COMPLAINT

25 Civ. ____ ()

JURY TRIAL DEMANDED

Plaintiff Securities and Exchange Commission (“Commission”), for its Complaint against Defendants Justin Chen (“Chen”) and Jun Zhen (“Zhen”) (collectively, “Defendants”), alleges as follows:

SUMMARY

1. From at least January 2025 to June 2025 (the “Relevant Period”), Chen and Zhen, then employees of EdgarAgents LLC (“EdgarAgents”), engaged in a brazen insider trading scheme, unlawfully trading in stocks of multiple companies that used EdgarAgents to assist them with making public filings in the Commission’s Electronic Data Gathering, Analysis, and Retrieval (“EDGAR”) system.

2. As employees at EdgarAgents, Defendants regularly had access to nonpublic information about EdgarAgents’s clients through a shared EdgarAgents email account to which clients sent filings to process (the “Inbound Email Account”).

3. This nonpublic information in the filings included significant company announcements related to important events including mergers and earnings results.

4. As employees of EdgarAgents, Chen and Zhen were required to keep client information confidential and were prohibited from engaging in insider trading.

5. On at least thirteen occasions during the Relevant Period, Chen and Zhen obtained material nonpublic information (“MNPI”) from the Inbound Email Account and traded on that information. Through this trading, Chen and Zhen together obtained ill-gotten profits of more than \$2.2 million.

6. After profiting from this scheme, Chen and Zhen attempted to leave the country, but were arrested before fleeing for conduct relating to the allegations herein.

VIOLATIONS

7. By virtue of the foregoing conduct and as alleged further herein, Defendants Chen and Zhen have violated Sections 10(b) and 14(e) of the Securities Exchange Act of 1934 (“Exchange Act”) [15 U.S.C. §§ 78j(b); 78n(e)], and Rules 10b-5 and 14e-3 thereunder [17 C.F.R. §§ 240.10b-5; 240.14e-3].

8. Unless Defendants are restrained and enjoined, they will engage in the acts, practices, transactions, and courses of business set forth in this Complaint or in acts, practices, transactions, and courses of business of similar type and object.

NATURE OF THE PROCEEDINGS AND RELIEF SOUGHT

9. The Commission brings this action pursuant to the authority conferred upon it by

Exchange Act Sections 21(d) and 21A(a) [15 U.S.C. §§ 78u(d); 78u-1(a)].

10. The Commission seeks a final judgment: (a) permanently enjoining Defendants from violating the federal securities laws and rules this Complaint alleges they have violated; (b) ordering Defendants to disgorge all ill-gotten gains they received as a result of the violations alleged here and to pay prejudgment interest thereon, pursuant to Exchange Act Sections 21(d)(3), 21(d)(5), and 21(d)(7) [15 U.S.C. §§ 78u(d)(3), 78u(d)(5), and 78u(d)(7)]; (c) ordering Defendants to pay civil money penalties pursuant to Exchange Act Section 21(A) [15 U.S.C. § 78u-1]; and (d) ordering any other and further relief the Court may deem just and proper.

11. This Court has jurisdiction over this action pursuant to Exchange Act Sections 21, 21A, and 27 [15 U.S.C. §§ 78u; 78u-1; 78aa].

12. Defendants, directly and indirectly, have made use of the means or instrumentalities of interstate commerce or of the mails in connection with the transactions, acts, practices, and courses of business alleged herein.

13. Venue lies in this District under Exchange Act Section 27 [15 U.S.C. § 78aa]. Defendants may be found in and are inhabitants of the Eastern District of New York, and certain of the acts, practices, transactions, and courses of business alleged in this Complaint occurred within this District, including the Defendants placing many of the trades described herein.

DEFENDANTS

14. **Chen**, age 31, resides in Brooklyn, New York. Chen worked at EdgarAgents from July 9, 2020 to June 29, 2025 as an EDGAR Assistant Manager, helping track and process client requests. Chen was terminated from EdgarAgents in connection with the conduct described herein.

15. **Zhen**, age 29, resides in Brooklyn, New York. Zhen worked at EdgarAgents from March 4, 2021 to June 29, 2025 as a Typeset Assistant Manager, dealing with EDGAR filings that required “typeset” formatting. Zhen was terminated from EdgarAgents in connection with the conduct described herein.

OTHER RELEVANT ENTITY

16. **EdgarAgents** is headquartered in New York, New York. It is a full-service EDGAR filing agent. Annually, it processes over 40,000 SEC filings in the EDGAR system.

FACTS

I. BACKGROUND

A. EDGAR and EdgarAgents, Generally

17. Pursuant to the federal securities laws, public and other companies are required to make certain, regular disclosures.

18. These disclosures may include Forms 10-K (annual reports of companies’ financial performance) and Forms 10-Q (quarterly reports of company’s performance during a certain period).

19. These disclosures may also include current reports on Forms 8-K, which are used to timely notify shareholders of certain events that may be important to them that fall outside of periodic reporting windows.

20. EDGAR is the primary system that companies and others filing documents use to make filings required under the Securities Act of 1933, the Securities Exchange Act of 1934, the Trust Indenture Act of 1939, and the Investment Company Act of 1940, including Forms 10-K, Forms 10-Q, and Forms 8-K.

21. The EDGAR system processes about 4,700 filings per day.

22. EdgarAgents, and other companies providing similar services, help companies make filings on EDGAR.

23. These companies, commonly referred to as “filing agents,” typically can assist with the technical process of making filings on EDGAR, as well as, if necessary converting documents into the proper format for EDGAR, adding machine-readable tags to filings (called inline XBRL tagging), typesetting, and printing of shareholder communications.

B. Through Their Work at EdgarAgents, Defendants Had Regular Access to MNPI about Publicly-Traded Companies

24. EdgarAgents maintained the Inbound Email Account to track and process filings for clients.

25. During the Relevant Period, all managers and assistant managers (including Chen and Zhen) had access to all inbound requests from clients submitted to the Inbound Email Account.

26. Many client requests related to processing Forms 8-K.

27. As part of their jobs at EdgarAgents, Chen and Zhen were tasked with opening the submitted requests from the Inbound Email Account, understanding the nature of the inbound job from the client, and forwarding the message to the appropriate member of EdgarAgents’ offshore production team.

28. The offshore production team would then do any required conversion and send the draft filing back to the U.S.-based team (including Chen and Zhen), who would review it before sending it back to the client for approval.

29. During the Relevant Period, about 30 EdgarAgents employees, including Chen and Zhen, used an internal EdgarAgents instant message group (“Inbox Chat”) to exchange messages about the status of requests received in the Inbound Email Account.

30. These Inbox Chat messages covered the status of multiple filings and client requests, and generally listed the client name and filing type (*e.g.*, Form 8-K) that were in process on any given day.

31. Through their roles and access to the Inbound Email Account, Defendants obtained nonpublic information directly from issuers of securities that were clients of EdgarAgents.

32. Chen and Zhen were both remote employees and could work from home or while traveling abroad.

C. EdgarAgents' Policies Prohibited Defendants from Disclosing or Trading on Nonpublic Information Obtained Through Their Employment

33. During the Relevant Period, Chen and Zhen were subject to policies and procedures laid out in EdgarAgents' employee handbook. These policies and procedures included requirements to keep client information confidential and prohibitions on insider trading.

34. The employee handbook in place from March 12, 2024 through May 19, 2025 included the following language:

The Company has received and in the future will receive from third parties their confidential or proprietary information subject to a duty on the Company's part to maintain the confidentiality of such information and to use it only for certain limited purposes. All employees agree to hold all such confidential or proprietary information in the strictest confidence and not to disclose it to any person, firm or corporation or to use it except as necessary in carrying out the work for the Company consistent with the Company's agreement with such third party.

35. The handbook was updated on May 20, 2025 and continued to include the above language.

36. The May 20, 2025 handbook added the following language on insider trading:

Insider trading is strictly prohibited at EdgarAgents and is a violation of both company policy and federal securities laws. Insider trading involves the buying or selling of EdgarAgents clientele's securities based on material, nonpublic information that could influence an investor's decision to buy or sell. Employees, officers, directors, consultants,

and affiliates of EdgarAgents must not use confidential information provided to us by our clientele—whether related to their company or its partners—for personal gain or to benefit others. This prohibition extends to anyone who has access to such insider information, including family members, friends, or any individuals who may use this information to trade. Material, nonpublic information includes any facts that could impact an investor’s decision, such as earnings, mergers or acquisitions, or leadership changes. Employees are also prohibited from sharing this nonpublic information with others (known as ‘tipping’). Violations of this policy can lead to severe legal consequences, including civil and criminal penalties, fines, and possible imprisonment, as well as internal disciplinary action, including termination of employment.

37. Additionally, as part of their employment, Chen and Zhen were required to execute an agreement to not use any client information for personal gain.

38. Chen and Zhen both executed this agreement acknowledging they could not use client information for personal gain in January and March 2021, respectively.

II. DEFENDANTS MISAPPROPRIATED NONPUBLIC INFORMATION FROM EDGARAGENTS AND USED IT TO TRADE STOCKS

A. Defendants’ Trading, Generally

39. During the Relevant Period, on at least thirteen occasions, Chen and Zhen each traded in the stocks of clients of EdgarAgents based on MNPI obtained through the Inbound Email Account.

40. Chen and Zhen each had a retail brokerage account in which they conducted trading.

41. Chen opened his brokerage account (the “Chen Brokerage Account”) in or around May 2018.

42. Zhen opened his brokerage account (the “Zhen Brokerage Account”) in February 2025.

43. Chen and Zhen also traded through at least one Hong Kong-based brokerage account (“Hong Kong Account”).

44. The Hong Kong Account was opened in January 2025 in the name of Chen’s

sister-in-law, a Chinese citizen.

45. According to chats between them, Chen and Zhen planned to keep the trading profits in the Hong Kong Account less a 6% “fee” that went to Chen’s sister-in-law.

46. During the Relevant Period, Chen and Zhen routinely reviewed messages sent to the Inbound Email Account to identify filings that contained MNPI.

47. Chen and Zhen regularly discussed their insider trading scheme using an encrypted messaging app.

48. Specifically, Chen and Zhen regularly discussed the content of filings, when the filings would be publicly disclosed, the potential impact of the filings on the price of the relevant securities, and their trading around the filings.

49. On May 21, 2025, Chen wrote to Zhen, in reference to their scheme: “our business is proven to work and it is stable...just treat this [] like a business...u can make 1mil.”

50. Chen and Zhen referred to EdgarAgents’ clients’ filings as “skins.” For example, on June 14, 2025, Chen messaged Zhen: “[l]ook out for skins [o]ver the weekend.”

51. Chen and Zhen placed each of their unlawful trades on the basis of MNPI they obtained about forthcoming filings by EdgarAgents’ clients that they anticipated would cause the client’s stock price to increase.

52. In placing each of these trades, Chen and Zhen knew or at least recklessly disregarded that they were trading based on information that was material and nonpublic and that using the information to enrich themselves through trading was a breach of their duties as EdgarAgents employees.

53. Four examples of Chen’s and Zhen’s trading scheme are detailed in paragraphs 54-128 below.

B. March 2025 Trading in Ondas

54. Ondas Holdings, Inc. (“Ondas”) is a Massachusetts-based provider of private wireless data solutions and commercial drone solutions. Ondas common stock is listed on the NASDAQ exchange where it trades under the ticker symbol “ONDS.”
