INDEPENDENT AUDITORS' REPORT

To the Member of
Henley & Company LLC

We have audited the accompanying statement of financial condition of Henley & Company LLC (the "Company") as of December 31, 2007. This statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on this statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Henley & Company LLC as of December 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

8. Off-balance sheet risk and concentrations of credit risk

Pursuant to a clearance agreement, the Company introduces all of its securities transactions to its sole clearing broker on a fully-disclosed basis. All of the customers' money balances and long and short security positions for these securities are carried on the books of the clearing broker. These activities may expose the Company to off-balance sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.
