Using that guidance, tax positions initially need to be recognized in the financial statements when it is more-likely-than-not the position will be sustained upon examination by the tax authorities. Using that guidance, tax positions initially need to be recognized in the financial statements when it is more-likely-than-not the positions will be sustained upon examination by the tax authorities. Such tax positions initially and subsequently need to be measured as the largest amount of tax benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the tax authority assuming full knowledge of the positions and relevant facts. It also provides guidance for derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Intercarolina Financial Services, Inc.

Notes to Financial Statements

December 31, 2020

NOTE 7 - Revenue from Contracts with Customers

On January 1, 2019, the Company adopted ASU 2014-09, "*Revenue from Contracts with Customers*." This ASU requires the Company to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. This standard also specifies the accounting for certain costs to obtain or fulfill a contract with customers.

Revenue from contracts with customers includes commission income, variable annuity contracts and fees from asset management services. The recognition and measurement of revenue is based on the assessment of individual contract terms. Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; whether revenue should be presented gross or net of certain costs; and whether constraints on variable consideration should be applied due to uncertain future events.

Brokerage Commissions – The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied at a point in time (the trade date) because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership of the securities have been transferred to/from the customer.

Investment Advisory Fees – The Company provides investment advisory services on a daily basis. The Company believes the performance obligation for providing advisory services is satisfied over time because the customer is receiving and consuming the benefits as they are provided by the Company. Fee arrangements are based on a percentage applied to the customer's assets under management. Fees are received quarterly and are recognized as revenue at that time as they relate specifically to the services provided in that period, which are distinct from the services provided in other periods.

Variable Annuity Contracts - The Company purchases insurance based products in the form of variable annuity contracts on behalf of its customers. Each time a customer enters into one of these contracts, the Company earns a commission. The Company believes that the performance obligation is satisfied at a point in time (the contract date) because that is when the underlying financial instrument is identified, the pricing is agreed upon and the risks and rewards of ownership of the contract have been transferred to the customer.

Report of Independent Registered Public Accounting Firm

The Shareholders

Intercarolina Financial Services, Inc.:

We have reviewed management's statements, included in the accompanying Exemption Report, in which (1) Intercarolina Financial Services, Inc. (the "Company") identified the following provisions of 17 C.F.R. § 15c3-3(k) under which the Company claimed exemption from 17 C.F.R. § 240.15c3-3: (2)(ii) (exemption provisions), and (2) the Company stated that the Company met the identified exemption provisions throughout the most recent fiscal year without exception. The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
