proposals.

European Monetary Union

British membership in the European Monetary Union prior to the maturity of the Notes may adversely affect investors in the Notes. It is possible that prior to the maturity of the Notes the United Kingdom may become a participating Member State and that the euro may become the lawful currency of the United Kingdom. In that event (i) all amounts payable in respect of any Notes denominated in Sterling may become payable in euro; (ii) the law may allow or require the Notes to be re-denominated into euro and additional measures to be taken in respect of such Notes and (iii) there may no longer be available published or displayed rates for deposits in Sterling used to determine the rates of interest on such Notes or changes in the way those rates are calculated, quoted and published or displayed. The introduction of the euro could also be accompanied by a volatile interest rate environment, which could adversely affect investors in the Notes.

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State. However, for a transitional period, Belgium, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have agreed to adopt similar measures (a withholding system in the case of Switzerland).

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of tax were to be withheld from that payment, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax. The Issuer will be required, save as provided in Condition 9 of the Notes, to maintain a Paying Agent in a Member State that will not be obliged to withhold or deduct tax pursuant to the Directive.

Change of law

The Terms and Conditions of the Notes are based on English law in effect as at the date of issue of the relevant Notes. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of issue of the relevant Notes.

Trading in the clearing systems

In relation to any issue of Notes which have a minimum denomination and are tradeable in the clearing systems in amounts above such minimum denomination which are smaller than it, should definitive Notes be required to be issued, a holder who does not have an integral multiple of the minimum denomination in his account with the relevant clearing system at the relevant time may not receive all of his entitlement in the form of definitive Notes unless and until such time as his holding becomes an integral multiple of the minimum denomination.

Risks related to the market generally

Set out below is a brief description of certain market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "Investor's Currency") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency-equivalent value of the principal payable on the Notes and (iii) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

FORM OF THE NOTES

Each Tranche of Notes will be in bearer form and will be initially represented by a temporary global Note without receipts, interest coupons or talons, which will (i) if the global Notes are intended to be issued in NGN form, as specified in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a Common Safekeeper for Euroclear and Clearstream, Luxembourg; and (ii) if the global Notes are not intended to be issued in NGN form, be delivered on or prior to the original issue date of the Tranche to a Common Depositary for Euroclear and Clearstream, Luxembourg. Whilst any Note is represented by a temporary global Note, payments of principal and interest (if any) due prior to the Exchange Date (as defined below) will be made (against presentation of the temporary global Note if the temporary global Note is not intended to be issued in NGN form) only to the extent that certification as to non-U.S. beneficial ownership as required by U.S. Treasury regulations (as referred to in the temporary global Note) has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certificate (based on the certifications it has received) to the Agent.

On and after the date (the "Exchange Date") which is 40 days after the date on which the temporary global Note is issued, interests in the temporary global Note will be exchangeable, upon request being made by Euroclear and/or Clearstream, Luxembourg acting on the instructions of the holders of interests in the temporary global Note, either for interests in a permanent global Note without receipts, interest coupons or talons or for definitive Notes (as indicated in the applicable Final Terms and subject, in the case of definitive Notes, to such notice period as is specified in the applicable Final Terms) in each case against certification as to non-U.S. beneficial ownership as described in the second sentence of the preceding paragraph unless such certification has already been given. The holder of a temporary global Note will not be entitled to receive any payment of interest or principal due on or after the Exchange Date unless upon due certification exchange of the temporary global Note is improperly withheld or refused. Pursuant to the Agency Agreement (as defined under "Terms and Conditions of the Notes" below), the Agent shall arrange that, where a further Tranche of Notes is issued, the Notes of such Tranche shall be assigned a common code and an International Security Identification Number ("ISIN") by Euroclear and Clearstream, Luxembourg which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series until at least 40 days (as certified by the Agent to the relevant Dealer(s)/lead manager) after the completion of the distribution of the Notes of such first-mentioned Tranche (the date of completion of the distribution of such Notes having been previously notified to the Agent by such Dealer(s)/lead manager).

Payments of principal and interest (if any) on a permanent global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the permanent global Note if the permanent global Note is not intended to be issued in NGN form) without any requirement for certification. The applicable Final Terms will specify that a permanent global Note will be exchangeable (free of charge), in whole but not in part, for definitive Notes with, where applicable, receipts, interest coupons and talons attached either (i) upon not less than 45 days' written notice (expiring at least 30 days after the Exchange Date) from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such permanent global Note) to the Agent as described therein or (ii) upon not less than 45 days' written notice (expiring at least 30 days after the Exchange Date) to the Agent as described below only upon the occurrence of an Exchange Event as described therein. "Exchange Event" means, unless otherwise specified in the applicable Final Terms, (i) an Event of Default has occurred and is continuing, (ii) the Issuer has been notified that either Euroclear or Clearstream, Luxembourg has been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or has announced an intention permanently to cease business or has in fact done so and no alternative clearing system satisfactory to the Trustee is available or (iii) the Issuer has been notified that the Trustee is satisfied that the Issuer has or will become obliged to pay additional amounts as provided for or referred to in Condition 10 which would not be required were the Notes represented by the permanent global Note in definitive form. The Issuer will promptly give notice to Noteholders in accordance with Condition 19 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such permanent global Note) may give notice to the Agent requesting exchange and in the event of the occurrence of an

Exchange Event as described in (iii) above, the Issuer may also give notice to the Agent requesting exchange. Any such exchange will be made upon presentation of such permanent global Note by the bearer thereof on any day (other than a Saturday or Sunday) on which banks are open for business in London at the specified office of the Agent. Temporary and permanent global Notes and definitive Notes will be authenticated (if applicable) and delivered by the Agent on behalf of the Issuer.

The following legend will appear on all Notes which have an original maturity of more than 365 days and on all receipts and interest coupons relating to such Notes:—

> "Any United States person (as defined in the Internal Revenue Code of the United States) who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in sections 165(j) and 1287(a) of the Internal Revenue Code."

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Notes, receipts or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition or payment of principal in respect of Notes, receipts or interest coupons.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

In relation to Notes which have a Specified Denomination of €50,000 (or its equivalent) or more, so long as the Notes are represented by a global Note and the relevant clearing system(s) so permit, the Notes shall be tradeable only in principal amounts of at least the Specified Denomination and integral multiples of the Tradeable Amount provided in the Final Terms.

FORM OF FINAL TERMS

Set out below is the form of Final Terms which will be completed for each Tranche of Notes issued under the Programme.

[*Date*]

NORTHERN ROCK PLC

Issue of [Aggregate Nominal Amount of Tranche] [Title of Notes]
under the U.S.$15,000,000,000
Euro Medium Term Note Programme

PART A – CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the Prospectus dated [*date*] [and the supplementary prospectus[es] dated [*date*]] which [together] constitute[s] a base prospectus for the purposes of Directive 2003/71/EC (the "Prospectus Directive"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with the Prospectus [as so supplemented]. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Prospectus [as so supplemented]. The Prospectus [and the supplementary prospectus[es]] [is] [are] available for viewing at the specified office in London of the Agent and [website] and copies may be obtained from the registered office of the Issuer.

[*The following alternative language applies if the first tranche of an issue which is being increased was issued under a Prospectus with an earlier date.*

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the "Conditions") set forth in the Prospectus dated [*original date*]. This document constitutes the Final Terms of the Notes described herein for the purposes of Article 5.4 of Directive 2003/71/EC (the "Prospectus Directive") and must be read in conjunction with the Prospectus dated [*current date*] [and the supplementary prospectus[es] dated [*date*]] which [together] constitute[s] a base prospectus for the purposes of the Prospectus Directive, save in respect of the Conditions which are extracted from the Prospectus dated [*original date*] and are attached hereto. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Prospectuses dated [*original date*] and [*current date*] [as so supplemented]. Copies of such Prospectuses [and the supplementary prospectus[es]] [is] [are] available for viewing at the specified office in London of the Agent and [website] and copies may be obtained from the registered office of the Issuer.

[*Include whichever of the following apply or specify as "Not Applicable" (N/A). Note that the numbering should remain as set out below, even if "Not Applicable" is indicated for individual paragraphs or sub-paragraphs. Italics denote directions for completing the Final Terms.*]

[*When adding any other final terms or information consideration should be given as to whether such terms or information constitute "significant new factors" and consequently trigger the need for a supplementary prospectus under Article 16 of the Prospectus Directive.*]

1.	Issuer:		Northern Rock plc
2.	(i)	Series Number:	[ ]
	(ii)	Tranche Number:	[ ] *(If fungible with an existing Series, details of that Series, including the date on which the Notes become fungible)*

3.	Specified Currency or Currencies:	[ ]
4.	Aggregate Nominal Amount:	
	– Tranche:	[ ]
	– Series:	[ ]
5.	Issue Price of Tranche:	[ ] per cent. of the Aggregate Nominal Amount [plus accrued interest from [ ] (*in the case of fungible issues only, if applicable*)]
6.	Specified Denominations:	[ ] [ ] *(N.B. If an issue of Notes is (i) NOT admitted to trading on a regulated market within the European Economic Area and (ii) only offered in the European Economic Area in circumstances where a prospectus is not required to be published under the Prospectus Directive, the €1,000 minimum denomination is not required.)*
7.	[(i)] Issue Date [and Interest Commencement Date]:	[ ]
	[(ii) Interest Commencement Date (if different from the Issue Date):	[ ]]
8.	Maturity Date:	[*Fixed rate – specify date/Floating rate* – Interest Payment Date falling in or nearest to [*specify month*]]
9.	Interest Basis:	[[ ] per cent. Fixed Rate] [[LIBOR/EURIBOR] +/- [ ] per cent. Floating Rate] [Zero Coupon] [Index Linked Interest] [Dual Currency] [*specify other*] (further particulars specified below)
10.	Redemption/Payment Basis:	[Redemption at par] [Index Linked Redemption] [Dual Currency] [Partly Paid] [Instalment] [*specify other*] *(N.B. If the Final Redemption Amount is other than 100 per cent. of the nominal value, the Notes will constitute derivative securities for the purposes of the Prospectus Directive and the requirements of Annex XII to Commission Regulation (EC) No 809/2004 (the "Prospectus Directive Regulation") will apply)*
11.	Change of Interest Basis or Redemption/Payment Basis:	[*Specify details of any provision for change of Notes into another Interest Basis or Redemption/Payment Basis*]

12.	Put/Call Options:	[Investor Put] [Issuer Call] [(further particulars specified below)]
13.	Status of the Notes:	[Senior/[Dated/Undated Subordinated]
14.	Method of Distribution:	[Syndicated/Non-syndicated]

PROVISIONS RELATING TO INTEREST (IF ANY) PAYABLE

15.	Fixed Rate Note Provisions	[Applicable/Not Applicable] (*If not applicable, delete the remaining sub-paragraphs of this paragraph*)
	(i) Rate(s) of Interest:	[ ] per cent. per annum [payable [annually/semi-annually/quarterly] in arrear] (*If payable other than annually, consider amending Condition 5*)
	(ii) Interest Payment Date(s):	[[ ] in each year up to and including the Maturity Date]/[*specify other*] (*N.B. This will need to be amended in the case of long or short coupons*)
	(iii) Fixed Coupon Amount(s):	[ ] per [ ] in nominal amount
	(iv) Broken Amount(s):	[*Insert particulars of any initial or final broken interest amounts which do not correspond with the Fixed Coupon Amount*]
	(v) Day Count Fraction:	[Actual/Actual (ICMA) or 30/360 or *specify other*]
	(vi) Determination Date(s):	[ ] in each year [*Insert regular interest payment dates, ignoring issue date or maturity date in the case of a long or short first or last coupon*] (*N.B. This will need to be amended in the case of regular interest payment dates which are not of equal duration*) (*N.B. Only relevant where Day Count Fraction is Actual/Actual (ICMA)*)
	(vii) Other terms relating to the method of calculating interest for Fixed Rate Notes:	[None/*Give details*]
16.	Floating Rate Note Provisions	[Applicable/Not Applicable] (*If not applicable, delete the remaining sub-paragraphs of this paragraph*)
	(i) Specified Period(s)/Specified Interest Payment Dates:	[ ]
	(ii) Business Day Convention:	[Floating Rate Convention/Following Business Day Convention/Modified Following Business Day Convention/Preceding Business Day Convention/[*specify other*]]
	(iii) Additional Business Centre(s):	[ ]

(iv)	Manner in which the Rate of Interest and Interest Amount is to be determined:	[ISDA Determination/Screen Rate Determination/*specify other*]
(v)	Party responsible for calculating the Rate of Interest and Interest Amount (if not the Agent):	[ ]
(vi)	Screen Rate Determination:	
	– Reference Rate:	[ ] (*Either LIBOR, EURIBOR or other, although additional information is required if other – including fallback provisions in the Agency Agreement*)
	– Interest Determination Date(s):	[ ] (*Second day on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in London prior to the start of each Interest Period if LIBOR (other than Sterling or euro LIBOR), first day of each Interest Period if Sterling LIBOR and the second day on which the TARGET System is open prior to the start of each Interest Period if EURIBOR or euro LIBOR*)
	– Relevant Screen Page:	[ ] (*In the case of EURIBOR, if not Moneyline Telerate Page 248 ensure it is a page which shows a composite rate or amend the fallback provisions appropriately*)
(vii)	ISDA Determination:	
	– Floating Rate Option:	[ ]
	– Designated Maturity:	[ ]
	– Reset Date:	[ ]
(viii)	Margin(s):	[+/-] [ ] per cent. per annum
(ix)	Minimum Rate of Interest:	[ ] per cent. per annum
(x)	Maximum Rate of Interest:	[ ] per cent. per annum
(xi)	Day Count Fraction:	[Actual/365 Actual/365 (Fixed) Actual/365 (Sterling) Actual/360 Actual/Actual (ISDA) 30/360 30E/360 Other] (*See Condition 5 for alternatives*)
(xii)	Fallback provisions, rounding provisions and any other terms relating to the method of calculating interest on Floating Rate Notes, if different from those set out in the Conditions:	[ ]

17.	Zero Coupon Note Provisions	[Applicable/Not Applicable] (*If not applicable, delete the remaining sub-paragraphs of this paragraph*)
	(i) Accrual Yield:	[ ] per cent. per annum
	(ii) Reference Price:	[ ]
	(iii) Any other formula/basis of determining amount payable:	[ ]
	(iv) Day Count Fraction in relation to Early Redemption Amounts and late payment:	[Conditions 6(*f*) and 6(*g*)(iii) *apply/specify other*] (*Consider applicable day count fraction if not U.S. dollar denominated*)
18.	Index Linked Interest Note Provisions	[Applicable/Not Applicable] (*If not applicable, delete the remaining sub-paragraphs of this paragraph*)
	(i) Index/Formula:	[*give or annex details*]
	(ii) Calculation Agent responsible for calculating the interest due:	[*provide name and address*]
	(iii) Provisions for determining Coupon where calculation by reference to Index and/or Formula is impossible or impracticable:	[ ] [*Need to include a description of market disruption or settlement disruption events and adjustment provisions*]
	(iv) Specified Period(s)/Specified Interest Payment Dates:	[ ]
	(v) Business Day Convention:	[Floating Rate Convention/Following Business Day Convention/Modified Following Business Day Convention/Preceding Business Day Convention/*specify other*]
	(vi) Additional Business Centre(s):	[ ]
	(vii) Minimum Rate of Interest:	[ ] per cent. per annum
	(viii) Maximum Rate of Interest	[ ] per cent. per annum
	(ix) Day Count Fraction:	[ ]
19.	Dual Currency Note Provisions	[Applicable/Not Applicable] (*If not applicable, delete the remaining sub-paragraphs of this paragraph*)
	(i) Rate of Exchange/method of calculating Rate of Exchange:	[*give or annex details*]
	(ii) Calculation Agent, if any, responsible for calculating the principal and/or interest payable:	[*provide name and address*]
	(iii) Provisions applicable where calculation by reference to Rate of Exchange impossible or impracticable:	[ ] [*Need to include a description of market disruption or settlement disruption events and adjustment provisions*]
	(iv) Person at whose option Specified Currency(ies) is/are payable:	[ ]

PROVISIONS RELATING TO REDEMPTION

20.	Issuer Call:	[Applicable/Not Applicable] (*If not applicable, delete the remaining sub-paragraphs of this paragraph*)
	(i) Optional Redemption Date(s):	[ ]
	(ii) Optional Redemption Amount of each Note and method, if any, of calculation of such amount(s):	[ ]
	(iii) If redeemable in part:	
	– Minimum Redemption Amount:	[ ]
	– Higher Redemption Amount:	[ ]
	(iv) Notice period (if other than as set out in the Conditions):	[ ] (*N.B. If setting notice periods which are different to those provided in the Conditions, the Issuer is advised to consider the practicalities of distribution of information through intermediaries, for example, clearing systems and custodians, as well as any other notice requirements which may apply, for example, as between the Issuer and the Agent or Trustee*)
21.	Investor Put:	[Applicable/Not Applicable] (*If not applicable, delete the remaining sub-paragraphs of this paragraph*)
	(i) Optional Redemption Dates(s):	[ ]
	(ii) Optional Redemption Amount of each Note and method, if any, of calculation of such amount(s):	[ ] per Note of [ ] Specified Denomination
	(iii) Notice period (if other than as set out in the Conditions):	[ ] (*N.B. If setting notice periods which are different to those provided in the Conditions, the Issuer is advised to consider the practicalities of distribution of information through intermediaries, for example, clearing systems and custodians, as well as any other notice requirements which may apply, for example, as between the Issuer and the Agent or Trustee*)
22.	Final Redemption Amount of each Note:	[[ ] per Note of [ ] Specified Denomination/*specify other*/see Appendix] (*N.B. In relation to any issue of Notes which are expressed in paragraph 6 and Part B to have a minimum denomination and tradeable amounts above such minimum denomination which are smaller than it the following wording should be added: "For the avoidance of doubt, in the case of a holding of Notes in an integral multiple of [ ] in excess of [ ] as envisaged in paragraph 6 and Part B, such holding will be redeemed at its nominal amount."*)

		(N.B. If the Final Redemption Amount is other than 100 per cent. of the nominal value, the Notes will constitute derivative securities for the purposes of the Prospectus Directive and the requirements of Annex XII to the Prospectus Directive Regulation will apply)
23.	Early Redemption Amount of each Note payable on redemption for taxation reasons or on event of default and/or the method of calculating the same (if required or if different from that set out in Condition 6*(g)*):	[ ]

GENERAL PROVISIONS APPLICABLE TO THE NOTES

24.	Form of Notes:	
	(a) Form:	Temporary Global Note exchangeable for Permanent Global Note which is exchangeable for Definitive Notes [on 45 days' notice given at any time/only upon an Exchange Event][1] [Temporary Global Note exchangeable for Definitive Notes on and after the Exchange Date]
	(b) New Global Note:	[Yes] [No]
25.	Additional Financial Centre(s) or other special provisions relating to Payment Dates:	[Not Applicable/*give details*] (*Note that this item relates to the place of payment and not Interest Period end dates to which items 16(iii) and 18(vi) relate*)
26.	Talons for future Coupons or Receipts to be attached to Definitive Notes (and dates on which such Talons mature):	[Yes/No. *If yes, give details*]
27.	Details relating to Partly Paid Notes: amount of each payment comprising the Issue Price and date on which each payment is to be made and consequences of failure to pay, including any right of the Issuer to forfeit the Notes and interest due on late payment:	[Not Applicable/*give details*] *(N.B. a new form of Temporary Global Note and/or Permanent Global Note may be required for Partly Paid issues)*
28.	Details relating to Instalment Notes:	
	Instalment Amount(s):	[Not Applicable/*give details*]
	Instalment Date(s):	[Not Applicable/*give details*]
29.	Redenomination applicable:	Redenomination [Not] Applicable (*If Redenomination is applicable, specify the terms of the redenomination in an Annex to the Final Terms*)
30.	Other final terms:	[Not Applicable/*give details*] (*When adding any other final terms consideration should be given as to whether such terms constitute "significant new factors" and consequently trigger the need for a supplementary prospectus under Article 16 of the Prospectus Directive*)

1. It may be necessary to amend the definition of "Exchange Event" to disapply any Noteholder/Issuer optional exchange in order to allow Notes with a minimum denomination of €50,000 (or its equivalent) or more to be traded in the clearing systems in principal amounts of such minimum denomination and integral multiples of the Tradeable Amount specified in Part B of the Final Terms.

DISTRIBUTION

31.	(i) If syndicated, names [and addresses]** of Managers and [underwriting commitments]**:	[Not Applicable/*give names* [*and addresses and underwriting commitment*]**] (*Include names and addresses of entities agreeing to underwrite the issue on a firm commitment basis and names and addresses of the entities agreeing to place the issue without a firm commitment or on a "best efforts" basis if such entities are not the same as the Managers*)**
	(ii) Date of [Subscription Agreement]**:	[ ]**
	(iii) Stabilising Manager(s) (if any):	[Not Applicable/*give details*]
32.	If non-syndicated, name [and address]** of relevant Dealer:	[*Name* [*and address*]**]
33.	Total commission and concession**:	[ ] per cent. of the Aggregate Nominal Amount**
34.	Whether TEFRA D applicable or TEFRA rules not applicable:	[TEFRA D/TEFRA Not Applicable]
35.	Additional selling restrictions:	[Not Applicable/*give details*]

[LISTING AND ADMISSION TO TRADING APPLICATION

These Final Terms comprise the final terms required to list and have admitted to trading the issue of Notes described herein pursuant to the U.S.$15,000,000,000 Euro Medium Term Note Programme of Northern Rock plc.]

RESPONSIBILITY

The Issuer accepts responsibility for the information contained in these Final Terms. [[ ] has been extracted from [ ]. The Issuer confirms that such information has been accurately reproduced and that, so far as it is aware and is able to ascertain from information published by [ ], no facts have been omitted which would render the reproduced information inaccurate or misleading.]

Signed on behalf of the Issuer:

By: .....

Duly authorised

PART B – OTHER INFORMATION[1]

1. LISTING:

(i) Listing:	[London/other (*specify*)/None]
(ii) Admission to trading:	[Application has been made for the Notes to be admitted to trading on [ ] with effect from [ ].] [Not Applicable.] (*Where documenting a fungible issue need to indicate that original securities are already admitted to trading.*)**
[(iii) Estimate of total expenses related to admission to trading:*	[ ]*]

2. RATINGS:

Ratings:	The Notes have been assigned the following ratings: [S & P: [ ]] [Moody's: [ ]] [Fitch: [ ]] [[Other]: [ ]] (*Include here a brief explanation of the meaning of the ratings if this has previously been published by the rating provider.*)** (*The above disclosure should reflect the rating allocated to Notes of the type being issued under the Programme generally or, where the issue has been specifically rated, that rating.*)

3. NOTIFICATION:

The Financial Services Authority [has been requested to provide/has provided – *include first alternative for an issue which is contemporaneous with the establishment or update of the Programme and the second alternative for subsequent issues*] the [*names of competent authorities of host Member States*] with a certificate of approval attesting that the Prospectus has been drawn up in accordance with the Prospectus Directive.

4. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE:

Save for any fees payable to the [Managers/Dealers], so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer. (*Amend as appropriate if there are other interests)*

5. REASONS FOR THE OFFER, ESTIMATED NET PROCEEDS AND TOTAL EXPENSES:

[(i) Reasons for the offer:**	[ ] (*See "Use of Proceeds" wording in Prospectus – if reasons for offer different from making profit and/or hedging certain risks will need to include those reasons here.*)]**

1. If an issue of Notes is (i) NOT to be admitted to trading on a regulated market within the European Economic Area and (ii) only offered in the European Economic Area in circumstances where a prospectus is not required to be published under the Prospectus Directive, sections 2 to 9 of Part B should be deleted.

[(ii)] Estimated net proceeds:** [ ]

*(If proceeds are intended for more than one use will need to split out and present in order of priority. If proceeds insufficient to fund all proposed uses state amount and sources of other funding.)***

[(iii)] Estimated total expenses:** [ ]

*(Expenses are required to be broken down into each principal intended "use" and presented in order of priority of such "uses".)***

(N.B. If the Notes are derivative securities to which Annex XII of the Prospectus Directive Regulation applies (i) above is required where the reasons for the offer are different from making profit and/or hedging certain risks and where such reasons are inserted in (i) disclosure of net proceeds and total expenses at (ii) and (iii) above are also required.)

6. **YIELD:** *(Fixed Rate Notes only)*

Indication of yield: [ ]

[Calculated as [*include details of method of calculation in summary form*] on the Issue Date.]**

The yield is calculated at the Issue Date on the basis of the Issue Price. It is not an indication of future yield.

7. **HISTORIC INTEREST RATES:** *(Floating Rate Notes only)***

Details of historic [LIBOR/EURIBOR/other] rates can be obtained from [Telerate].

8. **PERFORMANCE OF INDEX/FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS AND OTHER INFORMATION CONCERNING THE UNDERLYING:** (*Index-Linked Notes only*)

(Need to include details of where past and future performance and volatility of the index/formula can be obtained.)

*(Need to include a clear and comprehensive explanation of how the value of the investment is affected by the underlying and the circumstances when the risks are most evident.)***

(Where the underlying is an index need to include the name of the index and a description if composed by the Issuer and if the index is not composed by the Issuer need to include details of where the information about the index can be obtained. Where the underlying is not an index need to include equivalent information.)

9. **PERFORMANCE OF RATE[S] OF EXCHANGE AND EXPLANATION OF EFFECT ON VALUE OF INVESTMENT:** *(Dual Currency Notes only)*

(Need to include details of where past and future performance and volatility of the relevant rates can be obtained.)

*(Need to include and a clear and comprehensive explanation of how the value of the investment is affected by the underlying and the circumstances when the risks are most evident.)***

10. TRADEABLE AMOUNTS:

So long as the Notes are represented by a global Note and [*specify relevant clearing system(s)*] so permit, the Notes shall be tradeable in minimum principal amounts of [€50,000]/[*specify equivalent to €50,000 if Notes not denominated in euro*] and integral multiples of [ ] (the "Tradeable Amount") in addition thereto.

11. OPERATIONAL INFORMATION:

(i)	ISIN Code:	[ ]
(ii)	Common Code:	[ ]
(iii)	Any clearing system(s) other than Euroclear and Clearstream, Luxembourg (together with the address of each such clearing system) and the relevant identification number(s):	[Not Applicable/*give name(s) and number(s)*]
(iv)	Delivery:	Delivery [against/free of] payment
(v)	Names and addresses of additional Paying Agent(s) (if any):	[ ]
(vi)	Intended to be held in a manner which would allow Eurosystem eligibility:	[Yes] [No] [Note that the designation "yes" simply means that the Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.] (*Include this text if "yes" selected in which case the Notes must be issued in NGN form*)

Notes:

* *Delete if the minimum denomination is less than €50,000 (or, if the Specified Currency is other than euro, its equivalent)*

** *Delete if the minimum denomination is greater than or equal to €50,000 (or, if the Specified Currency is other than euro, its equivalent)*

TERMS AND CONDITIONS OF THE NOTES

The following are the Terms and Conditions of the Notes which will be incorporated by reference into each Global Note and each definitive Note, in the latter case only if permitted by the relevant stock exchange or other relevant authority (if any) and agreed by the Issuer and the relevant Dealer(s) at the time of issue but if not so permitted and agreed, such definitive Note will have endorsed upon or attached thereto such Terms and Conditions. Part A of the applicable Final Terms in relation to any Tranche of Notes may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with such Terms and Conditions, supplement, replace or modify the following Terms and Conditions for the purpose of such Tranche of Notes. The applicable Final Terms (or the relevant provisions thereof) will be endorsed upon, or attached to, each Global Note and definitive Note. Reference should be made to "Form of the Notes" above for the form of the Final Terms which will include the definition of certain terms used in the following Terms and Conditions or specify which of such terms are to apply in relation to the relevant Notes.

This Note is one of a Series of notes (the notes of such Series being hereinafter called the "Notes", which expression shall mean (i) in relation to Notes represented by a Global Note, units equal to the lowest Specified Denomination in the Specified Currency, (ii) definitive Notes issued in exchange for a Global Note and (iii) any Global Note) constituted by a Trust Deed dated 15 March 1994 (such Trust Deed as modified and/or supplemented and/or restated from time to time, the "Trust Deed").

Payment in respect of the Notes will be made under an amended and restated Agency Agreement (such Agency Agreement as amended and/or supplemented and/or restated from time to time, the "Agency Agreement") dated 19 June 2006 made between the Issuer, Citibank, N.A., as issuing agent, principal paying agent and agent bank (the "Agent", which expression shall include any successor as agent), the other paying agent named therein (together with the Agent, the "Paying Agents", which expression shall include any additional or successor paying agent) and the Trustee.

Interest bearing definitive Notes (unless otherwise indicated in the applicable Final Terms) have interest coupons ("Coupons") and, if indicated in the applicable Final Terms, talons for further Coupons ("Talons") attached on issue. Any reference in these Terms and Conditions to Coupons or coupons shall, unless the context otherwise requires, be deemed to include a reference to Talons or talons. Definitive Notes redeemable in instalments will have instalment receipts ("Receipts") for the payment of the instalments of principal (other than the final instalment) attached on issue.

The Final Terms (or the relevant provisions thereof) for the Notes are endorsed upon or attached to any Global Note and any Note in definitive form. Part A of the Final Terms (or such relevant provisions thereof) supplements these Terms and Conditions and may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with these Terms and Conditions, supplement, replace or modify these Terms and Conditions for the purposes of this Note. References herein to "applicable Final Terms" are to Part A of the Final Terms attached hereto or to the relevant provisions thereof endorsed hereon.

The Trustee acts for the benefit of the holders of the Notes (the "Noteholders", which expression shall, in relation to any Notes represented by a Global Note, be construed as provided below), the holders of the Receipts (the "Receiptholders") and the holders of the Coupons (the "Couponholders", which expression shall, unless the context otherwise requires, include the holders of the talons), all in accordance with the provisions of the Trust Deed.

As used herein, "Tranche" means Notes which are identical in all respects (including as to listing and admission to trading) and "Series" means a Tranche of Notes together with any further Tranche or Tranches of Notes which (1) are expressed to be consolidated and form a single series and (2) are identical in all respects (including as to listing and admission to trading) except for their respective Issue Dates, Interest Commencement Dates and/or Issue Prices.

Copies of the Trust Deed and the Agency Agreement are available for inspection during normal business hours at the registered office of the Trustee, being at 19 June 2006 at Fifth Floor, 100 Wood Street, London EC2V 7EX and at the specified office of each of the Agent and the other Paying Agents. Copies of

the applicable Final Terms are available for inspection during normal business hours at the specified office in London of the Agent and copies may be obtained, free of charge, upon request, from the registered office of the Issuer save that, if this Note is neither admitted to trading on a regulated market within the European Economic Area nor offered in the European Economic Area in circumstances where a prospectus is required to be published under Directive 2003/71/EC (the "Prospectus Directive"), the applicable Final Terms will only be available for inspection by the relevant Dealer or Dealers specified in such Final Terms or, upon proof satisfactory to the Agent as to identity, the holder of the Note to which such Final Terms relate. In addition, if this Note is admitted to trading on the London Stock Exchange's Gilt-Edged and Fixed Interest Market, the applicable Final Terms will be available for inspection on the website of the Regulatory News Service operated by the London Stock Exchange at www.londonstockexchange.com/en-gb/pricesnews/marketnews/. Final Terms relating to Notes which are either admitted to trading on a regulated market within the European Economic Area other than the London Stock Exchange's Gilt-Edged and Fixed Interest Market or offered in the European Economic Area in circumstances where a prospectus is required to be published under the Prospectus Directive will be published in accordance with Article 14 of the Prospectus Directive. The Noteholders, the Receiptholders and the Couponholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Trust Deed, the Agency Agreement and the applicable Final Terms which are binding on them. Words and expressions defined in the Trust Deed or the Agency Agreement or used in the applicable Final Terms shall have the same meanings where used in these Terms and Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between the Agency Agreement and the Trust Deed, the Trust Deed will prevail and, in the event of inconsistency between the Agency Agreement or the Trust Deed and the applicable Final Terms, the applicable Final Terms will prevail.

1. Form, Denomination and Transfer

The Notes are in bearer form in the Specified Currency or Currencies and the Specified Denomination(s) and definitive Notes are serially numbered. Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

This Note may be a Fixed Rate Note, a Floating Rate Note, a Zero Coupon Note, an Index Linked Interest Note or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Final Terms.

This Note may be an Index Linked Redemption Note, an Instalment Note, a Dual Currency Redemption Note, a Partly Paid Note or a combination of any of the foregoing, depending on the Redemption/Payment Basis shown in the applicable Final Terms.

This Note may be a Senior Note or a Subordinated Note, as indicated in the applicable Final Terms. If it is a Subordinated Note, it is either a Dated Subordinated Note or an Undated Subordinated Note, as indicated in the applicable Final Terms.

If it is a definitive Note, it is issued with Coupons and, if applicable, Receipts and Talons attached, unless it is a Zero Coupon Note in which case references to interest, Coupons and Couponholders in these Terms and Conditions are not applicable.
