

MEMORANDUM

To: Crypto Task Force Meeting Log
From: Crypto Task Force Staff
Re: Meeting with Representatives of Dragonchain

On March 24, 2025, Crypto Task Force Staff met with representatives from Dragonchain.

The topic discussed was approaches to addressing issues related to regulation of crypto assets. Dragonchain representatives provided the attached document, which was discussed during the meeting.

SEC / Dragonchain Meeting Agenda

(for meeting requested Mar 14 2025)

Agenda: Blockchain Technology and Non-Financial Applications

Meeting with SEC Crypto Task Force

Requested by: Joe Roets, Founder & CEO, Dragonchain

Duration: 30-60 minutes

1. Introductions & Purpose

- Introduction of participants
- Purpose of the meeting:
 - Discussion focused solely on blockchain technology and its non-financial applications
 - Ensuring accurate understanding of blockchain's role in U.S. innovation
 - Provide critical insights into broader applications of blockchain beyond financial use cases for consideration in future regulatory frameworks

2. Overview of Blockchain as a Non-Financial Software Technology

- Blockchain as a foundational software technology, not just a financial tool
- Core capabilities:
 - Measurable Proof (immutability, verification, timestamping)
 - Secure Automation (smart contracts, workflow orchestration)
 - Decentralized Identity and Authentication (privacy-preserving identity management)
 - Advanced Behavior Systems (incentivizing actions and accountability)
 - Blockchain as a historical record for transparency and integrity

3. Real-World Use Cases of Blockchain Beyond Finance

- Fraud prevention and compliance
- Incentivizing productive behavior through measurable proof
- Immutable historical records for accountability and transparency
- Additional applications in:
 - Identity and cybersecurity
 - Supply chain and regulatory compliance
 - Artificial intelligence and predictive analytics

- Decentralized social media and content moderation

4. Q&A & Closing Remarks

- Address questions from SEC representatives
- Summary of key takeaways on blockchain's impact beyond financial markets
- Offer to provide additional resources or follow-up discussions
