Notes to Financial Statements

1. THE COMPANY AND ITS SIGNIFICANT ACCOUNTING POLICIES

The Company. Coronado Investments, LLC (“Coronado” or the “Company”) is a limited liability company organized under the laws of the State of Delaware. The Company is a registered broker-dealer licensed by the United States Securities and Exchange Commission (“SEC”) and is a member of the Financial Industry Regulatory Authority and the Securities Investor Protection Corporation. The Company’s income is derived primarily from fees received in conjunction with its marketing of private alternative investment funds and separately managed account investment programs offered by Registered Investment Advisors.

Accounting Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Property and Equipment. Property and equipment are stated at cost less accumulated depreciation. Additions, renovations, and improvements are capitalized. Maintenance and repairs which do not extend asset lives are expensed as incurred. Depreciation is provided using straight-line and accelerated methods over the estimated useful lives of the assets (3 years).

Revenue Recognition. Security transactions and the related commission revenue are recorded on a trade date basis. Fee income is recognized as earned. Revenue is recognized in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standard Update (“ASU”) 2014-09 (“ASU 2014-09”). The core principle of ASU 2014-09 is that an entity shall recognize revenue when the transfer of goods or services to the customer has been satisfied. To determine this, the following five steps are utilized: (i) identify the contract(s) with the customer; (ii) identify the various performance obligation(s) in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the various performance obligation(s) in the contract and (v) recognize revenue as the performance obligation(s) are satisfied.

Accounts Receivable. Accounts receivable are revenues that are earned as of December 31, 2024 but not yet collected. The company has determined that no allowance for doubtful accounts is deemed necessary as of December 31, 2024.

Income Taxes. The Company is organized as a limited liability company and is not subject to federal or state income taxes. Accordingly, a provision for income taxes has not been recorded in the accompanying financial statements. Income, gains, and losses are allocated and reported to the Company’s owners. The company has determined that no allowance for doubtful accounts is deemed necessary as of December 31, 2024.

The Company is required to determine whether a tax position is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any tax related appeals or litigation processes, based on the technical merits of the position. The Company files an income tax return in the U.S. federal jurisdiction and may file income tax returns in various U.S. states. The Company is not subject to income tax return examinations by major taxing authorities for years before 2020. The tax benefit recognized is measured as the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized results in the Company recording a tax liability that reduces net assets. However, the Company’s conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof.

Notes to Financial Statements

Cash and Cash Equivalents. For purposes of the statement of cash flows, cash equivalents represent all highly liquid debt instruments purchased with maturities of three months or less.

Concentration of Credit Risk. The company may maintain cash balances and deposits with financial institutions that exceed federally insured limits. Management may perform periodic evaluations of the relative credit standing of these institutions. The Company has not sustained any material credit losses from these instruments.

Financial Instruments. The carrying values reflected in the statement of financial condition at December 31, 2024 reasonably approximate the fair values for financial instruments. In making such assessment, the Company has utilized discounted cash flow analyses, estimates, and quoted market prices as appropriate. An allowance is established, as necessary, for potential credit losses.

2. LIABILITIES SUBORDINATED TO CLAIMS OF GENERAL CREDITORS

The Company had no borrowings under subordination agreements at December 31, 2024.

3. COMMITMENTS AND CONTINGENCIES

Operating Lease. In February 2016, the FASB issued new guidance (ASC 842-Leases). Under ASC 842, a lessee will recognize in the statement of financial condition a liability to make lease payments (the lease liability) and a right-to-use asset representing its right to use the underlying asset for the lease term. ASC 842 retains a distinction between finance leases (i.e. capital leases) and operating leases that have initial terms of twelve months or longer. The Company currently operates remotely in the home offices of its Principals. The Company reimburses its Principals for home office expenses, use, and associated utilities at a rate of \$1,000 per month each. The company paid \$24,000 to its principals for the year ended December 31, 2024.

4. NET CAPITAL REQUIREMENTS

Under Rule 15c3-1 of the Securities Exchange Act of 1934, the Company is required to maintain a minimum net capital (as defined) and a ratio of aggregate indebtedness to net capital (as defined) not exceeding 15 to 1.

The Company's ratio at December 31, 2024 was 0.02 to 1. The basic concept of the Rule is liquidity, its object being to require a broker-dealer in securities to have at all times sufficient liquid assets to cover its current indebtedness. At December 31, 2024, the Company had net capital of \$58,339 and was \$53,339 in excess of the amount required by the SEC.

Notes to Financial Statements

5. COMPUTATION FOR DETERMINATION OF RESERVE REQUIREMENTS AND INFORMATION RELATING TO THE POSSESSION AND CONTROL REQUIREMENTS UNDER RULE 15c3-3

The Company relied on the provisions in Footnote 74 to SEC Release 34-70073 for the calendar year 2024.

6. FASB ASC 280 SEGMENT REPORTING, AS AMENDED BY THE FASB ASU 2023-07

According to the guidance in FASB ASC 280, Segment Reporting, as amended by the FASB ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, which requires the companies, including those with a single reportable segment, to disclose additional information about a reportable segment's expenses in interim and annual periods, among other requirements.

The Company is engaged in a single line of business as a securities broker-dealer, which is comprised of one class of services, including investment banking, investment advisory, and venture capital businesses. The Company has identified its Finance Operations Principal and Managing Member, Mitchell Little, as the chief operating decision maker ("CODM"), who uses net income to evaluate the results of the business, predominantly in the forecasting process, to manage the Company. Additionally, the CODM uses excess net capital, which is not a measure of profit and loss, to make operational decisions while maintaining capital adequacy, such as whether to reinvest profits or make member distribution. The Company's operations constitute a single operating segment and therefore, a single reportable segment, because the CODM manages the business activities using information of the Company as a whole. The accounting policies used to measure the profit and loss of the segment are the same as those described in the summary of significant accounting policies. The company derived 99.3 percent of its total revenue from three external customers in 2024.

The following tables present the segment revenue and significant expenses for the year ended December 31, 2024.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about Coronado Investments LLC's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on Footnote 74 of the SEC Release No. 34-70073 adopting amendments to 17 C.F.R. § 240.17a-5, and related SEC Staff Frequently Asked Questions.
